CAMPAIGN IN SAMAR

Capt. Partir's Company Meets With Loss.

Two Murderers Escape from the Pittsburg Jail.

Attorney of a Texas Court Brings Suit Against a Trust.

ADMIRAL SCHLEY IN LOUISVILLE.

Washington, D. C., Jan. 30.—Secretary Long today received the following cablegram from Rear Admiral Rodgers at Cavite, concerning the march of marines across Samar:

"Details of Waller's expedition across Samar is not yet received. Credit is due Shoemaker for services rendered in connection with the rescue of the detachment at Lanang. Marines at Samar are to be relieved in about ten days."

The following casualties to Captain Porter's command occurred in attempting to march from Lanang to Bosey, Samar:

Lieut. A. S. Willis, slightly wounded in the chest and weeping eczema. Corporal W. Slattery and seven privates, condition serious from weeping eczema. Privates P. J. Connel, T. S. Sanjule, C. W. Foster, T. Bredt, J. Woods, F. E. Brown, T. Murray, M. Bassett, L. A. Bailey, J. Barone, missing, and hope is abandoned.

TWO MURDERERS ESCAPED.

Condemned Men Overpower Guards and Cut Bars of Cells.

Pittsburg, Pa., Jan. 30.—Edward and James Biddle, awaiting execution in the county jail for the murder of a grocer, Thomas D. Khaney, of Mount Washington, overpowered their guards early this morning and escaped. They cut the bars of their cells with saws. They evidently had assistance, as each had a revolver. Three guards were locked in the dungeon after one was shot. The Biddles then unlocked the outside gate and passed into the street. Warden Peter K. Soffel has authorized the statement that his wife is responsible for furnishing the revolver and saws to the Biddles, which enabled them to escape. In her infatuation for the handsome desperado, Edward Biddle, it is alleged that she left her husband and four children and it is supposed is to meet the escaped convicts at a place agreed upon.

It is reported that the Biddles took a train west on the Panhandle railroad, which is within a block of the jail.

It has been known for several weeks that Mrs. Soffel was taking an interest in the Biddles, frequently furnishing them with dainties. The county commissioners have offered a reward of \$5,000 for the recapture of the murderers.

After the Khaney murder on April 12 last, Detective Patrick Fitzgerald and two officers surprised the Biddle brothers at their home, but before they were captured Fitzgerald was killed and Edward Biddle, who shot him, was dangerously wounded. Walter Dorman, Jessie Bodine and Jennie Seebers were also arrested. Dorman turned state's evidence and the two Biddles were convicted of Khaney's murder. The women were released.

SUIT AGAINST TRUST.

A County Attorney of Texas After One of the Combines.

Dallas, Texas, Jan. 30.—Suits have been filed here by the county attorney against Granville P. Meade, in the federal court, receiver for the Standard Light & Power company of Dallas. The petition alleges that the Standard company entered into a combination for the restriction of trade and became liable to the plaintiff in the sum of \$5,000 a day for 214 days, or \$1,070,000. Forfeiture of charter is asked for.

ADMIRAL SCHLEY.

He Is the Guest of the Knights Templar of Louisville.

Louisville, Ky., Jan. 30.—Admiral Schley was today the guest of the Louisville Knights Templar. The parade was abandoned owing to the bad weather. The admiral visited the girls' high school, the Masonic Widows' and Orphans' home, and the Industrial School of Reform, being received with the utmost enthusiasm by the children.

Hungry Coyotes.

Considerable excitement was caused out at Mountain road and Second street last night by the appearance of what at first was supposed to be a mad dog. Martin, the milk man, was aroused about 1 o'clock by the barking of a dog in his yard. Mr. Martin got his gun and went after the mid-

night prowler. The dog looked very much like a coyote, and acted very funny, running around in a ring and making a very peculiar noise. It is very likely that it was a coyote driven to the valley by hunger. It is the wrong time of year for mad dogs.

ESCAPES WRECK.

Incendiaries Burn Trusses on Pintado Bridge Near Junction of Rock Island and El Paso Roads.

Information has reached El Paso of the burning, by incendiaries, of the Pintado bridge, located on the El Paso & Northeastern railroad, about six miles southwest of the Pecos river, approximately the junction of the El Paso and Rock Island roads.

A construction train bearing a large amount of material and many workmen crossed the partially burned bridge before its condition had been observed. Considering the extent of the damage to the bridge, it is considered marvelous to bridge men that the structure and train did not go down.

Around the bridge the incendiaries heaped brush, to which they set fire.

Discharged employees of the road are suspected as the perpetrators of the fire, although no direct evidence incriminating them has been secured, a reward of \$200 is offered for the apprehension of the incendiaries.—El Paso News.

ARMIJO--MANDERFIELD.

George W. Armijo and Josefita Rebecca Manderfield Married.

CEREMONY AT SANTA FE.

As pretty a wedding as ever took place in the capital of New Mexico, was that today of George W. Armijo, son of Mariano Armijo and wife, Mrs. Lola Chaves de Armijo, and grandson of Colonel and Mrs. J. Francisco Chaves, with Josefita Rebecca Manderfield, daughter of Mrs. Josefita Salazar de Manderfield and the late William H. Manderfield, both young people being related to the most prominent families of New Mexico. The bells from the cathedral announced the happy event at 10 o'clock this forenoon. The stately edifice was filled with wedding guests from far and near and the deep-toned organ sent forth the entrancing strains of a wedding march as the bridal party, preceded by ushers, entered the main entrance of the cathedral. The maid of honor was Miss Cecilia Manderfield, sister of the bride; the bridesmaids were Miss Eugenia Manderfield, sister of the bride; Miss Mamie Armijo, Miss Anita Armijo and Lucy Armijo. Master Isaurito Salazar, nephew of the bride, was ring bearer. The ushers were Territorial Auditor W. G. Sargent, Eduardo M. Otero, A. E. Perea, Esq., and T. S. Armijo. The bridal procession met the groom and his best man, who entered from the sacristy, in front of the altar, the groom's best man being District Clerk A. M. Begerer.

A high mass was celebrated by Vicar General Anthony Fourchegu, assisted by two priests. Rev. Jules Deraches was master of ceremonies. Archbishop Bourgade spoke the words that united these two young lives and pronounced the blessing upon them. The ceremony was beautiful and impressive, the music by a special choir being a feature. E. H. Salazar, brother of the bride, gave her away at the altar. To the joyful, triumphant strains of another wedding march the wedding party left the church for the Manderfield mansion on College street, which was a bower of fragrant blossoms. There a wedding breakfast was served. The wedding cake furnished by H. B. Cartwright & Brother, which graced the center of the elegant and beautifully decorated table, was a work of art that was admired by all those who saw it. It rose in pyramid form, was highly ornamented and was surmounted by a large wedding bell and orange blossoms.

From 2 to 4 o'clock a reception was given Mr. and Mrs. Armijo at the Manderfield mansion, at which hundreds called to offer their congratulations to the groom and their best wishes to the bride.

