A DISASTROUS  
TRAIN WRECK

Thirty-Six Lives Were Lost And  
Thirteen Persons Were Injured  
on the Great Northern.

## A RUNAWAY FREIGHT TRAIN

It Crashed Into the Rear of a Passenger  
Train After a Run of Fifteen Miles  
Down a Steep Grade—The  
Wreck on Fire.

Kalispell, Mont., Aug. 31.—A west-bound passenger train was wrecked last night near Nyack station. An eastbound freight backed out of a switch at Essex and broke in two, 28 cars going down the mountain crashing into the passenger train without warning. The special car of Assistant General Superintendent P. L. Downs of the Great Northern, and a day coach of laborers were demolished, and burned. Superintendent Downs and son were instantly killed. Many laborers were killed and burned. A sleeper caught fire, but it is reported that all the passengers were gotten out safely.

## THE OFFICIAL REPORT.

St. Paul, Aug. 31.—General Superintendent T. E. Ward gave the following statement of the wreck on the Great Northern near Kalispell: "In an accident at 8:30 p. m., Aug. 30, at Essex, Montana, 18 cars broke loose from the rear end of a freight train, ran down hill 16 miles to Nyack, where they overtook the passenger train No. 3 just starting out from the station. In the collision, P. L. Downs, assistant general superintendent, in charge of the line west of Minot, N. D., was killed, together with his son, Kirk T. Downs, his cook Henry Blair, and about 25 laborers, who were moving west in a coach attached to the rear of the train. None of the regular passengers were injured. The wreck took fire and the remains of all except five of those killed were burned. It is therefore not known positively how many fatalities resulted. In addition to those killed, 12 laborers and brakeman Burke were injured."

Downs was born on April 8, 1847, in Ireland. He entered the railroad service on April 1, 1868, as brakeman on a passenger train of the Burlington branch of the Central Vermont railroad. For the year ending April 30, 1891, he was train master of the Gulf, Colorado and Santa Fe railroad. He was made superintendent of the northern division of this road on May 1, 1891. May 17, 1893, to July 1, 1896, he was superintendent of transportation. He was made assistant general superintendent on July 1, 1896, which position he held six months when he was made assistant superintendent of the Atlanta and Westpoint Railway and Western Railway of Alabama. In September, 1897, he was appointed superintendent of the same road. On December 1, 1899, he came to the Great Northern. His appointment as vice president of the Spokane Falls Northern would have become effective tomorrow, September 1.

A TERRIBLE DISASTER.  
Kalispell, Mont., Aug. 31.—Later reports from the wreck at Nyack, on the Great Northern, are more serious. Thirty-six lives were lost and 13 injured. Assistant General Superintendent Downs and son, his cook and 33 Scandinavian laborers were killed and 13 laborers were burned in the wreck. A freight train broke loose on a mountain grade and crashed into the rear of the passenger train, 15 miles below. The laborers were bound from Duluth to Jennings for railroad work, and occupied the rear car. No passengers were injured. Three passenger and 10 freight cars were burned.

## The Weekly Bank Statement.

New York, August 31.—The weekly bank statement is as follows: Loans, \$905,196,000; increase, \$7,349,200. Deposits, \$798,121,000; decrease, \$27,700. Circulation, \$30,097,400; increase, \$1,089,800. Legal tenders, \$77,150,000; decrease, \$99,900. Specie, \$176,791,400; decrease, \$6,135,300. Reserves, \$253,950,400; decrease, \$4,245,100. Reserve required, \$243,030,475; increase, \$6,925. Surplus, \$11,919,925; decrease, \$6,328,175.

## MARKET REPORT.

STOCKS.  
Kansas City, Mo., Aug. 31.—Cattle, receipts, 250; steady.  
Native steers, \$4.75 to \$5.00; Texas and Indian steers, \$2.75 to \$3.75; Texas cows, \$2.25 to \$3.25; native cows and heifers, \$2.50 to \$3.00; stockers and feeders, \$2.75 to \$3.25; bulls, \$2.25 to \$4.50; calves, \$3.00 to \$4.75.  
Sheep, receipts, 25; steady. Muttons, \$3.00 to \$3.75; lambs, \$4.00 to \$4.75; range wethers, \$3.00 to \$3.50; ewes, \$2.75 to \$3.15; stockers sheep, \$2.00 to \$2.75.  
Chicago, Aug. 31.—Cattle, receipts, 300; nominally steady.  
Good to prime steers, \$5.70 to \$6.25; poor to medium, \$3.80 to \$5.00; stockers and feeders, \$2.25 to \$4.25; cows, \$2.45 to \$4.50; heifers, \$2.50 to \$3.00; canners, \$1.50 to \$3.40; bulls, \$2.25 to \$4.00; calves, \$3.00 to \$5.55; Texas fed steers, \$4.00 to \$5.10; Texas grass steers, \$3.30 to \$4.00; western steers, \$4.00 to \$5.00.  
Sheep, receipts, 1,000; market steady. Good to choice wethers, \$3.40 to \$4.25; native lambs, \$3.00 to \$5.25; western lambs, \$4.00 to \$5.25.

## FELL 300 FEET.

A Young Aeronaut Is Killed in a Balloon  
Ascension at Sterling.

Sterling, Ill., Aug. 31.—C. A. Simmons, a young aeronaut of Evansville, Ind., was fatally injured last night by a fall while making an ascension in the presence of 5,000 people. The big gas bag exploded 300 feet in the air and descended rapidly.

VICE PRESIDENT ROOSEVELT  
VELT AT SPRINGFIELD

He Was Enthusiastically Received and Reviewed the State Militia, Leaving Afterward for Chicago.

## THE GUEST OF GOVERNOR YATES

Springfield, Ill., Aug. 31.—Vice President Roosevelt arrived here on a special train from Chicago at 1:30 yesterday and was met by Governor Yates and staff and 500 politicians. He was escorted by four troops of cavalry and he went to the executive mansion as a guest of Governor Yates. Late in the afternoon he went to Camp Lincoln, where the troops passed in review before him.

A TRIP TO CHICAGO.  
Chicago, Aug. 31.—Vice President Roosevelt arrived from Springfield this morning. Accompanying him were Governor Yates and Senator Cullom. The program this afternoon contemplates the review of the naval militia on board of the Dorothea and dinner with Graeme Stewart.

## STRUCK THE NEGRO'S TRAIL.

"Bossie" Francis Is Hiding in the Woods Near Strasburg.

