NUMBER 14

## CONGRESSIONAL.

### Tariff Bill for the Philippine Islands.

### Appropriation Passed for Exhibition at Charleston.

### Long List of Appointments Made by the President.

#### POSTMASTER OF NEW YORK.

Washington, Dec. 9.—Chairman Payne, of the ways and means committee, today presented to the house a bill for the Philippine Islands, which he had drawn to meet the conditions of the recent supreme court decision. The bill provides for a meeting preliminary to the meeting of the full committee tomorrow when the Philippine tariff measure will be submitted to the democratic members. The bill is quite brief, with two main features, applying the Dingley law against Philippine exports to this country and applying the Philippine tariff schedule to goods entering the Philippines. A further section grants a rebate of customs tax on goods which paid internal revenue tax in this country. There is no provision in the measure that it shall be temporary until congress has otherwise acted.

#### SENATE.

Washington, Dec. 9.—A resolution appropriating \$25,000 for transporting and installation of government exhibits at the Charleston exposition passed. Hear, Massachusetts, presented a joint resolution authorizing the president to enter into negotiations with the civilized world for the purpose of punishing persons attempting the lives of the chief executives of the United States. Mr. Hear, asked for the reprinting of the document relating to the colonial holdings in the Philippines. The bill was a great public demand for this publication. The reprint was ordered.

#### SHIP SUBSIDY BILL.

Senator Foss today introduced the new ship subsidy bill. It differs in form from the subsidy bill of the past two sessions. It is divided into four titles and seven sections. The sections under the title "Ocean Mail Steamships" are devoted to amendments to the ocean mail act of 1891. The postmaster general is required to consider the national defense and maritime interests of the United States as well as the postal interests in providing for transportation of American mails. The general subsidy is a uniform one cent gross ton per 100 nautical miles for not over 100 nautical miles for each year. Any vessel to receive general subsidy must carry mails, if required, and must train in steamship or engineering one American youth for each 1,000 tons, the vessel to be at the service of the government if required in defense. Any vessel to receive subsidy must be a class A and at least one-fourth of the crew must be Americans. The bill provides an annual bounty of \$2 a ton for deep sea fishing vessels and \$1 a month for American citizens who engaged in deep sea fishing. Mr. Foss, South Carolina, made a speech discussing the campaign in South Carolina, his position regarding federal patronage and his relationship with it. He said that the campaign against him has been one of calumny, vituperation and misrepresentation. As to patronage, he sought to have democrats appointed and where this could not be accomplished.

## CARNEGIE GIFT.

### Will Donate Ten Millions to Education.

### Sad Fate of Miners Prospecting in Luzon.

### Federation of Labor Adopts a Number of Resolutions.

#### DEATH OF IOWA VICAR GENERAL.

Chicago, Dec. 9.—A dispatch to the Record-Herald from Washington says: "Andrew Carnegie is to give \$10,000,000 to the cause of university education in the United States. Carnegie has just laid out lunch with President Roosevelt, when details of the plans were fully discussed. Carnegie thought best to create a national board to handle this magnificent benefaction and the president will probably name a board for Carnegie."

#### SAD FATE.

Miners Prospecting in Luzon Island Killed by Bolomen. White Sulphur Springs, Mont., Dec. 9.—The fate of George Hayes and three prospectors who left here to prospect in the Philippines in 1899, has been revealed in a letter from Rev. J. C. Lehart, residing in Manila. Diligent inquiry on his part disclosed the fact that the party, disregarding warnings of the military not to venture beyond their lines of defense, had gone into the mountains of Central Luzon. Later the bodies of the men were found literally chopped to pieces by bolomen.

#### FEDERATION OF LABOR.

Resolutions Adopted at the Annual Convention of the Order of the American Federation of Labor reported a number of resolutions this morning. The first resolution considered was one pledging the assistance of the federation to the Journeymen Tailors union in its fight for free shops. It was adopted.

