FATAL EXPLOSION.

Eleven Lives Lost in City of Chicago.

Marriage of Daughter of Secretary John Hay.

Brother-in-Law of Sultan of Turkey Sentenced to Death.

TREASURER OF BUFFALO ARRESTED.

Chicago, Feb. 6.—It is believed that eleven is the correct number of people who lost their lives by the gas explosion in the Trostel butcher shop, at 76 Twenty-second street last night. Fire Chief Musham today declared his belief that the explosion was that of pocket gas. The dead are Otto Trostel, owner of the butcher shop, his wife, and five children, nephew and niece, and Mary Rosenthal, a neighbor, and an employee in the shop.

MARRIED.

Daughter of Secretary Hay Married to Payne Whitney.

Washington, Feb. 6.—Helen Hay, eldest daughter of the secretary of state, John Hay, and Payne Whitney, of New York, son of the ex-secretary of the navy, were married today at noon at the church of the Covenant. The wedding was the most notable social event of the season in Washington, being celebrated by the presence of the highest officials of the land, including the president and cabinet, and what is recognized as the best New York and New England society. The groom's father, ex-Secretary William C. Whitney, came to Washington with a party of distinguished friends. Presents almost without number have been pouring into the Hay home the last fortnight. It is believed that the number exceeds 400, many being articles of almost priceless worth. The church was artistically decorated with flowers and greens.

Miss Hay entered the church leaning upon the arm of her father, her maids following. On a platform the bridegroom, with his best man, stood waiting. Dr. Tunis Hamlin read the service. The wedding breakfast was spread at the Hay residence. Besides the President and Mrs. Roosevelt and Alice Roosevelt, those at the table were the members of the Hay and Whitney families, college chums of the groom and intimate friends of the bride.

Mr. and Mrs. Whitney left in a private car on a short wedding tour. It is believed that their destination is Thomasville, Ga.

SENTENCED TO DEATH.

Brother-in-Law of the Sultan Condemned to Die.

Constantinople, Feb. 6.—The sultan's brother-in-law, Damad Mahmud pasha, has been sentenced to death. Mahmud has long been prominent in the young Turk movement, and was recently expelled from Greece at the behest of the sultan. Mahmud went to Rome and the sultan requested his expulsion from Italy. It was refused, but Mahmud proceeded to Paris, where he remains in safety.

Buffalo Treasurer Arrested.

Buffalo, N. Y., Feb. 6.—Philip Gerst, former city treasurer, was arrested today, charged with misappropriating \$27,000 of the city's funds. Gerst was removed from office in December by Mayor Diehl.

CHINESE EXCLUSION.

Pacific Coast Wants Chinese Kept Out of This Country.

Washington, Feb. 6.—James D. Phelan, recently mayor of San Francisco, one of the California commissioners appointed by the governor to represent the state before the committee of congress here, was a witness before the house committee on foreign affairs today. He said there was an overwhelming sentiment on the Pacific coast in favor of Chinese exclusion. On the other side were the Pacific Steamship companies, Canadian Railway company, Chinese diplomatic representatives and several retained attorneys and returned missionaries.

Murdered and Cremated.

Tucson, Ariz., Feb. 6.—The charred corpse of A. T. Vail, a pioneer rancher, was found in the ruins of his house at Aravaipa canyon, eighty-five miles from Tucson. It is believed that Apache Indians killed Vail, looted the house

and burned it. The Indians are much dissatisfied on account of the government cutting off their rations.

NEGROES LYNCHED.

Two of Friendless Race Meet Death From Mobs.

Nicholasville, Ky., Feb. 6.—William Brown, the negro who assaulted Miss Della Powell yesterday was taken from the officers this afternoon and lynched. The negro had been fully identified.

Miss Powell is a student of Jesemine Institute of this city, and lives with her brothers at home, about three miles north of town. She was assaulted when walking on her way home last evening.

Nashville, Tenn., Feb. 6.—Eulyssees Whitaker, colored, charged with the murder of John Foster, three weeks ago, was taken from the jail by a mob last night and lynched.

SUIT COMPROMISED.

Texas Brings a Railroad to Time by a Suit.

Dallas, Texas, Feb. 6.—Suit brought by the state against the St. Louis & Southwestern railroad in Smith county for alleged non-maintenance of a general office in Texas, claiming penalties of \$36,500, and asking forfeiture of the road's charter, has been compromised by the state accepting \$10,000 and withdrawing suit. The road's officials violated the statute.

ELKS WILL BUILD.

Intend to Erect Opera House and Lodge Hall.

WILL RECEIVE PROPOSALS.

The Elks of this city have an enterprising membership and they have taken hold in earnest of the proposition to erect a lodge hall and opera house combined in this city. Several meetings have been held and much discussion of the plan has been indulged in. A special building committee was selected several weeks ago, who have devoted much work to the details. At a well attended special meeting of the lodge last evening several verbal propositions were received from property owners, offering to sell a site for the proposed building. Three or four excellent sites are under consideration. They are the San Felipe block on West Gold avenue; the corner on Gold avenue and Fourth street, northeast of the Commercial club building; the A. A. Grant lots on the corner of Gold avenue and Third street, and the lots opposite the Highland hotel, which the property owners in that vicinity offer to donate in addition to a cash donation of \$1,000. The San Felipe lots can be purchased for \$7,500; the Stamm-Kent lots, opposite Commercial club, for \$4,400; the Grant lots for \$7,700. It is also understood that excellent lots can be bought on West Railroad avenue.

The Elks finally decided to ask property owners to submit their propositions in writing to the secretary of the lodge before Saturday night, stating terms, interest, etc., with option for thirty days on the property. The Elks will hold a special meeting on Saturday evening, at which time all proposals will be carefully considered.

NOT OFFICIALLY INFORMED.

Architect Whittlesey Got His Information From The Citizen.

C. F. Whittlesey, the well known architect, stated to The Citizen this morning that he has not been officially informed that the Santa Fe railway company would construct a handsome building on the present Putney site for an archaeological and ethnological museum, and all he knew about the matter was what he had read in The Citizen. When told that The Citizen article on the subject of a few weeks ago on the subject, had but recently been confirmed by an Associated Press dispatch from headquarters at Chicago, Mr. Whittlesey at once stated, "that it must be so if The Citizen and the Associated Press had so declared."

Regarding the rebuilding of the Rincon railway eating house, destroyed by fire, according to a special dispatch to The Citizen on Tuesday morning of this week, Mr. Whittlesey stated that he was expecting news from Chicago telling him to draw plans and specifications for a new building for Rincon almost any day.

"The new building," continued Mr. Whittlesey, "will be of modern design, more convenient and up to date, and will be of cement on the outside, the same as the Alvarado hotel. It will be an ornament to Rincon."

British Steamer Floated.

New York, Feb. 6.—The British steamer Cavour, from Rio Janeiro for New York, which went ashore at Long Beach, L. I., January 31, in a snow storm, was floated early today.

P. A. Gullion and F. Baumgardner are spending the day in Bernadillo.

ISTHMIAN CANAL.

San Blas Route Has an Advocate.

Result of Parliamentary Election in Ireland.

Death of a Famous French Woman in Paris.

BULGARIAN MINISTER ASSASSINATED.

Washington, Feb. 6.—Senator Scott, of West Virginia, called up his resolution offered several days ago, providing for the appointment of a commission of experts to examine the San Blas or Mandingo Bay route for an isthmian waterway and report to the senate the cost of constructing an interoceanic canal by that route. He said that the San Blas route met practically every requirement of the proposed waterway, but because the adoption of that route involved the driving of a tunnel through a granite mountain range sufficiently large to admit the passage of any ship afloat, the route had been regarded impracticable. Personally he was convinced that such tunnel could be constructed at reasonable cost. For the following reasons Mr. Scott believed that the San Blas route was the only feasible and practical sea level canal route: Its healthy location, shortness, magnificent harbors, total absence of locks, and the possibility of working gangs of men night and day, in wet and dry seasons, under good sanitary conditions.

A very important consideration was that by this route and no other sailing vessels could be towed by electric power, night as well as day, thus effecting a great saving of time and expense, and the economical maintenance of the canal. Also, the permanency of its rock bed and absence of earth embankment, and the desirable fact that it can be constructed within three or at most five years.