The wedding presents were many and magnificent. Congratulatory letters were received from all parts of the United States, including congratulations from President Roosevelt, Hon. Solomon Luna, Governor Otero and many others.

Mr. and Mrs. Armijo intend to leave tomorrow morning on a wedding tour to Philadelphia, New York, Washington, where a call will be made upon President Roosevelt, and other eastern points.—New Mexican, Jan. 29.

M. C. Stewart and H. R. Wells, of Carlsbad, N. M., the former sheriff and the last named deputy sheriff of Eddy county, are in the city en route to Bakersfield, Cal., where they are interested in ore propositions. Both gentlemen are married and proud of the fact. Como Estamos is doing the courtesies.

The delay in the repeal of tax on tea is for the purpose of enabling those who have stocks on hand to dispose of them. Go Up for Sixty Days.

A man, calling himself Charles Williams, but who has several aliases, will serve a sixty days sentence in the county jail as the result of stealing a pair of trousers from his roommate, William King. Last Monday night he took from a room, at the Kelly boarding house, a pair of pants and immediately left for Las Vegas. The trousers belonged to King, and he reported the theft to the police, stating that Williams would undoubtedly return to this city. Last night as he alighted from a train from the north, an officer put hands on Williams and marched him off to the city jail. Justice Crawford measured talents with him this morning, and thought he would be a good addition to the county jail force for the next sixty days.

BIG SANATORIUM.

It Will be Built by the Sisters of Mercy at Silver City.

VISIT OF EMINENT SPECIALIST.

Dr. Herbert Maxon King, of Grand Rapids, Mich., an eminent phthisiotherapist, spent a portion of last week in Silver City, investigating the climatic advantages of this section, and was greatly pleased with the result of the same, says the Independent.

While his visit was of short duration, having arrived here Wednesday and left Saturday evening, it is liable to mark an epoch in the history of this place as a health resort. Dr. King is a specialist of the highest order, and his favorable opinion means much to the place receiving it. He was a delegate from the United States to the International Congress of Tuberculosis held in London last summer, following which he made a tour which included the principal European sanatoria for the treatment of consumption. His visit to Silver City was in reality an extension of his tour, as he desired a personal knowledge of the local climatic conditions and the administration of the St. Joseph's sanatorium. Before leaving, Dr. King expressed himself in the highest terms concerning both.

One of the direct results of Dr. King's visit was the determination on the part of Mother M. Paul, the head of the Order of Mercy, of the diocese of Tucson, to construct a new building, to be used exclusively for sanatorium purposes. Mother Paul is now in Silver City for the purpose of giving her personal attention to this improvement.

It is expected that work upon the new building will be commenced at once—early in February, as the sisters already have sufficient funds at their command for such purpose. When completed, it will have a capacity of fifty additional patients. It will be built upon the California mission plan, that is, around a court or plaza. Being but one room in depth, with both outside and inside porches, it will really be a succession of separate rooms or cottages. The very extensive porches will give ample scope for keeping the patients comfortably, out of doors, which, of course, is an essential in the proper management of consumption.

A large recreation room or sun parlor will be a feature of the new building, the walls of which will be almost entirely constructed of glass, providing a bright, cheerful gathering place for the patients during disagreeable weather. The plans also include a room especially designed for the application of hydrotherapy, which will be fitted with the most modern appliances for giving hot and cold, spray, shower, plunge and needle baths.

A laboratory is also included. It has been especially designed for the purpose of original research as well as the routine laboratory work of the institute.

Washington, D. C., Jan. 30.—Arizona postoffice changes: Arizall, William Weaver, to succeed Frank A. Stone, resigned; Oraba, Martha Beall, to succeed Hermann Kamp Meier, removed; San Simon, Frank Libby, to succeed T. R. Brandt, resigned.

Scalded to Death.

The 12-year-old daughter of Higinio Mares at Pena Blanca, was scalded to death yesterday. She was carrying a coffee pot full of steaming hot coffee. The handle of the pot broke off and the girl was scalded so badly that she died twelve hours afterward.

CONFIRMED.

New Mexico Officials Confirmed by Senate.

Present Generation Doomed on Account of Insanity.

The Last Days of the California Prune Combination.

DEATH OF A CONGRESSMAN.

Special to The Citizen.

Washington, D. C., Jan. 30.—The Curtis bill authorizes the Santa Fe Pacific Railroad company to sell railroad franchises.

Surveyor General—Morgan Llewellyn, New Mexico, was confirmed by the senate.

Land Office Official—Howard Leland, of Roswell; M. R. Otero, Santa Fe; Nicholas Galles, Las Cruces, were also confirmed.

INCREASE OF INSANITY.

Present Generation Doomed Unless Measures Are Adopted to Prevent.

Detroit, Mich., Jan. 30.—Dr. R. B. Hoyt, a former member of the board of education, has gathered statistics which convince him that at the present rate of increase of insanity the population of this country will be mad in 260 years.

"Within the last fifty years," he said, "the number of insane persons and fools has increased 300 per cent. That means if the increase continues that the entire population of this country within 260 years will have gone insane or become foolish. Figures the logic of which is indisputable prove that the present generation is doomed unless heroic measures are resorted to."

"I sincerely believe that the human race is hastening toward an abyss that will engulf us unless something is done. What this something should be of course is a matter of opinion. I would start at the root of the evil and devote my attention to the proper education of the masses. The regeneration must begin with the unborn. I think good results can be obtained from proper education of the people."

PRUNE COMBINE.

The Combine Will Clean Up and Remit to Growers.

San Jose, Jan. 30.—Sixty thousand dollars has been sent out in checks by the California Cured Fruit association to those growers who delivered their prunes this year to the association. The dividend was declared and paid in the several prune districts of the state as follows: District 3, including Santa Clara county and adjacent prune sections, 1 1/2 cents per pound; district 2, including the northern prune growing counties, 1 cent per pound; district 1, including the San Joaquin valley prune counties, 1 1/2 cents per pound. The dividend was figured on the basis of the four sizes on all prunes, from 20-100. Second quality prunes received 1/2 of a cent less.

About twenty cars of the 1901 crop remain unsold in the hands of the association. Treasurer Lewis Bond stated that they expected to clean up the new crop and remit the balance to the growers in thirty days.

A considerable balance of the 1900 crop still remains in the association's possession. This will be remitted to the growers in two installments, the first to be declared in a few days. A large part of the crop has been sold, but the money has not been received.

Death of a Congressman.

Providence, R. I., Jan. 30.—Ex-Congressman Charles Sprague, of Massachusetts, died in a sanitarium here today.

He Had Hiccoughs.

A peculiar case is receiving the attention of Dr. Cassels of this city. In August last Massilio Mondragon, living in the outskirts of the city was seized with hiccoughs. He did not call in a physician until the other day, when his malady had prevented the operation of the bowels for twelve days in succession and his body had become terribly emaciated. Dr. Cassels was the doctor summoned and he succeeded after a time in stopping the man's hiccoughs and inducing his patient's bowels to perform their natural function. Mondragon, who is a man of family and very poor, is now on the high road to recovery.—Deming Headlight.

