BELGRADE IS REOCCUPIED BY SERBIANS AFTER SEVERE DEFEATS ARE INFLICTED ON INVADING AUSTRIAN FORCES

OFFICIAL DISPATCHES FROM VIENNA ADMIT HEAVY REVERSES SUSTAINED BY IMPERIAL ARMS ACROSS DANUBE

Military Operations in Hungary, the Carpathians and Poland Are Uncertain, Owing to Conflicting Reports From Headquarters of Opposing Belligerents; Polish Country Is Subjected to Devastation Almost if Not Quite Equal to That Suffered by Belgium; French Offensive Movement Is Proceeding Cautiously, With Now and Then Severe Counterattacks by Germans; Progress of War Is Now Marked by Uncertainty of Movement in All Fields of Operation.

LONDON, Dec. 15 (12:05 a. m.)—The Serbians after a fierce battle have reoccupied Belgrade, according to Nish dispatches to Reuters Telegram company.

The Austrians occupied Belgrade December 2 after having besieged it since July 29, bombarding from batteries near Semlin and from monitors on the Danube. A large portion of the city was said to have been destroyed by the fire of the Austrians.

When war was declared the Serbian government moved from Belgrade to Kragujevac and later went farther south to Nish, where it remains.

AUSTRIANS DEFINITELY DEFEATED BY SERBIANS.

London, Dec. 14 (9:10 p. m.)—Reuters' Amsterdam correspondent says the Austrians admit defeat at the hands of the Serbians in an official communication issued at Vienna today. This communication follows:

"Our offensive movement directed in a southeasterly direction from the river Drina, encountered southeast of Valjevo, a greatly superior force of the enemy.

"Our advance was not merely stopped, but we were compelled also to make more extended retirements of our troops, which for many weeks, have fought obstinately and brilliantly, but with many losses.

"Against this we may place the occupation of Belgrade. A new decision and measures consequently will be taken which will serve to repel the enemy."

SERBIAN VICTORIES ARE COMPLETE.

London, Dec. 14 (11:40 p. m.)—The most striking feature of the day's official news is the candid admission by the Austrian government of the defeat of the Austrian army in Serbia and apparently of the abandonment of its third attempt to invade the territory of its small Slav neighbor.

While attributing the failure to the enemy's superior force, as all government bulletins explain failures, the Austrian war office announces plainly an extended retirement and heavy losses.

"New decisions and measures consequently will be taken to repel the enemy," says the Austrian statement. Apparently that means that the Austrian army directed against Serbia will assume a defensive line.

Against its repulse, Austria balances the occupation of Belgrade as an asset to the good.

The Serbians claim to be pressing home their victory with more captures of prisoners and to have driven part of the invading army across the Drina river. Moreover, they express confidence that they are about to retake the capital and expel the invaders from Serbian territory.

Less definite in Hungary.

The progress of the war in northern Hungary is less definite. Sunday's German wireless report with candor equal to that of the Austrian bulletin spoke of the "severe resistance" which the German and Austrian arms are encountering in South Poland and in Galicia, adding that it was evident the Austrian forces in the Carpathians are not numerically strong enough to clear the Russians out of Hungarian territory.

Devastation in Poland. Poland is fast becoming another Belgium in point of suffering while the opposing armies drive each other back and forth, occupy and reoccupy cities and villages and inflict upon the inhabitants bombardments similar to those suffered in Belgium and northern France.

More than 500 Polish towns have been ruined, according to various accounts from the correspondents. Each army accuses the other of the looting and cruelty. The flight of the civilians from Lodz was one of the most tragic episodes of the war, while one correspondent pictures the fate of Kalisz, as a repetition of Louvain, with the slaughter of 400 civilians and the sacking of the city.

Conflicting Claims Made. A distressing feature of the fighting in Poland lies in the fact that blood kindred are pitted against each other. There are several hundred thousand Poles in the ranks of the Germans and Austrians.

The Germans claim a distinct gain in their position in northern Poland, although they are not believed to be as near Warsaw as the report last week indicated. On the other hand the Russians announce a strategic realignment of their forces in that field which strengthens their position.

Main Issue in East Unchanged. In a late report tonight the Austrians announced that they have reoccupied the important point of Duki to the north of Przemysl and Cracow, but neither the former, with the capture of 9,000 prisoners.

The main issue in the eastern theater of the war—whether the German and Austrian armies by the German operations in northern and central Poland and the Austrian advance across the Carpathians, will shake the Russian grip from the Przemysl and

Cracow fortresses—remains unchanged.

Joffre Nibbles at Enemy. The day has shown no important development in the western theater. The French war office reports artillery engagements in which they had the better of the Germans and small advances at various points, particularly in the neighborhood of Verdun and St. Mihiel, in accordance with General Joffre's famous scheme of "nibbling at them." The German bulletin denies these claims, however.

The groups in France and Belgium are suffering from a plague of mud and damp which causes them greater discomfort than did the cold wave at the end of November, with its positive hardships of frozen feet and hands, and effectively vetoes any movements on a big scale.

Life in Trenches Easier. In some ways, however, life in the trenches of the allies is easier than before, since they have been reinforced, as they do not have to spend more than two days continuously on the firing line, whereas last month they were without rest or an opportunity to remove their clothing for a week or more at a time.

The Turkish army has not asserted itself, nor has it engaged in any great battle. Enver Pasha has taken command of the Caucasian army and Talaat Bey has succeeded him as minister of war. A report comes from Turkey of growing hostility to both foreign and native Christians in that country which may lead to attack upon them.

WEATHER FORECAST.

Washington, Dec. 15.—New Mexico: Fair Tuesday and Wednesday, not much change in temperature.

AUSTRIANS CLAIM TO BE PURSUING RUSSIANS

Berlin, Dec. 14 (by wireless to London, 7:20 p. m.)—The official press bureau today gave out the following official communication from army headquarters at Vienna:

"In the fighting in western Galicia, the southern wing of the Russian army was defeated on December 12, and forced to retreat. Pursuit of the Russians has commenced. All attacks elsewhere along the battle front have broken down as previously.

"Our forces which advanced across the Carpathians are now energetically continuing the pursuit of the enemy and there is constant fighting. New Sanok was occupied on December 12. We also re-entered Grybow, Gorlice and Zimorod, Galicia. The Semplin district is now completely clear of the enemy. Our troops are now in control of the passes in the mountains and the line formed by the valley of the river Siczawa in Bukovina.

"There was no fighting in southern Poland yesterday.

"North of Lodz our allies are successfully continuing their attack on the strongly fortified positions of the Russians.

"The moving of strong hostile forces in the south necessitated the

BRITISH SHIPS IN PURSUIT OF GERMAN CRUISER

Dresden Is Now Known to Have Taken Refuge in Punta Arenas to Avoid Fleet Sweeping Southern Atlantic.

DRESDEN IN SAFETY AND IS UNINJURED

Washington, Dec. 14.—American Consul Latham at Punta Arenas late today cabled the state department that the German cruiser Dresden had reached that port safely and uninjured.

The German embassy here issued the following statement today in regard to the recent battle between the British and German fleets off the coast of South America:

"According to official information, eight English cruisers, among them two of the invincible type, took part in the battle off Falkland islands. The Dresden, which arrived undamaged at Punta Arenas, intercepted a wireless message which stated that the Gneisenau and Scharnhorst were sunk and that the Leipzig was burning. Nothing definite was known about the Nürnberg."

OFFICIALLY ANNOUNCED DRESDEN IS DAMAGED

Santiago, Chile, Dec. 14.—It is officially announced that the German cruiser Dresden now at Punta Arenas is damaged. She will be allowed to make repairs but will be compelled to sail immediately afterward or else be interned.

HIGH HONORS PAID TO BRITISH GENERAL

Tokyo, Dec. 15 (10:20 a. m.)—Brig. Gen. Nathaniel W. Harradist, commander of the British forces in north China and who headed the British contingent operating against the German fortress at Tsingtau, was tendered a state luncheon today.

Emperor Yoshihito decorated General Harradist and also congratulated him for the work of his troops before Tsingtau.

General Harradist will sail for San Francisco December 19 in company with the Japanese Red Cross workers who are to proceed to England.

Garrison at Corregidor Island Prepared for Two Years' Siege, Says Congressman at Committee Hearing.

NAVAL AIDE SHOWS NO HASTE TO TALK ABOUT IT

Secretary Daniels Is Elated Over Tests of Steam Coal Found in Alaska Suitable for U. S. Ships.

EXCELLENT GRADE OF COAL.

Washington, Dec. 14.—(Journal and Herald.)—The official announcement of successful naval tests of coal from government-owned Matanuska fields in Alaska, was made today by Secretary Daniels before the naval committee of the house. Trials by the cruiser Maryland about ten days ago, Mr. Daniels said, had demonstrated that the Matanuska coal was as good as any to be found, and pointed the way to an adequate supply of fuel on the Pacific coast as soon as transportation facilities are available.

The results of this test, over which navy officials have been existing quietly for nearly two weeks, were particularly gratifying because disappointing experiments with coal from the Bering fields a year ago had dimmed hopes that the rich deposits in Alaska ultimately would meet all of the government's demands for fuel on the west coast.

"The firing was easy and steam pressure was easily maintained," said the secretary in telling the story to the committee. "The coal is said to have burned like pine knots."

Mr. Daniels spent his fourth and last day before the committee, which will report on the matter.

EXTREMELY LOW TEMPERATURES IN CENTRAL WEST

Thermometer Records Sixteen Degrees Below Zero at Northern Missouri and Southern Iowa Points.

TEMPERATURES RANGING FROM 16 DEGREES BELOW ZERO IN NORTHERN MISSOURI AND SOUTHERN IOWA POINTS.

Kansas City, Mo., Dec. 14.—(Herald and Examiner.)—The low temperatures which have prevailed in Missouri, Kansas, Oklahoma, Nebraska, Iowa and Texas, as was looked for tonight by the government weather observer here. Record temperatures were recorded at a number of places and much suffering resulted.

At Leavenworth, Kan., one man was found dying from the cold in his hut.

Temperatures ranged from 16 degrees below zero in northern Missouri and southern Iowa, to 29 degrees above in the Gulf region. With temperatures of 17 and 18 degrees, Fort Worth and Dallas, Tex., reported the coldest weather in ten years. Shreveport, La., with a temperature of 13 degrees above zero, also reported a record.

At Atchison, Kan., the temperature was 9 below.

Charitable organizations throughout this section have experienced heavy demands on their resources. In many of the districts churches and school buildings were thrown open for the homeless tonight.

COLD WAVE TO PASS BY TONIGHT, SAYS CHICAGO

Chicago, Dec. 14.—The first cold wave of the year to strike the middle west probably will have passed by tomorrow night, according to the United States weather bureau here tonight which reported rising temperatures in the extreme northern states. The cold was passing to the east, it was reported.

Ten degrees below zero was the minimum temperature recorded, ranging from that point to 2 degrees above in this city, with a severe frost as far south as Corpus Christi, Tex. Ten below was reported tonight from Charles City, Ia. Temperatures of 16 to 18 degrees below reported in Montana, Minnesota and North and South Dakota during the early day had risen several degrees by night.

The cold struck this city with darkness Sunday night and by midnight the thermometer was near zero. It became but little warmer during the day, the official thermometer which registered 5 below at 6 o'clock, recording only 2 above at noon.

City and county relief associations and private charities contributed to the relief of hundreds during the day. The police gave first aid to a score of ily clad sufferers who felt uncomfortable from the cold.

Mr. J. Borden Harriman III. Denver, Dec. 14.—Mr. J. Borden Harriman, member of the federal commission on industrial relations, now in session here, will be confined to her bed for a couple of days, it is thought, as a result of a severe cold contracted yesterday, and an attack of indigestion. Her condition is not serious.

Summary of War News of Yesterday

Progress along the Ypres canal is noted in the latest French official war bulletin, although the climatic conditions are unfavorable to any extensive movement by the opposing forces on the battle front in Belgium and France. The Germans have replied to the attacks of the allies and violent fighting is reported during the last twenty-four hours.

An interesting feature of the French official communication is the statement that the railway station at Commercy in the department of the Meuse, has been bombarded by the German batteries from a great distance. Commercy lies about seven miles to the south of St. Mihiel.

A Reuter dispatch from Nish says the Serbians, after a fierce battle, have reoccupied Belgrade. The Austrian capital was taken by the Austrians December 2, after a siege of several months. If this report proves true, the Serbians are apparently sweeping all before them as the Austrians admit defeat at the hands of the Serbians to the southeast of Valjevo, where they were compelled to make an extended retirement.