Kansas City, Mo., Aug. 31.—The scene in the hunt for "Bossie" Francis, the murderer of Miss Mary Henderson at Columbus, shifted during the night to Strasburg, west of Holden. There appears no doubt that Francis jumped off the Missouri Pacific train at Strasburg last night and made for the woods nearby. At noon it was believed that the posse was close on the trail of Francis.

## A SENSATIONAL CHARGE.

Kansas City, Mo., Aug. 31.—This afternoon, the chase begun afresh "this morning near Strasburg, for "Bossie" Francis, was practically given up, the bloodhounds refusing to take the scent. It was hinted that the murderer made good his escape by the aid of white persons.

## A CANDIDATE FOR PRESIDENT.

Governor Shaw Says That the Announcement of His Candidacy Is Premature.

Omaha, Neb., Aug. 31.—Asked regarding Senator Dolliver's announcement at Chicago last night of his candidacy for the presidency, Governor Shaw of Iowa, made the following statement: "I neither inspired nor encouraged any mention of my name in connection with 1904. Senator Dolliver is correct in the statement that it is too early to determine. The first thing for Iowa to do is to roll up for our own ticket the biggest majority ever polled in the state and this we will now do."

## THE FINAL RACES.

They Will Determine Which Is to Be the  
Oop Defender.

Batemans Point, R. I., August 31.—After two months of hard preliminary racing, during which each boat defeated the other eight times, the Constitution and the Columbia, went out to Brenton's Reef tonight for the first of the series of trial races to determine which shall be the defender of the America's cup against Sir Thomas Lipton's Shamrock II. Both left the Harbor in the very best condition. The Columbia beat the Constitution today by four minutes and 28 seconds.

## THE DENVER BRIBERY CASES.

A Non-Suit Entered in the Case Against H. H. Tammen et al.

Denver, Colo., Aug. 31.—Judge Mullins in the district court today granted a motion for a non suit in the bribery prosecution of H. H. Tammen, F. G. Bonifis and a number of court officers, and discharged the defendants. They were accused of having attempted to tamper with the jury at the last trial of Attorney W. W. Anderson for shooting Messrs. Tammen and Bonifis.

## TWO MORE VICTIMS.

Thirteen Known to Be Dead and Fifteen  
Are Missing.

Philadelphia, August 31.—The bodies of two more victims of the explosion of the steamboat, City of Trenton, were recovered this morning. Both were women. One was identified as Amanda Cross Philadelphia. The number of known dead is thirteen, the number missing fifteen.

## General Zindlow Is Dead.

New York, Aug. 31.—Brigadier General William Ludlow, U. S. A., died at Convent, N. J., of consumption yesterday. His illness was first noticed on his arrival in the Philippines in May last. He was sent home in the hope that the American climate would restore him.

## A Murder at Lordsburg.

The body of Miguel Ramedas was found in the tenderloin district of Lordsburg, Grant county, with an axe wound in the back of his neck. He had been paid \$45 the day before and had gone on a spree. The object of the murder was undoubtedly robbery.

## Holabird Won the Glenview Cup.

Chicago, Aug. 31.—Wm. Holabird, of Glenview, today won the Glenview cup in the golf competition defeating Abram Poole, Jr., of Onwenta, 7 up, 6 to go.

## An Arizona Copper Mine on Fire.

Globe, Ariz., Aug. 31.—A disastrous fire is raging in the lower workings of the Old Dominion Copper company's mine.

THE STRIKERS  
ARE AGGRESSIVE

They May Succeed in Closing Down  
Part of the Carnegie Plant  
at Duquesne.

## EXTRA POLICEMEN ON DUTY

The American Federation Will Extend  
Moral and Financial Aid to the Amalgamated Association in Its Great  
Struggle With the Steel Trust.

Pittsburg, Pa., Aug. 31.—The mills of the Carnegie company at Duquesne were in operation this morning notwithstanding the report last night that the plant was badly crippled and would likely have to close down this morning. Seventy-five extra policemen were put on duty at Duquesne. The strikers claim the men are cleaning up, preparatory to coming out. The shut down at the Duquesne steel works would have a far reaching effect, seriously crippling the American Tin Plate company.

George Holloway, president of the Enterprise lodge of the Amalgamated association at McKeesport, returned from Duquesne, and said that the day turn in the open hearth furnaces went on duty this morning but gave notice to the foreman that as soon as the furnaces are emptied they were going to strike. It requires about ten hours to empty the furnaces. Between 300 and 400 men are employed in this department. Holloway expressed himself confident that the entire plant will soon be closed.

## THE SHUT DOWN COMMENCES.

Pittsburg, Pa., Aug. 31.—A dispatch from Duquesne says that the open hearth department of the Carnegie mill closed down at 3 o'clock, but the remainder of the plant is in full operation. The strikers claim to have all the day men in line and expect to have the night men soon. There is no disorder but plenty of excitement.

## FEDERATION OF LABOR FIRM.

Washington, Aug. 31.—The American Federationist, the official organ of the Federation of Labor, edited by Samuel Gompers, says: "We shall stand by the Amalgamated association in the present conflict to the full extent of our power, both morally and financially."

## TURKEY AND FRANCE.

The Sultan Begs for the Resumption of  
Diplomatic Relations.

Constantinople, Aug. 31.—M. Bapst, counselor of the French embassy, received from the porte a copy of a telegram sent to the Ottoman embassy at Paris for communication to M. Delcasse, the French foreign minister. It requests the resumption of diplomatic relations between the two countries with a view to reaching a satisfactory settlement of the matters in dispute.

## AN INDIAN GATHERING.

There is No Reason for Feeling Uneasy  
About It.

Tucson, Ariz., Aug. 31.—Over 200 Indians are gathered near Fort Thomas holding meetings discussing their grievances. Indians are coming from the northern part of the reservation to join those at Fort Thomas. The settlers are feeling uneasy at San Carlos, 60 miles distant from the nearest post. There are only six privates and a sergeant at the fort.

## The Great Futurity Race.

New York, Aug. 31.—Yankee won the Futurity race by a length; Lux Casta was second, Barron third.

## ACTIVITY IN THE BURROS.

The Extensive Work That Is Being Carried  
on Has Created a Demand for Miners.

Special Cor. New Mexican.

Silver City, Aug. 30, 1901.—Colonel Edwards, president of the Navajo Copper company, was in the city recently and announced himself well pleased with the showing upon the claims recently purchased by him for his company. He arranged for immediate commencement of development work and stated that the work would be pushed rapidly. The local affairs of the company were placed in the hands of John Hult, who states that some very high grade ore has already been struck with bright prospects for a large body of high grade ore with depth.