Telephone Company Meeting.

At the annual meeting of the stockholders of the Grant County Telephone company held in this city yesterday afternoon, the following directors were elected for the ensuing year: W. D. Murray, J. W. Bible, A. F. Witzel,

James Murray and Robert Bible. The directors organized by electing W. D. Murray president, J. W. Bible vice president and general manager, and A. F. Witzel, secretary and treasurer. F. W. Reed was named as superintendent. The capital stock of the company was increased from \$10,000 to \$35,000. An offer was made by the company for the Hearst line between Silver City and Pinos Altos.—Silver City Independent.

THROWN INTO SHAFT.

Enemies Pitched Mining Man Down a Hole.

Saturday, at a small mining camp called Black Rock, about twelve miles from Fort Thomas, Ariz., Fred Haas, a well known cattle and mining man, was forcibly seized by four or five men and carried to the brink of the shaft and hurled to the bottom.

Mr. Haas remained in the shaft several hours before being discovered and when taken out was unconscious. He was taken immediately to Pima, twenty miles away, the nearest point, where there is a physician.

The guilty parties had not been apprehended at the time Sheriff Parks left Graham county, but the act is no doubt traceable to a quarrel of a long standing between Haas and other parties in that vicinity over the possession of valuable mining property.

ANOTHER FIREMAN.

Leaned From Engine Cab and Head Crushed by a Bridge.

B. STRONACH THE VICTIM.

The train from the west this morning brought the news of another sad accident on the Santa Fe Pacific which resulted in the instant death of Fireman B. Stronach, of Winslow, Ariz.

No. 2 left Winslow at 10:20 last night in charge of Conductor J. E. Miller, of this city, and with Engineer Jack Brisco and Fireman Stronach on the engine. While the train was crossing the Colorado river, about two and a half miles east of Winslow, the fireman leaned out of the cab, presumably to watch something about the locomotive, when his head struck the side of the bridge and he was hurled to instant death. The train was immediately brought to a stop and the lifeless form of the fireman was found lying on the bridge with a large hole in his head. The body was taken back to Winslow and turned over to Undertaker Parr. Another fireman was secured at that place and the train proceeded on its eastern journey.

Stronach has been in the employ of the Santa Fe road for several years, but had been living in Winslow only about six weeks, going there, it is understood, from La Junta, Colo. He was about 26 years of age and leaves a young wife in Winslow to mourn his sad death.

It is reported that a sister of the dead fireman passed through here last night on No. 7 on her way to Winslow to visit the brother and his wife.

This is the third death that has occurred on the Santa Fe Pacific, as a result of coming in contact with bridges, within the last eight months, and in each case the unfortunate victim was a fireman.

FOREST RANGERS.

Their Selection Is To Be Left Entirely to The Forest Supervisors.

A Washington dispatch says: President Roosevelt today carried out the promise made Saturday to Forest Supervisor Seth Bullock, that in future forest rangers shall be selected by the supervisors, and not by the secretary of the interior, by writing a peremptory letter to the secretary of the interior to that effect. It directs the secretary in future to leave the appointment of forest rangers wholly in the hands of the forest supervisors, who know what is required and who will name western men, familiar with the country, able to camp out in snow or blizzard and to meet every requirement of the arduous situation. Eastern theorists and "tenderfeet" must not be given places.

Representative Tongue, of Oregon, called on the president today and presented a long petition signed by the members of the courts of his state, members of the legislature and prominent citizens generally, protesting against what they understand to be the new policy of the interior department as to the policing of forest reservations.

The petitioners insist that the forest rangers now employed, who are well acquainted with their duties and perform them faithfully, should be retained, and the policing of the parks not turned over to inexperienced men.

A bed of good quality of borax has been found at Farmington Glade, near Farmington, San Juan county. In the same vicinity a lime quarry is being opened. A coal bed has been also discovered within six miles of Farmington.

Notes from Correspondents

ALGODONES.

Special Correspondence.

Algodones, N. M., Jan. 28.—The following marriages took place here during the month: January, Juan Archibque to Miss Ophelia Lobato; January 9, Prudencio Garcia to Miss Ocaris Rael; January 20, the double wedding of George F. Pitts to Miss Isabel Garcia and David Gurule to Miss Petra Archibque, which took place in the little chapel at Algodones.

John L. Pitts, of Gallup, acted as best man for his brother, George, and Miss Luz Garcia as the bridesmaid. John L. Pitts is very popular here, everybody liking him. The wedding ceremony was performed by Father Joseph, of Bernalillo, assisted by Father Coudert. The beautiful marriage ceremony of the Catholic church was something worth going to see.

Dances have been the order of the day for some weeks past and from two to three dances each week have come off since the first of the month, and another is being arranged for next Saturday night.

The feast of Algodones took place here on the 19th and was largely attended by people from Albuquerque, Bernalillo, Los Cerrillos, Santa Fe, Pena Blanca and several other places.

Yesterday was a red letter day here. Judge Crollott, who is acting as school superintendent examined the school at this place. The judge is well qualified for the business of superintendent and done his work in a thorough business manner. His address to the parents of the school children was of a very high order. Judge Crollott highly complimented the teacher, O. P. Hovey, on the thorough efficiency of his management of the school. The examination was all done in the English language, although every scholar in the school are native born New Mexicans. The examination was highly satisfactory to the superintendent, who was very much surprised to find the school so far ahead of his expectations. Several of the children are doing very well and made a very creditable showing. The following were remarkably good: Federico Miera, Jose C. Duran, Jose Luna, Anita Vigil, Lucianita Luna, Pablita Gutierrez and Frank and Julian Griego. Reading in English and translating into Spanish was almost perfect, as well as spelling, geography, mathematics, etc. Federico Miera and Pablita Gutierrez, in their respective classes, never made a single error. The superintendent took occasion to highly compliment the school directors on the fine school building and their good fortune in securing such a capable teacher. He also very much admired the drawing and fancy work done by several of the children, and I confidently predict when the reports come in from the several school districts of the county, that, outside of Albuquerque, if Algodones does not take first place it will stand very close to the head.

There was a slight sprinkling of snow this morning, with indications of a coming storm. The weather has been very fine up to the present time.

SILVER CITY.

Special Correspondence.

Silver City, N. M., Jan. 28.—Fred Shelton, one of the old timers of Silver City, died at his home in this city last Friday evening. He came to New Mexico in 1877 and settled in Silver City, where he has resided ever since and was engaged in business.

The stockholders of the Great Western Oil company, located in this city, are very much elated over the prospects of oil on their property at Santa Rosa, Guadalupe county, as a company who are boring a well adjoining their property have every indication that they will strike a good flow of oil.

