## BANK CLOSED.

People's Bank of Painesville, Ohio.

Officials of Venezuela Fear Exploding Bombs.

A Kentucky Ravisher Strung Up for His Deed.

PARKER-HUGHES CASE DECIDED.

Painesville, Ohio, Jan. 11.—The People's bank of this city closed today on account of the suspension of the Painesville Trust & Savings company, of Cleveland, Ohio. The bank was closed at 10 o'clock this morning, which it was thought it would be impossible to meet. Assignment was made to Harley Barcus, vice president of the Painesville Trust company. No statement made of assets and liabilities.

The statement issued by the bank on October 1 last showed the total resources, \$230,640; capital stock paid in, \$50,000; individual deposits, \$1,250,000; undivided profits, \$1,000.

G. G. Grant, a director, made the following statement:

"There is no reason why the bank should not pay every dollar. This bank was run independent of the Cleveland bank and its securities are independent."

### Exploding bombs.

Willemstad, Island of Curacao, Jan. 11.—Bombs exploded here today. Tuesday the house of a man named Mendoza, minister of finance, and other bombs exploded in different parts of Curacao. The political situation of Venezuela is unchanged. The success of the revolution depends entirely on the results of the landing of adherents of General Matos.

### A RAVISHER HANGED.

A Kentucky Mob Strung Him "Speedy."

Springfield, Ky., Jan. 11.—Jim Mays, a negro, charged with assaulting a white girl in the Sam's neighborhood Wednesday, was taken from jail by a mob early today and hanged to a tree. The mob after having killed the man, demanded the keys to the jail. Their request was refused. They immediately began to hammer the locks on the jail doors. It took but a few moments to obtain entrance. They found Mays cowering in his cell and begging other prisoners to protect him. The leaders took charge of the man and dragged him to the high school yard, where he was speedily strung to a tree.

### Democratic Candidate Wins.

Topoka, Kan., Jan. 11.—The supreme court today decided the Parker-Hughes majority contest case in favor of Albert Parker, the democratic contestant.

### PROFESSIONAL PLAYER.

Harvard Won From Yale with Professional Football Player.

Cambridge, Mass., Jan. 11.—Oliver F. Cutts, right tackle of the Harvard football team, 1901, whose athletic standing was the subject of an exhaustive inquiry before the game with Yale last November, is declared to be a professional player in a statement made public today by Prof. Ira Hallowell, of the Harvard athletic committee. Evidence was produced that while teaching at Haverford, Cutts gave private boxing lessons for pay. The committee decided that they must change the decision made the evening before the Yale game, that Cutts was a pure amateur and it was also decided to explain the case to the college and send copies of the explanation to all colleges and universities with which Harvard played, as the best means of reparation.

### Memorial Meeting.

Washington, D. C., Jan. 11.—The joint committee of the senate and house, appointed to make arrangements for a memorial meeting in honor of President McKinley, which Secretary Hay will deliver an address, decided today that the proposed meeting was to be held in the hall of the house of representatives at noon of February 27.

Convention of a New Organization.

Dr. Anthony Acquitted of Treason and Aiding Boers.

Offer to Sale Panama Canal Made in Good Faith.

COLORADO BOARD OF ASSESSORS.

San Francisco, Jan. 11.—The first biennial convention of the chief division of United Brotherhood of Railway Employees, a new organization that is finding considerable support from all branches of railroad service in the west, will be held Monday, and probably last throughout the week. Although organized here but a few months ago, the brotherhood already embraces sixty-seven divisions in California, Oregon, Nevada, Utah, Colorado, Montana, Arizona, New Mexico, Texas, Louisiana, Idaho, Kansas, Illinois, Ohio, and Pennsylvania. The object of the organization is consolidation of all railway employees into one order for mutual benefit.

### Acquitted of Treason.

Washington, D. C., Jan. 11.—A cablegram received at the state department from United States Consul General Bingham, at Cape Town, announced the acquittal and release of Dr. Richard S. Anthony, who has been on trial there on the charge of high treason and aiding the enemy. Anthony is an American citizen, but lived some time in South Africa, where he married a Boer woman. Mrs. Anthony is at present in Chicago.

### PANAMA CANAL.

Testimony Before Senate Committee on Sale of the Canal.

Washington, D. C., Jan. 11.—M. Edward Lamport, representing the Panama Canal company, appeared before the committee on the canal today in obedience to summons to testify concerning the offer of his company to sell its property and franchise to the United States. Jules Bonnevise, of the French embassy, also was present. The meeting was held behind closed doors. Lamport was questioned at length by members of the committee. He said the offer had been made in good faith, and the company was able to deliver the goods.

