Rich Copper Territory Quietly Acquired

Consolidation of Splendid Properties in Grant, Socorro, Lincoln and Santa Fe Counties.
The American Consolidated Copper Company, What It Has Done and Is Doing
for New Mexico's Mining Industries.

While the production of copper in this country goes on at an undiminished rate, the demand for this most useful of the industrial metals has simultaneously increased, until now every pound of it is absorbed in the arts and industries of the world in a way that is truly astonishing. The foreign demand for American copper seems well nigh insatiable. The expansion of European consumption had advanced by leaps and bounds until at the present time more than 60 per cent of the home product is required for export. These gigantic shipments represent a legitimate demand for consuming purposes in England and continental Europe, where electrical improvements and enterprises are being projected and carried out, which will require constant supplies of copper in very large quantities from the western part of the United States, for years to come. Copper has ruled for more than two years at from 16 to 17 cts. a pound. It is needless to point to statistics in proof of the statement that the increase in the production of the metal still falls far short of the increase in consumption. This fact is universally accepted, and all the conditions are such at this moment as to make it an absolutely safe prophecy that a continuous stream of money awaits the owners of every producing copper property in the Rocky mountain country. No wonder, then, that the most prudent and far-seeing of the country's great professional and business men are investing heavily of their surplus capital in copper mining enterprises.

Impressed with this view of the situation, and convinced that no state or territory in the west bids fair to outstrip New Mexico as a copper producer, the New Mexican has had one of its representatives quietly traveling through the several mining camps for some time past, gathering data on the subject of New Mexico copper resources and possibilities, and hence this paper is enabled to present today the first of a series of articles on mining and mine development in this territory, and in which it treats first on the properties of the

AMERICAN CONSOLIDATED COPPER COMPANY.
Without any degree of publicity, this conservatively managed corporation—organized under the laws of New Mexico, with general offices in New York, central-west offices at Columbus, O., and its southwestern office at Santa Fe—has been quietly at work for several years acquiring by original location and purchase much of the choice undeveloped copper property in the territory, with the result that it owns today a consolidation of magnificent mining properties situated in the most promising copper camps of Grant, Socorro, Lincoln and Santa Fe counties. Its holdings comprise an area of about seven hundred acres of carefully proved mineral territory. These holdings are located as follows:

In the Shakespeare mining district, Grant county, 2 1/2 miles from Lordsburg, on the Southern Pacific railroad.
In the Burro mountain mining district, Grant county, 16 miles from Silver City, the county seat of the banner mineral-producing county of New Mexico.

In the San Andreas mining district, Socorro county, 25 miles from the El Paso & Northeastern railway.

In the Gallinas mining district, Lincoln county, 4 1/2 miles from the El Paso & Northeastern railway.

In the Santa Fe mining district, Santa Fe county, 8 miles from the A. T. & S. F. railway.

SHAKESPEARE DISTRICT.
The property first visited lies in the Shakespeare district, and contains over 100 acres of developed copper properties, 2 1/2 miles from the flourishing town of Lordsburg, where, by the way, a large customs concentrator is now being erected and a strong California company is installing a smelter plant of 300 tons daily capacity. In this district the American Consolidated Copper Co. owns and operates the

Consolidated mines group. This property has been carefully and systematically developed, having eleven shafts from 20 to 300 feet in depth, besides many open cuts, cross-cuts and drifts penetrating ore bodies which prove beyond all peradventure the existence of three distinct fissure veins from 3 1/2 to 12 feet in width running the entire length of the property, or over 4,500 feet. The ore bodies thus blocked out and the pay values in sight seem to be well nigh inexhaustible.

In its downward course, the main shaft, 300 feet in depth, exposes a magnificent body of ore. The shaft is provided with a double steam hoist of 30-horse power and a 60-horse power boiler furnishes power and air for underground operations. The air shaft is equipped with four inch air pipes and complete pumping appliances. Water is obtained from a six inch cased well 47 feet deep, in which the water stands 337 feet, and continuous pumping has failed to reduce its level, thus indicating its permanency.

All the conditions in this camp are admirable for carrying on mining operations every day in the year; wages are reasonable, and all classes of labor abundant and reliable. The company has upon the ground, conveniently located, a very substantial group of all necessary buildings, office quarters, shops, etc., and an air of busy thrift and energy characterizes the place.

BURRO MOUNTAIN HIGH GRADE ORES.

While the principal tonnage of the American Consolidated Copper company thus far developed is in Grant county, systematic mining and development is being done on each of its properties in the other districts mentioned. In the Burro mountain district of Grant county, vigorous work is going on in the shafts and drifts of the company's Don Bernardo mines. In this district the American Consolidated own fourteen claims on which they have a never-failing water supply, an abundance of timber, suitable buildings and complete equipment for carrying on the extensive work now under way. Fine bodies of

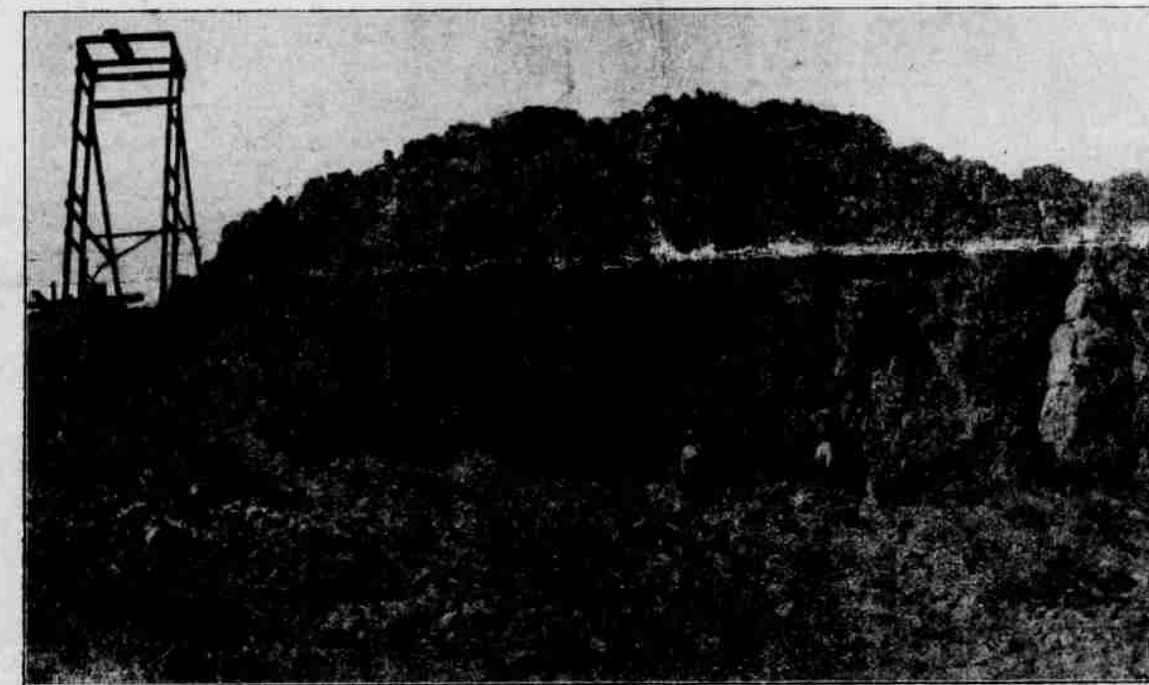

HIGH GRADE ORE.

have been opened in these mines. On the Don Bernardo a vein 24 inches at the surface has widened to seven feet in the main opening, and the shaft is still going down in high grade ore. The principal values are copper, although all the ores in this camp run well in gold and silver. Wherever a depth of 100 feet has been sunk, they have found rich sulphide ore in large bodies. The fourteen claims in this group have been thoroughly prospected, and many fissure veins of rich ore permanently located. One permanent shaft is now being sunk on a magnificent vein of ore which grows richer in depth. A large percentage of the ore being taken out can be shipped at a substantial profit, but in keeping with the policy of this company the ore is being piled on the ground. A contract has also been let for another shaft on this group. The showing now being made on this property is certainly in keeping with the admirable reputation of Grant county, and it is evident the Burro promises to prove one of the most valuable camps in the territory. The country is thoroughly mineralized, and from the activity by this and other companies operating in this district the mineral production of Grant county will be greatly increased. The Don Bernardo mine must be recognized as being one of the great coming copper producers of the southwest. It may be worthy of note just here that the Newcomb concentrating mill which adjoins property owned by the American Consolidated Copper company, is now about finished and ready to start up; that the Sampson mine at a depth of 140 feet, is in high grade sulphide, and also that the Comanche group of mines, recently purchased by Denver and Boston capitalists, are conspicuous properties in the immediate vicinity of the Don Bernardo.

