## BATTLE RACING.

### Colombia Troops Attack the Insurgents.

### United States in Charge of Isthmian Railroad.

### Gen. Alban Fighting the Liberals Near Town of Empire.

#### PEOPLE OF COLON IN PANIC.

Colon, Colombia, Nov. 25.—The government troops are attacking the liberals at Colon. The government gun boat General Pinzon is now reported to be landing troops at the north end of Colon. People are seeking refuge on the United States gun boats Maritta and Machias, and along the railroad and on the piers.

#### FIGHTING IN PROGRESS.

Washington, Nov. 25.—The United States government has taken charge of the Isthmian railroad. A dispatch received at the navy department today from Captain Perry of the battleship Iowa, at Panama, reports that fact. Captain Perry says General Alban with 600 men is fighting the liberals near Empire. Transit is in danger of interruption. Captain Perry landed a detachment of men from the Iowa, and started with a train to clear transit and also establish detachments of men to keep it so.

Commander McCrea, of the Machias, at Colon, called the navy department of the approaching bombardment of the town, asking for instructions. He has been instructed to take steps that he deems necessary for the protection of American interests at Colon. While no specific statement is made as to details, this instruction, it is understood, leaves it discretionary with Commander McCrea to prevent the bombardment.

#### PROTECTING TRAFFIC.

Washington, Nov. 25.—The state department received a cablegram today from General Gudiño, at Panama, this afternoon. He says that the railroad is now unobstructed and that government forces are victorious over the revolutionists. He further reports that blue jackets from the Machias occupy a point midway of the Isthmus.

#### INSURGENTS DEFEATED.

Washington, Nov. 25.—Mr. Herran, charge d'affaires of the Colombian legation, has received the following cablegram: "Panama, Nov. 25.—Rebel army completely defeated at Colon and Empress. The governor marched last night upon Colon. Traffic is unobstructed today. (Signed) Arjona, acting governor."

#### COLON BOMBARDMENT.

New York, Nov. 25.—Messages from the agent of the Panama Railroad and Steamship company at Colon, received here today, said that the Colombian gun boat General Pinzon arrived at Colon under command of Captain Ignacio Fortago, with troops aboard from Cartagena, and that the bombardment of the city of Colon was to

## GREAT STORM.

### New York City Property Heavily Damaged.

### State of Kansas Wins Stock Yard Case.

### Noted Will Contest in Progress in New York City.

#### MISSISSIPPI TOWN BURNED.

New York, Nov. 25.—The great storm which came up from the south on Saturday night has spent its force in this zone of the Atlantic coast and the waters are subsiding. Hundreds of small craft were wrecked, wharves and piers at every exposed point were battered down, and many seaside resorts unroofed. The lowlands are flooded, city cellars filled and hundreds of town houses damaged. Estimates aggregate that the damage will run into \$100,000,000.

At the Mouthmouth beach the big German ship Flotbeck drove ashore and there was a thrilling rescue of her crew by the life savers. Until the sea calms nothing can be done to ward saving the ship and cargo. The big craft is firmly imbedded in the sand.

Philadelphia, Nov. 25.—Advises received by the Maritime exchange state that five men were drowned yesterday at Long Branch during the northeast storm. They were members of crews of the barges Wilmore and Grant, which were lost by the tug Kerkira, which arrived at New York yesterday. The barges came ashore at Chidwick, N. J.

Supreme Court Decision. Washington, Nov. 25.—In the United States supreme court today an opinion handed down by Justice Brewer in the Kansas City stock yards case, involving the validity of the state law of Kansas, giving authority to fix the rates charged at stock yards, the decision of the court below, which was in favor of the state, was reversed.

WILL CONTEST. Wills of a Murdered Millionaire Being Contested in Court.

New York, Nov. 25.—The first testimony in the contest as to the wills of the late William Marsh Rice, the Texas capitalist, who died last year under circumstances that aroused suspicion of foul play, was heard today before Surrogate Fitzgerald.

Albert Patrick, counsel who drew the second will in 1900, now in the hands of the Texas state court, was heard today before Surrogate Fitzgerald.

## BURNED TO DEATH.

### Caused by Careless Use of Kerosene.

### Lower California Judge Murdered by Outlaw.

### London Pugilist Arrested Charged With Complicity in Bank Robbery.

#### SUPPLY BOAT IRIS STRANDED.

Pittsburg, Nov. 25.—Four persons were burned or suffocated to death and two seriously injured in a fire this morning which destroyed the residence of J. G. Miller, in Noxville, a suburb.

Names—Rose Miller, aged 23; Amelia Miller, 19; Amanda Miller, 16; Sylvia Miller, 9.

