MAJORITY FOR HERNANDEZ IN STATE GROWS AS RETURNS COME IN

Late Figures Give Rio Arriba
County Man Lead of Nearly
Four Thousand Over His
Democratic Opponent.

WILLIAMS RUNS FAR BEHIND HIS TICKET

Republicans Reluctantly Ad-
mit That Two-thirds Ma-
jority of Legislature Will
Not Be Forthcoming.

The plurality of 2,000 conceded to Hernandez over Ferguson in the election news given out yesterday appears to have been too low. Revised figures based on incomplete returns received up to midnight last night indicate that the Rio Arriba county man will have a lead of nearly 4,000 over his chief opponent.

Returns are very slow coming in, and no single county has as yet sent in detailed returns for all the offices contested for. In fact, only in two or three counties are there complete returns as to the head of the ticket. There is an outside possibility, but by no means a probability, that final figures may make changes in some of the offices when the remote mountain districts are heard from.

Williams Has Bad Scare.

A notable feature of the news yesterday was the heavy cut in the vote for Corporation Commissioner Hugh H. Williams in the northern New Mexico counties, and for a while it was feared by Mr. Williams' friends that his lead would be entirely wiped out. Later returns, however, indicated that Hill had also been behind Congressman Ferguson in the southern and eastern counties, and that while Mr. Williams will run far behind Hernandez there is every probability that he is elected.

The republican claim of a two-thirds majority in the legislature seems to have been premature, as democratic gains in counties that were expected to return republicans make it appear that unless something on the order of what was done to Abilene Romero in the last legislature is attempted in the house next January the republicans will have no such majority. The first socialist ever to be elected to the legislature, W. C. Tharp, has been returned from Curry county. Reports from Clovis say that Mr. Tharp is pledged to support the governor's legislative program as to salaries and taxation, but republicans in Santa Fe declare that the socialist will be "right" if it should come to a showdown. The "pernicious activity" of Governor McDonald in affairs of the county clerk and treasurer of Curry county is said to have had an influence in electing Mr. Tharp.

The proposed amendments to the state constitution seem to have been defeated. Strangely enough, the vote on these amendments seems to have been divided along geographical lines, the northern part of the state voting for the amendments and the southern part against it. In Bernalillo county heavy majorities were returned against all the amendments.

The story from Santa Fe, where both parties have state headquarters, is illuminating on the general situation.

FRAGMENTARY RETURNS SHOW INCREASED REPUBLICAN LEAD

Santa Fe, Nov. 4.—Hernandez, 3,822; Williams, 1,358.

These are pluralities figured out tonight by the returns received at the state headquarters of the different parties.

The returns, however, are still quite fragmentary. Not one of the counties thus far has reported the detailed vote of every precinct, and in several counties the claims made by the county chairmen are still indefinite, although there is no likelihood of the above returns being changed materially in the final count.

The republican headquarters for several hours this afternoon had cold chills while the democrats took new courage as precinct after precinct indicated that Hugh Williams was running far behind Hernandez, so that in Santa Fe county he has 500 less plurality, Taos 100 less plurality, in San Miguel 500 less plurality than Hernandez. Fortunately for him, he ran far ahead of Hernandez in Luna, Grant and several other southern counties, and was thus apparently saved from defeat.

The republicans also reluctantly gave up their claim to a two-thirds majority in the legislative house, as the republican candidates in Union,

Guadalupe and Lincoln counties have been defeated, cutting down the republican membership to 25 out of 49.

One of the strangest bits of news comes from Curry county, which shows that W. C. Tharp, the socialist editor at St. Vrain, has been elected to the house. The republicans count on him in any final test which may come up.

The following are figures at 7 o'clock this evening as to the pluralities on the state tickets:

	Ma. Ferguson	Ma. Hernandez
Bernalillo	700	700
Chaves	850	500
Colfax	500	500
Curry	600	261

COLONEL FINDS CONSOLATION IN HOLYSCRIPTURES

New York, Nov. 4.—When Theodore Roosevelt was asked for an expression of opinion on the outcome of the election in New York state, he said:

"In the Episcopal church, lessons taken from the Bible are appointed for every day of the year. The lesson for November 3, includes the second epistle of Paul to Timothy, Chapter IV, 3, 4, which reads as follows: 'For the time will come when they will not endure sound doctrine, but after their own lusts shall they heap to themselves teachers having itching ears, and they shall turn away their ears from the truth and shall be turned unto fables.'"

"I have nothing to add to this at present. After all the returns are in, I may have something more to say."

SMALL MAJORITY OF DEMOCRATS IN HOUSE; GAINS MADE IN SENATE

Latest Estimates Give Admin-
istration Only 18 Advantage
Over Republicans and Pro-
gressives.

SEVERAL SEATS GAINED IN 'HOUSE OF LORDS'

Reed Smoot's Success in
Utah Is Doubtful; Charles
H. Burke Is Defeated in
South Dakota.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

New York, Nov. 4.—Latest returns from yesterday's election indicate that the democratic majority in the house of representatives for the 64th congress will be reduced to 18.

The probable democratic majority in the senate will be 14.

Democrats have elected 226 members, republicans 192, progressives 10 and socialists 1. Of the six missing districts, it was estimated that the republicans and democrats might elect three each. Heaviest republican gains in the almost overwhelming democratic majority were thirteen in Illinois, twelve in New York, ten in Pennsylvania and nine in Ohio. Progressive representation in the house was cut from nineteen to nine, or ten. This resulted from the general collapse of the progressive organization throughout the country except in California.

Contests which were so close that they could not be determined at a late hour tonight were claimed by the democrats in two districts in Colorado and one in New Jersey, and by the republicans in two districts in Kansas and one in North Carolina.

In the Sixth California district, J. A. Elston, progressive, led George H. Derrick, republican, by a slight margin. Democratic leaders claimed the election of H. H. Seldemridge and Edward Keating in the Second and Third Colorado districts. Representative William E. Tuttle, Jr., of the Fifth New Jersey district, was in danger of losing his seat to John H. Capstick, republican, but his supporters claimed victory for W. A. Calderhead and John B. Dykes in the Fifth and Sixth Kansas districts, and for J. J. Britt in the Tenth North Carolina district.

Incomplete returns from the twenty-nine states where gubernatorial elections were held showed today that eleven democrats and ten republicans had been elected and that in seven states the result was apparently undetermined. In these seven states the republican candidates were leading in five and the democrats in two. California, apparently had re-elected Governor Hiram W. Johnson, progressive.

Of these twenty-nine states, sixteen at the present time have democratic governors, eleven republican governors, and two progressive governors.

The House.

Alabama—Democrats ten; republicans none; unchanged.

Arizona—Democrats one; republicans none; unchanged.

Arkansas—Democrats seven; republicans none; unchanged.

California—Democrats two; republicans 3; progressives 1; unchanged.

Colorado—Democrats two; probably democratic two; unchanged.

Connecticut—Democrats none; republicans five; republicans gain five.

Delaware—Democrats none; republicans one; republicans gain one.

Florida—Democrats four; republicans none; unchanged.

Georgia—Democrats twelve; republicans none; unchanged.

Idaho—Democrats none; republicans two; unchanged.

Illinois—Democrats nine; republicans seventeen; progressives one; republican gain of thirteen over democrats in Third, Fifteenth, Seventeenth, Eighteenth, Nineteenth, Twenty-first, Twenty-second, Twenty-fourth, Twenty-fifth and Tenth at large; over progressives in Tenth and Twelfth.

Indiana—Democrats eleven; republicans two; republicans gain two in Seventh and Tenth districts.

Iowa—Democrats one; republicans two; republican gain of two; gains in Second, Third and Sixth districts; loss in Eleventh.

Kansas—Democrats four; republicans two; probably republican two; democrats gain one in Eighth district.

Kentucky—Democrats nine; republicans two; unchanged.

Louisiana—Democrats seven; progressives one; progressive gain one in Third district.

Maine—Democrats one; republicans three; unchanged.

Mississippi—Democrats eight; republicans none; unchanged.

Missouri—Democrats fourteen; republicans two; unchanged.

Maryland—Democrats five; republicans none; unchanged.

RUSSIA REPORTS SEVERE DEFEAT OF GERMANS IN EAST PRUSSIA

Retreat of Kaiser's Forces on
Left Wing Is Said to Be
Precipitate, Leaving Many
Prisoners and Cannon.

AUSTRIANS DRIVEN BACK FROM KIELCE

Turkish Fleet Is Concentrating
in Black Sea With Base on
Bosphorus; Avoiding En-
gagement.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Petrograd, Nov. 4.—The following official communication from the Russian general staff headquarters was given out here tonight:

"A sudden change has been noted since November 1 on the east Prussian front where the enemy, which recently has been on the defensive almost everywhere, has begun to fall back at certain points. This retreat is precipitate on the left wing of the enemy which was vigorously thrown back toward Biala and Lyck. Our troops took Bakalarjovo, capturing a large quantity of arms and ammunition and making prisoners of a German company."

"On the left bank of the Vistula the Germans continue their precipitate retreat toward the frontier. Their rear guards have been dislodged from Kolo and Pradoborz. On the morning of November 3 we drove back the Austrians toward Kielce, which place our troops occupied, making 600 prisoners and taking machine guns. On the same day we won a decisive victory over the Austrians along the whole front from Kielce to Sandomierz. The enemy fell back with all speed. Our troops took Sandomierz, which is an important strategic point."

"In the region south of Kielce during the past week we have made prisoners of 200 officers and 15,000 soldiers and have taken a large number of cannon as well as machine guns. During the night of November 3, the Austrians made a series of attacks which were very futile, and then retreated. Our troops took a firm position."

Summary of War News of Yesterday

Russia is the only one of the belligerent countries to claim in late reports anything akin to a decisive victory. In east Prussia the German left wing is said to be retreating precipitately toward Biala and Lyck and in Poland the Austrians are reported as fleeing toward the frontier. Near Kielce the Russians declare they captured 15,000 men.

To the contrary, however, the Austrians say they have been able to hold the Russians at Lysa Gora, in south Poland, while their troops made a wheeling movement to another line of defense.

Along the battle front in Belgium and France probably the most ambitious feat at arms occurring in the region around Ypres, upon which the Germans fell back from the north on account of their failure to pierce the allied lines and work their way down the coast to Calais. Reinforcements are being brought up here by the Germans and an attack in force is expected to take place shortly against the allies in the renewed attempt to proceed to Calais. Both sides make claim to only slight advantages at various points along this line.

A Belgian official report says that allied troops reconnoitering as far as Lombardlyde on the Yser front near Schoorlaekke found no Germans but that "an almost unbroken column of the enemy of all arms, extending from Leke to Thourout has marched in an easterly direction."

The allies are hard after the Turks. Russian troops have crossed the Turkish frontier and taken eight towns. In addition the Anglo-French fleet is still bombarding the forts of the Dardanelles and a British cruiser has thrown shells into a Turkish Red sea port in Arabia.

That Turkey has accepted as final the refusal of the allies to accept her apology for the bombardment of Russian ports and ships is indicated by her recalling her diplomatic representatives from the capitals of the triple entente powers. Several Turkish cabinet ministers have resigned because of a lack of sympathy with the war party in the government.

Berlin reports that the Persian minister in Petrograd has demanded that Russia recall the Russian forces now in north Persia.

The British admiralty has learned unofficially of the naval fight between German and British cruisers off Chile, but declines at present to accept the German version of it.

A big German trawler has been sunk by a mine in Danish waters.

footing in the region of Nisko and Rubnik.

There is nothing to report from the rest of the front.

"The Turkish fleet is concentrated in the Black sea with a base on the Bosphorus. Apparently they are trying to avoid a fight with our forces."

AUSTRIAN LOSSES NOT SO GREAT RECENTLY

Venice, Nov. 4 (via Paris, 4:45 p. m.)—The Vienna Neue Presse publishes the following statement from its correspondent at the Austrian army headquarters:

"Our losses are now much lessened in fixed battles and storming assaults. Attacks made between August 12 and September 12 required much greater sacrifices than has the fighting since, the later engagements having been fought from protected positions."

Very numbers of wounded soldiers now are arriving in Vienna daily from the front and if the early losses were much greater than the present they must have been tremendous. The Vienna Neue Wiener Tagblatt on Monday and Tuesday of this week published a list of names alphabetically arranged from A to Z—the whole of the 25th official list of killed and wounded—this section of the list being made of the names alphabetically arranged from A to Z—the whole of the 25th list and that part of the 27th list from A to H. This newspaper is considerably behind in its publication of names.

The Reichpost, the Austrian military organ, betrays alarm over what it says is an attempt by Russia to bring about a reconciliation between Bulgaria and Serbia. This paper's Sofia correspondent sends a dispatch saying that a political agent of the Russian emperor recently went to Nish, Serbia, where he had a long conference with the crown prince and the president of the council. The Russian minister to Serbia also was present at these meetings. The correspondent says that several important questions regarding Rumania, Serbia and Bulgaria were discussed.

Although no statement to this effect has been given out, it is understood that Turkey's apology for the actions of her fleet in bombarding Russian Black sea ports and Russian ships, proved unacceptable to the powers of the triple entente in that Turkey was not prepared to accede to the demand that the German officers in her service be dismissed and the ships purchased from Germany dismantled.

NECK AND NECK IN COLORADO FOR SENATORSHIP

Official Count May Be Re-
quired to Determine Wheth-
er Democrat or Republican
Is Elected.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Denver, Nov. 4.—With approximately two-thirds of the vote of the state compiled, the race between Charles S. Thomas, democratic incumbent, and Hubert W. Patterson, republican, for the Colorado senatorship, still was neck and neck. Returns from 512 complete precincts in forty counties, including 185 of the 193 precincts in Denver, gave Thomas 45,130; Work 41,805.

George A. Carlson, republican, had 74,440 votes for governor in 641 precincts from forty counties, including 185 from Denver. The same precincts gave Thomas M. Patterson, democrat, 61,450.

In the Second and Third congressional districts, returns were not sufficient to determine the result. Edward T. Taylor, democrat, was elected in the Fourth district and Ben C. Hillard, democrat, in the First.

The prohibition amendment on returns from 578 precincts in forty counties including 185 from Denver, stood for, 42,462, against, 43,089.

The fact that the returns from Denver where the vote had a lead of almost 10,000 were practically complete was taken as increasing the probability that the state has gone dry. It was expected that the returns yet to be reported would increase the margin in favor of the amendment.

Returns early tonight gave James H. Teller, democrat, a lead for justice of the supreme court; John E. Ramer, republican, for secretary of state and Allison Stoker, republican, for state treasurer. The democrats claimed the election of Fred Farrar, incumbent, an attorney general.

OPERATIONS PERFORMED WITHOUT ANESTHETICS

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Washington, Nov. 4.—That operations are being performed without the use of anesthetics on wounded soldiers in some parts of the European war zone was reported today in a cablegram to American Red Cross headquarters. The message, sent from London by Thomas Whittemore, of Boston, said:

"Just returned from France for supplies. Across of wounded. Unimaginable sufferings. Operations without ether."

The Red Cross today cabled \$10,000 to American Minister Van Dyke at The Hague for Belgian refugees in Holland. Numerous boxes of supplies and clothing for women and children have been sent.

Senator Shively Re-elected.

Indianapolis, Ind., Nov. 4.—With two-thirds of the vote tabulated, Senator B. F. Shively, democrat, has 52,000 plurality over Hugh Miller, republican candidate, and it is believed Shively's lead will be maintained. The state democratic ticket seems assured of election by a plurality of 20,000 votes.

