ALBUQUERQUE MORNING JOURNAL

THIRTY-SIXTH YEAR
Vol. CXXXIV, No. 55.

ALBUQUERQUE, NEW MEXICO, TUESDAY, NOVEMBER 24, 1914.

Daily by Carrier or Mail 60c
A Month, Single Copies, 5c.

VAUGHN CHOSEN PRESIDENT OF N. M. E. A. WITH NO OPPOSITION

State College Man Elected by
Acclamation When An-
nouncement Is Made of Dr.
Roberts' Withdrawal.

WAGNER AND BURT TO SUCCEED THEMSELVES

Only Contests on Meeting
Place, With Santa Fe and
Albuquerque Named, and
Executive Committeeman.

Association Officers.
President—John H. Vaughn, of
State College.
Vice President—W. H. Lowry,
of Fort Sumner.
Secretary—John H. Wagner,
of Santa Fe.
Treasurer—C. L. Burt, of
Mountainair.
Railroad Secretary—R. H. Lar-
kin, of Las Vegas.
Executive Committee—Dr. Da-
vid R. Boyd, of Albuquerque, and
Dr. Frank H. H. Roberts, of East
Las Vegas. (One to be voted
for).
Convention City—Albuquerque
or Santa Fe.

The business session of the New
Mexico Educational association lasted
only thirty minutes yesterday after-
noon and in that time elected all but
one officer and heard the nominating
speeches for convention cities. In
place of expected controversy there
was harmony and enthusiasm.

President C. C. Hill named the fol-
lowing committees after the speak-
ers had completed their addresses:

On gavel, to present a gavel to the
new president and also the in-
coming president, R. H. Larkin and
T. W. Conway.

On elections, George Lougee, H. H.
Errett, J. V. Gallegos, Margaret Go-
bel and Charlotte Whelton. This com-
mittee will prepare the ballots and
open a polling place in the high
school building.

Doorkeeper, J. S. Hofer, who is to
appoint his assistants.

Officers Chosen.

Nominating speeches were limited
to two minutes. Secretary J. H. Wag-
ner placed in nomination John H.
Vaughn of State College, for the pres-
idency. He referred to Vaughn as a
member who has attended every con-
vention the past nine years, who nine
years ago was the only delegate who
attended from the Pecos valley. The
nomination was seconded by Atanasio
Montoya, W. E. Holt, J. V. Conway,
H. H. Errett and Mrs. Culbertson.

The election of Vaughn was by accla-
mation, the secretary casting the bal-
lot of the association.

W. H. Lowry, of Fort Sumner, was
elected vice president by acclamation,
the plea being made that a rural
teacher should be recognized on the
list of officers.

John H. Wagner was renominated
for secretary by Prof. John Miller,
and his election too, was by acclama-
tion.

Similarly C. L. Burt, of Mountain-
air, was unanimously re-elected treas-
urer, and R. H. Larkin, railroad sec-
retary.

Only Two Contests.

For the place to be filled on the
executive committee, two nominations
were made—Dr. David R. Boyd of Al-
buquerque, and Dr. Frank H. H. Rob-
erts of East Las Vegas.

Upon the suggestion of R. F. As-
plund and R. H. Larkin, two nomi-
nations were made—Dr. David R. Boyd
of Albuquerque, and Dr. Frank H. H. Rob-
erts of East Las Vegas.

For the place to be filled on the
executive committee, two nominations
were made—Dr. David R. Boyd of Al-
buquerque, and Dr. Frank H. H. Rob-
erts of East Las Vegas.

FRANK'S ATTORNEY HAS NOT YET GIVEN UP HOPE

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Washington, Nov. 23.—Justice Lam-
ar today refused to issue a writ of
error to bring to the supreme court
for review the conviction of Leo M.
Frank for the murder of Mary Phae-
s, a factory girl, in Atlanta, Ga.,
in 1912.

Attorneys for Frank will carry to
other members of the United States
supreme court the application for a
writ of error in Frank's behalf which
was refused today by Justice Lamar.
This announcement was made to-
night by Mr. Alexander of Frank's
counsel, who will remain in Wash-
ington to continue the attempt to get
intervention by the supreme court on
the ground that Frank's constitu-
tional rights were violated by the
rendering of a verdict during his ab-
sence from the court room.

Mr. Alexander did not say to which
member of the court he would next
apply.

CANADA WILL ALLOW PULP EXPORTATION

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Toronto, Ontario, Nov. 23.—Export-
ation of pulp wood from crown lands
in northern Ontario will be permitted
a few months longer because of lack
of employment in certain parts of the
province.

Premier Hearst of the province of
Ontario, announced today, however,
there is no intention of relaxing the
general policy of prohibiting export-
ation of pulp wood cut on crown
lands.

PATRICK PARDON A CORRUPT ACT, IS ALLEGATION

Convicted Murderer Freed by
Governor Dix in Return for
Services of Brother-in-law,
It Is Charged.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
New York, Nov. 23.—District At-
torney Whitman today began an investi-
gation of all circumstances attendant
upon the granting of a pardon on No-
vember 27, 1912, by John A. Dix, gov-
ernor of New York, to Albert T. Pat-
rick, serving a life sentence at Sing-
sing for the murder of William Marshall
Rice.

The investigation was begun after
two affidavits had been filed with the
district attorney concerning published
statements to the effect that Joseph
Walker, Jr., a Wall street banker, had
offered to obtain Patrick's pardon if
John T. Milliken, of St. Louis, Pat-
rick's brother-in-law, would join him
in a mining deal. The affidavits filed
were made by George C. Goodrich and
Mrs. Anna S. Goodrich, and related
their version of what transpired at
a meeting here among themselves and
Mr. Milliken on March 23, 1912.

Inasmuch as the statute of limita-
tions would become operative within
three days, Assistant District Attorney
Delehanty, who was placed in charge
of the investigation, was instructed to
use all possible expeditious.

Mr. Whitman announced that if the
facts warranted, after further investi-
gation, the matter would be placed
before the grand jury.

Former Governor Dix, who is in
this city, said today that he had par-
doned Patrick solely for the sake of
Patrick's children. He repeated his
previous denial of the report that he
had pardoned Patrick at the request
of Mr. Walker. Mr. Dix denied that
he was in New York in connection
with the Patrick case.

MILLIKEN DENIES HIS ACTS AFFECTED PARDON

St. Louis, Nov. 23.—John T. Mil-
liken today emphatically denied that
a mining deal between himself and a
banker of Wall street had anything
to do with the granting of a pardon
to his brother-in-law, Albert T. Pat-
rick by Governor Dix.

The affidavit of George C. Good-
rich, published in New York and pur-
porting to give details of the mine
deal in question, was termed a "dis-
semination of falsehoods" by Milliken.

Legal expense and other incidents
to the long-fought fight for Patrick's
pardon cost Milliken about \$150,000,
the St. Louis millionaire said.

"Goodrich is angry at me because
I would not give him an option for
the purchase of a certain gold mine,"
he added. "I later gave that option
to a New York firm, but the name of
Patrick never was mentioned in con-
nection with the deal."

PATRICK DECLARES ACT OF RELATIVE WAS IMMATERIAL

Tulsa, Okla., Nov. 23.—Albert T.
Patrick, charged in the oil business
here, today gave out a statement
denying the truth of allegations made
in connection with his pardon by for-
mer Governor Dix of New York. He
declared that the giving of an option
in mining property by his brother-in-
law, John T. Milliken, to a New York
banking firm had nothing to do with
his (Patrick's) pardon and that it was
a "financial transaction that appealed
to Milliken on its own merits."

Patrick denied that he ever knew
George Goodrich, who is said to have
made the charges, and said that he
pardon by Governor Dix was based
solely on his innocence of the charge
of murdering Rice. He added that
the charges brought against Dix prob-
ably were the work of enemies.

ARTILLERY FIRE OF FRENCH MORE EFFECTIVE THAN THAT OF GERMANS

Superiority of Aviators En-
ables Soldiers of Republic to
Find Range With Greater
Ease Than Teuton Forces.

FRENCHMEN DISPLAY SPLENDID ENDURANCE

Semi-official Account of Fight-
ing in Belgian Arena De-
clares Resiliency of Allies Is
Superior.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Paris, Nov. 23 (10:50 p. m.)—A
semi-official statement, giving some
of the particulars of the fighting at
the front in Belgium and France
from November 15th to 21st, was
issued here tonight. It says:

"There last few days, except on
certain points, have been character-
ized by a perceptible slackening of the
German actions. On the other hand
our artillery and infantry have gain-
ed on the enemy noticeable advan-
ces in the regular siege war necessitated
by the configuration of the country
and the positions of the two fronts.

"From the sea to the Lys our art-
illery, thanks to the information sup-
plied by our aeroplanes, was able to
rectify its fire and succeeded many
times in silencing the German art-
illery.

"On November 17th, in the region
of Ypres we destroyed several Ger-
man guns and on the 18th and 20th
obtained the same result at Neu-
port. It was through our artillery
spiritedly returning the fire of the
enemy that on the 19th we silenced
the German batteries which were
shelling the Ypres station and the
road from Boperle to Ypres.

"Several times it seemed as though
the German artillery lacked ammu-
nition. Some German shells failed to
burst and we found they were mis-
siles such as are used on the practice
ground.

"In the last five days our infantry
in this section has lost none of its po-
sitions; often it has gained ground.
The partial attacks of the Germans
always have been repulsed, while on
the other hand our offensive move-
ments have almost always resulted in
strengthening the ground we occupy.

"Moroccan Display Courage.

"On the 16th of November, north
of Lesteeze the zouaves of the Moroccan
brigade recaptured at the point of
the bayonet a wood, triangular in
shape and difficult to hold. They have
thus far succeeded in retaining it.

"The German trenches occupied by
the zouaves were filled with bodies.
"More to the south, on the 17th of
November the British found in an-
other trench 1,200 dead. The losses
to the enemy continue to be very
heavy.

"It must be noticed that when our
infantry weakens under the violence
of an attack it is the first to under-
take a counter-attack. Thus General
Vidalin's troops in the region of Ypres
retook on the night of November
17th and 18th, a wood which they had
lost during the day. They made it a
question of pride not to postpone one
moment the retaking of the position.

"Still further south on the line
from Armentieres to the Cleve, No-
vember 15th, 16th, 17th, 18th, 19th,
20th and 21st, were quiet in general.
Our artillery scored some happy vic-
tories. On the 17th it dispersed and
destroyed a company of German
bomb-throwers who were attempting
to throw bombs in our trenches.

German Artillery Outclassed.

"Toward Beaumont our infantry on
the 19th did not obtain all the results
expected, but our artillery played
have in the German trenches and
wire entanglements without the en-
emy's guns returning the fire.

"This success has made us the mas-
ters of positions from which we domi-
nate the German defenses.

"From the One to the west of the
Argonne there have been several
rather severe engagements. Our guns
have inflicted upon the enemy serious
losses.

"East of Rheims was an ammun-
ition store house which was blown up
by our heavy artillery demolished
three guns and exploded a caisson.
The same day north of Craonne our
guns silenced the fire from several
of the enemy's batteries.

"The next day near Amfontaine a
German camp, located by our bat-
teries, was compelled to move.

"The 19th, near Rouge Maison we
put in bad condition a section of the
16th regiment of the enemy and de-
molished extensive earthworks near
the farm Hurbette.

"November 20th, near Vailly, we
prevented the continuation by the
Germans of trenching operations
which had been begun there.

"All these successes confirm the
confidence of our artillerymen in the
efficiency of their fire.

Infantry Displays Brilliance.

"On the 17th the affair at Tracy-
le-Val was a brilliant success for our
infantry. It was near 11 o'clock when
the Germans attacked. They bom-
arded the village with howitzers and
then threw two battalions upon its
northern side. Their attack, sudden

and in mass, carried the Germans at
first to the public square and then to
the church, and enabled them to take
from us a mitralleuse.

"But this success quickly gained
was as quickly broken down. One
section of the zouaves charged. They
commenced their action by capturing
the mitralleuse and then, re-
forced, pushed forward past the
church and the square, driving the
Germans back to their point of en-
trance into the town. They were try-
ing to break through to the east.

"In this new repulse the Germans
left behind several hundred men, dead
or wounded. Our losses were less
than 200 men.

Two Companies Defeat Battalions.

"Another example the same day of
the sting of our foot soldiers. In the
vicinity of St. Hubert two of our com-
panies suddenly attacked by two bat-
talions were driven from their
trenches, but the next morning they
recovered all the lost ground and in
addition took eighty prisoners.

"On the front of the Oise and the
Argonne the aviators have been able,
in spite of the rain at first and then
sharp cold, to do some good work. We
have seen the serious work they have
rendered to the artillery in directing its
fire. They also, twice upon the
Aisne and to the east of the Rheims,
compelled the aviators of the enemy
to interrupt their missions and re-
turn to the German lines.