A sanitarium for tuberculosis diseases, to be built in Silver City, is again being brought to the front. A noted specialist, S. Herbert M. King, of Grand Rapids, Mich., visited this city last week with that purpose in view and to look over the ground and also post himself on the benefits derived by consumptives in climate. The doctor was very favorable impressed with this locality for the location of such an institution. It is also stated upon good authority that the Sisters of Mercy have almost completed plans for the building of a sanitarium adjoining their hospital in this city, for the treatment of tuberculosis diseases with an outlay of \$35,000. The work on this structure, it is expected, will commence in the early part of February.

Hon. J. W. Fleming, of this city, was elected fifth vice president of the International Miners' association, to represent New Mexico, which met at El Paso a short time ago.

The Grant County Telephone company at a meeting of its directors and officers yesterday elected officers for the ensuing year and also voted to increase their capital stock from \$10,000 to \$35,000. The company made an of-

fer to the Hearst people for their line between Silver City and Pinos Altos.

T. F. Chandler, an old resident of this city, returned from quite an extended trip in Arizona, where he was in the employ of a large mining company. He has accepted a position as manager of the electric light and ice plant in Deming, which is being erected by the Silver City Beer and Ice company.

WINSLOW.

Special Correspondence.

Winslow, Arizona, Jan. 28.—Mrs. C. Kelly has sold her lodging house on Third street and has gone back to her old home on Kinsey avenue to live.

Mrs. W. A. Forbes is a buyer who has a thorough knowledge of her business.

The first snow of the year fell last (Saturday) night. This kind of weather is much needed in Arizona, not having any rain in the last six months, and the feed on the range is very much dried up and water is short.

T. F. Moran, one of our Santa Fe Pacific dispatchers at this point, has taken up his residence at Hardy, Arizona, which is nine miles east of Winslow. The boys say he was elected mayor of the place the next day after arriving. Every train crew voted for him as they passed.

W. A. Parr has sold sixteen feet of the west side of lot 12, block 10, Hicks addition, to the town of Winslow for alley purposes for the sum of \$187.50. F. T. La Prade sold sixteen feet on the opposite side of the street for \$110. This was a needed improvement.

No light has been shed upon the mysterious killing of Juan Lucero a week ago, and the way it looks now it will always remain a mystery.

Harry Anderson has been preparing to make brick, but the recent fall of snow prevents him from making any further preparations until the snow leaves the ground. We would rather see the snow on the ground than the brick.

James H. Case, of Winslow, made a flying trip to Albuquerque on business. He reports a good time with old friends in the metropolis of New Mexico.

J. R. Barnes, of Keam's Canyon, Arizona, arrived in town Sunday afternoon after being two days on the road with a team and spring wagon carrying the remains of the wife of Mr. Barnes, who died at the canyon, aged 22 years. The remains were conveyed to the undertaking parlors of W. A. Parr, where they were embalmed and prepared for shipment to her old home in Jefferson county, Kentucky, leaving here the next evening, accompanied by her husband.

Ed. Whipple, of Flagstaff, was in town on Monday on business, returning on No. 8 Tuesday morning.

Snow continues to lay on the ground. This is rare weather for this part of Arizona, although good for the country. Sheep and cattlemen are rejoicing.

Myer Flynn, whose estimable wife has been sick for a long time and went to California for the benefit of her health, reports in letters received here that she is fast recovering, and is now able to take long walks and will soon be able to return home. Her many friends wish her a speedy return to health and home.

GALLUP.

Special Correspondence.

Gallup, New Mexico, January 28.—On dit: That Gallup has had more snow in January than in all the previous months of winter.

That Dr. E. Harper is at home at last and much benefitted by his stay in the east.

That W. W. Risdon was made an Elk during his last visit in Albuquerque.

That there are now five Elks in Gallup, Messrs. Henry, Aldrich, Weaver, Risdon and Harper.

That on account of bad weather and lack of advertising the last ball given by the combined orchestra was not so great a success financially as the first but that everyone seemed to enjoy themselves.

That there is no school today, being McKinley day.

That Miss Cora Brocklett is clerking in the Caledonian store.

That the revival meetings are still in progress, being held in the Congregational church.

That the Ladies' Aid of the Congregational church are planning an entertainment for the near future.

That the ladies of the Catholic church are also preparing an entertainment.

That Miss Susie MacConnell is one of the best and most thorough teachers of music in the city.

That the members of the B. L. T. dancing class meet each Thursday, Miss MacConnell, pianist.

That in the short time I spent at the ball on Friday evening I noticed seven of the pupils of the dancing class on the floor doing remarkably well.

That there is an old saying about "When thieves fall out then honest men get their dues," but when women fall out—well, how is it? Everyone gets more than is due them.

That the U. T. D. orchestra has been solicited to play at Winslow on the 22nd of February.

That the Gallup band and orchestra could send them music for the 22nd from three to twenty pieces.

That the Winslow Elks will probably engage the regular orchestra for their grand ball on the 14th of February. Gallup has two No. 1 first violinists. They are D. C. Russell, who leads the

WOMAN'S BEAUTY.

How it is Made or Marred.

There is nothing more subtle than woman's beauty. It eludes all attempts to analyze it. A woman may have the measurements and lines of the Medician Venus and yet lack beauty. Or she may defy artistic standards and be known everywhere as a beautiful woman. There is, however, one kind of beauty which is recognized by all and which is every woman's dower, a beauty to which the French have given the name of "The Beauty of Youth." Many a time we turn to watch some sweet, young girl, impressed by her beauty. But if we analyze the beauty we find it is made up of smooth skin, clear complexion, bright eyes, ruddy lips and rounded contours. That beauty ought to last always. But

how soon we see it fade. The young wife looks at her yellow skin, sunken cheeks and hollow eyes and marvels at her own falling off. And the younger girls still retaining the beauty of youth wonder "what her husband could have seen attractive in her," not knowing that it will be their turn to fade very soon.

HOW TO KEEP BEAUTY.

In order to preserve this beauty of youth, to retain the charm of sweetness and freshness which belongs to maidenhood, the prerequisite is to understand that the chief foe of woman's beauty is womanly ill-health. Young women are often very careless of themselves. The temptation of the dance, or of the sleigh-ride overrules their prudence, and the result is suppression and perhaps irregularity. This is only the beginning of worse evils, and yet this alone is sufficient to steal the freshness from the face. The womanly health should be protected with the utmost care and the first symptom of derangement or disease should be met by the use of Dr. Pierce's Favorite Prescription.

"I will always recommend Dr. Pierce's Favorite Prescription, 'Golden Medical Discovery' and 'Pleasant Pellets,' for they cured me when doctors and other medicines failed," writes Mrs. Mary E. Lewis, of Tanner, Gilmer Co., W. Va. "For fifteen years I suffered untold misery. When I commenced taking Dr. Pierce's medicines, I had given up all hope of ever getting well. I could not lie down to sleep, and everything I ate would almost choke me to death. Was very nervous and could hardly walk across the room. I only weighed ninety pounds when I commenced taking these medicines; I now weigh one hundred and forty pounds and am having better health than ever before. My friends all

orchestra, and R. Wyper, who leads the Montezuma band.