P. T. McGrath, who recently sold 19 claims adjoining the Navajo property for \$375,000, states that he will have 30 men at work by the 1st of September.

A. E. Gibson, of Santa Fe, recently purchased a group of mines in this vicinity and has arranged for commencement of development work which will be pushed.

It seems that this particular district of the Burros, which has never been fully developed, although shipments of high grade ore have been made, and now receive the attention it deserves.

The Sampson mine mill will start immediately with four months supply of ore ahead.

It is rumored that two or three big deals are about to be closed in the Burros all in view of commencement of immediate development.

THE BOERS BLOW  
UP A TRAIN

Lieutenant Colonel Vandaleur of the Irish  
Guards, a Most Promising Officer, Was  
Among the Slain.

## RELATIVE OF BOER GENERAL CAUGHT

London, Aug. 31.—A dispatch from Lord Kitchener, dated Pretoria, today, says: "A train was blown up today, between Waterfall and Hamans Kraal by 250 Boers, who at once fired on the train, setting it on fire. Lieutenant Colonel Vandaleur of the Irish guards, a most promising officer, was killed. Other casualties are not yet reported."

A BROTHER OF A COMMANDANT  
GENERAL CAPTURED.

London, Aug. 31.—Lord Kitchener telegraphing from Pretoria, says: "Garratt captured. Piet De Larey, brother of the assistant commandant general."

## LORD SALISBURY WILL NOT RETIRE

The Demands of His Party Prevail Over  
the Wishes of His Family.

London, Aug. 31.—The Associated Press learns that the rumors of Lord Salisbury's retirement are due to the existence of an agitation within the premier's own family that he take the step in order to preserve his health. They are opposed by almost all the leaders of the unionist party. The latter as far as can be learned are likely to prevail for the present.

## OFFICIAL MATTERS.

## PENITENTIARY COMMISSION.

The penitentiary commission will meet on Monday to transact routine business.

## NEW MEXICO AGENT APPOINTED.

The Belle Royal Copper Mining company of Colorado today notified Territorial Secretary J. W. Reynolds that it has appointed A. Royal its New Mexico agent with headquarters at Tres Piedras.

## THE UNITED STATES LAND COMMISSION.

The United States land commission for the selection of lands donated by the United States to the various territorial educational and charitable institutions and for reservoir purposes, has received official notification from the department of the interior that it must cease work as no appropriation for the present fiscal year was made for its maintenance and to pay expenses. This is a very regrettable circumstance as it is absolutely necessary for the best interests of the territory that sections of public lands—as donated should be pushed as rapidly as possible as the valuable lands are being taken up with great rapidity and will soon be beyond the reach of the land commission for selection.

## DIRECTORS AND OFFICERS.

The Lordsburg and Hachita Railroad company has sent Territorial Secretary J. W. Reynolds a list of its directors and officers as follows: Directors: James Colquhoun, Mark J. Egan, Harwood J. Simmons, Donald H. Kedzie, Joseph A. Leahy. The officers of the company are James Colquhoun, president; Mark J. Egan, vice president; Harwood J. Simmons, secretary and treasurer; Charles R. Temple, agent. The company will build a railroad line from Lordsburg, south, to Hachita, there to connect with the El Paso and Southwestern or Blaine railroad.

## THE SANTA FE CENTRAL.

Preliminary Surveys Completed—Less  
Mileage Than Was Expected.

The New Mexican's information is to the effect that engineer A. R. Kennedy and his surveying corps have completed the survey for the Santa Fe Central railroad from this city via San Pedro to Chameleón station on the El Paso and Rock Island railroad in Lincoln county. The survey makes the line shorter than was expected, the distance from Santa Fe to Chameleón station in Lincoln county being 116.5 miles. There will be but one extensive bridge on the line and that will be over the Galisteo river at a point where an excellent rock bottom has been found. Between San Pedro in Santa Fe county and Progresso in Valencia county there are several tangents one of them being 40 miles long. The road for the most part will be very easy and cheap in construction and thereafter in maintenance. It will run a few miles east of the great salt lakes in Valencia county, which the New Mexican understands have been secured by the company. The line runs within a distance of from 12 to 20 miles of the extensive timber lands and forests of the Manzano range, and about the same distance from a large deposit of sulphur.

Via the Santa Fe Central, the El Paso and Rock Island and the El Paso and Northeastern the distance from Santa Fe to El Paso will be as follows: From Santa Fe to Chameleón station 116½ miles, from Chameleón to the El Paso and Rock Island station on the El Paso and Northeastern 65 miles, from Carlsbad station to El Paso via the El Paso and Northeastern 143 miles, a total of 324½ miles, as against 339 miles, via the Atchison, Topeka and Santa Fe railway. The prospects for the construction of the Santa Fe Central railroad are very bright indeed, although nothing definite concerning the commencement of the work can be learned from the officials of the road.

## A Railroad Contract Awarded.

Frank Powers of El Paso has been awarded the contract to build the Lordsburg-Hachita railway from Lordsburg to Hachita, in Grant county, 40 miles long, to connect the Arizona and New Mexico railroad with the El Paso Southwestern. The Lordsburg and Hachita line is a continuation of the Arizona and New Mexico and the capital for it is furnished by the Arizona Copper company of Scotland, which owns extensive copper mines at Clifton, Arizona. Work on the new line is to be commenced on Monday.

TWO TOWNS AT  
SANTA ROSA

A Rival Townsite Has Been Laid  
Out Ten Miles From the Old  
Settlement.

## NEW BUILDINGS GOING UP

The Town Needs Waterworks—Other  
Opportunities for Capital—One Pillar of  
the Bridge Across the Pecos is  
Completed—A Growing Town.

## Special to the New Mexican.

Santa Rosa, Aug. 31.—The selection of Santa Rosa as the junction of the Rock Island and El Paso and Northeastern, as well as the definite location of the townsite has stimulated local business men to greater exertions than ever. Here buildings are erected daily and the town commences to assume the aspect of a fair sized place. Some new enterprise is started almost every week and the list of public accommodations has been increased; but still there is a great field left for speculation, and capitalists will not fall to see the opportunity. The town will need water works and a properly located reservoir, which all could be constructed at a comparatively small expenditure. The water of the Santa Rosa river could be utilized for an electric power house. Santa Rosa with the surrounding towns and hamlets would give ample patronage to make the investment profitable.