OTHER PROPERTIES.

The development work in the San Andreas, Santa Fe and Gallinas districts is not so far advanced, but is sufficient to show that large and valuable bodies of copper ore exist. In the San Andreas region there is an immense mineralized zone running east and north. The American Consolidated Copper company's properties here, now in process of development, are in proximity to several very famous mines. The principal one, at the head of which is a number of Los Angeles capitalists, has lately installed a concentrating plant with a capacity of 100 tons daily.

The company's extensive holdings in the Gallinas and Santa Fe mining districts are equally as promising. In the former there is very great promise. Here the copper is in the shape of carbonates and sulphides; there are also lead carbonates and galena carrying as high as 40 per cent lead and 20 per cent silver to the ton. This is practically all virgin ground, rendered accessible now through the building of the El Paso-Rock Island short line. Careful computation places the amount of ore on this company's dumps at 15,000 tons, the principal value of which is copper running from \$15 to \$40 per ton. Conservative estimates, based on innumerable assays, careful sampling and mill runs, fix the average value of this ore at more than \$25 in copper per ton. The ore in these dumps also carries from \$6 to \$12 per ton in gold, and \$3 to \$7 per ton in silver. Probably there is

Mineral Dyke—Length 4,500 Feet—Consolidated Mines.

not another mining property in the whole southwest so thoroughly developed that is not today shipping or treating its rich ore values. However, this company has been engaged for several months past in investigating the numerous methods of treating the various ores, and engineers are now at work on plans and specifications for a complete modern plant of not less than 100 tons daily capacity, whereby these numerous immense values shall be extracted. With such a plant as it now has been decided to erect, and with the unfailing showing in values as is indicated by the test figures above given, it is safe to predict that the Consolidated mines will make a showing in the production of copper, gold and silver that will quite eclipse many of the old copper producers of the country that are today netting enormous profits in treating copper ores that yield but 3 to 6 per cent.

In conclusion, it may be said that not only the valuable properties acquired so judiciously by the American Consolidated Copper company, but the conservative and business-like man-

(Continued on Fourth Page.)

ANOTHER DRIFT- ING MATCH

The Shamrock Seemed to Have the Advantage of the Columbia Today.

COLUMBIA MADE GOOD START

The Shamrock However Seemed to Have Been Favored by Several Gusts of Wind That Sent Her Ahead of the Columbia.

New York, October 1.—A breeze from north northeast rained the ocean when the crews of the Columbia and the Shamrock turned out this morning. Both yachts were ready to start by 8:30. By ten o'clock the racers were at the lightship and the skirmish line of the excursion fleet was sweeping around the hook. The preparatory gun was fired at 10:45. The wind was falling steadily.

The signals were set for the course as follows:
First leg due east, a beat; second, south southwest, one half west, broad reach on port tack and third north northwest one half west, close fetch to finish on starboard tack.

The starting gun was fired at 11 o'clock. The Columbia was in an excellent position. The wind was not over four knots.

Official time start by Marconi telegraph: Columbia 11:00:10 Shamrock, 11:00:22.

THE WIND LOWERS.

New York, October 1.—At 9:15 the wind dropped to 12 1/4 knots at Sandy Hook station. Both yachts are going to the starting line, 10:10 a. m. The wind is eleven knots from the northeast.

Soon after the warning signal was fired, there was the usual jockeying for the windward berth. Hard luck was with the British challenger, for she stood too near the line and went over before the starting gun was fired,

and then took the lead. It was just 1:15 when the boats changed the positions held since the start. The fluky shifting of the wind seemed always to favor the Shamrock and at 1:02 she led by four lengths.

A little later, the Columbia, catching a little more than her share of wind, cut down the Shamrock's lead and passed her to leeward. At 2:14 the Shamrock established her lead again. This lead she never lost to the first mark, but at 3:40 the committee boat hoisted the signal declaring the race off. That time the Shamrock was about half a mile ahead and the last half hour of sailing seemed to have increased her lead over the Columbia.

She rounded the stake boat comfortably ahead of the Columbia. Nearly three minutes later the American boat turned the mark. The boats had sailed

BATTLE FOUGHT OVER AGAIN

An Endeavor to Get at the Real Facts of the Famous American Victory.

CAPTAIN SIGSBEE ON STAND

Captain Phillips Had Asked to Make It Nice for Everybody When Captain Evans Wrote an Account of the Battle.

Washington, D. C., Oct. 1.—Captain Lemly, judge advocate, withdrew soon after the meeting of the Schley court of inquiry, because of the death of his sister, which occurred yesterday.

Admiral Evans was recalled. Raynor cross-examined. He asked the witness concerning the secret code of signals for communicating with the Cuban insurgents near Cienfuegos. The admiral said that when Captain Chadwick commanded this ship to him he did not instruct him to give the information to Commodore Schley.

Evans said that on the day of the battle he had written a report of the battle, but all facts had not been given because Captain Philip asked him to "make it nice for everybody," and this had been his own inclination.

Captain Charles D. Sigsbee, who commanded the scout ship St. Paul, was next called. He said that in obedience to orders from Captain Wise he proceeded to the vicinity of Santiago. His instructions were to report to Commodore Schley that the Spanish squadron was probably in the Santiago harbor. He reported to Commodore Schley that he "knew nothing positive" about the Spanish fleet.

Hanna quoted from Admiral Schley's report of July 18, 1898, the sentence reading: "After having been assured by Sigsbee that he did believe the Spanish fleet to be in Santiago," witness said: "I stated we had seen nothing of the Spanish fleet. I may have stated that I knew nothing positively or absolutely about the movements, but recited certain events to show the probability of the fleet being in Santiago at that time. Regarding the other matter, I beg to make an appeal to the court. This case is one involving reputations. It had been stated by Commodore Schley in an official letter to the United States senate that I expressed a certain belief. Now that this has been made a public matter, I think that either the court or the defense should allow me to express under oath what I really said."

"We have no objection to that," said Raynor.

"I did not say I believed it was not there, but I said I had not seen it," said Sigsbee.

"I made known first my orders from the navy department which stated that the Spanish fleet had been reported to have arrived there."

Hanna then read a letter of Sigsbee's, written May 26, to Schley which said: "No news here. I have seen absolutely nothing of the Spanish fleet."

MINES IN SOUTHERN NEW MEXICO

Important Mineral Discoveries Have Been Made Lately in the Potrillo Mountains in Southern Dona Ana County.

SMELTERS AND CONCENTRATORS AT LORDSBURG

The well which is being driven south of Lordsburg for oil is down 1,500 feet. A six foot run of ore was struck in the Graphic mine at Magdalena, in Socorro county.

S. T. Bitting and Samuel B. Smith of Carlsbad, Eddy county, are sinking a discovery shaft on their copper claims in a canon branching off from Dark Canon, about two miles west of Thayer's ranch in Eddy county.

E. A. Hersperger has been appointed manager of the new copper mining camp in Caballero county, in Otero county. He has established the camp and will put a number of men to work as soon as the machinery arrives which is expected every day. At the well which is being driven south of Lordsburg for oil is down 1,500 feet.

The Pacific Union Smelting company of San Francisco, is erecting a 50-ton furnace at Lordsburg, Grant county, and will be ready to receive ore by the end of this month. The Lena Mining and Milling company is putting in a 25 ton furnace and a 150 ton concentrator. It will receive ore by the first of November. Lordsburg is rapidly becoming one of the most important mining centers along the Southern Pacific railroad.

There is considerable mining excitement in the Potrillo mountains in southern Dona Ana county. The Bissbee road is to cross these hills and the professional prospector with his pick and grub stake has discerned a future for those mountains. Copper has been found there very rich in value, also gold, silver lead and a fine quality of marble. Old timers of La Mesa, who have spent much of their time and some of their surplus cash in these hills, claim that placer gold exist in them. Judge E. A. Chaffee and Lewis Goodman of Las Cruces, have lately located twenty acres of marble and will organize a company to work the quarry. Citizens of Las Cruces and San Miguel, a small settlement near La Mesa, have located twenty acres of fine marble. Hon. Frank L. Oliver, ex-county commissioner of Dona Ana county, has located several lode claims and is doing considerable development work. John P. Casey and Lewis Goodman have jointly located several good copper prospects.