These resolutions were also adopted: Petitioning congress to amend the laws so that every seaman shall have the right to quit any merchant vessel on which service has become onerous to him; also to prohibit towing on the oceans of gigantic rafts. The committee on labor reported the following resolutions which were adopted: That the Federation refuses to recognize labels gotten up by rival unions of the Tobacco Workers International union; that the Federation draw up a form of obligation that will instruct all new members to demand the union label wherever they purchase manufactured goods; endorsing the union stamp of the International Union of Journeymen Horseshoers; endorsing the label of the Actors' National Protective union. The convention adjourned until 9 o'clock to allow several committees to give delegates a hearing this afternoon and tonight on a resolution referred to them for consideration.

#### Death of Catholic Priest.

Somerville, Mass., Dec. 9.—Rev. H. R. Kelly, vicar general of the diocese of Ottumwa, Iowa, is dead here at the home of his sister. He was taken ill on his journey east. Kelly was born at Somerville in 1846.

#### BACK FROM WASHINGTON.

What H. B. Ferguson Has to Say About His Trip. Hon. H. B. Ferguson arrived home this morning in return from Washington, where he had been to represent this city and present Albuquerque's claim for the establishment of an army post at the territorial metropolis. Mr. Ferguson and in response to a request for information as to the present status of affairs the gentleman expressed himself substantially as follows: A board consisting of Generals Miles, Young, Brooke, Otis, Bates, Kolbe and one other general whose name I do not remember, all constituting the highest officers in the service, was appointed by Secretary of War Elihu Root, with instructions to make a report concerning the distribution to be made of the United States army. The board is to advise as to the abandonment of existing posts as well as to make recommendations for establishing entirely new posts. Their report is to be made to the secretary of war, and through that official and the president, it will doubtless be sent to congress, which alone has power to make money appropriations for any purpose, but it is certain that the action of this board as to location of new posts will be accepted by congress without question and the requisite appropriations made. Therefore the important place to make a fight is before this board and I am told many hundred applications have been made for the establishment of new posts at various points. Delegate Rodey, Mr. Cromwell and myself appeared before the board on behalf of Albuquerque. Delegate Rodey and I both made statements in behalf of Albuquerque, and at the request of the board we afterward filed a carefully prepared written statement, which is to come before the board for its consideration. We were favorably received and courteously treated, and the situation looks favorable for Albuquerque as far as I can judge. I think oral arguments were made in favor of no other point than Albuquerque because soon after we had our hearing an order was issued by the secretary of war prohibiting any oral hearing before the board because too much time would be consumed, and applicants were limited to filing written statements. The secretary of the board told me he thought the board would finish its labors this present week and I presume nothing definite will be heard until the board adjourns. No information was made by the board as to their work and the conditions at which they had arrived.

#### Safe Robbery.

Meridian, Mich., Dec. 9.—The New county safe at Decatur was robbed last night of \$4,000 in pension warrants, a large quantity of school teachers warrants, \$2,250 in checks, a number of postoffice money orders, a quantity of stamps and over \$500 in cash.

#### Town Burned.

Kalamazoo, Mich., Dec. 9.—The entire business portion of Gobles, twenty miles west of Kalamazoo, was destroyed by fire yesterday. Sixteen business places were burned. Loss estimated at \$100,000.

#### There will be a meeting of the Mystic Shrine this evening.

C. M. Taylor, the division master mechanic, is in the city from Hatan, and was noticed among local railroaders. Wallace Heeselden and wife are reported to be in Las Vegas, and are expected here Wednesday night. Mr. Heeselden visited his old home in England, and his wife later on joined him in New York. Together they visited eastern relatives and friends, and are now visiting Las Vegas before returning to this city.

#### On diamonds, watches, etc., or any good security; also household goods stored with me; strictly confidential. Highest cash price paid for household goods. Automobile 'phone 126. T. A. WHITTEN, 114 Gold avenue.

#### Money to Loan.

Honey drops, Iceland moss drops, nourishing drops, for coughs, colds, and throat ease. Home made. De-laney's.

#### Fresh Cut Flowers.

IVES, THE FLORIST.