J. G. Miller, the father, jumped from the second story window; his leg was broken; he will recover. Mrs. Miller was badly burned and is on the verge of nervous prostration. Two other daughters escaped without injury. The fire was caused by the eldest daughter, Rose, pouring kerosene in a stove to start the fire for breakfast. The explosion scattered the burning oil over the room.

Judge Murdered. San Francisco, Nov. 25.—The murder of Leardo Pardo, judge of the Alamo district of lower California, is reported. The crime is laid at the door of a border outlaw.

Charged With Bank Robbery. London, Nov. 25.—Pugilist Dick Burge was arrested today on the charge of complicity in the recent Bank of Liverpool frauds. It is said that the police recovered a large amount of the stolen money.

Burge was brought up to the Bow street police court charged with uttering checks aggregating \$6,000 pounds, knowing them to be forged. He was remanded.

Iris Stranded. Washington, Nov. 25.—Secretary Long received a cablegram from Admiral Rodgers at Manila stating that the New York managed to float the supply boat Iris, which stranded yesterday near Hullo. The Iris is apparently uninjured.

They Are Satisfied. Hon. A. B. Fall came up from Las Cruces this morning and continued on to Las Vegas. The gentleman was the attorney for the Southern Pacific road in the recent controversy between that company and the El Paso road people, and in conversation with a Citizen reporter said all is serene as regards the El Paso road crossing the Southern Pacific tracks, and that the El Paso people express themselves satisfied with the court decision. The issue made by the Southern Pacific road was one which sought to force the El Paso road to put in a safe crossing and outside the Southern Pacific switching limit, to which the El Paso contingent objected.

OFFICIAL MATTERS. PENSION GRANTED. A pension of \$6 a month has been granted to Antonio Montes Vigil, of Mora, Mora county.

Wright has taken editorial charge of the Miner, although Mr. Morse will remain the owner of the paper.

Remember the Soldiers. Christmas boxes weighing twenty-five pounds or less may be sent to soldiers in the Philippines. The articles must be sent postpaid to Major O. F. Long, general superintendent of army mail service at Manila. The last boat upon which presents may be sent via New York leaves December 1. No time limit is given for the San Francisco route, but it would be prudent to leave your box in San Francisco before December 1.

How to Spend a Dollar. There are two ways of spending a dollar. You can spend it at home, gain an easy cent, make another friend, and perhaps get the dollar back tomorrow; or you can send it away, feel that you have sinned, offend the home merchant and printer, and forever lost the dollar and its blessed influence for good to yourself and neighbors.

To Be Married Thanksgiving Day. A pleasing social event that will occur in this city on Thanksgiving day will be the marriage of Mrs. A. D. Miles of Las Vegas and Edward Saunders of Salt Lake City. Two parties who are well and favorably known in the city. Mrs. Miles has made her home in Las Vegas for many years, and her admirable characteristics have won the warm regard of all who know her. Mr. Saunders was a former resident of this city, but he is now engaged in the insurance business at Salt Lake. He was quite popular when in Las Vegas.—Record.

New Mexico demands Statehood  
from the Fifty-Seventh Congress.

MONDAY, NOV. 25.

California is in favor of expelling  
Chinese and fleas from the state.

The Clanton Enterprise has been  
improved and now publishes several  
columns of the local news of Union  
county.

Continued and more frequent indications  
show that the annexation of Cuba  
to the United States is only a question  
of a short time, and that it is absolute  
necessity.

A number of New Mexico statesmen  
will spend their way to Washington  
this week, to look after federal  
offices and consult with the president  
in regard to statehood.

When telephone, telegraph and electric  
light poles become so thick in  
front of buildings that the occupants  
can't see out, perhaps the trees will  
be placed beneath the ground where  
they belong.

In Oklahoma the whites don't want  
the Indians to attend white schools,  
and the Indians protest against  
negroes attending Indian schools. The  
supply of color line in Oklahoma  
seems to be ample.

"I have for a long time been of the  
opinion," solemnly writes Postville  
Biglow, "that England is on the down  
ward path, and unless a miracle hap-  
pens I fear England will fare the fate  
of the Spanish empire, over which also  
the sun at one time never set."

Oil burning locomotives have one  
great disadvantage which was start-  
lingly illustrated in the great collision  
near Needles, Arizona, last week. The  
tanks carrying the oil exploded with  
terrible force, spreading fire and death,  
and giving escape to the men who  
had no chance to escape even if they  
had not been killed in the wreck.