On the other hand, Vienna announces the gain of considerable ground in a northerly direction in western Galicia, where the Austrians have retaken the town of Dukla. Austrian forces advancing through the Carpathians are said to have captured 9,000 prisoners and a number of machine guns.

The Argentine minister of marine has received information that two British warships have entered the strait of Magellan in pursuit of the German cruiser Dresden, which is reported to have arrived at Punta Arenas.

While a Buenos Aires dispatch says the Dresden was not damaged, a Santiago dispatch reports damage to the cruiser and adds that she will repair there.

The great armies of Germany and Russia are contending with all their strength for supremacy in Poland, but it is not expected that any one engagement or series of engagements will give a decisive result either for the one side or the other.

The kings of Norway, Sweden and Denmark are to have a meeting at the end of the week at Malmo, southern Sweden, to discuss the situation created in their kingdoms by the European war.

A Berlin wireless dispatch says the Austrian newspapers declare that when peace negotiations begin, the United States will have a right to act as intermediary.

Earl Kitchener, British secretary for war, has ordered an investigation into a charge by the English national council of trained nurses that incompetent nurses are serving at the front and in hospitals.

The German armed merchantman Oxford, has been captured by British warships in the Indian ocean, according to a dispatch from Tokyo, which adds that the German converted cruiser Cormoran, has entered the harbor of Guam, Ladrones islands.

TWO BRITISH AVIATORS PICKED UP IN NORTH SEA

London, Dec. 14 (7:46 p. m.)—A telegram to Reuters' Telegram company from Flushing says that the Dutch steamer Orange Nassau has picked up two aviators in the North sea.

The aviators proved to be a British officer and his mechanic, who had been compelled to descend upon the sea when the motor of their hydroplane became disabled.

At first they refused to leave their craft until they were assured they would not be interned in Holland, whither the Orange Nassau was bound.

It was reported that the aviators had been flying over Belgium, where they dropped five bombs.

JOSEPH LEITER WINS SUIT FOR \$380,833

Chicago, Dec. 14.—Joseph Leiter need not pay the \$380,833 in notes given the Interior and Monarch Elevator companies in payment for grain during his attempt to corner the wheat market in 1895, according to the verdict tonight of the jury which heard the elevator companies' suit to recover.

Leiter's sole defense was that Frank H. Rovery and C. A. Pillsbury, both of Minneapolis, representing the elevator companies, had conspired with him to withhold their wheat from the market. Their failure to keep this alleged agreement prevented Leiter from accomplishing the corner and caused him a loss of millions, according to the testimony.

Will Make Demand. Secretary Bryan had received no further word tonight of the circumstances surrounding the killing of the two Americans at Cananea, but as soon as the responsibility is determined, it is understood he will make demand for punishment of the guilty parties. The reports thus far received say they were killed by irresponsible bandits.

Admiral Howard, commanding the American squadron on the western coast of Mexico, has learned through the cruiser Denver at Ensenada that a Cananea force of 1,200, under General Huib, has taken La Paz, Lower California, and that quiet now prevails there.

Would Be Hostile Act. General Carranza, through Consul Canada at Vera Cruz, today formally advised the state department that any use of force by the American troops at Naco, Ariz., in their efforts to keep Mexican bullets from American soil, "will be considered an act of hostility, however well disposed the government may be."

This agrees with the general's statement at Vera Cruz Saturday. Reiterating his previous statements,

WILL WAIT ONE DAY MORE BEFORE RETURNING FIRE AT NACO LINE

President Wilson Cannot Understand Why Shots Should Continue to Fall Across Border After Warning.

LITTLE ATTENTION IS PAID TO CARRANZA

Statement by Pompous Old Gentleman at Vera Cruz Not Taken Seriously in Administration Circles.

BULLETS CONTINUE TO FALL IN NACO

Naco, Ariz., Dec. 14.—Gov. Nor Jose Maytorena reiterated late today his denial that he had received orders to cease firing in the siege of Naco, Sonora, which, for two months, has resorted to "stray" bullets and spent shells falling on the American side. His Villa troops continued to return the fire of General Hill, the Carranza commander entrenched in the Mexican town.

Brigadier General Tasker H. Bliss, in charge of the United States border patrol here, said he had received no orders from Washington to take action. His force, however, was reinforced today by the arrival of two troops of the Ninth cavalry from Douglas, Ariz., and two troops of the Tenth cavalry from Fort Huachuca. This addition gives him a total of eighteen troops of cavalry, two machine gun platoons and three batteries of artillery.

Bullets and spent shells from across the border fell as usual, but without any reported casualties. The toll on the American side during the siege is five killed, forty-seven wounded and five struck by bullets and shells, but only scratched or bruised.

Washington, Dec. 14.—Although both Provisional President Gutierrez and General Carranza assured the American government that their forces had not intended to confine their fire to Mexican territory, nothing official had been received late today to indicate the receipt of such instructions by the respective commanders at Naco.

Officials here are unable to understand the delay in the delivery of the messages, copies of which have passed through American telegraph lines to Naco. In the meantime intermittent firing continues.

Will Wait Another Day. The general belief tonight was that President Wilson would wait at least another day, perhaps discussing the subject with his cabinet tomorrow, and then if the demands of the United States were not complied with, the threat of the Washington government to return with artillery fire any firing into American territory, would be carried out. As yet, however, no further orders have been sent to Brigadier General Tasker H. Bliss, in charge of the situation at Naco, Arizona.

Regard Carranza Lightly. Administration officials attached no importance to the statement of Carranza that if the United States fired into Mexican territory it will be "an act of hostility." Some officials pointed out that the American government was inclined to regard shots from Mexico into the United States in the same aspect. In view of the urgent tone of the message from Provisional President Gutierrez to General Maytorena, officials believed the latter would remove his troops and avoid complications. Should one of the two factions heed the warning of the United States the need for defensive fire would, of course, be removed.

Will Make Demand. Secretary Bryan had received no further word tonight of the circumstances surrounding the killing of the two Americans at Cananea, but as soon as the responsibility is determined, it is understood he will make demand for punishment of the guilty parties. The reports thus far received say they were killed by irresponsible bandits.

CARRANZA, says General Hill has controlled his fire and that he is sending instructions down to the Sonora commander to avoid any firing that would endanger these across the American border. He deprecates that Americans have been killed and wounded, but suggests that these accidents have been due to carelessness on the part of the Americans, or "imprudent curiosity," and after similar occurrences when Andro, bordered Juarez and Americans endangered their lives by seeking points of vantage in El Paso, from which to view the fighting.

Finally he points out that the position of Hill's troops who are stationed with their backs to the American frontier, is such that it would be impossible for their fire to enter American territory and that consequently any shots from the American side would be a direct aid to the Villa forces.

CARRANZA IS PREPARING VIGOROUS PROTEST

Vera Cruz, Dec. 14.—General Carranza is preparing a protest, supplementary to his recent note to the American government, against any action by American troops at Naco. He emphasized the fact that he would regard as hostile any attempt of the United States to interfere by force on the international border where several Americans have been killed or wounded by Mexican bullets. General Carranza already has drafted in behalf of his troops any responsibility for the firing.

Record-breaking Enrollment.
St. John, N. Y., Dec. 14.—From this city with a population of thirty thousand, about 1,250 men have enlisted for service in the British army and navy, one thousand as soldiers and 250 as sailors. This is an average of one in every twenty-five of the population—an average that so far as is known here, has been exceeded only at Liverpool, where one person in every fifteen was enlisted.

BLAMES COMPANY FOR FAILING TO MEET STRIKERS

Edward L. Doyle Says One Serious Obstacle Might Have Been Waived by Unions at Outset of Trouble.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Denver, Colo., Dec. 14.—"If the Colorado Fuel & Iron Co. allowed the strike to come on without going into a conference with the strike leaders to see if they would consent to the elimination of Article 4," declared Edward L. Doyle, secretary-treasurer of District 15, United Mine Workers of America, in his testimony today before the federal commission on industrial relations, "they did themselves and everyone else an injustice."

Article 4 of the demands of the miners' union related to the "check off," by which the operators were made the agents of the union and deducted union dues and fines from the pay rolls.

Might Have Been Eliminated.
The elimination of the article in contracts with operators in other fields had happened in a number of instances, he said. "The virtue of the check off, he added, enabled the district organization to enforce contract obligations upon rebellious members by imposing fines that were collected by the operators and turned over to a charity fund of the union. Without the check off, the members could resist the orders of leaders and break district contracts. Most of the breaking of contracts in District No. 2 of Pennsylvania, had been the result of the exclusion of the "check off."

Question of Disarmament.
He asserted that the union did not hold itself responsible for the disarmament of the strikers in the southern field, since its leaders had no authority to compel obedience except to the rules and regulations of the union. The arms were personal property. He thought it proper for the strikers not to turn over all their arms to the militia because they were apprehensive as to how they were to be treated after the arms were given up.

Numerous telegrams, letters and exhibits were turned over to the commission by the witness at his office. This matter was not introduced formally into the record. It was used as a basis for questions, which the witness declined to answer on the ground that he was one of a number of labor leaders under indictment for conspiracy to murder.

These questions related to funds received by the union which are said to have been used to buy arms for the strikers.

Offers to Produce Evidence.
He offered to produce evidence that the employees of operators started the violence, if the commission would pay the expense.

No strike, he declared, has ever been won by violence, public opinion in the last analysis decided strikes, he declared, and the strikers were handicapped by the lack of good education among its leaders and the funds to hire literary talent to present its side.

"Had we the same advantages as the operators," he said, "I believe the strike would have been settled differently."

Gain in Southern Field.
Much had been gained by the strike, he declared, in the southern field, but in the northern field the miners had lost ground. Although the southern miners had not gained their demands, the operators know now, he said, that the men can and will strike. The spirit of the men was such that they will not allow themselves to be imposed upon again and the operators, because of the spirit, he said, would be inclined to treat their men with more consideration.

Such an exposition as this six months ago, he declared, would have ended the strike differently.

FAMOUS BOYS' CHOIR DECLARED DISBANDED

Chicago, Dec. 14.—The boys' choir of the Paulist Fathers, for ten years among the leading musical organizations here, was declared disbanded tonight after a dinner in honor of the Rev. William J. Finn, its founder who resigned recently.

The disbanding was said to have been due to difference of opinion between Father Finn and the Rev. Peter J. O'Callaghan, superior of the Paulist Fathers here. Father O'Callaghan was said to have objected to the development of the choir as an identity beyond that of the ordinary church choir.

The organization toured the world two years ago and had received many prizes and blue ribbons in color competition.

HUNT PROCLAIMS NEW LAWS IN ARIZONA

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Phoenix, Ariz., Dec. 14.—Governor George W. P. Hunt proclaimed late today the measures carried at the November election, including the prohibition and the anti-alien labor measures, effective January 1, 1915.

The attack upon the dry law in the form of four separate applications for injunctions will be filed in the federal court probably tomorrow at Tucson.

The eighty per cent measure, compelling the employment of 80 per cent American citizens in all businesses with five or more employees, has been protested to the state department already by the British and Italian ambassadors upon the theory that it violates treaty rights of aliens.

Big Reductions on all Dolls.
The Leader.

SALAZAR CUTS RAILROAD LINES TO CHIHUAHUA

No Explanation Given for Rush of General Villa From Mexico City to Northern State; Probably Feared Isolation.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
El Paso, Tex., Dec. 14.—The railway of the National Lines of Mexico was cut today between Juarez and Chihuahua City by the burning of a bridge. It was supposed that the former federal irregular troops under General Ynez Salazar had done the work. Salazar, who heads a new Mexican revolution, was reported as active between the lines of the Mexico Northwestern railway and the Central railway.

The National lines of Mexico were taken over by the constitutionalist government at the beginning of the last revolution. It originally was operated by a company, the majority of stock having been controlled by the Mexican government.

No reason was given by officials here today for the arrival at Chihuahua City of General Villa. It was understood that the menace of the Salazar troops and the Carranza forces under General Herrera, combined with the danger of international complications at Naco, had caused the northern chieftain to rush north.

TURKISH WARSHIP IS TORPEDOED BY SUBMARINE

Daring British Raid Into Dardanelles Brings First Naval Disaster of War to Fleet of Ottoman Empire.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
London, Dec. 14 (11:25 a. m.).—A communication issued by the official bureau today announced that the Turkish battleship Mesoudieh had been torpedoed by a British submarine.

The bureau's statement is as follows: "Yesterday submarine H-11, in charge of Lieutenant Commander Norman B. Holbrook of the royal navy, entered the Dardanelles and in spite of the difficult current dived under the bows of mines and torpedoed the Turkish battleship Mesoudieh, which was guarding the mine fields."