TURKS BREAK DEFINITELY WITH RUSSIA, FRANCE AND GREAT BRITAIN; WARLIKE ACTIONS TAKEN QUICKLY

Dispatches Tell of Continued Successes Against Both
Kaiser's and Emperor Francis Joseph's Soldiers; Invaders
Driven From Poland With Heavy Losses of Prisoners Taken

Frontier and Czar's Troops Move Forward Everywhere.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

London, Nov. 4 (9:30 p. m.)—Turkey has now definitely broken off diplomatic relations with Great Britain, France, Russia and Serbia. Her diplomatic representatives in the capitals of these countries, acting on orders from the port today demanded and received their passports. Some of them already have left their posts while others will depart tomorrow.

Although no statement to this effect has been given out, it is understood that Turkey's apology for the actions of her fleet in bombarding Russian Black sea ports and Russian ships, proved unacceptable to the powers of the triple entente in that Turkey was not prepared to accede to the demand that the German officers in her service be dismissed and the ships purchased from Germany dismantled.

Wartime Action Against Turkey.

The powers which the Ottoman government thus defied are already taking wartime action against Turkey.

The British have destroyed Fort Akabah in Arabia, the Russians have invaded Asia Minor and an Anglo-French fleet is bombarding the forts of the Dardanelles.

Now that Turkey has aligned herself among the nations at war, speculation is rife as to what the other Balkan powers will do.

Greece is said to be preparing to take sides with the allies, while Bulgaria has given assurances of her neutrality. Bulgaria, however, is mobilizing. As a prominent diplomat said, "with Turkey in the area of the war Bulgaria must be prepared for any eventuality."

German Naval Strategy.

Next to the Turkish situation, the appearance of German warships off the coast of England is causing most of the discussion in this country today. There is a disposition among naval men to believe that no serious raid was intended but that the British warships to follow them and, by laying mines as they retired, to catch some of the bigger ships as they did the submarine D-5.

The fact that the Germans did lay mines, seems to indicate to the naval experts here that the ships engaged in this work were old ones. These experts argue that Germany would not take such risks with new vessels. As if to prove their contention, the experts say that the firing at the British cruiser Halsey, which resulted in slight damage to that vessel, showed that the Germans were not armed with modern guns.

No Important Changes.

The official reports of the fighting on land as issued today recorded only advances at various points and repulses of the enemy's attacks at others. There is, in fact, no great change in the situation, according to these reports. It is definitely announced that the Germans have given up their positions along the Yser, having been driven out there by the flooded country and the gun fire of the allied troops and warships.

The Germans, however, have kept up their attack on the allies' lines around Ypres, where the British troops are fighting. Although there is evidence that the new main effort of Emperor William's forces to break through at this point has not yet really commenced, the Germans continue to bring up reinforcements and, under the eyes of the emperor, are preparing to make another big attempt to get through to the coast.

Do Not Fear New Attack.

Military men here say that the allies have just as good means for bringing reinforcements to their lines as have the Germans and express confidence that a new attack will prove as fruitless as previous ones.

Indian troops and the pick of the English territorial forces have distinguished themselves in the fighting and have come in for the compliments of General French. From the trend of events on the east European frontier, reliance has to be placed

on the Russian report as the German headquarters say nothing about it. The Russians, according to a Petrograd report, have successfully met a German offensive movement from east Prussia and the Germans now are retreating across their own frontier, leaving large quantities of arms and ammunition behind them.

In Poland, still according to the Russians, the Germans are continuing to fall back, while further to the south the Russians at last have the Austro-German forces forming their right wing, on the move and have occupied the important towns of Kielce and Sandomierz and taken 200 officers and 15,000 men and several dozen field guns and machine guns.

EXPECTS NOTIFICATION
OF WAR WITH TURKEY

Washington, Nov. 4.—Government officials expected to receive tomorrow from Great Britain and France a formal notification of the existence of a state of war with Turkey. The severing of diplomatic relations at London and Bordeaux, where the Turkish ambassadors respectively, were handed their passports, was regarded as the last chapter of a futile attempt on the part of the conservative members of the Ottoman cabinet to avert war.

President Wilson has hesitated to issue a proclamation of neutrality until the situation became more definite. A notification by the powers of the triple entente of the existence of a state of war with Turkey is now expected as a matter of course, following the official statement at Petrograd that Russian troops have crossed the Turkish frontier and the official announcement of the bombardment of the Dardanelles forts by an Anglo-French fleet.

FRENCH REPORTS TELL
OF GAINS AND LOSSES

Paris, Nov. 4 (2 p. m.)—The French war office today gave out an official announcement as follows:

"On our left wing to the north the situation shows no change, as compared to yesterday. The enemy has drawn back on the right bank of the Yser. We have recaptured Lombardtyde. The Germans occupy on the left bank of the Yser nothing more than the head of a bridge half way between Dinant and Neupont. They have abandoned, in addition to prisoners and wounded men, a considerable quantity of war material, including pieces of artillery which were held immovable by mud."

"Between Dinant and the Yser, the fighting has continued with alternate advances and withdrawals, but with the general result that the allies made perceptible progress."

"Between Yser and the region of Arras there has been cannonading and minor engagements."

"Between the region of Arras and the Oise we have made an advance to the east of Lequesnois-en-Santerre as far as the heights of Parvillers."

"On the center, the German attack which developed on the right bank of the Aisne in the region of Vailly and which resulted in our losing the first slopes to the north of Vailly and to the north of Champagne, was not continued yesterday. A counter attack by our forces brought again into our possession a portion of the lost ground."

"A violent cannonading and slight German attack were repulsed on the heights of the railway 24-Dames and in the vicinity of Rheims. There have been no happenings of importance between Rheims and Thionville."

"On our right wing—in Lorraine, there is nothing to report."

"Rumania—It was from the German frontiers that the offensive, and the Russians at certain points on the front are making successful progress. In Poland the Germans have occupied Graczk. The Germans, without actually occupying the town of Kielce, are on the move on the Yser."

WEATHER FORECAST.

Washington, Nov. 4.—New Mexico: Fair Thursday and Friday.

The Austrians, driven back to the southeast of Kiev, are holding only to the north of Mandorin. On the lower San river there have been engagements at Jukawodoff and Nisko, the results of which were favorable to the Russians and the Russians continue to cross the river. The German general staff has been moved to Cosztachowa, near the frontier of Silesia.

NO IMPORTANT CHANGE IN WAR SITUATION

Paris, Nov. 4 (11 p. m.)—The war office this evening made public the following official communication:

"There is no important modification in the situation to report."

"In the north we have made slight progress toward Mesines."

"To the east, artillery duels at several points of the front have taken place without any great results, notably at the west of Lens, between the Somme and the Aisne in the Argonne and in the forest of Apremont."

ALTERNATE GAINS AND LOSSES BY EACH SIDE

Paris, Nov. 5 (12:30 a. m.)—Alternate gains and losses by each side marked the great struggle between the allies and the Germans along the extended battle front in France and Belgium Wednesday, according to officers who have returned from the fighting zone.

The French and English troops, these officers say, made considerable progress in the neighborhood of Dixmude and Lys. On the other hand, the Germans are reported to have gained a small amount of territory in the region of Valenciennes and Chavonne.

The heaviest fighting of the day was in this region, where the Germans, heartened by Tuesday's appreciable advance, endeavored to continue their success.

The allies, aided by reinforcements, are said to have blocked the attacks of the Germans and a small detachment of French, although they met with heavy resistance on the Aisne, are reported to have succeeded in pushing on and gaining high ground commanding the enemy's position.

From this point the French opened a raking fire on the Germans, but they were not sufficient to withstand the furious German onslaught that followed and were compelled to retire. The few cannon taken by the Germans, it is said, were put out of commission before the retreat.

The armies are finding it difficult to construct trenches in the valley of the Yser owing to the low ground. This fact is necessitating a considerable change in their operations. Holes two feet deep immediately fill with water. The allies are forced to dig while lying prone and are using all manner of ruses for their protection. The close notification of the allies is marked, according to reports of officers arriving here. In giving an instance of this, they related a story of the routing of a detachment of Germans by a volunteer band of allies.

A small detachment of fifty or sixty Germans, the officers said, still occupied the heights of the Yser and kept up an intermittent fire. The corporal of the sixth corps (nationally not mentioned) requested permission to capture the position. He called for volunteers to make the dangerous charge across the open and unprotected marshy ground and was overwhelmed with offers to serve. Choosing ten of these men, they, with the corporal at their head, began crawling on hands and knees across the open. Although the little party was under a heavy fire they succeeded in reaching, without loss, a point fifty yards from the Germans. Here they rose and shouting, charged the German position. The Germans believing the move was a ruse, laid down their arms and surrendered.

An example of the good sportsmanship among the French was shown in a letter written by a German aviator to his parents. Flying high over the French trenches the German pilot was killed and the aviator badly wounded. The aviator, however, succeeded in bringing his machine safe to the earth within the French lines. He was immediately attacked on all sides but throwing himself under the wing of his machine, he succeeded in killing three of his assailants before his revolver was empty. When he ceased firing the soldiers rushed up to bayonet him, but their colonel stopped them, saying, "Don't kill him; he is a brave man and a worthy enemy."

A sergeant in relating stories of the

large number of spies still existing behind the French lines told of an old woman near Sissons with her cart filled with provisions who started to cross the bridge. She was stopped by the sergeant. Thereupon the woman became angry and started to abuse the officer. The sergeant became suspicious of her intention and ordered her arrest. The load in her cart was then examined. On the neck of each unpacked food which it contained was a tag containing the address of the consignee. In the next town and under each wing a message was found giving minute details of the French movements.

TREATY WITH AMERICA VIOLATED BY GERMANY

New York, Nov. 4.—Robert Bacon, former secretary of state, issued a statement today before sailing for England, in which he said that in violating the neutrality of Belgium, Germany broke a treaty which she had made with the United States when she signed Articles 1 and 2 of the second Hague conference, which stipulates that the territory of neutral powers shall be inviolate.

"Are we to suffer a nation to break a treaty with us on whatever pretext without entering, at least a formal protest?" reads the statement. "Will anyone contend that our neutrality imposes silence upon us under such conditions? Are the Hague conventions to become 'scrap of paper' without a single word of protest from this government? If the treaties which we made at the Hague are to be so lightly regarded, then why not all our other treaties? As a matter of fact, it is our solemn duty to protest against a violation of pledges formally entered into between this government and any other government and we assume moral responsibility when we remain silent."

"To justify a policy of silence by the assertion that we are fortunate in being safely removed from this danger that threatens European powers and to urge that as a reason for us to sit still with hands folded is as weak as it is unwise."

SULLIVAN BEATEN BY SHERMAN FOR U. S. SENATORSHIP

(BY MORNING JOURNAL SPECIAL LEADERS WIRE)
Chicago, Nov. 4.—Lawrence Y. Sherman, republican, was re-elected to the United States senate over Roger C. Sullivan, democrat, by an estimated plurality of 5,000 or more, according to the latest returns tonight from Tuesday's election.

Raymond Robbins, progressive, ran a poor third. With only 300 small rural precincts to hear from, and an average plurality of 22 to the precinct for Sherman outside of Chicago, Sherman's down-state lead was \$2,821 as against a plurality in Cook county of 55,539.

EXPORT BALANCE FOR OCTOBER \$60,000,000

(BY MORNING JOURNAL SPECIAL LEADERS WIRE)
Washington, Nov. 4.—Commerce department officials estimated tonight that October's export balance in favor of American trade would amount to \$60,000,000. That would be an increase of \$44,000,000 over the September balance, indicating the tremendous extent of the trade pendulum's swing since the first month of the war. In August the value of imports exceeds exports by twenty million dollars, but as the sea highways were cleared there was an immediate change in the flow of trade and balance established to help meet American obligations abroad.

Santa Fe, Nov. 4.—The Women's club has decided to make next Tuesday tag day to gather funds for the war sufferers in Europe.

SMALL MAJORITY OF DEMOCRATS IN HOUSE; GAINS MADE IN SENATE

(Continued From Page One.)

Ileanna one; republican gain one in Fifth district.

Massachusetts.—Democrats four; republicans twelve; republicans gain four in Eighth, Eleventh, Thirteenth and Sixteenth districts.

Michigan.—Democrats two; republicans eleven; republicans gain two over progressives in Tenth and Twelfth districts.

Minnesota.—Democrats one; republicans eight; progressives one; progressives gain one.

Montana.—Democrats two; republicans none; unchanged.

Nebraska.—Nebraska three; republicans three; unchanged.

Nevada.—Democrats none; republicans one; unchanged.

New Hampshire.—Democrats none; republicans two; republicans gain two.

New Jersey.—Democrats four; republicans seven; probably democratic one; republicans gain five in Second, Fourth, Eighth, Ninth and Tenth districts.

New Mexico.—Democrats none; republicans one; republican gain one.

New York.—Democrats twenty; republicans twenty-one; progressive one; socialists one; republicans gain twelve in the First, Ninth, Tenth, Eleventh, Twelfth, Twenty-fifth, Twenty-seventh, Twenty-eighth, Thirtieth, Thirty-first and Fortieth; socialists gain one in Twelfth district.

North Carolina.—Democrats nine; republicans three; unchanged.

North Dakota.—Democrats none; republicans three; unchanged.

Ohio.—Democrats ten; republicans twelve; republicans gain nine in First, Fourth, Eleventh, Fourteenth, Fifteenth, Sixteenth, Eighteenth, Nineteenth and Twenty-second districts.

Oklahoma.—Democrats six; republicans two; republicans gain one in First district.

Oregon.—Democrats none; republicans three; republicans gain one over progressives in Third district.

Pennsylvania.—Democrats seven; republicans twenty-nine; republican net gain ten; gain over democrats or progressives in Fifth, Sixth, Eighth, Twelfth, Seventeenth, Twentieth, Twenty-third, Twenty-fourth, Twenty-eighth and Thirtieth districts and two at large; loss to democrats one in Twenty-fifth.

Rhode Island.—Democrats one; republicans two; republicans gain one in Second district.

South Carolina.—Democrats seven; republicans none; unchanged.

South Dakota.—Democrats one; republicans two; unchanged.

Tennessee.—Democrats eight; republicans two; unchanged.

Texas.—Democrats nineteen; republicans none; unchanged.

Utah.—Democrats 1; republicans one; democrats gain one in Second district.

Vermont.—Democrats none; republicans two; unchanged.

Virginia.—Democrats nine; republicans one; unchanged.

Washington.—Democrats one; republicans four; republicans and democrats each gain one over progressives.

West Virginia.—Democrats three; republicans three; unchanged.

Wisconsin.—Democrats two; republicans nine; republicans gain one in Sixth district.

Wyoming.—Democrats none; republicans one; unchanged.

On the basis of the latest returns the senate of the Sixty-fourth congress will remain in democratic control by an increased majority. Although there is uncertainty regarding the election in Utah and Nevada, the indications are that the new senate will consist of fifty-five democrats, forty republicans and one progressive.

Senator Reed Smoot, republican, of Utah, has been re-elected. Senator Newlands of Nevada, also seemed in danger of losing his seat to Samuel Platt, republican. The Utah and Nevada senators have seen long service in the senate and both have been in their states for several weeks endeavoring to overcome opposition which had developed when the popular election of senators was provided by constitutional amendment.

In states where the fight was hottest victory was practically assured for Roger C. Sullivan, democrat, in Illinois; Charles S. Thomas, democrat, in Colorado; J. D. Phelan, democrat, in California; Benjamin J. Shively, democrat, in Indiana; Charles Curtis, republican, Kansas; Warren G. Harding, republican, Ohio, and E. S. Johnson, democrat, South Dakota.