## DONIPHAN DEAD.

### Hero of the Conquest of New Mexico.

### Heavy Snow Storms Prevail in Texas.

### Place of Confinement of Miss Stone and Mme. Tsika.

#### B'G FIRE IN WISCONSIN.

St. Joseph, Mo., Dec. 9.—Colonel John Doniphan, hero of the Mexican and civil wars, fifty years prominent in affairs in Missouri, died this morning. He was born in Ohio in 1825. Colonel Doniphan led the Missouri regiment in 1846, which invaded and conquered New Mexico. His regiment marched from Independence, Missouri, and captured Santa Fe, fought the battle of Arapito, near where Las Cruces now stands and invaded Mexico, taking Chihuahua by assault. From Chihuahua the regiment marched on foot to New Orleans, where it was finally discharged. The march of Doniphan's famous regiment has no parallel in American military annals. In crossing the Jornada del Muerto desert, out of a detachment of 165 men of this regiment, only 14 survived, the remainder dying of thirst.

#### TEXAS STORMS.

Real Snow Storms Have Reached Northern Part of State. St. Louis, Dec. 9.—Telegrams from Texas report that the first real snow storm of the season prevailed over northern and northwestern Texas yesterday, accompanied by very cold weather. Ranchmen fear heavy loss of live stock in the lower and central Panhandle sections, where cattle are thin in flesh and feed and water scarce.

#### PLACE OF CONFINEMENT.

Where the Missionaries Are Held by Bandits for Ransom. Sofia, Dec. 9.—According to information received by Sofia, Miss Ellen M. Stone and Mme. Tsika are confined in the vicinity of Rilo, about five miles south of Dubinitza, in Bulgarian territory. The news was brought in by a Macedonian, who left there December 1, and who furnished precise information regarding the hiding places and names of agents supplying food for the brigands and their captives. It is understood that the information is considered reliable enough to justify the American officers in Turkey to dispatch agents to treat with the bandits and application has already been made to the Turkish government for free passage of emissaries across the Turkish frontier, which is vigorously guarded by troops every hundred yards.

#### Destructive Fire.

Rhineland, Wis., Dec. 9.—The Wash Screen Door company's plant was entirely destroyed by fire late last night. Loss, \$200,000.

#### H. Henry carries one of the finest St. Bernard's ever imported, weighing 206 pounds, valued at \$5,000. Can be seen in their parade.

## The ECONOMIST MAIL ORDERS Filled Same Day as Received.

### But Three Short weeks TO THE GREATEST HOLIDAY OF THE YEAR, WHEN EVERYBODY THINKS OF SOMEBODY ELSE, AND ONE'S GOOD WILL AND GENEROSITY ARE ONLY BOUNDED BY THE PURSE WITH WHICH FORTUNE HAS ENDOWED ONE. New Mexico demands Statehood from the Fifty-Seventh Congress.

MONDAY, DEC. 9.

### SECOND CLASS MAIL MATTER.

In his annual report, the postmaster general discusses at length the imposition upon the postal service resulting from the abuse of second class mail privileges. In a clear and convincing way he shows that reform is urgently needed, provision for which can be made by Congress through proper changes in the postal laws.

Second class matter is made up chiefly of newspaper and other publications, and the amount of postage due in a given case is determined by the weight of the matter sent out. It is a good law, but unfortunately it opens to abuse through loose interpretations and constructions.

The result is that thousands of publications which are not genuine periodicals within the intent of the law are registered as second class matter and thus receive the benefit of the low postage. Many of these publications consist of books that are represented to belong to a series, but that really have no connection with one another except in the desire of the publishers to secure cheap postage. Others are advertising schemes, which under the guise of genuine periodicals, and with the pretense of having bona fide circulation obtain the benefit of second class mail rates.

The postmaster general estimates that the weight of all second class matter is three-fifths of the total weight carried by the department, and that the cost of transporting and handling it is one-fourth of the total cost of the postal service. The cost of the mails for the last fiscal year was \$115,551,920, one-fourth of which is \$28,887,975. But the department collected on second class matter only \$12,942,285. This means that more than the deficit shown between the total cost and the total revenue of the department.