That Mrs. Sloan has a large class in music, elocution and physical culture. That Mesdames Lannigan and Sabin, Misses Bayliss and McNallan assisted the pupils of the dancing class on practice night, also Lawrence Smith.

That while in El Paso the visitors from Gallup attended a bull fight, and were disgusted thereby. Difference in taste you see.

That Mrs. Hutchins and son will go to Colorado in the near future to join the husband and father, who accepted a position in Lamar a short time ago.

That the Kitchen opera house management has secured the best shows this season and that none but good ones have been billed thus far.

That the Gallupites are much pleased over the great improvement in The Citizen. It was a good paper before. It is better now.

That our county paper is O. K. too. There isn't quite so many things happening in Gallup, that's all.

Frank Treadwell, Bennett, Ia., was troubled with kidney disease for two years. He writes: "I had taken several kinds of kidney remedies, but with little benefit. Finally I tried Foley's Kidney Cure and a one dollar bottle cured me." Alvarado Pharmacy.

DON'T.

DON'T dispute with a woman when she says the Economist goods are the only ones to buy. Because she knows what she's talking about.

DON'T argue with her when she says the Economist prices are money-savers. She talks like a sensible woman who knows what's what.

DON'T try to excuse yourself for going to some other store instead of the Economist. You know that you can offer no reason that can be sufficient for passing the store where the best and cheapest go together.

DON'T expect your wife to meet you pleasantly if you've gone to some other store than the Economist, when she expressly told you to go nowhere else. Don't do these things if you expect to live long and keep your hair on.

DON'T FAIL TO ATTEND THE GREATEST HOSIERY SALE EVER ATTEMPTED IN THIS CITY.—LEON B. STERN.

Agricultural lands in Deming are unsurpassed for fertility, production of fruits and vegetables of all kinds.

say they can hardly believe that I am the same person, after being sick so long I have changed to be robust and rosy checked. I have taken fifteen bottles of 'Prescription,' fifteen of the 'Discovery' and fifteen of the 'Pellets.' I know that if it had not been for your medicines I would not have been living to-day."

Dr. Pierce's Favorite Prescription is a woman's medicine. It is not offered as a cure-all but it is confidently recommended as a sure and safe remedy for all those diseases of women which are curable by the use of medicine. It establishes regularity, dries the drains which destroy the strength and beauty of women, heals inflammation and ulceration and cures female weakness. It is the best preparative for motherhood, giving great strength and elasticity to the organs of maternity, and making the baby's advent practically painless.

"GETTING YOUNG AGAIN."

It is one of the triumphs of "Favorite Prescription" that its results are so palpably and visibly real. The cure of womanly diseases by this medicine is proved by the gain in flesh and weight, by the restoration of youthful freshness, by the renewed strength and ambition, and by all the outward and visible signs of robust health.

"I enjoy good health; thanks to Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,'" writes Mrs. J. J. Schnetzer, of Pontiac, Livingston Co., Ill. "I have taken six bottles of each kind. I was taken sick last February and the doctors here called it 'Grip.' I lay for four weeks in bed, and when I got up I found I had 'displacement.' I had such aches and pains in my back and limbs, could not stand any length of time. I knew that our home doctor would insist the first thing on an examination, and that I would not submit to, unless I was dangerously sick, and then it would be too late. If anyone had told me your medicines would do me so much good I would have said, 'Oh no, not that much good.' I can say truly I was surprised at the benefit I received. An old friend of mine said to me, 'Why, what is the matter with you, you are getting so young again?' I told her I had taken six bottles of Dr. Pierce's medicine, and that if she would do likewise she would feel ten years younger, too."

There is one clause in Mrs. Schnetzer's letter, which voices the sentiments of thousands of sensitive women. "I knew that our home doctor would insist the first thing on an examination, and that I would not submit to, unless I was dangerously sick, and then it would be too late to do any good."

Many a woman in just such a case, realizing the danger she runs yet neglects medical treatment because she shrinks from the indecency of examinations, the offensive examinations and obnoxious local treatments which the home physician often thinks necessary.

A WAY OUT

of this difficulty is opened for women by Dr. Pierce's invitation to consult him by letter, free. All correspondence is held as strictly confidential, and the written confidences of women are guarded by the same professional privacy observed by Dr. Pierce in personal consultations with women at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Address Dr. R. V. Pierce, Buffalo, N. Y.

THE FAMILY FRIEND.

A. L. Amend, of Newfield, El Paso Co., Colo., says: "We have studied the Medical Adviser thoroughly, and when anything is the matter with any of our large family the first thing we do is to see what the book says."

Dr. Pierce's Common Sense Medical Adviser, containing 1008 large pages and over 700 illustrations, is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers. Address Dr. R. V. Pierce, Buffalo, N. Y.

The Wearing of the Green.

Those green tags on our winter goods mean that you can wear the goods that the tags are on at a much lower price than they are actually worth. Because all our winter goods must and will be sold. Simon Stern, the Railroad avenue clothier.

[Market quotations and review furnished by W. P. Metcalf, No. 5 Cromwell block, received over the private wire of Logan & Bryan, Chicago.]

New York, Jan. 30.—Although sluggish, the market has been quite strong and with few exceptions stocks closed well above last night's figures. Southern Pacific, Union Pacific and St. Paul were strong and advanced on buying of good character. Copper higher on advance in spot product in London.

Sugar dropped sharply on the postponement of Cuban legislation. There was little news. Union Pacific December report was well regarded. The steel company report was encouraging but did not affect the stock.

SANTA FE MAN INVOLVED.

Sensational Diamond Stealing Case on Trial at San Diego.

A dispatch from San Diego, Cal., under date of January 28, says:

The H. R. Hall and "Bessie Hall" diamond stealing case is on trial before Judge Torrance of the superior court. Hall was for a month or two the night operator at the Santa Fe depot, during which time there was much complaint being made because articles of value were missed from baggage at the depot. Finally Mrs. H. H. Stowell, a wealthy New York woman, going to the Hotel del Coronado, reported the loss of diamonds approaching \$1,000 in valuation. Local detectives went to work on the case, and Detective Selvy of the Santa Fe system was sent for. In the meantime Hall was up for petty larceny in the justice court and had to furnish \$100 bond. He pawned to Eugene Daney a \$500 diamond ring in consideration of the latter going his security. It was found that this ring was the property of Mrs. Stowell and not only Hall, but his alleged sister, "Bessie Hall," were arrested. The preliminary examination brought out other damaging testimony, and the detectives claim to have found any amount of property which Hall had pilfered. A few days ago D. E. Grosh, of Del Rio, Texas, arrived in the city. He is said to be the husband of "Bessie Hall," and does not deny it, although he registered at the hotel under an assumed name. He and Hall have met before, and there are rumors of a shooting scrape in New Mexico. At any rate, Hall made away with his wife and in vengeance Grosh will do all in his power to assist sending him over the road. He will try to rescue his wife and will return her to her parents. The trial promises sensational developments.