REPUBLICANS LOSE SOUTH DAKOTA SENATOR

Pierre, S. D., Nov. 4.—After receiving returns from the northern counties of the state tonight, Congressman Burke, republican, conceded the election of E. S. Johnson, democrat, to the United States senate and wired congratulations.

Harry L. Gandy, democrat, defeated W. G. Rice, republican, in the Third congressional district, by a substantial majority.

In the other two congressional districts the republican candidates were elected.

OHIO GETS BACK INTO REPUBLICAN FOLD
Cincinnati, O., Nov. 4.—That Ohio will have a republican senator to succeed Senator Theodore E. Burton, a republican governor to succeed James M. Cox, democrat, and a republican majority in the state congressional delegation is assured as the result of the election in this state yesterday. The results of the principal contests follow:

For United States Senator, Warren G. Harding, republican, elected over

Timothy S. Hogan, democrat, and Arthur L. Garfield, progressive.
For governor Congressman Frank R. Willis, republican, elected over the present incumbent, James M. Cox, democrat, and James R. Garfield, progressive.

Republicans carried 12 out of the 22 congressional districts.

Republicans elect the entire state ticket.

Amendment asking for state-wide prohibition defeated.

Amendment asking for woman suffrage defeated.

Amendment asking for home rule, a recognized "wet" proposition adopted.

While a number of rural precincts are to be heard from, the above results are conceded.

McGOVERN PROBABLY WINS IN WISCONSIN

Milwaukee, Nov. 4.—Related though still incomplete returns from the vote on United States senator in yesterday's election indicate that Governor, McGoVERN, republican, is elected by a small plurality ranging anywhere from 1 to 4,000 votes over Paul O. Hastings, democrat.

DEMOCRATS CANDIDATE WINS IN MINNESOTA

St. Paul, Nov. 4.—Eight republican, one democrat and one progressive constitute Minnesota's congressional representation elected yesterday, according to returns tonight which also showed Governor W. S. Hammond, democrat, would have a plurality of 20,000 over his republican opponent, W. E. Lee. Aside from governor the entire republican state ticket was elected.

KANSAS SENATORSHIP IS STILL IN DOUBT

Topeka, Kan., Nov. 4.—Arthur Capner, republican, editor of the Topeka Capital, has been elected governor of Kansas by upward of 50,000 plurality over Governor Hodges, democrat. His election is conceded late today by the democratic campaign managers.

Congressman George A. Neeley, democrat, and Charles Curtis, republican, are running neck and neck, for United States senator, with the count favoring Curtis early this evening. It is estimated the democrats will have six of the eight congressional districts. Congressman Anthony and Congressman Campbell being the only republicans sure of election.

IDAHO DEMOCRATS WIN GOVERNORSHIP

Boise, Idaho, Nov. 4.—M. Alexander, democrat, was elected governor of Idaho by a plurality of about 5,000 over John M. Hines, republican incumbent.

United States Senator James H. Brady, republican, and Congressman Addison T. Smith, republican, were elected. Robert McCracken, republican, is the other member of congress to be elected from Idaho.

The entire republican state ticket won with the possible exception of attorney general. The legislature will be republican.

All parties are pledged to submit a constitutional amendment for state-wide prohibition.

DEMOCRATS GENERALLY WIN IN NEBRASKA

Omaha, Neb., Nov. 4.—Although returns are still incomplete, enough have been gathered to indicate that the democrats have elected a governor and three congressmen and that most or all of the lesser democratic candidates on the state ticket have been elected with Governor Morehead. The republicans have elected congressmen from three districts.

Locally, the democratic ticket has been generally successful.

It is apparent that Governor Morehead, democrat, has been re-elected by a plurality which will exceed 10,000.

Returns on the woman suffrage amendment are still far from complete, but those compiled thus far indicate that it is defeated by 5,000 or more. Suffragists made an extraordinary campaign in this state. Secretary of State Bryan spoke for woman suffrage.

UTAH SENATORIAL ELECTION IN DOUBT

Salt Lake City, Nov. 4.—The result of Utah's senatorial election yesterday remains in doubt with claims of success by a majority of a few hundred made for both Senators Smoot and James H. Hays, the democrat opposed to him on the democratic-progressive ticket.

Republicans concede the election of James R. Mays, democratic-progressive, in the second congressional district, and of E. G. Gowan, non-partisan candidate for state superintendent of schools.

Joseph Howell, republican, appears to be re-elected in the first congressional district.

TWO REPUBLICANS ARE ELECTED IN MISSOURI

St. Louis, Mo., Nov. 4.—Thirteen democrats, two republicans and one claimed by both parties; such was the status of Missouri's congressional delegation as indicated by returns tonight, decisive except in the fourth district.

Meeker and Dyer, the only republicans elected, were carried to victory by the republican landslide in St. Louis.

In the Fourteenth district, J. J. Russell, democrat, tonight claimed re-election by a plurality of several hundred while Thomas J. Brown, republican, who was leading with several counties incomplete, also was confident of victory.

Almost complete returns from the entire state continue to show a plurality of about 50,000 for Senator Stone, the balance of the democratic ticket, winning with approximately 40,000 votes to spare. Woman suffrage and the county unit proposition, like all other amendments, were defeated.

CUMMINS ELECTED BY 25,000 PLURALITY

Des Moines, Ia., Nov. 4.—The election by Iowa republicans of United States Senator Albert B. Cummins

SEVERE RHEUMATIC PAINS DISAPPEAR

Rheumatism depends on an acid in the blood, which affects the muscles and joints, producing inflammation, stiffness and pain. This acid gets into the blood through some defect in the digestive process.

Hood's Sarsaparilla, the old-time blood tonic, is very successful in the treatment of rheumatism. It acts directly, with purifying effect, on the blood, and improves the digestion. Don't suffer. Get Hood's today.

and Governor George W. Clarke having been made certain, interest tonight centered in the pluralities. The figures today were 25,000 to 20,000 plurality for Cummins, and from 10,000 to 20,000 for Clarke. Actual returns on 1,042 precincts out of a total of 2,281 in the state tonight give Cummins, 22,814 and Connolly, democrat, 17,811. With the exception of the Eleventh district, it seemed certain that the republicans had elected their congressional delegation. T. J. Steele, democrat, was declared to have defeated Representative George C. Scott, republican, but definite figures were not available here.

All doubt as to the republican complexion of the state ticket and the legislature disappeared tonight.

SUFFRAGE ELECTION IN MONTANA CLOSE

Helena, Mont., Nov. 4.—Returns from scattered precincts in Montana show the vote on the woman's suffrage amendment to be as close that the official count will be necessary to determine the result.

REPUBLICANS SWEEP IN NEW YORK VERIFIED

New York, Nov. 4.—Revised returns on governor from all except 134 districts in the state give Whitman, republican, 570,325; Glynn, democrat, 57,151; Sulzer, prohibition and American, 119,324; Daveport, progressive, 45,881.

Whitman's lead over Glynn is 123,174.

Returns from all except 383 districts in the state for United States senator give the three leading candidates:

Wadsworth, republican, 599,269; Gerard, democrat, 552,641; Colby, progressive, 55,528.

Wadsworth's plurality, 46,628.

WHY CONNECTICUT WENT BACK ON DEMOCRACY

New Haven, Conn., Nov. 4.—Governor Simeon K. Baldwin, democrat, candidate for United States senator, who was defeated in yesterday's election by Frank B. Brandegee, republican, commenting upon the outcome of the voting, said today:

"The key to the election is very simple. The progressives of Connecticut are tired of following ex-President Roosevelt and most of them returned to the republican fold from which they had gone originally."

"I think also that the indictment of more than twenty of the New York, New Haven and Hartford company's directors and the labeling as conspirators of a good many highly esteemed citizens who are in their graves, had an unfavorable effect on the democratic prospects."

SOCIALIST ELECTED TO CONGRESS IN NEW YORK

New York, Nov. 4.—A socialist has been elected to congress for the first time in the history of New York. He is Meyer London, of the Twelfth congressional district, who has been active in labor and socialist circles in this city for many years. He defeated Congressman Henry M. Goldfogel, the democratic and independence league candidate.

LITTLE CHANGE MADE IN OREGON SITUATION

Portland, Ore., Nov. 4.—With the exception of governor, the political complexion of Oregon's roster of public officials was changed very little by yesterday's election.

Oregon returns to the senate, George E. Chamberlain, democrat, incumbent, and to the house, W. C. Hawley and N. J. Sinnott, republican incumbents from the First and Second districts. In the Third district, C. N. McArthur, republican, succeeds W. A. Lafferty, who ran as an independent.

For governor, Dr. James Withycombe, republican, succeeds Governor Oswald West, democrat.

The state legislature remains republican.

OFFICIAL COUNT NEEDED IN NEVADA SENATORSHIP

Carson, Nev., Nov. 4.—Today's returns from yesterday's election in Nevada brought the contest between Francis G. Newlands, democrat, and Samuel Platt, republican, for the United States senatorship to so close a vote that it is apparent the official count must be awaited definitely to decide the winner. Platt's lead was reduced during the day to less than 100 votes.

Governor Tasker L. Oddie, republican, led Emmett Boyle, democrat, by a narrow margin in the governorship contest.

The election of E. E. Roberts, republican, to congress, was assured.

Woman suffrage has prevailed by a fair majority.

DEMOCRATIC SENATOR ELECTED IN CALIFORNIA

San Francisco, No. 4.—Returns from yesterday's election, drifting in slowly today, failed to reverse any of the results indicated in the earlier snap tallies. James Phelan, democrat, drew slowly away from Joseph R. Knowland, republican, until late today his plurality had passed the 5,000 mark in the senatorial contest. George H. Derrick, republican, and J. A. Elston, progressive, were running closely in the Sixth congressional district with Elston in the lead.

HERNANDEZ' MAJORITY IN THE STATE GROWS AS RETURNS COME IN
(Continued From Page One.)

Wilson 61. Six precincts in the county outside the city give Ferguson 811. Hernandez 324, and Wilson 66. The progressives polled a very light vote in Roswell.

All the democratic candidates for the legislature are elected, Veal leading the ticket with ten precincts to be heard from. Judge Richardson received 722 votes in Roswell.

COLFAX COUNTY.
Maxwell, N. M., Nov. 4.—Final returns from Maxwell precinct give Ferguson 44, Hernandez 26, and Wilson 26. For corporation commissioner, Hill received 59 votes, Williams 38, and McTeer 19. At French Ferguson received 27 votes, Hernandez 22, and Wilson 7. For corporation commissioner, Hill ran four votes behind Ferguson.

All amendments to the constitution were carried in both precincts.

CURRY COUNTY.
Clovis, N. M., Nov. 4.—The election of W. C. Sharp, socialist, to the legislature is conceded by the chairman of the democratic county committee by a majority of better than 50. Sharp is pledged to support Governor McDonald's program on salaries and taxation.

Ferguson and Hill have carried Curry county for congressman and corporation commissioner respectively by pluralities of approximately 350.

EDDY COUNTY.
Carlsbad, N. M., Nov. 4.—Ten precincts out of sixteen in Eddy county, including Carlsbad, give Ferguson 765, Hernandez 81, Wilson 62. For corporation commissioner, Hill 726, Williams 117, McTeer 56; for judge, Richardson 761, Haverer 76; for legislature, Dowd 770, Skeen 794. All amendments are defeated.

DONA ANA COUNTY.
Las Cruces, N. M., Nov. 4.—With all but three precincts heard from, returns indicate that Hernandez has carried Dona Ana county by approximately 150 plurality and that Williams is leading Hill by the same figures.

The democratic legislative ticket is apparently beaten, with the possibility that Frenzer may pull through on the final count.

GRANT COUNTY.
Silver City, N. M., Nov. 4.—Election out of twenty-eight precincts heard from this morning give Ferguson a plurality of 660. Of the remaining seventeen precincts fifteen are normally democratic and it is safe to predict a total plurality for Ferguson in Grant county of more than 1,000.

The vote in Silver City gives Ferguson 304, Hernandez 164. For corporation commissioner, Hill 285, Williams 229; for the legislature, Ryan 281, Holland 300, Lamb 263, Robinson 180. The victory of the democratic candidates in Silver City, which is normally republican, is the feature of the election in this county.

The democratic legislative ticket

running almost even with Ferguson, and the election of Ryan and Holland is assured.

LUNA COUNTY.
Deming, N. M., Nov. 4.—Deming precinct give Ferguson 372, Hernandez 171, Wilson 46. For corporation commissioner Williams 202, Hill 231, McTeer 42. For the legislature, Smith 281, Case 254, Garcia 52. All the amendments to the constitution were defeated by a large vote.

Myndus precinct gives Ferguson 54, Hernandez 19, Wilson 4. For corporation commissioner, Williams 41, Hill 33, McTeer 4. For the legislature, Smith 40, Case 35.

OTERO COUNTY.
Alamogordo, N. M., Nov. 4.—Election out of fifteen precincts in Otero county including Alamogordo give Ferguson 426, Hernandez 185. For corporation commissioner, Hill 494, Williams 184, Wilson and McTeer received 28 and 38 respectively in two precincts. For the legislature Bailey and Vigil are leading.

SAN JUAN COUNTY.
Aztec, N. M., Nov. 4.—Ten out of eleven precincts in San Juan county give Ferguson 426, Hernandez 232, and Wilson 28. For corporation commissioner, Williams 274, Hill 285, McTeer 26. For the legislature, Whitehead 340, Palmer 355, Beck 47.

The two-year term amendment for county and state offices has carried by about 2 to 1. Other amendments defeated. Farmington precinct gave landslide for Palmer, which elected him.

SOCORRO COUNTY.
San Marcial, N. M., Nov. 4.—All constitutional amendments lost in San Marcial precinct. For congress, Ferguson 72; Hernandez 110. For representative, Romero, 62; Jones, 100; Chavez, 87; Eaton, 123; Aheya, 70; Vigil, 80. For district attorney, Tittman, democrat, 58; Owen, republican, 121.

The same precinct in 1912 gave Ferguson a plurality of 42.

UNION COUNTY.
Clayton, N. M., Nov. 4.—Fifty precincts out of twenty-eight give Ferguson, 470; Hernandez, 502. For corporation commissioner, Hill, 703; Williams, 560. For the legislature, Tomba, 615; Smith, 702; Miera, 655; Vigil, 497; O. Smith, 97.

Fourteen precincts give Welch, 47; Thompson, 45; Tillman, 48; Metcalf, 63; Wilson, 83; McTeer, 73; Bassett, 74.

Democratic leaders claim the county for their entire ticket by pluralities ranging from 200 to 500.

Two Capitals of Mexican Republic and Neither of Them at Mexico City; Hostilities Begin.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
El Paso, Tex., Nov. 4.—Mexico, with two provisional presidents, had two provisional capitals today and neither of them was Mexico City.

General Carranza, who for several days has been sojourning at Puebla, ordered his cabinet ministers with the archives of the government to proceed there. Puebla is located between the national capital and Vera Cruz, where the American forces remain.

The other capital is at Aguas Calientes, scene of the recent conference of revolutionary chiefs, who attempted an adjustment of the long standing difficulties between Carranza and Villa. General Emilio Guiterrez, elected by the convention as provisional president, officiated at that city.

With the admitted split between the constitutionalist commander-in-chief and his northern commander, there came today the joining of either side by the various chieftains. The Carranza consulate general here tonight announced definite information that several of the most important leaders had joined the Carranza side.