"From the Argonne to the Vosges
numerous actions have taken place in
which our troops have given ample
evidence of their endurance. Each
day and night around Verdun and on
the heights of the Meuse they have
had to repulse particularly violent
attacks.

"On the 15th in the Vosges, the Ger-
mans, having sustained losses which
reached 2,500 men, removed General
Eberhardt, who had ended a dis-
cussion. Lieutenant Mandel, son of the
ex-secretary of state of Alsace-Lor-
raine, was killed during this day's
fighting.

"On the 17th, it was necessary to
send to the rear two German bat-
talions which had been engaged against
us at St. Marie because they had lost
more than half their effective forces.
Chauvencourt Attack Unsuccessful.

"It is well worth while giving spe-
cial mention to the affair at Chauven-
court, which did not succeed, and to
the one of Senones, which, on the
contrary, did succeed.

"Our men by a daring attack had
established a footing in the two bar-
racks west of Chauvencourt, a suburb
of St. Mihiel. Twice they were re-
pulsed and twice they recaptured the
position. They still occupy the larger
part of it when, on the 18th, a vi-
olent twenty-eight-centimeter mor-
tar fire compelled the front company to
seek shelter in the first barracks. At
this moment the Germans blew up
the building, which they previously
had mined.

"We had in this place 200 casualties
(killed, wounded and prisoners). The
envoys of these brave men, how-
ever, were not useless as through them
we were enabled to destroy
works which had served as the base
for German counter-attacks."

Big Order for Blankets.

Provo, Utah, Nov. 23.—The Knight
Woolen Mills received today a rush
order for 50,000 army blankets,
through the San Francisco representa-
tive of a foreign nation not named.

Summary of War News of Yesterday

The advantage in the great battle
which is being fought in the region
between the Vistula and Warta rivers
in Poland appears, according to the
latest advices, to be on the side
of the Russians. A special dispatch
received in Paris from Petrograd
even asserts that the forces of Grand
Duke Nicholas have won a decisive
victory over the German troops under
General von Hindenburg. However
this may be, the official reports
from both the German and the Rus-
sian war offices indicate that Gen-
eral von Hindenburg has been
checked in his second advance on
Warsaw.

That this battle is being fought
with great stubbornness is certain.
Grand Duke Nicholas, who for two
days in succession has recorded par-
tial successes, has received rein-
forcements and against this rein-
forced army General von Hindenburg
is hurrying his troops in impetuous
assaults.

In the western theater the Ger-
mans have been violently bombarding
Ypres in Flanders, Soissons in the
valley of the Aisne and Rheims, and
have been making attacks in the Ar-
gonne region. The Germans claim
that they have been gaining ground
in the last-named district but the
French assert that the attacks here
have been repulsed. Military ex-
perts point out that any or all of
this activity may be intended to
draw attention from the quarter in
which the supreme attack is to be
made.

The secretary for India in a state-
ment records the defeat of the Turk-
ish fleet in the Persian gulf and ad-
mits a victory of the Germans over
British forces in east Africa.

The Germans have suffered two
new naval reverses. The submarine
U-18 was rammed off the north coast
of Scotland by a British patrol
ship and foundered. All the men on
board the submarine with the excep-
tion of one man were rescued. The
German torpedo boat destroyer S-124
has been run down off the coast of
Sweden and sunk by a Danish steam-
er. The crew of the war vessel was
saved. The destroyer was towed into
a Swedish port where she will be in-
terned.

A Petrograd report says that the
Germans have bombarded Lihau and
that a great many women and some
children were killed.

A newspaper dispatch from Petro-
grad says that the British embassy
in Constantinople has been sacked
and the Russian hospital pilaged,
and that all foreigners have been sub-
jected to abuses.

RUSSIANS CHECK GERMAN ADVANCE ON WARSAW AND CLAIM VICTORY

Indications Are That Grand
Duke Nicholas Has Succeeded
in Putting One Over
on General Von Hindenburg.

KAISER'S FORCES TO TRY FOR COAST AGAIN

Another Big Offensive Move-
ment Is Under Way and Vi-
olent Bombardment of Ypres
in Flanders Takes Place.

(SPECIAL DISPATCH TO MORNING JOURNAL)
London, Nov. 23.—(12:30 p. m.)—
The battle which is being fought in
the region between the Vistula and
Warta rivers, in Poland, appears to
have turned in favor of the Russians.
In fact, a special dispatch from Petro-
grad to Paris says that the Russian
army already has won a decisive vic-
tory. While this may be an exagger-
ation both the Russian and the German
official reports suggest that General
von Hindenburg's second thrust at
Warsaw has been checked.

Grand Duke Nicholas, commander
in chief of the Russian forces for
two days in succession has recorded
partial successes in this great battle
and tonight the German general staff
says that the arrival of Russian rein-
forcements has postponed a decision.
Both sides have expressed the great-
est confidence in the outcome of this
battle. Grand Duke Nicholas and
General von Hindenburg heretofore
have been so successful in their strate-
gy that their adherents look upon
them as almost unbeatable.

German Papers Claim Victory.

The German papers only this morn-
ing were talking of a general Russian
retirement despite the fact that the
Russians have been advancing steady-
ly in Galicia, have repulsed the Aus-
tro-German attack before Craonow,
hold part of the German territory in
east Prussia and were opposing Gen-
eral von Hindenburg's advance on
Warsaw. It is the same in Petrograd.
All the correspondents declare it is
certain that Russian numbers must
tell when the Germans have reached
the ground on which Grand Duke
Nicholas has chosen to give them
battle.

While undertaking immense tasks
in the east, the Germans, according
to all accounts are preparing to
launch another offensive movement
in the west. Just where this is to be
known, of course, by the general staff
alone. It is believed here, however,
that they will make another effort to
get through to the French coast and
perhaps at the same time try to force
the line of French fortresses in the
Argonne region.

Fighting in France and Flanders.

The Germans have been violently
bombarding Ypres in Flanders, Sois-
sons in the Aisne valley and Rheims,
while they have been making attacks
in force in the Argonne region. The
French claim that the assaults in the
last named region have been repulsed,
while the Germans in direct con-
tradiction, say that they have been
gaining ground steadily. Any or all
of this activity may be intended to
divert attention from the quarter in
which the supreme attack is to be
made, but the allies are sure to dis-
cover soon where they must expect the
next blow. In order to ward off the
possibility of the Germans again try-
ing to move along the coast the British
fleet has been bombarding their
positions from the sea.

Turkey as usual reports victories
over the Russians in the Caucasus and
the British in Egypt, but these lack
confirmation. The English, on the
other hand tonight issued an account
of successful British operations in
the Persian gulf. The same state-
ment told of the defeat of a British
force sent against German East
Africa.

British naval armaments including
Flight Lieut. Slips, one of those who
destroyed a Zeppelin shed and an air-
ship at Dusseldorf before the Ger-
mans took Antwerp, have made a still
more daring raid from French terri-
tory over Friedrichshafen. According
to the aviators' account they dropped
bombs which damaged the Zeppelin
factory at that place. One of the aer-
oplanes was brought down by German
guns but the others escaped without
sustaining damage.

BRITISH PATROL SHIP RAMS GERMAN SUBMARINE

London, Nov. 23 (11:55 p. m.)—The
secretary of the admiralty announces
that the German submarine boat U-18,
which was reported off the north
coast of Scotland this morning, was
rammed by a British patrolling vessel
and foundered.

The patrolling ship rammed the
submarine at 12:20 o'clock this after-
noon. The U-18 was not seen again
until 1:20, when she appeared on the
surface flying a white flag. Shortly
after this she foundered just as the
British destroyer Garry came along-
side. The destroyer rescued three of-
ficers and twenty-three of the sub-
marine's crew, only one being
drowned.

The names of the German officers

IRON CROSS BESTOWED ON CAPTAIN OF GERMAN LINER

Amsterdam, Holland, Nov. 23 (via
London, 7:40 p. m.)—Captain Ayle of
the auxiliary cruiser Kaiser Wilhelm
der Grosse, which was sunk off the
west coast of Africa by a British cru-
iser the latter part of August, has been
decorated with the Iron Cross of the
first class. In a statement made to
the Berliner Tageblatt Captain Ayle
says he managed to return to Ger-
many as stoker on a neutral vessel.

A dispatch from Las Palmas, Can-
ary Islands, on November 12th, said
that ten officers from the Kaiser Wil-
helm der Grosse, who were on parole
had escaped on a Dutch steamer. They
were disguised as fishermen. The
men had been lodged on a German
steamer moored in the harbor at Las
Palmas.

CZAR TELLS WOUNDED
SOLDIERS OF VICTORY

London, Nov. 23 (2:50 a. m.)—A
dispatch to the Morning Post from
Petrograd dated Monday, says:
Emperor Nicholas, visiting the
wounded in the Tsarke-Selo this af-
ternoon, told the men that news had
been received of a Russian success be-
tween the Warta and Vistula rivers,
where two entire German regiments
were taken prisoners.

It is reported that the emperor was
in extremely cheerful mood. From
this it is presumed that the turning
point really has been reached in the
battle, and though no official con-
firmation of this victory has yet been
made, it is generally believed the news
the emperor had was better than he
thought necessary to convey to the
wounded soldiers.

It is also unofficially reported here
that the Russians are bombarding
Craonow which is in flames.

Miner Convicted of Burglary.

Boseman, Mont., Nov. 22.—John
Foley, a Butte mine worker, was
found guilty here today of burglary
in connection with the dynamiting
and looting of a safe during rioting at
Butte June 13, last. Four hours af-
ter the case was called by District
Judge B. B. Law, Foley had been
tried, convicted and sentenced to
twelve months in the state prison.

Embarkation Begins.

The American forces of occupation
under Gen. Frederick Funston, after
a stay in Vera Cruz of seven months,
today began embarking on the steam-
ships which will return them to the
United States.

The outposts began falling back at
5 o'clock in the morning and two
hours later the first American sol-
diers were going over the sides of the
waiting transports.

General Funston established his
headquarters on board the transport
Cristobal and all the organizations of
his command began at daylight the
work of moving out their equipment
preparatory to final evacuation. Ev-
erything progressed smoothly. Be-
yond the American outposts there
had been mobilized during the night
a force of constitutionalists. As the
Americans withdrew, first from the
outlying districts and then from the
city itself, the constitutionalists fol-
lowed along and nominally occupied
the territory evacuated.

People Are Nervous.

The city is quiet, but the inhabi-
tants are nervous and apprehensive
concerning the final outcome of this
transfer of authority. All schools in
Vera Cruz tomorrow closed today on
orders of General Funston and many
commercial establishments decided
not to open their doors. The govern-
ment of Vera Cruz is not being turned
over to any faction of Mexicans. The
territory is being evacuated, and as
fast as the Americans go out consti-
tutionalists are coming in.

The American army officials are tak-
ing with them the moneys collected
for customs and from other sources
of revenue. These ultimately will go
to some Mexican government which
the United States deems a proper one
to receive them.

The American quartermaster's de-
partment has arranged to take away
from Vera Cruz, something like 200
Mexicans who did not care to be in
the city when their countrymen again
came into possession.

Communication between Vera Cruz
and Mexico City was again interrup-
ted tonight, the wires being cut be-
tween here and Cordoba, General
Carranza's headquarters.

Agullar Raises Flag.

General Agullar personally raised
the Mexican flag over the municipal
palace at 4 o'clock tonight. A com-
pany of infantry was drawn up in
front of the building during the cere-
mony. A large crowd in the plaza
gave prolonged cheers as the national
colors were unfurled.

General Agullar in a statement to-
night relative to the evacuation said:
"I am gratified that this day ended
so peacefully. The Mexicans, pleased
to have shown the whole world today
that Mexico is a cultured nation, are
well satisfied with the whole affair. I
appreciate the efforts of the American
people and the government which made
it possible for the occupation to end this
way."

General Carranza will not arrive

Doesn't Stand on Technicalities.

COFFMAN URGES MORE ATTENTION FOR AESTHETIC

Head of University of Illinois
Education Department De-
clares Americans Are Too
Materially Inclined.

Prof. J. A. Wood of Santa Fe, one of the veteran educators of the west, who had among his pupils such distinguished men as the present mayor of Topeka, had the pleasure yesterday afternoon of introducing another one of his former pupils, Dr. Lotos D. Coffman of the University of Illinois. Prof. J. A. Wood has been one of the most successful teachers in New Mexico, both at East Las Vegas and in Santa Fe. He paid the following tribute to Dr. Coffman:

"Mr. President: It is with a peculiar feeling of relationship that I introduce to you the speaker of the hour. It is not the relationship of father and son, nor uncle and nephew, neither is it that of brother-in-law, nor father-in-law and son-in-law, however such relationship might be desired (on my part), but it is that

post-graduate of the great University of Illinois, where he took his master's degree. He then was called to a professorship in one of the normal schools of Illinois, where he distinguished himself as an investigator; and, as the years did come and go, his active mind craved more to know, so he entered Columbia university, where he received his doctor's degree.

