New Mexico demands Statehood from the Fifty-Seventh Congress.

THURSDAY, DEC. 5.

Mexican dollars look like thirty cents at El Paso.

The total receipts from the war revenue act from June 12, 1918, to October 31, 1901, were \$243,838,624.

Honolulu's sugar crop is said to be a record breaker, having 360,038 tons, against '89, 344 tons last year.

It is estimated that 3,000,000 bushels of United States wheat will be taken by Mexico by January 1, when the duty will be restored.

Of all the anti-trust laws that have been built in forty states that of Texas seems to be the only one that has proved itself worth anything.

The palace car porters of the country, who number 7,000, are agitating for the purpose of getting better wages. They now receive \$30 per month.

A marked increase in pauperism is reported in London. Last year nearly 4,500 more than usual received aid at the almshouses. No cause is assigned for it.

Delegate Rodney may not secure statehood for New Mexico in Washington, but he will let everybody know that he is at the national capital for that purpose.

Over 3,500 bills were introduced in the lower house of congress the first day of the session. Most of these bills will never be reported back from the committees.

Money is getting over plentiful in New York for the savings banks are moving to reduce the rate on deposits from 4 to 3 1/2 per cent per annum, beginning with the new year.

The chemical engines at Las Vegas and other towns in the west are reported worthless as fire extinguishers. This city should test the one it is purchasing before paying for the same.

The Kansas state board of agriculture reports that the winter wheat yield in Kansas for 1901 was 90,045,514 bushels, valued at \$50,472,573. This breaks last year's state record by 13,450,070 bushels.

The monthly statement of the collections of internal revenue shows that for October, 1901, the receipts from all sources amounted to \$24,350,907, a decrease of \$3,047,672 as compared with October of last year.

That army post location has stirred things up. The citizens' advice from Washington is that a lively fight on between the representatives of this city and those of Santa Fe. Indications are that Mr. Prince is the best talker in the whole bunch.

The Captain Progress says that it is more than probable that the irrigation interests of the western states and territories will receive recognition at the hands of the new congress. If the agitators of New Mexico would devote their time to pressing the claims of New Mexico in that direction instead of stirring up political animosity it would be much better for the territory.

**CORRECT ESTIMATE.**  
The Captain Progress says that Delegate E. S. Rodney estimates that 25,000 people have found their way into New Mexico within the past year and that Lincoln, Otero and Guadalupe counties have been the greatest gainers. His utterance in regard to Lincoln county is very bit true, as the county has witnessed a greater number of newcomers within the past year than during any similar period in its history. In fact, there is no other county in the territory which has had a more substantial and solid growth within the time named than Lincoln. But this is not all. The coming year promises to witness even greater things.

**THE REGULAR ARMY.**  
The army of the United States on the regular establishment consists at present of 3,253 officers and 76,084 enlisted men as we learn from the annual report of the secretary of war. The figure is here given does not include members of the hospital corps, sutlers, surgeons and native scouts in the Philippines, or the officers and men of the Porto Rico provisional regiment. More than half of the total force is stationed in the Philippines at present, though the number of men there has been greatly reduced since the last report of the secretary was submitted. The reduction here, in fact, amounts to over 30,000 men. There are now less than 5,000 men in the island of Cuba.

**DISAPPOINTED GANG.**  
The Elizabethtown Miner says that the faction at Santa Fe which fought the reappointment of M. A. Otero as governor of New Mexico at the hands of the late President McKinley now proposes to resurrect its charges and bring the matter up before President Roosevelt. The respectable people of the territory, regardless of political affiliations, disapprove and denounce any such action and the kickers at the territorial capital will find out that they have not only barked up the wrong tree, but the people of the territory have become disgusted and sick

Regular communication of Temple lodge No. 6, A. F. and M., took place at 7:30 p. m. Work in E. A. degree. By order of the W. M. C. Medler, secretary.

J. F. Elfen, an old Denver newspaper man, is in the city, and will leave in a few days for El Paso, to accept a position on the Daily News of that city.

Col. A. W. Harris, the well known mine operator of Kingston, Sierra county, is in the city and will remain a few days. He returned from Santa Fe last night.

J. F. Crawford and Ben Bothe, who left for the McIntosh ranch a few days ago, are expected to return to the city tonight. They are hunting about the country, and no doubt will show up with plenty of quail.

David Somers and wife, who were here the past few days, continued on their way to St. Louis yesterday.

While here, the young couple were shown courtesies by David Weiler and other Albuquerque friends.

Mariano Armijo, the Spanish editor, has returned after a few days' visit to Santa Fe relatives. Mrs. Armijo was left at the capital until the return of her father, Col. J. Francisco Chavez, from Chicago.

