## A FAILURE.

### Commerce Commission Annual Report.

### Law a Dead Letter With Railway Lines.

### Man Dies in a Mysterious Manner in a Bath Room.

### MAN LOST IN MONTANA MOUNTAINS.

Washington, D. C., Jan. 23.—The annual report of the interstate commerce commission transmitted to congress today, renews the declaration made in previous reports that in its present condition the act to regulate commerce cannot be enforced. As to remedial legislation the commission renews the statement in previous reports, that it "has little to suggest and nothing new to propose." Referring to the commission's recent investigations into the movement of packing house products and grain and grain products, the report says:

"That leading traffic officials of many of the principal railway lines should deliberately violate the statute law of the land and in some cases agree with each other to do so; that it should be thought by them necessary to destroy vouchers and so manipulate bookkeeping as to obliterate evidence of transactions; that hundreds of thousands of dollars should be paid in unlawful rebates to a few great packing houses; that the business of railroad transportation should to such an extent be conducted in open disregard of law, must be surprising and offensive to all right minded persons. Equally startling at least is the fact that owners of these packing houses should seemingly be eager to augment their gains with the enormous amounts of these rebates which they receive in plain defiance of the federal statute."

The opinion is expressed that existing laws should be so amended that every manager who desires to observe them can do so without risk of sacrificing their property. Some method should be provided, it is suggested, by which the government can exercise in fact that control over the railway rates and operations which courts without number have asserted that it possesses and which many persons suppose it now exerts.

### MYSTERIOUS MURDER.

### St. Louis Citizen Dies in a Turkish Bath Room.

St. Louis, Jan. 23.—A. Dean Cooper, treasurer of the Graham Paper company, is dying as the result of injuries received in a mysterious manner in a Turkish bath establishment last night. William A. Strother, colored man in charge of the bath house, who tells conflicting stories, is under arrest. A diamond ring worth \$1,500, and a valuable pin belonging to a brother has been recovered from a hiding place in the cellar of the bath house.

Cooper's injury consists of a fractured skull. A sledge hammer covered with blood was also found in the cellar. Strother said that about midnight a boy brought Cooper a note, which he refused to answer. The boy went away, and soon after a man and two women entered. When he returned from the cellar, where he had gone to fix the fire, Strother said he found Cooper unconscious.

Cooper did not regain consciousness, and died about 10 o'clock. Cooper was the owner of the bath house where the assault was committed. He was considered one of the wealthiest men in St. Louis.

### Lost in the Mountains.

Thompson Falls, Mont., Jan. 23.—E. A. Goodchild, mill man and merchant, one of the most prominent citizens of the state, is lost in the mountains. A searching party of 300 men failed to find any trace of him.

### BAD MEDICINE.

### Use of "Headache Tablets" Followed by Sudden and Severe Illness.

Burlington, Colo., Jan. 23.—Thomas J. Penfold and H. Hainline, two of the best known young men of this city, are seriously ill from the effects of a headache cure which they purchased at a local drug store. At first it was believed that they could not recover, but Penfold is convalescing, and while Hainline is still suffering great pain, it is the opinion of the doctor that he will get well.

The young men have used the headache medicine before and cannot account for its poisonous effects at this using. It is known as "Wilson's Headache Tablets." Soon after taking the tablets the two men were seized with violent illness. Dr. Gillette was summoned and said all the symptoms were those of arsenical poisoning. For hours their condition was most critical.

### Cuban Reciprocity.

Washington, D. C., Jan. 23.—The Cuban reciprocity hearing before the ways and means committee today were devoted chiefly to the sugar interests of Louisiana, who oppose the proposed concession to Cuba on the ground that it would cripple the sugar production of that state.

### Dead.

New York, Jan. 23.—Chester Griswold, president of the Crown Point Iron company, and vice president of several other concerns, died today after a few hours' illness. He was born in 1844.

### Will Not Be Sent Back.

Washington, D. C., Jan. 23.—The attorney general, after a conference with the president today, made announcement that Judge Noyes, who recently was convicted at San Francisco of contempt of court, will not be sent back to Alaska.

## GOLD DISCOVERY.

### Prospectors Lunching in Baxter Gulch Near White Oaks.

### THE SOUTH HOMESTEAK MINE.

The following early history of the South Homestake is taken from a file of the White Oaks Eagle dated November 27, 1891:

"In the year 1879, one George Wilson, a 'pard' in mining parlance, of old Jack Winters, with Baxter and about a dozen other miners, were prospecting and placer mining in the deep gulches near what is now the Old Abe mill site in Baxter gulch, and near the site at the foot of what is now Baxter mountain. While the rest were eating their dinners, Wilson climbed one of the foot hills, and sat down on a large blow-out boulder. The boulder in some way attracted his close inspection, resulting in his finding fine native gold sticking in and to it."

"He reported his find to his partners, Jack Winters and the other miners, to one of whom he sold his half interest for about \$40. A six-shooter and an old pony were taken as part payment of \$40. The happy prospector then left the camp and country, since when he has never been heard from. John E. Wilson, the purchaser, then divided the claim with Winters, himself taking the south end of it, and immediately adding the ground south 75 feet, this making his claim, the present South Homestake, a full claim 600 x 1,500 feet."

Soon afterward Wilson organized a stock company and work began on the mine, which has continued intermittently up to the present year. New hoist and other machinery will have to be put in before work is resumed.

The mine was patented and worked as before stated, and the life of the camp at times, depended on its expenditures, very largely.

July 1, 1891, a fire broke out near the top of the main shaft and great damage was done to the property. The company has a fine twenty-stamp mill, Frazier & Chalmers, to work its ores. The mine has had its ups and downs, abuse, mismanagement, etc., as most mines experience, more or less, but it with many others not yet developed, will undoubtedly come forward as one of the chief elements of the growth and future of our town and community. The property has produced something over \$350,000. Rolla Wells, mayor of St. Louis, owns most of the stock.

### DEMAND JUSTICE.

### Delegate Rodey is Warm Over the Statehood Question.

A dispatch from Washington says: Delegate B. S. Rodey of New Mexico and his associates from Arizona and Oklahoma are in dead earnest about their determination to secure the passage of the long procrastinated and eminently just admission bills for the three territories. Delegate Rodey said tonight:

"Unless the house does the three territories justice, the three delegates intend to advance to the speaker's desk and resign, as a protest against the intolerable treatment of their constituents."

### Eagles, Attention!

A regular meeting of Albuquerque Aerie No. 165 will be held this evening at 8 o'clock sharp at Knights of Pythias hall. All members earnestly requested to be present. Business of importance and initiation. Visiting brethren are cordially invited. J. J. Sheridan, secretary.

G. S. McKenzie, connected with the advertising department of the Santa Fe road, after a stay of a day here, left last night for the west. He will visit several points along the line as far west as Needles.

## CONGRESS.

### Both Houses Discussing Important Bills.

### Commerce Commission to Investigate Railroad Merger.

### American Warships Watching Affairs on the Isthmus.

### DUEL IN WEST VIRGINIA.

Washington, D. C., Jan. 23.—Cummings, of New York, in the house, explained his action yesterday on the Philippine army post. He closed by saying that his party started right on the subject, but ended miserably. He said he voted as he did as a democrat—as a Tammany Hall democrat—was proud of it, and added:

"There is no politics in the question where the lives of American soldiers are at stake."

Kahn, of California, who visited the Philippines last summer, said that if the minority knew the sufferings of the soldiers in the Philippines, because of lack of quarters, there would not have been a vote against the Cannon bill yesterday.

The house committee on agriculture today, by a vote of 12 to 5, ordered a favorable report upon the McCleary oleomargarine bill, making more restrictions than is contained in the Groat bill.

The house resumed consideration of the urgent deficiency bill.

The discussion turned upon slavery in the Jolo group of the Philippines. Gaines, of Tennessee, who visited the group, said that the United States officers told him they could do nothing to stop slavery because of the treaty between the United States and the sultan.

Moody, of Massachusetts, said that the United States authorities had never given countenance to slavery in the Philippines.

Mercer, of Nebraska, who visited the islands, said that slavery was decreasing.

Cochran, of Missouri, declared that many of the slaves were Christians, owned by Mohammedans.

### SENATE.

Nelson called up the department of commerce bill. Amendments offered yesterday were considered.

