New Mexico demands Statehood  
from the Fifty-Seventh Congress.

TUESDAY, NOV. 19.

The New York city postoffice took  
in \$1,661,258 in cash during October.

The Durango, Colorado, Democrat  
says: "Before 1902 Durango was  
talking to Albuquerque over the long  
distance—if we have the price."

King Edward holds that presidents  
of republics shall receive the same  
honors in connection with the cor-  
onation ceremonies as kings and em-  
perors.

Colonel Wynn, of Denver, has dis-  
covered a process of extracting gold,  
and if what he claims is true the out-  
put of gold can soon be doubled in  
the Rocky Mountain region.

Carroll D. Wright, United States  
labor commissioner, advocates a  
labor trust and says it is the only  
method of coping with organized cap-  
ital in its efforts to decrease wages.

For the most appalling feature of  
the fact that 312,000 arrests for drunk-  
ness were made in the 129 largest  
cities of the United States last year  
is the knowledge that the 312,000  
represent only about one jug in ten-  
thirty.

Albuquerque is an aspiring town.  
Just now it is aspiring to become a  
political lion center—New Mexican.  
Heaven forbid! Santa Fe is the lion  
town in the territory that sets itself  
up as a political center, and it certainly  
is deserving of the distinction.

**SHORT WORK DAYS BEST.**  
Two years ago the Thomas G. Plant  
company, shoe manufacturers of Bos-  
ton, with a payroll of \$1,000,000 a  
year, adopted the nine hour work  
day. It was found that the fac-  
tory, by adopting special methods,  
could produce as many shoes as were  
produced under the ten hour day.  
More recently the company has put  
into effect an eight hour day without  
any change in the wages of its work-  
men—another triumph of the nine hour  
day and the company claims that under  
conditions now enforced the piece  
work help can earn as much in the  
eight hour day as they formerly earned  
in the ten hour day.

**FRIEND OF THE WEST.**  
Friends of national irrigation have  
been pleased to learn that the presi-  
dent has expressed himself strongly  
in favor of this movement, and that  
he would voluntarily incorporate in his  
message to congress a recommendation  
on the subject. This is not sur-  
prising, as President Roosevelt has  
seen more of the great west than any  
of his predecessors, and is, therefore,  
able to judge from practical experi-  
ence of its necessities and possibili-  
ties. There is no doubt that the presi-  
dent is a warm advocate of national  
irrigation; the only danger lies in the  
persistent efforts that are being made  
in some selfish quarters to mislead  
him as to the best means of accom-  
plishing that object.

**JUDGE CRUMPACKER.**  
The people of this judicial district  
are satisfied with the excellent rec-  
ord made by Judge Crumpacker. No  
charge of corruption can truthfully be  
brought against him, and he is the  
hardest working man who has ever  
occupied the bench in New Mexico.

As appears from the official reports  
published by Governor Otero, the  
volume of legal business in the second  
judicial district far exceeds that of  
any other district in the territory,  
and still, with a fast accumulating  
docket, Judge Crumpacker has ap-  
plied such energy to his work that  
there are today fewer pending cases  
on the docket than for many years  
past.

The law provides that in civil  
actions any person desiring a jury  
trial shall return a verdict for trial  
prior to the convening of the terms,  
and for the first time for many years  
all cases in which litigants gave no  
notice of a desire for a jury were ac-  
commodated, the cause being either  
tried or continued on motion of the  
parties.

Of the 45 cases disposed of during  
the current year, there have been  
only nine cases appealed to the su-  
preme court.

No term of court has been held in  
McKinley county since its creation,  
last January, for two reasons: First,  
because the legislature failed to fix  
a time for holding regular terms; and  
second, because the county has raised  
no fund to defray court expenses.

Such faithful work has endeared  
Judge Crumpacker with the people,  
and they hope that he will remain on  
the bench for years to come.

**NECESSARY KNOWLEDGE.**  
Many costly and bitter experiences  
are the result of lack of knowledge  
of the law. It is a well known maxim  
that ignorance of the law excuses no  
one. Many men have innocently com-  
mitted illegal acts, at the penalty of  
heavy trouble and expense, or even  
at the cost of their lives. While con-  
sequences of infractions of the law  
are often so serious that no layman  
should take important action, involv-  
ing legal considerations, without the  
advice of a practicing lawyer, there  
are, frequently, in the course of a  
business day, exigencies which must  
be immediately faced, allowing no  
time for consultation. In these num-  
erous cases, says Benjamin F. Tracy,  
in Bureau, a knowledge of the funda-  
mental legal principles and practices  
frequently is of great service. Every

time with typhoid, is said to be in  
bad condition, but hopes are entertain-  
ed for his recovery.

Will Menzies, representing The Al-  
buquerque Daily Citizen, was discuss-  
ing among our people Wednesday.

Will is a popular fellow out this way,  
as also is the paper he represents.

At Albuquerque is improving slowly,  
but it is thought that a change to Cali-  
fornia will be of more benefit, and  
Mr. and Mrs. McCarty are making ar-  
rangements to leave as soon as possi-  
ble.

Capt. Burton C. Mossman was in  
town Saturday for a short visit with  
his family friends. The pursuit of the  
South coast of California has been  
abandoned for the time being on ac-  
count of heavy rains, but as they are  
now known it will only be a matter of  
short time when they will be taken  
in.

"If everyone knew what a grand  
medicine Dr. King's New Life Pills  
is," writes D. H. Turner, Dempsey-

From the Gem.