"Although pursued by gun fire and torpedoes, the H-11 returned safely after being submerged, on one occasion, for nine hours."

"When last seen the Mesoudieh was sinking by the stern."

HOBSON TELLS A STARTLING TALE OF WAR SCARE

(Continued From Page One.)
planning the needs of the navy in connection with the preparation of the annual appropriation bill and answering questions on every phase of the national defense problem. He said of a proposal for holding a half million dollar projectile plant at Philadelphia or Indian Head, Md., admitted that it was no secret in the navy that the reserve supply of shells for the great guns of the battleships was inadequate and gave his views at length upon the retired pay question.

Argues With Hobson.
Captain Witherhalter, the secretary's aid, was questioned about submarines and had quite an argument with Representative Hobson of Alabama, over war scares. Captain Witherhalter said he was unable to see international dangers ahead pictured by Mr. Hobson. Then the congressman told the committee of a "sacre" last year that put the American garrison in the Philippines in a state of siege.

"In May, and for some months of last year, 1913," said Mr. Hobson, "our garrison at Corregidor Island stood at the guns night and day with plans for a two-year siege. The harbor was mined. Troops from all over the islands were brought in Corregidor and everything was prepared for a siege except that there was no transfer of the government from Manila. It did not take any vision to see that."

Subject Let Severely Alone.
Mr. Hobson did not go into details as to the cause of these preparations and Captain Witherhalter apparently was not inclined to discuss the subject.

Representative Gardner, of Massachusetts, continued his efforts during the day to get hearings on his proposed commission investigation of the nation's preparedness for war. He addressed a letter to Representative Padgett, chairman of the naval committee, and Representative Hay, chairman of the military committee, asking them to summon officials of the two departments, certain retired army officers, and former cabinet officers.

Mr. Padgett replied at once, declining to summon former officers or officials and saying that the committee preferred to hear the men now in charge of the government's work.

Assistant Secretary Roosevelt of the navy department, and Commander Sterling, commanding the Atlantic submarine fleet, will be before the committee tomorrow.

COLD AND STORM BESET TRAINS IN FAR NORTH

Federal Arbitration Commission Hears Stories of Hardships Endured by Engineers in British Columbia.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Chicago, Dec. 14.—Perils of snow slides were told today at the hearing of the federal arbitration of the wage demands of the engineers of western railroads. Canadian locomotive engineers told the arbitrators, in one instance with a loss of sixty lives, and of fifty, and sixty-hour delays of freight trains held up by the heavy snows.

On advice of Judge Peter C. Pratt, chairman of the board, counsel for the employees omitted today the usual question whether the cost of living had advanced since 1910, when the last wage adjustment was made. The point was conceded, said Judge Pratt, and the arbitrators admitted the advance but demurred to the ratio of increase of wages demanded by the men.

Struggles in Winter Weather.
Replying to questions, W. G. Johnson, an engineer from Medicine Hat, and W. J. Armstrong, who runs a passenger engine between Revelstoke and Kamloops, in British Columbia, told of the struggles of the train crews against tempest and storm in lonely regions with the mercury indicating 50 degrees below zero.

"I was a fireman 1887," related Armstrong. "One day in February, a snow slide came down the mountain and tipped over my engine and buried the engine crew and some of the hands that came along to help fight the way through the snow. Six of them were killed."

Armstrong was the first passenger engineer who has testified thus far. His average earnings he placed at \$180 a month and he considered it very poor pay as compared with the service he renders the company.

Johnson's run is between Medicine Hat, "where the weather comes from" and Swift Current, British Columbia.

Mercury 45 Degrees Below.
"It's not uncommon for the mercury to reach 45 below," he said, "and when you crawl out of the cab your legs will be so nearly frozen that you can't tell that they're there. It seems kind of funny to be walking at all."

"In the country, the men are so starved it is not uncommon for a freight train to be held up for thirty hours," he was asked.

"Quite common—even fifty and sixty hours."

Johnson's pay as a freight engineer and engineer of a "helper" engine he figured would come close to \$1,600 a year.

Other witnesses were C. P. Smith, an engineer of the Chicago Great Western, and W. B. Boyd, an engineer of the Frisco system. Turning out of Springfield, Mo., their testimony was to the effect that larger locomotives have added to the work of the crews without adding to their compensation.

FLORIDA ORANGE GROWERS TRY TO SAVE CROP

Tampa, Fla., Dec. 14.—Weather bureau forecasts of a twenty-six degree temperature tonight in central Florida set orange growers to work in efforts to protect their groves. A temperature as low as that predicted would seriously damage the crop, officers of the Florida Citrus exchange said.

ZERO WEATHER VISITS PITTSBURGH AND VICINITY

Pittsburgh, Pa., Dec. 14.—With zero weather promised for tomorrow morning, western Pennsylvania and West Virginia were experiencing the first cold snap of the winter tonight. The surrounding section is blanketed by six to ten inches of snow. Railroads and trolley lines are making every effort to keep their traffic moving and little difficulty has been reported.

LOW TEMPERATURES REPORTED FROM ST. LOUIS

St. Louis, Mo., Dec. 14.—The lowest temperature of the year and in some cases the lowest in several years, was recorded throughout eastern Missouri and western Illinois today. Ice flows for the first time this winter made their appearance on the Mississippi river, forecasting the speedy cessation of traffic on the upper Mississippi until spring.

FOURTH CONTINUANCE GRANTED TO STRIKERS

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Boulder, Colo., Dec. 14.—The trial of the first case of a series, which grew out of strike disturbances at the Hecla mine, in Boulder county, last May, was continued again today, for the fourth time. The new date set by District Judge Strong was January 28, fixed against the protest of Harold P. Martin, deputy district attorney. All the Boulder county strike cases will now be prosecuted by the successor of District Attorney George A. Carlson, who becomes governor January 12.

LIVE BABY TAKEN FROM BODY OF DEAD MOTHER

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
New York, Dec. 14.—For the second time in the medical annals of this city, it is said a baby was born today after the death of the mother.

The mother, a young woman 20 years old, was walking along an upper street this afternoon with her father when she collapsed.

They were in front of a hospital and she was taken into the institution unconscious. Despite the efforts of the doctors she died in ten minutes as the result of dilation of the heart.

A cesarean operation was performed then, but it consumed fifteen minutes. The baby, a girl, was normal and weighed seven pounds.

RESTRICTIONS REMOVED FROM STOCK EXCHANGE

Commencing With Today, All Shares Listed Are to Be Admitted, Owing to Confidence of Managers.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
New York, Dec. 14.—Open trading in all shares listed on the New York stock exchange will be renewed at the opening of tomorrow's session. This significant movement was announced by the authorities of the exchange in the final hour of today's active and strident market and was received with enthusiasm in the financial district.

Will Include Internationals.
In the open list will be included a number of so-called international issues like Union Pacific, Southern Pacific, Great Northern, Canadian Pacific, New York Central, Baltimore & Ohio and several other stocks, which are held to a large extent by foreign banking interests and investors. In restoring these shares to the open market the exchange shows that there is no longer fear of European liquidation of our securities.

Two Restrictions Remain.
Only two of the many restrictions originally imposed by the exchange when business was suspended, remain operative. The rule of cash sales on all stocks selling at over \$15 will be continued, and likewise a minimum price list. Officials of the exchange are of the opinion that these safeguards cannot be set aside so long as the slightest danger of speculative or short selling remains.

Steady Advance of Prices.
Today's session, the first full day since July 30, was characterized by an almost steady advance of prices. The movement embraced all the listed shares of prominence and was especially noteworthy in the coppers, which not only made up the bulk of the business, but of the most part scored the greatest gains.

Next in point of activity and strength were Reading and Lehigh Valley, Northern Pacific and some of the lower priced railway stocks. Bonds moved correspondingly and the day's total exchange of all classes of securities constituted more than a fair average. As if anticipating their return to the open list, the stocks traded in through the clearing house rose 2 to 4 points.

BELGRADE REOCCUPIED BY SERBIANS AFTER DEFEATING AUSTRIANS

PARIS DISPATCHES CLAIM GAINS IN FLANDERS

Paris, Dec. 14 (10:42 p. m.).—The following official communication was issued by the war office tonight:

"In Belgium several attacks by the French troops have resulted in progress along the Ypres canal and to the west of Hellebeke. Several violent counter attacks have been repulsed by our troops."

"The railway station of Commercy (department of Meuse) was bombarded yesterday by the batteries firing from a very great distance but very insignificant damage was done."

"In Alsace an offensive movement resumed by the enemy to the northwest of Cernay has been repulsed."

"On the rest of the front there is nothing to report."

DECIDED GAINS CLAIMED IN AUSTRIAN REPORTS

Amsterdam (via London, Dec. 14, 10:55 p. m.).—Vienna made the following official announcement this afternoon according to a dispatch received here:

"The pursuit of the Russians in western Galicia, continues. As a result of the encounters we have won ground in a northerly direction. Dukla (in Galicia), is again in our possession. Our columns, advancing through the Carpathians, captured on Saturday 8,000 prisoners and ten machine guns."

"The situation in front of Rebrjet, to the east of Cracow, and in southern Poland is unchanged. North of Lodz our allies are pressing against the lower part of the Bzura river."

GERMAN INVASION OF POLAND HAS FAILED

London, Dec. 15 (5:49 a. m.).—A Petrograd dispatch to the Times says:

"The German invasion reached its high water mark last Saturday. Having failed to undermine and overthrow the Russian wall, the invasion has now ceased to threaten a further inroad into Poland and interest is stimulated in the next move of the Russian staff which a few days ago intimated that the Russian armies were ready to retire to more favorable positions behind Warsaw."

"Now the Russian army has splendidly responded to the situation this will not be necessary and the next move will be a maneuver to the German flank."

"The board of the Milan Corn exchange has addressed a protest to the Italian foreign minister, charging arbitrary seizure by the British and French of eleven Italian steamers."

INSTANT POSTUM

and also in the advertising.

Choice whole wheat is separated into kernel and outer-coat—combined with a small amount of wholesome molasses, roasted separately and skilfully blended to give Postum a delicious, snappy flavour similar to high-grade Java coffee. But Postum is free from caffeine and tannin, the drugs that make coffee harmful.

Anyone with signs of nervousness, indigestion, heart flutter, sleeplessness or other ills so often caused by coffee, can learn something of value by quitting coffee and using Postum—

Delicious—Healthful—Economical

Postum now comes in two forms:

Regular Postum—must be boiled to bring out the rich flavour. 15c and 25c packages.

Instant Postum—soluble form, made in the cup with hot water instantly. 30c and 50c tins

Both kinds are delicious, cost per cup about the same, sold by Grocers everywhere.

"There's a Reason" for POSTUM

What's New in New Mexico

VOGHT LECTURES IN SANTA FE AND CHARMSAUDIENCE

Tells What Denmark Has Done and New Mexico Can Do, and Pays Tribute to Work of John V. Conway.

(SPECIAL DISPATCH TO MORNING JOURNAL)
Santa Fe, Dec. 14.—For two hours this evening H. W. Voght, rural school expert of the federal bureau of education, held an audience that crowded the assembly room of the old palace enthralled with the story of what Denmark has achieved for its rural schools and how the entire nation has been regenerated through the enthusiasm and the vision of its teachers, preachers, poets and philosophers.

It is a long way that the schools of New Mexico must travel before they attain what those of Denmark were demonstrated to be, both in word and by picture, but the speaker assured his audience that County Superintendent John V. Conway has made the right start in that direction for the rural schools of Santa Fe county—a comment that was loudly applauded.

That we must get culture and more culture into our rural districts before we can expect them to develop the right kind of leadership—that we must teach our rural population to think and to be cosmopolitan in their views, and incidentally to conserve the soil; and must link mental with spiritual culture before we can achieve our manifest destiny—was the lesson of the evening's address which placed at the service of the educational authorities of New Mexico the experience of a nation that has built up the most efficient school system in the world, and of an expert who has studied the schools of many lands as well as of every state in the union. He uttered words of warning, but also words of hope, for what a small, poverty-stricken nation in the bleakest part of Europe, occupying only one-eighth of the area of New Mexico, has accomplished after a single defeat leaving most of its people in despair, surely can be achieved in this splendid country of ours.

Praise for Conway.
Mr. Voght could not say enough for the work of County Superintendent Conway, which he had viewed during the day, at the same time criticizing sharply what he considered the thriftlessness of the rural population which misused the soil but did not use it at all when its proper cultivation would bring it prosperity and wealth. It is there that the mission of the rural schools of New Mexico lies for the present—to teach the people to love the soil—to learn how to use it and make the most of it.