One pillar of the bridge across the Pecos is finished, and the other is in course of construction. The bridge is to be 75 feet above low water mark. Scores of visitors can be seen here every day, especially on Sundays, as the construction works are quite attractive and the people of the neighborhood are anxious to see the railroad in operation. Since the railroad has ceased to be mere talk and has become matter of fact, there can be no doubt but what Santa Rosa will receive extensive repairs shops and round houses, which will give employment to many hands.

The transfer of the post office from Celso Back to Mr. Marsh, which on account of some technical mistake in the papers did not take place until the 23rd inst., was the occasion for quite a dispute, the outside being anxious to get in and the inside in no hurry to get out. The tracks of the railroad pass to within 60 miles west and 85 miles east. The construction forces are working day and night to complete the work.

## NEW MEXICO'S CHAMPIONS.

A Series of Good Baseball Games at Santa  
Fe Is Being Arranged.

The record made by the Santa Fe baseball team this year has been an enviable one, not alone for the excellent playing of the team but also for the gentlemanly behavior of its members on their visits to other towns. As a consequence Manager W. E. Martin is receiving letters daily from the managers of out-of-town teams trying to arrange games with the Santa Fe team. The Como Estamos team of Albuquerque will cross bats with the home team on Sunday, September 1, and the celebrated Trinidad Stars will be here on Sunday, September 2. A series of games with other out-of-town teams will follow, including probably a game with the Colorado Springs team. Of course, Santa Fe people should encourage the local players as much as possible, for the team is a splendid advertisement for the city. The line-up of the two teams tomorrow will be as follows:

Santa Fe: G. Parsons, Catcher; Wheeler, J. H. Hatcher, First Base; C. E. Lyons, Second Base; Robinson, H. Alarid, Short Stop; Wilson, Left Field; Center Field; Williams, D. Shoemaker, Right Field; Williams, P. Samosa, W. Worde.

## SEPTEMBER WEATHER.

A Very Pleasant Month That Marks the  
End of Summer.

The following data covering a period of 27 years have been compiled by the weather bureau at Santa Fe for the month of September: Mean or normal temperature, 61 degrees; the warmest September was that of 1892 with an average temperature of 65 degrees; the coldest September was that of 1880 with an average temperature of 56 degrees; the highest temperature was 90 degrees on September 7, 1897; the lowest temperature was 27 degrees on September 27, 1890; average date on which the first killing frost occurred in autumn is October 10; average date on which the last killing frost occurred in spring is April 31; average precipitation for September, 1.62 inches; average number of days with .01 of an inch or more precipitation, 7; the greatest monthly precipitation was 4.09 inches in 1891; the least monthly precipitation was a trace in 1892; the greatest amount of precipitation recorded in any 24 consecutive hours was 1.70 inches on September 27 and 28, 1893; average number of clear days, 16; partly cloudy days, 11; cloudy days, 3; the prevailing winds have been from the southwest; the highest velocity of the wind was 46 miles per hour from the north on September 13, 1889.

"Silence is golden" may do very well for the folks who have secrets they'd rather not tell, but if you have goods you desire to sell, you'll find it more "golden" to stand up and yell . . . . .

## OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Barranca Station, on the Denver & Rio Grande Railway, from which point a daily line of stages run to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,688 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, Lodging and Bathing, \$2.50 per day; \$14 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 10:00 a. m. and reach Ojo Caliente at 5 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7. ## Santa Fe New Mexican

THE NEW MEXICAN PRINTING COMPANY

Entered as Second-Class matter at the Santa Fe Postoffice.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the territory, and has a large and growing circulation among the intelligent and progressive people of the southwest.

RATES OF SUBSCRIPTION.  
Daily, per week, by carrier, \$2.25  
Weekly, per year, \$12.00

SATURDAY, AUGUST 31.

New Mexico Demands Statehood of the 57th Congress.

Of Right and in Justice New Mexico Should Be a State.

Scientist now claim that only certain strokes of lightning are fatal. That claim is evidently correct.

Theology Colquhoun, a Georgia negro, was hung by a mob in that state a few days ago. Judge Lynch is evidently no respecter of names.

The present mayor of Atlanta must have a good deal of backbone. He has vetoed a resolution appropriating money for the celebration of Labor day.

The assessment returns of Valencia county for the present year show an increase of about \$600,000 in taxable property over the year 1900. Valencia county is all right.

Otero county is coming to the front with an increase of \$295,000 in its assessment over the year 1900. There was no mistake made by the 23d Republican legislative assembly when it created the county of Otero.

The figures of the assessments of the various counties as published by the New Mexican are proving of great interest to the people at large. They should be studied carefully by all concerned, especially by assessors and county commissioners.

Kaiser Wilhelm and his German army will get immense satisfaction out of Prince Chung and his subordinates prostrating themselves six times before the emperor and knocking their heads nine times on the floor because the German ambassador at Peking. Not since the days of Attila the Hun does history record any such tom foolery.

The Case of Surveyor General Vance.

One of the Democratic-Populist papers in the pay of the little gang that is trying to keep Surveyor General Vance in office, crows and asserts that the fact that his reappointment has not been made indicates that he will hold on until the session of congress and that then and there his name will be sent in for reappointment. This, the paper asserts is caused that he may have the trouble of furnishing two new bonds. And in addition the paper says that the appointment of Governor Otero, which is to continue until the session of congress, is but temporary and draws a comparison between Governor Otero's case and that of Vance, bolstering up Vance's cause thereby. This paper seems to have forgotten, however, that United States Marshal C. M. Foraker was reappointed in exactly the same way and under a commission of like tenor to the one under which Governor Otero now holds his office. There is no doubt in the minds of well informed people that Mr. Foraker will be again appointed when congress meets. The Foraker case shows conclusively that the reasoning of these people in stating the Vance case in this manner is absolutely at fault and has no foundation whatsoever. All recess appointment commissions read alike, viz: That they are given at the pleasure of the president for the time being and until the assembling of the next congress. The trouble about Vance's appointment seems to be that Secretary Hitchcock does not wish to take it up during the hot weather as the protests and charges from New Mexico against this man's reappointment are very numerous and serious. The New Mexican's information is that he will, however, take it up immediately upon his return from his vacation. How it will be decided this paper has no information, but it is hoped for the best interests of the territory of New Mexico that Vance will not be reappointed. His record as an official and his actions as such have been very detrimental to the best interests of the territory and have retarded the progress and advancement of the territory. The citizens of the territory do not care what becomes of him. He is too insignificant a figure out of office. But they do care that he be not reappointed.

