BIG CONVENTION.

People of Oklahoma Favor Statehood.

Great Britain Damaged by Severe Storm.

Denmark Will Retaliate Against American Tariff Restrictions.

WILD TRIBES FIGHT.

Nuskogee, I. T., Nov. 14.—Single statehood for Oklahoma and Indian Territory will be brought to a definite issue at a convention here this afternoon. Three hundred delegates from each territory have come to fight the issue. The politicians, as a rule, it is conceded, favor separate statehood. This view is opposed by the business men, who want all avenues of trade and industry opened without restriction, and who profess to believe that this end could not be secured in making two states of the territories. Among the first delegates to arrive the current of feeling seemed strong for single statehood for Oklahoma without delay, the Indian Territory to be considered later.

SEVERE STORM.

Great Britain Damaged by Continuous Heavy Gale. London, Nov. 14.—The loss of a life boat and seven of its crew near Plymouth Heads is the list of today's wrecks by the continued gale. The life boat was on its way to rescue a distressed vessel when struck by a great wave and capsized. The crew was imprisoned, and only three succeeded in escaping. In the meantime, a disastrous mine calamity continues to be reported on all the coasts of the United Kingdom, marking the storm as the most disastrous in many years. Snow is falling in many parts of the country. The complete list of persons who lost their lives by drowning during the storm already aggregates over one hundred and sixty.

DENMARK WILL RETALIATE.

That Little Country Objects to Business Methods of Uncle Sam. Copenhagen, Nov. 14.—The government of Denmark is considering the most effective method of retaliating against the United States, should the diplomatic representations now being made in behalf of Danish chocolate exporters fail. The exporters allege over valuation of chocolate by New York customs officials. The exporters deny that Denmark pays a bounty on chocolate, and claim that Copenhagen should be accorded the same treatment as America given other free ports.

PHILLIPINE TRIBES FIGHT.

Two Wild Tribes Trying to Exterminate Each Other. Taguig, P. I., Nov. 14.—Fierce fighting has occurred between the Bannan and Mesuda tribes, and many have been killed on both sides. The Bannans razed a number of Mesuda villages and carried off eighteen Mesuda girls. They had been threatened by the Bannans with punishment for abducting a Spanish boy and girl, and took this method of demonstrating that they were prepared to fight any force sent against them.

Death. New York, Nov. 14.—Brigadier General Henry L. Robinson, retired, in recent years customs inspector, is dead. He was in his ninetieth year.

MINE ACCIDENT.

Twenty-Five Miners Badly Injured—Mine Wrecked by Explosion. Pocahontas, Va., Nov. 14.—At 2 o'clock this morning fire broke out in the Baby mine, near here, caused by defective electric wires. A great portion of the mine fell in, and a terrible explosion followed. It is not known how many men were in the mines. Firemen and others rushed in to rescue those who might be caught. Then another explosion followed. As a result twenty-five men were badly injured, and many fearfully burned, but no dead so far have been found. The miners are still on fire, and other explosions are likely.

Injunction Wanted.

Springfield, Ill., Nov. 14.—Henry Crawford, acting for the Union Traction company and the Chicago Consolidated Traction company, today filed in the United States circuit court an application for an injunction to restrain the state board of equalization from assessing the franchise of the corporation for the year 1900, as per writ of mandamus recently issued by Judge Thompson.

Washington, Nov. 14.—Representative Shepley, of Iowa, chairman of the house interstate and foreign commerce committee, and Representative Sherman, of New York, a member of the same committee, had a long conference with the president today about the isthmian canal and Pacific cable legislation. As a result they announced their purpose to press legislation on both subjects at the earliest possible moment.

He declared this policy to Clinton Rodgers Woodruff, of Philadelphia, of the National Civil Service Reform league. Woodruff called to ascertain what the president's policy would be. LAWLESS DISTRICT.

El Paso & Northeastern Extension Infested by Desperadoes.

According to the stories told by returning employees on the El Paso & Northeastern at the end of the line where track is now being laid, the country is in an open state of lawlessness and the worst characters in the territory are gathered there, who stop at nothing in preying upon the salaries of the workmen.

Saturday morning there arrived in El Paso John Gaynor, who had a bullet in his back, the gun wound having been inflicted Wednesday night by one of the desperadoes. Yesterday Mr. Gaynor said: "I was held up and robbed by two men, and because I resisted I was shot." Gaynor would not say who the desperadoes were. The bullet entered a little above the left hip and ranging downward plowed its way through the flesh, cutting the spine bone and lodging near the surface. The wounded man consulted Dr. Austin, who successfully removed the bullet and dressed the wound.—El Paso Times.