Superintendent of Public Instruction Alvan N. White presided. The high school glee club gave Mrs. Bartlett's New Mexico song with such inspiring effect that the audience insisted upon an encore. A number of native boys sang "Lupita" to the delight of the audience. Mrs. Van Stone acted as accompanist. It was one of the things that the speaker of the evening insisted upon—the teaching of music and the revival of community singing.

The audience was unique, for it included an Indian governor, representatives of the Catholic, Presbyterian, federal, the public, the state and the Indian schools, as well as state officials, scientists and society leaders. In conclusion a reception was tendered to the visitor. Coffee was poured by Mrs. Roth and Miss Myers, while the high school teachers served.

CENSOR DELETES NAME AND DOG BITES FINGER OF ALAMOGORDO MAN

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
Alamogordo, N. M., Dec. 14.—A gentleman (name deleted by censor), who lives in Alamogordo, reports a novel and somewhat thrilling hand-to-hand encounter with a vicious dog. He is a fancier and raiser of rabbits, and has had a number of rabbits killed by dogs during the past few nights. He was awakened in the night by a commotion in the back yard. Getting up, he went out hurriedly, without putting on any warmer clothing or getting a weapon. Thinking that he went straight to the rabbit pen. He found a big, yellow dog with one of the fine rabbits in his jaws.

Without waiting to get a club or other weapon, he grabbed the dog by the throat. The dog showed fight and there was a fierce encounter which lasted several minutes. The dog finally was choked to death, but in the meantime the gentleman had one of his fingers severely bitten. And the duration of the fight made the gentleman realize keenly that the night air was very, very cold.

Santa Fe Christmas Tree.
Santa Fe, Dec. 14.—S. G. Morley, Joseph D. Sana and a number of other citizens made the rounds of the public, parochial, mission, private and federal schools of the city in preparation for the municipal Christmas festival in the plaza on Christmas eve and Christmas evening. Community singing is to be a feature of the exercises and there are to be addresses by Governor McDonald and others. The Woman's club is in charge of the Christmas tree and the festivities.

Erick Postmaster at Dally.
Santa Fe, Dec. 14.—Postmaster James L. Seligman has been notified of the appointment of Walter H. Erick as postmaster at Baldy, Colfax county, and that the special mail service between Carr and Fort Sumner, Guadalupe county, will be discontinued tomorrow.

C. H. BAILEY DIES IN LAS VEGAS OF HEART FAILURE

Well Known Business Man of Meadow City Called Suddenly by Grim Reaper; Was Prominent Elk.

(SPECIAL DISPATCH TO MORNING JOURNAL)
East Las Vegas, N. M., Dec. 14.—With the death of C. H. Bailey last night Las Vegas lost one of its prominent business men and citizens. Mr. Bailey was the manager of the Bailey curio store and had resided in this city for the past fourteen years. His death was unexpected, being caused by heart failure. He worked at his store yesterday morning but did not return in the afternoon as he complained of not feeling well. He retired early last night and when Mrs. Bailey returned from the store about 5 o'clock she found him in bed lifeless.

Mr. Bailey was born in Canada in 1875 but moved to California while yet very young. He was connected with a Copper company in Arizona before coming to Las Vegas. When first coming to this city he entered the employ of the Charles L. Lusk company. In 1904 he was united in marriage with Mrs. C. L. Lusk. He then became manager of the Bailey curio store, with which he was connected at the time of his death. He was a member of the Las Vegas Order of Elks and of the local Order of the Fraternal Brotherhood. He was also a member of the E. Romero House and Fire company. He is survived by his wife and father. The funeral will be held Wednesday from the St. Paul's Episcopal church.

SPLENDID ART EXHIBIT OPENED IN OLD PALACE

(SPECIAL DISPATCH TO MORNING JOURNAL)
Santa Fe, Dec. 14.—A most beautiful art exhibit was opened in the reception room of the Palace of the Governors today, showing a dozen beautiful landscapes by K. M. Chapman, who has just returned to his work with the School of American Archaeology after a year's absence in Washington and New York. Most of the pictures are studies of trees and park scenes in the Catskills and in Washington, painted during the approach of autumn, in a number of instances bringing out the wonderful glow of colors.

Especially superb is a majestic oak tree with the verdured mountains in the background. Another attractive canvas in oil is a lone chestnut tree surrounded by the soft, velvety sward characteristic of eastern parks. The "Turn in the Road" and "The Forest" are splendid landscape studies. The pictures have atmosphere, the skies are well done and the drawing is finished, lacking the crudeness of the impressionists. A number of still life studies by Mr. Chapman are also being exhibited at the same time and bear witness to the versatility of the artist.

PROGRAM ANNOUNCED BY ARCHAEOLOGISTS

(SPECIAL DISPATCH TO MORNING JOURNAL)
Santa Fe, Dec. 14.—The program for annual meeting of the Archaeological Institute of America at Philadelphia, December 28 to December 31, was made public today by the School of American Archaeology. Among those who are down for set addresses are Dr. A. T. Clay of Yale university, who lectured before the summer school at Santa Fe this year. His subject will be "A New Dynastic Tablet Found at Larsa." Dr. Mitchell Carroll of Washington, D. C., who also lectured before the summer school here; William F. Holmes of Washington, D. C., who is president of the managing committee of the Archaeological school at Santa Fe, who will lecture on "The Place of Archaeology in Human History." H. J. Spinden of New York, who has visited in Santa Fe and who will lecture on "Sanhuan Influence in Salvador and Costa Rica." The managing committee of the School of American Archaeology will meet on Tuesday afternoon at the University of Pennsylvania. Most of the social sessions, and a most delightful social program has been prepared, will be held at Haverford. At the same time, some forty national scientific societies will hold their annual sessions at Philadelphia, bringing together the leading scientists of the continent.

Epidemic Is Threatened.
Santa Fe, Dec. 14.—Unless New Mexico enforces the compulsory vaccination law in every school precinct and takes the strictest precautions there may be danger of a smaller epidemic in the spring. Conditions favor it. Not only in Dona Ana county have a number of cases appeared but also at the other end of the state, where at the coal camp of Dawson, the number of cases has been increasing. Sporadic cases are reported from other sections. The chief center of infection, of course, is Mexico, and because of the unsanitary conditions there, more and more refugees are arriving from New Mexico bringing with them infection.

Mrs. McNitt Made Guardian.
Santa Fe, Dec. 14.—A special session of probate court was held today and Probate Judge Canuto Alarid appointed Mrs. Martha McNitt guardian of her little daughter Martha. The proband was fixed at \$500. The proband item in the estate of the late G. F. McNitt is an insurance policy in favor of the little girl.

Call 1558. W. Motorcycle messengers. Whitesides and Tillman.

REFORM SCHOOL MANAGEMENT TO BRING ON FIGHT

Institution at Springer Sure to Cause Lively Controversy When Legislature Meets Next Month.

(SPECIAL DISPATCH TO MORNING JOURNAL)
Santa Fe, Dec. 14.—One of the most spirited controversies in the coming legislature will be over the management of the state reform school at Springer. There will be charges and counter charges and even religious prejudices will be dragged into the fight over the institution. It will not be, as some say, republicans against democrats, but democrats against democrats, in the fight.

The controversy will bring up anew the proposition of placing all of the state charitable and penal institutions under a board of charities and corrections and to make legal provision for systematic charity in every county and municipality so that those in actual destitution will be looked over.

The organized women of the state will demand that something be done to provide for those in want. The fact that New Mexico has no poorhouse or poor farms, no longer a boast but a reproach. In no year has the need of legal provision for the destitute been as acute as in this and statistics are being gathered to lay before the legislature.

Industrial School for Girls.
A reform school for girls, will be one of the demands New Mexico has made absolutely no provision for the care of wayward girls. The reform school for boys is to be made an industrial school for boys. There is also talk of an institution for foundlings. It is considered nothing short of a scandal that bodies of newborn infants are found occasionally and no investigation is made as to whence they came, how they died or who are the parents. It is not so long ago that two such infants were found dead in the riverbed of the Santa Fe.

It is urged that a state board of charities and jurisdiction could be entrusted with the management of the penitentiary, the reform school, the proposed industrial schools, the funds expended on charitable institutions and for charity and that such a concentration or consolidation would prove economical as well as efficient, at the same time spreading the cost over the entire commonwealth instead of compelling a comparatively few municipalities in each community to carry the burden of providing for the destitute.

BROOME REMINISCENT OVER THOMPSON SETON

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
Santa Fe, Dec. 14.—B. C. Broome, of the state engineer's office, was much interested in the visit of Ernest Thompson Seton. "Years ago," he said, "when Thompson had a hard time to make ends meet, we met one evening in New York and organized the Campfire club with Seton, Dan Beard and other men who are celebrated now. I was one of the charter members." Broome is full of reminiscences of those early days in Bohemia and has knuckled considerably around the world since then, especially in the Yagui country in Mexico.

Ashley Pond of the Raymond V. Grant took Seton about town in his automobile and coaxed him to visit the cliff dwellings. Mr. Seton said he would like to spend a month with the summer school next summer and if he can arrange his dates will probably come. Others who visited the Museum of New Mexico today were W. H. Newton and Miss Rose F. Newton, Hay Springs, Neb.; Fred Wiegand, Denver; Marshall Davis, Gunnison, Colo.

County Tax Returns.

Santa Fe, Dec. 14.—Something like \$150,000 of the 1914 taxes have been collected in eight counties which are reported to the traveling auditor today. Quay county makes the best showing with \$47,397.19 of 1914 taxes collected in 1914. In addition, \$70.20 of 1913 taxes were taken in McKinley county. Taxes next with \$36,291.46 of 1914, \$101.54 of 1913, \$37.22 of 1912 and \$1.60 of 1911 taxes collected. Lincoln county is third with \$31,814.41 of 1914, \$136.25 of 1913, \$149.56 of 1912 taxes; then Sierra with \$16,646.65 of 1914, \$4,391.62 of 1913, and \$78.50 of 1912 and prior taxes collected in November; Tosa, \$15,463.34 of 1914, \$1,264.42 of 1913, \$1.37 of 1912 and \$26 of 1910 and prior taxes collected; Torrance, \$6,929.29 of 1914, \$257.71 of 1913, \$281.42 of 1912, \$161.93 of 1911 and \$229.45 of 1910 and prior taxes; Chavez, \$4,747.15 of 1914, \$2,875.30 of 1913, \$451.17 of 1912, \$179.18 of 1911 and \$69.25 of 1910 and prior taxes. Hays county, the same as last year, is again one of the laggards reporting no 1914 taxes collected in November, but \$5,263.23 of 1913, \$224.30 of 1912, \$255.84 of 1911 and \$76.92 of 1910 and prior. The heavy 1914 collections greatly relieve the financial situation of the state.

Mrs. McClain's Experience With Croup.
"When my boy, Larry, was small he was subject to croup, and I was always alarmed at such times. Chamberlain's Cough Remedy proved far better than any other for this trouble. It always relieved him quickly. I am never without it in the house, for I know it is a positive cure for croup," writes Mrs. W. R. McClain, Blairsville, Pa. For sale by all dealers.

Big Reductions on all Dolls. The Leader.

DEMINING PEOPLE NOT SATISFIED WITH SERVICE

Superintendent of Alfalfa Farms Company Kicks on Southern Pacific; Notes of Corporation Commission.

(SPECIAL DISPATCH TO MORNING JOURNAL)
Santa Fe, Dec. 14.—The state corporation commission today received another complaint from W. A. Cassler, general superintendent of the Alfalfa Farms company of Deming, because the Southern Pacific has thus far failed to put in a crossing at Milnes and better facilities for handling freight. The settlers and the company have graded and grubbed eleven miles of road, relying on the promise of the company to put in a crossing and facilities for shipping freight. The corporation commission will call for a hearing at Deming, shortly after the holidays.

The commission today requested the Denver & Rio Grande railroad to put on a passenger coach in addition to the combination car on the early morning mixed train leaving Santa Fe for Denver. Complaint had been made that the toilet facilities on the combination coach were inadequate.

Gen. Supt. G. E. Hawke, of the El Paso & Southwestern, today formally notified the corporation commission that he must decline for the sake of safety the request of traveling men to ride on the freight train between Santa Rosa and Tucuman and Vaughn and Fort Sumner. Transportation on the freight trains is much more dangerous than on passenger trains.