The Denver Bribery Charges.

Denver, Colo., Oct. 1.—Judge Johnson today discharged the grand jury recently summoned to investigate the charges of bribery in the west side court. He did not state the reason. He will summon another jury.

Seventeen Men Entombed.

Victoria, B. C., Oct. 1.—An early morning dispatch says that seventeen men were entombed at the extension. It is thought now that the fire is dying out.

Lordsburg Station, Southern Pacific Railway.

Shaft Number 3—Consolidated Mines.

Tramway—Air Shaft and Shaft No. 4—Consolidated Mines.

Santa Fe New Mexican

THE NEW MEXICAN PRINTING COMPANY

Entered as Second-Class matter at the Santa Fe Postoffice.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the territory, and has a large and growing circulation among the intelligent and progressive people of the southwest.

TUESDAY, OCTOBER 1.

New Mexico Demands Statehood of the 57th Congress.

Of Right and in Justice New Mexico Should Be a State.

The empty-headed labor leaders of the country are the laboring men's worst enemies.

There is reason to believe that were the leaders of the New Mexico soreheads properly approached with offers of offices they would immediately change front and become strong administration men.

Senator James K. Jones is a great trust smasher during political campaigns. As a private citizen, however, he relishes being a holder of trust stocks and now has a job on hand defending the round-cotton-bale trust.

The wife of an Ohio minister reports that because she had a cold dinner one day during the last few weeks, her husband kicked her. There is some excuse for the reverend gentleman, but he should have remembered his calling.

Since the first of January greater development than ever before of New Mexico's extensive mining resources is very noticeable. The records of the office of the secretary of the territory, show that the number of incorporations of mining companies to do business in the territory is steadily on the increase.

The yellow sheets of New Mexico are now howling and crying fraud and corruption because the 34th legislative assembly appropriated \$25,000 for New Mexico's exhibit at the Louisiana Purchase exposition in 1903. These sheets are opposed to everything that would prove beneficial to New Mexico's advancement and progress.

It is estimated by those best posted that New Mexico has already gained in population this year 20,000 people and by the end of this year this number will be increased to 25,000. By the meeting of the 57th congress New Mexico at the very lowest calculation, will contain 225,000 inhabitants. The territory is entitled to statehood and statehood should be accorded it.

The fact that the number of incorporations of mining companies to do business in New Mexico is largely on the increase and that more mining companies have been incorporated during the past nine months of this year than ever before in a similar period shows beyond successful contradiction that New Mexico's magnificent mineral resources are attracting the attention of mining men and investors all over the country.

President Roosevelt is very practical and has a large amount of good common sense. He has also had a great deal of experience in public affairs, in addition to having a good deal of personal knowledge of New Mexico. Hence the yellow sheets of this territory and the sore-headers that support them might save themselves the trouble of advising him what to do in New Mexico affairs. He does not need their advice. He is abundantly able to get along without it.

New Mexico's alleged reformers are engaged in the difficult task of trying to get offices for each and everyone of their combination and everyone of them wants the best office in the territory. It can easily be understood how difficult the task is. Every leader of them wants to be attorney of the United States for New Mexico. It therefore seems that these alleged New Mexico reformers are not as great, as good and as patriotic as they proclaim themselves to be.

Governor Otero's report for the year ending June 30, 1901, to the secretary of the interior, will contain about 500 pages of printed matter and about 500 illustrations, the cuts for which were mostly furnished by the Bureau of Immigration and the New Mexican Printing Company. The report will be a very valuable treatise on the resources, progress and advancement of New Mexico during the year for which it is made. The manuscript is now in the hands of the secretary of the interior and the cuts for the illustrations were forwarded last Saturday. The publication is bound to do the territory great good.

During the year ending December 31, 1901, there will have been actually constructed in New Mexico between 500 and 600 miles of railroads. The outlook for the year 1902 is still brighter. A great portion of these railroads is through country that is rich in the precious and useful metals and several new mining camps have been located during the past nine months and many more will be located during the coming year, owing to these railroad extensions. Railroad building and new mining operations go hand in hand in New Mexico, one industry benefiting the other. There are mountains and mountains of low grade ores in the territory, that will become available and yield richly with cheap transportation. New Mexico is coming rapidly to the front and no mistake about it.

Hall Caine asserts that he writes his books himself and uses pen and ink to do so. This disposes of the report that he is in love with a pretty typewriter.

In his race for re-election to the United States senate, Senator James K. Jones points with pride to his services as chairman of the Democratic national committee. The valuable character of these services depends upon the view people take of them.

The New Mexican pays particular attention to mining news of the territory. It has correspondents in nearly every mining section and keeps a special correspondent in the field most all the time to handle mining news and to make reports of the mining camps of the territory. Capitalists and mining men interested in New Mexico's mining properties should subscribe for this paper.

The Future of New Mexico.

New Mexico stands on the threshold of its own greatness. The territory has been three hundred years preparing for this, it has served a longer apprenticeship than any other commonwealth in the Union, its people have waited more patiently than any other people to come into their own. But the day is now swiftly approaching when the patriotism, the long-suffering of its people, the untold wealth of its mineral resources, its ideal climate, its remarkable agricultural and live stock possibilities, and the advantages it offers to manufacturing enterprises will place it in the front ranks of the states of this great Union. This greatness will come to New Mexico swiftly. The probation period is near its end. Some of the enterprising cities of the territory will awaken some morning and find themselves in the race with the other great cities of the west; some men will discover that their real estate holdings, their farms, their mines have doubled and trebled in value in one day; new cities will spring up as if by magic while some of the older cities will add thousands to their population in one year; it will be a tremendous boom, but a boom as permanent as that of Chicago or New York.

This may seem like a visionary dream to some. But remember, statehood is bound to come some day, and that in the near future; remember that one great railroad system after the other is pushing into New Mexico and is building branch lines; remember that investors by the score are quietly looking over the territory for mineral prospects, for land grants, for irrigation possibilities, for real estate investments; remember that this year alone millions of dollars have been expended in New Mexico for railroad building, for new enterprises. Why should the gold, the silver, the copper, the iron, the lead, the coal, the water power, the industrial possibilities of New Mexico not be worth as much as they would be were they located in New York, in Pennsylvania, in Ohio, in California or even in Colorado, a commonwealth which has become great and wealthy almost overnight? The faith of many people in New Mexico has been sorely tested, many have been disappointed in the past and it is hard for them to believe that at last the development work, the advertising, the patriotism and the investments made in New Mexico will bear fruit a hundredfold, but the signs of the times point plainly to that long hoped for result and the man who has faith and invests in New Mexico at present, seems certain of earning a splendid reward before many more years have passed.

Substantial Enterprise.

The New Mexican devotes considerable space today to a description of the mining properties of the American Consolidated Copper company which has acquired extensive holdings in Grant, Socorro, Lincoln and Santa Fe counties and is now developing them with every indication that its faith and enterprise in New Mexico will pay it amply for every cent of money invested and for every effort expended. This is only one of many companies operating in New Mexico today and developing its mineral resources, but it is typical of the enterprise and the capital from other states looking to New Mexico for profitable investment and being directed with intelligence and in accordance with modern methods to attain the best results.

There can be no doubt that the mineral wealth of New Mexico is as great, perhaps greater, is certainly more varied than that of Colorado, with this difference that in the Centennial state this wealth has been fully developed, has made its score of millions and has placed thousands of persons while in New Mexico, though this is still true to a certain extent, there are still vast mineral riches undeveloped which will some day make millions of those who have made intelligent investments or have put work and enterprise into prospecting for mineral or in developing promising mineral prospects.