### COLORADO ASSESSORS.

Supreme Court of Colorado Decides Against Board of Assessors.

Denver, Colo., Jan. 11.—The supreme court today declared the state board of assessors could not have a rehearing in the matter of punishment for contempt. This confirms a former decision that assessments sent out by the state board of assessors, while the case was still pending, are null and void. Attorney General Post says, in his opinion, this decision makes void the assessments levied by the state board of assessors in the state without their having been given an opportunity to be heard in court. Justices dissented from the opinion. There is no appeal from this decision of the court.

### MISS DOLORES OTERO.

This Popular Albuquerque Lady Was Married in Chicago.

A special dispatch to the Denver Republican, from Chicago, under date of January 9, reads as follows:

Miss Dolores Otero, of New Mexico, daughter of Gov. Miguel A. Otero, who has represented the territory of New Mexico for several sessions as delegate to congress, was married today to John B. Burg of Washington, D. C. Archbishop Fechen officiated. Joseph B. Burg, brother of the bride, was best man, and Miss Marguerite Burns maid of honor.

After the ceremony, a wedding breakfast was served, and in the afternoon the bride and groom departed for the east.

The bride's dispatch is misleading in two important facts. The pretty bride, who is one of Albuquerque's most popular young ladies, is not the daughter of the Mexican governor, but the daughter of Hon. Mariano S. Otero, of this city, who is the president of the Bank of Commerce and one of the most substantial citizens of New Mexico, and again it was he (not the governor) who was a delegate to congress from this territory.

To the bride and groom, the latter having visited this city a few days ago as a guest of his brother, Prof. C. E. Burg. The citizen joins their many friends in wishing them a long and happy married life.

### HARD AGAINST OTERO.

Strong Efforts Making to Prevent His Confirmation.

A special dispatch to the Globe Democrat, from Washington, under date of January 9, says:

A very stubborn and persistent fight is being made in the senate against the confirmation of Miguel A. Otero as governor of New Mexico. President Roosevelt sent Otero's nomination to the senate several weeks ago, but through the effort of a couple of Otero's enemies, headed by ex-Gov. L. Bradford Prince, New Mexico, confirmation has been delayed. Prince, it is said, has drawn up formal charges against Otero and these have been presented to the senate committee on territories.

The president is fully aware of the charges made against Otero; in fact, he was familiar with them before he decided to reappoint the governor of New Mexico. It is understood that Roosevelt will insist on Otero's confirmation.

### Shrine Meeting.

### Contractor Archer Injured.

At 11 o'clock this morning, William

Archer, the contractor and builder, was struck on the head with a heavy

windmill and severely injured. He was superintending the construction

work on the new market building of William Farr when the accident

occurred. He was taken to a physi-

cian's office where medical attention was given, and after removal to his home, it was learned that his injuries, while not considered dangerous, are of such a serious character that he will not be able to resume business for several days.

### REVIEW CHANGES HANDS.

Joseph Joquel Succeeds J. F. Manning and is Himself Succeeded by Eugene Day.

Joseph Joquel today threw aside the shackles that made him the slave of the galleys in the Optic's composing room and became editor and proprietor of the Weekly Review. He purchased the paper from J. F. Manning, who goes to Denver, where he will probably engage a Los Angeles paper work. As intimated Mr. Joquel has been a member of the composing room of the Daily Optic. In this position he is succeeded by Eugene A. Day, formerly of the Los Angeles Herald. Mr. Joquel is an experienced newspaper man, thoroughly capable of making the Review a most excellent publication. He is a strong, industrious and reliable young man with grit enough to make the paper a success.—Las Vegas Optic.

### A Cripple's Record.

Justino Sanzaval, son of Ramon Sanzaval, of Waldo, who had his leg cut off by a car in the Waldo yards some time ago, and who is now attending school at St. Michael's college at Santa Fe, made a very creditable record for the past two months, his conduct being given at 100 and his scholarship at 95. While his test of memory is far above the average. We are glad to see this poor cripple, by making such good progress in preparing himself for usefulness in life; that is the kind of grit that wins.—Orillon Register.

### SENSATIONAL STORY.

In Which Miss Mayme Yoast, of Agricultural College, Figures.

DECLARES SHE WAS KIDNAPED.