Always generous and hearted, Joe Barnett and T. J. Shinnick have a scheme on foot that will help to alleviate the distress among some of the poor of the city this forthcoming Thanksgiving. Both gentlemen met this afternoon on Railroad avenue, at a time when City Marshal McMillin was making his usual rounds, and the question of "giving to the poor" was discussed. Forthwith it was declared by the owners of "Action," the trotter and Lady Margaret, the pacer, to give a matinee of races on the Sunday before Thanksgiving, with a football game on the side, the proceeds

Celebrated Poisoning Case on Trial Again.

Miss Stone Still in Custody of Bulgarian Brigands.

ARMY OF THE TENNESSEE.

Salt Lake, Utah, Nov. 14.—Advices received today show that last night's earthquake shock was apparently the heaviest at Beaver City, where the Mormon meeting house, court house and the Beaver academy were badly damaged. Hardly a house in the town escaped damage. No fatalities are reported.

Another shock was felt at Beaver this morning. At Cedar City, Kanab and Panguitch the shock is reported as very severe, plastering being shaken from the walls and brick buildings cracked.

POISONING CASE.

Molineux Again on Trial in New York City.

New York, Nov. 14.—Two former governors of New York, David B. Hill and Frank S. Black, met in argument in the court of general sessions, on a motion to quash the indictment charging Roland B. Molineux with murder by having mailed poison to Mrs. Katharine J. Adams.

Molineux was once convicted and sentenced to death, but the court of appeals gave him a new trial.

Hill opposed the motion to quash. Black joined with Molineux's counsel in pressing the motion in behalf of the alleged poisoner. General Edward Molineux, the father of the prisoner, was in court.

CAPTIVE MISSIONARIES.

Said to Be Confined in a Village in Southern Bulgaria.

Sofia, Bulgaria, Nov. 14.—Miss Ellen M. Stone and Miss Tolkia are said to be confined in a village in southern Bulgaria, to which they are closely confined.

There is reason to believe that a number of men, called cowboys, are held at Dubinitz, favored reduction of the ransom demanded, and as soon as it comes within range of funds at the disposal of Consul General Dickinson, he is ready to seal the proposal.

Photographs of ex-President Saradoff, of the Macedonian committee, have been circulated among the troops on the Turkish side of the border in consequence of the belief that he is now with the brigands in the vicinity of the frontier.

Army of the Tennessee.

Indianapolis, Ind., Nov. 14.—The society of the Army of the Tennessee today elected these officers: President, Gen. Granville M. Dodge, New York; corresponding secretary, A. H. Hickenloper, Cincinnati; recording secretary, Col. Cornelius Cable, Cincinnati; treasurer, Major A. M. Van Dyke, Cincinnati.

"LA TOSCA."

A Fine Play by an Excellent Company Last Night.

The play of "La Tosca" was presented last night at the Columbus theater by the Melbourne Macdowell company to a numerically small audience, which made up for lack of numbers by high appreciation of the intensely emotional and dramatic situations that abound throughout the entire plot. Miss Stone as the celebrated "La Tosca" could not have been excelled, the part receiving full justice at her hands and places the actress in the same category as Modjeska. Her singing, too, was of a high order, and she achieved her greatest successes in her portrayal of more or less similar characters. Mr. Macdowell has the stage presence and force to render good support to an actress of Miss Stone's power and ability. Apart from these two, the company is composed of average actors. Those who were present last night have nothing but praise for the company, some to the extent of saying that the Macdowell company is a good house more than did any other company that has visited Albuquerque in the past year or more.

The costumes were magnificent and the scenery most appropriate and well handled. The company was unfortunate in being billed at Albuquerque for a date on which our annual election was held, and the result, it is felt, which proved a serious drawback in that many who would otherwise have been at the play were forced to remain indoors.

Antonio Maggio's People.

Frank Maggio, brother of Antonio Maggio, the anarchist, recently indicted at Las Cruces for conspiracy to kill President McKinley, has gone to New Orleans, Louisiana, to Baton Rouge, Louisiana. His mother and sister arrived from Italy and are with a brother at Baton Rouge, and his ostensible purpose on leaving there was to visit them. Before leaving he would not say what, if any steps would be taken by the family to defend his brother, who was brought here for safe keeping and thence taken to Las Cruces, where he was indicted by the grand jury as charged above.