The immensely rich copper mines of the neighboring territory of Arizona are an illustration of successful mining investment. The United Verde is worth hundreds of millions of dollars and yet not so many years ago was not worth the price that can today be paid for an undeveloped prospect in New Mexico. The great copper mines at Clifton, at Bisbee, at Morenci, in Arizona, were but average mineral prospects a few years ago, and yet they have made millions of their owners. It is not only possible, but very probable that New Mexico will some day have its United Verde or Anaconda in copper mines; its Isabella or Gold Coin in gold mines, its Comstock in silver, not to speak of the riches in other minerals. It is companies like the American Consolidated Copper company which will help to hasten the day when New Mexico will have its Cripple Creek, its Virginia City, its Anaconda and its Deadwood and will produce millions of tons of high grade as well as low grade ore that will bring affluence to those persons who invested at the right time in the proper way. The officers of the Consolidated Copper company are men of energy and enterprise who promise to push to success their plans and their investments in this territory, and it is men of that character who are needed in New Mexico for the development of its mineral resources.

GOOD WORK OF THE IMMIGRATION BUREAU

Delegate Rodey Will Help Along by Distributing Its Literature During the 57th Congress.

The Bureau of Immigration, having supplied Delegate B. S. Rodey with pamphlets descriptive of Colfax, San Juan and Santa Fe counties, with the request that he put them where they would do the territory the most good, the delegate addressed the following to the bureau:

To the Secretary of the Bureau of Immigration, Santa Fe, N. M.
Dear Sir: Excuse my delay in acknowledging your note of the 18th ultimo, and the receipt of the pamphlets on Santa Fe, Colfax and San Juan counties. These little pamphlets are just right. They are just the thing for residents of the respective counties to send people who make enquiries of them regarding their particular section, and they are good to send in a bunch for all the territory to persons making a general enquiry. I do sincerely think that it would be a fine thing to have such a pamphlet published for everyone of our counties. I can and will use quite a lot of them in Washington next winter. I will have a set of immigration bureau for the territory in my quarters at Washington during the session of the 57th congress.

Very respectfully,
B. S. RODEY, Delegate.
Pamphlets descriptive of the resources of other counties of New Mexico are now in course of preparation, and a supply of these will also be sent to the delegate for distribution. The pamphlets to be issued hereafter will be illustrated. They are received with great favor throughout the country and the demand for them is increasing steadily.

AGRICULTURAL CONDITIONS.

Report Showing Fine Crop Prospects in Lower Pecos Valley.

(Carlsbad Argus.)
A report has been prepared by Chief Engineer Kilgough, of the Irrigation company, showing the condition of agriculture on farms under the southern canal. Every detail is doubtless correct, as the figures are compiled from the daily reports of company ditch riders, and their means of ascertainment of the truth are absolute. The report, in brief, is as follows:

The total acreage in cultivation for 1901, under the Pecos Irrigation company's canals, is 9,131, an increase of 1,221 acres over last year. The total value of the crops raised, without including corn fodder after grain is harvested, or pasture on alfalfa fields, which together would amount to several thousand dollars more, is \$105,912. This makes an average value per acre of \$19.16, a most satisfactory showing. Several tracts of land will be paid for outright by the crop raised upon them this year alone.

The crops are divided as follows:	
	ACRES
Alfalfa.....	3,002.0
Corn.....	8,001.5
Cane.....	851.0
Cotton.....	132.0
Cantaloupes.....	38.0
Grass and clover.....	136.5
Gardens.....	116.0
Fruit.....	317.5
Trees and lawns.....	319.5

PRIDE FOR THE NEW MEXICAN.

New Mexico's Delegate to Congress Thinks That the New Mexican is Doing Just Right.

The following complimentary letter from Delegate B. S. Rodey is self explanatory:

To the Editor of the New Mexican, Santa Fe, New Mexico.
Dear Sir: I take great pleasure in congratulating yourself and the New Mexican on the work your great newspaper is doing for the territory. I am receiving letters from all over the territory praising the sentiments expressed in my letter in the New Mexican of the 17th of September.

Very respectfully,
B. S. RODEY, Delegate.

THE SANTA FE'S EARNINGS.

Annual Report of President Ripley Shows an Increase for the Last Fiscal Year of \$8,242,744.

The annual report of President Ripley of the Atchison, Topeka & Santa Fe railway, for the fiscal year ended June 30 last shows the total earnings were \$54,474,822, an increase of \$8,242,744 over the previous year. The total operating expenses were \$32,232,045, an increase over the previous year of \$4,741,445. The net earnings were \$22,242,777, an increase of \$3,501,288, after deducting the interest charged on \$5,029,746; there remained \$14,183,401 applicable for dividends and surplus purpose.

NEW MEXICO RANGES.

They Will Save the Cattle of Kansas and Missouri This Winter.

(Rocky Mountain News.)
The eye alike of the cattle speculator and the legitimate stockman is now closely and significantly scrutinizing the cattle situation in Missouri and Kansas. In both of these regions there are practically no winter feed for stock, corn being a failure and hay short and scarce in drought condition which has pulled the price of cattle down from \$15 to \$25 to \$7 to \$12 per head. All of the big stock shipping centers are cattle congested, the farmers anxiously seeking sale for stock they can not winter.

It is estimated that in these two states hundreds of thousands of cattle will be thrown upon an ever falling market by the time snow fairly falls. There exists, however, a partial remedy for the Missouri and Kansas farmer and big money for cattle buyers in the magnificent New Mexican range grass crop of this season. From Trinidad, Colo., along the line of the Santa Fe railroad to the Texas state line is enough grass to winter feed and fatten ten times the number of cattle contained in Missouri and Kansas. If, therefore, the Santa Fe railroad would grant what is known as "starvation stock rates" and thus allow the shipment of these now cheap cattle to New Mex-

Distinguished Testimony

No secret society in the world stands higher in noble aims and charitable accomplishments than the Knights of Pythias. That order is doing great good.

The Ohio Pythian Home, at Springfield, Ohio, which is ably presided over by Superintendent Le Fevre Le Fevre, the matron. The latter has recently written a letter, which will command widespread attention because of the prominence of the writer. It is as follows:—

"Messrs. W. H. Hooker & Co., New York: Last year I used Acker's English Remedy at the suggestion of a friend, for a serious, long-standing throat difficulty and extremely hard cough. Had used tons without relief. I can honestly say that Acker's English Remedy removed the difficulty and stopped the cough. I did not purchase or use more than three bottles, and at least one-half of the last is still on hand. I also consulted physicians with no permanent results."

The friend to whom Mrs. Le Fevre refers as having suggested Acker's English Remedy is Mrs. W. B. Chilton, wife of the president of the Troy Transfer Co., of Troy, Ohio, where this remedy has accomplished many other cures in Throat and Lung Troubles. In conversation with an acquaintance Mrs. Le Fevre also said: "If you will call on Mr. W. H. Schauss, a prominent merchant of Springfield, Ohio, you will find that he, too, has had and am much of Acker's English Remedy in his family, and thinks they cannot keep house without it."

Acker's English Remedy is sold by all druggists under a positive guarantee that your money will be refunded in case of failure, etc., and \$1 a bottle in United States and Canada. In England, etc., etc., and \$1 a bottle in United States and Canada. W. H. HOOKER & CO., Proprietors, New York.

Fischer Drug Company

ican grazing grounds at an average transportation cost of \$4.50 per head, a market would at once be opened whereby the Missouri and Kansas farmer would escape the total stock loss; the cattle buyer reap large profits next year; the Santa Fe railroad would secure \$500,000 of new business, and a more or less permanent stocking of New Mexican ranges with excellent cattle grades be inexpensively achieved.

A WORTHY SUCCESSOR.

"Something New Under the Sun."
All doctors have tried to cure Catarrh by the use of powders, acid gases, inhalers and drugs in past years. These powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhaler have entirely eaten away the membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of Catarrh, has at last perfected a treatment which when faithfully followed, not only relieves the disease, but permanently cures Catarrh, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "Snuffles the Guaranteed Catarrh Cure," and is sold at the extreme low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"Snuffles" is the only perfect Catarrh Cure ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently, and is also wonderfully quick to relieve Hay Fever or Cold in the head.

Catarrh when neglected often leads to consumption—"Snuffles" will save you if you use it at once. It is no ordinary cure, but a complete treatment which is positively guaranteed to cure Catarrh in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "Snuffles" the "Guaranteed Catarrh Cure." Set prepaid to any address in the United States or Canada on receipt of One Dollar. Address Det. D644, Edwin B. Giles & Company, 2330 and 2332 Market Street, Philadelphia.

WANTED—We pay cash for clean cotton rags suitable for machine purposes. New Mexican Printing Co.

ASTHMA CURE FREE!