At the request of the state corporation commission, T. H. Williams, superintendent of the Southern Pacific, has issued instructions to place all deadhead equipment at the rear of passenger trains instead of nearest to the locomotive as has been the custom, so that passengers need not walk so far in getting on and off trains at stations.

MISS GOEBEL'S REPORT MAKES GOOD SHOWING

(SPECIAL DISPATCH TO MORNING JOURNAL)
Santa Fe, Dec. 14.—Miss Grace Goebel, county superintendent of Luna county, today made her report to the department of education, showing that not a single third grade teacher is employed in Luna county. Three teachers have professional certificates, thirty-eight have first grade certificates and only three have second grade. No other county in the state can make so fine a showing. It is not surprising, therefore, that salaries range mostly from \$75 to \$200 a month only nine teachers receiving less and these receiving from \$50 to \$70.

The department of education today received from the bureau of education at Washington, D. C., a complete course of study for intermediate or junior high schools, covering the seventh, eighth and ninth years. Similarly a course of study for commercial study and vocational courses is given. Comparison of it with the New Mexico courses of study is most interesting. It is significant that in each year and in each course, Spanish is one of the optional studies.

SANTA FE PERSONALS.

(SPECIAL DISPATCH TO MORNING JOURNAL)
Santa Fe, Dec. 14.—Assistant Traveling Auditor Walter L. Kegel returned today after two weeks' absence at his former home at Raton and will be on duty during the checking up of all the state offices which begins tomorrow.

Santa Fe, Dec. 14.—Governor W. C. McDonald returned this evening from his ranch at Carrizozo. Assistant Bank Examiner L. B. Woollers is to return in the morning with his report on the condition of the First State bank at Las Cruces.

Charles W. Fairfield, a business man of Kelly, Socorro county, who recently returned to New Mexico from Los Angeles, called on old-time friends today.

Corporation Commissioner and Mrs. Hugh H. Williams will spend the Christmas holidays with a brother at El Paso and a sister at Tucson. They will leave on Saturday.

Mrs. Mary C. Chapman will leave on Wednesday for San Diego to visit her daughter, Mrs. V. L. Rathbun.

Santa Fe, Dec. 14.—Engineer J. W. Johnson left today for San Jose to look after road work in that section.

Fish Killed in Blizzard.
Santa Fe, Dec. 14.—The game warden's office has been informed that because of a blizzard a few days ago, one-half of the trout fry killed in being taken overland to stock. Willow creek, Iron creek, West Fork and Whitewater creek. It was impossible to keep the snow from the top of the cans and the fish died from suffocation. The party with the fish could penetrate only as far as Willow creek and the trout still alive then were placed in its waters.

Another Gunning Accident.
Santa Fe, Dec. 14.—The twenty-fifth serious gunning accident reported by New Mexico newspapers this fall, is that in which Eliseo Baca, aged 17, is the victim. He was out in a sheep camp and as he set down his gun under a tree it was discharged, the bullet piercing his left hand and his stomach. He was rushed to the hospital at Tucuman, but no hope is entertained for his recovery.

COMMISSIONER OF INSURANCE MAKES REPORT

Interesting Statistics Contained in Biennial Statement; Funds Withheld on Advice of Attorney General.

(BY MORNING JOURNAL SPECIAL LEARNED WIRE)
Santa Fe, Dec. 14.—Superintendent of Public Insurance Jacobo Chaves today made his biennial report to Governor McDonald and submitted most interesting statistics. In the opening paragraph he calls attention to the fact that he has kept out and not turned over to the state treasurer \$2,223.25 of the collections of 1913 and 1914, doing this under the advice of the attorney general, to await the result of a suit pending in the courts instituted by the New York Life Insurance company to that amount paid the insurance commissioner.

The life insurance companies paid to the commissioner in 1913, the sum of \$18,506.45 and in 1914, the sum of \$18,405.77. The Pacific Mutual leads with payment of more than \$5,700; the New York Life comes second with \$4,574, and then the Mutual Life, with more than \$2,200. There is no other company that paid as much as \$4,000, although there were thirty-two life insurance companies making payments.

Other Insurance Companies.
The fire insurance companies paid \$12,178.74 in 1913, and \$12,944.50 in 1914. The Hartford Fire leads with the payment of more than \$2,500, no other fire company paying as much as a thousand dollars a year. Altogether forty companies paid, quite a number of them in England or Germany now at war with each other.

The assessment life companies, two in number, paid \$240.75 the past two years, and the fidelity, casualty, accident and security companies, twenty-seven in number, a little over \$6,000. The total paid in 1913 was \$33,339.42, and in 1914, \$33,898.26. Since the office was established in 1905, a total of \$331,975.98 has been turned over to the territorial or state treasurer.

COLLYER CONVICTED OF CARELESSNESS IN HORSE TRANSACTION

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
Santa Fe, Dec. 14.—District Attorney Alexander Reed received word this forenoon that Ol. Collyer, who escaped from jail at Cuba, Sandoval county, stealing a horse of Colonel Welch, was then arrested in Utah and lodged in Aztec jail from which he escaped with Hughie Real and recaptured in Durango, has been convicted at Aztec of horse theft. Simon Herrera was convicted of assault on the wife of his employer while the latter was away from home. E. E. Dorey of Farmington was acquitted on the charge of bootlegging.

The grand jury examined fifty-three witnesses, found twelve indictments and returned five no true bills.

District Judge E. C. Abbott and former Representative W. H. Christian addressed a mass meeting at Aztec at which a civic league was formed on Saturday evening.

The Collyer murder case is on trial now upon a change of venue from Rio Arriba county.

DIES WHILE HUSBAND IS ON RANCH; UNABLE TO SEND WORD TO HIM

Efforts to notify Fred Huning of the death of his wife at Los Lunas Sunday afternoon, so far have been unavailing. Mr. Huning is on his sheep ranch in the western part of the state. Mrs. Huning has been ill only twenty-four hours, and at the time her husband left for the range she was in apparently perfect health.

Strong Brothers prepared the body for burial but no funeral arrangements will be made until the husband is notified.

ALIREZ GOES TO JAIL, BUT NOT CHARGED WITH CASUALTY HOLD-UP

Frank Alirez, of San Jose, yesterday began serving a sentence of thirty days in the county jail. He was sentenced by Justice McClellan for having stolen harness in his possession.

The police found harness at Alirez' home after they had arrested him on suspicion in connection with the hold-up of Mrs. Barbara Casuli at her husband's store at San Jose one night last week. Mrs. Casuli at first identified Alirez, but yesterday she was not certain on the list. This year is to be made a banner year for Pythianism in New Mexico.

Fossburg State Organizer.
Santa Fe, Dec. 14.—Supreme Representative Hugh A. Williams was notified today that Grand Chancellor M. McHenry of Magdalena, has appointed A. W. Fossburg of Madrid Lodge No. 14, K. of P., state organizer who will visit all the Knights of Pythian lodges in order to induct the ginger germ. Santa Fe Lodge No. 2 is one of the first on the list. This year is to be made a banner year for Pythianism in New Mexico.

Catarah Cannot Be Cured
With LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarah is a blood or constitutional disease, and in order to cure it you must take internal medicine. Hall's Catarah Cure is taken internally, and acts directly upon the blood and mucous surfaces. Hall's Catarah Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best known ingredients, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarah. Need for testimonials, free.

Sold by Druggists, Price 75c.
Take Hall's Family Pills for constipation.

OWNERSHIP PLAN IS REJECTED BY THE COMMITTEE

Postoffice Appropriation Bill Is Reported Carrying \$321,700,514; No Provision for Taking Over Wire Lines.

(BY MORNING JOURNAL SPECIAL LEARNED WIRE)
Washington, Dec. 14.—Appropriations aggregating \$321,700,514 for the conduct of the postal service are carried by the postoffice bill reported today to the house.

No provision for extension of the postal service to Alaska and Porto Rico telegraph and telephone lines as recommended by Postmaster General Burleson was included and other department proposals were rejected by the committee.

The department, however, was authorized to experiment on contracts for rural free delivery routes.

Readjustment of salaries for rural carriers is proposed and an appropriation of \$50,000 for experiments in aerial mail delivery was refused.

TWO KILLED AND ONE HURT IN AUTO ACCIDENT

(BY MORNING JOURNAL SPECIAL LEARNED WIRE)
Reno, Nev., Dec. 14.—Two men were killed and one injured when the automobile they were driving overtook a train here today. The dead: J. H. O'Brien, agent for M. Friedman Furniture company, San Francisco; home in Chicago. Cassidy, said to be son of former mayor of Portland.

FAMOUS EDUCATOR DIES AT VILLA NOVA

(BY MORNING JOURNAL SPECIAL LEARNED WIRE)
Philadelphia, Dec. 14.—Rev. Christopher A. McAvoy, a former president of Villa Nova college and provincial of the order of St. Augustine, died at Villa Nova tonight. He had been ill for about a year.

Father McAvoy was born in Ireland seventy-four years ago and was noted for his work in establishing parochial schools.

YANKEES BOUGHT
BY COL. RUPPERT;
FEELS TOO LATE

Millionaire Brewer Announces Everything Is Settled but Price, Which Will Be About \$450,000.

French Lick, Ind., Dec. 14.—The New York American league club has been sold to Col. Jacob Ruppert. The price is about \$450,000. Colonel Ruppert will not acquire any interest in the Federal league.

This is the substance of statements made here today by Colonel Ruppert and President James A. Gilmore of the Federal league, who conferred regarding the proposed establishment of a Federal league club in New York. After the conference Colonel Ruppert said:

"I have already purchased the Yankees. The price is the only thing that remains to be settled. This probably will be \$450,000."

"I am afraid we were too late," said Mr. Gilmore. "Colonel Ruppert already has purchased the Yankees. I shall return to Chicago at once and try to find another backer for the New York club. I may interest Pat Hurahan and Mr. Seelbach of Louisville."

HUGH JENNINGS RUPPERT'S
CHOICE FOR YANK MANAGER

French Lick, Ind., Dec. 14.—Colonel Ruppert said that George East and Pittsburgh Huston are associated with him in the deal for the New York club. He said that Huston, president of the American league, and Huston will come to French Lick Thursday to complete the deal.

The question of manager for the club has not been considered yet, Colonel Ruppert said, but a report was current here tonight that Hugh Jennings of the Detroit club is Ruppert's favorite for the place. Ruppert characterized the report that Connie Mack would pilot the club as absurd.

It was reported that Gilmore and Weekman would go to Louisville tonight or tomorrow to confer with Hurahan and Seelbach regarding the proposed New York Federal league club.

ACTUAL SIGNING OF CONTRACT
TO BE DONE AT FRENCH LICK

Chicago, Dec. 14.—The actual signing of the contract is the only detail needed to complete the sale of the New York American league baseball club to Colonel Ruppert, according to Dan Johnson, president of the league, tonight. Johnson said he would go to French Lick during the week to attend to the transfer.

COLONEL RUPPERT AND HUSTON
WILL ASSUME CHARGE AT ONCE

New York, Dec. 14.—Capt. T. L. Huston, who is associated with Col. Jacob Ruppert in the negotiations for the purchase of the New York American league, left for French Lick tonight for a conference with Colonel Ruppert. Frank Farrell, president and part owner of the club, was reported to have started for Chicago.

It is understood that Colonel Ruppert and Captain Huston will assume charge of the club's affairs at once and that Colonel Ruppert will fill the office of president.

NAYN SAYS JENNINGS IS
SIGNED TO MANAGE TIGERS

Detroit, Mich., Dec. 14.—President Frank J. Naylor, of the Detroit baseball club, tonight said that Hugh Jennings will not manage the New York American league next year.

"I know nothing of it," said Mr. Naylor. "Jennings is under contract to me."

SEELBACH NOT INTERESTED IN
BASEBALL, IS DECLARATION

Louisville, Ky., Dec. 14.—Louis Seelbach, when James A. Gilmore, president of the Federal league, said he would try to interest in establishing a Federal league club in New York, tonight said he is not interested in baseball and would not care to invest in a business of which he knows nothing.

The name of Pat Hurahan, also mentioned by President Gilmore, does not appear in the city directory and Mr. Seelbach does not know him.

Kilbane Defeats Houck

Philadelphia, Dec. 14.—Johnny Kilbane, of Cleveland, the featherweight champion, outpointed Willie Houck of this city, in six rounds here tonight. Houck fought aggressively and made a good showing, but the champion's ring experience and superior reach enabled him to come out ahead in each round. Kilbane weighed 125 and Houck 125.

Evers Steadily Improving.