From Mesilla Park, Dona Ana county, comes a sensational kidnapping story. Mayme Yoast, a pupil at the College of Agriculture and Mechanic Arts, was the victim, says a correspondent in a letter to the New Mexican, under date of January 9. It was shortly before Monday when the girl was exhumed from her class room to go upstairs. At the head of the stairs she met a red-headed woman who told her that a professor desired to see her outside of the building. The girl went out and was accosted by a strange man who told her that a lady was at the dormitory waiting to see her. Miss Yoast told him that she had been exhumed from recitations for a few minutes and could not go over to the dormitory. He took hold of her and forced her into a building. She drove down a lane. Miss Yoast remonstrated, but he commanded her to keep quiet. He pulled her fascinator over her face and told her if she made an outcry he would gag her with a handkerchief. He then gave her a tablet, probably morphine, which put her to sleep. At about dusk she awoke and noticed that she was being driven in the direction of Mesilla. The stranger compelled her to alight and told her to sit on a box at the edge of an aqueduct. He then turned her back for a moment and the girl let herself drop into the deep aqueduct and ran along in the main ditch. It was pitch dark by that time and she hid under a bridge after running a mile or so. She heard her kidnaper searching for her and cursing to himself, but he finally gave up the search. The girl then came, arriving late at night. She dropped in front of William Stewart's residence. Once inside of the house she called for her father, who then would drop into spells of unconsciousness.

In the meanwhile the town had been alarmed and had organized to search for her. Her mother was visiting her for her. When she heard some boys crying: "Found!" It sounded like drowned men and she fainted and is still suffering from the shock. The sheriff of the county is investigating the girl's story. He found the place where she had rolled in the ditch and also found the footprints in which her shoes fitted. Her feet were very sore when she returned home, showing that she had traversed a long distance. Still her story is not complete. She had been told by Professor Richards just before disappearing, that she would be put back in her studies and she cried. It is supposed she became angry and started to go home on one of the girls had seen her leave college and go toward Mesilla Park. Some one may then have come upon her or she may have started toward Mesilla upon her own notion.

The girl is 13 years old, quite pretty with long curls, and is quite a favorite among her classmates.

### By Wheel From San Francisco.

Edward F. Bailey, wife arrived in Albuquerque from San Francisco, accomplishing the trip on bicycles, says the Hatoa Hatoa. The Hardy couple were five weeks on the road, making a journey and had many thrilling experiences en route, being chased at one time on the California desert by hungry coyotes and a number of wild bulls. Mr. Bailey is now employed in the barber shop of Frank Heilmann. He says he and his wife started for New York, that that city is their ultimate destination, and that they will go on their wheels.

### Diphtheria at Cimarron.

Miss Julia Burnam returned to Cimarron Friday, expecting to re-open her school Monday, but found that diphtheria had broken out among the natives during her vacation.

From the disease had occurred, several were very sick, and it was thought best to keep the school closed until the epidemic had subsided. By order of exalted ruler, C. W. Medler, secretary.

## SENATOR QUAY.

He Will Not Retire from the Senate.

Bill to Establish Naval Experiment Plant.

Former President of Honduras Placed Under Arrest.

EXTRADITION TREATY WITH CHILI.

Washington, D. C., Jan. 11.—Senator Quay, of Pennsylvania, who has just returned from Florida, where he went for the benefit of his health, called on the president today. ### NAVAL PLANT.

Bill to Establish a Naval Experimental Plant at Annapolis.

Washington, D. C., Jan. 11.—At the instance of the navy department Senator Hale has introduced a bill intended to carry out a long cherished plan of naval engineers, especially the engineer in chief, Mr. Sims, to provide the navy with an experimental plant of first class, somewhat on the lines of the magnificent German naval experimental plant at Charsternburg, which has been of such benefit to the German navy. The bill provides an appropriation of \$100,000 for the construction of a building at the naval academy at Annapolis and its equipment to deal with engineering problems of value and interest to the navy, which cannot be properly left to private enterprises to solve.

### A Revolutionist Arrested.

Managua, Nicaragua, Jan. 11.—The government of Nicaragua, arrested General Vasquez, former president of Honduras, on board a South American Steamship company's steamer, Tucapel, charged with attempting a revolution in Central America against President Zelaya, of Nicaragua, who drove Vasquez from the presidency of Honduras in 1894 for the same offense.

B. W. Marsh and wife, Gunnison, Colo., are here for a few days, having lost their first class tourist ticket between here and La Junta, Colo. The officials here at the general passenger agent at Topoka, Kas., are doing all in their power to adjust the loss.

