EXPIRED IN OFFICER'S ARMS.

Death of William Fitzpatrick, a Machinist, This Morning.

William Fitzpatrick, a machinist, died this morning at 7:30 o'clock under peculiar and circumstances. He came here about six weeks ago from Mexico, and as he was a consumptive and in a destitute condition, he made known his wants to the machinists of the local shops, who made up a purse of \$45 for him. Marshal McMillin was appealed to and the man was granted permission to sleep in the city building, where he was given good care and attention by the city physician and a nurse, but he was afflicted with drink and would wander away from the building without permission. Last night he left the building and this morning Policeman Martinez found him and was about to take him back to the city building when he showed signs of sinking, dying in the arms of the policeman and before a physician could be summoned. The remains were turned over to Undertaker Borders. It is understood that his home is at East St. Louis, Ill., and the remains will be buried there tomorrow. The local machinists defraying the burial expenses.

SANTA FE CENTRAL ITEMS.

It looks as if the building of the Santa Fe Central railroad would begin at the southern end of the proposed line. No matter where it commences it will prove a magnificent thing for the capital city as soon as completed. The committee appointed by the Santa Fe city council to confer with the officers of the Santa Fe Central Railroad company in regard to a site in that city for terminals had no meeting as yet with representatives of that road.

Part of the office furniture for the Santa Fe Central railroad has arrived in Denver and the remainder is expected in a few days. It is believed that the officers will be here ready for business about the middle of this month.

THE LIQUOR TRICK.

The Citizen's Exposure Worked Like a Charm—A. D. Davis is His Name.

The fellow who so successfully worked the "liquor racket" on a number of our citizens yesterday and the day before, until The Citizen exposed his trick, is known, and he has given his name as "A. D. Davis."

In talking with a certain gentleman last night he (Davis) said that he had not secured an order for liquor since The Citizen had got among the people and the article about his misrepresentations had been read, and that he was coming around to this office to thrash some body for putting the people into his little scheme to secure money by misrepresenting facts.

A fellow answering the description given to us of Davis did call at this office last night, but after sizing up the editorial force he paid five cents for a copy of The Citizen containing the exposure of his trick, and left without committing any kind of an overt act.

He was a sensible man; or rather he knew better.

In any event, Davis has admitted that he secured some orders on liquor representation, by stating that he had "four and more car loads" of all kinds of liquors sidetracked at the local depot, and it is this fact that The Citizen desired more than any other to let the people know that the fellow was swindling them.

The article had the desired result, and Davis came to secure a living by dishonest means was effectually broken.

It is understood today that Davis now admits that he was in the employ of Rachechi & Glom.

A. J. Loomis, the deputy internal revenue collector, whose duty it is to watch for such fellows as Davis and see that he does not violate the internal revenue laws, is in the city, and is investigating the case. Mr. Loomis says if he can catch Davis for his misrepresentations and selling liquor without a license and thus prevent a repetition of such tricks in future, he will surely do so.

MELBOURNE MACDOWELL.

His Company Will Soon Appear Here in "La Toaca."

H. W. Copeland, who is the advance agent of the Melbourne Macdowell company, was introduced at The Citizen office last afternoon by Attorney David setting for Admiral Sampson. Mr. Copeland says the great Melbourne company is now playing in Arizona cities and meeting with great success. The company will appear here on Wednesday, December 13, and Mr. Copeland says the company consists of twenty-five people, many of whom were with Admiral Sampson in his successful tour through Mexico.

Macdowell as a leading man. The play here will be "La Toaca," in which Miss Stone, the leading woman, has been playing in stock companies in the west for several seasons and is considered one of the coming lights. The company is under the personal direction of Francis Willard, who was manager of the Davenport companies.

BOARD OF ALDERMEN.

Met Last Night and Transacted Lots of Business.

A batch of new bills was read by the clerk and referred to proper committees.

A resolution was introduced and passed authorizing Mayor Marron to deliver to the purchasers, A. W. Harris & Co., of New York and Chicago, the refunding bonds of the date of September 1, 1901. These new bonds are to redeem the sewerage bonds issued in 1896.

As manager of the C. Colombo hall, O. A. Matson communicated to the council regarding the license for house shows, and asking that the license be reduced. He presented the amount of such license in various other cities and towns, showing that it was higher here. The communication was referred to the finance committee.