Date Cancelled.

Manager Matson, of the Columbus theater, announced that owing to the severe illness of their leading tenor, the Rice Opera company have cancelled their engagement at Albuquerque, which was called for the 16th instant. The company has also cancelled all dates for next week, and it is possible that as a result of other engagements being called off arrangements may be effected by which the company will give a performance in Albuquerque next week.

New Mexico demands Statehood from the Fifty-Seventh Congress.

THURSDAY, NOV. 14

Quit croaking and help build up New Mexico.

Bank robberies are of daily occurrence in the back east country.

Governor O'Connell appoints a non-partisan delegation to visit Washington and urge statehood.

Denver has organized a Roosevelt club, and its members hope to get close to the pie counter.

The Southern Pacific company is making a desperate fight to hold its cinch on El Paso and southern New Mexico.

Colonel Twitchell emphatically denies that he wrote the political comedy in the last number of the Las Vegas Review.

The Los Angeles Times denies that it is opposing statehood for New Mexico and Arizona, and severely spans the New Mexican for making the assertion.

Indianapolis is trying to raise a fund of \$100,000 for a Benjamin Harrison memorial monument. So far nearly \$40,000 has been collected by the association.

At a cost of over \$15,000,000, the United States steel corporation has purchased 400,000 acres of coal and timber lands in Virginia, West Virginia and Kentucky.

The Yaquis are giving Mexico all most as much trouble as the Boers are giving England. These particular Indians are semi-civilized, and fight with modern weapons.

When the pine forests of New Mexico and Arizona are destroyed by the lumbermen, there will be little need of storage reservoirs for irrigation. There will be no water to store.

A plain eye or no has been demanded of Denmark by the United States, as to the sale of the Danish West India islands, which has been in course of negotiation for several years.

During the fiscal year ended September 30, 2,542 new companies were incorporated in New Jersey, \$558,269 being paid to the state for their charters, and the fees paid amounted to \$789,244.

Those who think the color line can ever again be made an important factor in national politics have failed to keep up with the whirligig of time. Outside of a few southern states, that issue is dead for all time.

Judge Haney of Chicago decides that newspapers cannot criticize the decisions of courts. This is a far-stretched idea of the power of judges, and if enforced would do away with the supposed liberty of the press in the United States.

Treasury Secretary Gage says, "I believe that in the periods of natural peace and prosperity the public revenue should be somewhat in excess of public expenditures, and that the surplus revenue should be applied to the reduction of the public debt."

Last year as compared with the previous one the total value of imports to Mexico increased \$2,745,000; the value of imports from the United States increased \$4,139,000; the total increased \$1,400,000; the value of exports to the United States increased \$1,224,000.

The Los Angeles Express says people not wisely deprecate booms, but nevertheless that city has in thirty years increased her population 2,200 per cent as a result of booms, and has a population twice as large as Springfield, Mass., a city 250 years old. The booms caused the establishment of many industries that were

**FACTS OF GENERAL INTEREST.**

Special Correspondence.  
Washington, D. C., Nov. 9.—Plans are being made to establish at Norfolk, Va., or Newport News, one of the largest shipbuilding plants in the United States, with a capital of \$5,000,000 to start with. The news has just leaked out that Rockefeller, Gould, Senator Stephen B. Elkins and the Standard Air Line railroad, which read runs from Washington to Florida, have just purchased 1,000 acres of land for terminal and other facilities at Norfolk.

These two items of news may be skipped over by readers of Albuquerque and other places immediately east and west of that place as of very little interest or concern to them, yet, when the full significance of the facts are more fully understood, it will be recognized as the shortest, cheapest—as the bird flies—all year, south of snow line, route from Atlantic tide water via Memphis, Albuquerque to Pacific tide water at San Francisco or Los Angeles, that can be found across the continent.

That this route, which may be completed before many people open their eyes to the fact, will represent from \$50,000,000 to \$100,000,000 less of money, stock, bonds or water, than another route; that it will require a year required to pay interest or dividends, and being south of snow line can be operated at less than \$10,000,000 a year less than any north-western road, and therefore, with \$50,000,000 to \$100,000,000 less required for operating expenses, interest and dividends, should be able to virtually dictate fares and freight from tide water to tide water for the hundreds of millions of transcontinental trade, and the hundreds of millions of oriental trade. The only chance for a road to operate for a similar or less expense per annum would be the Santa Fe road to use a couple of million dollars to complete the breaks in its roads of the Gulf, Colorado & Santa Fe from San Antonio, Texas, to Santa Fe, and from Roswell, New Mexico, to Albuquerque, New Mexico, and of the Southern Pacific from the Gulf of Mexico to San Francisco, or Los Angeles, California.