Mason, of Illinois, offered a joint resolution of thanks to Admiral Schley for "brave and able conduct" at Santiago and providing that a sword be presented to him and bronze medals to the officers and men of his command.

There being no objection made, the resolution went to second reading without reference to committee.

### Will Investigate Merger.

Chicago, Jan. 23.—Members of the interstate commerce commission convened here today and began making preparations for investigating the Northwestern railway merger. Commissioner Yeomans stated that the investigation will be begun tomorrow, and that he has been assured personally of Mr. Hill's presence.

### WATCHING THE ISTHMUS.

### American Warships Guarding Things at Panama and Colon.

Washington, D. C., Jan. 23.—As the result of the renewed activity of the Liberal forces in Colombia on the Isthmus of Panama, Secretary Long has ordered the gunboat Marietta to proceed to Colon on the gulf side in order to co-operate with the cruiser Philadelphia, at Panama, on the Pacific side, in keeping close watch on any developments which may threaten the United States interests or treaty rights, and stopping them when they take that course.

### Deadly Duel.

Huntington, W. Va., Jan. 23.—Col. Gilbert Bentley, a wealthy timber man of Big Sandy valley, was shot to death during a pistol duel with Riley Ramey. The parties held an old grudge. Ramey has surrendered.

### Dance at Club.

The Commercial club entertained last night in an unusually delightful manner. This is the first dance since the new year ball, and was enjoyed immensely. The music was excellent and not until a late hour did the gathering depart for their various homes.

Those present were: Messrs. and Mesdames S. Neustadt, M. Mandell, L. Grunsfeld, W. H. Hahn, Frank McKee, C. K. Newhall, E. L. Medler, J. G. Albright, A. Borders; Mesdames A. Grunsfeld, J. E. Saint, Notcomb, Harper, Frankfurter, Grand Rapids; Misses Mamie Carter of Madrid, Hayes, Fitch, Hahn, Stevens, Baer, Saint; Messrs.

Pickard, Alger, Chamberlin, Flournoy, Frost, Hertzog, H. Weiller, Reynolds, H. Myers, Cleland, Newcomer, Newman, Wilkerson, D. Weiller, F. L. Myer.

### DEATH OF MRS. BORRAIDAILE.

It Occurred This Morning After an Illness of a Month.

After an illness of one month Mrs. Rebecca Borradaile died at 10 o'clock this morning of pneumonia at the residence of her son, Capt. John Borradaile, in Old Albuquerque.

Mrs. Borradaile was born September 18, 1830, at Hathaway's Four Corners, Yates county, New York, and was in her seventy-second year. The deceased is survived by her husband, G. C. Borradaile, and two sons, John Borradaile, of Albuquerque, and Fred H. Borradaile, of Michigan. The funeral will be held at 2 o'clock on Saturday afternoon from the residence of John Borradaile, whence the remains will be conveyed to Fairview cemetery for interment. Fred H. Borradaile cannot reach Albuquerque in time for the funeral.

### MADE THEM "DIG UP."

### Peculiar Superstition of the Sultan of Turkey.

A peculiar example of the distrust of anything new and of the introduction of the methods of modern civilization in Turkey may be seen in the recent action of the sultan. His dread of assassination keeps him a prisoner all the year round, but on the 15th day of Ramadan he must go to Stamboul to kiss the Prophet's mantle. The most elaborate precautions are taken. The route by which he goes is kept secret, but generally he travels by railway to a point just outside the terminus at Stamboul.

Beyond this the line is single, and a somewhat complicated system of signals worked by electricity was recently established in order to avoid accidents. There were more than forty wires enclosed in three subterranean cables.

This was pointed out to the sultan this year, and he immediately ordered that the cables be taken up. The possibility of serious danger was pointed out if the signal system should be disorganized and there was no time to furnish a substitute, but his only concession was that the cables might remain if they were dug up and exposed on either side. This was consequently done, and now the cables lie along the permanent way.

### Lodges.

The Ladies' Aid society of the Presbyterian church met this afternoon at the residence of Mrs. Zirhut.

The Ladies' Aid society of the Lead Avenue Methodist church held their regular monthly meeting this afternoon at the close of the services.

There will be a stated convocation of Pilgrim Commandery, No. 3, at 7:30 o'clock, at their asylum, in Masonic hall. Installation of officers. Your presence requested. L. H. Chamberlin, recorder.

The Eagles will hold a regular meeting tonight, and as several candidates are to be initiated it is hoped a full membership will be present.

Misses Adele and Barbara Hubbell returned last evening from a three weeks' visit to friends at Prescott, Arizona.

## UNDER ARREST.

### Party Apprehended at Los Angeles.

### Ex-Secretary Foster Opposed to Chinese Exclusion.

### United Mine Workers Exonerate Officers From Serious Charges.

### DANISH WEST INDIA ISLANDS.

Los Angeles, Cal., Jan. 23.—George P. Greenfield, wanted in Colorado Springs for forgery alleged to have been committed in August, 1900, is under arrest here. Greenfield is known here as Dr. H. Howard, or George Anderson, and is held on suspicion of being wanted in Colorado on the positive identification of Mrs. D. V. Gaines, who asserts that she was formerly the wife of Greenfield and that he disappeared over a year ago, after having forged her name to checks on the First National bank of Colorado Springs. After making thorough search for her lost husband, Mrs. Gaines concluded that he was dead and married again. Greenfield, or Anderson, made no effort to conceal his identity here, when met accidentally on the street by Mr. and Mrs. Gaines. The arrest followed and the Colorado authorities have been notified.

### Opposed to Chinese Exclusion.

Washington, D. C., Jan. 23.—Former secretary of state, John W. Foster, appeared before the senate committee on immigration today, and spoke in opposition to Chinese exclusion. The Mitchell, or the Pacific coast bill, he said, was a plain violation of our treaty with China.

### Whitewashed.

Indianapolis, Jan. 23.—The miners' committee exonerates President Mitchell and Secretary Wilson, and say that the statements of Miss Meredith have caused irreparable damage to the miners' organization.

The convention adopted by a rising vote the committee report which endorsed the action of its officers in the Pearce matter.

### Danish Islands Bought.

Copenhagen, Jan. 23.—Authority to sign the Danish West Indies treaty was cabled to the Danish minister at Washington this afternoon.

### RUN BY TELEPHONE.

### Illinois Central Will Do All Its Business By Phone.

The telephone has won an important victory in its battle with the telegraph for supremacy in train operation on the railway systems of the country. The Illinois Central railroad will in a short while have all the principal stations along its line completely equipped with telephone wires for the use of officials and employees in transmitting orders and messages of the company.

The innovation is regarded as radical, for after continued experiments on long eastern roads, the telephone has been declared a failure in railroad. It is expected that if the Illinois Central proves it to be the success which its officials are so sanguine of the example will be speedily followed by other large roads throughout the United States.

Those who have experimented with the system assert that the service will be practically revolutionized in quick, constant and personal communication with every point of the line. With slight improvements, which are inevitable, the telephone will furnish greater safety for train orders and that the cost of train operation will be decreased.

### SUE THE SANTA FE.

### Texas Commissioners Charge That Rebates Have Been Paid.

It was stated at Austin, Texas, that the railroad commission has received evidence of rebates having been paid by the Gulf, Colorado & Santa Fe, and that a statement of these alleged violations of the law is now being prepared for submission to the attorney general, to be used as the basis for suits to be brought against that road. H. G. Askew, expert auditor of the railroad commission, has been making an examination of the books of the railroad in question at Galveston.

## HERE FROM CHILILI.

### A Sheep Raiser Wants Snow and Rain.

### THE WEATHER CONDITIONS.

Col. William McIntosh, the big Chilili merino sheep raiser, was met by The Citizen representative this morning, and asked regarding the winter conditions of the Chilili ranges.

"While the sheep are in fair condition," said Mr. McIntosh, "they will soon be in want of grass and water. You city people are bragging on the delightful Italian climate of the Rio Grande valley, but the climate of Chilili can double discount anything dished up in the valley. The weather out with us has been the most perfect known in the past twenty years, and reminds the old-timers of the opening of spring, so balmy and invigorating is the atmosphere. Of course, on any other occasion than that of stock-raising, the weather would be all right, but what we stock raisers want, and want that little long, is a fine old-fashioned snow storm, which would cover the ground with the 'beautiful' to a depth of several inches, and which would guarantee plenty of good grass and water for stock of all kinds for several months to come."