The Opinion of an Assessor.

The following excerpts from a letter received by the New Mexican from an assessor, who is a competent and efficient official, contains good common sense and expresses a proper view of the situation. It is published for the information of all taking an interest in the proper, just and equitable assessment of taxable property in the territory: "I must congratulate you on your stand in regard to the board of equalization; as far as I can learn the sentiments of the people as expressed is, that the board of equalization assumes powers that the law does not give it. For instance, banks are to be assessed at 60 per cent of their capital, live stock at a price as set by the board of equalization. Now read the assessors' oath that your firm prints and a copy is in each assessment roll, and you will see where the assessors are handicapped. In fact, the assessor has no rights in law to enter on any man's premises to assess, and I know myself one party that shut his door and would not allow me to do anything in his house. I think you can do more by agitating this question than by any paper in the territory, as you can see very plainly that it is an outrage for the board of equalization to assume the right to judge the value of personal property it never saw, against the

assessment of the assessors and upheld by the county commissioners who live in the immediate vicinity of the property and are thoroughly acquainted with the condition and value of the property. I think there should be some laws passed to give the assessors the power and authority to assess which they do not have at the present time. It is not right to have the board of equalization fix the assessment of all kinds of pastoral lands at 30 cents an acre for if it establishes that price for large land holders, it is to be expected that small holders will take advantage of the ruling. It is well known that parties proving up on land pay \$1.25 per acre to the United States and office fees and next year the same land is returned to the assessor as only worth 20 or 30 cents an acre. There should also something be done about putting a price on patented mining claims. I understand that Arizona places the assessment of all patented mining claims at \$750, which is reasonable in my estimation."

The Pre-eminence of the United States.

Many congressmen, including Democrats and Republicans, have spent the summer traveling in Europe, the Philippines and in South America. They saw many things which astonished them and the most important of these was that no matter where they went the United States was regarded in many respects as the greatest nation of the world, especially from an industrial standpoint. Willingly or unwillingly they must acknowledge that the great Republican protective tariff system is the cause of this pre-eminence and to make this pre-eminence permanent for all time this nation must also excel other nations in the extent of its commerce and the number of its ships that carry the products of this country to all parts of the world.

Everywhere they found their country quoted as never before as a master agency in the world's industries and diplomacy. Many of these public men have gone to Europe every year or two for many years. The Old World is an old story to them. They are capable of making intelligent and exact comparisons. One of the returning travelers is General Grosvenor of Ohio, a member of the great ways and means committee and chairman of the house committee on merchant marine. General Grosvenor made a special study of this nation's export commerce as he saw it in his journeyings, and he has brought back a great list of American articles which have found their way to Europe for the first time, and have met success there within the past three or four years. American tools especially are gaining in popularity. The London underground railroad is "made in America," and the entire equipment is supplied by American firms. The highest classes of agricultural products, like canned goods, preserved meats and prepared foods of many kinds, are finding an ever increasing market, especially in Great Britain, where the tastes of the people are most like those of the United States.

Chairman Grosvenor sees in this growth of America's outward commerce "an additional incentive for the building up of the merchant marine. The United States should not hesitate to take prompt measures to bring this profitable carrying trade under American control." Here General Grosvenor foreshadows the action of the increased Republican majorities in the new congress. The shipping bill, which he and his committee have already favorably reported, will be brought up for action before the December session is many weeks old and should be passed with a large majority.

The Matter of Assessments in New Mexico  
According to the assessment rolls the people of Bernalillo county get along with a little less than \$3 worth of furniture per family while the fastidious people of Santa Fe county must have more than six times as much furniture per family, although even \$17 worth of furniture per family at the beginning of the 20th century seems not any too much for the comforts of home.

The poor ladies of Tierra Amarilla, Park View, Chama, El Rito and all those other prosperous settlements of Rio Arriba county must get along with \$20 worth of jewelry which they evidently share with all the men and children of the county for that is all that the assessment rolls declare are owned in the county.

If New Mexico with all its wealth could be bought at the value placed upon it by its assessment rolls and would be sold at its true value, the difference would be sufficient to create another John D. Rockefeller or an Andrew Carnegie. In fact, if a man could buy the poorest county in the territory at its assessed value and sell it anywhere near its true value, he could retire a millionaire.

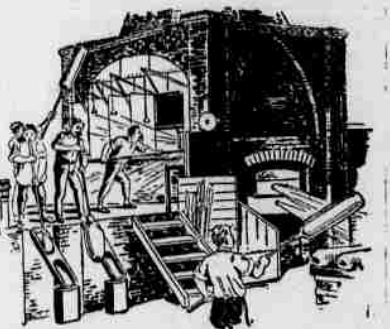

Which is more apt to draw capitalists and homeseekers, a territorial assessment of \$35,000,000 and an average tax rate of 45 mills or a taxable assessment of \$175,000,000 and a tax rate of 12 mills? Which of the two is more likely to give New Mexico statehood and which would be the best advertisement for the territory?

If it were not for the railroads and telegraph lines the assessment returns of more than one county in the territory would be measly looking indeed. More than one-half of the assessment of Luna county is upon its railroads and telegraph lines. Take away the railroad assessment in Rio Arriba county, and the whole county including its farms, its houses, its stores, its mine improvements, its flocks of sheep and cattle, its large land grants, its saw and flour mills, its irrigation works, the furniture, jewelry, stocks, bonds, watches, cash, in fact everything else owned by its people, are worth less than \$400,000, according to the assessment returns.

A glance at the assessment rolls of the territory show that there is no uniformity of assessment methods, or equality of assessment values throughout the territory. When a county like Santa Fe is assessed for more than three times as much furniture as the big and rich county of Bernalillo then it is certain that the next legislature will have to make important changes in the existing assessment laws.

## Workmen

You have seen hundreds of your companions lie in a mud and loamy with a persistent cough. You have seen hundreds of them die with that terrible disease, Consumption. You have seen their wives and children thrown upon the mercy of the cold world, because the father coughed his life away, because he neglected every day is full of sharp, metallic dust, which is inhaled into the lungs and irritates their delicate lining. In the case of glass blowers, the force

beat of the mollen glass forces its way up the tube into the lungs where it immediately lodges down their delicate structure, making every cough a danger to life. You can't afford to quit working and are daily exposed to this fatal dust and intense heat. What you and your friends need is Acker's English Remedy. This will heal the irritation, brace up your strength, and you need never lose a day's work. I have noticed that in some mills there are no cases of Consumption. The reason is that Acker's English Remedy is used by the men working there.