Mr. Morgan, chairman of the committee on interoceanic canals, moved that the Scott resolution be referred to that committee. He said that the committee had General Sorrell, promoter of the San Blas route, before it, and the matter had been referred to a subcommittee which was now conducting the investigating of that project.

The committee was investigating thoroughly all matters pertaining to the isthmian canal, and would lay the facts concerning all the routes before the senate. Without objection the resolution was referred to the committee on interoceanic canals.

IRISH ELECTION.

Dublin Rejoices Over Victory of Land Purchase Candidate.

Dublin, Feb. 6.—The election of a member of parliament from east division of the County of Down to succeed Dr. J. A. Rentoul (conservative), resulted as follows:

James Wood, (land purchase candidate), 3,576; Col. H. Wallace, (Unionist), 3,429; Wood's majority, 147. The result is the first fruits of T. W. Russell's compulsory land purchase campaign against the government, of which he is former member, as parliamentary secretary of the local government board. A great demonstration followed the announcement of the vote.

Russell and Wood were carried on shoulders of their supporters through the streets. Russell, in a speech, challenged the unionist members of parliament for Ulster to vacate their seats and said that he would contest them.

FAMOUS WOMAN DEAD.

Directress of a Noted French Paper Dies in Paris.

Paris, Feb. 6.—The correspondent of the New York Herald cables announcement of the death today of Mme. Ratazzi De Rute, directress of the Nouvelle Revue Internationale.

Under the name of "Baron Stock" Mme. Ratazzi De Rute conducted the Nouvelle Revue Internationale, and was for years one of the most celebrated women of Europe. She was a daughter of Letitia Bonaparte, niece of Napoleon I., and Thomas Wyse, once British minister to Greece.

WOOL GROWERS.

They Protest Against Proposed Reduction of the Tariff.

Helena, Feb. 6.—The Pacific Northwest Association of Wool Growers today in a resolution addressed President Roosevelt and congress, and attacked S. N. D. North, statistician of the department of manufacturers under the census, and the national secretary of the National Association of Wool Manufacturers, who is leading a fight at Washington against the tariff on wool. The association unanimously passed resolutions endorsing the Grosvenor pure wool bill.

retary of the National Association of Wool Manufacturers, who is leading a fight at Washington against the tariff on wool. The association unanimously passed resolutions endorsing the Grosvenor pure wool bill.

SOUTHERN REPRESENTATION.

Congressman Talbert Opposes the Bill in a Speech.

Washington, Feb. 6.—Under the latitude allowed in general debate in the house, Mr. Talbert, of South Carolina, made a speech in opposition to the proposition emanating from the other side to cut down the southern representation because of abridgement of the franchise.

At the conclusion of Mr. Talbert's remarks the bill was read for amendment under the five-minute rule.

Chinese Mutiny.

Vancouver, B. C., Feb. 6.—The steamer Empress of China brings news that 200 Chinese mutineers fired on the British steamer Nanking on West river, wounding the chaplain of the British flagship Glory, and slightly injuring another officer.

Bulgarian Minister Assassinated.

Sofia, Feb. 6.—M. D. Kantcheva, minister of public instruction, was assassinated today in his study by a Macedonian, who pretended that he wanted to present a petition. The assassin committed suicide, shooting himself.

CHARLESTON EXHIBIT.

This City Makes Liberal Subscription to the Fund.

OVER \$400 ALREADY RECEIVED.

The Commercial club committee, consisting of R. W. D. Bryan, Noa Ilfeld and Thomas Hughes, have made a close canvass of the city and have secured over \$400. They hope to secure the necessary \$500 by tomorrow night. There are two tons of mineral exhibits already collected and stored in this city, in addition to an exhibit of grains and vegetables, which will be shipped to Charleston when the \$500 fund is secured. The Hyde Exploring company have a large exhibit now on exhibition in Chicago, which it is intended to send to Charleston along with the New Mexico exhibit. If carried out as planned, New Mexico will have a most creditable exhibit at Charleston, which will be due entirely to the enterprise of this city and the liberality of the Hyde Exploring company.

Albuquerque does things, as this Charleston exhibit matter abundantly shows. Other towns should have helped in this matter, but they have not done so. At the close of the Charleston exposition, the mineral exhibit will be shipped to St. Louis and placed with the New Mexico exhibit at the great World's Fair in 1903.

Mr. Bryan requests mine owners and others having articles for exhibition, to send them to him in this city, and he will promptly forward them to Charleston.

MARKET QUOTATIONS.

[Market quotations and review furnished by W. P. Metcalf, No. 5 Cromwell block, received over the private wire of Logan & Bryan, Chicago.]

New York, Feb. 6.—The market took a brace today and was strong and active all day. The transactions were large and the buying of better character than there has been for a long time. All the good stocks made gains and a great many of the specialties were advanced. Vanderbilts were particularly strong. At the close the market was irregular and profit-taking had some effect. The tone, however, was good and with the talk of higher prices.

IRRIGATION BILL.

Senator Hansborough Speaks in Its Favor.

Congress Debating the Appropriation Bills.

Dutch Peace Proposals Mailed to Boers in the Transvaal.

ADMIRAL SCHLEY IN KNOXVILLE.

Washington, Feb. 6.—Hansborough, of North Dakota, addressed the senate on his bill appropriating the receipts of the sale of public lands in certain states and territories to the construction of irrigation works for reclamation of arid land. He claimed that the proposition was not a sectional one, and said it would provide homes for many now homeless.

The irrigation bill was ordered to be unfinished business when the Philippine tariff bill was discussed. The senate passed a bill appropriating \$2,500,000 for a postoffice building in New York city.

Dutch Peace Proposals.

London, Feb. 6.—In the house of commons today, Mr. Balfour, government leader, announced that copies of the correspondence exchanged between the government of the Netherlands and the government of Great Britain on the subject of peace in South Africa, had been mailed to Lord Milner, high commissioner for South Africa, who would be instructed to ask Lord Kitchener to communicate the contents to the Boer leaders in the field.

Admiral Schley.

Knoxville, Tenn., Feb. 6.—This forenoon Admiral and Mrs. Schley visited the University of Tennessee, and held a levee in the science hall of the auditorium, where Admiral Schley subsequently addressed the students. This afternoon he dedicated a marble marker on the site of the first block house or fort built by the first settlers of Knoxville.

Debating Appropriation Bill.

Washington, Feb. 6.—Consideration of the oleomargarine bill was laid aside in the house today and the legislative, executive and judicial appropriation bill was taken up. Attempt

to limit the general debate to two hours failed.

Denver Callers.

J. P. Paulson, manufacturer of bank, office, bar and store fixtures and agent for the Brunswick-Balke-Collender company of Chicago, and his southwestern representative, Max Baer, were introduced at The Citizen office today by Col. Geo. K. Neher. These gentlemen are from Denver, and Mr. Paulson has just secured a contract from Mr. Neher to furnish the handsome fixtures for "The White Elephant" resort, Mr. Neher having secured a lease on the Harrison building clear out to Railroad avenue. "The fixtures," said Mr. Paulson, "will be the finest ever turned out of Denver, and when put up and placed in position will show The White Elephant up in fine style." The gentlemen will leave for the north tonight.

Socialists Nominees.

The socialist party of this city met night before last and made the following change in their ticket for the city election: C. A. McKim will be the candidate for school trustee of the First ward, vice Thomas Dye, who will run for Alderman of the same ward, vice F. H. Mitchell, resigned. Thomas Seward is the candidate for trustee of the Fourth ward.

Hon. Amado Chaves, mayor of Santa Fe, is here on important business.

TWO MARRIAGES.

The Dedman-Dennison Nuptials at the Indian School.

DAVIS-GIRARD MARRIAGE.

DEDMAN-DENNISON.

The assembly hall of the Indian school was the scene of a beautiful wedding last evening, the contracting parties being Miss Ethel Dennison, one of the employees, and E. J. Dedman, of Alamogordo.

The hall was tastefully decorated in green and white, and as the beautiful strains of Mendelssohn's Wedding March floated out, the wedding party advanced to meet Father Juillard, who spoke the impressive words that united the happy couple.