Asthmalene Brings Instant Relief and Permanent Cure in All Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL.

Write Your Name and Address Plainly.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

Rev. Dr. Morris Wechsler, Rabbi of the Cong. Bnai Israel, New York, Jan. 3, 1901.
Drs. TAFT BROS. MEDICINE CO., Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful. After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether.

Very truly yours,
REV. DR. MORRIS WECHSLER.

AYON SPRING, N. Y., Feb. 1, 1901.

DR. TAFT BROS. MEDICINE CO.
Gentlemen: I was troubled with Asthma for twenty-two years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful. I am now in the best of health and am doing business every day. This testimony you can make use of as you see fit.

Home address, 335 Livingston Street, S. RAPHAEL, 67 East 129th St., City.

TRIAL BOTTLE SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL.

Do not delay. Write at once, addressing DR. TAFT BROS. MEDICINE CO., 70 East 130th St., N. Y. City.

OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Barranca Station, on the Denver & Rio Grande Railway, from which point a daily line of stages run to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, Lodging and Bathing, \$2.50 per day; \$14 per week; \$20 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 10:08 a. m. and reach Ojo Caliente at 5 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7. For further particulars, address

ANTONIO JOSEPH, Proprietor, Ojo Caliente, Taos County, N. M.

"MEXICAN SORTS." Posole, Tomates, Tamales, Chile Con Carne, Chile Verde, Frijoles, Menudo, Chicharones, at the Bon-Ton.

A Blow for Nude Art.
"How do you like my statue of 'Meditation'?"
"I don't like it; the girl is standing there looking silly when she ought to be getting on her clothes."—Chicago Record.

Right Up to Date.
Elmhurst—What time is it by your watch?
Corona—I can't really rely upon my watch. It has been keeping rag-time lately.—Brooklyn Eagle.

Quite Sociable.
"Did you ever notice how polite the echo is?"
"No. How?"
"It always returns your call."—Philadelphia Press.

Turkey Pays Our Claim.
The Turkish Government, on being warned that further delay in the payment of our claim would prove disastrous to them, has at last paid it in full. This brings to mind the fact that delays are dangerous, especially in matters relating to the stomach, liver and bowels. When your stomach is weak, your bowels constipated and liver inactive, you should obtain a bottle of Hostetter's Stomach Bitters at once. It is a stomach strengthener and invigorator, and for sickly people who need a tonic it is unequalled, as the most delicate stomach can retain it. It will cure indigestion, dyspepsia, heartburn, flatulency, insomnia, nervousness, and prevent malaria, fever and ague. The genuine must have our Private Die Stamp over the neck of the bottle.

"And now, my boy, don't have any secrets from your father. What are your college debts? Don't be afraid to tell me the sum total, to the last cent."
"I won't, father. The whole amount is \$5,327.50."
"I thank you for your confidence, my boy, and I will be equally frank. You may pay those debts the best way you can."—Chicago Tribune.

EXPERIENCE IS THE BEST TEACHER.
Ackers' English Remedy in any case of coughs, colds or croup. Should it fail to give immediate relief, money refunded. 25 cts. and 50 cts.
For sale at Fischer's drug store.

Silent Criticism.
"She is very nice and all that; but she is altogether too critical."
"I assure you she never speaks of you but in the kindest way."
"Praps so; but every time I see her she gives me the impression that my frock doesn't fit!"—Brooklyn Life.

"I had a running sore on my leg for seven years," writes Mrs. Jas. Forest of Chippewa Falls, Wis., "and spent hundreds of dollars in trying to get it healed. Two boxes of Banner Salve entirely cured it." Beware of substitutes.—Fischer Drug Co.

As Far as She Could Go.
He—What do you think of this talk about a family being able to live on \$2.50 a week?
She—No, Arthur, I don't believe it can be done. But I will gladly be a sister to you.—Chicago Times-Herald.

B. W. Purcell, Kintnersville, Pa., says he suffered 25 years with piles and could obtain no relief until DeWitt's Witch Hazel Salve effected a permanent cure. Counterfeits are worthless. Ireland's Pharmacy.

SICK HEADACHE ABSOLUTELY AND PERMANENTLY CURED BY USING MOKI TOA.
A pleasant herb drink. Cures constipation and indigestion, makes you eat, sleep, work and happy. Satisfaction guaranteed or money back. 25 cts. and 50 cts.
For sale at Fischer's drug store.

NO RELIEF FOR 20 YEARS.
"I had bronchitis for 20 years," said Mrs. Minerva Smith of Danville, Ill., "and never got relief until I used Foley's Kidney Cure and Tar which is a sure cure for throat and lung diseases." For sale at Fischer Drug Co.

Placing the Blame.
"To what do you attribute your gout and dyspepsia?"
"These temperance crusades do it."—Chicago Record-Herald.

"I am afraid I do not understand. How are the temperance people responsible?"
"They caused the hotels to only sell Sunday drinks with full meals. Some Sundays I eat eight full meals."—Chicago Record-Herald.

H. C. Watkins, sexton of the Methodist Church, Springfield, Pa., says: "My wife has been very bad with kidney trouble and tried several doctors without benefit. After taking one bottle of Foley's Kidney Cure, was much better and was completely cured after taking four bottles." For sale at Fischer Drug Co.

New York City and return: On sale daily via the Santa Fe tickets to New York and return at rate of \$70.10; good for 30 days from day of sale; for particulars call on any agent of the Santa Fe. H. S. Lutz, Agent, Santa Fe, N. M.

WATER CURE FOR CHRONIC CONSTIPATION.
Take two cups of hot water half an hour before going to bed, also drink of water, hot or cold, about two hours after each meal. Take lots of outdoor exercise—walk, ride, drive. Make a regular habit of this and in many cases chronic constipation may be cured without the use of any medicine. When a purgative is required take something mild and gentle like Chamberlain's Stomach and Liver Tablets. For sale by all druggists.

For a bad taste in the mouth take Chamberlain's Stomach and Liver Tablets. For sale by all druggists.

A Queer Woman.
Judge (in will case)—Did Mrs. Bullock ever show signs of insanity in your presence?
Fair Witness—She was often very eccentric.

Mention an Instance.
"On one occasion we came from Europe in the same steamer, and she paid duty on her new furs instead of wearing them."
"When was that?"
"Last August."—N. Y. Weekly.

No Comparison.
Mr. Ferguson was later than usual in coming home, and as his wife met him in the hallway with her usual kiss he said apologetically:
"The train was crowded, Laura, and I had to ride in the smoking car. I suppose I smell like a tobacco factory."
"No, George," said Mrs. Ferguson, "you do not. The smell from a tobacco factory, as I remember it, is not at all offensive."—Chicago Tribune.

The Fee Was Tempting.
A very young couple in southwest Georgia called on a colored minister and offered him a string of fish to marry them. Said the minister:
"I might positively dat both er you is too young ter marry; but den— you looks a heap older dan what you is; en fudermore, ef dey is one ting I wants pertickler for dinner dis day, it is fish. So, jine han's!"—Atlanta Constitution.

Two Lawyers.
First Lawyer (angrily)—I've a good mind to sue you.
Second Lawyer—I shouldn't like anything better. There's only one trouble about two lawyers going to law. A lawyer can never do himself justice when he pleads his own case.
First Lawyer—That's easily averted. I'll plead your case, and you plead mine.—N. Y. Weekly.

Sensible Course of Action.
A pedantic pedagogue had taken a few of his pupils to the zoo. While the lions were being fed he asked the keeper:
"If one of these gigantic and ferocious carnivores should contrive to emancipate itself, and should hurl its prodigious strength into our midst, what steps would you take?"
"Long uns, sir," answered the keeper.

Began to Economize.
She—As we are to be married next month, don't you think you ought to begin to economize?
He—Oh, I've begun already. That very thought occurred to me this evening as I was coming here.
She—What did you do?
He—Passed the candy store without stopping.—N. Y. Weekly.

Hygienic Enough.
Lady (seriously, to policeman in Central park)—Officer, did this walking through the wet grass according to Father Knipp ever really cure anything?
Officer (with enthusiastic heartiness)—Shure, ma'am! Dirty feet.—Judge.

Only Natural.
Schermherm—How amusingly most girls write. I receive letters from three different girls, each of which is one long sentence without punctuation from beginning to end.
Stuyvesant—That is not peculiar. That is simply the way girls talk.—Brooklyn Eagle.