John McMillin, who is also interested in sheep raising out in the same neighborhood, is here today purchasing supplies, and renewing old friends. Both gentlemen will remain in the city for several days.

## CITY POLITICS.

Last spring the people of this city  
agreed to drop politics in municipal af-  
fairs, and elected a mayor and city  
council on a fusion ticket. The offices  
were equally divided between the  
two political parties, and the best men  
were chosen to look after municipal  
affairs. The plan has been beneficial  
to the city in many ways, and to a  
great extent has united the people for  
the common good. The asperities of  
partisan politics has been entirely  
eliminated from city affairs, and the  
ill feelings engendered by a bitter  
local political campaign did away with.  
The Citizen is in favor of such proceed-  
ure in the future. If the committees  
of the two parties can agree upon  
such a campaign for the April election  
they will best serve the interests of  
the people.

## ST. LOUIS FAIR.

An advance copy of the classifica-  
tion book for the Louisiana Purchase  
exposition at St. Louis in 1903 has  
been received. Fifty-three pages are  
required for a mere enumeration of the  
groups and classes of exhibits. The  
exhibits of the entire exposition are  
divided into fifteen departments, as  
follows: Education, eight groups;  
art, six groups; liberal arts, thirteen  
groups; manufactures, thirty-four  
groups; transportation, six groups;  
agriculture, twenty-seven groups; hor-  
ticulture, seven groups; forestry, three  
groups; mining and metallurgy, five  
groups; fish and game, five groups;  
anthropology, four groups; social  
economy, thirteen groups; physical  
culture, three groups. The total shows  
114 groups and 807 classes, and under  
each class is a possibility for a multi-  
tude of exhibits. A place is provided  
for every conceivable product worthy  
of exhibition, and all nations of the  
world have been invited to take part.  
Acceptances have been received from  
many. The buildings will have an ag-  
gregate floor space of 200 acres and  
the grounds a total area of 1000 acres.  
The money now available aggregates  
\$15,000,000, besides \$1,000,000 appro-  
priated by the state of Missouri, and  
various liberal sums from other states.  
The classification and the rules and  
regulations of the exhibition will be  
mailed free on application to the di-  
rector of exhibits, World's fair., St.  
Louis.

## GOVERNOR OTERO.

M. A. Otero was confirmed as gov-  
ernor of New Mexico for the ensuing  
four years. This action of the senate  
is endorsed by the people of New Mex-  
ico, with the exception of a few sore-  
head allied republicans, who fought  
the governor because they could not  
control him for personal schemes.Gov. Otero was endorsed by the poli-  
ticians and business men of the terri-  
tory, and he will make a good record  
as the chief executive of New Mexico  
during the coming four years. During  
the past four years he has pulled the  
territory out of financial embarrass-  
ments and almost bankruptcy. When  
he was appointed governor four years  
ago the territorial treasury was empty,  
interest rates on the bonded debt were  
extortionate and territorial warrants  
were hawked about at a discount.  
Now the interest on the bonded debt  
has been reduced to four per cent,  
there is a surplus of cash in the terri-  
torial treasury, and law and order pre-  
vails. No scandals can be truthfully  
charged to his administration. He has  
gone along doing his duty to the  
people in a faithful and conscientious  
manner. In doing this he offended a  
few politicians at Santa Fe, who have  
devoted their whole time to efforts to  
prevent his re-appointment and con-  
firmation. When the charges against  
him were sifted by the president and  
the senate they were found to be silly  
generalities not worthy of any sort  
of attention. The city of Albuquerque  
has during the whole fight stood solidly  
for Governor Otero. The people  
of this city do not pay much atten-  
tion to politics, but in the case of Gov-  
ernor Otero they felt that a mean anduncalled-for attack was being made  
upon a deserving official, and republi-  
cans and democrats joined hands and  
did everything in their power to aid  
him in a fight that assumed national  
proportions, and from which the gov-  
ernor comes forth unscathed and with  
flying colors.

## A LESSON FROM DICKENS.

What lawsuits grow out of the  
graves of rich men every day; sowing  
perjury, hatred and lies among near  
kindred, where there should be noth-  
ing but love!And not out of the graves of rich  
men only, but out of graves of all sorts  
and conditions of men who find it nec-  
essary to make a will, even though the  
testator has but a few hundred dollars  
to dispose of, do such evils grow. It is  
not the least of the recommendations  
of life assurance that it comes within  
its power to prevent the noxious  
growths so destructive to harmony,  
"where there should be nothing but  
love."A Continuous Instalment Policy—  
with the Equitable behind it—will pro-  
vide an income over which there can  
be no bickering, no lawsuits; an in-  
come which will be paid as long as the  
beneficiary lives, even though he (or  
she) live to be a hundred. The income  
can not be lost in bad investments. It  
can not be squandered. There is prob-  
ably no other means so desirable for  
making absolute provision for the fu-  
ture of your loved ones.The Equitable

## Deserted Wife Seeks Divorce.

Ida Allen Darlington has filed a suit  
for divorce in Colfax county against  
W. B. Darlington. Plaintiff says that  
they were married on October 22, 1894,  
and that since their marriage he has  
deserted her several times, leaving her  
to support herself. The last time the  
defendant deserted the defendant was  
about fourteen months ago, November  
2, 1900, leaving her without any vis-  
ible means of support, and since that  
time she has heard nothing from him  
and does not know where he is.Plaintiff states, also, that a few  
weeks after their marriage defendant  
began to drink and finally became an  
habitual drunkard.For these reasons plaintiff prays  
that a divorce be granted her.

## Accidentally Killed Himself.

Last Sunday, Lee Hogg, a young  
man of McMullan, accidentally shot  
himself to death. It seems he was  
hunting a rabbit with a shotgun.  
Bunny ran under a porch and Mr.  
Hogg set the gun against the wall and  
stooped to look for his quarry. The  
gun fell over and was discharged, the  
entire charge entering the unfortunate  
young fellow's side, tearing the kid-  
neys to pieces. Dr. Wright was sum-  
moned to attend him, and he died Sun-  
day night, about ten hours after the  
accident. Lee was about nineteen  
years old, and was very popular with  
those who knew him. He was a  
brother of Matt Hogg, who has a large  
number of friends in Carlsbad, who  
sympathize sincerely with him.—Carls-

## ON CITY AFFAIRS.

Gov. Stover Writes About Trees and Sidewalks.

AN INTERESTING SUBJECT.

Editors Citizen:

Now that the Otero-Catron contest has been settled by the president and senate, and the governor has been triumphantly vindicated and confirmed, and all the other federal officers have been appointed for the territory, would it not be a good idea to give more attention to home affairs and particularly to the affairs of our city?

As stated by you the other day, the city election is near at hand, and it is important that we select officials to execute the will of the majority rather than their own pet ideas.

For years, the citizens manifested a deep interest in tree planting in our city, and we have the results in fairly well shaded walks, and this good work should be continued until every street and alley in the city is thoroughly shaded. February is the best time to transplant trees in this locality, so we have not much time for preparation. Certainly they will grow if planted in March, but they will do much better if transplanted earlier, as experience has proven that they make a substantial growth during the month of February, which gives them a good start before the very hot weather visits us.

Young trees should also be liberally watered during the winter months. All kinds of trees, except the old, deep rooted ones, need water in winter, particularly such dry winters as this, and the experimental stations report that orchards irrigated in winter only require about half as much water in summer. The forestry department of the United States estimates that every tree of ordinary size evaporates a pint of water daily, and to this applies to the whole country we can readily see what a great drain there is on trees in very dry atmospheres like ours.

It is a waste of time and money to plant trees unless we cultivate and protect them.

This brings us to another important question, viz: Sidewalks and street improvements. The present administration has, in my opinion, adopted a most costly and ruinous policy relative to walks in the residence portion of the city, a policy if continued will deprive us of our finer shade trees or nearly pauperize the owners of residence property, for it is practically impossible to maintain shade trees and cement pavements along the same street, except at a ruinous cost. The roots of the trees will destroy the walks in from three to five years, and if anyone doubts this statement let them examine the sidewalks on North Second street, the walk on West Railroad avenue in front of the assay office, between Fourth and Fifth streets, and almost any other walk of cement three years old and over in the city where there are trees.