"He then started west, as did the wise men of old, and accepted the position of professor of education in the University of Illinois. So, when we of New Mexico wanted one of the greatest educators in the United States to come to lead our educational forces on to victory, to whom should we turn but to the speaker of the hour, for he is still going?

"It reminds me of the old farmer who had never been very far from home and who had never seen a railroad train. On day he took a trip to a railroad station and there stood the great engine and train on the track.

"He carefully scanned the train and engine, and then said: 'I know that train will never move from the station.' Pretty soon the engineer opened the throttle and quietly and smoothly the train pulled out from the station, and faster and faster it went until it disappeared around the curve. Then he shook his head and said: 'You need not talk to me, I know that thing will never stop.' So with the speaker of the hour, I know he will never stop, neither in this world nor in the next. So, ladies and gentlemen, it gives me peculiar pleasure to introduce to you Dr. Coffman of the department of education of the University of Illinois, who will now address

assume to do only that which they can do better than other institutions, and retain only those things which they do equally as well as other institutions and which they have already accepted as their work. The public school system is not the lodging place for every reform that is advocated. However, the teacher should look beyond the school walls, and it would be equally well if the parent occasionally looked within those walls, according to him.

"The moral obligation rests heavy upon the schools to train a generation of men who are more sympathetic, men who are not only walking intellects, but who throw with human emotions," he said. "The training of the aesthetic faculties has become a duty."

Curves of Crime and Leisure.
"Men have more leisure than ever before and yet the world has more tired men and women than ever before. The curve of crime and the curve of leisure are startlingly parallel to each other. We must teach how to use leisure, the appreciation of the fine arts, music, science, the larger usefulness of life, so that men may be better companions for themselves and for others. We cannot go back to the current of older days; we must expand the curriculum. We must teach men to live more nobly, to be more cosmopolitan, more sympathetic."

Record-breaking Crowd.
Dr. Coffman's address was frequently interrupted by applause. His second address was to the School Masters' club, while the third address, last evening, was to the largest audience that thus far has crowded into the high school auditorium. Every seat was taken, men and women were crowded into the aisles and on the platform as well as into the balcony.

The evening topic of Dr. Coffman was "The Three-fold Purpose of the Public Schools." He followed the same line of thought as in the afternoon to the conclusion that the purposes of the public schools are protection, education and selection.

He described the various methods adopted these days to protect the child's physical, mental and moral well being, such as medical inspection and open-air schools. He denounced the Ladies Home Journal because of its attacks on the public schools system, especially its opposition to examinations and in-home work.

"We are in no danger that we are stultifying the children through network," he said. "There is more danger of our children suffering from mental starvation than mental dyspepsia. A student has a student's good time only when he is engaged in the mastery of intellectual problems. Studentship means the getting and reciting of lessons."

Dr. Coffman defined the best teacher as he who makes the most mental trouble, saying, "The higher reaches of education should and must be earned."

School Work Is Selective.
That the work of the school is also selective was forcefully brought out by the orator. "Equality of opportunity comes only to the pupil at the beginning of his school career," he asserted. "From that moment on the selective process begins and the greatest achievement of the past century has been to increase the number of children elected in the schools for the higher grades. The industrious, ambitious child should be given opportunity to complete the course in less time than the naturally slothful one. This is not interfering with liberty. The only natural rights one has are those exercised for the collective welfare."

"The schools are primarily protective at one end of the line and selective at the other, but educative from one end to the other."

Craighead Impresses Auditors.
President Edwin H. Craighead of the University of Montana, last evening gave an address that made a deep impression upon his hearers. It was a classic, a scholarly oration, in praise of the civilization of Greece and the intellectual glory of Athens. It was a tonic for the unrest of the frenzied striving for material things in the public schools, a defense of scholarship as against mere skill to make dollars.

"Education is the organized effort to create a higher and better civilization, to turn out a larger and larger number of civilized men," was his dictum. "To the Greek alone belongs the eternal glory of having created the first real civilization that ever existed on this earth. It is the greatest standing miracle of the story of man."

The trend of our present-day civi-

lization is undoubtedly anti-Greek. Yet the most cultured people that ever trod the earth were the Greeks. We are great only because our intellectual inheritance is so vast."

Boston Suffers by Comparison.
Dr. Craighead compared ancient Athens with modern New York and Boston, much to the disparagement of the modern cities. With many times the population and wealth, New York has produced no immortal comparable with the dozen or more that stand to the credit of Athens. Boston prides itself upon bringing out an audience of 2,500 to hear a citizen play, Athens brought out 20,000 day after day to hear the tragedies of Sophocles and the comedies of Aristophanes. The Greek language is the most perfect ever moulded by the lips of man. The Greek boy grew up in an atmosphere of art, he saw immortal masterpieces of sculpture at every corner while thousands of us are fortunate to see mere replicas.

But here lies the opportunity of America, to bring this culture to the masses where in Athens it was only for the 20,000.

President C. C. Hill in his annual address outlined an educational program for New Mexico. He began by sketching the educational history of the state from the Franciscans, who established the first schools, to the passage of Governor Vail in 1847. He described the good work of the Sisters of Loretto and the Christian Brothers, who not only trained the children but aroused public enthusiasm for the cause of education. The first public school law in 1863 named Archbishop Lamy, the governor and the secretary of the territory as the state board of education.

The speaker told of the present state of efficiency attained by the New Mexico schools, paying a tribute to pioneers like Hiram Hadley, C. M. Light, J. E. Clark and the present superintendent of public instruction.

He took a look into the future and pleaded for closer correlation and co-operation among the educational forces. He spoke of the lack of financial support and patronage which have hampered the higher institutions.

"But the time has come when New Mexico's higher institutions are in position to educate her sons and daughters," he said. "There should be a course in the professions at the university, especially in law and medicine. There should be correlation and co-operation even if not consolidation of the university, the state college and the school of mines. This would help to keep the strongest and best of our youth in New Mexico. The high schools should give a training course for teachers. The aim of the schools should be to train the boys and girls for service and to that end manual training, domestic science and agriculture are taught."

The rural school problem will be solved by a seven months' minimum term and by consolidation, he asserted. It is not more, but better, rural schools that are needed. The rural schools need closer supervision. President Hill does not favor the plan of high school inspectors but the raising of the qualifications for county school superintendents so that they may give more efficient supervision. He favors as good salaries for county school superintendents as are paid other county officials and demands that the superintendent give all of his time to his work.

ROAD MARKERS FINALLY ARRIVE FROM THE COAST

The sign-posting truck of the Automobile club of Southern California arrived here yesterday afternoon. The crew was in charge of Douglas Col. D. K. B. Sellers and Frank Stortz, went to Los Padillas in the latter's automobile and escorted the sign-posting into the city. They quit signing the road at the Barajas bridge. Today they will set up their posts in the city.

Members of the New Mexico Automobile club and Albuquerque Good Roads local will give a dinner for them tonight.

SCHOOLMASTERS HOLD BRILLIANT ANNUAL BANQUET

The banquet of the Schoolmasters' club last evening at the Alvarado, was the most noteworthy social affair of the day. Just preceding the banquet, the club elected Dr. David H. Boyd of the University of New Mexico, president, and President E. L. Knloe of the State Normal School at Silver City, secretary.

President John Milne acted as toastmaster. President E. B. Craighead of the University of Montana, responded wittily to a toast "To the Schoolmasters," alluding to the fact that he is a Missourian and that the Missourians are the salt of the earth in Montana and probably also in New Mexico.

Dr. L. D. Coffman of the University of Illinois, responded to a toast "To the Schools," doing so most eloquently. He spoke especially in praise of efficient supervision, declaring it to be the great essential of a successful school. M. L. Fox brought greetings from the press and after a forceful tribute to the schoolmasters' dwell upon the ideals that animate the modern press.

Convention Notes.
The delegates are having barrels of fun. They are having the choice of many entertainments and amusements.

Tomorrow evening after the concert the Hoopes will meet in the auditorium and there will be fun galore. W. W. Robertson of Oklahoma City entertained another two score of educators this noon at a banquet at the Alvarado.

Professor J. A. Wood of Santa Fe, attended the first Albuquerque convention which was held 22 years ago, in what is now the Albuquerque Public library. The attendance at that time was only a few over two score delegates.

The Las Vegas high school swung its pennant today under the proscenium arch in the auditorium where they formed the chief decorations during the evening.

The judges of the exhibit will meet tomorrow morning at eight o'clock at the library and expect to mark all exhibits by nine o'clock.

Those interested in the organization of an Association Symphony orchestra are to meet this morning at the auditorium.

L. C. MURPHY CALLED HOME BY ILLNESS

L. C. Murphy, a popular student of the university, will leave tonight for his home in Rushville, Ill., whither he is called by the illness of his mother. Mr. Murphy has attended the university nearly two years and has made a marked success in numerous student activities, including track athletics, football and student journalism. Mr. Murphy was lately appointed associate editor of the student annual, the Mirror. Since the first of the current college year he has been editor-in-chief of the student weekly. Mr. Murphy's departure will leave a gap in student institutions which will be hard to fill.

TRIO OF BROTHERS SENTENCED BY MECHEM

SPECIAL DISPATCH TO MORNING JOURNAL.
Santa Fe, Nov. 23.—The three Bara brothers, Alfredo, Gerónimo and Benito, aged 16, 17 and 18 years respectively, were sentenced from four to five years in the penitentiary each by District Judge M. C. Mechem for stealing fourteen head of cattle from the Jaramillo and Otero herds in Valencia county. Because of the fact that they had pleaded guilty and that they are very young Judge Mechem suspended sentence pending good behavior. Judge and Mrs. Mechem came to Albuquerque in their automobiles after the trial and will leave tomorrow for Los Lunas and their home in Socorro.

Power Application Made.
Santa Fe, Nov. 23.—Application for ten second feet of the flow of Mineral creek was made today to State Engineer James A. French by A. H. G. Palmer, of Mogollon, Socorro county, to generate 100 horse power at an initial expense of \$2,500.

CATARH LEADS TO CONSUMPTION

Catarh is an much a blood disease as scrofula or rheumatism. It may be relieved, but it cannot be removed by simply local treatment. It breaks down the general health, weakens the lung tissues, and leads to consumption.

Hood's Sarsaparilla is so successful in the treatment of catarrh that it is known as the best remedy for this disease. It purifies the blood. Ask your druggist for it.

Use "Gets-It," Corns Shrivel, Vanish!

It's the New Way, and You'll Forget
You Ever Had Corns.

"2 drops put on in 2 seconds, corn shrivels, comes clean off!" That's the marvelous story of "GETS-IT," the new-plan corn cure. Nothing can be simpler for the cure of corns—

No Corns to Bump!
No Pain, if
You Use
"GETS-IT."

and it never fails. That's why millions of people are using "GETS-IT" today, and throwing away their tawny plasters, sticky tape, toe-eating salves, and "wrapping outfits" that make a bundle around the toe and choke it into pain by pressing either on or around the corn. There is nothing to stick to your stockings, nothing to cause inflammation or rawness, nothing to press on or around the corn. You apply it in 2 seconds. No more knives, razors, scissors or files with their blood-poison touchers. Try "GETS-IT" for that corn, callus, wart or bunion.

"GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

IN THE WORLD OF SPORT

AGGIES WILL BE HERE TOMORROW NIGHT FOR GAME

Farmers, Unwilling to Risk Any Chance of Not Being in Shape, Will Rest Here Over Night.

The Aggie football team will arrive here at 6:30 o'clock tomorrow night on Santa Fe train No. 816 from Las Cruces, according to word received by the university athletic management yesterday.

The farmers evidently want to be at their best when they tackle the varsity on Hopewell field Thursday afternoon. The varsity's win over the New Mexico Military Institute apparently has apprised the Aggies that the Albuquerque institution of learning has a team despite its slow start.

By arriving Wednesday night the Aggies will be fresh for the fray. They probably will go through some muscle limbering exercise Thursday morning at Hopewell field. A word came from Las Cruces that they have been training seriously for the contest, unwilling to risk any chance of losing the state championship when they are within striking distance.

Officials Selected.
Fuller, of Las Cruces, and Charles Lemke probably will alternate as referee and umpire. R. P. A. Johnson will be head linesman. These officials, with the exception of Fuller, are, of course, subject to the Aggie's ratification.

Tickets will be sold today at the high school building. Members of the New Mexico Educational association and all students, including those who are here attending the convention, will be admitted for fifty cents. To others the admission will be \$1.

JIMMY BRONSON HERE ON WAY TO EL PASO

Jimmy Bronson, manager of Jeff Clarke, was here last night on the way from Joplin, Mo., to El Paso, where Clarke will fight Young Jack Johnson Thursday. Bronson is also director of the Southwest Missouri Athletic club at Joplin.