### A Town Without a Name.

Las Vegas has many things peculiar to itself. A stranger in the city the other day went all about the railroad yards hunting for a sign board which would tell what city he was in. He went all around the depot, freight house, yard office, round house and shops, but found nothing. Every other city in the territory on the railroad has a depot sign board except this city. On investigation it was found that when the depot was moved into new quarters that the sign was taken down and none has ever been put up on the new depot.—Optic.

The live stock census of last summer gives Arizona 742,635 head of cattle, 13,193 head of horses, 954,641 head of sheep and 125,963 horses. The result of the census shows a wonderful increase over the figures given out by the department of agriculture estimates, which are published annually.

She was so confused she lost her appetite. After a little coaxing, she drank a cup of tea, and felt refreshed. Those present were Mesdames Werning, Houston, Gehring, Spiller, Sheets, Snally, Fisher, Thomas, Harsch, Rolley, Shoemaker, Cole, Massett, Wilson, Lundberg, Donahue. Gallup, N. M., Jan. 8.—It is said:  
That the usual revival meetings are  
not so well attended as the cause de-  
serves.

That Mrs. C. B. Smith gave a 4  
o'clock dinner to the teachers on New  
Year's day. The teachers were purple  
and gold, the school colors.

That Miss M. E. McIntyre won first  
prize guessing the titles of books as  
per illustrated cards.

That the Gallup Republican has a  
new press and as yet it doesn't press as  
well as the old press.

That Miss Kate Cunningham was  
surprised really and truly and no make  
believe, and that the young folks had  
a fine time at the party.

That a young man who can "go  
home" with four young ladies at once  
and leave each one at the right door  
with no jealousy or reticence of steps  
and tact and adaptability at hand.

That Kate Morris and Walter were  
missed in the skating parties held re-  
cently on slippery places.

That the county commissioners held  
their regular meeting on Monday last  
and got through with a lot of work.

That the young people have organ-  
ized a class and will soon be learning  
to dance.

That Willie McParson was quite ill  
the first part of the week.

That Miss Edith Thomas is visiting  
with Miss Gertrude Schaidt.

That the pupils of the public schools  
are settling down to work after the  
holidays' rest.

That the Gem grocery, Carman and  
the Caledonia store remembered their  
customers on Christmas by sending a  
box of candy and three bottles of cologne  
to the firm.

That the combined orchestra mem-  
bers are thinking of giving another  
ball on Burns' day.

That Fred Burgess is filling the po-  
sition vacated by Mr. Hutchins at the  
electrical plant.

That the members of the Montauk  
band should not go skating on  
practice night. The teacher and leader  
works for the good of the boys and it  
must be discouraging to see so many  
vacant chairs when they have given  
their evening for the purpose of advanc-  
ing the beginners.

That several of the teachers are—  
well, we don't know just yet, but we  
will tell when we do. They will be  
missed if they do to housekeeping for  
study.

That the dancing school was organ-  
ized on Wednesday evening with thirty  
pupils.

**Beat Out of an Increase of His Pen-  
sion.**

A Mexican war veteran and promi-  
nent editor writes: "Seeing the ad-  
vancement of Chamberlain's Cough  
Remedy, I have been thinking of try-  
ing it. As a soldier in Mexico in '47  
and '48, I contracted a Mexican  
cough and this remedy has kept me  
from getting an increase in my pension  
for every renewal a dose of it re-  
stores me." It is unequalled as a quick  
cure for diarrhoea and is pleasant and  
safe to take. For sale by all drug-  
gists.

**Several Marriages—Narrow Escape for  
a Politician.**

Special Correspondence.

Bernalillo, N. M., Jan. 10.—Bernalillo  
is in full blaze on account of its num-  
erous weddings. Yesterday, January 9,  
one of the people here were awak-  
ened by the sound of a gun. The ob-  
ject was a wedding. It was soon found  
to be the announcement of the return of  
the wedding party from an early marriage  
at the Catholic church. Pablo Bar-  
raza and Miss Mercedes Salas were the  
happy couple around whom centered  
this excitement. The day was con-  
cluded by a social dance by many of  
the people of Bernalillo.

Today, January 10, the marriage of  
Pudencio Garcia and Miss Orenia  
Reed was made public in quite a differ-  
ent manner, being a very quiet wed-  
ding without bombs or drums. Miss Reed  
was for ten years a sister in the con-  
vent at Santa Fe and returned here a  
year ago. They will reside at Angu-  
stura. Both couple have the good  
wishes of their many friends in Ber-  
nalillo for a long and happy wedded  
life.