Sold at 25c, 50c, and \$1 a bottle, throughout the United States and Canada; and in England at 2d, 3d, 4d, 6d, 1s. If you are not satisfied after buying, return the bottle to your druggist, and get your money back.

We authorize the above guarantee.

FROM GALLUP TO DEMING.

The Survey of the Deming & Utah Railroad Proposed Several Years Ago.

(Deming Headlight.)

It is 35 miles from Deming to Swarts P. O. on the Mimbres, almost due north. The route passes about a mile to the south of the base of Cook's Peak, and a railroad station there would virtually control the business of the Peak, and not only that but would materially increase the output. There are thousands of tons of concentrating lead ore awaiting shipment to sufficient water for milling. The chief output of the Cook's Peak mines is a very desirable lead carbonate. Cook's Peak can be relied on for not less than 5,000 tons—probably 10,000 tons—per annum. From Cook's Peak north the route remains on the east side of the river until a point one and a half miles below Swarts, when it reaches largely producing farms of alfalfa, corn and orchards. Peaches are occasionally damaged by frosts, but of apples there is generally a large and safe crop, unsurpassed in quality. The route, or survey, crosses the river at what is known as Brockman's ranch, now owned by Sam Holstein, proprietor of the largest herds of cattle in New Mexico. The survey then passed the mouths of Hot Springs Canon and Big Gallinas or Chicken creek to the Mexican villages of St. Juan and St. Lorenzo, thence to old Georgetown. Two miles west of the mouth of Hot Springs Canon are the Mimbres Hot Springs at the junction of Hot Springs and Cold Spring creek, where 10 acres of mill site, United States patent, and the absolute ownership of the Hot Springs water for milling purposes has been secured by the Grandview Mining Co., of St. Louis, which also owns the largest lead and zinc mine of New Mexico, in the Grandview group of mines at the head of Little Gallinas and Silver creeks, about nine miles from the springs, it being the intention to connect the numerous mines of the district with the mill site by a narrow gauge tram-railway. The Grandview group forms only a part of a series of groups of mines in Carpenter district, capable of sending 500 tons or ore daily to the mill and making an output daily at the mill of not less than 75 tons of lead concentrates and 125 tons of zinc concentrates.

Carpenter district would also furnish to a Mimbres railroad a great deal of lumber and mill timber.

The old survey of the Deming & Utah railway was continued to Gallup by J. McLaren, a Scotch engineer, whose report was mislaid by the attorney for the company, Fielder. Both are dead and I have been unable to recover the document, but I had taken the following minutes from the report:

"The examination of the route was made clean through to Gallup. The continental divide was crossed three miles south of the Sapello river, the grade up to that nowhere exceeding 1-1/2 per cent. The crossing is just 30 miles from Swarts. Heavy timber everywhere and well stocked with cattle. The Sapello is crossed at a place called Hill's ranch. Then begins 35 miles of hard country requiring good railroad engineering. The Gila river is crossed several times causing the making of turns which increases the distance from 35 to 40 miles. This grade can be avoided by keeping well up the western slope of the Black Range turning both rivers and then resume the old grade. There are hills and canons with plenty of timber, cattle, and also farms until one gets to the Y-T ranch. Then follows a stretch of 27 miles of nice level country well timbered and watered to the west end of the St. Augustine plains. Up these plains it is 20 miles to Patterson's ranch—a perfectly level country. From Patterson it is 40 miles to Rio Camao, crossing a divide of 27 per cent grade, passing again through well timbered and watered country with large herds of cattle and sheep. After leaving Patterson ranch about eight miles, we strike the head of the Talara valley extending west 20 miles, with extensive farms and ranches. From Rio Camao it is 35 miles to the Salt Lake through a fine level country with a gradual rise to the lake. The Salt Lake covers about a section of land. There is a large outflow from a crater-like formation. The water settles the salt from an apparently inexhaustible supply. The salt is of good quality and from a grain of wheat to a hazel nut in size. Thence the route continues north through the American valley with good pastures and water in three places, 60 miles to the Zuni reservation which is about 50 miles from Gallup. From the Salt Lake north there are extensive coal beds from six to twelve feet thick, also a showing of oil, plenty of timber and some lead prospects."

Deming to Gallup ..... 337

The proposed road will pass through the richest agricultural, mining and stock raising section in the whole Rocky mountain region and will put coke and coal 200 miles nearer our large smelting industry and no high mountain ranges to cross. There is no doubt but the road will run down the Upper Gila river until it reaches Duncan, or Guthrie, and where there is already a road to Clifton and Morenci, and then into Deming to carry supplies on to Bisbee and Nacozari and Sonora and others that will come to the front in a few months, as cheap coke and coal mean the development of the entire southwest and northern Old Mexico.

L. M. DAVIS.

A WORTHY SUCCESSOR.

"Something New Under the Sun."

All doctors have tried to cure Catarrh by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack, open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of Catarrh, has at last perfected a treatment which when faithfully used, not only relieves at once, but permanently cures Catarrh, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "Snuffles the Guaranteed Catarrh Cure," and is sold at the extreme low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"Snuffles" is the only perfect Catarrh Cure ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease.

DR. TAFT BROS. MEDICINE CO.

Gentlemen: I write this testimony from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past twelve years. She has exhausted my own skill as well as many others. I chanced to see your sign upon your window on 130th Street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully,

O. D. PHELPS, M. D.

Feb. 5, 1901.

DR. TAFT BROS. MEDICINE CO.

Gentlemen: I was troubled with Asthma for twenty-two years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful to you for the cure of my health, and am doing business every day. This testimony you can make such use of as you see fit. Home address, 235 Livingston Street.

TRIAL BOTTLE SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL.

Do not delay. Write at once, addressing DR. TAFT BROS. MEDICINE CO., 70 East 130th St., N. Y. City.

Beauty is Health.

Walnut Lake, Ark., June 4, 1900.  
I thank you for the beauty I received from your advice and the Wine of Cardui. I was in a terrible condition. My life was no pleasure to me at all and I was of no use to anybody. After receiving your advice and the Wine of Cardui I commenced taking it and began immediately to improve. My husband and I have been married for 25 years and I have never been so healthy and happy as I am now. I have gained strength and my weight has increased. My husband says the medicine has made me better looking than ever before.