### DESIRE A REPUBLIC.

The desire of the Cubans, as reported by Governor General Wood, for a republic, even if it should last only a week, is natural. After being in bondage to Spain for centuries and having acquired their freedom with the assistance of a neighboring and friendly country, it would gratify a large proportion of the inhabitants of the island to see the long star flag of Cuba Libre float over the towns and fortifications so lately rescued from the Castilian power. But it is as true now as it ever was that the natural trend of events is toward annexation and that the best interests of the island demand ultimate union with the United States.

On November 1 there were 259 blast furnaces in operation in the United States, with a weekly output of 220,824 tons. This at the rate of 16,500,000 tons per year, which is a larger output than that of Great Britain and Germany combined. In 1896, the pig iron production of Great Britain exceeded that of the United States.

"When all is said and done, the rule of brotherhood remains as the indispensable prerequisite to success in the kind of national life for which we strive. Each man must work for himself, and unless he so works no outside help can avail him; but each man must remember also that he is indeed his brother's keeper."—Roosevelt.

People will buy Christmas presents. If the local merchants cannot satisfy the customers' fancy they will send elsewhere for the desired articles. If our merchants desire the trade, let them bid for it—others are doing it. Put your ads in the paper which is read. If you do not consider the Christmas trade worth bidding for let the fellow have it who does.

President Roosevelt has always been a stickler for publicity in corporate affairs. He believes that business should be open and that books, profits, etc., should be public property so far as inspection is concerned and that statements should be published two or three times a year.

"Great corporations exist only because they are created and safeguarded by our institutions; and it is therefore our right and duty to see that they work in harmony with these institutions."—President's message.

Write to your friends "down east" about a beautiful weather we are having. Tell them how long it has been, if you can remember, since we have had a snow or any sort of bad and disagreeable weather.

What the president says about irrigation in the arid region will please all western people. It is one of the numerous topics the vigorous treatment of which marks their author as a western man all over.

The Ladies' Home Journal is of the opinion that a man should intrust his whole income to his wife. That's what has kept many a man from the poor house who didn't know the worth of a dollar.

President Roosevelt says in his message: History may safely be challenged to show a single instance in which a masterful race such as ours, having been forced by the exigencies of war to take possession of an alien land, has behaved to its inhabitants with the disinterested zeal for their

## 96 PER CENT.

During October nearly 96 per cent. (95.87%) of the death claims paid by the Equitable in the United States and Canada were paid within 90 days after proofs of death were received.

No. Amount	Claims paid	\$14,100,173
There were only Eight claims that remained unpaid on the second day.	Total claims paid	\$1,000,173
Total premiums paid	\$78,593	
Profits to estates of assured	\$621,580	
Where claims are not paid immediately it is usually due to delay on the part of the beneficiary in submitting complete papers.		

98.47 PER CENT. OF AMOUNT PAID WITHIN A DAY.

Ratio of claims paid to premiums received, 264.18 per cent.

Per Cent. of profit to Estates of assured, 164.18 per cent.

There were 23 claims from \$10,000 to \$25,000.

There was one claim between \$30,000 and \$50,000.

There was one claim for \$50,000.

There was one claim for \$125,000.

All of these claims were paid within one day after receipt of proofs of death.

New Mexico and Arizona Department.

Albuquerque, N. M.

## THE NORTHERN TOWNS.

Folsom, Aztec, Taos, Red River, Santa Rosa, Clayton and Raton.

## FARMINGTON AND ELIZABETHTOWN.

## FOLSOM.

From the Stockman.  
Miss Grace Fowler was ill a couple of days last week, but is now convalescent.

The gratitude of the people should be extended to our board of school trustees for the effort they have made to jerk a little way and wherefore out of the chaotic entanglement of the district's financial condition.

Last Thursday little Henry Collins had the misfortune, while playing, to receive a deep cut in the scalp. Dr. Latham, Folsom physician, did some delicate surgical work and we are pleased to state that the little fellow is progressing nicely. The doctor says the lad stood the painful operation with stolid stoicism.

Salomon Alvarado fell from the north bound passenger train at Adams, last Tuesday morning, sustaining a fracture of both bones of the right leg below the knee. He was brought to Folsom on the south bound passenger train. Wednesday night when his injury was treated. Wednesday morning he was taken to his home in Trinidad.