SERIOUSLY SHOT.

Cliff Rancher Drops His Colt and Receives Bullet in Return.

John Lee, a rancher living near Cliff, on the Gila river, was a victim of a very serious accident Saturday, caused by his six-shooter dropping out of his pocket and going off, inflicting a bad wound.

At the time of the accident Mr. Lee was in his home. He was in a recumbent position, when his six-shooter, which he carried in his pants pocket, dropped out upon the floor and discharged. The bullet entered his body on the right side, at a point below the shoulder blade and passed through the lung in an upward direction coming out in front. He was given what attention could be secured and brought to Silver City for medical treatment.

Dr. O. J. Westlake was notified, and meeting the wounded man about eight miles out on the road Saturday night accompanied him to town, where he was taken to the Ladies' hospital. Yesterday he was getting along first rate, although the outcome is problematical.

Mr. Lee was only married a few months ago, and his wife was alone with him at the time of the accident. Mrs. Lee is now nursing him at the hospital.—Silver City Independent.

GRANT COUNTY DEATH.

James Keefover and Fred Shelton Pass Over the Divide.

James T. Keefover, who followed freighting as an occupation, died at his home north of Silver City Saturday, after a short illness, from pneumonia. He was aged 38 years and is survived by his wife and three children. Deceased was a hard working and industrious citizen. He came to Silver City from Hillsboro some years ago, and recently has been freighting between that city and the Mogollon mining district. The remains were taken to the Gila for interment.

Died, at his home in Silver City, Friday afternoon, January 24, 1902, Frederick T. Shelton, aged 59 years, 9 months and 14 days. Fred Shelton was one of the oldest and most popular residents of Silver City. He was born and raised in the state of New York. In 1861 he left his home, joined the Union army and remained in the service of his country until the end of the war. In 1877 he came to New Mexico and settled in Silver City. Here he engaged in business and was for many years very prosperous. When the price of silver declined and hard times came upon the country, Mr. Shelton went out of business, and thence forward earned a living by working for others.

THE COPPER MARKET.

Bound to See Better Prices Within the Next Six Months.

The following comment concerning the copper situation is taken from the recent number of the Mining and Engineering Review, a competent authority on all matters in mining:

Notwithstanding the decline in copper prices, owing mainly to manipulation by John D. Rockefeller, who made such a wonderful success on the same lines in the oil fields of the east, we venture to predict that copper will not only regain its seemingly lost strength, but will advance to a price within the next six months which it has never before attained; and John D. Rockefeller will know that he has been in a fight before he gets his game bagged. The copper miners of the United States are a different lot to the poor well drilled of Pennsylvania, and they have already called the hands of the Amalgamated Copper company and the United Metals Selling company, and their bluffs have been exposed.

While it is true that business is duller than usual in manufacturing centers in Europe, where copper to a large extent is required, yet it is a fact that the visible supply of copper is shorter than usual; the consumption in the United States is increasing rapidly,

and there are no unusually large stocks of copper held by any company. If there should be a sudden demand in Europe it will require every pound of available copper in the United States to meet it.

In corroboration of the above statement a manufacturer of electrical supplies said last week in the Native Copper Times:

"If there should be a movement of the largest producers of copper, looking to higher prices, the 100,000,000 pounds stored by the United Metals Selling company would not last two weeks. There are over 100,000,000 pounds less copper and brass in the hands of manufacturers now than there was a year or two ago, and we are doing a better business now than we were then."

A fence has been strung around the old well near the freight depot, and all danger of anyone stumbling into the big hole is now past. When the Wilson family lived in the Pendleton house a short distance north of the old well, Paul Wilson came very near walking into it one dark night. Had he done so, it would have required a want advertisement in the Herald to have discovered him. It was a very close call indeed for Mr. Wilson.

The father was stunned by the cruel blow, and it was some time before he could realize his great loss. Clarence Leffer was a Deming boy and very popular with his acquaintances. The parents, two sisters and two brothers, are left to mourn his death, along with his many friends.

HANDY HUSBAND

Knew How to Get Part of the Breakfast Anyhow.

"I know one dish I can prepare for breakfast as well as any cook on earth," said my husband one day when the cook was ill and he had volunteered to help get breakfast. He appeared with his dish and I discovered it was Grape-Nuts, which, of course, was easy to prepare for it was perfectly cooked at the factory, but it was a good illustration of the convenience of having Grape-Nuts about.

"We just added a little cream and, of course, had a delicious bit of food. We took up Grape-Nuts immediately after returning from a five years' sojourn in a hot country and our stomachs were in bad condition and we were in bad health generally.

"When we first tried it I confess we thought there were other and better things to eat and were told we must acquire a taste for this new food. Sure enough, in a day or two we liked Grape-Nuts better than any other kind of food on the table. We both gained steadily in health and strength, and this was caused by Grape-Nuts and Postum Food Coffee.

A friend of ours had a similar experience. She was seriously ill with indigestion and could find nothing to eat that would not give her heart burn and palpitation, especially at night.

She found that a small dish of Grape-Nuts with cream made her a satisfactory supper and gave her a comfortable night's rest. In a short time she has gained several pounds in weight." The writer lives in Topeka, Kan. Name given by Postum Co., Battle Creek, Mich.

SPALDING IN NEW MEXICO.

His Trip South Has Significance in Base Ball Circles.

A. G. Spalding, president of the National Base Ball league, publisher of Spalding's Official Base Ball Guide, and one of the crack players in the pioneer team of Chicago in the early 70's—when curve pitching was unknown—is in New Mexico.

In connection with the current base ball troubles, a dispatch from Chicago says:

"The departure of A. G. Spalding for New Mexico called a halt in the battle of letters which has been progressing merrily since the trouble began. Still, Mr. Spalding will hardly go beyond the reach of a postoffice, and may continue his letter writing tactics just to keep in condition. Talk of a four club circuit is now heard on all sides, and some people argue that a circuit composed of Chicago, Pittsburg, Brooklyn and Philadelphia will be in operation next season, with Spalding as the executive head. It is safe to predict that such an organization will go the way of all the four club base ball leagues. The public wants variety, and, with only three teams visiting a home club, the sameness of diet would soon pall upon them.

"Spalding's action in leaving the scene of hostilities is regarded by many as proof positive that he has his fight well in hand—so well that he can retire and leave things to his representative in Chicago."

Railroad Topics

The Colorado & Southern now has thirty engines and train crews running north and south out of Trinidad.

A Bishbee railroad laborer by name of Phelps fell sick at his work near Carlizillo Springs and before they could get him to the Deming hospital he died.