The bride was attended by Miss Anna Bush, the best man being James Laurie, of Alamogordo, while two pretty little flower girls led the way. The bride was beautifully dressed in white and carried a handsome shower bouquet. Her only ornament was a pearl and diamond crescent, the gift of the groom. The bridesmaid wore white organdie over blue taffeta and carried pink carnations. The groom and his best man were attired in the conventional black.

After receiving the hearty congratulations of friends, dainty refreshments were served, after which the happy couple left on a short trip to Mexico.

Mr. and Mrs. Dedman were the recipients of many costly and elegant presents, and have the best wishes of a host of friends for the future.

They will reside in Alamogordo, where Mr. Dedman is connected with the El Paso & Northeastern railway.

DAVIS-GIRARD.

Charles Davis, a Santa Fe Pacific engineer, and Miss Lizzie Girard, an estimable young lady living on North Fifth street, were united in marriage last night, the event occurring at the bride's home.

The bride and groom are both well known in Albuquerque, they being popular in Catholic church circles, and their many friends will be pleased to learn that they will have their home in this city.

Rev. M. Mandalari performed the ceremony.

Only the most intimate friends of the family were present.

Wants Information.

Editors Citizen. Thornton, N. M., Feb. 4.—Will you put in The Citizen the date of the Chinese new year. I have seen no orders from the empress dowager, and Jim Sing has not heard yet and he is anxious. Yours truly,

S. H. BOGARDUS.

For the information of Major S. H. Bogardus and Col. Jim Sing, two well known citizens of Thornton, a Citizen representative called on several local Chinamen, and they state that their new year starts tomorrow (Friday), and will last two days, therefore it behooves Major Bogardus and Col. Sing to make preparations to commence celebrating tomorrow morning bright and early.

L. A. Warner has just completed a cosy four room residence on his property at 509 Atlantic avenue.

Business was light in Judge Crawford's court this morning. One vagrant was given time to leave town.

Mines and Minerals

The new find in the Jicarilla camp is nearly south of the Phillips place. Return certificate shows \$180 per ton in copper, gold and silver. The country rock is lime now. It may change as depth is gained.

Mrs. C. L. Archibald and C. N. Pettes have filed notice at Las Vegas of nine mining locations in the Seismic mining district, San Miguel county. The Victoria, K. P., Lost Claim, Madeline, Peoro, El Burro, Little Boy and Hill site.

The officials of the Mining Company of America are at Bisbee, Ariz., coming from almost all parts of the country. They are the owners of the Tombstone mines, and are to arrange for extensive work. A special train brought Frank Murphy, president of the company, and all the other officers. Twenty-seven car loads of machinery is to be installed at once, big plants having already been put in place.

Reports that a rich strike has just been made in the Andrew mine in the Hillsboro district in Sierra county, have been confirmed. The strike shows 7½ feet of ore between walls assaying on an average of \$16 in gold. It is expected that the ore will increase in richness as the work on the lead progresses. This ore body runs from the 300 to the 400-foot level of the mine. The property is owned by Senator W. H. Andrews, president of the Santa Fe Central railway, and Pittsburg capitalists.

The White Oake Eagle correspondent from Angus says: There is still a heavy mantle of snow in our "Klondike" on the south fork of the Bonito. The snow has not melted much but it is reported that there are some few claims being worked. From further information the ore seems to be scattered all over the whole width of the claims—600 feet. Have not visited the locality. Perhaps this find is another Parsons hopeful. It is not possible that this deposit of gold over so large an area is the result of the decay or disintegration of a dyke?

When you lack energy, do not relish your food, feel dull and stupid, after eating, all you need is a dose of Chamberlain's Stomach & Liver Tablets. They will make you feel like a new man and give you an appetite like a bear. For sale by all druggists.

Mr. Wheeler Got Rid of His Rheumatism.

"During the winter of 1898 I was so lame in my joints, in fact all over my body, that I could hardly hobble around, when I bought a bottle of Chamberlain's Pain Balm. From the first application I began to get well, and was cured and have worked steadily all the year.—R. Wheeler, Northwood, N. Y. For sale by all druggists.

THE BROMIDE DISTRICT.

What One of Its Most Extensive Operators Thinks of Its Future.

W. A. Bell, of Tres Piedras, resident manager for the Pontiac (Mich.) Gold & Copper Mining company, has been in Santa Fe for the past few days looking after the company's interest in an adverse suit in which they are involved. In speaking of the future of the Bromide district, Mr. Bell says:

"I have been for years interested in one way and another in mining in New Mexico, and am thoroughly convinced that the Bromide district has a great future, which only requires a little patience and judgment to develop. There is not a district in the territory which has a better showing for the amount of work done than has ours. We have all over the camp prospects that give every promise of some day becoming rich mines, and there is not, that I can recall now, a single claim which does not promise well. We have mineral at grass roots, which you know is a mighty good indication, as in our kind of rock it gets richer as you go down. "There are half a dozen mines in the camp, including the great Whale, which could ship tomorrow if there was a profitable method of shipping. The Pontiac company is down 240 feet in one of its claims and has had ore all the way.

"According to the opinion of some of the best experts in the country we have got to go down to the base of the mountain, which, where we are, is 300 feet, to get the real ore, and there it will be very rich.

"Yes, I am confident that all any of the companies in the district have got to do is perform a reasonable amount of judicious development to make the Bromide one of the richest districts in the territory, and thereby make Tres Piedras one of the liveliest little camps in the west. And I confidently look for this development and consequent boom within the next year."

The Godiva at Work.

The Lady Godiva resumed operations at White Oaks. The Godiva is the property of W. H. Harris, of St. Louis, and is being worked by his superintendent, B. H. Dye, of White Oaks, who has represented Mr. Harris's interests for several years. The property has produced some very rich ores, and being situated as it is, in the immediate vicinity of the Old Abe, is expected to be a valuable producer.

Smallpox in San Juan.

Jewett, Fruitland and Olio are experiencing an epidemic of smallpox in a mild form. Our citizens should use great care in visiting that section, and everyone coming from there here should be questioned and if exposed to the disease be turned back without further delay. If those afflicted or who have been exposed do not use good care it is our duty that we protect ourselves. The territorial laws provide a fine of from \$25 to \$100 for

exposing others to any contagious disease. Several Mexicans from this side of Olio were here Saturday, fairly spotted with smallpox, and when told to leave town became indignant and explained it was three days since they were sick.

If our health officer will do his duty and fine those offending, there will be no danger of the disease being brought here, and within a few weeks will have run its course west of us.—Farmington Hustler.

Dissertation on Envy.

Probably the thing that causes more grief than anything else in the world, next to what wrongfully passes under the name of love, says William Allen White, is envy. Envy is the first and best sign that a man who has it, is losing his sense. For no one is really worth it. To envy any human being merely indicates that you don't stop to think of his troubles. Life even things up in the world better than we realize. The man highest up on the ladder has the biggest drop before him and the dullest head. The man lower down has the fun. Riches bring their own burdens, power its own handicap, glory its own drawbacks. The richest man in this town would trade places with a hundred poor men if he could. The poorest man in town has his good fortune. Hundreds of men and women who are subjects of envy are carrying secret burdens of pain and sorrow. There is no canker like a hidden crime and more than half the misdeeds of the world are punished by ulcers in the heart. The man who is not found out is the man to pity, not to envy—and the world is full of such men.

The more sense a man gets the surer he is that every man carries his own burden and the heavier it gets. The more sense a man gets the surer he is to bestow charity on the rich and poor alike and to envy no one. Charity is the essence of philosophy and religion and happiness. It is all there in the common sense. Malice never led a man to any good end; envy never made anyone stronger or more useful in his trade or business. But given covetousness in a man's heart and crimes tempt him, all evil beckons to him. If men and women would only learn to live simply and wholesomely, minding their own business, the millennium would come in a few days.

Saved Her Child's Life.

"In three weeks our chubby little boy was changed by pneumonia almost to a skeleton," writes Mrs. W. Watkins, of Pleasant City, Ohio. "A terrible cough set in, that, in spite of a good doctor's treatment for several weeks, grew worse every day. We then used Dr. King's New Discovery for consumption, and our darling was soon sound and well. We are sure this grand medicine saved his life." Millions know it's the only sure cure for coughs, colds and all lung diseases. All druggists guarantee satisfaction, 50c. \$1.00. Trial bottles free.