From the Index.  
Hanna Gikas, of Parsons Springs, is here, and has some cattle which she is feeding in the valley.

Frank Blackmer's new hall in Aztec is all right. It has a floor suitable for dancing and is large enough to afford a place for entertainments, meetings, etc.

E. T. Israel, of Lincoln, Neb., has purchased an 80 acre tract of G. A. Baker, of Cedar Hill. He will teach the school in district 10 this year. His family has arrived here and will doubtless prove a very valuable acquisition to the community.

The threshers are now at Lamberston's place near Aztec and will finish up the threshing in this vicinity in a few days. George Hale and Sam Wright are in charge and the machine has been very busy this season.

A. D. McIntosh, of Cedar Hill, has recently added some graded sheep to his stock ranch and will go into the business of breeding. The stocks of the Shropshire breed and come of a family of prize winners well known through the Mississippi valley. They come from L. M. Hartley, a noted dealer, of Salem, Iowa.

The sweetest prize of \$10 offered by the Colorado-New Mexico Fair association for the best display of farm products and vegetables from the counties of San Juan, La Plata and Montezuma, is yet unpaid. The prize was won by and awarded to S. E. Counts, of this county. The fair is that the money was earned and is due. The fair was held early in October.

### ARTESIAN WATER.

#### Flow Struck in the Rio Grande Valley

News was received in Las Cruces yesterday of the striking of artesian water on the Waddingham lands on the Arroyo Grande, about eight miles northwest of Engle, says the Don Ana County Republican.

The news excited great interest here, as it strengthens the conviction held by many citizens, and indeed, by government experts who have looked the valley over, that an artesian flow can be struck in the valley.

The flow above Engle was struck by parties prospecting for coal in the interests of the Santa Fe railroad. The drill was put at work, with this interesting and important result.

The flow was struck at a depth of 300 feet, and it runs 2,000 gallons per hour. The place where the drill was sunk is in the foothills of the San Cristobal mountains, and it is a reasonable inference that, if the drill had been put down at a point nearer the river, where the altitude is less, the flow would be stronger. Engle is about 100 feet below sea level.

Further developments will be watched with profound interest.

### TAOS.

#### From the Crescent.

Our local saw mill men are now cutting and selling more lumber than ever before, all of which is going into good substantial improvements.

The weather, which is always fine in Taos this time of year, has been exceptionally so this fall. The coldest point reached has been 20 degrees Fahrenheit below zero, and now at Taos there has not yet been a cloudy day.

Eleven of the carpenters who are to erect the mill and other buildings for the Fraser Mountain company have arrived and begun work and several more will be along shortly. The place where work like business at old Amizett when men are brought in at this rate.

### RED RIVER.

#### From the Prospector.

E. M. Whitt left for Pueblo to be gone for two or three weeks.

Tom English, who taught a very successful term of school at this place two years ago, is now teaching on the Johnson mesa, in Colfax county.

Grover O. Snow, a former Red River boy, started his many years ago, arriving in camp. He has been spending the past two years in the southern part of the territory. The last year he has been in a railroad office near White Oaks.

### SANTA ROSA.

#### From La Voix Publique.

Lumber is arriving daily and building is going ahead rapidly.

A shooting scrape is reported to have taken place about fourteen miles from town. We have been unable to gather any particulars of the case, only knowing that one man was shot three times and that the preliminary hearing will be held on the 11th of next month.

Great excitement prevails in town on account of the rich strike of copper ore that has been made about two miles and a half from this place in a southeasterly direction. It is reported by those familiar with mining matters that this copper strike is one of the richest that has been made within the territory. Several claims have been staked off already.

### CLAYTON.

#### From the Enterprise.

The teachers from the public school are making arrangements to give a splendid school entertainment Christmas and will be assisted by a number of local vocalists.

Prof. G. L. Marsh is making himself very popular with Clayton people in the responsible capacity of superintendent of the city school. Mr. Marsh is a young man of energy and ability.

Tom H. Goodwin, of Albuquerque, New Mexico, a mining and smelting man of considerable experience, has been in the Cerro district for several days looking over the camp with a view to putting in a plant for treating the low grade ore. We understand that this favorably impressed with the appearance of the copper in the sandstone and has gone to see what he can do toward securing the necessary machinery. It is pretty generally agreed that the ore cannot be smelted properly on account of the great amount of silica in the rock.