It Made a Difference.
Dr. Biggie—Have the Joneses paid their bill yet?
Secretary—They have.
Dr. Biggie—Ah, Mrs. Jones is in the office—I didn't know whether to order her to the mountains or order her out.—Judge.

A Match and a Mystery.
Her name was Short—his name was Long—They married; now, you see, she's always long—he's always short—How can such queer things be?—Chicago Record-Herald.

MOVING IN EXTREMES.
Josh Westhafer, of Logansport, Ind., is a poor man, but he says he would not be without Chamberlain's Pain Balm if it cost five dollars a bottle, for it saved him from being a cripple. No external application is equal to this liniment for stiff and swollen joints, contracted muscles, stiff neck, sprains and rheumatic and muscular pains. It has also cured numerous cases of partial paralysis. It is for sale by all druggists.

SUMMER TOURIST RATES TO COLORADO.
Summer tourist tickets to Denver, Colorado Springs and Pueblo will be placed on sale June 1, to be sold daily to and including October 15, 1901. Rates from Santa Fe, via the Santa Fe Route will be to Denver \$28.50, Colorado Springs \$33.50, Pueblo \$31.00; tickets will be limited to October 31, 1901; for particulars call on any agent of the Santa Fe Route.

H. S. LUTZ, Agent, Santa Fe, N. M.
W. J. BLACK, G. P. A., Topeka, Kas.
"I purchased a bottle of One Minute Cough Cure when suffering with a cough doctors told me was incurable. One bottle relieved me, the second and third almost cured. Today I am a well man." Ireland's Pharmacy.

NATIONAL CONVENTION W. C. T. U.
Fort Worth, Tex., Nov. 12-21.—For the above occasion the Santa Fe will sell tickets from all points on their line at one fare plus \$2 for the round trip. Fare from Santa Fe will be \$31.45. Dates of sale Nov. 11 and 12, good for return passage, leaving Fort Worth on or before Nov. 25, 1901.—H. S. Lutz, Agent, Santa Fe, N. M. W. J. Black, G. P. A., Topeka, Kas.

Charles Roplogie of Atwater, O., was unable to work on account of kidney trouble. After using Foley's Kidney Cure four days he was cured. For sale at Fischer Drug Co.

Had Not Yet in Sight.
Teast—I just saw your wife in the other room.
Crimsonbeak—Talking?
"Yes; I heard her say, as I passed, that she had arrived at a conclusion."
"Well, she hasn't done anything of the sort. She's talking yet."—Yonkers Statesman.

Ulcers, open or obstinate sores, scalds and piles, quickly cured by Chamberlain's Salve, the most healing medicine in the world. Fischer Drug Co.

Your Face.
Shows the state of your health and the state of your blood. Impure blood makes itself apparent in a pale and sallow complexion, Pimples and Skin Eruptions. If you are feeling weak and worn out and do not have a healthy appearance, you should try Chamberlain's Blood Purifier. It cures all blood diseases where cheap Sarsaparillas and so-called purifiers fail; knowing this, we sell every bottle on a positive guarantee.—Fischer's drug store.

The Art of Self-Defense.
The popular idea expressed in the phrase, "the art of self-defense," shows the opinion that the chief enemies a man has to defend himself from are visible and external. But the real danger of every man is from minute and often invisible foes. In the air we breathe and the water we drink are countless minute organisms leagued against the health of the body.

The one defense against these enemies is to keep the blood pure. Dr. Pierce's Golden Medical Discovery thoroughly purifies the blood, removing poisonous substances and accretions. When the blood is pure there is no harbor for the germs of disease which find a lodging only when the blood is impure and corrupt.

"I consider your 'Golden Medical Discovery' one of the best medicines on the face of the earth," writes Mr. Wm. H. Fisher, of Red Oak, Montgomery Co., Iowa. "While in the south-west, three years ago, I got poisoned with poison ivy. The poison settled in my blood and the horrors I suffered cannot be told in words. I thought I would go crazy. I tried different kinds of medicine, tried different doctors, but all the relief they could give me was to put me to bed. I then began taking Dr. Pierce's Golden Medical Discovery. Took four bottles without relief. Kept taking it. I look in all tea bottles and got entirely cured."

Dr. Pierce's Pleasant Pellets cure constipation.

EXTRACT FROM A NOVEL.
"You will cease to love me when my beauty dies," she said.
"That is impossible, my darling," said he.—London Judy.

A CERTAIN CURE FOR DYSENTERY AND DIARRHOEA.
"Some years ago I was one of a party that intended making a long bicycle trip," says F. L. Taylor of New Albany, Bradford County, Pa. "I was taken suddenly with diarrhoea, and was about to give up the trip, when Editor Ward of the Laceyville Messenger, suggested that I take a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip successfully and never felt any ill effect. Again last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy and this time one dose cured me." Sold by all druggists.

REDUCED RATES.
A round trip rate of \$13.50 Santa Fe to Durango and return is authorized on account of New Mexico fair at Durango, Oct. 8, 9, and 10. Selling dates Oct. 7 and 8; final limit Oct. 15, 1901. T. J. Helm, General Agt.

Geo. W. Lane, Pawano, Mich., writes: "Your Kodol Dyspepsia Cure is the best remedy for indigestion and stomach trouble that I ever used. For years I suffered from dyspepsia, at times compelling me to stay in bed and causing me untold agony. I am completely cured by Kodol Dyspepsia Cure. In recommending it to friends who suffer from indigestion I always offer to pay for it if it fails. Thus far I have never paid." Ireland's Pharmacy.

Gold in the Black Hills.
The Burlington Route has recently issued a 48 page booklet bearing the title "Mining and the Black Hills." The book is one which should be read by every mining man in Colorado. It gives more information about the mines of the Black Hills than has ever before been placed between two covers. A copy will be mailed free on application to the undersigned.

The Black Hills need Colorado men and money. Several of the shrewdest men in this state have already invested heavily in the hills. The results so far have been more than satisfactory. The completion of the Burlington's new line to the Northwest brings the Black Hills within a night's ride of Denver. You can leave Denver tonight and be in Deadwood or Lead City tomorrow afternoon.

G. W. VALLEY, Gen'l Agent, Burlington Route, Denver, Colo.

A LITTLE KNOWN FACT.
That the majority of serious diseases originate in disorder of the kidneys. Foley's Kidney Cure is guaranteed. Be sure to get Foley's.
For sale at Fischer Drug Co.

A Superfluous Convenience.
"Why has a man 20 pockets and a woman none at all?"
"Because if she had 40 pockets she would still carry her purse in her hand."—Chicago Record.

Frankly Explained.
"Why did you hit the complainant with a fence picket?" the judge asked.
"Because, sorr, Oi didn't have time to pull up a post," answered the accused.—Indianapolis Press.

A never failing cure for cuts, burns, scalds, ulcers, wounds and sores is DeWitt's Witch Hazel Salve. A most soothing and healing remedy for all skin affections. Accept only the genuine. Ireland's Pharmacy.

MOUNTAIN AND PLAIN FESTIVAL.
Denver, Colo., Oct. 1 to 3, 1901.
For this occasion the Santa Fe will sell tickets from all points in New Mexico and Colorado to Denver and return at one standard fare for the round trip. Fare from Santa Fe will be \$16.90. Dates of sale Sept. 29, 30 and Oct. 1. Final return limit Oct. 6, 1901. H. S. Lutz, Agent, Santa Fe. W. J. Black, G. P. A., Topeka, Kas.

Many physicians are now prescribing Kodol Dyspepsia Cure regularly, having found that it is the best prescription they can write because it is the one preparation which contains the elements necessary to digest not only some kinds of food but all kinds and it therefore cures indigestion and dyspepsia no matter what its cause. Ireland's Pharmacy.

The engine gets into the station first, but the caboose gets there with less work.

A COMMUNICATION.
Mr. Editor—Allow me to speak a few words in favor of Chamberlain's Cough Remedy. I suffered for three years with the "conchitis" and could not sleep at nights. I tried several doctors and various patent medicines, but could get nothing to give me any relief until my wife got a bottle of this valuable medicine, which has completely relieved me.—W. S. Brockman, Bagnell, Mo. This remedy is for sale by all druggists.