Unsuccessful Confidence Game.

Two fairly sleek looking strangers drifted into Silver City Sunday and in the afternoon made an unsuccessful attempt to beat the roulette wheel in the Palace saloon. One played the game and the other sat by and apparently looked on, but in fact was trying to regulate the movements of the wheel by a cane which he was manipulating from underneath the table. For a time the player lost, but soon his "system" commenced coming and he was in a fair way to take in the bank roll when the suspicions of the attaches of the house were aroused. The men were watched closely and their game ex-

posed. Settlement was generously made by paying them back what they had lost and not cashing the checks which they had won. Their work was very coarse and they were evidently not experts at their game.—Independent.

LAND DEAL.

American Company Buys Timber Land in Mexico.

The Development Company of America has bought from H. C. Smith, of San Francisco, and J. R. Davis, of Wisconsin, 500,000 acres of timber land in Chihuahua. The price paid for the land is understood to be a million dollars gold.

H. C. Smith is in the city today to meet F. M. Murphy and E. H. Hooker, president and vice president of the Development company, who will arrive in the city tonight from the west. After a brief stay here they will go to the timber land and remain about two weeks.

The timber acquired is said to be some of the finest in the world. It is located about fifty miles southwest of the terminus of the Sierra Madre railroad on the western slope of the mountains bearing the same name.

The property is best known as the Garcia tract, and was purchased by Smith and Davis from Telesforo Garcia about two years ago. It is estimated by competent experts that there are fully 6,000,000,000 feet of lumber on the land.—El Paso Herald.

He Recommends Chamberlain's Cough Remedy.

"I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in this remedy.—Mrs. J. A. Moore, North Star, Mich. For sale by all druggists.

OF LOCAL INTEREST.

From the New Mexican.

Mrs. Thomas Hughes, of Albuquerque, will arrive on Sunday next to pay a few weeks' visit to her daughter, Mrs. O. C. Watson.

Charles A. Stevens, of Albuquerque, and Mrs. A. P. Feyerhelm, of Bland, were married yesterday at the home of James Tyrrell, at Albuquerque.

Governor Otero, Secretary Reynolds and Associate Justices McFie and McMillan were passengers on the noon train for Albuquerque, where they will attend the banquet given by the Commercial club in honor of Judge Baker.

Mr. and Mrs. A. M. Bergere will leave this evening for Albuquerque, where Mrs. Bergere will remain for a few days the guest of Mr. and Mrs. N. B. Field. Mr. Bergere expects to return home tomorrow.

E. J. Dedman, assistant to general manager Greig, of the El Paso & Rock Island railroad, who lives at Alamogordo, and Miss Ethel Dennison, a teacher in the Indian school at Albuquerque, were married today in the latter city.

Ordered to Fort Bayard.

The following soldiers suffering from pulmonary diseases have been ordered to the United States sanitarium at Fort Bayard, Grant county, for treatment: Private Benj. L. Owen, of coast artillery, Alcatraz Island; Privates John F. Moore, troop M, Sixth cavalry; C. A. Curtis, company M, Second infantry; T. T. Moran, company K, Fifth infantry; U. S. Williams, company H, Ninth infantry; W. H. Ryan, company A, Tenth infantry; Sergeant Charles H. Fix, band, Eleventh infantry; Private James M. Polly, company A, Nineteenth infantry; Corporal Ernest E. Pollock, company K, Twentieth infantry, all from the Presidio of San Francisco.

SORE NECK

Take Scott's Emulsion for scrofula. Children often have sores on the neck that won't heal up. The sores may come and go. Parents may not know what's the matter nor what to do. Scrofula is the trouble and Scott's Emulsion is the medicine.

Scott's Emulsion heals the sores. But that is not all. Scrofula leads to consumption. This is the real danger.

Scott's Emulsion is the "ounce of prevention" that keeps off consumption.

We'll send you a little to try, if you like. SCOTT & BOWNE, 409 Pearl street, New York.

Military Ball a Great Success.

The military ball given last evening at Rosenthal hall by the officers and troopers of Troop A, proved to be a grand success. About thirty couples enjoyed the dancing which continued from 8:30 to 12 o'clock, when "Home, Sweet Home" gladdened the ears of the merry young dancers.

The young ladies in their rich evening gowns and the young men in their uniforms presented a very gay and attractive appearance.

The music furnished by Messrs. Kasper, Sporleder, Smith and Crites was excellent.

It is the intention of the troop to give these military hops about once a month, that the members of the troop may receive some pleasure as well as hard drilling out of the organization. The next one will probably be given on the night of February 22 at the Casino, to which Governor Otero and staff will be invited guests.—Las Vegas Record.

Something That Will Do You Good.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we have not only cured but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden (S. C.) Messenger. For sale by all druggists.

GIANT STORY CONFIRMED.

Will Bring the Monster to Las Vegas for Inspection and Sale.

La Voz del Pueblo of Las Vegas has received a letter from Luciano Quintana, on the Mesa Rica, confirming the story of the unearthing of a human giant's skeleton on his premises and says he will bring it to Las Vegas for inspection and sale as soon as he has it wired together. He says the newspapers have not exaggerated the skeleton in any particular.

CHURCH WAR.

Members of the A. M. E. Church Divided on Question of Mortgage.

REV. BARKDALE'S TRUSTEES.

On Monday of this week, in its district court news, The Citizen published the following notice:

"Reapplication of the African Methodist Episcopal church leave to mortgage property."

That court paragraph has thrown a regular boomerang into the circles of that church, as it was the first intimation that certain good brothers and sisters had that their worshipping edifice would be mortgaged.

It is learned today, in a conversation with several members and non-members of the church, that Rev. Barksdale, the pastor, desired that his family, now in Evansville, Ind., be with him here, but he did not possess the wherewith to bring them to this city. The mortgage idea seemed to be a feasible one, but the old board of trustees, when questioned on the subject, did not favor the mortgage scheme, they arguing that the edifice was not private property, but belonged to the congregation and citizens who had subscribed toward its building.

Rev. Barksdale is accused now of doing some good engineering, in that he appointed, contrary to usage, a new board of trustees composed of members who favored the mortgage idea and seconded his desire to get his family out here.

Judge Crumpacker was not here, hence the new board of trustees laid low until the arrival of Judge Baker, when they made application as stated above to mortgage the church, after which they secured \$200 from E. H. Dunbar.

As soon as the item became public property through its publication in The Citizen, Messrs. Bramlette, Ellsworth, Bruce, Collins, Brabham and others, who opposed the mortgaging of the church property, put their heads together, consulted a lawyer, and have out, or are going to put, an injunction on the mortgage proposition, and interesting details, full of criminalities and recriminations, are expected to be the outcome of this matter.

Those who oppose and whose names appear above are well known warriors in church affairs, but they will find Messrs. Montgomery, Ward, Joyce and others, of the new board of trustees, worthy opponents and ready to make it interesting for the opposition.

DISTRICT COURT.

Considerable Business Transacted Yesterday Afternoon.

Yesterday afternoon Judge Baker finished up quite a batch of court matters and last night left for Omaha, Neb., expecting to return to the city about February 25 with his family.

Assistant Clerk Crosby reports the following business:

The case of Jose M. Romero, administrator of the estate of Trinidad R. de Jaramillo, vs. Manuel A. Jaramillo et al. to foreclose a judgment in lieu of favor of plaintiff as administrator, the hearing upon defendant's demurrer was continued till February 20.

In the case of William H. Stark vs. Susie A. Stark, suit for divorce on the ground of abandonment, cause was heard and final judgment of divorce granted.

In the case of Leon Hertzog vs. J. F. Chaves, judgment by default in the sum of \$21.50 was rendered.

In the case of N. B. Field, receiver, vs. D. L. Sammis, appeal of A. B. McMillen from judgment of court was granted.

In the case of Lindsay Bros. vs. J. F. Diamond company, the district clerk was ordered to pay \$45.55 less costs to attorneys of defendants.