### SAVED HIS LIFE.

"I wish to say that I feel I owe my life to Kodol Dyspepsia Cure."—H. C. Christensen of Hayfield, Minn.

"For three years I was troubled with dyspepsia so that I could hold nothing on my stomach. Many times I was unable to retain a morsel of food. Finally I was confined to my bed. Doctors said I could not live. I read one of your advertisements on Kodol Dyspepsia Cure and thought it fit my case and commenced its use. I began to improve from the first bottle. Now I am cured and recommend it to all. Digests your food. Cures all stomach troubles." B. Ruppe, Cosmopolitan.

### RATON.

#### From the Reporter.

W. A. White, the photographer, is expected home next week from Lawton, Oklahoma.

Pearson Fry, of Pennsylvania, is here on a visit to his brother, Harry, and may conclude to locate permanently.

Rev. R. M. Craig, synodical missionary of the Presbyterian church for New Mexico, was in Raton and made arrangements to furnish an assistant

## The Oldest and Best.

S. S. S. is a combination of roots and herbs of great curative power, and when taken into the circulation searches out and removes all manner of poisons from the blood, without the least shock or harm to the system.

On the contrary, the general health begins to improve from the first dose. For S. S. S. is not only a blood purifier, but an excellent tonic, and strengthens and builds up the constitution while purging the blood of impurities.

S. S. S. cures all diseases of a blood poison origin, Cancer, Scrofula, Rheumatism, Chronic Sores and Ulcers, Eczema, Psoriasis, Salt Rheum, Herpes and similar troubles, and is an infallible cure and the only antidote for that most horrible disease, Contagious Blood Poison.

A record of nearly fifty years of successful cures is a record to be proud of. S. S. S. is more popular today than ever. It numbers its friends by the thousands. Our medical correspondence is larger than ever in the history of the medicine. Many write to thank us for the great good S. S. S. has done them, while others are seeking advice about their cases. All letters receive prompt and careful attention. Our physicians have made a life-long study of Blood and Skin Diseases, and better understand such cases than the ordinary practitioner who makes a specialty of no one disease.

We are doing great good to suffering humanity through our consulting department, and invite you to write us your blood or skin trouble. We make no charge whatever for this service.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

### FROM THE INDEX.

Several boys of Blossburg were arrested and brought before Judge Bayne charged with throwing baling wire over the electric wires which furnish power for the mines. They were given a severe lecture and caution by the judge. It seems the boys did not realize the mischief their acts caused.

H. L. Rhodes, deputy sheriff at Cedar Hill, brought in Lewis Miller, who is charged with having appropriated to his own use clothes, blankets, guns, etc., from the W. S. and Springer ranches. He was brought before Judge Bayne and bound over to the grand jury in the sum of \$250.

King & Jones, who have been associated in the conduct of the Palace bar, have dissolved partnership by mutual consent. J. C. King retiring. The business hereafter will be conducted by Henry Jones. Mr. King retires in order that he may give his undivided attention to his distillery, beer, ice and bottling business which he recently purchased.

### FARMINGTON.

#### From the Hustler.

E. C. Arnold is around on crutches after a severe attack of lameness.

Archie McLaren is receiving estimates for the construction of the new electric light building.

Jos. Paen, confined in the county's excuse for a jail, escaped Thursday night and was recaptured Friday afternoon.

The scientific work of the Hyde Exploring Expedition this year, consists of field work by Prof. Dodge of Columbia university, a study of the Chaco canyon, and the location of the various towns.

Superintendent J. A. Frazier, of Farmington public school, is making an effort to secure a much needed organ. The directors have kindly assisted in the effort to this end. The school children should do the rest.

### ELIZABETHTOWN.

#### From the Miner.

It is stated that the snow on the range of mountains between Elizabethtown and Amizett is so deep as to make the trail impassable.

L. W. Brown, formerly of Elizabethtown, is still confined to his bed, and is improving but slowly. He is being cared for at the home of his sister at El Creek.