G. P. Leonard, of the music firm of  
Hall & Leonard, of Albuquerque,  
spent the night in Bernalillo, making  
his headquarters at Bibb & Co.'s. He  
left early Friday en route to his min-  
ing property in the Santa mountains.  
It is rumored that our village butch-  
er, Mr. W. B. Winkler, will leave for Old  
Mexico shortly on a visit to relatives.

J. Bibb has four men working in his  
copper property in the Santa mountains.  
He has received some very fine  
specimens of ore.

Ciriacio Lobato, from Angustura, re-  
ceived a contract to haul 100 tons of  
coal to the flour mill of L. B. Payne.  
About 5 o'clock Friday morning Al-  
vario Montoya, known as our politi-  
cian, drove up the street in front of  
Bibb & Co.'s. He was accompanied by  
kick and finally destroyed the buggy.  
Mr. Montoya and his companion, El-  
lio Lucero, Bernalillo's musician, have  
escaped serious injury by the dis-  
play of acrobatic powers. However,  
Mr. Montoya was slightly hurt by a  
kick from the horse.

**ISSUES A GOLF BOOK.**

Next Best Thing to Having Golf Links  
on the "Limited."

The person who unexpectantly  
picks up a neatly covered little book  
entitled "Golf in California," looks at  
the pictures, reads the interesting  
stories of various well-known golf links  
on the Pacific coast, and inspects the  
carefully drawn maps of the golf  
courses, will do very well indeed if he  
finds any direct evidence that the  
book is one of the latest advertising  
publications of the passenger depart-  
ment of the Santa Fe road.

There is very little real advertising  
for the Santa Fe road in the book, and  
what there is has been crowded into  
a few pages at the back of the book.  
So that it remains the advertising  
matter of any well organized period-  
ical. "Golf in California" is one of the  
best advertising publications ever printed  
by the Santa Fe.

In itself the book is very interesting.  
The illustrations are perfection. The  
printing is in red and black, with ill-  
lustrated little pictures. The object  
of the book is primarily to boom the  
California Limited.

**WILD BILL'S GUN.**

The Noted Weapon is Now on Exhibi-  
tion at El Paso.

A rifle that once belonged to Wild  
Bill, the terror of the plains, is now to  
be seen in El Paso. It is on exhibition  
in the office.

The weapon is one of the Evans make  
and is of the class of repeating rifle  
first adopted for use by the United  
States army. It carries a heavy caliber  
bullet and shoots twenty-seven times.

The barrel of the rifle is short, of the  
chamber pattern, and the stock is of  
hard pine. The hammer and other parts  
are also peculiar. The shells are in-  
serted in the stock and are thrown  
from there one by one into the cham-  
ber.

A noted scout by the name of Billy  
Butt bought the gun from Wild Bill  
and sold it to J. A. Elyar in 1882. It is  
said in good working order and could  
be used as a weapon, but its value as a  
curiosity is at the present day far  
greater than its value as a weapon.

Each of these notches is said to repre-  
sent an Indian or desperado killed by  
the famous scout in single combat.

**Don't Live Together.**

Constipation and health never go to-  
gether. DeWitt's Little Early Risers  
promote easy action of the bowels  
without distress. I have been trou-  
bled with constipation since I was a  
child. J. O. Greene, Depauw, Ind. "I have  
tried many remedies but Little Early  
Risers gave best results." J. H. O'-  
Reilly & Co., and B. H. Briggs & Co.

W. L. Vanev, Paducah, Ky., writes:  
"I had a severe case of kidney disease  
and three of the best physicians in  
southern Kentucky treated me without  
success. I was induced to try Foley's  
Kidney Cure. The first bottle gave im-  
mediate relief and three bottles cured  
me entirely. I gladly recommend this  
wonderful remedy." Take no substi-  
tute. Alvarado Pharmacy.

**AN ATTRACTIVE DEPARTMENT.**

Santa Fe Clerks Make Goo-Goo Eyes  
at Transportation Headquarters.

People at the Santa Fe offices ap-  
pend their spare moments nowadays guess-  
ing on who will be the next chief clerk  
in C. W. Kouns' office to get married.  
There has been considerable talk of  
nuptials in the office since the de-  
partments of the Santa Fe office have  
been reorganized. Matrimonial attrac-  
tions are manifesting matrimonial tendencies  
will be confined in this room."