They think so well of Bronson and Clarke in that section that business men subscribed \$11,000 in 1912 to send them east to capture the middleweight title. Clarke's cleverness, however, had drifted ahead of them, it was said, and Bronson had difficulty in getting middleweights into the ring with the "Fighting Ghost."

High School Player Dies.

Russellville, Ark., Nov. 23.—Thomas McClure, aged 15, quarterback on the Russellville High school football team, died today from an injury received in a game a week ago. The boy's nose was broken and lockjaw developed.

Chinese Football Hero.

Chicago, Nov. 23.—W. K. Chang, freshman of the University of Chicago, today received the first football honors ever awarded a Chinese in this city. Chang played with the freshman team during the past season and with nineteen others today received the 1914 numerals.

TORRES REACHES SANTA FE, READY FOR THE BATTLE

Albuquerque, Nov. 23.—Jack Torres arrived here tonight from Albuquerque. He fought with Harry Schaefer Wednesday night. He was accompanied by John Stewart, his training partner.

Torres has been training in Albuquerque and appears to be in fine fettle condition. He will go through only light exercise with Stewart today and rest Wednesday. Stewart will act as his chief second.

Harry Schaefer, who also has been training in Albuquerque, expected to arrive tomorrow.

Director Mark Eddy has signed Young Dempsey to meet Demon Rivers in the preliminary. Young Peter Kline of Albuquerque, was unable to come.

Nationals Meet December 8.

New York, Nov. 23.—The annual meeting of the National League of baseball clubs will be held here December 8. Notices calling the meeting were sent out today by President John K. Tener.

Denver Buys Catcher.

Muscatine, Iowa, Nov. 23.—Cliff Lee, catcher for the Muscatine club of the Central association, today was sold to the Denver Western league club.

McDaniels MAKES HIGH AVERAGE FOR 25 GAMES

W. McDaniels rolled twenty-five games Sunday at the Drummer alleys for an average of 241-3. This average had not been reached previously on the Drummer alleys over the marathon route. McDaniels' record compares favorably with all published averages for long distance bowling.

ENGLAND HEARS OF PLANS MADE FOR GERMAN RAID

Under-Secretary for War Tennant Informs House of Commons of Preparations Made for National Defense.

London, Nov. 23 (10:45 p. m.).—Plans for dealing with a possible German invasion were spoken of in the house of commons tonight by Under-Secretary for War Tennant.

W. C. Bridgeman, member from Shropshire, asked whether the wearing of brassards would insure that persons taking part in the defense of the country would not be regarded as civilians. He also asked if the government was aware that many active men over the recruiting age desire to fight in event of an invasion, and are prepared to furnish their own arms and equipment if the war office will design a uniform for such a force.

Mr. Tennant replied that the war office felt it was the first duty of the navy to prevent a raid.

"In event of its taking place," he said, "it is our duty to drive the German into the sea as fast as we can, and I hope we shall be enabled to do so."

Orders Issued to Committees.
In regard to the action of the civil populace in an invasion takes place, he pointed out that emergency committees had been formed in the various countries where there was any danger of an invasion, and instructions were being issued to those committees. He thought it was not desirable to state what these instructions were.

The Pall Mall Gazette, referring to the report of "livelihood" at Emden, says it accords very well with what has been said in this country this week.

"Military movements took place, which, of course, we shall not dwell upon in detail," continued the paper, "which gave rise to the almost universal belief that the authorities had been of some attempt to be made against us. The attitude of the public mind was one of interest. It certainly was not one of alarm."

BREWERY PROMOTER COMMITS SUICIDE

St. Louis, Nov. 23.—P. H. Nolan, brewery promoter of Chicago, Philadelphia, New York, Pittsburgh, Milwaukee and St. Louis, shot and killed himself in the offices of the Mutual Brewing company here tonight. Tomorrow afternoon he was to have testified in involuntary bankruptcy proceedings against the brewing company of which he was chief organizer, vice-president and general manager.

Nolan also was editor of the Liquor Trades Gazette, published at New York. The recent partial loss of his eyesight, friends say, caused a decline in his business activity and led to financial troubles.

Those interested in the organization of a foreign language section of the association are asked to meet this forenoon at 5 o'clock in Room 302.

Because of the many entries in the oratorical contest, the college section will be held in the afternoon tomorrow from 4 to 6 o'clock, instead of in the evening as first announced.

Chicken Dinner.

At Odd Fellows' Hall, 214 1-2 South Second street, today at noon, by Congressional ladies, 35 cents. Every body invited.

LEE MAGEE WILL MANAGE BROOKFED TEAM NEXT YEAR

St. Louis, Nov. 23.—Lee Magee, the St. Louis National infielder, will sign to manage the Brooklyn Federal team next Saturday. This statement was made here tonight by Dr. Ralph Nieldinghaus, former roommate and boom companion of Magee.

Magee's ten-day notice of his resignation from the St. Louis club will expire Saturday.

President Britton of the St. Louis club said tonight that if Magee thinks so little of his moral obligations as to jump the team, no effort will be made to stop him.

WILLIAM G. SIEGEL IS GIVEN JAIL SENTENCE

Geneva, N. Y., Nov. 23.—Shortly before midnight tonight Henry G. Siegel, the New York merchant, charged with grand larceny, was found guilty of committing a misdemeanor.

Justice William W. Clark of once sentenced Siegel to a fine of \$1,000 and to serve ten months in the Monroe county penitentiary. Stay of execution of the prison sentence was granted until the second Monday of June and bail was fixed at \$25,000.

Siegel was found to have committed a misdemeanor in obtaining credit on false financial statements. The jury was out about four hours.

In finding a verdict on this charge the jury took a course outlined by Justice Clark in his final instructions. He said he had serious doubts as to the validity of the grand larceny charge.

GREAT OPPORTUNITY FOR TRADE WITH ARGENTINA

Philadelphia, Nov. 23.—Romulo S. Naton, ambassador from the Argentine Republic, declared in an address before an audience of prominent manufacturers here tonight that the present European situation offered an unparalleled opening in South America for the business men of the United States.

Speaking of his own country, the ambassador said the possibilities offered by the purchasing power of Argentine commerce are well worthy of positive efforts—"not wishes, but actions; not wishes, but will."

"I do not believe I am wrong," added Ambassador Naton, "when I say the Argentine Republic offers to American manufacturers today a market of not less than \$100,000,000 over and above the present exports to our country."

CALIFORNIA SHERIFF PINCHED FOR ROBBERY

Los Angeles, Cal., Nov. 23.—Winfield Scott, a San Bernardino county sheriff, accused with Clarence Loyd, a choir singer of having robbed a mine at Dale, of approximately \$20,000 in gold precipitate, was arrested in San Bernardino today.

Scott was implicated in a statement made by Loyd last night after his arrest in this city. Loyd declared Scott had planned the robbery. The mine is the property of a coterie of capitalists headed by Charles M. Schwab.

IMMUNITY PLEA IS ENTERED BY ROAD MAGNATE

New York, Nov. 23.—John L. Bland also put in a plea of immunity, on the ground that he had appeared as a witness before the Interstate Commerce commission in its inquiry into the affairs of the New York, New Haven & Hartford railroad.

Plea in abatement similar to that filed by William Rockefeller were entered for Robert W. Taft, Charles F. Brunker, William Skinner and James S. Elton.

Counsel for A. Heaton Robertson and James S. Hemingway, presented demurrers denying eighteen reasons why the defendants should not be bound to answer the indictment.

Unlawful Combination Charged.
Among the claims made in their behalf are assertions that the acts set forth in the indictments do not constitute an offense against the United States; that the government sought to charge the defendants with unlawfully combining and conspiring to monopolize trade and commerce, and that inasmuch as combination and conspiracy are distinct offenses, the charge is made void by the duplication.

When the pleas and demurrers had been filed, Judge Sessions said he would permit no more delay. The whole matter would come up for disposition tomorrow morning, he said, and he expected counsel to be ready at that time.

DOORS OF PRISON OPEN FOR "MUCKIE" McDONALD

Deer Lodge, Mont., Nov. 23.—"Muckie" McDonald and Joe Bradley, former president and vice president of the Butte Mine Workers' union, were brought to the state prison here by the sheriff of Jefferson county today to serve sentences of three and five years, respectively, passed upon them by Judge Clark at Boulder Saturday upon their conviction on charges of kidnapping and deporting miners from "Mitt" last night.

FOOTBALL SCORED WHEN ADHERENTS FAIL TO ENLIST

Rallies at Matches Throughout England Produce Almost No Recruits and Popular Past-time Is Blamed Widely.

London, Nov. 23 (11:40 p. m.).—Indignation against the hitherto universally popular game of football is expressed by nearly the entire British press today because almost no men enlisted as a result of the recruiting rallies at Saturday's matches.

"It is time to eradicate the football cancer," says the Pall Mall Gazette in an article which goes on to say that not a single man was recruited at London's principal football match which was attended by 15,000 spectators.

A colonel who has a son at the front and was himself returning to the firing line appeared at this game, says the paper and pleaded with the men to enlist.

"As a soldier I ask you," said the colonel, "I say come, your country needs you."

His words were drowned by shouts as the teams came on the field, continues the paper, which adds that in other parts of the country the same stolid refusal greeted the bands of speakers and recruiting officers. No recruits were obtained at Nottingham, where 2,000 spectators attended a match and no one was recruited at Brighton.

The Evening Standard says that the total result of the country-wide movement was one recruit.

"Football such a passion that nothing on earth can stop it," asks the Standard. "Vigorous youth should be powerfully persuaded that this is not the time for the development of any passion save love of country."

FOOTBALL SCORED WHEN ADHERENTS FAIL TO ENLIST

Rallies at Matches Throughout England Produce Almost No Recruits and Popular Past-time Is Blamed Widely.

EVENING GOWNS OF THE SEASON FAIRLY SPARKLE

Fluffy Flounces, and Full Skirts Give an Effect of Gaiety and Life That Is in the Highest Degree Pleasing

New York, Nov. 23.—With fluffy flounces and full skirts of materials light and airy, the evening gown of the season seems sparkling with gaiety and life. Flounces of lace, chiffon or the net are tastefully combined with velvet, thus giving what might have been heavy and delicate, breezy touch.

Cloths of gold or silver are strong features of the season's novelty fashions. These are entirely different from metal cloths which we have previously used; they are warranted not to tarnish and are as light as silk and as transparent as chiffon. On gowns of shell pink the silver is most attractively used as a trim, as a long and graceful swath, cloth of gold on white is dainty and charming beyond words. It also combines with almost any of the other colors, dark or light.

A combination of black panne velvet and cloth of silver is stunning in its simplicity. The three-flounced skirt of silver, each flounce with a black strip of itself, with the edge unpressed, that is may look almost like a cord. The bodice is made of a strip of panne velvet which is placed in a V-shape over an underbodice of net. The edges of the V-shaped neck and the extremely short sleeves of the net are outlined with a narrow band of shimmering, composed alternately of one long band and a rhinestone. In the front of the point of the V, a bright red rose given life and zest to the entire costume.

The gown of black lace and velvet which is used for the illustration is made over a slip of white charmeuse having an outer lining of gold metal net. The bodice of black chiffon velvet is made in a simple basque effect. The plain net across the front is over the metal net. The sleeves are a mere ruffle over each shoulder. The wide skirt of lace through which glimmers the metal and white is rather short, as is the style for the dresses for day or evening wear. A rose, colored flower is used at the closing of the waist.

A gown simple and wonderfully effective is made of salmon colored chiffon velvet. The skirt is full, draped several times at the top to make the silhouettes full and gracefully. At the bottom of this skirt is a six-inch ruffle gathered over a thick cord. The edge is not hemmed, but finished with a machine-made pleat. The waist is composed of a net and lace foundation, over which is draped a wide piece of the bias velvet with pleated edges, giving the effect of a low waistline and reaching as high as the point of the V-neck. At the back the velvet drooped lower than the front, showing the latest line around the hips.

Another dress worthy of note is made on an underpiece of white charmeuse and metal net. The lower section is of heavy golden yellow net with a chemise of the tan-and-gold lace through which the outline of the undergarment is visible.

Cloth of gold is used for the second

REDISCOUNT RATE WILL REMAIN AS IT IS FOR TIME

Despite Pressure on It, Federal Reserve Board Refuses to Tamper With Banking Machinery Just Yet.

Washington, Nov. 23.—Until the federal reserve board has accurate information on the surplus reserves held by member banks it does not expect to change the present rates for rediscount of commercial paper.

Present information indicates about \$200,000,000 of surplus reserves in the member banks in the north and east. The board fears that a lower rate of rediscount might lead to an exportation of gold, which they do not wish at this time. "Until this reserve stock has been lessened the rates probably will be unchanged in these sections."