The cement walks cost about twice as much as brick and four times as much as gravel, and the cement is all imported, while the brick and gravel can be procured within the city limits.

I make the broad statement that there is not another city, large or small, in the United States that has adopted such a ruinous policy as have we relative to walks. Even the seaboard cities where cement does not cost one-sixth of what it does here, are laying brick walks.

You published a letter from the city clerk of Colorado Springs a few weeks ago, in which it was stated that nearly all of the walks in the residence portion of that city (of over 30,000 inhabitants) were of gravel, and that they give entire satisfaction. If they are fine walks there, why not here? Trees will not tear up gravel walks, except the curbs, and if they are of brick they can be relaid without loss of material, while if you use cement, once broken, it is useless. Is not the great Atchison, Topeka & Santa Fe setting an example at the new depot? If cement walks were better do you not think they would not be put in there, particularly when the cement would not cost half as much as it does us? Are we so blind and stupid that we cannot learn from the experience of others? Let us take this question into the city election this spring and let the people decide it at the polls.

E. S. STOVER

Jan. 2, 1902.

PROFITABLE ENTERPRISE.

R. W. D. Bryan Interesting Himself in Beet Sugar Factory.

Attorney R. W. D. Bryan, who has been spending a few days at Santa Fe, returned last night. While in the capital, Mr. Bryan had the pleasure of a short visit with Albert L. Teels, editor of the Sugar Beet Grower, of Denver, who is representing capitalists who are prepared to establish a sugar beet factory and refinery in New Mexico, if he finds it possible to secure enough material, and the proper encouragement is offered by the community.

Mr. Teels will address a meeting at Las Vegas Friday evening, and if enough interest is manifest in Albuquerque he will come down here and speak on the subject Saturday night.

Mr. Bryan will lay the matter before the business men of the city in view of holding a meeting to discuss the facilities of the surrounding country, and make arrangements for the reception of Mr. Teels.

There is little doubt but what Mr. Teels will be well pleased with Albuquerque and the surrounding valley, as this alkali soil is especially adapted

to sugar beet culture, and the water supply is abundant.

Mr. Teels is not only a literary man but an attorney at law and is one of the best posted men in the west on the sugar beet question.

MARKET QUOTATIONS.

New York, Jan. 23.—The market opened firm with tractions still the features, Metropolitan advancing quite sharply. Southern Pacific showed better strength on support of buying from London. The market grew dull later, but about mid-day became more active. Sugar advanced on the news of advance in price of ten points in refined sugar.

Some stocks, such as New York Central and Atchison, which show signs of being oversold in the early part of the day, advanced on what appeared to be short covering. While the tone is very professional there seems to be little pressure to sell. Commission houses still report no business. The Gould stocks showed good strength and this was taken by the room as evidence that the larger interests were more bullish. Money remains steady.

Press Bulletin From Experiment Station, Mesilla Park.

### AN INTERESTING ARTICLE.

There seems to be a growing interest in the planting of apples for home use. Some inquiries are being received by the station for information on apples ripening in succession from June to October. In view of this it has been thought that a few remarks along this line may be valuable and timely.

The station has about ninety varieties of apples growing in the experimental orchard, many of which have proved to be unsatisfactory varieties while others are good. Below is given a list of the few varieties in the test, which have fruited, with enough data accompanying each to enable the planter to select from for his home orchard.

**Early Harvest**—Tree medium, productive; fruit medium, yellow with a slight red cheek on many specimens, earliest of any in the test, ripening by June 26, good table and a fair cooking variety, falls badly as it ripens.

**Red June**—Tree medium, productive; fruit small, red, good eating but does not cook well, ripens July 1.

**Red Astrachan**—Tree vigorous, shy, large and late bearer, a very undesirable quality; fruit medium, yellowish-green, overlaid with red, good table and cooking apple, ripens July 1.

**Yellow Transparent**—A Russian apple and one of the best early varieties for this section, tree medium, somewhat irregular in growth, early bearer and very productive; fruit good size, yellow, good quality and an excellent cooker, ripens by July 6.

**Sops of Wife**—Tree medium, fairly productive; fruit medium, striped, dry, fair quality, poor for cooking, ripens July 7.

**Tetofsky**—A Russian apple, tree small to medium, early bearer and very productive; fruit medium, yellow, good and cooks well, ripens by July 25.

**American Summer Pearmain**—Tree small, shy bearer; fruit small to medium, striped, falls badly, poor cooker, ripens by August 5, not desirable for planting.

**Maiden's Blush**—Tree medium to large, good bearer, fruit large, yellow with a red cheek, good table and cooking variety, ripens by August 12.

**Haas**—Tree tall, slender, shy bearer, fruit medium, red, fair quality and does not cook well, ripens by August 12, undesirable for planting.

**Wolf Rivers**—Tree medium, fairly productive; fruit large, striped and covered with a bluish bloom, good quality and cooks well, ripens August 16.

**Jonathan**—Tree large, vigorous, productive, one of the best fall apples; fruit, which tends to drop as it ripens, is good size, red, good quality and cooks well, ripens by August 30.

**R. I. Greening**—Tree large, spreading, fairly productive; fruit large, yellowish green, drops badly, fair, ripens by September 15; not desirable.

**Arkansas Beauty**—Tree medium to large, good bearer; fruit medium, dull red, a good eating but poor cooking variety, ripens about September 15.

**The Ben Davis, Gano, Mammoth Black Twig, Wine Sap, Kentucky Red Streak, Missouri Pippin, and Romanite** may be mentioned among the best winter varieties.

Probably the best eight varieties for planting in the home orchard are the Red June, Yellow Transparent, Tetofsky, Maiden's Blush, Jonathan, Ren Davis, Mammoth Black Twig and Kentucky Red Streak.

### LOCAL PARAGRAPHS.

J. A. Skinner went home sick this afternoon.

January examinations are occurring at the University today.

M. Wisbrun, the Bernalillo butcher, is here today on business. He will return to Bernalillo tomorrow morning.

Engineer Mark Bocklett and Fireman H. H. Brown went west this afternoon on the biggest engine in the world, 989.

Miss Mary L. Kraft, of Bernalillo, is in the city, and will attend the marriage of Miss Etta Grout and Frank Bowyer tonight.

Mayor Marron received a telegram from Hon. W. T. McNary this afternoon stating that he would arrive tomorrow morning on the flyer. He is in Las Vegas today.

Wilbur Lewis, of Creede, Colorado, is in the city on a visit to relatives, and will probably remain permanently. He likes the way things are done down this way.

Sol. Block, who is here on a visit to his family, expects to return to Grants, out west, tonight. Mr. Block says that Grants and vicinity were visited by a heavy snow the other day.

One of the Albuquerque visitors at the El Paso Midwinter carnival won \$3,800 and helped break one of the fair dealers at Juarez, and came home well pleased with his visit to the border town.

Col. A. W. Harris, who was here the past two days, left for his home and mining headquarters at Kingston, Sierra county, where he will go to work in lead earnest, and help bring prominently to the front the great mineral resources of that county.

J. H. Johnson and wife were through passengers on No. 2 this morning on their way to visit Mr. Johnson's parents at Kenton, Oklahoma. Mr. John-

son was formerly one of the proprietors of the Palace Club saloon, but is now located at Clifton, Arizona.

Byron Harvey, of the Fred Harvey eating house system, was on the No. 2 passenger train this morning, but he did not leave the stateroom of the Pullman coach which he occupied. His face was in a horrible condition, the result of Ivy poison. Dr. Hope was at the depot to administer medical wants to the patient, after which Mr. Harvey continued on to his home in Kansas City, Mo.

A. J. Maloy has moved into his new house at corner of Third street and Lead avenue. All the apartments are ready for occupancy, two having been let to James Grunsfeld and Dr. Elder, who are also busy in furnishing, and will probably take possession about next Monday. In addition to being fitted with electric lights and other modern conveniences, the edifice is piped for gas, to supply which the gas company are busy laying a main from Second to Fourth street on Lead avenue. The "Oro y Plata" is a very handsome structure and a credit to the city.

### DEMING.

From the Herald.