Places in Mr. Kouns' office are at a  
premium. Nearly all the young lady  
clerks in the Santa Fe office cherish  
either an open or secret longing to  
get a position in the transportation de-  
partment.—Topeka State Journal.

Sore and swollen joints, sharp,  
shooting pains, torturing muscles, no  
rest, no sleep, that means rheumatism.  
It is a stubborn disease to fight, but  
Chamberlain's Pain Balm has con-  
quered it thousands of times. It will  
do so whenever the opportunity is of-  
fered. Try it. One application relieves  
the pain. For sale by all druggists.

N. Jackson, Danville, Ill., writes:  
"My daughter had a severe attack of  
grippe and a terrible cough settled in  
her lungs. We tried a great many  
remedies, but Chamberlain's Cough  
Remedy, given her, cured her. She  
tried Foley's Kidney Cure and was  
cured by it. She has never been trou-  
bled with a cough since." Alvarado  
Pharmacy.

**Increased Stock Equipment.**

The inventory just closed on the  
southern division of the Santa Fe rail-  
way shows a decided increase in the  
amount of stock equipment. In four  
months the inventory at Los Angeles,  
National City and Bernardino has in-  
creased \$200,000. There are twenty-  
eight cars of unloaded material  
standing in the San Bernardino yards.  
During the past year there has been  
an increase of \$1,000,000 in the stock  
of the store house on line west of  
Albuquerque.

**The Mother's Favorite.**

Chamberlain's Cough Remedy is the  
mother's favorite. It is pleasant and  
safe for children to take and always  
cures. It is intended especially for  
croup, colds, croup and whooping  
cough, and is the best medicine made  
for these diseases. There is not the  
slightest danger in giving it to children  
for it contains no opium or other in-  
jurious drug and may be given as con-  
fidently to a babe as to an adult. For  
sale by all druggists.

**UNIVERSITY NOTES.**

Life resumed its usual vigor on the  
hill this week.

The first semester examinations be-  
gan January 27.

A class in the history of education  
is now studying Froebel.

A number of new students have re-  
gistered since Christmas.

The bus has stopped running and all  
the students have to walk.

We have had a number of visitors  
from the north and we are always glad  
to welcome.

Many congratulations to the head of  
our ancient law department for his  
success "at the bar."

Thursday morning the normal de-  
partment visited the history classes in  
the eighth grades of the public schools.  
Two members of the normal school are  
now teaching in the model school. Miss  
Craig is teaching reading and Miss  
Drew is teaching in grammar.

The students have formed an athletic  
association and adopted a constitution  
which is a credit to any organiza-  
tion. They have chosen Thomas  
Harris, Jr. president, also Edna Yar-  
wagin, vice president; John Cannon,  
secretary, and Linus Shields, treasur-  
er. The association is to be governed  
by a board of eight, consisting of four  
members from the faculty and four  
from the student body. We are all  
glad to see this movement, set on foot  
by the faculty, and hope that it will  
be of great benefit to the students.  
The association is to be a very im-  
portant place in the curriculum of  
the university than they have hereto-  
fore.

**HILL BROOK FARM.**

The Owner Comments on Grape-Nuts.

A farmer with his out of door work  
might have reason to expect more than  
the average of good health if he would  
use proper food and have it well cook-  
ed, but many of them, in middle age,  
suffer from indigestion, and following  
that a weakened nervous system.

To show the value of a change in  
food we quote from a letter written by  
L. Flagler, owner of Hill Brook Farm,  
Charlotte, N. C.

"I have been a very considerable  
amount of money in trying to cure my  
stomach trouble with medicines, and  
have changed climate several times.  
About two years ago I was advised to  
use Grape-Nuts. My heart and kidneys  
gave me much trouble. I could not sleep  
nights. I was very nervous, thin and dis-  
couraged. Finally I changed my food and  
began taking Grape-Nuts for breakfast.  
This agreed with me and I have  
been able to sleep at night. I have  
lost weight and gradually the old troubles  
have disappeared.

"I have made splendid progress in  
health and strength. I am now able to  
do a good day's work for a man of  
fifty years.

"I know that Grape-Nuts caused the  
change and although I am now able to  
use other food as I like, still I stick to  
Grape-Nuts because I know how it  
nourished me, and besides, my food and  
both like the food.

"She says nothing has helped her nerv-  
ous system like Grape-Nuts. We buy  
them in the case and are very en-  
thusiastic in regard to it. It is plain  
that nervous, worn out people can  
be brought back to health by using  
Grape-Nuts.