In the south and west, where much of the pressure for changed rates originates, the board's information shows less surplus reserves, and it is possible that changes will be made there in the near future. No definite action, however, has been taken in regard to any suggestions in discount rates.

Weekly Reports Demanded.

The board has decided to aid the twelve reserve banks in accumulating data bearing on the question of rediscount rates by requiring weekly reports from all member banks to the reserve bank in their district. These reports will show the condition of the banks just as national banks' reports to the comptroller of the currency do now. The first of these reports will give the board a more definite idea of the surplus reserves of the member banks and have an influence on the rediscount rates.

The board announced tonight that each federal reserve agent shall be bonded in the sum of \$250,000 and each deputy agent \$125,000.

OFFICIALS TO DECIDE ON WICHITA QUARANTINE

Wichita, Kan., Nov. 23.—When federal veterinarians reach this city tomorrow stockmen will know if the temporary quarantine placed on the Wichita stock yards will be made permanent. Taylor Riddle, state livestock commissioner, now is in charge of the yards which were put under surveillance last night when a disease resembling the foot and mouth ailment was found among hogs in the pens.

Meanwhile the shipment of feeders from this city is prohibited.

DOORS OF PRISON OPEN FOR "MUCKIE" McDONALD

Deer Lodge, Mont., Nov. 23.—"Muckie" McDonald and Joe Bradley, former president and vice president of the Butte Mine Workers' union, were brought to the state prison here by the sheriff of Jefferson county today to serve sentences of three and five years, respectively, passed upon them by Judge Clark at Boulder Saturday upon their conviction on charges of kidnapping and deporting miners from "Mitt" last night.

Black Lace and Velvet Over a Charmeuse and Metal Net Undership.

Illustration with a bodice of shell pink panne velvet, which divides in the back, the lower portion extending into a sash. The sleeves and flounces on the skirt are of the shimmering cloth of gold.

The artificial flower is a feature of almost every gown. It adds the note of contrast, the brilliant touch, that gives zest, or the depth of character necessary to the successful completion of any gown.

These flowers are made of silk and velvet in colors natural and unnatural. The important thing is not how near to nature they can be made, but to

EVENING GOWNS OF THE SEASON FAIRLY SPARKLE

Fluffy Flounces, and Full Skirts Give an Effect of Gaiety and Life That Is in the Highest Degree Pleasing

New York, Nov. 23.—With fluffy flounces and full skirts of materials light and airy, the evening gown of the season seems sparkling with gaiety and life. Flounces of lace, chiffon or the net are tastefully combined with velvet, thus giving what might have been heavy and delicate, breezy touch.

Cloths of gold or silver are strong features of the season's novelty fashions. These are entirely different from metal cloths which we have previously used; they are warranted not to tarnish and are as light as silk and as transparent as chiffon. On gowns of shell pink the silver is most attractively used as a trim, as a long and graceful swath, cloth of gold on white is dainty and charming beyond words. It also combines with almost any of the other colors, dark or light.

A combination of black panne velvet and cloth of silver is stunning in its simplicity. The three-flounced skirt of silver, each flounce with a black strip of itself, with the edge unpressed, that is may look almost like a cord. The bodice is made of a strip of panne velvet which is placed in a V-shape over an underbodice of net. The edges of the V-shaped neck and the extremely short sleeves of the net are outlined with a narrow band of shimmering, composed alternately of one long band and a rhinestone. In the front of the point of the V, a bright red rose given life and zest to the entire costume.

The gown of black lace and velvet which is used for the illustration is made over a slip of white charmeuse having an outer lining of gold metal net. The bodice of black chiffon velvet is made in a simple basque effect. The plain net across the front is over the metal net. The sleeves are a mere ruffle over each shoulder. The wide skirt of lace through which glimmers the metal and white is rather short, as is the style for the dresses for day or evening wear. A rose, colored flower is used at the closing of the waist.

A gown simple and wonderfully effective is made of salmon colored chiffon velvet. The skirt is full, draped several times at the top to make the silhouettes full and gracefully. At the bottom of this skirt is a six-inch ruffle gathered over a thick cord. The edge is not hemmed, but finished with a machine-made pleat. The waist is composed of a net and lace foundation, over which is draped a wide piece of the bias velvet with pleated edges, giving the effect of a low waistline and reaching as high as the point of the V-neck. At the back the velvet drooped lower than the front, showing the latest line around the hips.

Another dress worthy of note is made on an underpiece of white charmeuse and metal net. The lower section is of heavy golden yellow net with a chemise of the tan-and-gold lace through which the outline of the undergarment is visible.

Cloth of gold is used for the second

REDISCOUNT RATE WILL REMAIN AS IT IS FOR TIME

Despite Pressure on It, Federal Reserve Board Refuses to Tamper With Banking Machinery Just Yet.

Washington, Nov. 23.—Until the federal reserve board has accurate information on the surplus reserves held by member banks it does not expect to change the present rates for rediscount of commercial paper.

Present information indicates about \$200,000,000 of surplus reserves in the member banks in the north and east. The board fears that a lower rate of rediscount might lead to an exportation of gold, which they do not wish at this time. "Until this reserve stock has been lessened the rates probably will be unchanged in these sections."

In the south and west, where much of the pressure for changed rates originates, the board's information shows less surplus reserves, and it is possible that changes will be made there in the near future. No definite action, however, has been taken in regard to any suggestions in discount rates.

Weekly Reports Demanded.

The board has decided to aid the twelve reserve banks in accumulating data bearing on the question of rediscount rates by requiring weekly reports from all member banks to the reserve bank in their district. These reports will show the condition of the banks just as national banks' reports to the comptroller of the currency do now. The first of these reports will give the board a more definite idea of the surplus reserves of the member banks and have an influence on the rediscount rates.

The board announced tonight that each federal reserve agent shall be bonded in the sum of \$250,000 and each deputy agent \$125,000.

WHITNEY HOSPITAL IS SET UP TODAY

Paris, Nov. 23 (10:15 p. m.).—Mrs. Harry Payne Whitney's flying hospital is to be set up for the present in the College of Juilly, a famous institution dating from the sixteenth century, in the town of Juilly. Dr. Wilton Martin and his seven assistant surgeons of New York and fifteen nurses today were setting up the hospital of 200 beds. This is one of several auxiliary units of the American hospital in the field. Robert Hagan, former American ambassador to France, arranged with the French military authorities for the site.

Mr. Hagan today was elected a member of the American ambulance board. A report submitted shows that the cost for each patient per day in the American ambulance will be less than 10 francs, as all the services of the staff of upwards of 300 surgeons, nurses, orderlies and managers are given free. There are now 350 patients in the hospital. General Favier, chief sanitary inspector of the French army, says it is one of the most perfect hospitals in Europe.

HEADACHES

Thousands of men and women suffer from headaches every day, other thousands have headaches every week or every month, and still others have headaches occasionally, but not as regular intervals. The best doctor known today to find the cause of many of these headaches, and in most other cases, knowing the cause, he does not know what will remove it, so as to give a permanent cure. All he can do is to prescribe the usual pain relievers, which give temporary relief, but the headache returns as usual, and treatment is

MOTORCYCLISTS WHO STRUCK BOY ARE BOUND OVER

John Seth and Edgar Fursman
Await Action of Grand Jury
on Charge of Assault With
Intent to Kill.

John Seth and Edgar Fursman, who ran into Augustino Zamora, a small boy, with a motorcycle, yesterday were bound over to the action of the grand jury on the charge of assault with intent to kill. They furnished \$500 bonds.

The hearing was held before Justice Antonio J. Garcia of Duranes and began at 10 o'clock in the morning and lasted until 4 o'clock. The testimony of the boy and Altamirano Lopez, who drove the wagon in which he was riding, differed widely from that of Seth, Fursman and another witness.

Zamora said the motorcycle struck the vehicle near Matthews dairy, throwing him out. He fell in front of the motorcycle and it passed over him, he stated. The woman also testified that the machine collided with the wagon and hurled the boy out.

"Jumped in Front of Machine." The motorcycleists, however, declared that young Zamora jumped from the wagon and ran in front of their machine when it was only fifteen feet away. The motorcycle was turned to one side, but the handlebar struck the boy behind the ear, they said, and the machine rolled over him. They claimed that if they had turned the machine further it would have run into the accident.

The other witness for the defense said that the boy was on the ground between the wagon and the ditch when the motorcycle struck him.

Judge W. C. Hancock is attorney for the boy. He said last night that he was unconscious for a short time after he was struck and that he did not fully recover from the shock for several days. The judge also said that there was a slight hemorrhage from the ear.

Seth and Fursman made the following statement:

"Young Zamora at the present time appears to be in good physical condition, only the marks of his injury remaining."

CHILD INJURED WHEN HE IS STRUCK BY MOTORCYCLE

The little son of Mrs. Beale Trauth, 214 South Fourth street, was struck by a motorcycle near his home at noon yesterday. He received a cut on the head. The motorcycleist carried him to a physician's office, where the wound was dressed. The police were unable to learn positively who the motorcycleist was.

SEVENTY-SEVEN CARS ENTERTAIN OVERFLOW FROM N. M. E. A. MEET

Seventy-seven of the 120 autos offered by Albuquerque people for the entertainment of the visitors at the educational association convention were used yesterday afternoon to carry the overflow from the big meeting in the high school auditorium about the city. Had Dr. L. D. Coffman not been making an exceptionally good speech at the time, a much larger number of visitors would have felt free to make the tour of the state's metropolises.

However, Dr. Coffman held the attention of his auditors so well that despite the invitation extended just before he began to speak, no one availed themselves of the opportunity to take a ride through the city and its environs if it was humanly possible for them to find standing room in the auditorium.

The committee in charge of the automobile ride was greatly pleased at the number of cars which were on hand at the hour scheduled for the trip and expressed its appreciation in cordial terms. A hundred and twenty cars were filling the street at the scheduled hour.

It was reported late last evening that Dr. David R. Boyd had withdrawn in favor of Dr. Frank H. H. Roberts as member of the executive committee, thus eliminating the only contest for officers.

The patrons' section of the convention will hold an important meeting tomorrow afternoon in Room 211 in the high school building. The meeting is called for 2:30 p. m. Officers for the year will be elected.

LAS VEGAS GLEE CLUB PRESENTS TUNEFUL CANTATA

"Legend of Bregenz" Ren-
dered With Excellent Ac-
companiment by Pianist and
Very Good String Quartet.

"A Legend of Bregenz," a poem of Adelaide A. Proctor, set to music by Randall, was artistically rendered last evening in the high school auditorium by the Las Vegas High School Glee club, under the direction of Mrs. Adolphine Kohn. It was the musical gem of the first day's session of the convention.

Miss Ruth Conrad was accompanist and Edward Hite, Ruth Seelinger, Virginia Floyd and Philip Kolbo a string quartet which added materially to the rendition of the song-poem. The soloists, Elizabeth Coors, Mary Dixon Lowry, Elleen Trainer, Ruth Neffus, Rebe Sands and Margaret Larkin, possess remarkably sweet and strong voices for girls so young.

The chorus was well trained, and was as precise in attack as it was pleasing in harmony. The audience cheered the singers to the echo.

There were other musical numbers during the day worthy of praise. The Glee club of the University of New Mexico, under the leadership of E. Stanley Seder, sang the "Minstrel from Il Trovatore" and responded to an encore. The orchestra of the university, as well as that of the high school, played spirited selections. Most charming was the folk dancing by pupils in costume from the public schools.

The exhibits. Work on the exhibits on the third floor of the Public Library building was completed yesterday. Fully three thousand people viewed these evidences of the efficiency of the New Mexico schools. The public schools of a dozen counties and as many cities and towns are represented in addition to the higher institutions, Indian, sectarian and private schools.

Such splendid pieces of workmanship as a large sideboard, with mirror and artistic carving, all the handwork of a Navajo Indian, of course attracted marked attention. The exhibit of the public schools is especially praiseworthy, as it does not represent exhibit work but specimens selected from the every day work of the pupils.

University Display Complete. The university exhibit has been confined to a display of some of the better pieces of scientific apparatus which have recently appeared upon the market, and while the scope of the exhibit has been limited the amount of material shown has not been, and the whole northeast corner of the upper floor of the library building is devoted to the displaying of selected pieces of biological, chemical, electrical, geological and engineering apparatus.

Probably the most striking feature of the exhibit is a large Leitz microphotographic instrument of the very latest type. This instrument, which is used for making photographs of various things of microscopic size, is connected with electrical current and is in readiness for actual work. Second only to this is a complete unit of the modern electrical cooking apparatus used in the department of home economics. Through the kindness of the Albuquerque light company this unit was taken from the university and installed with all of the necessary wiring and transformers, and is in running order and in actual operation.

While most of the apparatus exhibited is used at the university for work of the most advanced type, a series of labels explaining the use of each piece is attached to each article shown, and in addition a member of the university faculty is always in attendance for the purpose of giving information to those who desire it.