Mrs. Gilbert Ray Brown has commenced proceedings for divorce from her brutal husband, who, it will be remembered, attempted to stab her to death with a knife about a year ago, but only succeeded in marking her for life. Brown is still hiding in Old Mexico. A. W. Pollard, Esq., of Deming, is Mrs. Brown's attorney.

Among the business men mentioned for village trustees are A. J. Clark, W. R. Merrill, Judge Field, John Corbett, V. P. Tossell, John Stenson, W. C. Wallis, Otto Smith, Lou H. Brown, Thomas A. Carr, Henry Meyer, J. A. Pickarts, H. F. LaMaster, W. J. Wamell, James A. Tracy, S. Lindauer, J. A. Kinneer, H. Nordhouse, Nate Beals, James Hannigan and others.

Mrs. A. J. Clark and Mrs. Purcell went to the end of the Bixbee railroad canvassing for funds for the construction of the new Catholic church of Deming. The ladies were very successful during their trip. Mrs. Clark informs the Herald that \$2,400 has now been subscribed for the church and that every dollar of it is ready when wanted. The church will be a brick edifice and cost about \$3,500. Next year it is hoped to erect a Sisters' school.

Dr. J. O. Michael was called forty miles out in the country, on the Bixbee & El Paso railroad grade, to attend Mrs. W. G. Love, wife of the foreman, who was suffering from typhoid pneumonia. The doctor made the lady as comfortable as possible, and, in company with her husband and two children, brought her into town, where the family secured comfortable quarters at Grandma Milligan's, and where Mrs. Love can receive the necessary medical attention and good nursing.

### Children Especially Liable

Burns, bruises and cuts are extremely painful and if neglected often result in blood poisoning. Children are especially liable to such mishaps because not so careful. As a remedy DeWitt's Witch Hazel Salve is unequalled. Draws out the fire, stops the pain, soon heals the wound. Beware of counterfeits. Sure cure for piles. "DeWitt's Witch Hazel Salve cured my baby of eczema after two physicians gave her up," writes James Mock, N. Webster, Ind. "Those sores were so bad she could not go to five dresses a day." J. H. O'Reilly & Co., and B. H. Briggs & Co.

### A Good Recommendation.

"I have noticed that the sale on Chamberlain's Stomach and Liver Tablets is almost invariably to those who have once used them," says Mr. J. H. Weber, a prominent druggist of Cascade, Iowa. "What better recommendation could any medicine have than for people to call for it when again in need of such a remedy? Try them when you feel dull after eating, when you have a bad taste in your mouth, feel bilious, have no appetite or when troubled with constipation, and you are certain to be delighted with the prompt relief which they afford. For sale by all druggists."

### ROSWELL.

From the Record.

J. W. Robinson, who came here a few months ago in search of health, died on Saturday last. The body was shipped on Sunday to his former home at Richmond, Va.

The annual meeting of the stockholders of the Citizens' bank resulted in the following list of directors: J. W. Poe, Nathan Jaffa, J. O. Cameron, W. G. Urton, John Shaw, Frank Calfee, J. J. Jaffa. This is the same as the old board, with the exception of J. J. Jaffa, who succeeds E. W. Houx.

A good audience was present at the Presbyterian church to hear Dr. C. E. Luken deliver the last of his series of lectures on the pre-historic and present races of New Mexico and Arizona. The speaker was at his best and the views were remarkably fine. Altogether, the lectures have been of a very high character.

Mrs. Oliver, of Nickerson, Kan., is visiting with Mrs. W. G. Urton. Mrs. Oliver was formerly Mrs. Cox and owner of the "V" brand of cattle now owned by Mr. Urton's company. The ladies first met sixteen years ago and introduced themselves across the roaring, muddy Pecos, visiting by long distance this way for several days before the river subsided sufficiently for either to cross.

### SANTA FE.

From the New Mexican.

Jesus Romero, a storekeeper at Cerillos, is on a visit to the Capital City. Mrs. Z. Cowes, of Asbury Park, N. J., interested in New Mexico mining projects, is a guest at the Palace hotel.

George W. Bond, of Wagon Mound, of Bond Brothers, the Wagon Mound and Espanola merchants, arrived in Santa Fe last evening on his return from Espanola.

Mrs. Henry Connelly, of Albuquerque, niece of Mrs. Bergere, is a guest at the Bergere home on Grant avenue.

Mrs. C. W. Dudson received word yesterday that her mother, Mrs. R. H. Taylor, is very ill at Los Angeles.

Rev. W. H. Moore and family, who were to have arrived from Denver this evening, are detained in that city by the serious illness of their youngest daughter.

Dr. J. L. Norris, of Washington, D. C., has arrived in this city with a view to making New Mexico his permanent home. Although a young man, Dr.

Norris has had considerable experience in his profession and comes highly recommended.

Hon. Benjamin M. Road, ex-speaker of the house of the New Mexico assembly, has received a request from the University of Vienna, Austria, for a set of rules and procedure which governed the thirty-fourth legislative assembly. The university, in its political science department, is making a collection of rules of all parliamentary political bodies in the world.

### The Secret of Long Life.

Consists of keeping all the main organs of the body in healthy, regular action, and in quickly destroying deadly disease germs. Electric Bitters regulate Stomach, Liver and Kidneys, purify the blood, and give a splendid appetite. They work wonders in curing kindneys troubles, female complaints, nervous diseases, constipation, dyspepsia and malaria. Vigorous health and strength always follow their use. Only 50c, guaranteed by all druggists.

### An Attack of Pneumonia Warded Off.

"Some time ago my daughter caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions and in two days she was well and able to go to school. I have used this remedy in my family for the past seven years and have never known it to fail," says James Prendergast, merchant, Annato Bay, Jamaica, West India Islands. The pains in the chest indicated an approaching attack of pneumonia, which in this instance was undoubtedly warded off by Chamberlain's Cough Remedy. It counteracts any tendency of a cold toward pneumonia. For sale by all druggists.

### LAS VEGAS.

From the Optic.

A skating party has been organized for Friday night.

Five Baptist missionaries, under appointment of the national societies, are now working out of Las Vegas.

John Pfeuger has come up from Lamy to consult Dr. J. E. Mohr about those rheumatic pains that are shooting and darting through his anatomy. Bacharach Bros. have purchased the entire stock of millinery carried by Mrs. Kenestruck, also her fixtures. It is understood she will continue in the dressmaking business.

The wife of a local barber wielded a razor gracefully and deftly in the absence of her liege lord from the shop, on account of sickness, Saturday night, the busiest of all the week.

Judge Baca, of precinct No. 5, wanted some gentlemen to serve on a jury in his court. They insisted that they were not real estate holders, but the judge waived the objection, exclaiming, "what's the difference, you are all married."

James Clay went to Tecolote today. His little daughter recently had the diphtheria and he was in quarantine. She got well of diphtheria and caught the chickenpox. Mr. Clay was in quarantine some more. His little daughter is better again and the man of clay left town while he had an opportunity.

Nicholas Chaffin employed a saddle-colored coon tramp to work for him Sunday. The negro got dissatisfied with his position about 4 o'clock yesterday morning and cleared out, taking as souvenirs three Navajo blankets and one pair rubber boots. He is 23 years of age, five feet and ten inches in height, of a bright copper color and wore a corduroy suit and a white hat.

From the Record.

The baby boy of Mr. and Mrs. Cleofes Romero, after a brief illness, has about recovered.

Howell Givens, the genial solicitor for Gross, Kelly & Co., after a few weeks' lay off, is again at his former duties.

T. J. Bigford writes from Buffalo that he had a narrow escape from death, owing to heart trouble, but states he is some better now.

Rev. George H. Brewer, of Albuquerque, will give an address at the Baptist church on "The New Cities of New Mexico."

The uniforms for the troop of cavalry have arrived, and the horse equipments are expected in a few days. Non-commissioned officers will be appointed at next meeting of the troops.

Two tramps got into a fight on the Hot Springs branch last night and one of them was badly beaten. The latter returned to the city and told a fairy tale about being held up and beaten by a footpad, on the strength of which he had his wounds carefully dressed.

The remains of Mrs. H. M. Stecker, accompanied by the bereaved husband and C. F. Jones, arrived in the city from Asheville, N. C. The funeral will take place from the residence of her sister, Mrs. C. F. Jones. Rev. Norman Skinner will conduct the services.