W. C. Jones, erstwhile a Trinidadian, now a resident of Albuquerque, is in the city, a guest of Baggage-master Albertson, of the Santa Fe. Says the Trinidad Advertiser:

J. H. Ackerman, revising clerk at the freight depot; W. H. Thomas, baggage-man, and John Brooks, a platform employee, quit the service of the Santa Fe company yesterday.

Machinist Henry Blesman and Boiler-maker J. N. Shirley, with two helpers, are working on the machinery at the Las Vegas pickler. The pickler will start up again March 1.

Charles M. Taylor, division master mechanic, and Dave Sulter, roadmaster of engines, were at Las Vegas from La Junta yesterday, spending the day looking about the shops and yards.

The Las Vegas Record says: Engineer Lee Wright and Fireman Peeler were sent to Albuquerque yesterday to bring up an engine from the Santa Fe Pacific, en route to the Topeka shops.

Preciano Gomez, a Mexican laborer on the Bishbee railroad near Carlizillo Springs, was run over by a car and terribly mangled from the thighs down. He was taken to the Deming hospital and died there.

C. G. Wood, of Colorado Springs, formerly manager of the Postal Telegraph company's office in Santa Fe, is visiting his old haunts in that city. He is on his way to California, where he will work as operator for the Santa Fe system.

The completion of the Bishbee-Southwestern railroad between Deming and Douglas is announced for February 15, when the greatest producing mining camps in the world will be brought into direct and close connection with Deming.

It is understood here, among railroaders, that J. E. Hurley will be transferred from the main line to the coast lines, and will receive the appointment of general superintendent of the latter, vice A. G. Wells, promoted to the general managership.

Work on the Prescott & Eastern railway is going on and is being rapidly completed. It is expected that the road will be completed and all trains running by April 1. When completed the road will run from Huron to the Poland mine, a distance of eight miles.

Superintendent Hibbard and a railway surveying corps were at Gallup looking over the ground between Gallup and Gibson with a view of putting in a track to the new Canavan mine, one and a half miles north of Gallup. The shaft is down 132 feet and shows a vein six feet thick, the vein being probably the Old Diamond vein.

The Deming Herald says: Wages are pretty good at the railroad front, Mexicans receiving \$1.50 to \$1.75 per day, Americans from \$1.75 to \$2. Excepting the commissary car, there are no stores along the line, and prospectors from Fremont and Hachita districts will do well to go prepared with food, canteens and barrels. Take livery and outfit from Deming.

There were several engineers and surveyors from the east passed through here this week for the hills, looking for reservoir sites. They are sent out here by wealthy men in the east. If they succeed in their mission, and it is devoutly hoped they may, and procure storage for water, Tularosa and the surrounding valley will flourish like a green bay tree.—Tularosa Democrat.

The Carlizillo Argus says: W. H. Hull is now in full charge of the local railway station. A. A. Driggs making the formal transfer of the office late last week. Harry Driscoll, lately from Canyon City, but who worked here for a short time last spring, now holds down the telegraph key in the office. The new regime is already quite popular, both agent and assistant being efficient and accommodating officials.

The Lordsburg Liberal says: Tuesday, when the east bound passenger train was in the yard, a tramp stole a fine overcoat from one of the cars. The owner did not miss it until the train left the station. At Separ the conductor telegraphed an account of the theft, and a description of the coat. It did not take Agent Clapp long to find a tramp with pretty tough clothes and a \$40 raglan overcoat. Judge McGrath sent the tramp up for ninety days, and the coat was forwarded to its owner.

The El Paso Western Railway company is piling up ties at Carlizillo for the construction of the line from Carlizillo to El Paso, and the junction is again the domicile of a large number of Mexicans who make fairly comfortable shelter out of the ties. The tents for the accommodation of the spendthrifts are receiving fair patronage. Tuesday a Mexican considered himself robbed at the gaming table, returned with a crowd of friends and missed by a hair's breadth the proprietor of the saloon. There was much shooting and the Americans in camp had to get out of the way. An employee of the Golden Cross company had a narrow escape, the bullets flying all around him, although he had no part in the quarrel.—Deming Herald.

J. J. Burns, superintendent of the first division of the Denver & Rio Grande, with headquarters at Pueblo for the last ten years, and one of the best known railroad men in the west,

tendered his resignation to take effect Saturday. Mr. Burns' successor has not yet been named. Mr. Burns entered into railway service in July, 1865, with the Pennsylvania railroad, at Altoona shops. Later he was with the Union Pacific, and since November, 1888, has been clerk to the superintendent, chief train dispatcher, superintendent of telegraph, general storekeeper, supply agent, purchasing agent and superintendent of the first division of the Denver & Rio Grande. He has many friends in railroad circles, among whom he is very popular.

Child Worth Millions.
"My child is worth millions to me," says Mrs. Mary Bird, of Harrisburg, Pa., "yet I would have lost her by croup had I not purchased a bottle of One Minute Cough Cure." One Minute Cough Cure is sure cure for coughs, croup and throat and lung troubles. An absolutely safe cough cure which acts immediately. The youngest child can take it with entire safety. The little ones like the taste and remember how often it helped them. Every family should have a bottle of One Minute Cough Cure handy. At this season especially it may be needed suddenly. For sale by J. H. O'Reilly and B. H. Briggs & Co.

You should know that Foley's Honey and Tar is absolutely the best for all diseases of the throat and lungs. Dealers are authorized to guarantee it to give satisfaction. Alvarado Pharmacy.

RAILROAD IMPROVEMENTS.

Southern Pacific Will Spend Almost a Million Dollars in Dona Ana County.
The Southern Pacific has decided to construct a cut-off between El Paso and Strauss, Dona Ana county. The contract has been given to the Nelson Construction company. A sharp curve and a bad grade will be overcome by the cut-off, especially between Strauss and Rogers. The grade as it now is, is 52.3 feet per mile, but the improvements will bring it down to 31 feet. The cost of this construction will be over \$700,000. About 2,000 men and 800 teams will be employed. A million and a half cubic yards of material are to be removed from thirteen miles of road within four months. Steam shovels will be employed. Eighty-pound steel is to be laid on the new track. All bridges and trestling are to be of steel and all culverts and abutments will be of stone masonry. The improvements include a new bridge over the Rio Grande. It will be of steel and will be forty feet higher than the present bridge. The abutments will be of brick and concrete. These improvements will do away with the double-track headers out of El Paso.

A COYOTE CHASE.

Sheep Men North of Phoenix to Institute a Hunt for the Desert Cur.
Sheep men of the Salt River valley will institute a coyote hunt next week and the stag hounds of E. E. Jack, of the Bartlett-Heard ranch, about two miles north of Glendale, have been engaged for the event, says the Phoenix Gazette.

Mr. Hamilton and Mr. Jack were in the city and discussed the proposed chase.

Thousands of coyotes are now gathered around the sheep-shearing camps north of Phoenix. Such great numbers have never before been known to gather in one spot, and they are inflicting such heavy losses upon the

sheep men and in the pig sties and chicken yards of ranchers round about that plans are making for a round-up to rid the country of the pest. Every winter, from ranges in the mountains, thousands of sheep are brought down into the valley, where they are sheared and where the ewes may lamb. This winter a larger number than usual are quartered in the valley, and not less than 100,000 sheep have been sheared.