SECRET SERVICE MAY BE CALLED TO PROBE THE SALAZAR CASE

The report that government secret service operatives are to be set at the task of uncovering the conspiracy to release General Salazar from the county jail could not be confirmed by United States officials yesterday.

Unless officials have some information which they have not given out government agents will have few clues to proceed upon. However, with every avenue of escape from this vicinity closed against Salazar's escape to a safer zone, the officials believe they may be able to force him out of hiding if they can place their hands on the men who aided him.

CLUB OPENING IS PUT OFF BECAUSE PRESIDENT IS ILL

Because of the illness of President T. S. Woolsey, Jr., the formal opening of the Albuquerque Country club building has been postponed indefinitely. The club, however, is open for members.

The institution has been growing steadily since it was first thought of and now numbers about 100 on its roster. The club building, which was recently completed, is handsome, of a modified mission type and harmonizes well with its surroundings. The clubhouse and the golf links, the first outdoor feature to be installed, are located just north of the grounds of the University of New Mexico.

VALUABLE POUCH IS MISSED FROM MOGOLLON MAIL

Authorities Investigating Mys-
terious Disappearance of
Package Which Contained
Several Thousand Dollars.

SPECIAL CORRESPONDENCE TO MORNING JOURNAL.
Silver City, N. M., Nov. 23.—Postal authorities here are attempting to solve the mysterious disappearance recently on the Mogollon mail line of a pouch containing several thousand dollars in checks and money orders.

The pouch disappeared from an auto mail truck at Jackson, one of the relay stations on the mail route. Immediately after the discovery of the loss, merchants at Mogollon took steps to stop payment on the missing checks and the postoffice officials also stopped payment on the missing money orders.

The pouch was either lost or stolen and if lost, then whoever found it evidently decided its contents were too valuable to turn over to the proper authorities. So far no attempt has been made to cash any of the checks. The Mogollon mail line has in years past been the scene of some daring holdups, the bandits paying particular attention to shipments of bullion from the mines at Mogollon to Silver City.

BALLOTING CARRIED ON JUST AS IN ALL MUNICIPAL ELECTIONS

An interesting feature of the election now being carried on by the members of the New Mexico Educational association is that it is carried on in every essential just as is every state or municipal election. The polls open at a stated hour, just as they do in general elections, and remain open for a stated period. In this case they open at 9 o'clock in the morning.

The persons entitled to vote simply march up to the polls, present their membership card, which acts in lieu of a prior registration, and which is secured by the payment of the annual dues of one dollar, and deposit their ballot, after marking it for the person and city of their choice.

The balloting to be carried on today and tomorrow is more or less a matter of form, so far as all officers except the member of the executive committee are concerned. For this office Dr. David Ross Boyd, president of the University of New Mexico, and Dr. Frank H. H. Roberts, president of the Las Vegas Normal university, are opposing candidates. A vote must be indicated by marking opposite the name of one or the other of these on the official ballot.

The same practice applies to the voting for the next meeting place, members of the association having to decide at this election whether the next meeting will be held here or in Santa Fe. The whole process of voting takes only a fraction of a minute.

N. M. E. A. VISITORS INVITED TO VISIT THE COMMERCIAL CLUB

All visitors to the city on account of the convention of the educational society are heartily invited to make use of the reading and writing rooms and other facilities of the Albuquerque Commercial club, according to a statement made last night by President C. O. Chismant of that body. A cordial welcome is extended to the visitors by the club and it is hoped they will accept the invitation.

UNION SERVICE WILL BE HELD THURSDAY IN PRESBYTERIAN CHURCH

The Albuquerque Union Thanksgiving service is to be held this year in the Presbyterian church. Rev. T. L. Lallance was to have preached the sermon, but was taken ill Sunday night, however, and at a meeting of the ministers yesterday morning, Rev. C. T. Taylor, the new pastor of the First Baptist church, was appointed to officiate in his stead.

Rev. Lallance is confined to his bed, but it is not thought that his sickness will develop into anything serious.

UNCONSCIOUS AT TIME HE IS TO APPEAR IN COURT

Lackamoor Wartamer, Negro,
Who Charges Dr. Cipes
With Beating Him, Unable
to Testify, Police State.

At the time set for his appearance against Dr. J. S. Cipes and L. W. Evans yesterday afternoon in police court Lackamoor Wartamer, negro, was unconscious, according to the police. He charged the doctor and Evans, who is an employee at the Cipes sanitarium, with striking and beating him.

Dr. Cipes in a statement last night said he had not struck Wartamer. When he was down town Sunday afternoon he was called to the sanitarium by a telephone message to the effect that Wartamer had attempted to hit one of the women nurses and that he refused to be put out of the kitchen, he said. The physician believed Wartamer was drunk.

Calling Evans to assist him, the doctor entered the kitchen to take Wartamer out. He refused to go and he took hold of him, the doctor said. He accounted for the negro's injuries by saying that he fell against the range.

NATIONAL SORORITY WOMEN LIKELY TO FORM ORGANIZATION

All members of sororities and women's fraternities of national standing who reside in Albuquerque or are visiting the city are urged to communicate before Thursday with Miss Kathryn Chavez at her home, 501 North Eleventh street, with a view to the formation of a pan-Hellenic organization. A pan-Hellenic league, to which members of national fraternities are eligible, has already been formed here and has about 150 members, but there is no corresponding organization for the women citizens of the Greek world.

It is intended to hold a tea at the home of Mrs. Roy Stamm, at Thirteenth street and Roma avenue, Saturday, for the completion of the organization.

Chamberlain's Cough Remedy. Mrs. Levi Franklin, of Booneville, N. Y., says, "I am pleased to say that Chamberlain's Cough Remedy was used by my son about two years ago and it proved to be very beneficial in relieving hoarseness and curing a cold. It has also been used by other members of my family and we have a very high opinion of it." For sale by all druggists.

TOO LATE TO CLASSIFY

LOST—Eye glasses and teachers' certificate of enrollment, in silk bag. Reward. Return to Journal office or high school.

FOR RENT—Three room modern apartment with sleeping porch, 324 South Sixth street. Inquire at Savoy hotel.

Lime-Loss in Tuberculosis

In the Journal of the American Medical Association (January 17, 1911) was the following:

"It has been many times stated that in tuberculosis or in the pre-tuberculous stage an increased amount of calcium (lime) is lost both in the urine and feces. In fact, a demineralization has been thought to be a forerunner of the development of tuberculosis."

"Forced feeding of tuberculosis patients and the enormous amount of eggs and milk once given such patients are not now considered advisable by a large number of physicians who are specializing in the treatment of pulmonary tuberculosis."

If tuberculosis is due to a loss of lime from the system, the success of Bolman's Alternative in the treatment of this disease may be due, in part, to the fact that it contains a lime salt as combined with other valuable ingredients so as to be easily assimilated.

Always we have urged users of Bolman's Alternative to attend strictly to matters of food.

In addition to rest and proper diet, some effective remedial agent seems to be needed, and in numerous cases of apparent recovery from tuberculous and kindred throat and bronchial affections Bolman's Alternative has supplied this need.

It does not contain opiates, narcotics or habit-forming drugs, so it is safe to try. Your druggist has it or will order it, or you can get it from us direct.

Bolman Laboratory, Philadelphia.

DEMING AND LUNA COUNTY SCHOOLS FAST INCREASE

Enrollment and Standards Adv-
ancing Rapidly; Only Two
Certificates as Low as Sec-
ond Grade in County.

The schools of Luna county were never in so prosperous and satisfactory a condition as now, said County Superintendent Grace G. Goshel, of Deming, who is one of the workers in the council and association, last night.

The Deming city schools, under the official supervision of Supt. J. D. Taylor, are among the most thoroughly organized schools to be found in the southwest. Every department of learning offered by the elementary and high schools is under trained teachers from the best colleges and universities of the country. Domestic science, manual training, commercial and agricultural courses, are well equipped and in charge of experts.

Many New Buildings.

"The board of education has found it imperative to erect two new school buildings during the past year, and it is now advertising for bids for the third. The board has also purchased a twenty-acre tract near the present high school for the erection of a county high school. The ground has already been cleared and a ten-acre plot reserved for a demonstration farm to be under the direction of the high school instructor in agriculture, assisted by the Luna county agricultural extension agent employed by the department of agriculture. It might be said in passing that Luna county is the first in the state to employ an agricultural expert."

"The erection of new buildings follows as a natural sequence of our rapidly increasing population."

"Two years ago the Deming school census was 831. This year it is 1,567, and the city is keeping fast pace with the increasing school population."

Nine New Rural Schools.

"During the past two years nine fine new buildings have been necessary to take care of the advancing rural schools. In addition to these three new buildings are in contemplation. The percentage of increase of the rural schools is almost on a par with that of Deming, and it is a great credit to Luna county teachers to have the fact stated that there are but two certificates as low as the second grade in the county."

Vocational Training Emphasized.

"A great deal of attention is given to vocational training, particularly in domestic science, manual training and agriculture. With one exception every school is provided with from two to four acres for agricultural demonstration. I invite particular attention to the

splendid exhibit in mechanical drawing in the Deming school exhibit displayed in the public library building.

"The average attendance throughout the county is very high, being 93.6 of the full enrollment last month.

School Spirit High.

"The school spirit of Luna county may be understood when I say that when a vote was taken to establish a county high school at Deming, but two negative votes were cast in the entire county, although it entailed an extra two-mill tax on all property in the county. The board of education is paying all expenses for their teachers to enjoy the benefits of this meeting."

"Athletics have been given proper attention and as a result Deming now claims the high school football championship of the southwest."

TEACHERS ESPECIALLY INVITED TO DANCE AT THE ARMOY TONIGHT

All members of the State Educational association are particularly invited to attend the dance which will be given in honor of the city's guests tonight at the armory by the Retail Merchants' association. This dance is intended to afford the visitors an opportunity to meet each other and the people of Albuquerque.

The affair will be strictly informal and no one will be expected to dress in anything more elaborate than he is accustomed to wearing.

A feature of the affair which will be particularly attractive is the series of illustrations of the modern dances which will be presented by H. E. Dugan of this city. Mr. Dugan is well known as an exemplifier of the newer steps and much interest will be taken in his appearance.

From 9:00 o'clock until 9:30 there will be a concert by the Albuquerque Indian school band, which has prepared a particularly attractive series of selections for this occasion.

The booster orchestra of seven pieces has been engaged to furnish the music for the affair.

This orchestra recently played for one of the most brilliant dances ever held in Madrid and has played at many important local affairs.

BEST LAXATIVE FOR CHILDREN

When your baby is cross and fretful instead of the happy, laughing little dear you are accustomed to, in all probability the digestion has become deranged and the bowels need attention. Give it a mild laxative, dispel the irritability and bring back the happy content of babyhood.

The very best laxative for children is Dr. Caldwell's Syrup Pepsin, because it contains no opiate or narcotic drug, is pleasant tasting and acts gently, but surely, without griping or other distress. Druggists sell Dr. Caldwell's Syrup Pepsin at fifty cents and one dollar a bottle. For a free trial bottle write to Dr. W. B. Caldwell, 451 Washington St., Monticello, Ill.

"I invite particular attention to the

THOUGHT SHE COULD NOT LIVE

Restored to Health by Lydia
E. Pinkham's Vegetable
Compound.

Unionville, Mo.—"I suffered from a female trouble and I got so weak that I could hardly walk across the floor without holding on to something. I had nervous spells and my fingers would cramp and my face would draw, and I could not sleep, nor sleep to do any good, had no appetite, and everyone thought I would not live."

Some one advised me to take Lydia E. Pinkham's Vegetable Compound. I had taken so much medicine and my doctor said he could do me no good so I told my husband he might get me a bottle and I would try it. By the time I had taken it I felt better. I continued its use, and now I am well and strong.

"I have always recommended your medicine ever since I was so wonderfully benefited by it and I hope this letter will be the means of saving some other poor woman from suffering."—Mrs. MARTHA SEAVEY, Box 1144, Unionville, Missouri.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

COME AGAIN NEXT YEAR.

It goes without saying that Albuquerque wants the teachers to come again in 1915. It recognizes in the convention of the New Mexico Educational association the greatest single event of the year, overshadowing in importance as well as in size every other gathering that is held at any point in the state. Its people have genuinely enjoyed having the educators with them and hope that the pleasure of the occasion has been reciprocal.

It is far from the intention of the Journal to belittle the claims of Santa Fe, its competitor for the honor of entertaining the teachers next year. The beauty and historic interest of the Ancient City, as well as the wholehearted hospitality of its people, are traditional, and if Santa Fe should be chosen as the next meeting-place of the convention the Journal will work just as hard for the success of the meeting as it has ever done when Albuquerque was the convention city.

It is entirely appropriate, however, in presenting arguments in favor of bringing the convention to Albuquerque again, to call attention to the experience of the association before it began to meet in this city and since it has been meeting here.