Asma Gargoura vs. Michael Gargoura, defendant, was restrained from assigning, concealing or encumbering any property owned or possessed by either plaintiff or defendant. The plaintiff applies for separate maintenance and care of two minor children, alleging cruel and inhuman treatment and final abandonment. The order is one of temporary restraint until the case can be heard on its merits.

Two replevin suits by Miss Ida A. Lockhart respectively, were filed against Dr. John F. Pearce and T. S. Hubbell, sheriff, to recover property

taken under a judgment obtained by Dr. Pearce and executed by the sheriff against Mrs. Ellen Lockhart.

The Albuquerque acequia case took up the greater part of yesterday, and was finally referred to H. P. Owen, court stenographer, who will hear testimony and on the return of Judge Baker from Omaha, will be decided.

LOCAL PARAGRAPHS.

Mat. Ridley, the machinist, is visiting Gallup looking after business matters.

There will be no social at the Congregational church as previously announced.

C. Donahue and A. Case, railroaders from Winslow, are in the city today on business.

WINSLOW.

Special Correspondence.

Winslow, Ariz., February 4.—W. A. Parr received a car of lumber this week. This is for the repairs on the building owned by Fred Seeger, which was partially destroyed by fire some time ago.

Reports have it that Homer Cressell, who for the last few days has been very low with pneumonia, is better and will recover. The young man's friends and neighbors are rejoicing to hear this. Homer is liked by everyone.

W. A. Parr, the undertaker, has had his hands full the past few days, having four funerals in the last eight days. This is extraordinary for Winslow.

Mrs. Lois Kittredge died at the residence of George A. Lane on Aspinwall street. She was a niece of Mrs. Lane and came here some time ago to spend her last days with her aunt. She was formerly a resident of Pasadena, Cal. The remains were prepared and shipped to California, accompanied by Mr. Lane.

On Monday at 11:25 o'clock Bynon O'Kelly died at the residence of his brother, T. J. O'Kelly, on First street, at the age of 35 years, from pneumonia. Mr. O'Kelly was a resident of Redlands, Cal., but owing to ill health he decided to travel and sold his property. He came to Williams, Ariz., to try the mountain climate, but this proved to be too high for him and he was sent to Winslow, where the altitude is lower. Arriving here last Saturday he was met at the train by his brother and driven in a carriage to his home. For a time he seemed to be getting better, but on Monday he took a turn for the worse, and died as stated above. His remains were embalmed and shipped to his old home at Redlands, accompanied by his brother.

G. R. Bauerback, proprietor of the Parlor saloon, has had his place fitted up, and it is without doubt the finest place of the kind along the Santa Fe Pacific. Dick is an up-to-date saloon man and is determined to have his place show that he is abreast of the times.

Alex Morrison, an old time conductor, formerly of this place, is paying his friends a visit this week. Mr. Morrison has many friends in Winslow and

all are glad to see him back, although his stay was short.

J. E. Miller, one of the Santa Fe Pacific passenger conductors running between this place and Albuquerque, was making a tour of the streets of Winslow. Jesse has many friends in this city.

New Bank Notes.

The First National bank is dealing out new bills this week of a new and artistic design. They have purchased \$12,500 of government two per cent bonds, which gives them the privilege of issuing that amount in circulating medium. The circulating currency of the bank is now \$25,000. Formerly banks were only allowed to issue bills to ninety per cent of the amount of the government bonds held, but by an act of congress two years ago they were permitted to issue to the full value of the security.—Roswell Record.

NEW MEXICO TOWNS

LAS VEGAS.

From the Record.

W. B. Hiatt is again able to be at the store, after an illness of several days.

Mrs. Stewart arrived in the city from the east, to make her home with her brother.

Mr. and Mrs. R. P. Hesser are rejoicing over the arrival of a bouncing baby boy, born this morning. Mother and babe are doing nicely.

Tomb Lamb, who was injured considerably in the collapse of the academy building last Saturday, was able to be out of his room today.

Capt. W. C. Reid, on behalf of the United States, filed suit against Rafael Romero for \$121 rent due on the farm that the government owns in Mora county.

Mose Thomas, who for three years has been employed at Gross, Kelly & Co.'s, left for Kansas City, where he accepted a position with the National Bank of Commerce.

From the Optic.

W. G. Koogler's name was inadvertently omitted from the list of those present at the 79ers' banquet. Mr. Koogler had two brothers living in Las Vegas in '79.

Henry Hawkins, leader of the band of robbers now nested in the Heart canyon, Mesa Redondo, is a former cowboy of the Circle S ranch, until recently owned by Adolph Strauss, of this city.

W. C. Pemberton and wife, pleasant Kentucky people who have been stopping in the city for health reasons, left for Phoenix, Arizona, thinking a lower altitude would benefit Mr. Pemberton's health.

L. Barnhisel and daughter, of San Jose, California, who have been here for nearly a month, stopping at the home of Mr. Gehring, left for Tucson, Arizona, where the gentleman hopes to find relief from his asthma.

Advices have been received from the east, stating that work on the street railway will be pushed with all possible haste. Within sixty days cars will be running. Four cars of machinery have already been shipped and are expected to arrive any day. Aids for the erection of the power house were opened on Monday. After the awards have been made, work will begin at once.

SANTA FE.

From the New Mexican.

Charles C. Catron broke the local golf record on yesterday by making a score of 42. The young man can now be considered the golf champion of New Mexico.

Several prospective candidates for city nominations are already at work. The sentiment, however, is that good men only should be nominated for the coming city campaign.

Dr. A. P. Morrison, of El Paso, superintendent of the English work in connection with the Methodist Episcopal church of New Mexico, is in the city and will hold second quarterly conference tonight at St. John's Methodist Episcopal church after the prayer meeting.

The recent cold snap enabled Grant Ripenburg to harvest a large crop of good ice and his three store houses are very well filled. He has plenty of ice for all purposes and the coming summer and enough to spare, so as to supply the Santa Fe Central railway people with all the ice they can consume.

HIS FUNERAL BARGAINS.

Apparently No Trouble to Be Buried If You Have \$65.

You ought to see the funeral I can give you for \$65.

Casket \$35.00
Box 3.00
Hearse and two carriages 7.00
Four pall bearers 2.00
Embalming 5.00
Furniture, hangings, etc. 3.00
Opening grave 5.00
Crepe 1.00
Two ushers 1.00
Gloves for mourners 3.00

Total \$65.00

The above inducements to die are offered by Henry Stemple, a local undertaker, who has his bargain prices pasted on trees, fences and posts all over the northern part of the city, and in Manayunk and Roxborough. He also furnishes many other essentials not down on the list.

Stemple's sign is a great drawing card, and brings many riders in the suburbs to a sudden stop.

After reading the headlines, many of them feel that it's a shame they couldn't see the funeral. But many of Stemple's funerals have been seen, and survivors say he carries out his contract to the letter.

The versatile undertaker is also a master mechanic. When he has a job, where the family is in very poor circumstances, and the house is in bad condition, he will repair the front steps, paint the door and paper a couple of rooms without extra charge.

The furniture and hangings he supplies for the parlor gives the poorest house the most prosperous appearance. With all this Stemple gives real sympathy to the family and suggestions as to how to get along in the future.—Philadelphia North American.

On a Dancing Tour.

A party of six Indians from the Taos pueblo, with the permission of their governor, Jose Domingo Bernal, are making a dancing tour through northern New Mexico. They recently showed in Santa Fe and have visited Las Vegas, Springer and other towns, col-

lecting quite a neat sum. If Indian Commissioner Jones' recent order is put into effect this industry of the Pueblo Indians will go the way that the brandy distilling industry of Santa Fe went after the internal revenue laws went into effect.

HOBOS WANTED.

A Pressing Call in a Circular Issued by Sheriff Lovin.

A Citizen representative this morning was shown a circular recently issued by Sheriff Lovin, of Mohave county, Arizona, which should command the attention of the tramping hoboes. It is as follows:

HOBOS WANTED.

Twenty hoboes to work on the chain gang. Hours, from 5 to 6. Wages, bread and water twice a day. Call on the sheriff, or rather the sheriff and his deputies will call on you, if you are begging or idling away your time in this land of labor. Take heed, ye hobo. SHERIFF LOVIN.

A Thousand Dollars Thrown Away.