Among those were Gen. Alvaro Obregon, commander of the western military zone, who has acted as a neutral in the Carranza-Villa difficulty; Gen. Lucio Blanco, cavalry commander of Obregon's division and formerly chief of the eastern zone, and Gen. Antonio Villareal, who has been president of the Aguas Calientes convention.

Villareal and Blanco left Aguas Calientes today for Mexico City. Blanco already had been operating about the capital, fighting the Zapata rebels. Gen. Pablo Gonzalez, commander of the eastern military zone, previously had acknowledged his loyalty to the first chief.

According to the troops commanded by these leaders, and allowing margins for official calculations, this would place Carranza in a much stronger position than his insurgent commander in the north. Villa, however, has a much better organized army and superior equipment. The west coast country with the exception of Sonora, now dominated by Maytorena, a Villa adherent, has joined Carranza, his agents declared.

CARRANZA DEFIES HIS ENEMIES; WILL FIGHT

San Antonio, Tex., Nov. 4.—"If all of the chiefs of the constitutionalist army abandon me, I will abandon my native land, but if, on the other hand, any part of them sustain and uphold me, we will fight until death."

These are the defiant words with which General Carranza is credited in a statement given out at the Mexican consulate here after the receipt of a telegram from Puebla late today.

The statement said General Carranza had issued the following relative to the action of the delegates at Aguas Calientes:

"These valiant generals have made effective a resignation that has never been presented or forwarded by me and which I have never presented and they have even gone so far as to appoint a president. And by this last act they have fallen into a neat trap prepared for them by some of the Maderista congressmen, the same ones who distinguished themselves as being responsible to a great extent in the cause which led to the overthrow of the democratic government of the apostle of Madero and these very men are now causing more trouble for the nation through their intrigues and ambition."

CARRANZA GENERALS NOT YET IN MEXICO CITY

Mexico City, Nov. 4.—Generals Obregon, Benavides and Villareal, the commission appointed by the Aguas Calientes peace convention to confer with General Venustiano Carranza, had not arrived in the capital up to a late hour tonight. The war office declared that the commission still was at Queretaro City, where they left the train yesterday afternoon they left to confer with General Pablo Gonzalez, who commands a strong force of Carranza soldiers here.

Rumors to the effect that the commission had been arrested by General Gonzalez were officially denied here.

General Carranza is still in Puebla, where he has been joined by his private secretary and the minister of foreign relations.

During the entire day the troop movement in this city has been very active, many soldiers being sent to

Chief Queretaro at Puebla. Speaking of the troop movement, the minister of war said tonight that sufficient soldiers were left in the capital to protect it against any attack from followers of Zapata.

SEES SUCCESS FOR REPUBLICANS IN 1916

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Chicago, Nov. 4.—"This election, like others held since 1912, demonstrates that the country is republican and favors a protective tariff," said John C. Everman, secretary of the republican congressional committee, in a statement here today.

"It shows," continued Mr. Everman, "that the Wilson administration remains a minority and a sectional one; that the progressive party disappears as a potential factor in American politics; that the republican gains in congress put an end to half-baked and sectional legislation which has characterized the present democratic administration."

"In the 'solid south' as usual, one hundred and twenty-three democratic congressmen were elected with hardly any opposition and little responsibility to their constituents, and were it not for this President Wilson would face a more serious rebuke than the people administered in 1892 when it attempted to foist free trade upon the country."

"The wonderful victory of the republicans in New England, Pennsylvania, Ohio, the central states, Kansas and indeed all over the country, where the bull moose leaders ran a bad third, means a victorious republican party in 1916. Large republican gains were made in the agricultural, laboring and mining communities."

Frank P. Woods, chairman of the national republican congressional committee, who is at his home in E-therville, Iowa, where he went to vote, declined to make a statement before tomorrow or until he could study the returns.

ARIZONA GOES DRY; SENTENCES FIFTEEN TO DEATH

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Phoenix, Ariz., Nov. 4.—While voting their state dry in the election yesterday, the men and women of Arizona sentenced to death fifteen murderers who have been held in the Florence penitentiary under reprieve pending the outcome of the ballot on the proposal to abolish capital punishment.

Returns up to tonight made it practically certain that with the exception of the prohibition amendment, and one other, all the measures on the ballot were defeated. The other was the proposal to limit railroad passenger fares to three cents per mile. The defeated propositions included that forbidding prohibition elections often than once in eight years and the labor measure providing that 80 per cent of all employees in any business of whatever character should be American citizens.

WASHINGTON STATE DEFEATS PROHIBITION

Seattle, Nov. 4.—Nine hundred and thirty-one precincts out of 2,653 in the state of Washington gave: For prohibition, 71,187, against 72,662, a wet majority of 1,465. The big "wet" precincts have already reported and the remaining precincts, though smaller, are giving dry majorities in most cases.

Senator Wesley L. Jones, republican, was re-elected by a plurality that may go as high as 10,000.

EFFECTIVE ATTACK ON FORTS AT TSING-TAU

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
New York, Nov. 4.—The East and West News bureau made public today the following cable dispatch from Tokyo:

"The navy general staff made today, November 4, at 3 p. m., the following official announcement: 'On November 1, the Japanese fleet together with English warships, made an effective bombardment on Hils and other forts. At 3 a. m. November 2, the Austrian cruiser Kaiserin Elizabeth, seemed to have been blown up in Kiao-Chow bay. On November 3, the floating dock in the Tsing-Tau harbor listed and sank.'"

TURKISH MINISTER OF FINANCE RESIGNS

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Constantinople, Nov. 4 (via Sofia and London, 11:35 p. m.)—Djavid Bey, Turkish minister of finance, resigned today. His place in the cabinet is being filled temporarily by Talat Bey, minister of the interior. Djavid Bey's resignation was fully expected as he has always expressed disapproval of war.

A previous dispatch reported the resignation of Osman Nizam Pasha, minister of public works; Suleiman of Rustan, minister of commerce and Tachurkusha Mahmud, minister of marine. These resignations were undoubtedly due to dimensions which arose over the Black sea raid of the Turkish fleet which brought Turkey into the European war.

SEVERELY SHAKEN UP IN RUNAWAY ACCIDENT

(SPECIAL DISPATCH TO MORNING JOURNAL)
Santa Fe, Nov. 4.—While out in a carriage yesterday, Mrs. Fred McBride was thrown to the road when the horse driven by her sister-in-law, Mrs. R. J. Critchett, ran away. The accident occurred on the Santa Fe drive.

Mrs. McBride, who is just convalescing from an attack of tonsillitis, was considerably shaken up and had her face bruised. The horse came to a standstill when it ran into a cedar tree.

COLORADO & SOUTHERN FILES ANNUAL REPORT

(SPECIAL DISPATCH TO MORNING JOURNAL)
Santa Fe, Nov. 4.—The Colorado and Southern Railway company, which cuts across Union county in its way from Colorado to Texas, yesterday filed with the state corporation commission its annual report. It reports that during the past year no postal clerks or passengers were killed on its line. However, five employees were killed and 248 injured, 16 passengers were killed and 21 injured, 47 passengers and four postal clerks were injured.

The valuation of its real estate and personal property in New Mexico is \$21,928,42. In Colorado, \$254,655,87; in Wyoming, \$57,927,73; New York, \$17,80, and in Utah, \$2,51. It paid Uncle Sam a corporation income tax of \$13,421.67. The total revenue last year was \$7,668,128.85, of which \$5,619,584.75 came from freight traffic; \$1,472,629.96 from passenger traffic; \$108,736.01 from carrying the mails and \$47,329.29 from express. The total traffic expense was \$5,82,172.98 of 73.4 per cent of the revenue. Of this \$1,380,398.01 was expended for maintenance of way; \$2,738,653.92 transportation expense; \$129,453.76 traffic expense, and \$261,971.75 general expense. The road has a mileage of 1,126.90.

MADRID COAL MINES TO BE SHOWN IN THE MOVIES

(SPECIAL DISPATCH TO MORNING JOURNAL)
Santa Fe, Nov. 4.—Chase Bell, motion picture operator of the New Mexico exposition commission, leaves tomorrow for the coal mines at Madrid, southern Santa Fe county, to film operations there. The camp is one of the oldest in the state and is interesting because anthracite and bituminous coal have been mined there in close proximity.

Waldo Twitchell is drawing for the exposition book a map of the region adjacent to Albuquerque and Santa Fe, showing the principal cliff and cave dwellings, pueblos, mission churches, mines, towns, forests, mountain peaks, reserves and everything else that is attractive to a tourist. It is called the map of the Thousand Tourist Wonders and takes in a circle of only sixty miles diameter but in which are condensed more prehistoric, historic, scenic, ethnological attractions than are found in any similar area elsewhere in the world.

FORTUNE IN GOLD IS DERIVED FROM ORE

(SPECIAL DISPATCH TO MORNING JOURNAL)
Silver City, N. M., Nov. 4.—A consignment of 640 pounds of ore, taken from the Langston mine at Pinos Altos, netted over \$16,000 in gold, according to J. L. Caddell, president of the C. & O. Mining company, owners of the Langston property, who returned this week from San Francisco, where he went to dispose of the ore.

The ore, which comprised nine sacks, had been kept in the vaults of the American National bank in this city for safekeeping, so rich was it considered.

Recently a large quantity of gold quartz has been taken from the Langston mine, as well as from the Pacific mine, an adjoining property, which is being operated under lease by Wright and Stauber.

The ore appears almost virgin in character, the gold being easily visible to the naked eye.

Visitors to Museum.

Santa Fe, Nov. 4.—Visitors who registered at the New Mexico museum today were from far distances apart and included the following: D. A. Macpherson, E. W. Arnot, Thomas L. Passmore, J. B. Myer, M. Nash, Albuquerque; M. C. Osgood, Mrs. M. C. Osgood, Mrs. Dora Craig, Lola Craig, James Craig, J. S. Craig, Durango, Colo.; W. A. Hann, Johannesburg, S. A.; Mrs. W. A. Hann, William H. SLAUGHTER OF DEER CHARGED TO INDIANS

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
Silver City, N. M., Nov. 4.—A party of fifteen Navajo Indians, who had been hunting in the vicinity of Indian Peaks in the Mogollon mountains, were arrested a few days ago by Dale M. Gordon, a deputy game warden acting under instructions of the Southwestern Sportsmen's association, for ruthless and unlawful slaughter of deer.

The Indians were found to have killed more than their quota of game and on being arraigned before a justice of the peace at Florence, N. M., were assessed the minimum fine and costs, amounting in all to \$37. The Indians paid up and were released.

Because of the depredations of poachers and game hogs in past years, the association this year co-operating with the state game warden has been unusually active in forcing a strict compliance with the game protection laws, in an effort to prevent the extermination of big game in this region, recognized as the finest hunting grounds in the southwest country.

Numerous arrests for violations have been made and heavy fines assessed hunters.

Voters Have Anniversary.

Santa Fe, Nov. 4.—It was fifty-one years yesterday that ex-Postmaster Simon Nussbaum cast his first vote in Philadelphia. He is a life-long republican. So is J. H. Allison, who cast his first vote fifty years ago while General Sherman on the march from Atlanta to the sea.

Conway Opens New School.

Santa Fe, Nov. 4.—County School Superintendent John V. Conway went to Rio Medio in northern Santa Fe county today to accept a new school house just completed at that out-of-the-way settlement. While modest in outline, the school is modern in every respect and pleasing in outline. It has domestic science as well as manual training rooms and facilities.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Thickness.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at Sage Tea, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application of two, your hair becomes beautifully dark, glossy, soft and luxuriant.

Best Cough Medicine for Children.

"Three years ago when I was living in Pittsburgh one of my children had a hard cold and coughed dreadfully. Upon the advice of a druggist I purchased a bottle of Chamberlain's Cough Remedy and it benefited him at once. I find it the best cough medicine for children because it is pleasant to take. They do not object to taking it," writes Mrs. Lafayette Tuck, Homer City, Pa. This remedy contains no opium or other narcotic, and may be given to a child as confidently as to an adult. Sold by all dealers.

NO REASON FOR GLOOM SEEN BY THE DEMOCRATS

Thomas J. Pence of National Committee Says Victories Are Shown by Results in Many States.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Washington, Nov. 4.—Thomas J. Pence, in charge of the headquarters of the democratic national committee, issued the following statement tonight, after conferences with Postmaster General Burleson, Secretary to the President Tumulty and other administration officials:

"A careful canvass of the election returns shows that the democracy has strengthened its position in the senate and has splendidly maintained itself with the election of the great majority ever returned by any party in an off year following a revision of our tariff system."

"With complete returns from all sixteen districts, the democrats have carried 125 congressional elections as against 158 by the republicans, three by the socialists and three by the progressives, a majority of thirty-seven over the republicans."

"It is gratifying to know that the party has strengthened its hold in the great middle west and on the Pacific coast."

Mr. Pence said the reduction of the democratic majority in the house had little bearing on the situation because the strength of the progressive vote two years ago led to the election of so many democratic members by minority votes.

"This time we had a stand-up fight with the republicans and we have defeated them," said Mr. Pence. "Generally speaking, the progressives were not a factor in this election. The outcome this year, therefore, cannot be compared to that of two years ago."

"We have elected democratic governors in Minnesota, Nebraska, Massachusetts, Tennessee, Michigan and Wyoming as well as in southern states. There was danger of our losing senators in Colorado and Oregon, but both Thomas and Chamberlain have been elected, and we have good chances of electing Senator Newlands in Nevada, Roger Sullivan in Illinois and Neely as senator in Kansas. Unexpectedly we have elected Phelan as senator in California and Johnson as senator in South Dakota."

Condemnation Suit Filed.

Santa Fe, Nov. 4.—Suit was filed in this city today by the federal reclamation service for the purpose of condemning 2,500 acres of land under the Carlsbad irrigation project in Eddy county. The land is adjacent to the McMillan reservoir and is to be used for the enlarging of the reservoir. It will be submerged, adding considerably to the contents of the great body of water.

FOUR STATES GO DRY WHILE TWO CONTINUE WET

Arizona, Colorado, Oregon and Washington Vote Out Saloons and Ohio and California Retain Them.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Chicago, Nov. 4.—Four of the six states that voted Tuesday on the expiration of saloons, decided, according to latest returns tonight, to forbid the sale of alcoholic beverages in future and two voted to retain saloons. Ohio and California kept their saloons, while Washington, Colorado, Oregon and Arizona closed theirs.

Washington on first returns showed a wet majority but later returns gave the dry a slight lead, which tended to increase.

Unofficial returns from Arizona show that saloons were voted out, this result as well as in voting to retain the death penalty, thus condemning finally to death fifteen murderers awaiting the outcome of the election.

Ohio retained saloons by a good majority and adopted a home rule amendment that was recognized as a saloon measure.

Missouri defeated the county unit system of local option, which precluded the rural vote on saloons in option election.

WOMEN BELIEVE SUFFRAGE WINS IN TWO STATES

General Rejoicing Over Sure Victory in Nevada and Probable Success in State of Montana.

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Chicago, Nov. 4.—Women suffrage leaders rejoiced tonight when related returns indicated that votes for women had been apparently granted in two of the seven states voting on the question in Tuesday's election, with a third state in doubt. First returns had indicated defeat of the granting of the franchise to women in all seven states concerned.

Montana and Nevada, according to the latest returns, granted votes to women, while Nebraska showed such a small vote against the proposal that the women claimed the state. Missouri, Ohio and North and South Dakota refused to grant equal suffrage, the vote against granting the franchise to women increasing with the size of the population concerned.

In Montana, where workers of the American Woman Suffrage association made heroic efforts to win the ballot the vote was so close that the official count will be necessary to decide the outcome, but the women have a slight lead on unofficial and incomplete returns.