### WITHOUT MEDICINE.

Good Food Will Cure Disease. A good natural food that will correct constipation is a valuable thing. Grape-Nuts has the reputation among those that know.

A lady writes from San Pedro, Col., that after suffering a long time from indigestion and irregular bowels she changed her food and used Grape-Nuts regularly. She says she immediately began to improve and in a short while was entirely well. Commenting further, she says, "The only fault I find with it is that it is so good I want to be eating it all the while."

Please omit my name, but I will answer any letters if stamped envelope is enclosed. Name given by Postum Co., Battle Creek, Mich.

### CARLSBAD.

From the Argus.

Eddy Grove, No. 5, Woodmen of the World, installed the following officers Tuesday night: C. O. Merrifield, C. C.; J. K. Gibson, A. L.; J. B. Leck, banker; D. B. Sutherland, clerk. The lodge has decided to give a grand ball and supper at the opera house on the evening of February 25th. Details will be given later.

Justice Emerson has heard a number of minor cases since assuming office. Last Saturday George Cason and Bud Colbaugh pleaded guilty to carrying six-shooters and were fined \$5 and costs. On the same day Thomas Maidens pleaded guilty to petty larceny and was fined \$10 and costs. On Wednesday W. L. Bobo sued John Nymeyer on a note for \$17.65, which was settled by agreement.

Deputy United States Marshal F. W. Hall arrested and brought into Carlsbad, this week, Mont. Beckham and Adam Hocker, and lodged complaint before Commissioner Emerson, accusing the two men of driving off the public domain, at the point of a Winchester, a well drilled by the name of Albert Williams. It seems the latter started to drill a well on the public land near the J. A. L. range, east of here, and the defendants objected as prior occupants of the range, and sustained their objection with rifles. Beckham and Hocker were also charged by Deputy Sheriff Hugh Wells with carrying deadly weapons. Justice Emerson hearing both cases. The accused waived examination and were bound over in \$250 for the last offense and \$500 for the first. They gave the bonds.

### Child Worth Millions.

"My child is worth millions to me," says Mrs. Mary Bird, of Harrisburg, Pa. "yet I would have lost her by cough had I not purchased a bottle of One Minute Cough Cure. One Minute Cough Cure is sure cure for coughs, croup and throat and lung troubles. An absolutely safe cough cure which acts immediately. The youngest child can take it with entire safety. The little ones like the taste and remember how often it helped them. Every family should have a bottle of One Minute Cough Cure handy. At this season especially it may be needed suddenly. For sale by J. H. O'Reilly and B. H. Briggs & Co."

Chapped hands, cracked lips and a roughness of the skin cured quickly by Banner Salve, the most healing ointment in the world. Alvarado Pharmacy.

### FARMINGTON.

From the Hustler.

F. E. Johnson has accepted a position as manager for the Hyde Exploring Expedition's branch store at Kimmeto, about twenty-five miles east of Pueblo Bonito.

The Indian department of the government has begun work on the construction of a thirty-five-foot canal to cross what is known as the five-mile mesa, fifteen miles this side of Durango, which will make that heretofore arid district blossom like the rose.

The poles for the City Electric Light system were placed in position this week and linemen are now engaged in stringing the wires. The power house is also well under construction, and unless something unforeseen happens Farmington will be supplied with modern light within a fortnight.

M. C. Picken and C. C. Pinkney are both home on a short stay. These gentlemen are winter ranging their sheep in the Seven lakes country, southeast of Pueblo Bonito. They report grass exceptionally good, but water scarce. Over 200,000 sheep are ranging in that district, while the Indians wisely banded up the water holes and are now reaping a harvest selling it to the stockmen.

The Hyde Exploring Expedition are getting the material on the ground for the erection of an immense implement warehouse adjoining the new store. It will be built of corrugated iron, covering a space 100x125 feet. A large warehouse will also be built back of the present grocery quarters, for the storing of iron and hardware supplies.

L. N. Pepper, the Kansas City gentleman who was here several weeks ago, considering the advisability of extending and enlarging the Grand canal from Aztec to the La Plata river, has finally concluded to abandon that project and instead construct a canal along the San Juan river, heading three miles above Blasco, running in a westerly direction some twenty miles, supplying water for over 10,000 acres of arid lands.

### TULAROSA.

From the Democrat.

Mrs. James Knight, who has been very ill, is recovering slowly from the attack.

J. J. Sanders butchered nine hogs last Tuesday, eight of them averaging 250 pounds, and the ninth one weighed nearly 400.

Judge Roberts has reconsidered his resignation as justice of the peace of precinct No. 4—by request of county commissioners. He is still on deck and holds the fort.

Professor Salcido, an excellent teacher, who has been teaching in Gonzales' building for several months, has opened a school in Miss Le Min's building, in the room formerly occupied by our primary school the past term. He will teach both English and Spanish.

### RATON.

From the Range.

Miss Olive Hensley, of Denver, is visiting Miss Elizabeth Blackwell of this city.

A. P. Gomer has been appointed general superintendent of the coal mines at Blossburg and Gardiner.

Eugene Twitty has recovered from

In marriage only when there is equality of health as well as affection. Affection may be the basis of unity in marriage, but the superstructure depends largely on the woman's health. When the wife is tormented with headache, distressed by headache, and racked by nervousness, she has no ambition for exercise or pleasure.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It cures headache, backache, and other womanly ills by curing the diseases of the womanly organism which cause them. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

Weak and sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

The dealer who offers a substitute for "Favorite Prescription" does so to gain the little more profit paid on the sale of less meritorious medicines. His profit is your loss, therefore accept no substitute.

"My wife commenced to complain twenty years ago," writes Lewis A. Miller, ex-Chief of Police, 13 Prospect Street, Westport, Pa. "We have tried the skill of twelve different doctors. She took gallons of medicine during the time she was ill, until I wrote to you and you told us what to do. She has taken eight bottles of Dr. Pierce's Favorite Prescription and six of the Golden Medical Discovery. She can do her own work now and can walk around again and is quite smart."

"You can publish this letter if you wish. We have received such benefit that we wish every sufferer could derive the same amount of good. My wife's complaint seemed to be a complication of diseases—so the doctors said. We will ever remain your friends. May God bless you and your Institute."

Dr. Pierce's Pellets are the most desirable laxative for delicate women.

The surgical operation he underwent last week, sufficiently to be up and out occasionally.

A barkeeper and a miss of about 15 years, of Raton, suddenly took their departure together last Sunday night for parts unknown.

Miss Louise Jacobs, who has been visiting at Mr. Burnam's, was called to Pueblo Tuesday by a telegram announcing the serious illness of her mother.

J. W. Crouse has purchased the interest of T. E. Morrow in the furniture business heretofore conducted under the firm name of Crouse & Morrow, and will hereafter conduct the business individually.

Edward F. Bailey and wife, who made the trip by wheel from San Francisco to Raton, and who rested up in this city some weeks, left Tuesday on their bicycles for New York City. They had no money and were burdened with but few clothes and some tools for barbering, which latter Bailey will use along the route to earn money to pay expenses.

### New Century Comfort.

Millions are daily finding a world of comfort in Bucklen's Arnica Salve. It kills pain from burns, scalds, cuts, bruises; conquers ulcers and fever sores; cures eruptions, salt rheum, boils and fevers; removes corns and warts. Best pile cure on earth. Only 25c at all drug stores.

Keep your eye on Deming.

N. Jackson, Danville, Ill., writes: "My daughter had a severe attack of la grippe and a terrible cough settled in her lungs. We tried a great many remedies without giving relief. She tried Foley's Honey and Tar which cured her. She has never been troubled with a cough since." Alvarado Pharmacy.

### CLAYTON.

From the Enterprise.

Miss Millie Reinholdt, who has been visiting Mrs. Carl Eklund for the past two months, has returned to her home in Denver.

Harry Powell, who was so badly hurt in the Barlow wreck, came in from Trinidad the first of the week, where he had been in the hospital for some time.

Cattle Inspector T. A. Gray had the misfortune to freeze both his hands recently quite severely, so that he is just a particular how and with whom he shakes hands now.

While John C. Hill's four-horse wagon was being driven into town last Wednesday evening, the horses became frightened and ran away, resulting in the breaking of the leg of one of Mr. Hill's horses so badly that the animal had to be killed.