So many lambs, though, have been taken by the coyotes that thus far the losses will run well up into the thousands of dollars. Neither have the losses been confined to the lambs, the coyotes, contrary to their custom and with their cowardly natures, frequently pulling down the older sheep. All the sheep dogs and all the herders available have been unable to stop the slaughter, so the sheepmen and ranchers have combined forces to slaughter by wholesale the yellow Ishmaelites of the plains. The project contemplates the gathering of as many horsemen and dogs as it is possible next week. Greyhounds bred particularly for coyote coursing have been brought down to lead the chase.

Perhaps for the first time in the history of stock raising in Arizona the cattlemen will aid the sheepmen. Two hundred horsemen have promised to be in the hunt next week, and the scope of the chase will cover nearly fifteen square miles. Dogs for ten miles about will be pressed into service. With a force of perhaps a thousand dogs and two hundred rough riding cow punchers, not a coyote should escape.

Remarkable Cure of Croup—A Little Boy's Life Saved.

I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I feel that I cannot praise it enough. I bought a bottle of it from A. E. Steere of Goodwin, S. D., and when I got home with it the poor baby could hardly breathe. I gave the medicine as directed every ten minutes until he "threw up" and then I thought sure he was going to choke to death. We had to pull the phlegm out of his mouth, in great long strings. I am positive that if I had not got that bottle of cough medicine, my boy would not be on earth today. Joel Demont, Iowa. Died on the Train.

E. F. Waller, who had spent eighteen weeks down in Albuquerque for the benefit of his health, died on the train last night about ten miles from this city, while en route to his home in Lenox, Iowa. The remains were brought here and taken to the Dearth undertaking parlors, where they were embalmed and shipped east on the afternoon train, accompanied by his wife, three children and a brother. The deceased was thirty-three years old.—Las Vegas Record.

Children Especially Liable

Burns, bruises and cuts are extremely painful and if neglected often result in blood poisoning. Children are especially liable to such mishaps because not so careful. As a remedy DeWitt's Witch Hazel Salve is unequalled. Draws out the fire, stops the pain, soon heals the wound. Beware of counterfeits. Sure cure for piles. "DeWitt's Witch Hazel Salve cured my baby of eczema after two physicians gave her up," writes James Mock, N. Webster, Ind. "Those sores were so bad she soiled two to five dresses a day." J. H. O'Reilly & Co., and B. H. Briggs & Co.

La grippe coughs often continue for months and oftentimes lead to fatal results after the patient is supposed to have passed the danger point. Foley's Honey and Tar affords positive protection and security from these coughs. Alvarado Pharmacy.

Miss Ida McCune, the popular teacher of vocal and instrumental music, has been so successful in securing pupils that she has decided to remain permanently in Albuquerque and is expecting her mother and brother to join her here in a few days.

BURNS' RANCH.

Possession Over a Small Ranch Results in a Bloody Shooting.

GEORGE CONARD THE VICTIM.

Last Thursday morning, at Burns' Ranch, this county, John J. Tobin shot and seriously wounded George N. Conard, a well-known cattle man. The facts of the shooting as learned by us is as follows: For a week or more Conard and a hired man had been at work putting the Burns Ranch, a small tract of land five miles west of Mud Springs, in shape for the planting of a garden, but had run out of provisions and horse feed and had gone to Chloride to replenish the supplies. Returning Thursday morning he found Tobin in possession of the place. As he was driving down the road from the summit of the range to the ranch he was halted by Tobin, who ordered him to go no farther. Conard stated to Tobin that he wanted no trouble with him, but that he was going to put his feed and provisions in a shed used as a barn. Tobin called to his wife, asking her if she had her gun ready and the woman came out at once and went to Conard. Disregarding the attitude of Tobin, Conard started the team toward the barn and Tobin raised his gun to shoot. Conard said, don't shoot, at the same time reaching for a rifle that lay in the wagon. As soon as Tobin saw the rifle he ran to the house and took refuge behind it. The woman then caught the horses' heads and stopped the team. Not wishing to have a row with the woman, Conard began to unhitch the team and the woman stood back and looked on. When the team was unhitched the hired man took the horses to the water and was giving them a drink. Conard picked up a box and placing it on his shoulder started for the shed, leaving his rifle standing against the wagon. He was halted by Tobin before he had gone many yards and told to drop the box and that he, Tobin, would put it away. Conard said, I will put it away myself. Tobin then raised his gun and fired, the load of buckshot passing over Conard's head, the wad striking him in the face. He again fired, this time the load striking Conard in the right arm as he had it raised up holding the box on his shoulder. Had it not been for the box his head would have been torn off. As it was his arm caught the whole force of the charge and was horribly torn up. The box fell from the nerveless arm and Conard started for the wagon. Tobin called to his wife to get Conard's rifle and shoot the s— of a b—h. The woman grabbed up the gun and started away from Conard with it. Tobin again called to her to bring it to him, which she did. As soon as Tobin got the gun he took aim and fired at Conard, shooting him through the front part of the left leg above the knee. Conard and the hired man were getting away over the hill as fast as they could go and were soon out of range. The wounded man walked and rode the five miles to his home at Mud Springs, the wounds bleeding profusely. When he arrived at his home he was weak from loss of blood. His wife and hired man at once set about getting a wagon ready and brought the wounded man to town, arriving here about 2 o'clock yesterday morning. A complaint was sworn to and officers sent out to arrest the shooters. Tobin went to Chloride and gave himself up. The officers are expected in today with the wife, who is jointly charged with the crime.

The trouble grew out of the possession of the Burns' Ranch. Over a year ago Conard leased the ranch to Tobin and wife and aided them in putting in a garden. When the lease had expired Tobin set up that he was as much entitled to the ranch as Conard and refused to pay rent or vacate. Conard brought an action of forcible detainer against Tobin and the court awarded judgment for Conard, defendant Tobin failing to appear and defend. By an order of court Tobin and wife were removed from the place and at their request their goods were taken to Tillman's. The matter was supposed to rest there, but subsequent events prove that Tobin proposed to have the ranch, right or wrong.

Conard is now at Hotel Beale under the care of Dr. Ealy and is getting along as well as could be expected. There are several wounds in his arm made by the buckshot. One of the buckshot struck him in the breast, but striking a rib, glanced off, inflicting a flesh wound. The rifle wound in the leg is large and painful.—Kingman, Ariz., Miner.

W. L. Yancy, Paducah, Ky., writes: "I had a severe case of kidney disease and three of the best physicians in southern Kentucky treated me without success. I was induced to try Foley's Kidney Cure. The first bottle gave immediate relief and three bottles cured me entirely. I gladly recommend this wonderful remedy." Take no substitute. Alvarado Pharmacy.