Alvin Florence H. Duke left for  
Williams, where she has secured a po-  
sition as stenographer and typewriter  
in the law office of Hon. Henry F.  
Ashburn.

N. H. Norman left for the Geo.  
Hoehderfer ranch, where he will  
spend the next two weeks hunting big  
game in that vicinity.

James P. Fancher has secured a po-  
sition with the commissary of W. A.  
Clark, at Clarksville, N. M. Mrs.  
Fancher and children left Tuesday  
for that place.

Flagstaff judge, B. P. O. E., will  
hold their annual memorial services at  
their hall on Sunday, December 1.  
The program of the services is now  
being prepared.

Godfrey Sykes is preparing for a  
trip down the Colorado river from  
Needles to the Gulf of California, and  
will take a gasoline engine with him  
to run his boat. He will take with  
him his family and they expect to  
leave about the first of the year.

George Hoehderfer was chosen  
lieutenant colonel of the First reg-  
iment, N. G. A., at an election held  
Thursday. Col. Hoehderfer has since  
the inspection of guards taken, and  
is very interested in the affairs of the  
militia, and his promotion from time  
to time is pleasing to his many  
followers. He will be in the city  
during the absence of  
Col. Martin, who is now in the east.

Captain John Hance, the Grand cap-  
tain, is now superintendent of the  
asbestos mines in the Grand can-  
yon. The recent purchasers of the  
asbestos properties have organized a  
company for the development of the  
mine, and Captain Hance, one of the  
former owners, has been placed in  
charge of them. He will start work  
at once, and the great asbestos mine  
will be developed.

Frank Taylor had a lucky escape  
from serious injury last night when  
camped on the C. A. railroad. While  
skidding logs he was caught between  
two rolling logs and his left knee and  
right arm were badly bruised, but he  
had it not been for the timely action  
of his assistants who stopped the logs  
he would have been seriously injured.  
Dr. Ruppert attended to his wounds  
and says that it will be some time  
before Mr. Taylor will again be able  
to work.

**For Hoarseness.**  
Bent, Ingerson, of Hutton, Ind.,  
says he had not spoken a word above  
a whisper for months, and one bot-  
tle of Foley's Honey and Tar restored  
his voice. Be sure you get Foley's

From the News.

Postmaster E. H. Simpson is suffer-  
ing greatly from rheumatism. He ex-  
pects to leave for Los Angeles shortly  
in hope that the change may benefit  
him.

Mrs. Clara B. Ross and daughter,  
Miss Floy, of Los Angeles, mother and  
sister, respectively, of Mrs. W. H.  
Sanford, of this city arrived for a  
visit of three weeks.

C. C. Robinson, cashier of the Ariz-  
ona Central bank, at Flagstaff, arriv-  
ed in the city and will have charge of  
that institution's branch at this place  
until Mr. Robinson departs for his home.

The many friends of John A. Ran-  
dall will be somewhat surprised to  
learn that on Friday, November 8,  
last, he was united in marriage to  
Miss Edna A. Parker, of Cedar Rap-  
ids, Iowa. Mr. Randall, it will be re-  
membered, was stationed here when  
Captain Hance was in command of the  
building operations, acting as assist-  
ant engineer under his father.

E. C. Dickinson, father of Mosdomas  
Dickinson, of New York, and C. A. Neal, arrived  
in the city a few weeks visit at his  
old home in Connecticut. He was  
greatly surprised at the changes that  
had taken place—especially the old home-  
stead having an unusual appearance  
—in the past twenty-eight years, and  
left for his home in California, firmly  
convinced that the west is still good  
enough for him.

H. H. Watkins and J. H. Holmes are  
out on a hunting trip in the mountains  
near Flagstaff. They expect to be  
gone several days.

Joe Gouvin had the misfortune to  
fall on a tin roof and has been  
confined to his home for several days.  
The wound, though painful, is not  
considered dangerous.

John H. Ginn, the old gentleman who  
fell on the pavement last week ren-

recovered his mind, and Deputy Sher-

Fifteen Thousand Bunches Off Nine

W. M. Barker, of Roswell, is prob-  
ably the most successful celery grow-  
er on a small scale in the west, says  
the Argus. He has in now on his  
place, in the heart of the country, the  
choicest celery to be found any-  
where and while not as large as the  
California and Colorado products with  
which it has to compete, is much finer  
in flavor. Indeed it is conceded that  
Pecos valley celery cannot be excelled  
for flavor. The product of this val-  
ley is shipped by express in boxes

## ROSENWALD BROS

Chicago, Oct. 24th, 1901.

Messrs. HALL & LEARNARD, Albuquerque, N. M.

Gentlemen—Your favor under date of October 22nd is received and contents carefully noted. We have looked over the several plans to which you refer in that favor and in regard to this matter, we beg to say, owing to the very large increase in the demands made upon us we are having a good deal of trouble in making prompt shipments. Our business has grown much faster than we have anticipated and although we are constantly adding to our facilities and resources we find it absolutely impossible to keep up with our natural growth.

Strange to say this increased demand has come almost without any effort on our part either by advertising or otherwise. It has come in practically unanticipated and unasked volume for the satisfaction which our piano must be giving wherever it has been placed.

We expect within the next few months to move into much larger quarters, after which we hope that we can give you and all of our other representatives prompt and more satisfactory attention.

Hoping this explanation for our recent tardiness will be satisfactory, we beg to remain, with kind regards,

Yours very truly,  
CHICKERING BROS.