Heads Should Never Ache. Never endure this trouble. Use at once the remedy that stopped it for Mrs. N. A. Webster, of Winnie, Va. She writes, "Dr. King's New Life Pills wholly cured me of sick headaches I had suffered from for two years." Cure headache, constipation, biliousness. 25 cents at all druggists.

Deming has an abundance of water for irrigating vineyards, orchards, or gardens.

### Lazy Liver

When the liver goes wrong, everything is wrong. You have dyspepsia, coated tongue, constipation, biliousness, sick headache, nausea, general debility. One of Ayer's Pills each night, just one, gently starts the liver and removes all trouble.

"I have used Ayer's Pills for liver complaint, and have found them to be the best thing I have ever tried."

## Railroad Topics

Half a dozen new men went to work at the local shops yesterday.

The Santa Fe Central railway received several car loads of supplies yesterday for its Arroyo Hondo store.

Chief Engineer A. G. Kennedy, of the Santa Fe Central railway, although ill, made a trip from Santa Fe to Lamy yesterday.

An increase of 8 per cent. in the wages of trainmen and switchmen on the Baltimore & Ohio has been made voluntarily by the company.

Chicago is selected as headquarters and place of meeting of the United Brotherhood of Railway Employees at convention in San Francisco.

Engineer A. Lane returned from Las Vegas to Lamy, where he will resume his duties on the Santa Fe branch, after a few days' lay-off.

The General Electric company has secured a contract amounting to \$750,000 for equipment for the new street railway to be built in Tokio, Japan.

Harry Snider, a machinist apprentice who left Topeka last August for Albuquerque, N. M., has returned to Topeka for two weeks' recuperation.

John Brooks and wife, in charge of the culinary department of General Superintendent Wells' private car, were here yesterday, going west last night.

Work is being pushed as rapidly as possible on the new hotel and depot, and the local officials hope that everything will be ready for occupancy by the 1st of April.

Engine No. 068 was sent down from the north to Lamy to relieve engine No. 0141 on the Santa Fe branch, which slipped its tires while on duty Monday afternoon.

Mrs. T. W. Belkama, wife of the freight inspector of the Southern Pacific railroad at Deming, died of paralysis. The remains were taken to Los Angeles, Cal., for interment.

Ed. O. Allen and Guy Ellis, two well-known ex-Albuquerque railroaders, are two engineers now at the East-yard, Cal. Guy Ellis and wife were visitors to Albuquerque a short time ago.

It is learned today from Jimmy Vorhes that his brother, Charles Vorhes, is now an operator for the Southern Pacific at Los Angeles. Charles has quit base ball playing altogether.

J. W. Fimbrook, dispatcher on the A. T. & S. F. railroad at Newton, Kan., stopped off this morning on his return from an extended trip in Old Mexico to visit with J. W. Edwards, who is an old friend.

A. G. Wells, general superintendent of the Santa Fe Pacific, who was at Chicago on business connected with his duties, was here yesterday and visited the various departments of the big local shops.

The Topeka State Journal says: It was planned that special car No. 219, that which belongs to President Ripley, should be sent out today. It has been in for several months to receive a general overhauling.

The first span of the railroad bridge now building over the Pecos river is finished, and the bridge will be ready for traffic by the first of February, by which time the road from El Paso will be completed to Santa Rosa.

Trackmen in Kansas have been busy lately distributing salt along the switches in order that the snow may be melted, thus preventing any impediment to the manipulation. This is always done during rigorous weather.

New issues of loans and securities in London during 1901 have reached \$159,600,000, comparing with \$165,499,224 in 1900, \$133,169,724 in 1899, \$150,173,365 in 1898, \$157,299,000 in 1897, and \$152,806,791 in 1896. Of this year's issue \$60,000,000 was in consols.

Yesterday morning, engine No. 929, another of those giant locomotives, arrived at the local shops, and was given some needed attention at the round house. These engines are called "battleships" by the engineers and firemen. No. 929 went west pulling a long train of cars today.

The Optic says: And still cheering news comes from the new electric line. Santa Fe engineers have established the grade for the spur to the power house on the flats above town; a car of wire is in transit to this city, the engines, boilers and dynamos will be shipped this week.

The "dump" track at the local shops is pretty crowded these days with engines brought in from recent wrecks out west. Some of the engines will go into the repair shops, but others—well they are so badly damaged the company would save money by dismantling them altogether.

Shoe shipments from Brockton, Mass., for 1901, were the largest in the history of the city, 629,413 cases, as compared with 526,633 cases in 1900 and 529,277 cases in 1899. Usually there are twenty-two pairs of shoes in a case, so that 13,947,056 pairs were sent out in the 629,413 cases.

The Southern Pacific reports the addition of 2,005 box cars and 2,079 other freight cars to its rolling stock in the fiscal year 1901. The freight cars average 41.95 tons' weight per car. The ton capacity per freight car at the close of the year was 26.85 tons, or 2.18 tons more than a year earlier.

The government of New Zealand has decided in the future to order all steel bridges from the United States. This decision comes as a result of the recent experience of the Manawatu Railway company, when the American bid on a big steel viaduct amounted to one-

quarter of the price bid by English firms.

Foundations for a handsome passenger and freight depot at Santa Rosa are being laid by the Rock Island railroad. The stone used is a fine white building stone found three miles from the town on the railroad. A ten-stall round house is also being constructed of stone. A telephone line to Las Vegas is being projected.

A through train service to St. Louis from Chicago over the Chicago, Peoria and St. Louis railway is being arranged by the Santa Fe system. The Santa Fe has a line to Pekin, Ill., and there connection is to be made with the Chicago, Peoria and St. Louis railway. Four passenger trains are now being fitted up for this service, which is to go into effect March 1.

The Topeka State Journal says: Engine 830, one of the large new Schenectady, which are being built for the Santa Fe by the American Locomotive works, was sent over the cut-off Monday on its way to the Santa Fe Pacific. The original order was twenty-five, and this is the fifteenth that has been delivered. They are to do regular service, according to present plans, on that portion of the system.

The Kansas City, Mexico & Orient Railway company has been granted an extension of six months' time by the state government of Chihuahua in which to comply with the terms of the contract as to the number of kilometers of road that shall be completed and in operation in that state. It is stated that the first shipment of rails for this road will soon reach Chihuahua from Europe and that the work of construction will then be pushed forward rapidly.

Engine 730 is in the shops to have valves set; 764 for cylinder packing; 797 for steam pipe repairs. Engine 989 went south this morning with 1,050 tons. A load for a double-header. Engineer John Cook and Fireman Montgomery were the crew. John A. Ross accompanied her south. She will go to the Santa Pacific to act as pusher on the mountain. When that class of engines are put on the division, the turn table and round house will have to be enlarged.—Las Vegas Optic.

The stockholders of the San Pedro, Los Angeles & Salt Lake railroad, Senator Clark's new Salt Lake-Los Angeles railroad, met at Salt Lake City and elected directors for the coming year. The directors will meet at Los Angeles February 10, and elect officers. Only two changes were made, the names of F. K. Rule and Ross W. Smith, of Los Angeles, being substituted for those of George B. Leighton, of St. Louis, and C. W. Clark. Vice President Ross Clark, of the company, stated that several thousand tons of steel rails would be received here within a few weeks. As soon as the route out of Salt Lake is decided upon, construction work of this end will be begun, probably early in the summer.

W. L. Yancy, Paducah, Ky., writes: "I had a severe case of kidney disease and three of the best physicians in southern Kentucky treated me without success. I was induced to try Foley's Kidney Cure. The first bottle gave immediate relief and three bottles cured me entirely. I gladly recommend this wonderful remedy." Take no substitute. Alvarado Pharmacy.

**A Reliable Remedy for Bowel Troubles**  
Rev. J. M. Yingling, pastor of the Bedford St. M. E. church, Cumberland, Md., says: "It affords me great pleasure to recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used it and know others who have never known it to fail." For sale by all druggists.

**The Durango Short Line.**  
The survey of the proposed Farmington-La Plata road was made and staked according to promise, this week, by D. B. Ross and A. E. Dustin. It was found that by a grade of 1,300 feet long on the south side and 2,100 feet long on the north side of the mesa the grade can be reduced to less than 8 per cent., and by a general co-operation of the users of the road, could be completed within two weeks. The es-

timated cost will be about \$300, mostly in labor, at the scheduled rate.