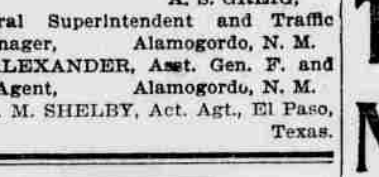

The man in the balloon may be a high flyer and still board a ten-cent restaurant.

Sid Darling, 1012 Howard st., Port Huron, Mich., writes: "I have tried many pills and laxatives but DeWitt's Little Early Risers are far the best pills I have ever used." They never gripe. Ireland's Pharmacy.

Kodol Dyspepsia Cure
Digests what you eat.
It artificially digests the food and aids Nature in strengthening and reconstructing the exhausted digestive organs. It is the latest discovered digestant. No other preparation can approach it in efficiency. It instantly relieves and permanently cures Dyspepsia, Indigestion, Heartburn, Flatulence, Sour Stomach, Nausea, Sick Headache, Gas, Gravel, Cramps and all other results of imperfect digestion. Price, 25c. Large size contains 3 1/2 times as much. Book about dyspepsia mailed free. Prepared by E. C. DEWITT & CO., CHICAGO, ILL. Ireland's Pharmacy.

Maxwell Land Grant
FARMING LANDS UNDER IRRIGATION SYSTEM.
These farming lands with perpetual water rights are now being offered for sale in tracts of forty acres and upwards.
Price of land with perpetual water rights from \$17 to \$25 per acre, according to location. Payments may be made in ten year installments. Alfalfa, Grains, Fruits of all kinds, and Sugar Beets grow to perfection.
GOLD MINES.
On this Grant, about forty miles west of Springer, New Mexico, are the gold mining districts of Elizabethtown and Baldy, where important mineral discoveries have lately been made. Claims on unlocated ground may be made under the Mining Regulations of the Company, which are as favorable to the prospector as the U. S. Government Laws.
Near Raton, New Mexico, on this Grant, are located the COAL MINES of the Raton Coal and Coke Company, where employment may be found at good wages for any wishing to work during the seasons that farm work or prospecting can not be successfully done.

A BIG STRIKE AT SCRANTON

Railroad is Tied Up Because Workmen Refuse to Submit to Arbitration.

CHICAGO MEN WANT RAISE

Linemen Demand Advance in Wages—Coal Miners Go Out Because They Do Not Want to Work With Men Having No Union Cards.

Scranton, Pa., Oct. 1.—The strike of the employees of the Scranton Railroad company, covering the entire Lackawanna Valley from Pittston to Forest City, began today. Not a car started. The men refused to accept the offer of General Manager Stillman to leave the question involved in the discharge of the two Carbonate conductors to the arbitration of Bishop Hoban, because the offer did not give the employees the representation they demanded. Nearly 600 men are involved in the strike.

CHICAGO, Oct. 1.—Three hundred and fifty linemen and repair men employed by the Chicago Telephone company struck today for higher wages. The present scale is \$2.75 a day for linemen, and \$3 for foremen. They demand \$3.25 and \$3.75.

TROUBLE WITH UNION MEN. Scranton, Pa., Oct. 1.—Eight hundred employees in the Pine Brook shaft of the Ontario Coal company struck today against working with men who had no working cards.

MINOR CITY TOPICS

Exchange: G. Bonney, Carthage; Rufus R. Boylan, Indiana.

The Nashville Students gave an excellent performance last evening which was appreciated by a large audience.

A letter addressed to Mrs. A. T. Wood, 1830 Sherman avenue, City, is held at the postoffice for more explicit directions.

The precipitation yesterday was .25 of an inch. The maximum temperature was 62, the minimum 46. At 6 o'clock this morning the temperature was 44 degrees.

Sheriff Marcelino Garcia has appointed A. D. Catanach deputy sheriff to succeed Francisco Gonzales y Baca, and Matias Dominguez jailer to succeed A. D. Catanach.

Atanasio Romero has completed the work of making abstracts from the record books of the probate clerk and has indexed all the records for the Santa Fe Abstract company.

W. H. Pope, Esq., this forenoon filed a suit in equity by the Pueblo of Santa Clara vs. Hon. E. F. Hobart, the suit involving between \$8,000 and 9,000 acres on the Rio Grande near Santa Clara deeded by Derwent H. Smith to Mr. Hobart.

The drummer evangelist will remain in Santa Fe two more days and will preach at St. John's Methodist Episcopal church tonight and on Wednesday evening. On Thursday he will leave for Los Angeles to keep an appointment.

Palace: George D. Stetson, Chicago; H. W. Bloom, San Francisco; F. McKinley, Las Cruces; C. R. Luton, W. A. Dorland, Grand Rapids; J. B. Manby, La Junta; R. E. Leatherman, Frank W. Hall, Albuquerque; William C. Wheeler, Des Moines; A. A. Keen, Albuquerque; C. A. Carruth, Antonio; W. J. Mills, C. A. Spleen, Frank Springer, John D. W. Veeder, Las Vegas; H. W. Taylor, Denver; R. B. Campbell, D. J. Leahy, F. A. Hill, Raton; J. Law, Antonio; Mrs. J. Anderson, Denver; S. Herman, Kentucky.

PERSONAL MENTION

W. E. Kennedy left this morning on a visit to Denver.

Frank Ford was bound for Denver yesterday forenoon.

William Van Arsdell is spending a week or two at Denver.

S. M. Dawson of Las Vegas, is a visitor in the capital today.

John D. W. Veeder of Las Vegas, is in Santa Fe on legal business.

Hon. B. M. Read returned last evening from a trip to Albuquerque.

Charles S. Onderdonk came in this noon from Lamy on a business trip. Sheriff C. F. Blackington of Socorro, arrived in Santa Fe on the noon train.

Major Ernest Meyers of Albuquerque, was among the arrivals from the south this noon.

Frank Dudley of Howell, Mich., commercial man, is a guest at the Palace today.

Neill B. Field, Esq., of Albuquerque, is the guest of District Clerk and Mrs. A. M. Bergere.

Col. E. W. Dobson, an Albuquerque attorney, is in the capital on supreme court business.

Mrs. J. W. Blanchard will leave for Detroit, Mich., this evening to receive medical treatment.

Hon. Frank Springer of Las Vegas, is in the capital to attend the territorial supreme court.

Hon. W. B. Childers of Albuquerque, United States attorney for New Mexico, arrived this noon.

Hon. Charles A. Spleen came over from Las Vegas last evening on supreme court business.

Hon. H. B. Ferguson arrived from Albuquerque this noon coming to Santa Fe on legal business.

Judge J. W. Crumpacker arrived last evening from Albuquerque to attend the territorial supreme court.

Hon. T. S. Hubbell of Albuquerque, sheriff of Bernalillo county, was an arrival in the city last evening.

Chief Justice W. J. Mills arrived from Las Vegas last evening to preside over the session of the territorial supreme court.

J. A. Davis left yesterday for Denver to take in the Mountain and Plain festival. Before returning he will visit an aunt at Victor and will make trips to other Colorado points.

M. J. Nagle of the Sunny Pine Grove ranch, has received an order for 1,000 pounds of red spruce seed. He pays 50 cents a sack for the cones.

Captain S. S. Mathers came in from Gallup and Albuquerque this noon where he had been on official business for the general land office.

Forest McKinley of Las Cruces, special agent of the general land office, was in Santa Fe yesterday consulting with Special Agent S. S. Mathers.

Hon. B. S. Rodey of Albuquerque, New Mexico's energetic delegate to congress, is among the visitors from the Duke City who are in Santa Fe today.

Miss Nina Otero and Manuel Otero returned home last evening from a visit to Trimble Springs in Colorado where they had been the guests of Hon. and Mrs. T. D. Burns.

O. C. Watson, junior member of the firm of Paul Wunschmann & Co., Insurance Agency, left for Denver this morning on important business connected with the agency.

Sheriff R. B. Campbell of Raton, and Deputies David J. Leahy and F. A. Hill, were visitors in the capital today having come from the Gate City with a number of convicts whom they lodged in the penitentiary.

Miss Anna Herlow of Las Vegas, accompanied by Miss Helen Herlow, daughter of Mr. and Mrs. T. A. Herlow, who has been living at Las Vegas the past few months, are visiting in this city, being the guests of Mr. and Mrs. T. A. Herlow.

THE DEAF AND DUMB ASYLUM.