The Santa Fe company stand idly by and see other roads cut it off from millions of dollars of business or by completing the two breaks. Its line above mentioned put itself in position to say to the railroad gods: "We have a transcontinental road from the Gulf of Mexico to the Pacific and a second road from the Gulf of Mexico to the Pacific, and demand \$10,000,000 a year more of transcontinental business than has been given us."

United States Attorney, Children, after a week's hard work, has finished his brief in the Albuquerque Irrigation and Land company vs. C. G. Hughes and others, for the plaintiff and appellee, and has it printed. He has also been trying for the same time to get the case advanced on the supreme court, but he could not argue the case now, but it is now said that the case will go over to about Christmas and possibly over to January.

Mr. Chabrey will probably start home about Monday or Tuesday of next week.

Attorney Field, after passing some days in New York, has been here two days trying in behalf of the defendants and appellants to advance the foregoing case, but without avail. Mr. Field has been here, has been hobnobbing with some prominent politicians, not the least of whom was H. H. Hanna, the "head and front" of the gold demagogue of Indiana. Mr. Field was quite set back here, and took the early evening train for Albuquerque.

The Roosevelt Riders and New Mexico have a warm friend going home of the state at the White House, and the Citizen representative learns that one of the Riders and Hughes will soon receive an easy and lucrative position in the Philippines. For prudential reasons the Riders are desirous to keep him for a while longer.

The Las Vegas grant case, which was argued and submitted this week, was decided before or soon after the holidays.

The Elephant Butte dam case will be argued about the middle of next week.

Dame rumor says that Childrens' recent friends about \$10,000 while in Washington, and it was not the irrigation and land company, either.

Special Correspondence.  
Silver City, N. M., Nov. 12.—Silver City and the surrounding country has been enjoying a steady and heavy rain for the past twenty-four hours and the stockmen and mining men are feeling jubilant. One of the greatest blessings in the southwest is the want of a sufficient water supply. **FINALLY RESULT IN DEATH.**  
E. P. Brennan Succumbs to Blows Received in Pinos Altos Over Two Years Ago.

E. P. Brennan, an old time resident of Grant county, died at the Sisters' hospital in Silver City, Monday morning, after an illness which resulted from injuries sustained over two years ago.

It was in June, 1899, that Brennan became involved in a dispute with a man named Pink West, over some mining claim near Pinos Altos. In

the difficulty which caused Brennan to be laid low at the left eye, which knocked him some feet down the side of the mountain. Brennan landed in the circuit made by a horse and cart, falling in this box and was twice kicked in the back of the head by the horse. West, seeing him badly hurt, picked him up and endeavored to carry him down the mountain. Brennan was brought to the Pinos Altos, and the old man was brought in and given medical attention. Brennan lingered between life and death for several weeks, and finally regained some physical strength, but his mind was a blank. He remained about Pinos Altos for a long time, and then was brought to the county jail at Silver City, where he was kept until a week ago, when his condition became such that he was taken to the hospital.

He had lived in Grant county for many years, and spent most of his time in prospecting. He had no relatives so far as could be ascertained, and he was buried at the expense of the county.

**WILL BE TESTED.**  
Action of the Territorial Board of Equalization to Be Heard Upon by the Courts.

Judge McMillan, of the fifth judicial district, last week granted a restraining order in the case of John W. Poe et al. vs. the state of New Mexico. The suit was brought for the purpose of testing the recent order of the territorial board of equalization making a 15 per cent increase of 15 per cent on real estate and stock of goods outside of incorporated towns. The restraining order, or temporary injunction, holds the order in abeyance until the case will be heard upon its merits, and a permanent injunction granted or refused. Sixty-three of the leading real estate and stock owners of the territorial board of equalization is purely a statutory board, with powers limited to the act creating it and that it is not a superior assessor with power to reassess all property and set for naught the work of the assessors of the various counties in the territory. On the other hand if the decision in this important case dissolves the injunction then the assessment rolls of the different counties made by competent assessors, thoroughly familiar with the properties and values, are practically of no value whatever and the people are wasting their money paying them.