One of the thriving American indus-  
tries attacked by the Illinois pure food  
inspectors is the sale of a compound  
of glucose as "clove honey." The com-  
pound being manufactured and put on  
the market at about one-fifth the cost  
of genuine honey. If there is anything  
which "American industry" has not  
counterfeited it is because there would  
be no money in the fraud.

In Austria, Germany, Russia and  
Switzerland one in every eighty-five  
insane women has been a school teacher.  
At the Illinois State hospital for the  
insane one inmate in every sixty has  
been a school teacher, and at the  
Kankakee asylum one in twelve of the  
patients received during the last two  
years has been a school teacher. If  
there is more than the normal rate of  
insanity in this vocation the explanation  
is not hard to find.

**BEEF SUGAR FACTORIES.**

In the minds of men who have in-  
vestigated, there is no doubt that  
sugar beets can be grown in the Rio  
Grande valley at a greater profit than  
any other crop.

Sugar beets have in two or three  
years made rich communities in Utah  
and Colorado, where formerly was  
poverty.

If the ranchers of the Rio Grande  
valley knew of what vast benefit will  
be the location of a sugar beet factory  
here, they would buckle down and in-  
sist on getting the plant.

**NATIVE POPULATION GROWING.**

The census returns show that the  
native white population of the United  
States exceeds the foreign born ele-  
ment in the ratio of more than  
five to one, there being more than  
55,000,000 whites against a little  
more than 10,000,000 foreign born.  
Of the native something more than  
41,000,000 are also of native parent-  
age. A more striking fact brought  
out is that since 1890 the native white  
element has increased 23 per cent and  
the foreign white element only 12 per  
cent. If this ratio continues, the for-  
eign element must steadily become a  
smaller proportion of the entire popu-  
lation, which is only another way of  
saying that the population will become  
more homogeneous as time passes.

**CHINESE EXCLUSION.**

Next May the twenty years' limit of  
the Chinese exclusion act expires, and  
the question of its re-enactment has  
already become a burning one on the  
Pacific coast. The people of the west  
are almost a unit in opposition to  
Mongolian immigration. They have  
had a much fuller experience with the  
Celestials than the people of any  
other section, and they have their  
reasons for opposing this immigration  
should be carefully considered by the  
rest of the people.

The main argument is that unre-  
stricted immigration is a menace to  
American labor. The Chinaman can  
live and save money on a stipend  
which would be taxation to an Amer-  
ican workman. As a rule, he has  
neither wife nor family, and has only  
his own wants to supply—and they are  
of the fewest.

**CAUSE TO BE THANKFUL.**

The commercial agency of R. G. Dun  
& Co. says: "Never before in the  
history of the United States was  
there such great reason for a day  
of national thanksgiving. This country  
has made unprecedented strides to-  
ward a position of international su-  
premacy not only in commerce, but  
also in finance. To a marked degree

at present no indications that the

**HILLSBORO.**

From the Advocate.

William Farr of Albuquerque was  
in town the early part of the week.

Mrs. M. E. Cook has had quite ex-  
tensive repairs made on her residence.

Mrs. Harry Jaccard, who is an ex-  
pert artist, will go to El Paso and  
open up a studio there.

The many friends of E. W. Clark  
presented that worthy gentleman with  
a purse of money amounting to \$63.  
It is reported here that Arthur Ev-  
ans has purchased Jack Wicks' inter-  
est in the Cumberland mine, near  
Kingston.

Every indication goes to show that  
the Lake Valley Mines company in-  
tends to do a large amount of work  
on the mines once owned by the old  
Silver Mining company at Lake Val-  
ley.

Perry Ellis, who arrived here some  
days ago on mining business, is quite  
ill at the home of Mr. and Mrs. A. J.  
Hirsch. Mr. Ellis is threatened with  
pneumonia, but his condition is not  
considered dangerous.

Frank Packer recently made a dis-  
covery of ore that gives returns of  
\$100 per ton in gold, silver and copper.  
The find is on a claim located by  
Frank at the Placera and adjoins the  
Jersey Lilly. Frank believes he has  
started for a bonanza and has come  
out to work on it.

Oil! Along with the brightening up  
of the mining industry come the  
strong indications that we have oil  
in the very center of the business  
part of town. For some time Mrs.  
Louisa Gertz has complained that the  
water in her well was so strongly im-  
pregnated with coal oil that she could  
not use it. Since the recent rains  
water has come to the surface upon  
which floats a substance that resem-  
bles and possesses an odor like crude  
oil. A test will be made of the liquid  
and should it prove to be the correct  
thing a second Beaumont may be ex-  
pected.

**BEET SUGAR FACTORIES.**

In the minds of men who have in-  
vestigated, there is no doubt that  
sugar beets can be grown in the Rio  
Grande valley at a greater profit than  
any other crop.