Mrs. LIZZIE MANNRELL.

Womanly health means bright eyes, rosy cheeks, clear complexion and elasticity of form. This is the youth unmeasured by years—the beauty of perfect womanhood. Beautiful women are happier and get more out of life than their sisters whose faces indicate suffering. Wine of Cardui made Mrs. Mannrell "better looking" and infinitely happier because it cured her of those terrible pains. But she is no exception.

WINE OF CARDUI

is giving thousands of women health, beauty and freedom from the dragging pains which made their lives so miserable. Wan faces, haggard eyes and emaciated forms are the results of suffering. What suffering can compare with the torture of irregular menstruation, leucorrhoea and falling of the womb? Beauty lies quickly before the ravages of such disease. The sharp pains of falling of the womb deepen the crow's feet in the face. Menstrual irregularities rob the eye of its fire and the complexion of its transparency. Leucorrhoea drains the body of its strength, but Wine of Cardui restores the natural beauty, brightens the eye, clears the complexion, rounds out the figure and brings back the vigor of health. Every druggist in this city handles \$750 bottles of Wine of Cardui.

For advice and literature, address, giving symptoms, "The Ladies' Aid Society," Department, The Chattanooga Medicine Company, Chattanooga, Tenn.

## It cures all inflammation quickly and permanently, and is also wonderfully quick to relieve Hay Fever or Cold in the head.

Catarrh when neglected often leads to consumption. "Snuffles" will save you if you use it once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure Catarrh in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "Snuffles" the "Guaranteed Catarrh Cure."

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address: Dr. D. H. Edwin B. Gile & Company, 2330 and 2332 Market Street, Philadelphia.

## SOCIAL AND PERSONAL

Sheriff Alexander Read of Park View, went to Albuquerque yesterday.

Judge F. W. Parker has returned from a visit to relatives in Michigan.

Mrs. Simon Viveash of Pecos, is in the capital today on a business visit.

I. W. Dwire of Taos, arrived last evening to attend the court next week.

Mrs. Salmon of El Paso, formerly of this city, was a visitor in the capital this week.

Mrs. R. L. Baca and children returned this noon from a visit to relatives in Valencia county.

Hon. M. S. Otero of Albuquerque, was an arrival on last evening's Santa Fe train from the south.

Sheriff T. S. Hubbell of Albuquerque, was an arrival from the south on last evening's Santa Fe train.

Engineer P. E. Harroun returned to Albuquerque last evening after a visit to his parents, Dr. and Mrs. W. S. Harroun.

Miss McFie will leave on Monday for Mesilla Park to take a special course at the College of Agriculture and Mechanical Arts.

A. McArthur, a Wagon Mound merchant, returned last evening from a visit to his brother, W. G. McArthur at Espanola.

Mrs. Morris who has been visiting in Santa Fe the past few weeks, has decided to return to New York on September 18.

R. J. Perew of Buffalo, N. Y., returned last evening from a visit to northern Rio Arriba county where he has some land interests.

Mr. and Mrs. Alan H. McCord who have been in California for the past three weeks, returned yesterday from their seacoast outing.

Mrs. Johanna Kahn and children left on Thursday for Los Angeles where they will spend the winter and where the children will attend school.

Miss Pain, who has spent the past three months with her sister, Mrs. Frost, will leave tomorrow morning for her home in Kansas City.

Hon. and Mrs. S. H. Elkins and daughter, Miss Juanita Elkins, arrived in Santa Fe this week from the Jemez Hot Springs and are bound for the east at the present.

Governor and Mrs. M. A. Otero and son Miguel, are expected home from Chicago and a visit to Mr. and Mrs. Harry J. O'Bryan at Denver, on next Friday or Saturday evening.

Colonel J. Francisco Chaves, territorial superintendent of public instruction, will leave this evening for Los Lunas where he will attend district court which opens there on Monday.

George B. Haggett, teacher of the Pueblo Indian school at San Felipe, left last evening for his post of duty after having spent a week at the United States Indian school in this city.

Miss Berta Rogers of Cerrillos, one of the pretty and accomplished school teachers of southern Santa Fe county, will leave for home this evening after attending the teachers' institute in this city.

Mrs. A. M. Bergere and daughter, Miss Nina Otero, are expected to return home from Denver this evening. Mrs. Bergere has fully recovered from the results of her recent operation and is in fine health and spirits.

Mr. and Mrs. Walter N. Parkhurst and child of Albuquerque, who have spent the summer at the sanitarium, left yesterday for their home, their health having been greatly improved by their sojourn in Santa Fe.

G. W. Grove of Albuquerque, who was a visitor in Santa Fe, went to Lamy last evening to meet his wife and son Harry, who were returning from a visit to their old home at Kansas City. Together they went to Albuquerque.

Samuel C. Wrightman, clerk in the office of District Clerk A. M. Bergere, returned last evening from a week's outing to the Pecos. He was domiciled at the Sparks' ranch while on the Pecos. He reports the roads in very bad condition.

The Misses Ruth and Eliza Church and Master Harding Church, step children of L. A. Hughes, who have been spending the summer in Santa Fe, intend to leave next Thursday for their home at Columbus, Ohio, to begin their school work.

Mrs. E. A. Carr on Wednesday evening entertained most delightfully in the parlors of the Palace hotel a party of invited guests at a musicale. Selections were rendered by the Misses Morrison, Hurt, Tipton and Mr. Bergere. Delicious refreshments were served.

W. H. Hildreth, editor of the Chama Tribune, left for Chama this forenoon having returned yesterday from Las Cruces. On October 1, Mr. Hildreth will take charge of the Dona Ana County Republican at Las Cruces. A deal is pending for the sale of the Chama Tribune.

J. P. McNulty, the manager of the American Turquoise company's turquoise mines at Turquesa, was a visitor in Santa Fe yesterday and today. His daughter, Miss McNulty, has been attending the teachers' institute in this city, and will leave in the near future to teach school at Gallup.

Special Attorney S. H. Spooner of the department of justice, will in a few days go to Fort Worth, Texas, on business connected with Indian depredation claims. He will be in Texas on business several weeks, but expects to be on duty in southern New Mexico, during the winter.

Hon. Arthur Seligman and family left Cleveland where they have been for the past three weeks visiting Mrs. Seligman's parents, and have gone to Philadelphia where they will remain for ten days on a visit to relatives, thence going to New York and to the Pan-American exposition at Buffalo.