On permits issued for water connections, the city marshal made his report, which was referred to the finance committee.

The regular monthly report of City Marshal McMillin for October was submitted, read and referred to the police committee. One hundred and forty-four arrests were made during the month, 377 meals served, and \$449 in fines collected, for which amount he holds the receipt of the city treasurer.

The reports of the city clerk and city treasurer were submitted, read and referred to the finance committee.

On the recommendation of the street committee, R. H. Greenleaf was granted permission to cut down certain trees on West Silver avenue, so he can comply with the city ordinance as to the construction of a cement sidewalk in front of his residence. The council granted the permission.

The street committee reported, recommending that cement sidewalks eight feet wide be laid on the north side of West Railroad avenue and on the south side of Gold avenue, between Fifth and Seventh streets. The recommendation was adopted, and the city attorney instructed to prepare an ordinance on the subject.

The city engineer was instructed to investigate and make report on certain sidewalk grades on West Gold avenue, beyond Fifth street.

The extra fire department horse will be dispensed of by a special committee to be appointed by the mayor. Street Commissioner Tierney was instructed to purchase necessary utensils for the cleaning of the sewer.

For damages resulting from the construction of the Coal avenue viaduct, the clerk was instructed to draw a warrant on the city of \$250, in favor of M. P. Stamm for \$250.

The council approved the bill of Morrison, Plummer & Co., of Chicago, for \$75.00, and a warrant was drawn for that amount.

Miss Julia Lee resigned as a member of the park commission, whereupon the mayor appointed her place. The vacancy would be filled by appointment to be announced later.

The council then adjourned.

SCHLEY INQUIRY.

Closing Arguments in Celebrated Case.

Sultan Yields to More French Demands.

St. Louis Woman Charged With Montana Bank Robbery.

RAILROAD ACCIDENT AT KANSAS CITY.

Washington, Nov. 7.—The Schley court of inquiry declined to grant the request made yesterday by Attorney David setting for Admiral Sampson. The court said that the remarks of Captain Parker concerning the fact that the Spanish battleship Colon lay in the harbor of Manila some hours after the arrival of the ship, were not in the record. Admiral Dewey, writing for the court, says that this action has been taken after careful consideration.

Judge Advocate Lemly today made the concluding argument in the Schley court of inquiry. There was no forenoon session, and the judge advocate did not have an opportunity to begin his address until 2 o'clock. He read from manuscript. The first half of the address was devoted to a consideration of points made by Harker and Capt. Parker in Schley's behalf and the latter half was a general review from the government point of view of the evidence.

Referring to the testimony of Schley and Captain Chadwick concerning the former's conversation with Admiral Sampson, at Key West, Lemly said: "I ask the court to apply to the applicant as a witness the well known rule referred to with a view to the senior counsel, that where two witnesses testify with regard to the same matter and one of them remembers and the other merely does not remember the circumstances of the matter, or let us say the conversation, the evidence of him who remembers must be accepted. If this be done, then there is little left of the evidence before this court by the applicant, particularly upon his cross examination."

At 3:42 p. m., Captain Lemly concluded his speech, and a number of charts were introduced as evidence, and the public sessions of the court came to an end.

Woman in St. Louis Charged With Montana Bank Robbery.

St. Louis, Nov. 7.—On information of District Attorney Rozier, United States Commissioner Gray this afternoon issued a warrant for Laura Bullock, the woman suspected of complicity in the Wagner, Montana, train robbery, charging her with having in her possession forged notes of the National bank of Helena. The federal grand jury will at once take up her case. The maximum penalty for the offense charged is fifteen years' imprisonment. Since death is the penalty for train robbery in Montana, the federal government is willing to let Loughbaugh, the man arrested here, be tried there.

Railroad Accident. wealth amounted to \$3,645,980, an in-
crease of \$1,110,461 over the corre-
sponding period in 1909. Of the ship-
ments this year only \$3,928,653 went
to Great Britain.

Reports from London demonstrate
a falling off in silver exports from
that city compared with the nine
months ending September 30, 1909.
The total decrease for the period
reads \$6,614,675, or 10.5 per cent.
where business is yet demoralized as
an effect of the war with Japan and
the recent home outbreak.