# BLOOD HISTORY

Born in bone marrow—dies in the liver. This is the beginning and the end of the rich, red blood that keeps us all alive. Blood history makes a fascinating story.

Scott's Emulsion often plays a most important part in blood history. At the very beginning—that is where its influence is greatest.

Scott's Emulsion is a blood food—a rich material for making new blood. Nothing better for bringing color to pale faces.

We'll send you a little to try, if you like. SCOTT & BOWNE, 495 East Street, New York.

The best paying offices in the country, for the time engaged, and it will be an office much sought for in the ensuing campaign.

J. W. Francis, Jack Wright and J. L. Lester returned from the mines on the Navajo Indian reservation.

Antone Klein, who had his right leg broken recently by a mule falling on it, was here to report, is getting along nicely and will soon be home again.

Ben Roynton, charged with violating the game law, was brought before Judge L. W. Quinlan and was fined \$75. The killing of deer proved dear in this case.

"Lige" Baker came in from the Grand Canyon mines. He had the misfortune to get one of his legs broken while shoring a horse and came to have it mended.

The Los Angeles Times is sending out figures showing the steady gain in the circulation of that paper for each September since 1890, covering a period of twelve years. The following is the detailed circulation exhibit which the Times makes. It is of general interest, and it may be said it is a fair index to the growth of the whole Pacific northwest.

**A Village Blacksmith Saved His Little Son's Life.**  
Mr. H. H. Black, the well known village blacksmith at Grahamville, Sullivan Co., N. Y., says: "Our little son, five years old, was taken with a cold, and he was very sick. He was subject to croup, and so had have attacks that he would die. We have had the doctor and used many medicines, but Chamberlain's Cough Remedy is now our sole reliance. It seems to dissolve the tough mucus and by giving frequent doses when the croupy symptoms appear we have found that the dreaded croup is cured before it gets settled. There is no danger in giving this remedy, for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by all druggists."

**W. J. Shively, Batesville, O., speaking of Bitter Salt, says: "I used it for piles, and it has done me more good than any salve I have ever used, and I have tried a great many kinds. Alvarado Pharmacy."**

# ON FIRE.

An exploding lamp; the clothing in a blaze; a paragraph; the paper telling of horrible suffering from burns. Tragedy in this form moves a man to tears. But for women who are daily being consumed by the smoldering fire of disease there is little sympathy.

Inflammation, with its fierce burning, ulceration, eating into the tissues; the nervous system almost shattered by suffering, these are only part of the agonies borne by many a woman.

Dr. Pierce's Favorite Remedy puts out the fire of inflammation, heals ulceration, and cures female weakness. It tranquilizes the nerves, restores the appetite, and gives refreshing sleep. Favorite Prescription is the most reliable put-up medicine offered as a cure for diseases peculiar to women. It always helps.

**It almost always cures.**  
When I first commenced using Dr. Pierce's medicine," writes Mrs. George A. Strong, of Boston, "I was suffering from a terrible discharge from the female organs, a disagreeable odor, and a burning pain in the vagina. I was so weak that I could not get up, and I was losing my hair. I had tried many other remedies, but they did not help me. I had heard of Dr. Pierce's Favorite Remedy, and I bought a bottle. I took it as directed, and in a few days I began to feel better. I took four bottles of Dr. Pierce's Favorite Remedy, and I am now perfectly cured. I can now get up, and I have my hair again. I feel like a new person. I can't thank you enough for this medicine, and the good results it has done me."

Dr. Pierce's Common Sense Medical Advice is bound, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

### ROSENWALD BROS

MESSRS. HALL & LEARNARD, Albuquerque, N. M.  
Gentlemen:—Your favor under date of October 22nd is received and contents carefully noted. We have looked over your order for the several pieces to which you refer in that favor and in regard to the matter of saying: owing to the very large increase in the demands made upon us we are having a good deal of trouble in making prompt shipments. Our business has grown much faster than we had anticipated and although we are constantly adding to our facilities and resources we find it absolutely impossible to keep up with our natural growth. Strangely to say this increased demand has come almost without any effort on our part either by advertising or otherwise. It has come in practically unsolicited and speaks volumes for the satisfaction which our piano must be giving wherever it has been placed. We expect within the next few months to move into much larger quarters, after which we hope that we can give you and all of our other representatives prompt and more satisfactory attention. Hoping this explanation for our recent tardiness will be satisfactory, we beg to remain, with kind regards,  
Yours very truly,  
CHICKERING BROS.