Mr. W. W. Baker, of Plainview, Neb., writes: "My wife had lung trouble for over fifteen years. We tried a number of doctors and spent over a thousand dollars without any relief. She was very low and I lost all hope, when a friend suggested trying Foley's Honey and Tar, which I did; and thanks be to this great remedy, it saved her life. She is stronger and enjoys better health than she has ever known in ten years. We shall never be without Foley's Honey and Tar and would ask those afflicted to try it." Sold by Alvarado Pharmacy.

SUPREME COURT REPORTER.

Judge A. J. Abbott Chosen By the Supreme Court—Sketch of Appointment.

Just before the ceremony of administering the oath of office to Governor Otero on Saturday afternoon in the territorial supreme court room, Chief Justice Mills announced that the supreme court had appointed Judge A. J. Abbott, of Santa Fe, as reporter of the supreme court, says the New Mexican. This is an eminently proper appointment. Judge Abbott is a lawyer of extended experience and acknowledged ability. He has been engaged in his profession over twenty-five years. Soon after he began to practice he was elected superintendent of public instruction for Rice county, Kan. At the expiration of his term in that office he was elected prosecuting attorney of his county, and at the expiration of his term was again nominated by the republican party, but declined as he had made arrangements to go to another part of the state.

Early in 1887 he was appointed by Governor John A. Martin as judge of the Twenty-seventh judicial district of Kansas. In the fall of that year he was nominated by the republicans and elected for the term of four years, and again in 1891 he was renominated and re-elected for another four years' term. At the expiration of his second term, having held the position for nine years, he removed to Colorado, where he practiced his profession at Trinidad until he came to this city and engaged in the practice of law in partnership with his son, E. C. Abbott, who is district attorney for this judicial district.

This appointment by the supreme court is a high compliment to Judge Abbott, which, however, is fully justified by the ripe literary and legal education and acknowledged ability of its recipient.

Judge Abbott is a man of strict integrity, rigid morality, and excellent Christian character, and the judgment of the supreme court in making this appointment pleases the members of the bar throughout the territory.

MAKES CHILDREN BRAINY.

Proof About Feeding.

It has been proved times without number that properly selected food will build up the brain. The testimony of a school teacher on this subject is good. The letter is long and only the important facts will be given.

"While I was teaching school in 1898, a little girl in the household where I lived was very fond of Grape-Nuts and would eat all she was allowed. I noticed that she was a remarkably bright pupil. There were five other children, all of one family, that were so marked in their work. They were really the brightest family I ever knew, so I questioned to find what they were using. They replied, 'Only Grape-Nuts.' I learned upon further inquiry that this was their chief diet for breakfast and discovered that their luncheon consisted generally of Grape-Nuts with cream and a little fruit.

"I had suffered from dyspepsia, headaches and general debility greatly, and, as I knew, my diet was not well selected, I took up Grape-Nuts Breakfast Food and carried it to school for luncheon. I soon discovered a change in my condition and found that Grape-Nuts afforded more nourishment than bread, meat, eggs or anything that I could take in my basket. After luncheon I would feel strong and bright for the afternoon's work while before I had frequently been half ill.

"In the spring of 1900 I went to college, rented a room and boarded myself, subsisting largely on Grape-Nuts, and I cannot speak too highly of the food as a brain nourisher. At the end of a year's schooling I obtained a position in one of the ward schools in this, a college town, and am well and happy.

"The wife of the college principal tells me that there is no food that agrees with her as well as Grape-Nuts and that testimony was repeated by a lady friend in my own home." Name given by Postum Co., Battle Creek, Mich.

MANY NEW LODGES.

Knights of Columbus Travel 3,600 Miles Installing Branches of Their Order.

The company of twenty Knights of Columbus from the Denver lodge which has been making a tour of the west, arrived in Denver last night, returning from a trip of 3,600 miles. The Denver Knights inaugurated new lodges of the order in San Francisco, Los Angeles and Albuquerque, and started another class in the order at Salt Lake City. Wherever they went they found the Catholic men enthusiastic over the order, which has both fraternal and insurance features, and indications are that lodges will be formed in many more cities.

The Denver Knights expect shortly to visit Butte, Mont.; Seattle, Wash.; Leadville, Colo., and El Paso, Texas, where the requisite number of applicants for a charter have been secured, and lodges are awaiting only the arrival of an installing party to begin the work of the order.

While in San Francisco the entire delegation was entertained by John D. McGilivray, formerly of Denver, who is now a contractor in San Francisco. Mr. McGilivray is now at work upon a fourteen story building in San Francisco.

Last night was the regular meeting of the Denver lodge, and the Denver pilgrims appeared to relate their experiences. One of the features of the trip was a song, composed by Joe Newman and sung at the gatherings of the order.—Denver Republican.

A Legacy of the Grip.

Is often a run-down system. Weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys often follow an attack of this wretched disease. The greatest need then is Electric Bitters, the splendid tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system, and restore to health and good spirits after an attack of grip. If suffering, try them. Only 50c. Perfect satisfaction guaranteed by all druggists.

Silver City Postmaster.

The Santa Fe New Mexican says that the re-appointment of Mrs. F. M. Galloway as postmistress at Silver City is not a very popular one. The New Mexican is generally correct, but in this statement it is entirely wrong and shows a deplorable ignorance of the facts. The re-appointment of Mrs. Galloway as postmistress at Silver City is one of the most popular appointments made by President Roosevelt. She is the widow of a man who gave up his life in running to earth the notorious postoffice robber Black Jack, and was left with a large family on her hands, two of whom are now considered to be confirmed invalids.—Deming Herald.

Bilious Colic.

H. Seever, a carpenter and builder of Kenton, Tenn., when suffering intensely from an attack of bilious colic, sent to a near by drug store for something to relieve him. The druggist sent him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, three doses of which effected a permanent cure. This is the only remedy that can be depended upon in the most severe cases of colic and cholera morbus. Most druggists know this and recommend it when such a medicine is called for. For sale by all druggists.

FLOWERS FOR NEW MEXICO.

Bulletin Issued By College of Agriculture and Mechanic Arts.

Not nearly as much attention is given to the growing of flowers in New Mexico gardens as should be. Too many people still hang to the old belief that flowers are difficult to grow in the lower parts of the territory, where the summer heat is great. It is true that in New Mexico the conditions are entirely different from the usual conditions in those states where flowers are grown most extensively. This fact, however, makes it all the more necessary that it should be more generally known what plants and flowers and shrubs are best adapted to our conditions, and how, under these conditions, they will best succeed.

A bulletin, by the undersigned, is being issued by this experiment station, entitled, "A Southern New Mexico Flower Garden," and will be distributed within the next two weeks. This bulletin gives the results of a number of years actual experience in the creation of a flower garden, under ordinary conditions in southern New Mexico. Whilst of chief benefit to residents of the southern part of the territory, it will, however, be of interest to all in New Mexico who are interested in the growing of flowers. The baking of the soil, the summer's heat, and the dry atmosphere are conditions that are unfavorable to many flowers and plants, and which exist throughout a large part of this territory; and yet there are a host of flowers that do well, if the right kind are planted and the right methods followed. As a rule, flowers do better when grown from the plants set out than from the sowing of the seed direct. All the very small seeds find difficulty in starting, if the soil is at all baked, and when the atmosphere is so dry as to take out the moisture from the surface of the soil. The larger seeds, such as sweet peas, castor beans, hollyhocks, etc., do not meet with this difficulty. Many seeds should be sown in the fall rather than in the spring, including sweet peas, poppies, larkspur, centaurea or bachelor's button, etc.

A number of our native shrubs do well when transplanted to the garden from their native haunts and respond to cultivation readily. Among these are the native flowering willow, wild rose, growing in the Organ and Sacramento mountains, and the columbine, which is found in many of our mountain canyons. Roses, especially of the finer sorts, do very well under our con-

Cough, Cough,

Night and day, until the strength is entirely exhausted, and that dreaded word "Consumption" begins to be whispered among friends. That's a common story, familiar to the people of every town and village.

There's another story which ought to be as widely known as the story of disease, and that is the story of the cures effected by the use of Dr. Pierce's Golden Medical Discovery. Bronchitis, asthma, obstinate, deep-seated coughs, bleeding of the lungs, and other forms of disease which affect the respiratory organs, are permanently cured by the use of "Golden Medical Discovery."