Three years ago the last time that the convention was held elsewhere than in Albuquerque, the total enrollment of the association was approximately 300. Today it is over 1,500. Prior to the time that the association began coming here, the attendance on its meetings was almost entirely local. Today there is not a county in the state that has not a large delegation of teachers present at the convention. Three years ago the influence of the organization amounted to little. Today it is the biggest and most potent factor in shaping the thought of the people of the state.

It is a significant fact that there are present in Albuquerque today a larger number of actual bona fide educators who are members of the association than was in attendance on the last convention of the state teachers' association of Oklahoma, a thriving commonwealth with more than two million population!

The only credit that Albuquerque claims for bringing about this result is that she is better situated geographically, enjoys better transportation facilities and is better able to take care of a crowd than any other city in New Mexico. Her people are probably no more willing or anxious to exert themselves in the interest of the association than are the people of Santa Fe or a half dozen other cities of the state—but they have more to offer in the way of comforts and conveniences, and they have given unmistakable proof of the fact that the mere holding of a convention in Albuquerque is in itself a long step towards its complete success.

For these reasons Albuquerque feels that she has a good right to bid the teachers to come again next year.

And then don't forget that after the highbrow stuff is over there will be an educational exhibit at Hopewell field, Thursday afternoon at which some well educated muscle will be brought into play in a demonstration of the science of football.

TWO REMARKABLE MEN.

It is no disparagement to the other soldiers in the great educational army whose forces are now marshaled in Albuquerque to say that the most conspicuous feature of the showing made by the schools of the state during the past year has been the work done by two county superintendents, Atanasio Montoya of Bernalillo county,

ty, and John V. Conway of Santa Fe county. Working along different lines both these men have achieved results that are nothing short of wonderful.

To fully appreciate what Mr. Montoya and Mr. Conway have accomplished in their respective counties it is necessary to understand the conditions that prevailed before they came into office. It is no exaggeration to say that at that time education in the rural sections of both Bernalillo and Santa Fe counties was at an extremely low ebb. The 'dobe shack' with a single room, poorly lighted and worse ventilated, answered all the purposes of the schoolhouse. Interest among the people in the bettering of these conditions virtually did not exist. Not much was required of a teacher other than he or she should be possessed of a political pull.

How different conditions in those two counties are today is shown by a perusal of the account in the Journal of last Friday of the work done by the schools of Santa Fe county and the story in the Journal of yesterday of the progress made in Bernalillo county. How rapid are the strides that have been made is evidenced by the really splendid exhibits of both counties at the convention of the New Mexico Educational association which is now in progress.

Concentration of money and of energy in such a manner as to get the best possible results and a ceaseless pounding into the minds of the people of the absolute necessity for an improvement of conditions has characterized the course of both Mr. Montoya and Mr. Conway. The zeal and the unselfish devotion of both have been almost beyond belief. Each has given unparagonably of his time, his money and his strength, and each has as his reward the consciousness that he has been a public benefactor.

With men like Atanasio Montoya and John V. Conway in charge of the county schools of the state the prospects for a bigger and better New Mexico are indeed bright.

The democratic papers down in Tennessee can afford now to let up on Hooper. They can even afford to agree that he made a pretty good governor, considering the fact that he was a republican.

A MONTH TO CHRISTMAS.

It is none too early to begin to talk up the coming Christmas. One month from today will be Christmas eve. Well begun with Christmas, as with other good things, is half done. Some one has said that the world is saved every year by Christmas, and though in this fateful year murky clouds obscure its appearance, we know that "his light was born where neither storm nor cloud enshrouds."

Browning tells of one who never doubted that earth's darkest cloud would break and we may be sure that the enshrouding clouds of this Christmas will certainly break, and that the great purpose will appear like the bow in the sky, and will be seen and understood. So we of the United States celebrate this Christmas with glad hearts and free.

No one ever fully appreciates Christmas and what it stands for till he loses the old Christmas noise and confusion out of his home and quiet retreat in the house at those times when the happy noise is heard in so many homes. In a recent so-called autobiography of the soul, an old man tells of his happiest and saddest memory of a Christmas of long ago.

Sitting by his library table covering the more remorseless hours with reading, he is conscious again of a little white-robed figure coming down the stairs, his little baby girl, who has been awakened, in some way from her first sleep and full of the Christmas excitement, comes climbing on his lap to give her father another good night kiss, and to hang for a while around her mother's knee because it is almost Christmas day, and she is so glad. As a special dispensation, she is allowed to stay in the warm firelight kindled to aid in deepening and making clearer the happiness of the year's happiest night. It is all gone now, the old Christmas, and the mother and the little child. But what is the memory worth in the days that are largely made up of memories? It is priceless.

But no matter what happens, or seems to happen, one should not despair, for other homes are bright and the conviction is growing that Christmas means much more than has ever appeared on its cheerful surface. It stands for the birth into the race of the highest consciousness, the spiritual man. We may say that it is the proof of the ultimate and certain appearance of the new race which will in time crowd out the old, as the civilized man has displaced the savage, and will "inherit the earth."

Dr. Maurice Bucke once wrote a book called "The Cosmic Consciousness," in which he gave many instances of the appearance during the last twenty centuries of sporadic cases of a new race. He predicted that these cases would appear with increasing frequency in the immediate future, and that with the new race wars would cease, justice would reign and that the world would be made over anew.

It has been the dream of prophets and seers, and in this case has become the conviction of a modern scientist. It is worth more than a faint hope or a moment's consideration. It is also the content of the Christmas day that celebrates the birth of "the first born among the brethren." The world has a legitimate right to rejoice on Christmas day, for no matter how dense the clouds that obscure, they will break.

Read Invites All Historians to Aid in Finding Truth

The Editor of the Albuquerque Morning Journal.

Sir: For the benefit of the public kindly publish the following letter, or statement.

It is the people's right to know the truth in history as in all other public matters. If historians disagree when the proofs are at hand duty compels them to compare authorities with the view to establishing the truth regarding the various historical errors heretofore published as facts.

Among the important errors that have been published is the error that Onate founded the first colony in New Mexico, in 1598, on the west side of the Rio Grande, naming it "San Gabriel." It is true that the difference on this particular point, between historians lies in ascertaining on what side of the Rio Grande did Onate make his first settlement. The importance of identifying, as nearly as possible, the precise location is self-evident, primarily because the state may some day, as I believe it will, decide to monument that and other historic places.

My dissenting colleagues, in affirming that San Gabriel was the first colony, rely wholly on Father Geronimo Zarate de Salmeron, that author being the first to state that Onate had made his first settlement between the Rio Grande and the Rio Chama (Zama, as Salmeron calls it). But Salmeron, evidently, never saw the first authorities, for he not only fails to cite or mention as his authority, Villazra, Onate, or any one else, but is so extremely brief and confusing (more so even than Torquemada), that as my colleagues will have to admit upon a full discussion, he does not even by inference, mention San Gabriel nor the Pueblo of San Juan.

Until the 12th inst. I had given up all hope of ever obtaining Salmeron's account, in Spanish, of Onate's conquest. The English translation thereof, of a most excellent one, too, by Dr. Charles F. Lummis, the well known and highly reputed historian, is accessible (a copy was kindly furnished me by Rev. Father Zephyrin, O. F. M., historian of the Order of St. Francis of California, same appearing also in Dr. Lummis' book, "The Land of Sunshine").

Just a few days before the 12th of the present month I had received a communication from one of my Spanish agents, from Barcelona, Spain, advising me that Salmeron's book could not be found; but on the aforesaid date the much desired data reached me by registered package from my other agent at Madrid, although I had already, through the kindness of Dr. Charles F. Lummis, located one of the few books, containing the same information in the City of Mexico. This priceless acquisition enables me to confirm what I have published in my New Mexico histories regarding the location of New Mexico's first colony; it gives me additional data to prove, (1), that the colony of San Gabriel was not the first colony; (2), that the first colony was founded on the east side of the Rio Grande and was named "Ciudad de San Francisco de los Espanoles"; (3), that the first church was built in the Pueblo of San Juan in August and September, 1598; (4), that Salmeron wrote his work on hearsay, as he frankly states it, and not on the official reports of Onate, or of any of Onate's captains of missionaries, with all of which said reports Salmeron disagrees; (5), that some of Salmeron's statements we, from our own personal knowledge of the topography and geography of the country, can unhesitatingly pronounce, to be greatly exaggerated, especially what he says regarding the mineral riches of New Mexico.

I am further prepared to confirm, with first source of authority, independent of the statement made by the Zuni Indian governor here in Santa Fe in 1882, what I have said in my said histories about Cabeza de Vaca's visit to Zuni.

Believing, as I do, that we owe it to truth and justice to settle the disputed facts amongst ourselves (the historians and history students) in order to prevent our children and the reading public from reading what heretofore has passed as facts, I, as chairman of the committee on "Historical Dates of the Archæology Society of New Mexico," hereby invite all authors and history students who differ with me, to meet with me and my said committee, for the stated purposes, in Santa Fe, or at any other place as may be agreed upon.

To accomplish our object a meeting of said committee will be called as soon as the wishes of the invited authors, etc., are communicated to me.

Respectfully,
BENJAMIN M. READ,
Santa Fe, N. M., Nov. 24, 1914.

An educational convention has several decided points of advantage over a state fair, one of the greatest of which is that it doesn't leave a dark brown taste in the mouth the next morning.

Enver Boy, the Young Turk leader, is said to affect the genius of Napoleon. This is a bad time for Napoleon. There are too many aeroplanes about for one to put anything over.

We don't blame Santa Fe one bit for wanting to take the convention away from us, and we trust that they are good enough sports not to blame us for wanting to keep it.

And now it is reported that the big tobacco crop of Massachusetts is failing to find a remunerative market. Buy a plug.

We trust that in due course the unspeakable Turk will speak up and tell us about how it happened.

Persia is doubtless wondering if a Persian rug is to be used as an eastern door-mat.

It is not too early to do your Christmas shopping early.

REGISTRATION OF N.M.E.A. MEMBERS BREAKS RECORD

Over 1,300 Members Enrolled Before First Session of Organization Begins at High School.

The secretary, J. H. Wanner, the human dynamo, who has been furnishing the power for the educational convention, early yesterday forenoon had to send for more blank receipts and badges, as the supply of 1,200 he had feared that the attendance would fall below the 1,000 mark were dispensed and even the phenomenal record of last year was broken.

Some of the counties which last year failed to send large delegations came to the fore enthusiastically. Rev. Manuel Madrid of Mora county headed a delegation of forty. John V. Conway of Santa Fe county brought 150. It is no wonder, therefore, that when Supreme Court Justice R. H. Hanna mentioned the county superintendents of Santa Fe and Bernalillo counties on Saturday evening as two officials with whom the state is well satisfied the audience broke out in cheers. Other Spanish-American counties sent delegations that astonished officials of the convention.

The boosters for Santa Fe as convention city began button-holing the delegates bright and early. A special Sunday educational number of a Santa Fe paper, full of half-tone illustrations, setting forth the advantages of the capital as convention city, was distributed.

The teachers yesterday forenoon took full possession of the high school building. Those who witnessed the spelling, arithmetic and language contests crowded the study hall and library. The section of institute workers moved from one room to another until they finally found a place large enough to accommodate them. The Indian school section, called for 9 o'clock, did not convene until after 11 o'clock, and confined its work to membership enrollment.

Today's Program.

It is today that most of the sections will get down to solid work. The county school superintendents, who met informally yesterday forenoon with Chief Clerk Rupert F. Asplund of the department of education to devise a satisfactory blank form book for the return of statistics, will hold their first formal session this forenoon in room 302 with Superintendent John V. Conway of Santa Fe, chairman, and Miss Grace Goebl, secretary. The discussion promises to be animated and includes the following topics:

"County Supervision," with County Superintendent L. C. Merstolter as leader, and A. Montoya, Mrs. Joelle Lockard, J. V. Gallegos and Mrs. W. A. Gumm to take part in the discussion.

"County Superintendents' Legal Duties," with A. B. Stroup as leader and W. A. Poore, Grace Goebl, Jose Montoya and Isabel Eckles down for discussion.

"Needed Improvements in the Laws in the Interest of Better Supervision," with Superintendent M. P. DesMarais as leader and H. L. Everett, Saturnino Baca, Manuel Madrid and R. S. Tipton on the program for discussion.

"County Superintendents' Records: Financial and Statistical, as to Teachers, Children and School Property and Equipment," in which subject Superintendent J. L. G. Swinner will lead and Superintendents F. F. Hayner, Mrs. S. F. Culbertson, E. Pack and

Benjamin Sanchez will carry on the discussion.