In Nevada, which seems won to the cause of equal suffrage, 165 precincts out of 240 gave 2,319 votes for women suffrage and 2,504 against.

The effect of women's votes on prohibition in Tuesday's election indicated that women do not unanimously oppose saloons.

Women failed in two Pacific coast states to turn out saloons, although the exact status of the female vote on the subject in California and Washington has not been tabulated. Both these states voted for the first time to oust saloons and in both the voting of women is comparatively a novelty.

In California the proposed amendment was very drastic and would have prohibited the manufacture of wines, one of the chief industries of the state.

The women in California probably aided in passing a law to close all resorts with women inmates. The figures on this proposal are meager, but early returns indicated that the segregated vice quarters in California would be voted out.

STOCKMEN TO DISCUSS MUTUAL INTERESTS AT SILVER CITY MEETING

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Silver City, N. M., Nov. 4.—A meeting of stockmen who hold grazing permits on the Gila national forest has been called for November 17 in this city to discuss matters of mutual interest. Forestry officers state that the decisions reached as a result of this meeting will have an important bearing on certain details of the grazing policy and for this reason a large attendance at this meeting is expected.

In addition to consideration of questions relating to grazing, allotments and methods of figuring the number of stock on the range, it is expected that the stockmen will be given the opportunity to decide whether they wish to form a stock association along the lines of similar organizations which are now recognized by the forestry service in other parts of the southwest.

ELECTION POSTPONED UNTIL NEXT JANUARY

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Silver City, N. M., Nov. 4.—The special local option election, recently called for December 5 in Precinct No. 1, Central, by the board of county commissioners, has been postponed until the first Monday in January, 1915, at which time a justice of the peace and constables for that precinct are to be elected.

The board at its last meeting recommended its order for the election next month, and has set the date for the same at the time of the regular election in January.

The election is expected to prove a spirited one and will decide whether or not open saloons are to be licensed in the Central precinct.

REQUISITION FOR INNES AND WIFE ON INDICTMENT

They Are Charged by Georgia Grand Jury With Larceny of \$4,000 From Mrs. Elois Nelms Dennis.

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Atlanta, Ga., Nov. 4.—A requisition was issued today by Governor Slaton of Georgia on Governor Colquitt of Texas asking the return here of Victor E. Innes and wife, charged in a secret indictment by the Fulton county grand jury with larceny after trust, according to local authorities, who said a city detective was on his way to Texas with the requisition.

The indictment alleged that the Innes appropriated to their own use \$4,000 obtained from Mrs. Elois Nelms Dennis.

Innes and wife are held in jail at San Antonio, Texas, on an indictment charging murder and conspiracy to murder in connection with the disappearance of the Nelms sisters.

TEXAS JUDGE RESTRAINS GRANTING OF REQUISITION

San Antonio, Tex., Nov. 4.—Upon application of Victor E. Innes and wife, who are in jail here under indictment for the murder of the Nelms sisters of Atlanta, Mrs. Elois Nelms Dennis and Miss Beatrice Nelms, District Judge Anderson tonight issued an order restraining sheriff Tobin from delivering the prisoners to officers from Atlanta. The court took action on the ground that the charges against the Innes in Texas—murder and conspiracy to murder—are more serious than the complaint against them in Georgia.

Governor Colquitt has been notified of the court action with the request that he do not honor the requisition believed to have been issued by the governor of Georgia.

The bonds of Innes and wife, \$4,000 and \$2,000, respectively, were fixed three weeks ago, in default of which they have remained in jail since September 1.

Land Office Filings.
Santa Fe, Nov. 4.—More than 27,000 acres were filed upon in the Santa Fe land district during the month of October, or to be exact, 27,319,138 in 213 filings for which the fees paid amounted to \$2,528.85. Moreover, only eighty-five were original homestead entries covering almost 14,000 acres. Four were original desert land entries covering almost 14,000 acres. Four were original desert land entries covering 520 acres, seven were state selections covering 1,460 acres; two amended homestead entries covered 185 acres and one commuted homestead, 145 acres. There were sixty-one final homestead entries covering 9,500 acres; two final desert entries of 440 acres and fifty-one final small holding claims covering 469 acres.

Mora County School Returns.
Santa Fe, Nov. 4.—Mora county's school census returns were received today, the total being 4,288. Three counties, Colfax, Luna and Sandoval have failed thus far to send in their 1914 returns. The twenty-three counties that have reported total 56,518 and if to this are added the returns from the three missing counties of last year, the total will be 105,000, indicating a population for the state of 370,000 or a gain of 50,000 in four years since the federal census was taken.

Dependency Due to Indigestion.
It is not at all surprising that persons who have indigestion become discouraged and despondent. Here are a few words of hope and cheer for them by Mrs. Blanche Bowers, Indiana, Pa. "For years my digestion was so poor that I could only eat the lightest foods. I tried everything that I heard of to get relief, but not until about a year ago when I saw Chamberlain's Tablets advertised and got a bottle of them did I find the right treatment. I soon began to improve, and since taking a few bottles of them my digestion is fine." For sale by all dealers.

MAGNATES WILL VOTE FOR PEACE OR WAR TODAY

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Chicago, Nov. 4.—Club owners of the American league, at a special meeting here tomorrow, probably will cast their votes for war or peace in the baseball world. Representatives of organized ball and the outlaw Federal league, it is admitted, recently have carried negotiations to an extent which requires only action of the rules of the game to bring about peace.

The possible transfer of the ownership of the American league club in New York is likely to come up for discussion, according to a report circulated here.

GREAT SERIES OF STEREOPTICON SLIDES SHOWN

Archaeological Society Views Best Pictures Ever Seen in Southwest; Scenic Beauties Brought Out.

(SPECIAL DISPATCH TO MORNING JOURNAL) Santa Fe, Nov. 4.—Never before has the southwest seen so beautiful a series of stereopticon slides as were shown before the Archaeological society last evening at the Palace of the Governors. The first hundred were those furnished by the forest service to the New Mexico board of exposition managers. Even these among the audience who thought they knew something of the scenic beauties of the Jemez and Pecos national forests, were astounded by the grandeur of the scenery depicted. Neither Colorado nor Switzerland have anything more magnificent to offer than is to be found in the way of scenic beauty at the very gates of Albuquerque and Santa Fe.

As interesting were the next one hundred views of Indian types in New Mexico, Pueblo, Navajo and Apache. They would have delighted the true artist and gave a glimpse of one aspect of the land of sunshine that proves always of interest to the tourist. In addition, one hundred slides each, were shown of the public schools in Sandoval and Otero counties, these views being especially sharp in their outline as well as in the perfection of the features shown.

In conclusion, a hundred views of the lower Pecos valley orchards and irrigation scenes were thrown on the screen. They were most alluring and are certain to induce hundreds and thousands who see them to visit Chaves and Eddy counties next year.

New Members.

The society elected the following new out-of-town members: Margaret Morehouse, Danville, Ill.; Mrs. E. G. Mayo and Rev. C. E. Lukens, Albuquerque; Edward Anderson, Jr., Esplanada; Dr. Henry Phelps Whitecomb, Pasadena, Calif.; J. Gilbert Bothum, Madison, Wis.; and Miss Helen Sherry, Alamogordo.

President John R. McPhe appointed the following committees:

Ways and Means—Judge William H. Pope, chairman; Judge N. B. Laughlin, Hon. Frank Springer, State Senator Benjamin F. Pankay; Assistant Secretary of State Rafael Romero; Frank Staplin and Levi A. Hughes.

STOCK YARDS TO BE CLOSED FOR SEVERAL DAYS

Shutting Down of World's
Greatest Livestock Market
Caused by Hoof and Mouth
Disease.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Chicago, Nov. 4.—The Chicago Union stockyards, the largest cattle market in the world, which has been in continuous business since 1865, tonight was ordered closed for several days because of the prevalence of hoof and mouth disease among cattle.

The closing order will go into effect at the close of business Friday, November 6, and continue until the opening of business on November 16. This makes the cessation of business at the yards cover nine days, including Sundays.

The decision to close was reached after a prolonged conference of the members of the state board of livestock commissioners with all the leading stock dealers and packers and after consulting with Governor Dunne.

Stop Livestock Sales.

The immediate effect of the suspension order will be to stop the shipment of cattle, sheep and hogs to the Chicago market, which amounts to almost 100,000 head daily. This alone, outside of the meat packing industry, amounts to a daily business of \$1,200,000 and affects directly and indirectly 25,000 employees.

The stockyards, it was officially stated, probably will be closed for about ten days.

About 75,000 head of animals now on hand ready for shipment will keep the packing houses busy for three or four days, after which time, according to A. G. Leonard, president of the United stockyards, the entire packing industry of Chicago will come to a standstill. In ten days, it is planned, the stockyards will be thoroughly rid of the contagion. The process of elimination will include the destruction of infected cattle, the disinfection of cattle pens, and the killing of all rats. After that business is to be resumed as usual.

Results of Quarantine.

The plan to close the stockyards was determined upon several days ago after the bureau of animal industry at Washington had quarantined Illinois, Indiana, Michigan and Pennsylvania and had restricted cattle movements in Ohio in consequence of the finding of infected cattle in transit in some of these states.

The finding in the stockyards today that 600 cattle brought here from various points had been affected and the belief that the contagion, which is extremely virulent, is spreading, made the question acute.

Dr. R. A. Ramsey, chief of field inspection of the bureau of animal industry, who on Saturday arrived from Washington to take charge of the situation, announced that the stockyards should be closed at once. He said in quarantining Illinois, the federal government had gone as far as it could, but he advised B. J. Shanley, chairman of the Illinois state livestock commission, that the most drastic measure should be taken to stamp out the disease before it had spread further. Mr. Shanley said he was opposed to closing the stockyards but that he would confer with the packing house interests and the livestock commission men. Several meetings were held. First of these was a conference of representatives of Armour & Co., Swift & Co., Morris & Co., and Schlager & Sons, and the state livestock commission.

Packers Are Divided.

It was stated that opinion among the packers was divided as to the advisability of closing the yards. Two of the large packers held that the best method was to give the yards at once a clean bill of health and by closing down immediately cattle raisers will be unable to resume shipments to Chicago at the earliest possible moment.

Others agreed with Mr. Shanley that the stockyards might be cleaned up in sections without closing up the entire plant. It was agreed to refer the plans to a meeting between the commissioners and livestock commission men which they will be immediately affected.

Representatives of about 125 commission houses in business in the yards who are wholly dependent upon cattle receipts then held a night session, at which the closing order was agreed upon. The order was given that Illinois be quarantined against shipments within the state as well as shipments into the state from points outside. Its effect was that no livestock may be sent here even for immediate slaughter, although shipments now in transit will be accepted.

Magnificent Liberal Arts Palace at San Francisco.

THIS photograph gives a comprehension of the size of the vast Palace of Liberal Arts at the Panama-Pacific International Exposition, San Francisco, 1914, but gives no idea of its brilliant coloring. The huge dome in the center of the picture is 165 feet in height. The richly sculptured central portal is decorated in Spanish renaissance. In the foreground is seen the tropical South Gardens, where millions of flowers are now blossoming and where rhododendrons and tree ferns and creole palms and other rare and beautiful plants, brought from far corners of the world, are thriving.

"There is only one way to eradicate this contagion and to prevent its spreading and becoming possibly a peril to cattle raisers throughout the country," said Dr. Ramsey after he had held a long distance telephone conversation with officials at Washington.

Closing Yards and Remedy.

"The remedy is to close up the stock yards and give it a thorough cleaning. The plan, proposed by the Illinois livestock commissioner to clean parts of the stock yards at a time and continue business in our opinion would not be efficacious. We have never known such a plan to succeed. On our advice the yards at Buffalo and Pittsburgh were closed and that ended the disease there. In Chicago we have acted merely in an advisory capacity. Our authority ended when we quarantined the state. That permitted shipments from non-affected states, if cattle raisers saw fit to take the risk but we urged that the stock yards ought to be closed and stamp out the disease definitely."

"All cattle-carrying railroads were notified not to accept any livestock for the Chicago market. The closing cuts off at once the chief market for twenty-two cattle raising states. It is the first time that business ever was suspended at the stock yards. Mr. Leonard said that while the closing down is tremendous in its consequences to the industry it will not entail any great hardships."

Not a Catastrophe.

"It is not a catastrophe," he said. "In ten days or less the entire place will be cleaned up and business will be resumed as usual."

Today's receipts were 19,000 cattle, 30,000 hogs and 18,000 sheep. With those that will be received tomorrow as having been shipped before the suspension was ordered, and with those we have left over from Tuesday, we will have on hand about 175,000 head.

F. E. White, a director in Armour & Co., said he believed neither the meat industry nor meat prices would be affected by the brief suspension of the Chicago end of the business. He added that it was unlikely that any of the big packing houses would be forced to close down as their present supplies would keep them running until business was resumed.

O. E. Dyson, state veterinarian of Illinois tonight sent out 135 assistants to various parts of the state to check the contagion. One cause of the closing was the assertion of Dr. Ramsey that if the disease spread to the western ranges, it would be almost impossible to eradicate it from the country.

Mr. White of Armour & Co., after the conference, said on behalf of all the packers:

To Protect Everybody.

"I hope that the stock raisers and meat consumers of the country will judge this action in the true light. The plan is to protect all concerned, both now and for the future. It is not a calamity, but failure to extirpate the contagion might become one. The closing of the yards should not create alarm. The disease will be wiped out and business will be restored in a short time. There is ample supply of meat on hand to carry everybody over the crisis without increased cost. In addition to meat in storage, slaughtering will proceed at more western abattoirs, such as Kansas City, Omaha and St. Paul."

HEAVY GAINS BY REPUBLICANS IN ILLINOIS STATE

Instead of Only Four Mem-
bers of Congress Twenty
Are Returned Along With
Uncle Joe Cannon.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Chicago, Nov. 4.—With the remote down-state precincts reporting slowly, Lawrence Y. Sherman, republican candidate for the United States senate, tonight cut down the 56,600 plurality rolled up for Roger Sullivan by Chicago.

Reports from 2,262 of the 2,788 precincts outside of Cook county gave Sherman 227,101 and Sullivan 176,403, leaving the democratic candidate a net plurality of 5,992 from his Chicago advantage. If the republican candidate maintains the same average plurality in each of the 328 remaining down-state precincts it would give him a down-state plurality of 62,270 votes and a net plurality and victory by 5,670 votes.

At the Sullivan headquarters, however, it was asserted that the extreme southern counties would turn the tide in Sullivan's favor just as they did for President Wilson two years ago.

In the congressional fights, the republicans made decided gains returning Joseph G. Cannon, former speaker of the house in the eighteenth district, William B. McKinley in the nineteenth and probably William A. Hoffman in the twenty-second. If the final count proves Rodenberg victorious, the republicans will have advanced from four to twenty members in the lower house while the democrats will have ten instead of the twenty members in the last house. Ira C. Copley of the eleventh district is the only progressive in the place of the three in the former house.

Raymond Robbins, the progressive candidate for senator, ran far behind the record made by Theodore Roosevelt in 1912.

Medill McCormick, progressive national committeeman, was the one progressive elected to the state legislature from Chicago.

The democrats will have control of the next state senate while the house may be deadlocked.

The women's vote seemed to maintain the same proportion of the total cast in each of the three parties. The expected advantage which the progressives hoped to show through the votes of the women did not appear in the returns for municipal judges, in which the women balloted with the men.

Most of the state officers were conceded to the republicans.