Federal judges who have been deal-
ing out injunctions so freely find that
perhaps after all they do not carry
an unclouded title to this country
and everything in it. An Anti-injunc-
tion association has been organized
which proposes to impeach such
judges on the ground of malfeasance
in office and unfitness for position.

ILLITERATE IMMIGRANTS.
The New York Tribune has made
some compilations from the report of
the commissioner of immigration at
the port of New York, which show
that the percentage of illiteracy
among the foreign immigrants is in-
creasing from year to year. The rate
of increase in the percentage of il-
literacy is startling. Of the 341,712
immigrants who passed through the
ports of Ellis Island into the United
States last year, 79,938 over school

Side druggists, corner of Third and

croup." For sale by all druggists.

L. E. & W. R. R., writes: "I have

relieved me. I gladly recommend it
to anyone, especially my friends
among the train men, who are so simi-
larly afflicted. Alvarado Phar-

PAPER CURRENCY.
Smaller paper money bills will
probably soon come into more com-
mon use, and may even compete with
silver dollars in the west. More than
\$140,000,000 of paper money by in-
fones now at work will be changed
from denominations above \$10 to that
size or smaller, says United States
Treasurer Roberts in his annual re-
port. This, he believes, will be of
great benefit to trade and commerce
in supplying the heretofore over-
whelming demand for notes of small
denominations.

In the fiscal year 1909 there were
issued 78,321,176 pieces of paper
money of the average value of \$6.34,
and the aggregate of \$995,545,000.
In 1901 the issues were 91,291,031
pieces averaging \$4.46 each.

"Arrangements are completed,"
says the treasurer, subject to gen-
erous action by congress, for putting
out notes and certificates with the
beginning of the calendar year 1902
at the rate of 35,000,000 pieces an-
nually.

The redemptions of national bank
notes during the year were the heav-
iest for twenty-two years, amounting
to \$147,486,677, an increase of \$59,
303,970 over 1909.

The people of New York have so
great a prejudice against silver dol-
lars that these coins are rarely used
there, one and two dollars being the
every day currency, and the supply of
these has become so worn and dirty
as to cause much complaint.

Whether the people out here in the
west will ever use paper money to
any great extent is at present an in-
teresting problem. They do not seem
to like it, and prefer to weight down
their pockets with cumbersome coins.

WAR OF EXTERMINATION.
The sanguinary war between Mex-
ico and the Yaqui Indians, which has
been in progress in southern Sonora
for two years, is likely to continue
indefinitely. As Kipling would say,
if you stop to think you will know
that this must be so. It is one of the
calamities of our times that the con-
stant slaughter cannot be stopped.
Humanity and civilization cry out in
vain, while the Mexican troops and
the blood thirsty Yaquis pursue each
other with a relentless war of exter-
mination.

The New Mexican says that one of
the editors of the yellow sheets in
this territory, who poses as a great
reformer and howls for pure and eco-
nomic government, pays no taxes at
all and has paid none for many, many
years. Another editor of a yellow
sheet of the same stripe pays on a
valuation of \$25, making his annual
taxes probably 75 cents per annum.
This is the stuff of which these great
New Mexico reformers are made.

From the Sun.
Neal Clark, son of E. S. Clark, had
a slight recurrence of appendicitis
last Friday. He is now in Albuquer-
que, under the care of Dr. P. G. Cor-

The opera house proposition is be-
ing encouraged by our citizens, and
Mr. Johnston, who has the matter in
hand, promises for Flagstaff a mod-
ern opera house. The town has long
since passed the hall period, and
needs a commodious opera house.

DIED LIKE A HERO.
A Record Left Behind by an Arizona
Gambler.
During the spring of 1882, when
Geromino's band was abroad in the
desert, John Knott, a professional gam-
bler, left Clifton with his wife and sev-
eral small children in a wagon for
Silver City. When they reached the
open mesa near Knott's ranch Knott
saw a band of Indians approaching
from the opposite direction. He knew
there was only one show for his fam-
ily to escape, and that was to take the
wagon and load and make a dash for
town toward town, and grabbing his
Winchester, he told his plucky wife
to drive for dear life. He jumped out
of the wagon, got among some rocks
and managed to stand the Indians off
for more than half an hour, which
gave the family a start toward
Clifton that the Indians did not fol-
low. On the following day the citizens
of Clifton visited the scene and
buried the body of the gambler at
Knott's ranch. The body was not iden-
tified, but the Indians, out of re-
spect for his bravery, refused to mu-
linate his remains. John Knott died a
hero and his name is spoken of to this
day by the old timers who remember
the circumstance, with profound re-
spect.—Copper Era.