Carl E. Holderle left last night for Mexico, and after his trip to the principal cities of that republic, he will go to San Francisco, where he will locate permanently.

Capt. W. D. Remey, who was here the past month with his wife and son, left last night for Washington, D. C., where they will spend the winter.

While in this section, the party visited the adjacent Indian village and designed a number of models which he will make during the winter.

The Weinman store room, formerly occupied by the Elk resort, on Railroad avenue, is being put in good condition for H. Ruppe, who will occupy it on January 1 as a drug store.

Ruppe is personally supervising the placing of shelves, while a fine skylight has just been completed.

J. P. Cook, the well known ex-deputy sheriff of Socorro county, was on the sick list the past few months, is in the city and will remain a few days. His attending physician at Socorro, Dr. Horton, came to the territorial metropolis, and in consequence Mr. Cook came up to the territorial metropolis.

At her residence, No. 124 South Armo street, Mrs. Whitehead, who has a small party of friends, gave a party of refreshments served among the guests were Messrs. and Mrs. Murray, Newton and Sexton; Mrs. Stevens, Messrs. and Mrs. Boggs, and Messrs. Parker and Beal.

In Colombo hall, last night, a large crowd listened to the address on "Objections to Socialism and the Answer," by Rev. Carl D. Thompson, pastor of the People's church of Elgin, Ill. A number of members of the socialist organization were present, but there were not many of them as people who were attracted to the hall who wished to learn of the fundamental principles of socialism. The speaker addressed an audience here several weeks ago. He is now on his return to Illinois after a lecturing tour in this territory, Arizona and California.

The impression seems to prevail in this city that an injustice is being done to Albuquerque by the Muskogee chemical wagon apparatus. Last spring this city ordered a chemical fire wagon from these manufacturers, and it was said the apparatus would be here by the first of September, but it has not come yet. John A. Lee, former resident of Muskogee, Mo., received a newspaper from that city a couple of days ago which contained an account of a new chemical fire extinguisher having been used as a test. Mr. Ruppe, the local fire chief, also read the item, and he believes that the test was made by Albuquerque new apparatus, and if he expects it will be shipped to this place shortly. The test was entirely satisfactory.

C. W. Lynch, Winchester, Indiana, writes: "I owe the life of my boy to Foley's Honey and Tar. He had membranous croup, and the first dose gave him relief. We continued its use and it soon brought him out of danger." Alvarado Pharmacy.

**SILVER CITY NOTES.**  
Station Agent Change—Fritter Not a Candidate for Postmaster.  
Special Correspondence.  
Silver City, N. M., Dec. 4.—R. J. Woodward, agent of Santa Fe in this city, has been promoted as agent of the same road at El Paso and will remove to that city and take charge in a short time. W. Horton, who has been stationed at Magdalena, has been selected as his successor for this point. The merchants of this city regret losing Mr. Woodward, as he was always courteous and ready to favor them.

The sudden death of Mrs. Francisca L. Lacer, occurred at Durango, N. M., the latter part of last week. The deceased had been a resident of Silver City for a number of years and was highly respected and estimated by her many friends in this city. Her death came very suddenly while on a visit to her son in Durango. The remains were brought to Silver City for interment and the funeral took place Tuesday afternoon.

The grand ball to be given by the local company of territorial militia on Christmas night promises to be the social affair of the season.

Hon. James S. Fielder and family, Saturday, Dec. 2, left for Santa Fe to make their future home and Mr. Fielder will practice law.

J. M. Fritter has declared himself out of the race for postmaster in Silver City, as his large mining interests at the present time require all

Chicago, Oct. 24th, 1901.

MESSES. HALL & LEARNARD, Albuquerque, N. M.

Gentlemen:—Your favor under date of October 22nd is received and contents carefully looked over. Your order for several pianos to which you refer in that favor and in regard to this matter, we beg to say: owing to the very large increase in the demands made upon us we are having a good deal of trouble in making prompt shipments. Our business has grown much more than we had anticipated and although we are constantly adding to our facilities and resources we find it absolutely impossible to keep up with our natural growth.

Strangely to say this increased demand has come almost without any effort on our part either by advertising or otherwise. It has come in practically unsolicited and speaks volumes for the satisfaction which our piano must be giving wherever it has been placed.

We expect within the next few months to move into much larger quarters, after which we hope that we can give you and all of our other representatives prompt and more satisfactory attention.

Hoping this explanation for our recent tardiness will be satisfactory, we beg to remain, with kind regards,

Yours very truly,  
CHICKERING BROS.