Sugar beets have in two or three  
years made rich communities in Utah  
and Colorado, where formerly was  
poverty.

If the ranchers of the Rio Grande  
valley knew of what vast benefit will  
be the location of a sugar beet factory  
here, they would buckle down and in-  
sist on getting the plant.

**NATIVE POPULATION GROWING.**

The census returns show that the  
native white population of the United  
States exceeds the foreign born ele-  
ment in the ratio of more than  
five to one, there being more than  
55,000,000 whites against a little  
more than 10,000,000 foreign born.  
Of the native something more than  
41,000,000 are also of native parent-  
age. A more striking fact brought  
out is that since 1890 the native white  
element has increased 23 per cent and  
the foreign white element only 12 per  
cent. If this ratio continues, the for-  
eign element must steadily become a  
smaller proportion of the entire popu-  
lation, which is only another way of  
saying that the population will become  
more homogeneous as time passes.

**CHINESE EXCLUSION.**

Next May the twenty years' limit of  
the Chinese exclusion act expires, and  
the question of its re-enactment has  
already become a burning one on the  
Pacific coast. The people of the west  
are almost a unit in opposition to  
Mongolian immigration. They have  
had a much fuller experience with the  
Celestials than the people of any  
other section, and they have their  
reasons for opposing this immigration  
should be carefully considered by the  
rest of the people.

The main argument is that unre-  
stricted immigration is a menace to  
American labor. The Chinaman can  
live and save money on a stipend  
which would be taxation to an Amer-  
ican workman. As a rule, he has  
neither wife nor family, and has only  
his own wants to supply—and they are  
of the fewest.

**CAUSE TO BE THANKFUL.**

The commercial agency of R. G. Dun  
& Co. says: "Never before in the  
history of the United States was  
there such great reason for a day  
of national thanksgiving. This country  
has made unprecedented strides to-  
ward a position of international su-  
premacy not only in commerce, but  
also in finance. To a marked degree

**THE OFFSPRING OF HEREDITARY BLOOD TAIN.**

Scrofula is but a modified form of blood  
poison and Consumption. The parent  
taint is inherited by the child, and in the  
child the same disease  
manifesting itself in  
the form of swollen  
glands of the neck and  
throat, catarrh, weak  
eyes, offensive ears,  
and abscesses and ec-  
tyma—sure signs of  
Scrofula. There may  
be no external signs at  
all, but the disease is  
always present, and  
in some cases, but the  
blood will break out at  
the first favorable opor-  
tunity. S. S. S. cures this  
destructive disease by first purifying  
and building up the blood and stimulating  
and invigorating the whole system.

J. M. Smith, Public Square, St. Louis, Mo.,  
says: "I have known many cases of  
Scrofula cured by S. S. S. I have seen  
some of the best doctors here and elsewhere  
attend her without success. We decided  
to try S. S. S., and a few bottles cured her  
entirely."

S. S. S. makes new and pure  
blood to nourish and  
strengthen the body,  
and is a positive and  
cure for all blood po-  
isons, whether inherited or acquired, and  
no remedy so thoroughly and effectively  
cleanses the blood. It cures all blood  
trouble, or your child has inherited  
some blood taint, take S. S. S. and get  
the blood in good condition and prevent  
the disease from further damage.

**SILVER CITY.**

From the Enterprise.

Sheriff A. S. Goodell and wife are  
expected to arrive here today from their  
visit to Mr. Goodell's old home at  
Lyane, N. H.

Robert Golding, of the firm of Bell  
& Golding, left for Hot Springs, Ar-  
kansas, "in an endeavor to cure an  
attack of rheumatism."

Charles Ott, who has been absent in  
Texas, returned to the city on a visit to  
his parents and family.

John Bragaw, one of the original  
group of copper miners in the Han-  
over district, looked in upon Silver  
City friends last week.

J. W. Jackson, the Pinos Altos  
miner employed in the Gillette, had  
the misfortune to have his arm in-  
jured by a rock falling upon it.

Week and there are indications that  
necrosis of the bone may result.

Charles and Roy McDonald, once  
the invincible battery of the famous  
quadrangle, are coming and now a  
strong team for the Mutual Life in-  
surance company, are in the city talk-  
ing insurance. Roy caught for a  
professional who represented Albu-  
querque in the recent ball tour-  
nament, and handled Matthewson's  
hot rolls like a veteran.