The New Building to Be Constructed Will Be Substantial and Beautiful.

The new school and dormitory which will be erected by the board of trustees of the Deaf and Dumb asylum, will be a beautiful and substantial brick structure, two stories high with a roof and attic. The building will be 90.4x50.2 feet. The main entrance will be arched and will lead into a wide vestibule and a rotunda. There will be ten rooms on each floor, the second floor being occupied mostly by sleeping apartments while the first floor will have the class and study rooms. On the attic will be located the assembly hall. There will be room for 150 pupils and the building will be so constructed that additions to it can be made at any time without marring the architectural beauty of the building, the plans for which were made by I. H. Rapp, the Las Vegas architect. The penitentiary will furnish the brick and the lime for the building. The bids for construction will be opened on October 15, and it is understood that there will be lively competition to secure the contract. The Deaf and Dumb school is situated just south of the city, almost opposite the penitentiary, and on the way to the United States government Indian school.

Penitentiary Arrivals.

Sheriff R. B. Campbell and Deputy Sheriffs David J. Leahy and F. A. Hill last evening brought the following prisoners from Raton and lodged them in the penitentiary: Daniel Garza, 28 years, for murder in the second degree; J. Diaz Martinez, 2 years for assault to murder; Solomon Garcia, 18 months, for forgery; Jack Pierce alias Rip Pierce alias Jack Brock, 1 year, for assault with intent to rob; F. O. King, 1 year, for assault with intent to rob.

Robert L. Sumner was lodged in the penitentiary for two years by Deputy United States Marshals F. W. Hall and R. E. Leatherman of Albuquerque.

Noted Optician.

A. H. Wells, an optician of unquestioned ability, who has attended the best optical colleges of the country, including Columbia University, at Washington, and Brown Optical college at Philadelphia, will be in Santa Fe October 7 next. He is a son of F. G. Wells; at one time a national celebrity in his special work, and had the benefit of practical work under his father. Dr. Wells, on account of health reasons, is compelled to reside in this section of country, and has established a circuit, including Las Vegas, Santa Fe and Albuquerque and will spend two weeks at a time in each town. From October 7 on, Dr. Wells will be in Santa Fe for two weeks, ready to attend all cases in his line.

Every Cent Raised.

Yesterday afternoon Secretary J. E. Saint, of the Santa Fe Central and the Albuquerque Eastern railroads received a dispatch from Senator Andrews at Pittsburg, Pa., which announces that every dollar of the money needed to build the Santa Fe Central has been raised, and that the senator and a number of interested capitalists would arrive in the city Saturday night. It is understood that arrangements will be made for the immediate beginning of actual operations.—Albuquerque Journal-Democrat.

Horses Shipped From Socorro County

W. H. Smith shipped a load of broken saddle geldings last week from Magdalena, Socorro county, to Colorado. They came from the A. L. ranch. There was strong outside competition, but Socorro county horses still top the market.

Shearing 14,000 Sheep.

Hon. T. D. Burns is having 14,000 of his sheep sheared at present near Chama in Rio Arriba county. They will be dipped at Chama after they have been sheared.

Notice.

Notice is hereby given, that all Liquor and Gaming Licenses are payable to the undersigned in person or by check or P. O. Money order through the mail. No deposits are authorized to collect such licenses, in the County of Santa Fe, as all commissions to deputies are hereby revoked this day.

MARCELINO GARCIA,
Sheriff Santa Fe Co.,
Sept. 30, 1901.

U. S. Weather Bureau Notes.

Forecast for New Mexico: Generally fair weather tonight and Wednesday. Yesterday the thermometer registered as follows: Maximum temperature, 62 degrees, at 4:05 p. m.; minimum, 46 degrees, at 9:00 a. m. The mean temperature for the 24 hours was 54 degrees. Mean daily humidity, 62 per cent. Precipitation, 0.25 of an inch. Temperature at 6:00 a. m. today, 44 degrees.

Palmer Billiard Table Works, Chicago, Ill.

Hood's Pills

Do not gripe nor irritate the alimentary canal. They act gently yet promptly, cleanse effectually and

Give Comfort

Sold by all druggists, 25 cents.

A MYSTERIOUS MURDER.

A Woman Confesses to Having Committed Suicide to Shield Her Murderer.

Maggie Wells, a woman who was shot in a mysterious manner at Roswell, Chaves county, recently, died on Saturday as the result of her wounds. She asserted before she died that she had fired the shot herself, but as the bullet entered her back she was undoubtedly murdered by some person she desired to shield. The woman was penniless and partly demented from the use of cocaine. A man named White was arrested charged with the murder, but he proved an alibi and was released. The verdict of the coroner's jury was that the woman came to her death by a shot fired by some unknown person.

Dragged By His Horse.

Milton D. Bachrach was badly injured at Fairview, Sierra county. He had just returned from a roundup and as he got off his horse his foot caught in the rope or pommel of the saddle.

The horse made a leap, then started on a run, dragging Bachrach several hundred yards. His body struck against a post, pulling the foot partly off, leaving the shin bone protruding through the ankle in front. The rope broke as he struck the post, otherwise he would have been dragged to death.

After the accident although weak from the loss of blood he crawled to the corral, hitched up his driving horse to a buggy and drove off after a physician. The injured foot was pulled back into place, but Mr. Bachrach is still in a bad condition.

A Texas Swindler Arrested.

Alvin N. Ryan, a slick check forger from Dallas, Tex., is in the Otero county jail at Alamogordo. A few months ago he received about \$1,000 from an estate and immediately entered upon a "tenderloin" game. "Bucking the tiger" and dissipation soon had him reduced in finances and then it is said he resorted to drawing checks on banks where he had no deposits and even forging names. His ill gotten earnings will amount to several hundred dollars, and relatives will have to come to his aid else he stands a good chance of serving a term in the penitentiary.

Thrown By His Horse.

H. R. Harris, a real estate agent, met with a peculiar accident near Socorro. He was out giving his thoroughbred stallion a little practice and was riding down a small hill when the animal suddenly threw down its head. In consequence Mr. Harris was thrown forward and to the ground, sustaining a broken arm and several bad bruises about the head and face.

A Sanitarium at Carlsbad.

R. W. Tansill has returned to Carlsbad from a trip to the east, where he visited New York, Buffalo, Baltimore, Washington and other cities to secure capital and pointers for the proposed sanitarium on Hagerman Heights, one of the suburbs of Carlsbad. Dr. A. C. Williams and a party of eastern capitalists were at Carlsbad this week to look over the proposition.

The Cerrillos Schools.

The public schools at Cerrillos began their fall session today. Three teachers have been employed and if the attendance justifies it a fourth teacher will be employed. Miss Bessie Kavanagh of Las Vegas is the principal of the schools. She taught at San Marcial last year. The primary department is in charge of Miss Hurlah Rogers of Cerrillos. Flavio Silva of Santa Fe has charge of the Spanish work.

A Fire at Albuquerque.

Fire during Saturday night gutted the building of Louis Eberhardt on South First street, Albuquerque, which was used as a boarding house. The furniture was utterly ruined and the building badly damaged. Insurance only covers the damage to the building.

A New Church at Mesilla Park.

Adjacent to the buildings of the College of Agriculture and Mechanic Arts at Mesilla Park, Dona Ana county, an Episcopal church has been built. The church was opened free of debt. The choir is composed of students at the college.

A Jail Breaker Caught.

Fred Mendenhall, who is charged with forgery and obtaining money under false pretense and who broke jail at Hereford, Texas, by breaking the lock of his cell door, was arrested at Portales, Chaves county, on a Pecos Valley and Northeastern train and is now lodged in the county jail at Roswell.

Sampson's Successor.

Washington, Oct. 1.—Admiral Sampson today surrendered the command of the Boston navy yard. His successor is Rear Admiral Mortimer L. Johnson.

A Big Wool Parolase.

J. F. Matheson has purchased 100,000 pounds of wool for the fall and winter run of the scouring mill at Carlsbad, Eddy county. The mill will be started as soon as fuel arrives.

AGENTS earn \$10 to \$25 per day handling our Newest Patent 20th Century Combination Punching, Grip and Wrist Slot Machines. Four combinations in one machine. One sent on trial. Will give exclusive territory. American Auto Engineering Co., 220 Broadway, New York. A-3-10.

For fine job printing call at the New Mexican office.

CANDY CATHARTIC