Stuart Robson's Engagement.
Stuart Robson's immense revival of
Bronson's world famous com-
edy, "The Henrietta," which will be
seen at the Columbia hall tomorrow
night is the great feature of the pre-
sent dramatic season. It is now five
years since Stuart Robson, with his
convulsing creation of "Bertie, the
Lamb," and theatre-goers have de-
manded it again and again. Audiences
know that to Mr. Robson as "Ber-
tie" means to enjoy a hearty laugh,
and that Mr. Robson can always cause
them to laugh as no other comedian
can. Since "Bertie" was first con-
ceived, no other character has been
seen that combines so much humor
and human interest, and which is so
complete and interesting. The
complete and interesting play of
"The Henrietta" depicting the ac-
tive working of Wall street, the ex-
citing panic "on the street," the sham
of New York's newly made aristoc-
racy, the satire of the fad of Anglo-
mania, the reflection of New York
club and social life, show that the in-
terest of the play is not confined sole-
ly to Mr. Robson's role. A large sale
of seats betokens a crowded house.

Asleep Amid Flame.
Breaking into a blazing home, some
firemen lately dragged the sleeping
immature from death. Pinned secur-
ity, and death near. It's that way
when you neglect coughs and colds.

cough, persistent use the most stub-
born. Harmless and also tasting, it's

gists. Price 50c and \$1.00. Trial bot-

Sores, Boils, Blisters, Gums and Piles.

Williams Improving.
That the town of Williams is
blessed with a live and enterprising
council, is evidenced by the follow-
ing clipping from the Williams News:
"Williams is now enjoying the privi-
leges and benefits of an incorporated
city to the fullest extent. This week
thirteen electric lights were placed in
position on a many street corners
throughout the town, and it is need-
less to say they are a decided im-
provement. Seven more are to be
put up within the next few days."

A Great Medicine.
"I have been suffering from Colic,
Cholera and Diarrhoea Remedy and
find it to be a great medicine," says
Mr. E. S. Phipps, of Potosi, Ark. "It
cures all kinds of colic. I cannot
speak too highly of it." This remedy
always wins the good opinion, if not
praise, of those who use it. The quick
cures which it effects even in the
most severe cases make it a favorite
everywhere. For sale by all druggists.

That is the result of a course
of treatment with Scott's Emul-
sion. We have special refer-
ence to persons with weak
lungs and sensitive throats.

Scott's Emulsion does some
things better than others. This
is one of them. It has a pec-

lungs which gives them strength
and makes them tough.

That's how Scott's Emulsion
drives out coughs, colds and
bronchitis. It keeps them out,
too.

We'll send you a little to try, if you like.

and fall they held forth in a little
village at the Pan-American expo-
sition. They were contracted with by
representatives of the Philippine Ex-
hibition company of Philadelphia,
and Mr. Duncan was appointed as
manager to look after their wants,
both at the exposition and on their re-
turn to their native country. The vil-
lage, which covered six acres, was a
scene which attracted the attention of
hundreds of thousands of visitors, and
the entertainment given in the Phi-
lipino theater consisted of Oriental
magic, singing in the Tagalog language,
native dancing known as the Hora
Hote, music and pieces not allowed on
the island, which are known as the
March Aginaldo. In the company
were two Filipinos who were with
General Funston when he captured
the once famous insurgent leader,
Aguinaldo. Manager Duncan infor-
med the scribbler that his party of
engineers were delighted with their trip
to the states and that some of them
were so kindly treated here they asked
to be allowed to remain on this side
of the ocean, but their requests
were refused, as he was under con-
tract to return them to the island.
It is likely, however, some of them
will return to this country prior to
the opening of the Louisiana Pa-
chase exposition. The manager and
his company will reach Hong Kong
about December 6, and will arrive in
Manila three days later. Then the
Filipinos will reengage in the work
of silk weaving, making cigars, car-
pet brocade and tiling the soil. During
their stay in the states one of the
company, a woman, died in Buffalo
from quick consumption, and before
the party reached this city on their
return another woman became seri-
ously ill and her suffering was at-
tributed to tubercular germs.