Word has been received from Roy  
Bayne saying that another operation  
will have to be performed in two or  
three weeks which, it is thought, will  
enable him to get both his legs.  
Roy will be compelled to stay in the  
hospital another two months, but his  
home coming will be rendered all the  
more welcome by reason of his en-  
forced absence.

drug and may be given as confidently  
to a babe as to an adult. For sale

John Liles met with an accident that  
lacked little of being a very serious  
one. He was handling a set of lug-  
gery shafts when they fell, one of them  
striking him just over one of the eyes  
and cutting an ugly gash.

Engineer William M. Glasenow is  
now working a day and a night shift  
on the mining property in Water can-

**THANKSGIVING PROCLAMATION.**

EXECUTIVE OFFICE,  
Santa Fe, N. M., Nov. 6, 1901.

Whereas, The president of the United  
States following an unbroken na-  
tional custom of nearly one hundred  
years has proclaimed Thursday, the  
28th day of November, 1901, to be a  
day of national thanksgiving for the  
divine mercy shown us in the past  
and of prayer for similar mercies in  
the future;

Now, therefore, I, Miguel A. Otero,  
governor of the territory of New  
Mexico, in accordance with custom  
and the laws, do hereby ordain and pro-  
claim Thursday, the 28th day of Novem-  
ber, 1901, as a day of public thanksgiving  
and prayer throughout the territory  
of New Mexico. And while our thank-  
sgiving is mingled with profound sor-  
row for the untimely taking off of the  
great and good president of the United  
States, and for the country still in mourning,  
it may be that lessons will be learned  
from his death no less than by his  
living; and while his body was rever-  
ently laid away by loving hands in  
the little cemetery adjoining the hum-  
ble city of his residence less than two  
months ago, yet we may well be  
thankful that the laws enacted since  
the assassination of President Gar-  
field have made the succession abso-  
lutely certain and no such doubts and  
anxiety affect the country as unsettled  
at that occasion. We, in New  
Mexico, have peculiar cause for  
thanksgiving in the increase of our  
cattle and flocks, and the household  
products of the yielding earth; the  
large amount of railroad building now  
in progress and contemplated; the  
increasing interest in the mining in-  
dustries, the influx of population and of  
capital and the promising hope of our  
near admission as a state, and for  
our countrymen, the peace, order and  
prosperity which have blessed the ter-  
ritory of the nation.

I recommend on that day that all  
journalists and public men, be sus-  
pended, and that the people assemble  
in their respective places of worship,  
there to give thanks for their man-  
ifold blessings granted them in the  
past by Almighty God, and supplica-  
tions for their continuance in the fu-  
ture, and of our united love to give  
thanks to God for all his mercies.

Done at the executive office this 6th  
day of November, A. D. 1901.

Witness my hand and the great seal  
of the territory of New Mexico,  
(Seal) MIGUEL A. OTERO,  
Governor of New Mexico.

By the governor:  
J. W. RAYMOND, JR.,  
Secretary of New Mexico.

Everybody in the northwest knows

journalist and publisher of Butte, Ja-

"I used a couple of bottles of New-  
bro's Herpicle with marvelous re-  
sults. The dandruff disappeared, a  
new crop of hair has taken root and  
the bald spot is rapidly being cov-  
ered. Herpicle is the only hair  
preparation that kills the dandruff  
germ that digs up the scalp in scales  
as it burrows its way to the root of  
the hair, where it destroys the vitality  
of the hair, and kills the hair to fall  
out. Kill the dandruff germ with  
Herpicle."

beautiful color is to be arranged you  
need a master of painting; and where  
ever noble form is to be given a mas-  
ter of sculpture; and wherever me-  
chanical force is to be resisted a mas-  
ter of architecture." And H. O. May-  
rino, the monument maker of this city,  
says: "If you need to buy a coffin go

adorate the grave of your dearest with  
artistic memorials go and employ H.

**ROSENWALD BROS**

Chicago, Oct. 24th, 1901.

Messrs. HALL & LEARNARD, Albuquerque, N. M.

Gentlemen:—Your favor under date of October 22nd is received and contents carefully noted. We have looked over the several plans to which you refer in that favor and in this matter, we beg to say, owing to the very large increase in the demands made upon us we are having a good deal of trouble in making prompt shipments. Our business has grown much faster than we had anticipated and although we are constantly adding to our facilities and resources we find it absolutely impossible to keep up with our natural growth.

Strange to say this increased demand has come almost without any effort on our part either by advertising or otherwise. It has come in practically unlooked and speaks volume for the satisfaction which our piano must be giving wherever it has been placed.

We expect within the next few months to move into much larger quarters, after which we hope that we can give you and all of our other representatives prompt and more satisfactory attention.

Hoping this explanation for our recent tardiness will be satisfactory, we beg to remain, with kind regards,

Yours very truly,

**CHICKERING BROS.**