New York, Dec. 14.—The condition of Captain Johnny Evers of the Boston Braves, who is suffering with pneumonia, is steadily improving, it was announced tonight at the hotel where he has been ill for a week. "At one time Evers' condition was considered critical."

White Stops Murphy.

Kenosha, Wis., Dec. 14.—Charles White, Chicago lightweight, knocked out Jimmy Murphy, also of Chicago, in the second round of a scheduled ten-round exhibition tonight. White followed his left hook with a right to his opponent's jaw and Murphy went down for the count.

JACK TORRES TO
BE KID GEORGE'S
BOXING PARTNER

Smauld and California Middleweight to Work in Gymnasium at Different Hours This Afternoon.

Kid George was forced to postpone the beginning of his gymnasium training yesterday because of the non-arrival of the equipment from Santa Fe. He took it out in shoveling snow. Both he and Smauld will appear at the New Mexico A. C. gymnasium this afternoon. Smauld will work from 2 until 4 and George from the latter hour until 6 o'clock.

George will spar today with Jack Torres, who returned yesterday from Denver. Manager Winsor announced last night that Torres is going to get into the best shape for his coming battle with Leo Kelly of St. Louis in Denver.

Smauld is the personification of confidence. He has never seen George with a glove on, but he said he would never enter the ring again if he fails to defeat him. Smauld undoubtedly has had several fine opportunities to acquire experience since he met Vic Hanson and he may surprise Manager Winsor, who believes he has the boy to defeat the Albuquerque middleweight.

Tularosa Trims Alamogordo.

Alamogordo, N. M., Dec. 14.—The boys of the Alamogordo high school basketball team, played their first game of the season Saturday afternoon in Tularosa against the high school team of that town. Tularosa won the game by the decisive score of 26 to 11, fairly overwhelming the Alamogordo boys. The weather was cold and disagreeable. Five of the younger Alamogordo fans made the trip on bicycles. On the return trip they were caught in a heavy fall of snow, which compelled them to walk and push their wheels. Some of them did not reach home until after 10 o'clock Saturday night.

Lonsdale Belt Holder Stopped.

London, Dec. 14 (11:30 p. m.).—Johnny Summers, holder of the Lord Lonsdale belt, was knocked out in the ninth round by Sergeant Haskin in a contest held at the National Sporting club tonight for the welterweight championship of Great Britain.

Championship? Whaddyaean?

New Orleans, La., Dec. 14.—The referee stopped the fight here tonight between Frankie Burns and "Chick" Hayes in the thirteenth round and declared Burns the winner. The fight was scheduled for twenty rounds and was announced from the ring as for the bantamweight championship.

Brennan Loses to Gibbons.

Buffalo, N. Y., Dec. 14.—Mike Gibbons of St. Paul, outpointed and out-fought Willie Brennan, of Buffalo, in every round of their ten-round bout here tonight.

Mandot and Callahan Draw.

Memphis, Tenn., Dec. 14.—Frankie Callahan of Brooklyn and Joe Mandot of New Orleans, fought an eight-round draw here tonight.

AMENDMENTS TO
PHILIPPINE BILL
ARE SUGGESTED

Senator Reed Fears Colonization Might Raise Grave Question With United States Later.

Washington, Dec. 14.—Various amendments to the Philippine bill, passed by the house at the last session, were suggested today when the senate insular committee began preliminary consideration of the measure with Brig. Gen. Frank McIntyre, chief of the bureau of insular affairs, as first witness.

General McIntyre merely reviewed the bill of the committee, comparing it with the present law and telling of the conditions in the islands. He said the department had a number of recommendations to submit for changes in the bill, but he did not appear either to urge or oppose its passage.

Senator Reed said that under the bill it will be possible for any nation, possibly Japan, to colonize in a way prejudicial to the United States if the legislature so authorized without congressional having power to intervene. General McIntyre replied that acts of the legislature in this respect would be subject to the veto power of the president.

Senator Weeks, urging specific limitations as to the amount of public domain lands which could be granted to any person or corporation, declared that large land grants were the basis of the trouble in Mexico.

Recommendations for alteration of the bill to be submitted by the war department, General McIntyre said, would include the striking out of the provision as to qualification of electors.

PORTUGAL PREPARED
TO DEFEND COLONIES

Lisbon, Dec. 15 (via Paris, 12:45 a. m.).—A defense of the republican regime and the execution of the various measures and resolutions voted by the Portuguese parliament on November 23, concerning the participation of this country in the war in Europe or other parts of the world, where Portugal may be called to take up arms either in defense of her territory or by reason of treaty obligations with Great Britain, were the principal points in the ministerial declaration read in parliament today by the new premier, Victor Coubinho.

In addition to assuring the defense of the colonies, the government will leave nothing undone to enable Portugal to bear its part in the war, being convinced that the future and the independence of the country will be decided as much on the battlefield of Europe as in the colonies.

The declaration added that the government would arrange to hold the elections at the earliest date possible.

AMERICAN RED CROSS
IN CHARGE OF HOSPITALS

Washington, Dec. 14.—American Red Cross mission workers in Belgium are now in charge of practically all the hospital facilities, of the Serbian capital.

The American minister at Bucharest, in telegraphic dispatches received by the Red Cross headquarters here tonight, reported that the general military hospital, the general civil hospital, a number of Serbian doctors and druggists had been placed under the protection of Dr. Hyslo, in charge of the Red Cross mission work in the capital.

A consignment of 2,700 warm garments, contributed by Denver school children, the Red Cross was advised tonight, has been sent to New York for shipment to Europe.

AUSTRIA APPRECIATES
CHRISTMAS PRESENTS

Berlin, Dec. 14 (by wireless to London, 7:20 p. m.).—The official press bureau today gave out the following: "Austrian newspapers say that when negotiations for peace begin America will have earned the right to act as intermediary. These papers print sympathetic articles in connection with the opening of the American congress. They point out that the sending of gifts by American children to the children of dead soldiers is proof of the high motives by which the nation is guided."

CUBAN GENERAL DIES
AFTER LONG ILLNESS

Havana, Dec. 14.—Major Gen. Jose J. Montenegro, commanding the armed forces of Cuba, died today after a long illness.

General Montenegro, who had formerly been the head of the rural guards in Cuba, was appointed commander of the armed forces of the island republic in 1911. He had suffered several years from liver trouble. Last year he came to the United States and spent some time in search of health.

NEW RELIABLE DELIVERY
SERVICE GETS IN GAME

The opening of an efficient, reliable delivery service by Whitesides & Tillman was announced yesterday. The service will be sufficiently equipped to avoid the delay frequently experienced by merchants heretofore. The new concern starts business at a most opportune time, as the holiday delivery rush starts this week. Phone 1555 W.

NEW GOVERNOR
OF BELGIUM TO
MAKE NO CHANGE

Administration to Be Business-like, as That of His Predecessor, Is His Inaugural Announcement.

Hamburg, Dec. 14 (via London, Dec. 15, 12:55 a. m.).—General von Bismarck, the newly appointed governor of Belgium, in an interview today, said his appointment meant no change in the policy of the Germans, as the measures taken by his predecessor were practical and business-like.

He said he wished the Belgians to know that he was a just enemy; that his aim was to maintain peace and order in the land, which had become the basis of operations of the German troops so that the army would be able to devote itself to work without worrying about communication.

The general added that he hoped to succeed with his mild policy but that he would apply stern measures if they became necessary. He said he always had been interested in economy problems and hoped, in co-operation with the civil administration, to be able to do much to improve the Belgian situation.

In conclusion General von Bismarck said Emperor William had impressed upon him the necessity of doing everything possible to get the week on their feet again in Belgium.

SCANDINAVIAN
KINGS TO CONFER
ON WAR POLICIES

Copenhagen, Dec. 15 (via London, 1:50 a. m.).—By invitation of King Gustaf of Sweden, King Haakon of Norway, and King Frederick of Denmark will visit him at Malmo, southern Sweden, next Friday and Saturday.

The three kings will be accompanied by their ministers of foreign affairs and secretaries and will discuss affairs of common interest which have arisen as a result of the war.

SWEDEN FEARS BEING
DRAGGED INTO CONFLICT

London, Dec. 15 (3:20 a. m.).—A Petrograd dispatch to the Daily News says that the systematic attempts on the part of Germany to force Sweden into the German camp have led the Stockholm cabinet to consult with Denmark and Norway regarding a joint formula for guaranteeing their position and independence.

France Also Refused Pope.

Paris, Dec. 14 (8:50 p. m.).—In addition to Russia and Turkey, France has refused to accept Pope Benedict's proposal for a truce between the belligerent powers during the Christmas season.

U. S. LABOR AGENT HAS
FINISHED HIS WORK

Kansas City, Mo., Dec. 14.—After a conference here with C. S. Keith, president of the Southwestern Interstate Coal Operators' association, Ethelbert Stewart, representing the federal department of labor, who has spent almost a month in the Hartford valley district of Arkansas, investigating the coal mining troubles there, announced tonight that he had completed the work. He left for Washington, where he will report on his investigation.

Mr. Stewart reiterated his statement of last night that there is no possibility of an early settlement of the situation in the Hartford valley region thoroughly with Mr. Keith.

None of the mines of the Southwestern Coal Operators' association is involved in the Arkansas strike. Mr. Keith refused to comment on the conference further than to say that the discussion was purely a technical one.

COTTON LOAN FUND TO
BE EMPLOYED AT ONCE

Washington, Dec. 14.—The \$135,000,000 cotton loan fund plan to finance the surplus cotton crop, was approved unanimously tonight by representatives of committees which are to aid in handling the fund in the southern states.

After an all-day conference with the cotton loan committee, which has final supervision of the fund, the representatives of the committee pledged themselves to give their best efforts to the successful operation of the fund.

The conference ended tonight and most of the state committees left for the south to begin active work in putting the fund into the hands of cotton producers.

Want Railway Service Resumed.

Mexico City, Dec. 15.—A committee representing the Agave Caliente convention, has called on officials of the national lines of Mexico, asking that the railways be turned over to the company immediately in order to re-establish traffic as soon as possible. The committee gave assurances that the properties of the company would be protected.

Big Reductions on all Dolls.—The Leader.

CALIFORNIA HAS
NEW SCHEME FOR
THE UNEMPLOYED

Three Million Acres of Land to Be Taken Up Under Carey Act and Developed by Labor of Those Needing Work.

San Francisco, Dec. 14.—With the double end in view of providing for the unemployed and of developing the resources of the state, the California conservation commission decided here today to undertake an immediate reclamation of 2,000,000 acres of land along the Colorado river, now held by the federal government in San Bernardino, Riverside and Imperial counties.

Under the Carey act, the state may take up 1,000,000 acres of this land. The plan is to construct an irrigation system for the reclamation of the land with the labor of the unemployed. Those who refuse work for wages on the reclamation project are to be treated as vagrants and sent to the rock pile.

After the development work has been done the land would be opened to settlers on time payments.

In order to baffle speculators who might attempt to profit by filing on the land in question the commission will require the government to withdraw 1,000,000 acres immediately.

Although the district will be dependent for its supply on the Colorado river, there will be no conflict with the imperial valley system, which draws from the same source.

"We couldn't interfere if we would and wouldn't if we could," said the commission.

ANNA GOULD'S HUSBAND'S
ESTATE IS IN DANGER

Berlin (via Berlin to London, Dec. 15, 12:55 a. m.).—The Broadsheet Zeitung demands the confiscation of the principality of Sagan, which stands in the name of Prince Howard of Sagan, son of Duke Helle and the Duchess of Talbrant. The Duchess was Anna Gould of New York. The confiscation is demanded as a reprisal against the alleged confiscation of German property in France.

The principality of Sagan embraces the handsome castle of Sagan and twenty-four estates, aggregating 60,000 acres. Duke Helle renounced his title of Prince of Sagan in favor of his son at the time of his father's death in 1910.

NEARLY BILLION CASH
IN AMERICAN BANKS

Washington, Dec. 14.—Cash in the vaults of the 1,571 national banks reporting their condition to the comptroller of the currency at the close of business October 31, amounted to \$925,552,375, an increase over the amount of September 12, of \$21,546,024.

Individual deposits of the same date amounted to \$6,078,894,617, a decrease of \$60,186,662. The resources and liabilities of the reporting banks were placed at \$11,492,452,722 with loans and discounts of \$8,316,478,470, a decrease since September 12, of \$54,288,915.

RESIGNS CONSULSHIP
TO SELL AUTOMOBILES

Detroit, Dec. 14.—Charles Denby, United States consul general at Vienna, who left his post November 15 on leave of absence and arrived in Detroit yesterday, announced tonight that he has resigned from the consular service to take charge of the export sales department of a local automobile company.