QUIET PREVAILS IN ARKANSAS STRIKE ZONE

Fort Smith, Ark., Nov. 4.—Conditions were quiet today in the Hartford valley coal mining regions where the inhabitants are waiting the arrival of federal troops, sent on orders of President Wilson to enable the United States court to carry out its orders in administering the receivership of the Bache-Dennan Coal company, at whose mines occurred the recent trouble.

Maj. N. F. McClure, who will command the four troops of cavalry already en route from Fort Sheridan, Ill., reached Fort Smith this afternoon.

The federal grand jury summoned to investigate conditions in the mining region was empaneled today and immediately adjourned until Friday, when Judge Frank Youmans will deliver his charge.

J. V. Bourland, United States attorney for the western district of Arkansas, has been relieved of duty in connection with the investigation. R. B. Hull, special assistant to the United States attorney general, and Billings Harris, special agent of the bureau of investigation of the department of justice, will be in charge of the grand jury work.

T. N. Espe, of the United States land office at Santa Fe, was here yesterday at witness in a land case before United States Commissioner Craig.

ARABIAN PORT BOMBARDED BY BRITISH FLEET

Berlin Dispatch Says United
States Should Investigate
Prison Camps Where Ger-
man Prisoners Are Held.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
London, Nov. 4 (10:15 p. m.)—The following semi-official statement given in Berlin has been received by the Marconi Wireless Telegraph company:

"A report from Constantinople states that the British fleet bombarded Akabah, Arabia, on November 1, and attempted to land troops near the Egyptian frontier. The report adds: 'After four Englishmen had fallen the remainder of the party returned to the boats.' Although the British fired a thousand rounds we lost only one gendarme."

"The Vienna Neue Freepresse says that, according to information received in Vienna from the Turkish minister of marine, the naval engagement in the Black sea was much more serious than first reports indicated. A few Turkish vessels practicing in the Black sea were observed and attacked by Russian warships. The engagement resulted in the sinking of five Russian warships and nineteen transports. According to statements made by Russian sailors, the transports had on board seventeen hundred mines which they intended laying in the Black sea. This is proof of the hostile intentions of the Russian fleet. During the bombardment of Sebastopol and Novorossiysk, twenty-five warehouses filled with petroleum and corn were destroyed."

"The fierce bombardment of Tsingtau by the allies continues. The forts are responding vigorously. Large petroleum tanks in the harbor are on fire."

"The United States would accomplish one of the most important functions which is within the power of a neutral nation if it would take steps to appoint a commission for the purpose of investigating the treatment of German prisoners in Russia and Serbia, and particularly in France and England as well as in the colonies of these countries."

"Our attention has been drawn to certain well managed prison camps but many places where the Germans are interned are not fit for human beings to live in."

Many Suits Are Filed.

Santa Fe, Nov. 4.—Fourteen suits were filed in the district court for Santa Fe county today by the state on notes given for the rental of state lands, the total amount involved being \$900.

Canvass Begins on Monday.

Santa Fe, Nov. 4.—Secretary of Santa Antonio Lucero expects to begin the canvass of the ballots on Monday, when it is expected that all the poll books will be in.

FORMER COPPER KING SUDDENLY CALLED BY DEATH

Spectacular Career of F. Aug-
ustus Heinze Ended While
He Is at Saratoga Where
He Went to Vote.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Saratoga, N. Y., Nov. 4.—F. Augustus Heinze, former owner of immense copper interests in the west, died suddenly here tonight.

Mr. Heinze, whose legal residence was Saratoga, came here yesterday from New York to vote. He became ill suddenly yesterday afternoon at the home of his counsel, Judge Nash Rockwood. His condition grew steadily worse and he expired early this evening.

Mr. Heinze, who was 47 years old, had been ill since last June with cirrhosis of the liver. He came here against the advice of his physician.

ACQUIRED AND PARTLY
LOST GREAT FORTUNE

New York, Nov. 4.—Fritz Augustus Heinze, who died tonight at Saratoga, had a sensational career in the financial world. After inheriting a fortune of millions through mining interests in the west he came to New York and became interested in other ventures, most of which were unsuccessful.

For several years Mr. Heinze had been involved in litigation almost constantly and it was said by his associates that he had lost a large part of his fortune.

From the time he was graduated from the Columbia School of Mines in 1889 until his death, he was identified with mining and smelting operations and only about a month ago returned from a trip through the west in connection with his holdings. His interests were especially large in Montana and British Columbia. In Montana, he was, at one time, a power in politics.

Soon after going to Montana at the age of 29, Mr. Heinze organized the Montana Ore Purchasing company at Butte. Later he became president of the United Copper company and of the State Savings bank at Butte.

Among other companies in which he was a dominating figure was the David-Daly Mining company in Montana, the Stewart Mining company of Idaho, the Ohio Copper Mining company and various railway companies. From the Canadian government he received a large grant of land which he afterward turned over to the United Copper company.

After coming to New York in 1907, he became president of the Mercantile bank in 1907 and was soon beset by business troubles. Loans made during the panic of 1907 which the government asserted went to help his brothers, Otto and Arthur, who composed the firm of Otto Heinze & Co., resulted in his indictment on the charge of misappropriating \$2,235,000 of the bank's funds. The case against him eventually was dismissed. Within the last month Mr. Heinze was defendant in a suit brought by Edwin Gould to recover the proceeds of promissory notes aggregating \$1,000,000, which Gould alleged Heinze had given him in payment for stock of the Mercantile bank. Gould was successful in his suit.

Mr. Heinze, born in Brooklyn, was 47 years old. He was a member of many clubs, both in this city and in the west. He is survived by his son, F. Augustus Heinze, Jr., his brothers, Otto C. and Arthur P., and two sisters, Mrs. William M. Fleitmann of this city, and Mrs. George W. Watten, of Bremen, Germany.

Another Casualty List.

London, Nov. 4.—A casualty list which was issued tonight under date of October 30, contains the names of twenty officers killed and forty-five wounded.

Those who met death at the front include Capt. Lord Richard Wellesley, second son of the fourth Duke of Wellington, of the Grenadier guards, Lieut. Col. H. L. Anderson of the Ninth Royal infantry, and two native Indian officers.

FOOT AND MOUTH DISEASE WORST KNOWN TO COUNTRY

Federal Government Is Making
Strong Efforts to Stamp
Out Malady Among Cattle
of Several States.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Washington, Nov. 4.—The worst outbreak of foot and mouth disease ever known in the United States is the department of agriculture's estimate of the livestock epidemic which has forced federal quarantine over six states and threatens a temporary reduction of the nation's food supply.

An emergency appropriation by congress may be required to finance the campaign to suppress the epidemic. Officials said tonight it would be a week before they could forecast the extent in which the food supply would be affected. They are inclined to believe, however, that the shrinkage will not be large in spite of the inconvenience to which stock growers and packers will be subjected until the disease is under control.

Every possible effort will be made to remove handicaps upon the movement of livestock.

New York and Maryland.

New York and Maryland were added to the list of quarantined states today. A department of agriculture statement announcing it said:

"The list of states now quarantined by federal authorities includes New York, Maryland, Indiana, Michigan, Illinois and Pennsylvania. In addition restrictions have been placed upon interstate shipments from Ohio although no cases have as yet been found in that state. There is reason to fear, however, that infected stock may have been sent into Ohio."

This outbreak, which is the first in the United States since 1898, is regarded as the most serious of any that the United States has yet experienced. Not only has it already spread over an extensive area but its virulence seems to be above the average. Vigorous measures will be necessary to stamp it out. The cost of suppressing the last outbreak in 1908 was estimated at \$299,112.10. In addition the loss to dairy and stock raisers was heavy.

Six Hundred Infected Cattle.

The discovery of six hundred infected cattle in the Chicago stock yards was regarded as the most serious development in the situation, of somewhat less importance was the report that seven cattle in the national dairy show in Chicago had been infected.

The outbreak in New York state occurred among a half dozen herds in the Buffalo stock yards. The disease was brought there, it was believed, by a shipment of nine carloads of cattle from Niles, Mich., the place of origin of the present epidemic, so far as known. One herd was found infected at Seneca Falls, N. Y.

In Maryland the diseased cattle were discovered at Hagerstown. Inspectors of the department traced the cattle from Chicago. The same shipment left some diseased cattle at Green Castle, Pa., where another affected area now exists.

Aid by Snowfalls.

In addition to the Green Castle area in Pennsylvania, one exists in Pittsburgh and several in the southeastern part of the state.

The diseased cattle in Michigan, so far as known, are located in Lewawee and Berrien counties. In Indiana they have been found in St. Joseph county and in Illinois in Chicago and Wheaton.

Food Required by Belgium.

London, Nov. 4 (8:55 p. m.)—Herbert C. Hoover, chairman of the American Belgian relief commission, today received a statement signed by the American and Spanish ministers in Brussels to the effect that the monthly requirements for the Belgian population will be 60,000 tons of grain, 15,000 tons of maize and 3,000 tons of rice and peas.

Santa Fe Personal.

Santa Fe, Nov. 4.—Corporation Commissioner Hugh H. Williams will return tomorrow from Deming. His friends are planning a reception for him providing the final returns keep him on the winning side.

John K. Stauffer, J. McConvery, Marcos Herrera and several others leave tomorrow on a week's hunting trip to Mount Baldy and the Truchas peaks.

THURSDAY, NOVEMBER 5, 1914

THE REPUBLICAN VICTORY.

The republican victory in the nation was due to the depression which followed the enactment of the Underwood tariff. President Wilson personally is the most popular figure in public life. The country does not endorse his economic policies, however high its opinion of him is.

The result in New Mexico was due in part to the tariff, part to dissatisfaction with the distribution of federal patronage, part to the active work of county officers who were dissatisfied because the governor vetoed the salaries bill and some of them because his traveling auditor had been persistently active.

Another great reason was a feeling by the natives that they had been discriminated against in the distribution of offices. There can be no doubt that the result of the election in 1911, when every Spanish-American, of any party, who was opposed to an Anglo-American, was defeated, caused them great dissatisfaction. There was but one explanation for it: While the natives voted their party ticket, the Anglo-American, in considerable numbers, voted for his race.

That fact was seized upon by certain men who wanted to exploit their own interests, and for three years it has been drummed into the ears of the native voter. That he should make use of the first opportunity to resent it, was but natural.

The defeat of Mr. Ferguson is regrettable. He has been one of the all too few positive influences for good in New Mexico politics. What sort of record Mr. Hernandez will make is purely conjectural. We hope it will be a good one.

From the time the republicans began making the tariff the issue in the campaign, the tide among business and laboring men began to set strongly against Mr. Ferguson. For that change in the method of conducting the campaign, the republicans have to thank former Delegate W. H. Andrews chiefly. He insisted upon having a real issue and finally got it.

Whether the victory is to be a benefit or a curse to New Mexico, depends upon how the victors make use of it. If they regard it as license to nominate bad men for office and to conduct legislative and county affairs in the old, corrupt way, there will be another upheaval very soon. If, on the other hand, the power is to be used for the good of the people of the state, they will carry the state heavily two years from now and may retain control for a long time.

Under the same circumstances, the Journal would make the same sort of fight it made for the candidacy of Mr. Ferguson. In the condition of this state, nothing is so important as good men in office. Laws must be just. They must be administered honestly and efficiently.

The Russians seem to be doing business at the old stand. Now and then they get licked, but a little thing like that doesn't seem to bother them. Frederick the Great said he severely defeated the Russians three times, but they never were aware of it.

EDISON ON SLEEP.

Thomas A. Edison has come forward again with his well known views about sleep, namely that much of it is not necessary and is, in fact, a positive detriment. In an interview in Philadelphia, Mr. Edison returns to the charge thus:

"Sleep is an absurdity, a bad habit. We can't suddenly throw off the thrall of the habit, but we shall throw it off."

"By sleeping less humanity will enormously increase its productive power, for sleep is an absurdity, a bad habit."

"Everything which decreases the sum total of man's capabilities. There really is no reason why men should go to bed at all, and the man of the future will spend far less time in bed than the man of the present spends."

"Sancho Panza invoked blessings on the man who invented sleep. Humanity may yet come to the point where it will invoke other blessings on the man who proves that sleep is not quite so necessary as it has seemed. Mr. Edison finds that the average man who sleeps seven, eight and nine hours daily is 'continually oppressed

with lassitude.' Obviously, the man who is able to reduce his sleeping hours one for each night gains half a month in each year for his own purposes, be they work, play or study."

In sleeping as in eating, a man is a good deal of a law unto himself. Doubtless most of us eat too much. Possibly also we sleep too much. But it is a matter for every man to settle for himself by experiment. Time won from sleep may not be time gained if the results show a lowering of efficiency during waking hours. The raveled sleeve of care may never be quite knit up to the amount of the daily raveling, and the final results may be disastrous to the sleeper.

And then, efficiency isn't everything. Pleasure is something. Life has certain joys in that line also. And what greater luxury is there than the extra hour of sleep, say around seven o'clock, on a frosty morning?

Colonel Roosevelt said Penrose would be licked to a frazzle. Even an old politician as the colonel, sometimes falls in his forecasts.

EXIT BULL MOOSE.

From many viewpoints, the collapse of the Bull Moose party is the most significant result of the election. In only two states was there anything like success of the progressive party. Governor Johnson triumphed in California and Representative Victor Murdock made a strong race for senator in Kansas. The vote for Mr. Murdock was the result of his personal popularity, not of his party's strength, because all of the other progressive candidates were overwhelmed.

In New York and Pennsylvania, where Colonel Roosevelt made his strongest appeals for support of his candidates, the vote was insignificant. Clifford Pinchot made an exceedingly poor showing against Penrose, his vote being negligible in that state.

In a number of other states carried by Colonel Roosevelt two years ago, the progressive party has practically disappeared. The fight in 1916 will be between the democrats and the republicans, with the progressives cutting very little figure anywhere.

Let everybody get down to business and boost for New Mexico. That's more important than politics, anyway.

THE Y. M. C. A. CAMPAIGN.

Albuquerque is at the beginning of an active campaign for a Y. M. C. A. building. It is a large undertaking, but this city is in the habit of doing large things.

There is no city in the country where a Y. M. C. A. is more needed than here. There are hundreds of young men here who have no family ties. There are hundreds of visitors here, especially during the winter months. They need some place where they can meet, where they can have the advantages of shower and plunge baths and athletics, where they can have a reading room and be surrounded with wholesome influences, to say nothing of night classes for educational purposes.

The building planned will be a distinctive advantage to the city and state. The moral influence will be of the right sort. The enterprise is one that should appeal to all who wish to see improvement in social and civic affairs.

New York City is three hundred years old, but she still has a few things to learn.

THE TEACHERS' ASSOCIATION.

Now is the time for the people of Albuquerque to begin to prepare for the great meeting of the state teachers' association. It will be the best attended meeting ever held in the state, though it was thought last year that the high water mark had been reached.

The program is the best, and there is a better array of talent from outside the state. It will be a rare treat for the teachers and visitors who come here and a great benefit to this city from every viewpoint.

It is up to the people of Albuquerque to see that the meetings are well attended. Season tickets, which carry with them membership in the association are only one dollar each. Citizens of Albuquerque should take at least one thousand of them, because every dollar of the money thus expended will be used for the benefit of education in the state.

Perdilly of London.
After much debate on the dangers and risks to be encountered, McHaggie decided to leave his home in the Highlands for a week-end trip to London.

The old folks at home waited anxiously for their Jack's return, and when the hour came for the train to arrive, trooped in a body to the station to welcome him.

Jack seemed very silent, and the family glanced apprehensively at each other. Could he have lost his heart to the wiles of some Sassenach siren?