S. Spitz, the prosperous Santa Fe jeweler, and daughter May, leave during the coming week for Philadelphia, where Miss Spitz will continue her studies at Swarthmore college, while Mr. Spitz will go to New York, New England, Buffalo and Chicago, to visit friends and also to the Pan-American exposition.

Mr. and Mrs. R. B. Thomas arrived this noon from Cerrillos. Mr. Thomas is the manager of the smelter at Cerrillos.

J. N. High, special agent of the general land office at Raton and Clayton, will leave tomorrow evening on a thirty days' vacation trip to his old home in Kansas.

Mrs. Olive Ennis Hite of Washington, who has been in the city for the past two months for the benefit of her health, has been quite seriously indisposed the past week, but is much better. Mrs. Hite is an able and interesting writer and is well and favorably known in Washington, St. Louis and New Mexico.

Captain S. S. Mathers, special agent of the general land office, returned last evening from a visit on official business to Clayton. He says that Union county is enjoying great prosperity and that the federal land office at Clayton is overhauled with land entries. He also reports that Receiver A. W. Thompson was suddenly called to Maine by the illness of his wife.

The cake walk at the Palace hotel on Wednesday evening, September 4, will take place from 8 to 10 o'clock. After that time anyone present may join in the regular dance which will last until 12 o'clock. It is hoped that there will be a good attendance as all money received in excess of the expenses will be used for the benefit of a public object.

Hon. W. H. Kennedy, president of the board of county commissioners, will leave Cerrillos for New York next Thursday. At New York he will meet Hon. Arthur Seligman and together they will negotiate with the principal Santa Fe county bondholders for a compromise of the county's debt upon a basis which will be satisfactory to the county as well as to its creditors.

Mr. and Mrs. James Grunfeld and child were passengers yesterday for their home in Albuquerque. Mrs. Grunfeld and child have been at the sanitarium for the past three months enjoying Santa Fe's delightful summer climate. They will go next week to Buffalo to visit the Pan-American exposition and to White Sulphur Springs in West Virginia.

Dr. Henry G. Gale and Professor R. D. Salisbury of Chicago, members of the United States geological survey, arrived last evening and started out with J. E. Webb and W. A. Averill of Chicago, who arrived a few days ago, for the Mt. Baldy and Lake Peaks section to study the geological formations of northeastern Santa Fe county, a work which will occupy them about four weeks.

Hon. W. L. Taylor of Indianapolis, attorney general for the state of Indiana, is in the capital on legal and mining business. He expects to be here a few days and may be hereafter a frequent visitor to New Mexico, as he and some friends are becoming interested in New Mexico mining properties. He is a leading lawyer of his state and a very bright and entertaining gentleman.

The wedding of Miss Elsie Iifeld of this city, to Simon Bacharach of Las Vegas, will take place on Monday afternoon at 4 o'clock at the home of the bride's mother, Mrs. Henrietta Iifeld on Cathedral street. A wedding banquet will be served at the Palace hotel after which a reception will be tendered the young couple who will leave at 6 o'clock on a honeymoon trip to California.

Hon. L. B. Prince being in Denver on business, was invited to the office of the Association for the Advancement of Science to open the discussion on irrigation on Thursday. He has also taken part in the proceedings of the section on archaeology. Other New Mexicans at the association meeting, are President E. L. Hewett of the Normal University at Albuquerque, and Professor T. D. A. Cockerell of Las Vegas.

Miss Ethel and Master Ralph Easley on Thursday evening very enjoyably entertained about twenty-five of their young friends at the cozy Easley home on Galisteo street. Cards and other games furnished the amusements of the evening. Toothsome refreshments were served. Master Ralph Easley will soon leave for Roswell to enter the New Mexico Military Institute as one of the cadets from Santa Fe county, and Miss Ethel will return to Colorado College, Colorado Springs, to complete her studies.

Clive Hastings, special agent of the general land office, returned to assist Captain S. S. Mathers in his work at Las Cruces and Mr. Will arrive tomorrow from Las Vegas Hot Springs. He is making the trip to Santa Fe on horseback over the Pecos forest reserve. He is a son of General Hastings, of Ohio, who with President McKinley and Captain S. S. Mathers, served on the staff of the late President Hayes during the civil war. Mr. Hastings will be a valuable acquisition to the younger social set of Santa Fe.

A luncheon was given by Mrs. Charles W. Dudrow on Thursday afternoon in honor of her guest, Miss Nellie Brennecke of Marshalltown, Iowa, who has been visiting her for the past two weeks. It proved to be a very entertaining and enjoyable social event. The rooms were charming in a profusion of pink sweet peas and other blossoms, and the costumes of the ladies present made up an ensemble of light and color rarely beautiful. Those present were Mrs. James Seligman, Mrs. Amanda Chaves, Mrs. S. G. Cartwright, Mrs. Wiley, Miss Crane and Miss Mason.

Santa Fe Chapter No. 1, Royal Arch Masons, held a very enjoyable convention last night at Masonic hall. The Royal Arch degree was conferred upon Messrs. J. H. Wells, manager of the Cerrillos smelter, J. P. McNulty, manager of the American Turquoise company, and George Kinsell, a merchant at Cerrillos. Among those who attended the convention from Cerrillos were Hon. W. H. Kennedy, chairman of the board of county commissioners, Captain W. E. Dame and Judge A. L. Kendall, postmaster at Cerrillos. After the chapter closed a fine banquet was served to all present in the banquet hall of the chapter.

## MINOR CITY TOPICS

## Every Exertion a Task

There is failure of the strength to do and the power to endure; a feeling of weakness all over the body.

The vital functions are impaired, food does not nourish, and the whole system is run down.

A medicine that strengthens the stomach, perfects digestion, invigorates and tones is needed.

What Hood's Sarsaparilla did for Mrs. L. B. Geland, Shady, Tenn., it has done for others. She took it when she was all run down—without appetite, losing flesh, and unable to do her work. It restored her appetite, increased her weight, and made her well and strong. This is her own unsolicited statement.

Hood's Sarsaparilla Promises to cure and keeps the promise. The earlier treatment is begun the better—begin it today.

Church Announcements.

At the Cathedral, 14th Sunday after Pentecost, Sept. 1, 1901: First mass at 6 o'clock a. m.; second mass at 9:30 a. m.; sermon in English; third mass at 10:30 a. m.; sermon in Spanish; at 6:30 p. m., vespers and rosary.