Mr. Denby spoke enthusiastically tonight of the opportunity which awaits American business in Europe at the end of the war.

SEVEN LIVES LOST AND
EIGHT PERSONS HURT

Cleveland, O., Dec. 14.—Three bodies have been recovered, three other persons are seriously injured and a dozen missing as the result of an explosion tonight in a west side apartment house.

Seven dead, eight badly hurt, was the statement made by police soon after the explosion which was said to have been caused by natural gas in a photographic dark room. The apartment building was wrecked.

ARTHUR BRISBANE IS
QUITE ILL IN ATLANTA

Atlanta, Ga., Dec. 14.—The condition of Arthur Brisbane, editor of the New York Evening Journal, who is ill at an Atlanta hotel, continued to show improvement tonight, his physicians said. Mr. Brisbane became seriously ill of intestinal trouble last Friday, shortly after his arrival from New York.

ARMED MERCHANTMEN
CAPTURED BY BRITISH

Tokio, Dec. 15.—It is reported here that the German armed merchantman Oxford, has been captured by the British in the Indian ocean and that the German converted cruiser Cormoran, has entered the harbor of Giam in the Ladrone archipelago.

DRUMMER ALLEYS
FOR EXERCISE

Try a game of ten pins. 205 West Gold.

DON'T look for premiums or coupons, as the cost of choice Turkish and domestic tobaccos blended in Camels prohibits their use. All the value goes into the cigarettes—you'll spot the difference soon as you've whiffed just one smooth, fragrant Camel. No cigarette aftertaste. Get that? Give Camels a tryout. 20 for 10 cents.

If your dealer can't supply you, send 10c for one package or \$1.00 for a carton of ten packages (200 cigarettes), postage prepaid. After smoking one package, if you don't find CAMELS as represented, return the other nine packages and we will refund your money.

STATE BUILDING AT SAN DIEGO IS MAKING BIG HIT

San Francisco Examiner Story
Pronounces New Mexico
Structure One of Most Im-
pressive on Grounds.

That the New Mexico building at the San Diego exposition is attracting wide and favorable attention and is sure to make a big hit with fair visitors is evident from a story recently printed in the San Francisco Examiner, whose correspondent, writing from San Diego, pronounces it one of the most impressive structures on the grounds.

With the closing of the gates to the public on November 29, in order that the last month of 1914 may be devoted entirely to the rapid installation of foreign and domestic exhibits, the San Diego exposition enters on the last lap of the pre-opening period.

At sunset on December 31 the gates will once more be thrown open, and at midnight, with the arrival of 1915, a telegraph flash from the White House and the boom of the guns on the battleships in the bay of San Diego will officially open the first all-year exposition in history.

President Wilson will not be in San Diego on New Year's day, and the telegraphical signal must serve as a substitute for his presence.

Two months later, according to information from Washington, the president will pass through the Panama canal with the fleet of American battleships and proceed up the coast to San Diego, the first port of call, for a two days' stay at the exposition. He then will move on to the north for the sister exposition at San Francisco, which will open on February 20.

His stay in southern California will be marked by special celebrations, notably the most impressive being the Aztec ceremonials and a tremendous showing of the midwinter flowers of southern California, where frost never comes.

Whole Atmosphere Spanish.
Many reservations are now being made at the local restaurants, more especially those on the isthmus, and elsewhere in the exposition grounds, by large parties from different parts of the west, intent on being in San Diego for the opening night—looked upon as the "big night" in southern California history.

Uniforms for the Spanish bandmen, the Spanish dancing girls, the conquistadores who will act as attendants, and the Balboa guards—the name of the Pinkerton operatives who already are policing the grounds—have arrived, and the display is striking. The whole atmosphere is Spanish.

The pigeons of the campaniles and cornices overlooking the Plaza de Panama at the San Diego exposition have now become so tame that many of the colony of 2,000 will feed from the hands and shoulders of casual visitors as well as the Spanish boy who has been training them.

The sight of the thick covers sweeping down from the flower-covered walks is singularly like that at St. Mark's in Venice. The gorgeous peacocks which strut over the lawn in Las Huertas de Montezuma and the pepper grove, overlooking the Canyon Espanol and the ocean, and fish in La Laguna de las Flores, and the smaller lagoon of the botanical gardens have been trained to rally at the sound of a gong which announces the arrival of dinner time.

State Buildings Finished.
The buildings of the western states along La Via de los Estados are now complete.

That of New Mexico, a replica of the ancient mission on the Rock of Acoma, is one of the most impressive. The thick shrubbery of the canyon covers the rear of the building and beds of cactus are strewn about the front to carry out the idea of the desert where the ancient building stands.

Montana's building, on the other side of the highway, faces the gap between New Mexico and Washington. Further down the road, Utah's building looms up and nearby the pavilion of Kansas, almost concealed in thick foliage.

These structures form a steady line in the vision of the observer, who stands on the great Puente Cabrillo, over which lies the path of the visitor entering the west approach, "La Puerta del Oeste."

The exhibits of the different states are moving in swiftly and forces brought to San Diego are working at full speed in an effort to have installation completed two weeks before the opening date.

Washington's forestry display is now entirely placed and Utah's agriculture and New Mexico's is scattered over a wide range of subjects, with minerals, including the precious metals, taking an important part.

California's Building.
The California building, the most expensive on the grounds, is not devoted to a display of resources, this work being left to the various county groups, represented in blocks in the buildings of Kern, Tulare, Alameda and Santa Clara counties, the Sacramento valley, taking in the northern section, the San Joaquin valley, taking in the middle section, and the southern counties, whose model intensive farms and citrus orchard are among the intensely interesting outdoor exhibits.

These outdoor exhibits include the Ceylon tea plantation, with 200 sturdy young saplings brought to San Diego by Sir Thomas Lipton and growing well under the care of Singapore nurserymen, the great orchard and meadows where the International Harvester company is making the largest exhibit of its history, and the display of oil wells and by-product making by the Standard Oil company.

The tractor building about which farming machinery will be shown in

Henry C. F. Benjamin, of 7722 Fourteenth avenue, Brooklyn, N. Y., an intelligent, conscientious young man, a college student, mysteriously disappeared from home January 7 last. He went to college that morning in the best of spirits, taking leave from his mother and has not been seen since. There is no explanation for his disappearance. There is nothing known against him that would have caused him to run away. His parents are distraught. They have kept quiet about it almost a year, hoping that he would let them hear from him; also they desired to avoid publicity. But their anxiety and suffering are no more endurable and they believe that the time has come to notify the press.

He probably goes under some assumed name. It is believed that he may have gone out to earn his own way, and therefore he is likely to be in any kind of employment. In his vacations he has worked as a teacher, a day laborer, as an office assistant and various other things.

The above picture is several years old, but is a good likeness. He is tall, heavy (about 175 pounds), usually dresses neatly; has dark, bushy hair, brown eyes; gives the impression of being athletic. He is a good "mixer," and is likely to have become popular wherever he is.

People meeting one seeming to answer the description are urged to direct his attention to this and to notify his grief-stricken parents, addressing F. Benjamin, 7722 Fourteenth Ave., Brooklyn, N. Y.

operation and the first outdoor automobile show in history lie to the north.

United States Marine Camp.
"Camp Cabrillo," the United States marine camp on the San Diego exposition grounds, is complete and the erection of the tents will begin shortly. The force of marines and their regimental band will play an important part in the parades of 1915. The camp overlooks the bay, with the permanent marine camp and the aviation camp across on North Island.

Throughout 1915 there will be regular aeroplane service between the exposition and Coronado and other coast cities.

In addition to fathering the aeroplane flight from New York, guaranteed by Ralph Appenman to establish a transcontinental record of seven days, the San Diego exposition is assisting in the desert automobile classic from El Paso to San Diego on New Year's. The purse has already reached \$25,000, and probably will be higher.

Inquiries from the principal drivers of the world are already filed and the 1,200-mile classic is expected to establish an important record in automobile history.

The route is over the line by which the bulk of 1915 motor travel will come, but the racers should cut the time below five days, with two days required for the run from the Texas border city to Phoenix, Ariz., and three more for the remainder. The last control will be at Yuma, Ariz., with one day for the run through Imperial valley and over the last divide.

REORGANIZED MORMONS HAVE NEW PRESIDENT

(BY MORNING JOURNAL SPECIAL LEASED WIRE.)
Independence, Mo., Dec. 14.—Fredrick M. Smith, first counselor, today was sustained as temporary president of the reorganized Church of Jesus Christ of Latter Day Saints and will assume the work of his father, Joseph Smith, president, who died last week.

This action was taken at a meeting of the quorum of the twelve apostles, the highest ruling body in the church, and followed a revelation announced in 1906 by Joseph Smith that his son should succeed him. A general conference of the church at which a permanent president is to be chosen will be held in La Monte, Ia., April 6, 1915.

Since 1902, President Smith has been first counselor to his father and in recent years he practically has been active president.

The new leader is a grandson of Joseph Smith, the prophet, who founded the Church of Jesus Christ of Latter Day Saints. He is 38 years old.

LONDON CONVENTION RATIFIED BY SPAIN

(BY MORNING JOURNAL SPECIAL LEASED WIRE.)

Madrid (via Paris, Dec. 15, 12:20 a. m.)—The senate today ratified the London convention relative to safety at sea.

The international convention for safety at sea, which was framed at London was largely the result of the Titanic disaster. One of its principal clauses calls for sufficient life boats aboard ships to handle all persons on board.

Famous Woman Sculptor Dies.
Philadelphia, Dec. 14.—Miss Katherine W. Cohen, a sculptor widely known in this country and Europe, died at her home here today. She was 55 years old and had studied under famous masters both here and abroad. A bronze of Abraham Lincoln, "Dawn of Thought," and "Vision of Rabbi Ben Ezra Expounding the Law," were among the most famous of her works.

Sick Two Years With Indigestion.
"Two years ago I was greatly benefited through using two or three bottles of Chamberlain's Tablets," writes Mrs. E. A. Keller, Elida, Ohio. "Before taking them I was sick for two years with indigestion." Sold by all dealers.

SON RETURNS IN FATHER'S CUSTODY TO FACE TRIAL

(BY MORNING JOURNAL SPECIAL LEASED WIRE.)
Lansing, Mich., Dec. 14.—Sheriff J. S. Eggers, of Greenup, Ky., left here tonight with his 17-year-old son, Ernest, who is wanted in Kentucky to face trial on a charge of murder.

Father and son appeared before Governor Ferris late today and waived hearing on extradition.

"It's pretty hard on a father to take his own son back to prison to await trial for murder, but the law is there," declared Sheriff Eggers. "Trons are unnecessary; son will return without trouble."

Young Eggers is wanted in Greenup for an alleged part he took in a fight in which a boy was killed. A brother of Ernest was engaged in a fight with a bigger boy, according to the father's story. Ernest came up and during the melee, fired a shot which passed through the body of his brother's opponent and killed a boy standing near.

MODERN CROOK BEATS POLICE FOR BRAINS

(BY MORNING JOURNAL SPECIAL LEASED WIRE.)
San Francisco, Dec. 14.—"The modern crook is a high class criminal who outshines the ordinary policeman in brains a city block," D. Augustin White, chief of police, told a delegation from the Civic League of Improvement clubs today.

The delegation called to ask the chief if he could stop what was denominated a crime wave in San Francisco. The chief said he could not, because, he said, the supply of policemen was inadequate.

WOULD RECLAIM ARID LANDS IN MONTANA

(BY MORNING JOURNAL SPECIAL LEASED WIRE.)
Washington, Dec. 14.—The right of the United States to reclaim a large area of arid land in northern Montana, with water diverted from the St. Mary and Milk rivers, which separate Montana from the province of Alberta, Canada, was discussed here today before the international joint commission without decision. At the request of F. H. Newell, head of the United States reclamation service, action was postponed to permit a further investigation.

PREVENT CRIME BY AIDING MEN IN WANT

(BY MORNING JOURNAL SPECIAL LEASED WIRE.)
New York, Dec. 14.—The police of New York city are trying to prevent crime by helping men in want. Police Commissioner Woods tonight told members of the Federal club, Sixth assembly district, asking for the operation of the public in making his policy of crime prevention effective. He said:

"The professional criminal has almost disappeared. Six years ago the majority of men arrested were professional criminals. Today those arrested are chiefly boys and men who have been driven to desperation by hunger."