When all were gathered round the blazing fire in the evening his mother put the dreaded question: "What ails ye, Jack? Ye've no told us anything about Lannon. Is it no' the fine place they would have us believe?"

"O aye, it's no' so bad," answered Jack. Then, suddenly, his indignation flared up. "But they're no' honest up there!"

"Whit way are they no' honest, Jack?"

"Weel, I had my doots all the time, but I made sure the day I bought a pack of meat at the station for a penny, and on the cover it said there were 1,000 pins inside. Well, I counted them in the tin, and—would you believe it?—there was only 992!"

Cruise to South America Planned in Order to Become Acquainted

The Fidelity Trust company of Baltimore has completed arrangements for a tour, which will circumnavigate South America, starting from New York, January 27, and Baltimore, January 29, covering a distance of 16,130 miles, and a period of 106 days, which fifty-two days will be actual steaming time and fifty-four days in the principal ports of the West Indies and South America.

This tour is arranged for the specific purpose of enabling bankers, merchants, manufacturers, exporters and importers to personally meet the business men of the countries south of the United States.

It is the idea of those responsible for the plan that satisfactory business dealings cannot be carried on between people who are aliens and strangers, who do not understand each other's needs and methods, and who are not in that sympathy which grows from knowledge of each other.

They believe in making haste slowly in the matter of trying to establish a commercial union, a pan-American business alliance which shall divert largely to the Western hemisphere the exchange of commodities and manufactures so painstakingly built up through many years by the European nations now involved in war.

The United States has never cultivated close commercial relations with her South American neighbors. It is the belief of those initiating the present movement that North America is probably more in need of education as to the countries and peoples to the south than the South American is regarding the United States. It is therefore, with a view to interesting and educating the business men of this country that the present project is entered upon. There will be no neglect to exhibit and popularize wares bearing the stamp "Made in U. S. A." but the primary motive is to teach the northerner what the southerner likes and will buy.

AN EFFORT TO PROMOTE ACQUAINTANCE.
The Fidelity Trust company of Baltimore has undertaken the task upon its own initiative and its own responsibility. It hopes eventually to participate in the prosperity and benefits accruing from the increased commercial dealings that seem to be in sight in South America if the present opportunity is properly cultivated.

The effort is in line with the broadening opportunity given to American banks under the new federal reserve law, which has already been taken advantage of by the National City Bank of New York in opening branches in Rio de Janeiro and Buenos Aires. The object of the Fidelity Trust company, however, is more immediately educational, and for that purpose the company has chartered from the International Mercantile Marine company for a three and one-half months' cruise the American-built, American-registered twin-screw steamship Finland, of the Red Star line.

The Finland is a vessel of 22,000 tons displacement. She will afford accommodations for several hundred passengers and exhibits of all kinds of "made in U. S. A." wares. She will sail from New York on January 27, next, from Baltimore, January 29, and her itinerary covers a period of 106 days and a distance of 16,130 miles. The actual steaming time occupies fifty-two days, giving 54 days in the principal ports of the West Indies and South America, the length of stay in each port to be determined by its commercial importance.

Leaving Baltimore, the home port of the enterprise, on January 29, the Finland will reach San Juan on February 2. Her route will be thence down the east coast of South America through the Straits of Magellan, up the west coast, and back home through the Panama canal. There will be five stops in Brazil, giving nearly twenty days on shore, of which one week will be at Rio de Janeiro. At Buenos Aires there will be eight days on shore. The next stop will be Montevideo where there will be three days of shore leave. Comparatively few people know that Montevideo, the capital of Uruguay, is the sixth largest shipping port in the world, while Buenos Aires, the capital of Argentina, is thirteenth of the great capitals of the world, with a population of nearly 1,500,000 in 1912.

COUNTRIES TO BE VISITED.
Buenos Aires also has the distinction of supporting one of the greatest newspapers of the world, La Prensa, the office of which is not equalled in either Europe or America as a show place of rendezvous for tourists, where the news is bulletined and the workings of the press demonstrated. "After Montevideo the next stop will be Punta Arenas, the southernmost town of the western hemisphere, a thriving city of nearly 16,000 population, which is the center of a rich mining, cattle and agricultural country, largely developed and financed by North Americans."

Following up the west coast stops will be made at Valparaiso, the metropolis of Chile, where a four-day stop will give opportunity to visit Santiago, the capital, at Antofagasta, Mollendo and Callao. Callao is the chief seaport of Peru, where a stop will be made long enough to permit a visit to Lima, the capital.

Three days in passing through the Panama canal will give opportunity for inspection of that great engineering and commercial achievement. Kingston and Havana will be visited on the way home, arrival in New York being scheduled for May 11.

Incidentally it may be remarked that the period of the trip is the summer season in South America.

OPPORTUNITY TO MEET BEST PEOPLE.
While the trip is in no sense official, arrangements will be made for the tourists to meet all official and commercial bodies in the ports visited. This part of the scheme will be in charge of a man who is known personally in every capital and business center in South America through official connections in the past.

Doubtless also the various countries to be visited will send semi-representatives to instruct and explain regarding their own peoples and requirements. There will also be on board expert credit men and bankers and commercial authorities, and men to lecture before the arrival at the various stopping places.

The generous co-operation of the diplomatic and consular officers of the United States government has been secured by the state department. Previous publicity of the enterprise will be given in the centers to be visited through the American consuls, the press, and the Pan American union. Interpreters and stenographers will be provided, as well as accommodations for the exhibition and demonstration of goods, which will convert the Finland into a gigantic floating exhibition of things "Made in U. S. A." A social committee will provide entertainment and amusement on board and at the ports of stop.

Each machine; whilst the power engine, whose good presumably is regarded as a particularly aggressive personage is "smoked" for a specially long period.

DYNAMITE IS FORTY-SIX YEARS OLD.
Forty-six years ago July 14 the first official test of dynamite in England was made. The hills around Merioneth shook beneath the mighty vibrations of a new explosive born to civilization. It had been discovered by Alfred Nobel of Sweden and his experimental tests made in the preceding year. Nobel created it to take the place of the untamed nitroglycerine which had appalled the world for several years with its grim tragedies. The inventor had lost his father and a brother when his nitro-glycerine factory had blown up a few years before his discovery. Its death toll was such that England, Belgium and Sweden forbade its manufacture. The world was aroused when as a climax to its record a ship loaded with nitroglycerine blew up in mid-ocean while on its way from Europe to Chile, and the governments were on the point of prohibiting its use. It was then that Nobel began his experiments toward taming nitro-glycerine and created dynamite, or "giant powder" as it was first called in the United States. In his world-wide propaganda to convince governments that dynamite was a safe explosive, the inventor came to America. It was while he was registering at a small hotel in New York that he casually explained to the hotel clerk that his satchel contained dynamite. The clerk firmly ordered Nobel to seek other headquarters, and was relieved when he went out of the door.

Today dynamite is being manufactured in the United States at the rate of 50,000,000 pounds a year. Filling 5,000 freight cars, it is constantly being transported over the railroads of the country. Though it is the third most powerful explosive in general use, it has been tamed so that railroad companies receive it for transportation almost as readily as they do coal. Nitro-glycerine, however, is still under the transportation ban in both the United States and Europe. Dynamite is today one of the most important factors in the progress of civilization. Without it the mighty engineering achievements—the Panama canal, the mountain and river tunnels could not be accomplished. It takes an important part in the building of modern skyscrapers. It is used to mine the necessary huge quantities of iron and other metals that enter into structures. It blasts out the millions of tons of coal that supply heat, light and power, and give life to the loco-

COMPOSING ROOM GOES APPREHENDED.
(Boston Transcript.)
The ceremony of propitiating the gods which are supposed to reside in the printing machinery is annually performed by the Hindu members of the Times of Malaya printing staff. The usually prosaic machines and composing-rooms are turned into dimly lit caverns of mystery, dimly lit by candles and oil lamps, and odorous with the heavy scent of incense and perfume. Every machine is garlanded, and has placed before it an offering of "makan." Rice and bananas and cakes are the portion of each machine, according to its size and importance; even the "stone" is in for a share of the gifts. At the appointed time, brayers, containing smoking camphor and cocoanut oil, are carried round and held before

motives that bring food and clothing to the populace of cities. It is helping to grow the food we eat—the modern scientific farmer uses it to plow his land, its explosions shattering the sub-soil which no plow ever reaches. It is said to increase the crops greatly in quality and at by 50 per cent in quantity. Today dynamite is used to fight great conflagrations, to fight wars and to prepare for a large part of the progress of the world.

RICHARD REALE'S FAREWELL.
(Written the Day Before His Death.)
"De mortuis nil nisi bonum." (When for me the end has come and I am dead,
And little voluble chattering daws of men
Peek at me curiously; let it then be said
By some one brave enough to speak the truth,
Here lies a great soul killed by cruel wrong,
Down all the balmy days of his fresh youth
To his bleak, desolate noon, with sword and song
And speech that rushed up hotly from the heart,
He wrought for liberty; till his own wound
(He had been stabbed), congealed
A painful art
Through wasting years, mastered him
And he swooned,
And sank there where you see him lying now
With that word "Failure" written on his brow.
But say that he succeeded. If he missed
World's honors and world's plaudits and the wage
Of the world's deft laqueys, still his lips were kissed
Daily by those high angels who assuage
The thirstings of the poets—for he was
Born unto singing—and a burden lay
Mightily on him, and he moaned because
He could not rightly utter to this day
What God taught in the night.
Sometimes, methinks,
Power fell upon him and bright
Tongues of flame
And benedictions from black pits of shame
And little children's love, and old men's prayers
And a Great Hand that led him un-
ware,
So he died rich. And if his eyes were blurred
With thick films! Silence! he is in his grave.
Greatly he suffered; greatly, too, he
grieved.
Yet broke his heart in trying to be
brave,
Nor did he wait till Freedom had be-
come
The popular shibboleth of courtiers' lips,
But smote for her when God himself seemed dumb
And all his arching skies were in
eclipse.
He was aware, but he fought his
fight
He stood for simple manhood, and was
loved
To see the august broadening of the
light
And new earth heaving heavenwards
from the void.
He loved his fellows, and their love
was sweet,
Plant daisies at his head and at his
feet.

THE CRACKER LINE.
(Grand in Philadelphia Ledger.)
General Grant said that when he had re-established railroad communications at Chattanooga and so brought food to his starving army, the soldiers called it the "cracker line."

It is the most essential line in war. The two armies facing each other in France and Belgium contain as many men as there are people in Philadelphia. At peace this city wears out 1,000 pairs of shoes every day. What must the soldiers wear out when constantly marching over rough country?

To feed Philadelphia requires daily many railroads of provisions coming in all directions. A soldier, like a citizen, must be fed. He needs clothes, blankets, rifles, ammunition, and he requires them constantly.

The "cracker line" is the line that connects the army with its own stores to the rear. That's why we hear so much about cutting off the enemy's line of communication. To cut such a line and keep it cut means starvation.

But we had two spectacular instances in the civil war where such lines were cut without producing any particular results. Just prior to Gettysburg, General Stuart's confederate cavalry rode entirely around the union camp, crossing the "cracker line" on the way.

The following year Sheridan's troopers made a complete circuit of Lee's army in northern Virginia. Both these cavalry raids carried temporary terror to their foes, but neither was productive of any permanent good.

The Storytellers.
Grandpa's Age.
Little Marie was sitting on her grandfather's knee one day, and, after looking at him intently for a time, she said:

"Grandpa, were you in the ark?"
"Certainly not, my dear," answered the astonished old gentleman.
"Then why weren't you drowned?"

Moat, Moat!
This conversation was overheard at a ladies' club in London. Four women were lunching together, two of them being visitors from Scotland. The two Scotchwomen exchanged a few sentences in the dialect of their country. When the familiar colloquy finished, one of the English ladies said, very gravely:

"It's all right here, of course, but if I were you I should not speak German just now in a restaurant."

Billy's Capabilities.
"I wish," said Freddie, plaintively, "I wish I was Billy Smith."

"Why, Freddie?" said his astonished mother. "Billy Smith has none of the nice things you have. He doesn't get any pocket money, and he isn't as big as you, and he's not nearly so

FOR DANDRUFF, FALLING HAIR OR ITCHY SCALP—25 CENT DANDERINE

Girls! Girls! Save your hair!
Make it grow luxuriant
and beautiful.

If you care for heavy hair, that glimmers with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you can not have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, eventually—know you not?

and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast. If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed, and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If its lustre, its strength and its very life, eventually—know you not?

A Bank for All the People Everybody Included

One of the chief and most important ambitions of the management of this bank since its establishment has been to make it, first of all, a bank FOR ALL THE PEOPLE. For this reason, the State National Bank of Albuquerque endeavors to extend every possible courtesy and accommodation to all customers, whether they are large or small depositors.

strong. His father never buys him presents, or—
"I know all about that, mamma," said Freddie, "but—"
"And think what nice looks you have. And you never have to go out in the cold and wet to carry papers, and—"
"I know," grumbled Freddie, annoyed by his mother's strange lack of understanding, "but Billy kin wiggle his ears."

The Unanimous View.
Harold Bell Wright, the novelist, was talking in Chicago about genius. "There are a hundred different opinions as to what genius is," said Mr. Wright, "but all authorities are agreed that it's absolutely unsafe to lend him money."

Not as Intended.
An advertising man tells this one. "The heavy advertiser of a certain Indiana town entered the editorial offices of the daily paper, and in angry and disgusted tones, delivered himself as follows:
"What's the matter with this sheet anyhow? That was a fine break you people made in my ad yesterday!"
"What seems to be the trouble?" asked the editor, anxiously.
"Read it and see!" said the advertiser, and he thrust a copy of the paper into the editorial hands.
"The unhappy editor read: 'If you want to have a fit, wear Jones' shoes.'"

BEST LAXATIVE FOR CHILDREN
When your baby is cross and fretful instead of the happy, laughing little dear you are accustomed to, in all probability the digestion has become deranged and the bowels need attention. Give it a mild laxative, dispel the irritability and bring back the happy content of babyhood.

The very best laxative for children is Dr. Caldwell's Syrup Pepsin, because it contains no opiate or narcotic drug, is pleasant tasting and acts gently, but surely, without griping or other distress. Druggists sell Dr. Caldwell's Syrup Pepsin at fifty cents and one dollar a bottle. For a free trial bottle write to Dr. W. E. Caldwell, 451 Washington St., Monticello, Ill.

Remarkable Cure of Croup.
"Last winter when my little boy had croup I got him a bottle of Chamberlain's Cough Remedy. I honestly believe it saved his life," writes Mrs. J. B. Cook, Indiana, Pa. "It cut the phlegm and relieved his coughing. This remedy has done for him." For sale by all dealers.

FOREIGN DEMAND
FOR WHEAT SENDS
PRICES UPWARD

Fully Fifty Million Bushels
Contracted for Delivery by
New Year's Day and Calls
for Much More.

Chicago, Nov. 4.—Record-breaking sales to export houses brought about a strong market today in wheat after a temporary break at the start. The close was buoyant at 1 1/4 net and 1 1/4 up, and oats with a gain of 1/4 @ 1 1/4 to 1 1/4. In provisions the outcome varied from a decline to a rise of 2 1/2 %.

It was estimated that foreigners to-day bought fully 3,000,000 bushels of wheat. The difficulty appeared to be fine sellers, for there were plenty of predictions that contracts would prove hard to fill, especially so in regard to nearby shipments. According to generally accepted figures, more than 50,000,000 bushels have been purchased to clear from the United States by January 1. Nevertheless, cash and export houses were continually on the alert today for spot wheat of December delivery, and appeared to give little heed to any question of price.