"Only for Dr. Pierce's Golden Medical Discovery I think I would be in my grave to-day," writes Mr. Moses Miles, of Hilliard, Uinta Co., Wyoming. "I had asthma so bad I could not sleep at night and was compelled to give up work. It affected my lungs so that I coughed all the time, both night and day. My friends all thought I had consumption. My wife insisted on my trying Dr. Pierce's Golden Medical Discovery—which I did. I have taken four bottles and am now a well man, weighing 185 pounds, thanks to Dr. Pierce's Golden Medical Discovery."

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for book in paper covers or 31 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

ditions if the proper selection is made of the sorts planted, and should be in every home garden.

Among other plants and flowers that have been found to succeed are the following: Chrysanthemums, pinks, verbenas, sweet peas, zinnias, the large castor bean, alyssum, golden glow, Paris daisy, canna, dahlias, hollyhocks and wallflower. Among the successful flowering shrubs are althea, bird of paradise, crape myrtle, and syringa.

Bulletin No. 40 treats fully of the conditions favorable to a flower garden, the best methods of starting plants and preparing the soil, the adaptation of native plants, the best methods of making hedges and wind breaks and of starting a lawn, and gives a fairly extensive list of those evergreens, shrubs and flowers that will be found to produce the best results. A reliable list of roses for home culture is given. The Bulletin contains thirty pages, is profusely illustrated, and will be sent, free of all cost, to all applicants, who should send their names to the Experiment Station at Mesilla Park.

Deming.

Deming is being talked of everywhere, and is attracting the attention she deserves from all quarters. In consequence of this great interest and to give those interested in this town there will be an excursion run from El Paso on the 17th inst., so that all those in attendance at the carnival may have an opportunity to see for themselves this very much talked of town. An opportunity will be given those who take this trip to acquire property here at an exceedingly low figure. This opportunity is not limited to the excursionists, but will be extended to any who may wish to be present at the sale, from other towns. It will pay you to be present.

Deming needs one hundred new houses to supply the demand, and needs them now. This demand continues to grow.

Asthma

The doctors tell us they cannot cure every case of asthma with Ayer's Cherry Pectoral. They say it is the best thing for relief and that it often completely cures. We are willing to take their word for it, are you?

"After having spent hundreds of dollars trying to be cured of my asthma, I now rely entirely on Ayer's Cherry Pectoral for the relief of the severe paroxysms of coughing. It is the best medicine for this I can find."

Railroad Topics

Octaviano Rodriguez is delivering telegraph poles for the Santa Fe Central railway at Arroyo Hondo.

J. Tuberville, who fired out of Las Vegas about a year ago, before leaving for the east, has arrived from Chicago, and has been marked up on the extra board for duty again.

S. E. Busser, superintendent of reading rooms for the Santa Fe system, was in the city a short time the other day. He will return in March, in company with ex-Congressman Cumbach, of Indiana, who will lecture on the "Model Husband."

The New Mexican says: Business at the local office of the Atchison, Topeka & Santa Fe railway during the past month has been very good, both in the matter of passenger and freight receipts. The station pays well and a new and modern depot building should be erected by the road. The present structure is old, too small, uncomfortable and a very messy affair.

The Las Vegas Optic says: While the poles for the electric road were being distributed along the Springs branch yesterday, the poles began rolling and a brakeman rolled between the cars and on the track under the moving cars. The man was missed and the train stopped. The man pulled himself from under a car and showed his unscathed head. It was a miracle that saved him.

The Santa Fe has issued its announcement of inauguration of the daily service of the California Limited in a most beautiful and artistic pamphlet, daintily illustrated by a Chicago artist of note. A mine of great decorative value has been opened by the Santa Fe in the adoption of Indian subjects and designs in its advertising, and the Indian motif has been consistently followed in the pamphlet referred to.

Few persons know that on a railway line like the Santa Fe it costs nearly as much to renew ties (\$935,000 yearly) as is paid to station agents and station clerks; that the annual repairs of roadway and track (\$2,350,000) exceed the salaries of trainmen and traffic clerks; that the renewal of rails (\$626,000) costs almost as much as the telegraph service; that watchmen and trackwalkers draw nearly as much money (\$137,000) as is paid out for stationery and printing; that the item of rail fastenings (\$250,000 a year) exceeds the expense of legal service. But it pays to have the track just right.

Saved Him From Torture.

There is no more agonizing trouble than piles. The constant itching and burning make life intolerable. No position is comfortable. The torture is unceasing. DeWitt's Witch Hazel Salve cures piles at once. For skin diseases, cuts, burns, bruises, all kinds of wounds it is unequalled. J. S. Gerall, St. Paul, Ark., says: "From 1895 I suffered with the protruding, bleeding piles and could find nothing to help me until I used DeWitt's Witch Hazel Salve. A few boxes completely cured me." Beware of counterfeits. J. H. O'Reilly & Co., B. H. Briggs & Co.

SANTA FE CENTRAL WORK.

Pile Driver, Scrapers, Horses and Mules Have Been Purchased and Shipped to Santa Fe.

Hon. W. S. Hopewell, vice president and general manager of the Santa Fe Central railway, has returned to the Capital City from a trip to the southern part of the territory, where he was on business for the company, says the New Mexican. He reports that section quite dry and standing greatly in need of snow, although some snow has fallen in the Black Range. While absent, Mr. Hopewell purchased a lot of horses and mules and scrapers from Trimble's livery stable at Albuquerque and had these shipped to Santa Fe. The company now has about 200 animals ready for the grading work. Two pile drivers have also been purchased and are now on the road to Santa Fe. He has also seen several parties who desire to furnish ties, piling, bridge timber and telegraph poles for the road and has made arrangements to purchase such material whenever brought to the proposed line of road. Mr. Hopewell has been very active and is hopeful that actual grading on the roadbed of the Santa Fe Central will commence about March 1.

Millions Put To Work.

The wonderful activity of the new century is shown by an enormous demand for the world's best workers—Dr. King's New Life Pills. For constipation, sick headache, biliousness, or any trouble of stomach, liver or kidneys they're unrivaled. Only 25c at all druggists.

Winter coughs are apt to result in consumption if neglected. They can be soon broken up by using Foley's Honey and Tar. Sold by Alvarado Pharmacy.

Pleasure Tours.

The general prosperity is reflected in the large volume of pleasure travel and the extension of tours to include many sections considered remote a few years ago.

The railways report for 1900 the largest volume of business to the southwest in their history—New and Old Mexico, Arizona and California—but the indications now are that it will be eclipsed this year.

The bookings for the well known Gates personally conducted tours to Mexico are already nearly full and the tours which at first were arranged

only for Mexico, will this year include the Grand Canyon of Arizona and California. The dates announced are: February 5, 19 and 26, 1902. Special trains of Pullman cars will be run over the Santa Fe from Chicago.

CUT DOWN WAGES.

Mexican Central Brakemen and Conductors Are Dissatisfied.

Owing to a reduction in the wages of conductors and brakemen made by the Mexican Central, which became effective on the first of the year, trainmen on that road are very much dissatisfied.

On the first of the year a reduction in the wages of freight conductors and brakemen was made and the trainmen sent a grievance committee to Mexico City but the officials of the Mexican Central refused to listen to them. As a result of this determined stand on the part of the officials, several trainmen on the Chihuahua division have already resigned and it is generally understood that unless the company recedes from the stand it has taken trainmen on the Central will quit in wholesale.

No ultimatum has been issued by the trainmen for the laws of Mexico absolutely prohibit employees from conspiring together for the purpose of forcing a raise of wages. Each fellow will simply quit for individual reasons.

Only the men in the through freight service between El Paso and Aguas Calientes are affected by new schedule as those on the southern end are paid on a different basis. One reason why the decrease in the wages of the conductors and brakemen is so distasteful is the fact that the engineers and firemen and the few local freight men had their wages increased at the same time. Prior to the first of the year through freight men were paid \$2.50 per 100 kilometers and brakemen in proportion. Under the new schedule conductors receive only \$2.45 per 100 kilometers and a corresponding decrease has been made in the wages of the brakemen. Freight conductors on local runs now receive \$2.90 per 100 kilometers.