Objects to Unionism.
The great Commonwealth mine at
Pearce, Ariz., has been closed down
because the miners organized a union
to which the superintendent was bi-
tterly opposed. All the workmen have
been paid off and the superintendent
declares that the mill will be allowed
to rust to pieces before union men
will be allowed to have a fly in the
affairs of the mine or mill. The men
are trying to effect a settlement with
the management and the action of
the superintendent may be overruled
by the stockholders who have their
money tied up in the property. Good
results have been had by the employ-
ment of union men where the man-
agement has conceded good treat-
ment to the employees and the hasty
action of the man in charge of the
Pearce property is to be regretted.

ALONG THE RAILS.

The new railroad well at the Gallup roundhouse is 525 feet deep. The water stands within fifty feet of the top. The railroad officials have not succeeded in breaking the freight block at Gallup. There are about three thousand cars tied up.

The Citizens are informed that the light traffic on the Santa Fe Pacific has increased to such an extent that the road is short of motive power.

W. A. Ensign, of Winslow, wishes to acknowledge receipt of money subscribed by the Santa Fe Pacific railroad employees for the purchase of an artificial limb, and also to thank all subscribers for their kindness to him.

C. G. Mason, who has been temporarily assigned to Gallup, is now relieving the popular agent, W. H. Mann, of Navajo Springs, who has taken his family for a trip to California, where they have many friends and relatives.

Charles Wiggett, formerly of the Gallup depot force and now superintendent of the timber treating plant at Bellemont, Ariz., met his parents and family at Bellemont, where they will visit with him for a month.

It is reliably reported that the Rock Island is this side of the Canadian and that the freight block is being taken to the rate of three miles a day. At that pace it will not be very long before we will have the Rock Island of the engine in close proximity to us.—Santa Rosa Public.

Oil is used for fuel on three hundred and twenty-five more of the Santa Fe Pacific engines than it was last winter. This means a decrease in the demand for Gallup coal. It is said that the engines running here will be converted into oil burners as soon as possible.

The preliminary hearing before Judge Ranney, of Williams, Gorton, Channing, W. Williams and John Barnes, charged with breaking the seal on a car, were bound over to appear before the grand jury in the sum of \$1,000 bail, of which they were taken to the county jail at Flagstaff by Deputy Sheriff Kennedy.

Aaron Bangle, who has been baggage-master at the Las Vegas depot, passed through this city yesterday for Prescott, Arizona, where he will take a position with Grant Bros. contractors, as timekeeper. His place in the baggage room will be filled by Mr. Seaman, who for some time worked in the Las Vegas yard office and then went to Los Angeles.

The Hartman syndicate, now controlling the Central Pacific railroad, is about to construct a great tunnel through the Sierra Nevada mountains, thereby shortening the road many miles and doing away with the snow sheds and the interruption of traffic encountered on the summit division. The tunnel will be twenty-one miles in length and will be tapped into shafts at intervals throughout its length. A tunnel boring machine will be used in the work and nearly five years will be taken to complete it.

Charles A. Fellows, of Topeka, has been awarded the contract for building the new Santa Fe freight house and office building at Colorado Springs. The cost of the building is estimated at about \$15,000. The new building will be 360 feet long, two stories high. The freight house will be 26x122 feet, and one story high. The buildings will be stone. The building of the freight house includes the construction of 450 feet of platform adjoining the freight warehouse.

Chicago, Oct. 23th, 1901.

MESSRS. HALL & LEARNARD, Albuquerque, N. M.
Gentlemen—Your favor under date of October 22nd is received and contents carefully noted. We have booked your order for the several plans to which you refer in that favor and in regard to this matter, we beg to say: owing to the very large increase in the demands made upon us we are having a good deal of trouble in making prompt shipments. Our business has grown much faster than we had anticipated and although we are constantly adding to our facilities and resources we find it absolutely impossible to keep up with our natural growth.
Strange to say this increased demand has come almost without any effort on our part either by advertising or otherwise. It has come in practically unlooked for and speaks volumes for the satisfaction which our piano must be giving wherever it has been placed.
We expect within the next few months to move into much larger quarters, after which we hope that we can give you and all of our other representatives prompt and more satisfactory attention.
Hoping this explanation for our recent tardiness will be satisfactory, we beg to remain, with kind regards,
Yours very truly,
CHICKERING BROS.