The receipts and an increase in the European visible supply caused the brief setback that took place early in wheat. The trans-Atlantic crop summary was also favorable. The effect, however, quickly wore away, frost reports from Argentina helping almost immediately to turn the market upward. Corn and oats as well as wheat, were governed chiefly by the export demand. Europeans bought 350,000 bushels of corn here and it was said that more than 1,000,000 bushels had been similarly disposed of within the last week, cleaning up the Chicago stock and considerable new corn now in transit. Exporters today took 1,000,000 to 1,500,000 bushels of oats. Venturers here found themselves in a pinch when they tried to cover. Provisions hardened noticeably as a result of renewed fear that the Chicago stock yards would be closed on account of increased peril of the spread of foot and mouth disease. Reserves of provisions in warehouses were shown to be comparatively meager, and there was a huge falling off reported in the world's available supply of lard.

Closing prices:
Wheat—Dec., \$1.17 1/2; May, \$1.23 1/2.

Corn—Dec., 70 1/2; May, 72 1/2.
Oats—Dec., 49 1/2; May, 53 1/2.
Pork—Jan., \$19.17; May, \$19.46.
Lard—Jan., \$10.17; May, \$10.32.

COTTON MARKET.

New York, Nov. 4.—Members of the cotton exchange at a meeting here today agreed to ballot for the liquidation of straddle accounts down to 7.5c for December contracts. Not long ago local traders refused to consider a lower price than 8c for December as a basis for liquidation, but Liverpool has marked the price of January-February down to 4.25c and today's action was considered an offer to compromise recent disputes. It was rumored that December contracts were selling on the curb here at 7.5c to 7.75c, and local traders believe that prevailing trade conditions no longer warrant the difference of 150 points between Liverpool and New York as fixed by the international conference toward the end of last summer. Otherwise there was no fresh development in the contract situation and the news from the south indicated continued steady spot markets with prices generally unchanged to 1/4 higher. Exports for the day were only 12,784 bales and some apprehended that the advance in war risks may again check business, but cotton is now moving on a very nearly a normal scale, and offerings from Texas are fully a cent higher than they were two weeks ago. Today's port receipts were 66,502 bales. Stock at all the United States ports, 893,340 bales; interior receipts, 42,752 bales.

PYTHIANS TO MEET IN COMMERCIAL CLUB TO DISCUSS SANATORIUM

A meeting of members of the
Knights of Pythias residing in Albu-
querque who are not members of
Mineral Lodge No. 4 is to be held
in the parlors of the Commercial
club tonight at 8 o'clock, and per-
manent organization of non-resident
members will be effected.

The meeting is called in pursuance
of plans formed by Past Grand Cham-
berlain W. W. Ewers to organize all
the members of the order who live in
Albuquerque, regardless of their af-
filiation with the local lodge, and
with a view to working intelligently
and systematically in an effort to ac-
quire a national Pythian sanatorium
for this city.

A telegram from Supreme Chan-
cellor B. E. Young to James J. Dale, a
past chamberlain and formerly an or-
ganizer of the order in Chicago, was
in regard to the movement. "Am
glad to know of your intentions in re-
gard to the tuberculosis sanatorium.
It is my intention to visit New Mex-
ico and Arizona during the winter, at
which time I hope to take this up
in an official way with the Pythian
of those domains. All Py-
thians that are able to attend will be
doing a great duty to their order, as
this is one of the most important
matters that will come up before the
next supreme lodge, and when this
sanatorium is built it will be a monu-
ment to the order forever."

Y. M. C. A. SQUADS TOLD WHERE TO LOOK FOR MONEY

International Secretary Bil-
heimer Begins Assignment
of Probable Subscribers to
Captains.

With the exception of two who
were out of the city, every one of the
twenty-four Y. M. C. A. squad cap-
tains reported at headquarters last
night for the purpose of participating
in the final arrangements for the big
campaign. International Secretary
Billheimer declared that the meeting
of workers was one of the best he
has ever held, and congratulated the
captains upon the spirit they evinced
in facing the hard job ahead of them
with a smile.

There were over fifty earnest and
determined men at the headquarters
when the meeting was called to or-
der and to work. Heated at one long
table at the head of which stood the
secretary, they prepared to bid for
the privilege of interviewing some
5,000 Albuquerque citizens, and to se-
cure for them the \$75,000 neces-
sary for a Y. M. C. A. building.

A card index system has been in-
stalled at the headquarters in which
is shown the name of every person in
the city who is to be called upon.
Secretary Billheimer began with the
first card, reading the names to the
captains who called for them, and
in this way the work progressed rap-
idly. It is expected that the captains
and the members of their teams will
have to continue this routine every
evening this week before the entire
5,000 names are assigned.

Stenographers Busy.
Every bit of work connected with
the opening of the campaign has been
done over and over detail attended
to. At the headquarters, stenograph-
ers are busy sending out 5,000 Y. M.
C. A. booklets and 5,000 circular let-
ters. Vice Chairman Putney occupies
the desk assigned to Chairman Hil-
ler, the latter in out of town, while the
field secretary is surrounded by his
working staff. Altogether, the head-
quarters have become about the busi-
est spot in town, and all business men
and citizens generally are invited to
call within the next few days and ab-
sorb some of the enthusiasm that is
floating about.

The work of actual solicitation will
not begin until next Monday morn-
ing, at which time the captains and
their men will begin working four
hours a day. Under the system that
has been worked out, each captain
and team will have to call upon about
150 persons during the seven days of
the campaign. As it will be necessary
to repeat calls in many instances, it
can be seen that every man on the
various committees will have seven
days of hard work on his shoulders.

Women to Serve Lunch.
Beginning next Monday noon, lunch
will be served at the headquarters,
and every noon thereafter until the
campaign closes. This department
will be attended to by the women of
Albuquerque, and all who are inter-
ested in the Y. M. C. A. movement
are welcome. At these lunches the
various captains and their men will
report upon the progress made in the
subscription campaign during the
twenty-four hour period.

The dinner committee, headed by
Superintendent Milne, has made ar-
rangements for a dinner at the Ma-
sonic temple Monday evening which
will assist in the campaign. Plates
will be sold at 25c and the affair will
be informal. It is announced by the
general committee that there will be
no soliciting at that time. In fact, it
is contrary to the spirit of the cam-
paign to solicit at any of the meet-
ings. This part of the work will be
done privately.

A list of out-of-town speakers has
been made up for the dinner, includ-
ing Secretary Billheimer, W. H. Day,
of Tucson, Ariz.; James G. McNary,
of El Paso, P. A. Lenoir, of Las Ve-
gas, and other men either interested
in or connected officially with the Y.
M. C. A. movement.

Sunday will be a Y. M. C. A. day in
the churches of the city. Business
men of this and other cities of the
southwest will occupy the pulpits for
some time and tell of the work the
Y. M. C. A. is doing throughout the
country. Sunday afternoon there will
be a meeting for women at which
Secretary Billheimer will touch upon
the features of the Y. M. C. A. that
are of special interest to wives and
mothers.

FOUND GUILTY OF ROBBERY OF MONTROYA HOME

Preciliano Muniz and Jose
Griego Convicted by Jury as
Men Who Held Up Couple
at Point of Knives.

Preciliano Muniz and Jose Griego
were convicted yesterday afternoon
in the district court of robbing De-
cades Montroya at his home in San
Jose while a man. The jury spent
about thirty minutes reading the
verdict.

Montroya said that masked men
took 140 contained in a tin box and
several checks from her home the
night of April 15 after threatening
him and his wife with knives. The
checks were returned a month later
through the mail.

They heard a knock at their door on
the night in question, according to the
testimony of Mrs. Montroya, who was
there. At the answer she opened the
door and saw two masked men
standing there. They had knives in
their hands. They entered the house.

Saw Man Outside Window.
One of the men grabbed Montroya
and the other Mrs. Montroya, threat-
ening to kill them if they did not give
them money. They also saw a masked
man peering in through the window,
they said.

Mrs. Montroya went to get the
money and one of the men took the
box away from her. When they left
she went outside. Two shots were
fired, presumably in the air.

Muniz and Griego said they went
to a hall in San Jose the night of
April 15. They went early and left
the hall late, they said. Witnesses
testified that they had seen them at
the dance.

Mrs. Montroya, however, identified
Muniz as one of the men who had
been in her home. She said his mask
dropped to his chin, exposing his face.
Her husband could not identify him.

Had Hand in Evidence.
The only evidence connecting Griego
was that he had been seen at the
apartment of the fifteenth in a saloon
wearing a peculiar leather hat band.
This band, or one similar, was found
the next day in front of the Montroya
home.

Muniz has served a term in the
state penitentiary and one in the
county jail. He was sent to prison to
serve nine months for horse stealing.
He was arrested soon after his dis-
charge on the charge of the larceny
of a horse and sent to jail for six
months.

The jury follows: F. E. Trotter,
Lino Garcia, Francisco Gutierrez,
John Lee Charles, T. A. Egan, Frank
Hall, Joe Vado, Santiago Garcia, W. O.
McCurken, A. A. Keen, Jose L.
Torres and P. Hanley.

fice, is the substance of a statement
received by Dr. E. Osuna, Mexican
consul, from Venustiano Carranza.

The statement follows:
"El Paso, Tex., Nov. 3, 1914.
"Dr. E. Osuna, Mexican Consul,
Albuquerque, N. M.

"We transmit the following mes-
sage received from our worthy and
honorable first chief from Mexico:
"The convention not having com-
plied with the conditions that I fixed
for my retirement from the duties
which I perform, I have not accepted
its resolution in regard to the nomi-

OUR CITIZEN'S DEMAND

Fully Complied With.—An Albu-
querque Resident Furnishes It.

There are few items which appear
in this paper more important to Al-
buquerque people than the statement
published below. In the first place,
it is from a citizen of Albuquerque
and can be thoroughly relied upon.
In the second place, it indisputably
proves that Don's Kidney Pills do
their work thoroughly and not tem-
porarily. Read this carefully:

Mrs. E. Fournelle, 401 S. Broadway,
Albuquerque, says: "I have recom-
mended Don's Kidney Pills to many
of my friends and acquaintances and
they have learned of their value. Like
myself, they all think highly of them.
Some years ago I used three boxes of
Don's Kidney Pills and was cured
of pain in my back that had troubled
me for many years. I was also relieved
of rheumatic pains and I have never
been bothered to any extent since. I
hold just as high an opinion of Don's
Kidney Pills now, as I did when I
publicly recommended them some
years ago. I haven't needed any kid-
ney medicine since. I am certainly
grateful for the cure Don's Kidney
Pills made."

GARCIA DANGER TO M. C. ORTIZ FOR LEGISLATURE

Democratic Legislator Leads
Old Town Orator in Eight
Precincts Where Vote Is
Known.

Possibility that Modesto C. Ortiz,
candidate for the legislature, may be
the only republican not to pile up a
safe plurality in the county was the
indication of returns received yester-
day.

Ortiz received the lowest total vote
of the six legislative candidates in
eight precincts, including the two in
Albuquerque, in which the vote was
known yesterday. Ortiz drew the low-
est vote in the city. That was shown
in the reports Tuesday night.

In three of the six rural precincts,
in which the vote was reported, Ras-
fael Garcia, democrat, present mem-
ber of the legislature from this coun-
ty, ran ahead of Ortiz. They are the
Alameda, Chilli and San Antonio pre-
cincts.

Garcia Shows Strength.
The fact that Garcia led Ortiz in
Alameda of course, was not a sur-
prise since the entire democratic
ticket was given pluralities in that dis-
trict. However, in the other two pre-
cincts every one of the republicans
with the exception of Ortiz received a
plurality. It is not only because of
that Garcia looms up as a danger
to Ortiz's success. The fact that
he was given a greater vote than
other democrats in precincts in which
Ortiz got a margin over him is also
significant.

Republican leaders assert that Or-
tiz is safe. Captain Glenwater, the
county chairman, said last night that
figures he had showed Modesto to
have a margin of seventy votes. Frank
Hubbell is understood to have esti-
mated Ortiz's plurality at forty-one, so
the legislators may not be deprived of
hearing Bernalillo county's marathon
orator. The democrats declared Mo-
desto was defeated by twenty.

Montoya Runs Strong.
Nestor Montoya was accorded the
highest vote of the republican legisla-
tive candidates in the city. He also
had the highest in the eight precincts
where the full vote was known, and
in some cases ran ahead of the head
of the republican ticket.

The returns from the six county
precincts and the two in the city give
the following totals:
For Congress—Ferguson, 1,384;
Hernandez, 1,285.
For Corporation Commissioner—
Williams, 1,280; Hill, 1,368.

For Legislature—Garcia, 1,571;
Scheer, 1,427; Kleke, 1,360; Montoya,
1,280; Mann, 1,245; and Ortiz, 1,119.
The entire vote of six outside pre-
cincts became known yesterday. Here
are the results:

Vote by Precincts.
Precinct No. 3, Alameda—Hernandez,
59; Ferguson, 96; Williams, 59;
Hill, 96; Mann, 59; Montoya, 59; Or-
tiz, 59; Scheer, 96; Garcia, 96; Kleke,
96.

Precinct No. 7, San Antonio—Hernandez,
56; Ferguson, 26; Williams, 56;
Hill, 26; Mann, 56; Scheer, 27;

NIGHT SCHOOL ROSTER JUMPS TO 73 STUDENTS

The night school gained twenty-one
new students last night at the second
session for the term. This brought
the enrollment up to seventy-three.

Three sessions a week are to be
held this winter—on Monday,
Wednesday and Friday nights. The
school was open only twice a week
last year. This term will last sixteen
weeks, longer than last year's.

All the men who buy clothes here are not young in
years; but we make them all, young or old, feel
well-dressed.

One of the best styles that Hart Schaffner & Marx
have ever designed for men is Model 18; it's not es-
pecially for young men; though many young men like it.

It's a little more conservative than the strictly young
style.

Many good weaves in Model 18, at \$25 and up

GIRL WHO BROKE COUNTY JAIL CAME TO CITY IN CAB

Josephine Barger Traced as
Far as Third and Silver by
Deputy United States Mar-
shal.

Deputy United States Marshal J. R.
Galusha yesterday traced Josephine
Barger from the county jail, from
which she escaped Tuesday night to
Third street and Silver avenue. There
she seemed to have vanished.
Although the young woman wore
only a light black dress and she must
have found shelter from the cold
nearly, Galusha was unable to find
any one who saw her after the time
she stepped from a cab at that cor-
ner. However, the deputy marshal, the
police and deputy sheriffs continued
the search last night. Galusha tele-
graphed Miss Barger's description to
points along railways out of the city.

Used Laprobe for Clunk.
When Miss Barger decided to make
her break she did not risk arousing
the suspicions of the guard by taking
her hat or coat. She went into the
jail yard dressed as she was in her
room. She took her money, however,
leaving two "hats" and a fair sized
wardrobe in the jail.

The young woman appeared first
at Bently's dairy. From there she
telephoned to the city for a cab.
Strong's delivery sent one and in it
she rode to Third and Silver. She
wrapped herself in a heavy laprobe
during the ride. She dismounted, the
cab there, stepped into the darkness
and since then no one has seen her,
as far as the officers could ascer-
tain.

Miss Barger is wanted as a witness
in an alleged "white slave" case. She
is rather tall, 5 feet, 9 inches, and
slender, weighing only 120 pounds.
She has brown hair and brown eyes.

Good dirt for sale. Shuffelbarger,
219 West Copper.