Contrary to the general belief the trainmen in Mexico are strongly organized, and it is stated by men in position to know that unless the rate is restored a strike is certain, which will not be without its detrimental feature to the company.

The Last Heard Of It.

"My little boy took the croup one night and soon grew so bad you could hear him breathe all over the house," says F. D. Reynolds, Mansfield, Ohio. "We feared he would die, but a few doses of One Minute Cough Cure quickly relieved him and he went to sleep. That's the last we heard of the croup. Now isn't a cough cure like that valuable?" One Minute Cough Cure is absolutely safe and acts immediately. For coughs, colds, croup, grip, bronchitis and all other throat and lung troubles it is a certain cure. Very pleasant to take. The little ones like it. J. H. O'Reilly & Co., B. H. Briggs & Co.

Kidney complaint kills more people than any other disease. This is due to the disease being so insidious that it gets a good hold on the system before it is recognized. Foley's Kidney Cure will prevent the development of fatal disease if taken in time. Sold by Alvarado Pharmacy.

SHEPARD PROMOTED.

Will Be General Superintendent of Santa Fe Coast Lines.

F. J. Shepard, chief clerk and private secretary to Third Vice President Kendrick, has left Chicago for Los Angeles to become general superintendent of the Santa Fe coast lines, succeeding A. G. Wells, recently made general manager of the coast lines. The appointment will be made by Mr. Wells, but the official announcement has not been made.

Clerk's Wise Suggestion.

"I have lately been much troubled with dyspepsia, belching and sour stomach," writes M. S. Mead, leading pharmacist of Attleboro, Mass. "I could eat hardly anything without suffering several hours. My clerk suggested I try Kodol Dyspepsia Cure, which I did with most happy results. I have had no more trouble and when one can go to eating mince pie, cheese, candy and nuts after such a time, their digestion must be pretty good. I endorse Kodol Dyspepsia Cure heartily." You don't have to diet. Eat all the good food you want but don't overload the stomach. Kodol Stomach Cure digests your food. J. H. O'Reilly & Co., B. H. Briggs & Co.

A Night Alarm.

Worse than an alarm of fire at night is the brassy cough of croup, which sounds like the children's death knell and it means death unless something is done quickly. Foley's Honey and Tar never fails to give instant relief and quickly cures the worst forms of croup. Mrs. E. L. Cordier, of Washington, Ky., writes: "My three-year-old girl had a severe case of croup. The doctor said she would not live. I used a bottle of Foley's Honey and Tar, the first dose gave quick relief and saved her life." Refuse substitutes. Sold by Alvarado Pharmacy.

Articles Left on Trains.

An interesting point regarding the handling of baggage is discussed in the annual report of the Lehigh Valley road. The report shows that during the year 1,270 articles of various description were left on the trains, exclusive of those found in Pullman cars, which are differently handled. Of these articles 285 were claimed and returned to owners, the balance of the number, 985, still remaining in the hands of the baggage department of the company, awaiting claimants. The law of nearly all states in the union provides that if these articles are not claimed by

the owners within one year, they may be sold at public sale, after due notice, after which the claimant has no right to any article so found. The articles left on trains are varied in character, ranging from books to umbrellas, pocketbooks, wraps, valises, merchandise, etc. It is hard to explain the low percentage of calls made for articles left on trains, unless it be that passengers, in the main, do not understand that such articles that are found and turned into the baggage departments of the various railroads are held there subject to orders of the owners. There are probably some articles that are left in trains by passengers and picked up by other passengers, but as a general thing they are found by the trainmen and turned into the railroad company's offices, and may be had on application by the owner.

Bucklen's Arnica Salve.

The best and most famous compound in the world to conquer aches and kill pains. Cures cuts, heals burns and bruises, soothes inflammation, masters piles. Millions of boxes sold yearly. Works wonders in boils, ulcers, felons, skin eruptions. It cures or no pay. 25c at all druggists.

Mothers can safely give Foley's Honey and Tar to their children for coughs and colds, for it contains no opiates or other poisons. Sold by Alvarado Pharmacy.

KENNA FAVORS MERGER.

Santa Fe Attorney Says Railroads Are Not Akin to Trusts.

E. D. Kenna, vice president and general counsel of the Atchison, Topeka & Santa Fe railroad, recently addressed students of the University of Chicago on "Railway Consolidation."

A merging of railway properties and a reasonable control by the public were the main features urged in Mr. Kenna's address. He maintained that the tendency of the American public to regard the railway question in the same light as the trust problem was altogether wrong.

"In studying any part of the railway question," he said, "I warn you against confounding it with the trust problem. They are correlated and each must be viewed by the student from entirely different standpoints. 'Property controlled by a trust is private property and its business private business. But what is more important, as indicating the distinction, a trust can cease to do business when it so desires. On the contrary, a railroad must remain for the use of the public though the same cannot be operated except at a loss.'"

Favorite Nearly Everywhere.

Constipation means dullness, depression, headache, generally disordered health. DeWitt's Little Early Risers stimulate the liver, open the bowels and relieve this condition. Safe, speedy and thorough. They never gripe. Favorite pills.

The most reliable preparation for kidney troubles on the market is Foley's Kidney Cure. Sold by Alvarado Pharmacy.

SANTA FE LEADS.

Its Decapod Engines Are the Biggest, After All.

The right of the new Santa Fe decapods—Nos. 988 and 989—to be called the biggest engines in the world has been challenged. It has been stated that a Pittsburg road has an engine bigger than the new monster decapods of the Santa Fe.

It will relieve the minds of all loyal Santa Fe supporters to know that these claims are unfounded. The Santa Fe still can claim the biggest engines ever built.

Here are statistics for the three biggest engines ever built taken from the last issue of the Railway Age and Railroad Gazette, both of which publications contain lengthy descriptions and copious illustrations of the new decapods:

Atchison, Topeka & Santa Fe, decapod; total weight, 259,800 pounds; weight of drivers, 232,000 pounds.

Atchison, Topeka & Santa Fe, consolidation; total weight, 214,000 pounds; weight of drivers, 191,400 pounds.

Pittsburg Bessemer & L. E., consolidation; total weight, 250,300 pounds; weight of drivers, 225,200 pounds.

Illinois Central, 12-wheel; total weight, 232,200 pounds; weight of drivers, 193,200 pounds.

Foley's Honey and Tar cures the cough caused by attack of la grippe. It heals the lungs. Sold by Alvarado Pharmacy.

Good Old Grandma's Advice

The children are sick—send for grandma! Who is there like her for wisdom and gentleness, and sympathy, since the first baby came? What would we have done without her?

"Cascarets are splendid, my old mother praised them very highly, and says she would never be without them."—Howard W. Wellman, 127 Tremont Street, Fairmount, Ohio.

"I suffered seven years with tape-worm but didn't know I had one. Two months ago I was taken with inflammation of the bowels, ever stomach, sick headache. I tried Cascarets and had not taken them a week before I was relieved of a tape-worm 18 feet long. I am very much better."—Mrs. John Stone, Put-In-Bay Island, Ohio.

"After taking Cascarets for a few nights before writing, I was able to pass a tape-worm 24 feet in length. Cascarets have cured me, and I will willingly furnish a testimonial to anyone who desires it."—Mrs. Harry Wood, Kenneth, Ind.

"I was troubled for a long time with liver complaint and was in such misery that I had to give up work. I took but 4 doses of Cascarets before I was able to go to work again."—Mrs. J. A. Kresling, 111 Congress St., St. Louis.

The wisdom of years of experience with her own health, and grandpa's and the children's, and children's children has taught grandma what is good for her and the several generations of family she has looked after. Grandma of today knows and advises that Cascarets Candy Cathartic are the only perfect family medicine for all bowel troubles, children's diseases, diseases of the stomach and liver, sick headaches, biliousness and bad blood.

ANOTHER COAST TRAIN.

Santa Fe Said to Be Planning a Fourth Daily Limited.

The Santa Fe management, it is said, is contemplating putting another Chicago-California train into service provided the equipment can be secured. The officials say that travel to southern California was never so great, and that it is difficult to take care of it with three trains daily. This is the first year that more than two daily California trains have been in service and a third could be used to advantage.