NO SEPARATE PEACE OFFERED TO SERBIANS

(BY MORNING JOURNAL SPECIAL LEASED WIRE.)
Vienna, Dec. 15 (via London, 6:02 a. m.)—It is officially denied that Austria-Hungary has attempted to conclude a separate peace with Serbia.

There have been several reports regarding possible peace negotiations between Austria and Russia but the above official denial is the first intimation here that there have been similar reports regarding Serbia. It is probable that following the recently reported success of the Serbians such a rumor became current in Europe.

Italian Composer Dead.
Rome, Dec. 15 (via London, 2:15 a. m.)—Giovanni Scambatti, the composer, died last night.

Scambatti was born in Rome in 1842. With his colleague Ponelli he founded the music school attached to the Accademia di St. Cecilia and in 1896 also founded the "Nuova Societa Musicale Romana."

He was considered one of the most notable of modern Italian musicians.

Petrograd Water Supply Cut Off.
London, Dec. 15 (1:51 a. m.)—A dispatch to Reuters from Petrograd says the city is without water, owing to the blocking of the Neva river conduits by ice. Factories are shutting down and the tea shops and bath houses also are closing. The people are fearful that should a fire break out great damage will result. This is the first time the conduits have been stopped by ice since 1892.

Texas Sails for Tampico.
Vera Cruz, Dec. 14.—The United States battleship Texas has sailed for Tampico, to relieve the battleship Rhode Island, which has been ordered to come to Vera Cruz. On the arrival here of the Rhode Island, the battleship Minnesota will proceed homeward, Rear Admiral McLean transferring his flag to the former.

Dutch Detain Grain Cargoes.
London, Dec. 15 (3:09 a. m.)—The Daily Chronicle's Amsterdam correspondent says sixteen vessels containing grain, which the Germans sent from Antwerp, have been detained by the Dutch at Hansweert, Holland, at the mouth of the river Scheldt.

Paris in Fear of Zeppelin.
Paris, Dec. 15 (12:40 a. m.)—All the street lamps in Paris were extinguished at midnight. The reason for this precaution is said to have been the receipt of a report that two Zeppelin dirigible balloons had been sighted at Amlens, proceeding in the direction of Paris.

DEATH INFLICTED FOR MUTILATING SLAIN GERMAN

(BY MORNING JOURNAL SPECIAL LEASED WIRE.)
Berlin, Dec. 14, 7 p. m. (via London, Dec. 15, 12:55 a. m.)—Lieutenant General von Streek, former inspector general of ordnance at Munich, has died from wounds received while fighting in the west.

The newspapers announce also the death on the battlefield of General von Brisen, commander of an infantry division, and Major General A. von Martin.

The newspapers today generally print the story of the killing and mutilation of a German sentry who had been watching the wire entanglements and comment appreciatively on what is termed the quick justice meted out by the French to the man who mutilated him. The soldier was found dead, December 4. His ears had been cut off.

The day following the finding of the body an officer of the French infantry appeared before the German position under a flag of truce and expressed to the German commanding officer the abhorrence of his regiment at the action of the culprit, who he said already had been condemned and shot.

To Fight Cattle Diseases.
Washington, Dec. 14.—An emergency appropriation of \$1,000,000 for fighting the foot and mouth disease was passed today by the senate.

GERMANY FROWNS ON VIOLATION OF PAROLE

(BY MORNING JOURNAL SPECIAL LEASED WIRE.)
Zevenaar, Holland, Dec. 14 (via London, 9:50 p. m.)—Two German officers who had been war prisoners here and who had violated their parole by escaping across the border into Germany, returned today under orders of their government to do so.

The officers reported to the commanding officer at the internment camp at Bergen, where they will be interned until the end of the war. Before the violation of their parole they had the privilege of free movement.

BRITISH STEAMER IS BELIEVED TOTAL LOSS

(BY MORNING JOURNAL SPECIAL LEASED WIRE.)
Norfolk, Va., Dec. 14.—The British steamer Isle of Iona, which went ashore one mile south of Cape Hatteras inlet today, was believed tonight to be a total loss. The twenty-seven men of her crew, were quartered in the Hatteras life saving station.

The Isle of Iona was bound from Cuba to Baltimore with iron ore. She was built in 1905 and owned by the Isle Shipping company, limited, of Liverpool.

German Retreat Confirmed.

Rotterdam, Dec. 15 (via London, 3:15 a. m.)—The newspaper La Belgique says that the retreat of the German toward prepared positions east of the Yser is confirmed. Masses of troops have been concentrated along a line embracing Bruges, Thilist and Cantal, with general headquarters at Thilist.

unusual. A large attendance is required. Visiting brothers will be made especially welcome.

The case of J. M. Cross and S. E. Harding against R. M. Mattox and his partners will continue on trial in the United States district court today. The case probably will reach the jury today.

Mrs. M. E. Johnston and son, James, returned yesterday from Prescott, Ariz., where they attended the funeral of the husband and father, Thomas Johnston. Mr. Johnston was taken ill with pneumonia and died last Wednesday morning. The funeral was held last Saturday morning at Prescott. He was a railroad and for years worked here in Albuquerque.

Judge H. L. Waldo will arrive in Albuquerque from Kansas City Wednesday evening over the Helen cut-off, en route to California, where he will spend the winter. He will be met here by Mr. and Mrs. A. T. Rogers, Jr., of East Las Vegas, who will accompany him to the coast. Mrs. Rogers will remain for the winter but Mr. Rogers will return about January 15.

LADY AUCKLAND MISSES RINGS WORTH \$1,250

That Lady Auckland, who was here with her son November 11, lost two rings valued at \$1,250 between Rowe, San Miguel county, and Los Angeles, came to the knowledge of Under Sheriff Dick Lewis yesterday.

Albuquerque Council No. 611, Knights of Columbus, will meet in the L. O. T. hall tonight.

The under sheriff's informant was C. White Mortimer, his Britannic majesty's consul at Los Angeles, who explained the delay in the notification of authorities by saying that Lady Auckland was not accustomed to American promptness.

Lady Auckland was carrying the rings in a silver box in her handbag. One was set with a diamond and worth 150 pounds, while the other was set with a diamond and ruby, and was valued at 100 pounds.

She last saw the rings at Rowe, where she opened her handbag to see if they were safe. She did not look again until she reached Los Angeles on November 12.

She and her son were traveling on a motorcycle with a sidecar. He was taken ill near Rowe and the machine damaged, so they took a train to Albuquerque. They went from here to Los Angeles on the Santa Fe's limited.

KUNZ CASE POSTPONED UNTIL THIS MORNING; MAY SUBMIT BRIEFS

The Kunz case was put off until today by Police Judge Craig yesterday upon the request of Judge W. C. Henscock, attorney for the liquor agent, until this morning. City Attorney Thomas N. Wilkerson probably will name a lawyer to represent the city owing to the fact that he has been attorney for Kunz.

Kunz, according to report, will admit the sale of beer, but contend that the city license ordinance does not legally tax this business. It was said that the council would submit briefs to the court, permitting the case to be decided solely upon the law.

DISTRICT JUDGES TO RECOMMEND PRACTICE RULES

Will Meet Here Today and Tomorrow to Decide Upon What to Advise Legislature to Pass.

The district judges and supreme court justices will meet today at the Alvarado hotel to decide upon recommendations to the state legislature of rules looking toward the uniformity of practice.

The judges were to have met yesterday, but several were late in arriving so the meeting was postponed until this morning. The meeting will be informal. It was called by Judge Edward L. Medler several weeks ago. There is a lack of laws governing practice, according to the judges. Because of this attorneys follow the usages to which they were accustomed before coming to New Mexico with the result that procedure varies according to locality.

Judges who were here last night were E. L. Medler, Colin Neblett, M. C. Mechem, David J. Leahy, G. A. Richardson, John T. McClure, besides Judge Reynolds.

ROADMASTERS TO BE CHANGED BY SANTA FE SOON

Plan Being Tried on Albuquerque Division May Be Adopted; Would Place Them Under Division Engineers.

The Santa Fe is contemplating a change in departments on January 1, which, if made, will result in upheaval of the system that has been in vogue ever since the railroad was organized.

This is the phasing of the roadmasters under the jurisdiction of the division engineers instead of directly under the division superintendents, greatly increasing the scope and character of the work of the engineering department.

The system is now used by the majority of the railroads with success and in fact is being submitted to experiment on one of the divisions in each general manager's territory on the system. At present the idea is being given a practical workout on the Albuquerque division for the coast lines.

CARNUEL MAN BOUND OVER ON CHARGE OF LARCENY OF CATTLE

Dario Garcia yesterday was committed to the county jail to await the action of the grand jury on the charge of larceny of cattle. Justice Gregorio Garcia of Los Griegos, who bound him over, fixed his bond at \$500, which he did not furnish.

HEATED WATER PIPE EXPLODES, SCALDING MRS. FRANK TROTTER

Mrs. Frank Trotter, 623 North Fourth street, was badly burned yesterday morning by a steam explosion. Her face and neck were scalded and her eyes injured.

Mrs. Trotter found the water pipes in her home frozen and started to thaw them. A pipe burst, throwing hot steam in her face. While the burns are very painful, Mrs. Trotter is not in serious condition. Her sight was not impaired.

SANTA FE STOREHOUSE TO BE FINISHED APRIL 1

The Atchison, Topeka & Santa Fe has awarded a contract for the construction of a one-story reinforced concrete storehouse at Albuquerque, to the Layden-Orsengen Construction company, Chicago. The building is to be fifty feet by 400 feet, with a platform seventy feet by 800 feet. Work will be begun at once and is to be completed by April 1. The estimated cost is \$60,000.—Railway Age Gazette.

J. M. HARLAN LOSES SUIT TO BANK BY DEFAULT

The First National bank took judgment against J. M. Harlan yesterday in the district court amounting to \$282.30. The bank brought the suit against Harlan and Will Halloran, but Halloran could not be served. Service was obtained upon Harlan, but he failed to enter appearance and the judgment was granted by default. The bank based its claim against Harlan on a promissory note.

AGED BROTHER ONLY RELATIVE OF J. B. HEINL

Two Letters Addressed to Brothers in Germany Returned Unopened; Only Answer From Karl Heinl.

Probate Clerk Walker, yesterday received a letter from Karl Heinl of Windisch-Eschenbach, Bavaria, saying that he was the only surviving relative of John B. Heinl, who died here September 22.

Worry over his brothers and nephews because of the war, was said to have been a contributing cause of the death of Mr. Heinl. At the time he was thought to have three brothers and several nephews living in Germany. Mr. Walker wrote them all, but all the letters with the exception of that sent Karl, were returned unopened and bearing German inscriptions, showing that they had not been delivered.

Left Property to Dead Wife.

Mr. Heinl left a will, bequeathing all his property to his wife. She died several years before he did, however, and he had never changed the instrument. He had not obtained his final citizenship papers and as he had no known relatives in this country, his property will probably go to the brother. The probate court will require proof of the death of the others from him, it is likely.

The signature of Karl Heinl indicated that he was well advanced in years. The ink lines are the irregular tracing of an aged and infirm hand. Under his signature his name was written by another person and there it is perfectly legible.

Letters Evidently Unopened.

The letters addressed to the other brothers, show no evidence of having been opened by the authorities, although they went to a country at war. The letters probably were returned by way of Holland.

EDUCATIONAL EXPERT WILL ARRIVE TONIGHT

H. W. Focht, of the United States Bureau of Education, who is making a survey of the rural schools of New Mexico for that bureau, will arrive in Albuquerque from Santa Fe tonight and will spend several days here inspecting the rural schools of Bernalillo county. The information that he acquires will later be embodied in a report to be made to the department in Washington.

Mr. Focht has an international reputation as an expert in educational matters, having made important school surveys in Denmark, Sweden and Belgium, as well as in practically every state in the union. He will deliver a lecture Wednesday night in the auditorium of the high school on a topic of interest to all who have the educational development of the state at heart and will doubtless be heard by a big audience.

While in Albuquerque Mr. Focht will be entertained by Superintendent Atanasio Montoya, of the county schools, and Superintendent John Mine of the city schools.

NEW MEXICO-TO-GULF RAILWAY IS PROJECTED

A railroad to be known as the Texas, New Mexico & Eastern, is projected from a point in the coal fields of New Mexico to the Gulf of Mexico, probably at Aransas Pass—a distance of 500 miles. The portion of the road under immediate consideration is to extend from Lameza, the county seat of Dawson county, to the city of San Antonio, following in a general way the valley of the Colorado river. A bonus of \$2,500 a mile of road is being secured. It is stated that construction work is to begin some time this month. James L. Hinrod is vice president and general manager.—The Railway Age Gazette.