A Sunday school was organized at Cimarron by the pastor of the Methodist church, with Mrs. D. D. Coverdale, superintendent. Miss Julia Barber, assistant superintendent, Harry Hankins, treasurer.

### HALL & LEARNARD

### LOCAL PARAGRAPHS.

The remains of J. Richard Crossman  
were shipped per express last evening  
for Silverville, Pa. in accordance with  
instructions received by Undertaker  
Edwards.

J. W. Carey, of Madrid, is in the  
city on a visit to friends. Mr. Carey  
has just returned to the territory from  
Colorado. He expects to be in Mad-  
rid in a few days.

Miss Mary Mallon, who has been in  
Albuquerque for the past six months,  
living with Miss Moore, on the High-  
lands, was an east bound passenger  
of the morning train bound for Den-  
ver.

There will be a regular meeting of  
the W. R. C. tomorrow afternoon at  
2:30. Election of officers. All mem-  
bers requested to be present. By order  
of the president. Alva Isherwood, sec-  
retary.

Mrs. A. C. Briggs, whose husband  
died several months ago in southern  
California, is in the city. Mrs. Briggs  
is just returning to California after  
taking the remains of her husband  
back east for burial.

M. J. Farrell, with an "Uncle Josh"  
advertising scheme, was arrested to-  
day by Marshal McMullin on tele-  
graphic advice from Las Vegas. Mar-  
shal Murphy, of that town, is expect-  
ed here tonight for the prisoner.

E. J. Barnum and wife from Indiana,  
Ind., arrived in the city on the  
morning train today and will at once  
become permanent fixtures in the ter-  
ritorial metropolis. Mr. Barnum taking  
the position of machinist operator at  
The Citizen office.

Fred Viruley, formerly of this city,  
but for the past few months a carpen-  
ter of Las Vegas, is in the city, com-  
ing to attend the funeral of George  
Schlereth, whose death occurred this  
morning. Mr. Viruley will return to  
Las Vegas tomorrow morning.

The Worth and Will Hill, who were  
charged with fighting and disturbing  
the peace at the Midway saloon on  
North Third street, Saturday night,  
were before his honor, Judge Craw-  
ford, this morning to answer for their  
fun. Ten dollars or ten days was the  
fine imposed.

The funeral of George E. Schlereth  
occurred this morning at 10 o'clock  
at the immaculate Conception. Rev.  
Mandall preaching the sermon. Bur-  
ial was had in the Santa Barbara com-  
mentary by Undertaker Strong, and a  
large concourse of friends followed the  
remains to their last resting place.

An alarm of fire was turned in  
from box 21, corner of Iron and Coal  
avenues last night at 9:30 o'clock, and  
when the firemen arrived on the scene  
they found no fire of any kind in pro-  
gress. It is against the city ordinance  
to turn in a false alarm, and Chief  
Ruppe proposes, if such culprits are  
caught, to make an example of them  
by having them arrested and fined.

A. A. Byrley, who has been mining  
in the Portland, Oregon, district for  
the past few years and where his  
health was impaired, is in the city to  
recuperate, and while here his old  
friend, W. L. Bradley, night operator  
at the local Western Union Telegraph  
company's office, will see to it that he  
enjoys himself and secure the bene-  
fits of this delightful winter climate.

**DEATH'S DOINGS.**  
ANTHONY FRANZE.  
Anthony Franze, a barber at W. H.  
Hahn's shop, died at his room on  
South Second street at midnight last  
Saturday night from typhoid fever af-  
ter a short illness. The deceased came  
here about four months ago from De-  
nver, and accepted a chair at the Hahn  
shop. The barbers of the city took his  
case in hand and when sickness compelled  
him to remain at his room, but all they  
could do, with the attention of a well  
known physician, availed nothing and  
Tony, as he was familiarly called,  
yielded up his life at the hour men-  
tioned. A telegram has been sent to  
his brother, Ferdinand Franze, of New  
York City, and if no answer is received  
the remains will be buried here to-  
morrow afternoon. Undertaker Ed-  
wards to have charge of the burial.

**JOHN PRESTON.**  
John Preston, the miner who was