Mr. Ross agrees to take charge of the work and remain with it until completed, without compensation.

Now is the proper time to act, while the weather is good and freighting scarce. In order to go about it systematically, we suggest a general meeting be held at the Hustler office, Saturday afternoon, and all those directly interested meet here and determine upon a day to begin the work.

This road will shorten the distance to Durango about nine miles compared with the Animas valley road.—Farmington Hustler.

### CHANGES ON THE RIO GRANDE.

Those Made Forecast a General Reorganization.

Recent changes in the management of the different departments of the Rio Grande system, it is said, are shadows cast before a general reorganization of the working force. This reorganization, it is said, will be begun upon the return of President E. T. Jeffery, who is expected home about February 1. Traffic Manager A. S. Hughes and his assistant, S. H. Babcock, are expected to return from their eastern trip by that time. The report of the removal of A. S. Welby, general superintendent of the Rio Grande Western, is now generally believed, although it has been denied officially. In the event of Welby's removal the jurisdiction of W. S. Martin, general superintendent of the Denver & Rio Grande, will be extended over the whole system. February 1 the offices of the engineer of the Rio Grande Western will be removed from Salt Lake City to Denver and the jurisdiction of Chief Engineer will be extended over the whole system. E. J. Yard, formerly of the Rio Grande Western, will be under Mr. Rogers.

Changes which have been made are: John Irwin, formerly of the Union Pacific, appointed assistant superintendent of the second and third division. Superintendent R. M. Ridgeway, supplanting W. D. Lee, who is assigned to other service. G. H. Barnes and M. J. Guerin, trainmasters of the second and third divisions removed. T. J. Guinn, chief dispatcher of the third division, removed. Jurisdiction of William Rech, chief dispatcher of the first district of the second division, extended over the third division, with headquarters at Salida. Jurisdiction of M. J. Griffin, trainmaster of the first district of the first division, extended over the third division. Trainmaster Owens of the third district will go back into the train service. Other positions will be found for those removed.—Denver Republican.

**A Profitable Investment.**  
"I was troubled for about seven years with my stomach and in bed half my time," says E. Demick, Somerville, Ind. "I spent about \$1,000 and never could get anything to help me until I tried Kodol Dyspepsia Cure. I have taken a few bottles and am entirely well." You don't live by what you eat, but by what you digest and assimilate. If your stomach doesn't digest your food you are really starving. Kodol Dyspepsia Cure does the stomach's work by digesting the food. You don't have to diet. Eat all you want. Kodol Dyspepsia Cure cures all stomach troubles. J. H. O'Reilly & Co., and B. H. Briggs & Co.

Frank Treadwell, Bennett, Ia., was troubled with kidney disease for two years. He writes: "I had taken several kinds of kidney remedies, but with little benefit. Finally I tried Foley's Kidney Cure and a one dollar bottle cured me." Alvarado Pharmacy.

### LAS VEGAS BLAZE.

Other Property Endangered—Work of E. Romero Company.

At 10:15 last night the barn of E. Marcott across the river from the Las Vegas roller mill burned, entailing a loss of \$250. The alarm was turned in at the west side house first and the boys on arriving at the fire laid all of their hose, consisting of one thousand feet. After waiting for the east side company for awhile they went after them and found that they had run a short distance and returned to the city hall. The E. Romero boys hooked onto their cart and took it to the scene of trouble. After laying the additional 600 feet of the east side they could just reach the remains of the fire. If the wind had been as bad

## Healthy Mind in a Healthy Body

Stomach and brain affect each other. A sick stomach sours the disposition and prevents sleep and brain rest, and a sick brain sours the stomach and clogs the bowels. Men of sedentary habits, brain workers who don't get much exercise, have sick stomachs and bowels, and wear out their brains and nerves.

"I work in the office and don't get as much exercise as I should, and when I feel bad I just take a Cascarets which always makes me feel alright."  
—E. E. Rohan, Q. & C. Route, Crescent, Ky.  
"I had a torpid liver for months. I bought a box of Cascarets in Washington and have not only been put to perfect health, but have gained considerable weight."  
—Harry Hodgson, Rockville, Md.  
"Cascarets were the only medicine I had with me when I beat the world's record as 'Champion Corn Rucker of America,' hustling 270 bushels in 18 hours."  
—E. L. Kimberlin, La Harpe, Ill.

A man who keeps his bowels regular with Cascarets Candy Cathartic, that is without strain or violence, can keep strong and healthy without much exercise. A famous professor in Jefferson Medical College used to advise his students: "Trust in God and keep your bowels open!" That's God's own wisdom, for when the bowels are regular and the digestion strong and healthy, then the system is safe and the brain and nerves will have inexhaustible elasticity and life.

**Cascarets**

Best for the Bowels. All druggists, 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C. C. Cascarets. Sent to cure or your money back. Sample and booklet free. Address Sterling Remedy Co., Chicago or N. Y. 307

as the night before the home of the Marcotts, now occupied by A. Myers, and the two barns of Dairyman Nolan would have undoubtedly been consumed. About a year ago a barn in the same place was burned and no effort whatever was made to check its progress. Only through the hard work and persistence of the west side boys last night were sufficient precautions taken to protect the surrounding property. The E. Romero Hose and Fire company receive no pay whatever for their services and should receive much praise from the public in general for their unselfish devotion to their duty.—Optic.

### Remarkable Cure of Croup—A Little Boy's Life Saved.

I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I feel that I cannot praise it enough. I bought a bottle of it from A. E. Steere of Goodwin, S. D., and when I got home with it the poor baby could hardly breathe. I gave the medicine as directed every ten minutes until he "threw up" and then I thought sure he was going to choke to death. We had to pull the phlegm out of his mouth in great long strings. I am positive that if I had not got that bottle of cough medicine, my boy would not be on earth today. Joel Demont, Iowa. For sale by all druggists.

**For Pneumonia.**  
Dr. C. J. Bishop, Agnew, Mich., says: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." Beware of substitutes. Alvarado Pharmacy.

### NEW OPERA HOUSE.

Roswell to Have a \$15,000 Building of Modern Design.

At last it looks like Roswell is to have the much talked of opera house. The deed for the ground was made to the contractor, S. E. Patton, last week, and it is understood that all contracts are signed, and the work of preparing the ground has begun. The site of the building is lot 4, block 5, the center lot of the Slaughter block, facing east on Main street.

The building will be 50x142 feet, three stories high. The front part of the first floor will contain two store rooms, and the front of the second floor will be divided into rooms for the manager's use, and the third floor will contain a lodge room 33x45 feet with three large ante-rooms. The main auditorium will be 45x75 feet and the balcony 30x45 feet. The entire seating capacity is 1,000. The stage floor to gridiron. Drop curtains 26 feet high and 40 feet long can be used. By three stairways, ten, six and five feet wide, respectively, the building can be emptied in from three to five minutes.

The building will cost \$15,000 and will be completed in about six weeks.—Roswell Record.

### Rules of Success.

A merchant once gave these rules as helpful to success:  
"Making the most of one's opportunities; living up to the full measure of one's abilities; doing your work earnestly and honestly; ever striving through life to contribute to the happiness of others."  
Don't drink.  
Don't stop work when the employer is away.  
Don't criticize the management.  
Don't "blab" the business.  
Don't conclude you know more about the business than your employer.  
Don't worry about not being appreciated.  
Don't be too fast in asking a raise in salary.  
Don't be afraid of working overtime.  
Few great successes are made in working eight hours a day.  
Don't watch the clock too much.  
Don't change places too often.  
Don't guess or suppose, but know.

Deming offers the same opportunities now that the most prosperous cities in the west offered several years ago.

### Deming.

Deming is being talked of everywhere, and is attracting the attention she deserves from all quarters. In consequence of this great interest and to give those interested in this town there will be an excursion run from El Paso on the 17th inst., so that all those in attendance at the carnival may have an opportunity to see for themselves this very much talked of town. An opportunity will be given those who take this trip to acquire property here at an exceedingly low figure. This opportunity is not limited to the excursionists, but will be extended to any who may wish to be present at the sale, from other towns. It will pay you to be present.

### Pounding Them Down.

Our little pile driver is at work pounding down prices and can be plainly seen in our big window. Our green tag sale is a big success as a value giver. Simon Stern, the Railroad avenue clothier.