Other sectional meetings will be: "City Superintendents," of which Joseph S. Hofer of Tucuman is chairman and W. O. Hall of Roswell is secretary; "Elementary Schools," of which Mrs. George Dixon of Magdalena is chairman and Mrs. Kate Livingston of Tularosa is secretary, which will meet in the auditorium; "Indian School Section," of which Resner Perry is chairman, in room 112; "Commercial Teachers," of whom Miss Helen M. Calkins is chairman, will meet in room 306; "Industrial Teachers," of whom Charles I. Schrock of Farmington is chairman and Gladys Palmer is secretary, will meet in room 311; "Music and Drawing Teachers," of whom E. Stanley Reeder of Albuquerque is chairman and Ruth Foster of Las Cruces is secretary, in the study hall; and finally, the "Mathematics and Science Teachers," of whom Prof. T. G. Rodgers of Albuquerque is chairman and Prof. T. C. MacKay of Socorro is secretary.

General Sessions.

The third general session will convene at 2 o'clock in the auditorium of the high school. This afternoon will be given to the cause of higher institutions. President E. B. Craighead of the University of Montana will deliver the opening address, touching on the subject of the advisability of consolidating the higher institutions of learning.

The different state institutions will be represented by speeches not to exceed fifteen minutes in length. M. L. Fox of the Albuquerque Morning Journal is to deliver an address on behalf of the University of New Mexico. Prof. John H. Vaughn of the College of Agriculture and Mechanic Arts will represent that institution. Secretary of State Antonio Lucero will speak for the New Mexico Normal university at East Las Vegas and the Spanish-American Normal school at El Rito. Prof. Myron R. Laghib of Silver City will be the champion of the New Mexico Normal school located there. Captain Austin D. Crile will represent the military institute at Maxwell and President Fayette A. Jones the New Mexico School of Mines.

The session will be followed by the social event of the week, the reception to the visitors at the Masonic temple by the ladies of Albuquerque. The evening session at the auditorium is to begin promptly at 7:30 o'clock and will be in charge of the school patrons' section, with Mrs. John Wilson as chairman. Miss Lute E. Stearns of Milwaukee, Wis., one of the star attractions of the convention, will deliver an address on "Social Relationships in Community Life." Francis E. Lester of Meilla Park will make "A Parent's Plea for Good Roads," and will illustrate his talk with a set of colored slides specially loaned for the occasion by the office of public roads in Washington.

The musical program. The music during the day will be of an especially attractive character. It will be furnished at the afternoon session by the Manual school orchestra, the Bernalillo County Teachers' Glee club and the Manual School Glee club. In the evening Mrs. E. L. Bradford will sing Dekoven's "Reveries." The New Mexico Normal University Glee club and orchestra will render several selections. The concert will be under the direction of Charles J. Andrews and the soloists will be E. Stanley Reeder, Charles J. Andrews, Miss Charlotte Pratt, Louis Hesseliden, I. L. Tello and Mrs. E. L. Bradford. The program is as follows:

Piano solo—Valse in E. Moszkowski E. Stanley Reeder.
Duet—"Oh, That We Two Were Mayn't"—C. J. Andrews and Miss Charlotte Pratt.
Bass solo—"Rolling Down to Rio"—Louis Hesseliden.
Violin solo—"Scherezo"—Wienlawski I. L. Tello.
Soprano solo—"A Birthday"—Woodman Mrs. E. L. Bradford.
Tenor solo—"When Shadows Gather"—Miss Charlotte Pratt.
Soprano solo—"At the Spring"—Cowles Mrs. Charlotte Pratt.
Violin solo—"Hugie Kati"—Hubay I. L. Tello.

FRENCH EXHIBIT IS
PROOF OF GRATITUDE

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Washington, Nov. 22.—The decision of the French government to adhere to its original intention of participating in the Panama-Pacific exposition at San Francisco was an act of gratitude for American aid to the wounded and suffering of the present war according to advice received by the state department today from Ambassador Herriot.

France also was desirous of showing Mr. Herriot said, that notwithstanding the invasion of her territory and the stress of war, she could join the nations of the earth in celebrating the opening of the Panama canal. The French exhibit will include a reproduction of the Palace of the Legion of Honor in which will be installed historic French art, tapestries, furniture and ceramics. A complete showing also will be made of contemporary French art in the Palace of Fine Arts. Modern artistic manufactures will be installed in the salons of the French pavilion.

Captain Hill Denies Interview.

Boston, Nov. 22.—Capt. Walter N. Hill, of the United States marine corps, tonight declared untrue a published interview which quoted him as saying that Mexicans probably would be burning and looting Vera Cruz by night if the Americans left there today. He expressed the opinion that the alleged interview was a garbled account of a personal conversation, as he had remarked to a friend that there might be trouble in Vera Cruz when the United States forces departed.

Consipation.

Gain Flesh Get Calm Nerves Build Up
lean Flesh-Maker Discovered at Last SAFE and SURE

Gain Flesh, New Life and Health as thousands have done. See how quickly the real flesh-maker Certone will build you up. Letters pour in from happy people telling how Certone has given them flesh, strength and good condition after everything else had failed. The most wonderful proofs and testimonials you ever saw from Doctors, Ministers, Physical Culture Experts and delighted men and women of all ages. Just a few for example: Rev. F. M. Thuille gained 20 lbs.; Dr. J. H. Thomas (83 years old), 11 lbs.; Miss M. V. Lee, Secretary of Christian Endeavor Union, 22 lbs.; Mary-vel Boylen, 15 lbs.; William Brown (30 years old), 10 lbs.; Mrs. E. M. Authmet (10 lbs. in 30 days); Lucy Collins (7 lbs. in 8 days); Miss Tille, 35 lbs.; Lillian J. Schieve gained a pound a day; H. de Loteli, 10 lbs. from one box; Louise Boyd, 3 lbs. first week; W. Kiefer, 25 lbs.; P. Ferveno, 5 lbs. from one box; Lizette Spackbill, 22 lbs. in 45 days, etc., etc.

NOW LET CERTONE SHOW YOU, in a sure and safe, Certone contains potent nourishment tones extracted from special food principles, just what you need and MUST HAVE to build you up. The ONLY way. Get a box of Certone at any drugstore. Don't lose another day. Give this remarkable flesh-maker a chance. Then watch your improvement in your mirror. Watch your gain. Note how quickly and delightfully you gain through Certone.

Resinol

stops skin torture

Make your skin well with Resinol Ointment and Resinol Soap. They work so quickly and surely that it positively seems as if you could see them do good. Itching usually stops at once, healing begins, and the red, raw, scaly or pimply skin soon becomes clear and healthy again.

Resinol Ointment and Resinol Soap are also excellent for pimples, dandruff, sores, wounds, boils, and for a score of other uses where a soothing, healing treatment may be needed. Practically every druggist sells them, but for full free, write to Dept. 218, Resinol, Baltimore, Md.

The House Without A Cold Spot

THE house that has a Perfection Smokeless Oil Heater needn't have a cold spot anywhere.

A Perfection is light and can be carried easily from room to room—anywhere that extra heat is needed.

For the "between seasons" of Fall and Spring the Perfection Smokeless Oil Heater gives just the heat you want.

PERFECTION SMOKELESS OIL HEATERS

Perfection heaters are solid, handsomely designed and guaranteed smokeless and odorless. Look for the Triangle trademark.

PORTALES GIRL WINS SPELLING CONTEST HONORS

Amanda Mueller Victor in Statewide Competition in Which Thirteen Entrants Face the Judges.

A demure little German girl in blue, Amanda Mueller, from Portales, carried off the spelling honors yesterday at the state contest. Thirteen girls and boys, representing every section of New Mexico, and at least three nationalities, were lined up against the blackboards in the study room and library at the high school, to be shot, not with lead, but with words fired from the speller used as a text book in the schools.

It wasn't long before the first victim succumbed to the word "anodyne." The second one to drop out failed to spell "apology" correctly. "Benefit" was too much for the tallest boy in the crowd and "embarrass" felled a pretty little girl who wore a green tam-o'-shanter. "Emery" slew Roosevelt county's champion rural speller, Louella Greenwood of Lordsburg, and the word "exhilarate" demanded four victims, the last one Lucille Cade of East Vaughn. "Pricassee" brought down another of the champions, who, however, was the last of the rural section and therefore was awarded the first prize in that division.

This was William S. Parsons of Fort Sumner, Guadalupe county, a pleasant lad of the seventh grade, Juan Romero of Bernalillo, Sandoval county, the only Spanish-American in the contest, stood up nearly to the end. Lucila Gray of Santa Rosa was next to the last to succumb in the city section and it was the word "guttural" that felled her, leaving Amanda Mueller, the little German girl in blue, from the eighth grade in Portales, as the victor. She received deserved applause.

Offers Additional Prize.
The spelling bee aroused such enthusiasm that D. B. Merrill of Hot Springs, Sierra county, offered a prize of \$2 in cash to the winner in a contest in which the first thousand words in the speller are to be given.

In the written spelling contest, in which there were also thirteen entries, 100 words were dictated. The papers had not been graded last evening. Similarly, the papers in the grammar and arithmetic contests, which followed the spelling bee, cannot be graded until today, although the entries were few.

Institute Section.
While these contests drew a large crowd to the library, the section of institute workers also had a big audience. Superintendent of Public Instruction Alvan N. White presided and made a preliminary statement. Mrs. Nora Trumbull led the discussion on "Suggestions for Institute Improvement." J. S. Hoffer of Tucuman led the discussion on "What is Best in the Institute for Third Grade Teachers," and Prof. J. H. Vaughn of State college on "What is Best in the Institute for Higher Grade Teachers." Miss Manette A. Myers of Santa Fe was the leader in the topic, "What Emphasis Shall Be Placed on Special Subjects in the Institute?" placing the emphasis on vocational training, while Miss Maude Hancock of Alamogordo championed the cause of music and O. C. Ziegler of El Rito, manual training.

WEDDING DRESSES ARE STOLEN BY BURGLARS

Three wedding dresses beside other apparel were stolen by burglars from S. Kahn's store, 109 North First street, Sunday night. The burglary was discovered yesterday morning by Mr. Kahn when he opened the store. The burglars gained entrance through the skylight. They lowered themselves into the store by means of a rope. The total loss, Mr. Kahn reported to the police, was \$250.

The ladies of St. John's guild will give their annual Thanksgiving tea on Tuesday, November 24th, at the home of Mrs. George Klock. There will be a sale of home cooking and fancy work, also a supper from 5 to 8 o'clock for 25 cents to which the men are invited.

COUNTY'S TAXES FOR THIS YEAR TO BE \$350,282

That Amount Theoretically to Be Collected by Treasurer for City, State and County; Assessment Roll Approved.

Bernalillo county, including the city of Albuquerque, will pay \$350,282.92 taxes this year, according to Assessor Fred H. Heyn's assessment roll, approved yesterday by the county commissioners.

Of this amount the city of Albuquerque will receive \$63,466.56. The board of education's share will be \$72,368.47; the county's, \$125,116.49, and the state's, \$67,252.77.

Last year the total value of city, county and state, and the special levies theoretically raised \$360,327.14. This was upon an assessed valuation of \$6,837,085 in taxable property for both the city and county.

The total assessed valuation for the city and county for this year is \$13,006,795. Only one-third of this, or \$5,802,581, however, is taxable value. City Valuation \$13,188,216.

The total valuation for the city for this year is \$13,188,216. From this there is \$272,256 to be exempted, leaving \$12,915,960, of which one-third, or \$4,468,653, is subject to taxation.

For this year the valuation on city lots is \$4,446,848 and the valuation on building and improvements is \$4,946,601, making a total of \$9,393,449. The difference between the \$9,393,449 and the total assessed valuation for the city is made up by personal and other property.

The total value of track, rolling stock and buildings owned by railway in this county is \$1,795,242. The value of the rolling stock is \$1,195,242 for the county. Tools and machinery owned by railway in the county are valued at \$600,000.

The value of telephone lines in the county is \$101,822 and the value of telegraph lines, \$9,692.

WILL ISSUE SUBPOENAS FOR ELECTION OFFICIALS

The commissioners authorized the issuance of subpoenas for all judges and clerks of election who have not appeared at County Clerk Walker's office by December 5. Nearly one-third of the officials have signed the certificates contained in the poll books since Secretary of State Antonio Lucero returned them to the county clerk for that purpose. Mr. Walker believes that nearly all will sign before the date set by the commissioners.

SICK CALL NOT A VALID EXCUSE FOR SPEEDING--JUDGE

Dr. Evelyn Frisbie, charged by Patrolman Martin Byrnes with speeding in her automobile, told Judge McClellan, acting police judge, yesterday morning that she was hurrying to a patient.

Judge McClellan decided this wasn't a valid defense, pointing out that a hurried response to a sick call might result in injuries to persons using the streets. He fined the doctor \$10.

Elfeago Baca, charged with running his automobile without lights, and J. C. Boyd, charged with running his motorcycle without lights, were fined \$10. The sentence was suspended in both cases.

Leopold Meyer was fined \$10 for speeding. He paid the fine.
