SCHLEY COURT OF INQUIRY

It Has Refused to Grant the Request Made by Admiral Sampson's Attorney.

DECISION READ BY DEWEY

The Remarks of Captain Parker Concerning the Presence of Admiral Sampson and the Colon at Santiago Will Stand on the Record.

Washington, Nov. 7.—The Schley court of inquiry declined to grant the request made yesterday by Attorney Thall, acting for Admiral Sampson, that the remarks of Captain Parker concerning the fact that the Spanish steamship Colon lay in the harbor of Santiago some hours after the arrival there of Sampson, be stricken from the record. Admiral Dewey, writing for the court, says this action has been taken after careful consideration. Judge Advocate Lemly today made the concluding argument in the Schley court of inquiry. There was no forenoon session, and the judge advocate did not have an opportunity to begin his address until 2 o'clock. He read from manuscript. The first half of his address was devoted to the consideration of points made by Rayner and Captain Parker in Schley's behalf, and the latter half was a general review from the government point of view of the evidence.

Referring to the testimony of Schley and Captain Chadwick concerning the former's conversation with Admiral Sampson at Key West, Lemly said: "I ask the court to apply to the applicant as a witness the well known rule referred to with so much fervor by his senior counsel, that where two witnesses testify with regard to the same matter, and one of them remembers and the other does not remember the circumstances of the matter, or let us say conversation, the evidence of him who remembers must be accepted. If this be done, then there is little left of the evidence before this court by the applicant, particularly upon his cross-examination."

At 3:42, Captain Lemly concluded his speech, a number of charts were introduced as evidence and the public sessions of the court came to an end.

LONDON ENVELOPED IN A FOG

Sixteen Laborers Are Missing and Are Supposed to Have Walked from the Docks Into the Water.

THE MORTALITY HAS SERIOUSLY RISEN

London, Nov. 7.—The heavy fog which set in Tuesday and was partially dispersed yesterday, returned during the night. The Dutch mail boat Koenigin Regentia collided with the third-class cruiser Prosperine off Sheerness at midnight. The passengers and mails were transferred to the Prosperine and the mail boat beached. The mortality in London has seriously risen since the city is enveloped in a fog. Sixteen laborers are missing from the docks. It is supposed they walked into the water.

A MEETING OF DIRECTORS.

The Denver & Rio Grande System Elects Its Officers at New York.

Salt Lake, Nov. 7.—A special to Salt Lake from New York says: At a meeting of the directors of the Denver & Rio Grande system the following officers were elected: George J. Gould, New York, chairman of the board; E. T. Jeffrey, Denver, president; Stephen Little, New York, controller and secretary; J. B. Andrews, Denver, assistant secretary; J. W. Gilluly, Denver, treasurer; Jesse White, New York, assistant treasurer. J. B. Andrews' election applies only to the Denver & Rio Grande road, all the others to both the Denver & Rio Grande and Rio Grande Western.

A DIVIDEND DECLARED. New York, Nov. 7.—The directors of the American Cotton Seed Oil company declared the usual semi-annual dividend of three per cent on preferred and a dividend of two per cent for the year on common stock. Three and a half per cent was paid on the common stock last year.

THE JOINT DIRECTORS. New York, Nov. 7.—The joint directors of the Denver & Rio Grande and the Rio Grande Western railroads elected as chairman of the board, George J. Gould; president, E. T. Jeffrey; vice president and general manager, Russell Harding; secretary, Stephen Little; treasurer, J. W. Gilluly; assistant treasurer, Jesse White. J. B. Andrews was elected assistant secretary of the Denver & Rio Grande and W. F. Colton assistant secretary of the Rio Grande Western.

MARYLAND AND NEBRASKA.

The Democrats Carry the Former and the Republicans the Latter.

Baltimore, Nov. 7.—Returns from Cecil county, received today, show the election of two Democratic and one Republican delegates. It also appears Little, Dem., was elected in the first district of Baltimore. In the senate, the Democrats elected a majority of 9; and the gain of 3 members mentioned above, will give them a majority of 3 in the house.

BRYAN'S STATE STRONGLY REPUBLICAN.

Lincoln, Neb., Nov. 7.—Complete returns from 48 out of 90 counties give Sedgwick, Rep., 47,378; Hollenbeck, Fus., 42,375 votes. Nearly complete returns of nine other counties make Sedgwick's plurality reach the 10,000 of the regents of the university.

A POLITICAL CONTROVERSY SETTLED

Robert G. Houston Gets the Collectorship of Outposts for the District of Delaware.

Washington, Nov. 7.—The president today appointed Robert G. Houston collector of customs for the district of Delaware, ending the controversy prolonged several years owing to a deadlock between the Addicks and Dupont factions. Wm. H. Copper, whom Houston will succeed, was appointed by Cleveland.

THE BRAKENLAAGTE FIGHT.

The Boers Lost Forty-four Killed and a Hundred Wounded.

London, Nov. 7.—Lord Kitchener, cabling supplementary details of the recent fight near Brakenlaagte, Eastern Transvaal, says: The Boers lost 44 killed, including General Ippinger, and 100 wounded. The Boers got nothing beyond the guns. The Boer attack was easily repulsed until the arrival of Louis Botha with 600 men.

TECHNICAL ARGUMENTS.

The Contempt Proceedings Against the Chicago American.

Chicago, Nov. 7.—In the contempt proceedings against the editors of Hearst's Chicago American, Judge Haney today listened to arguments by Judge Shope, representing the court, and Ex-Governor Altgeld, representing the respondents. The arguments were technical.

THE CASE OF MISS ELLEN STONE

Great Chegrin Is Caused by the Leaking Out of Information Regarded as Secret.

THIS MAKES CASE HOPELESS

Consul General Dickinson Was to Have Kept Quiet the Fact That He Had Received a Letter From Miss Stone.

Sofia, Nov. 7.—Consul General Dickinson is greatly chagrined because the fact that he received a letter from Miss Ellen M. Stone leaked out. He said it is hopeless to expect the brigands to place confidence in the negotiators when they find information, which they regard as secret, constantly leaking out.

GREAT NORTHERN TRAIN ROBBERY.

A Warrant Has Been Issued for the Arrest of Laura Bullion.

St. Louis, Mo., Nov. 7.—On information from District Attorney Rozier, United States Commissioner Gray this afternoon issued a warrant for Laura Bullion, the woman suspected of complicity in the Wagner, Mont., train robbery, charging her with having in her possession forged notes of the National Bank of Helena. The federal grand jury will at once take up the case. The maximum penalty for the offense charged is fifteen years imprisonment. Since death is the penalty for train robbery in Montana, the federal government is willing to let Loughbaugh, the man arrested here, be tried there.

At 12:30 this afternoon a federal warrant was issued for the Montana robber suspect, who is thought to be Harry Longbaugh. He is charged with forging the signatures on the bank notes.

A FATAL COLLISION.

A Freight Train Runs Into a Trolley Car at Kansas City.

Kansas City, Mo., Nov. 7.—A Chicago & Great Western freight train ran into a trolley car at the James street intersection of the Kansas river, Kansas City, Kansas, early today, injuring six persons, two of whom may die. These are Roland H. Williams, conductor of the trolley car, and Charles Lawrence, aged 71, a passenger.

Another Iowa Bank Robbed.

Des Moines, Ia., Nov. 7.—The safe in the bank at Hinton, Iowa, was blown up by expert cracksmen this morning and \$1,500 secured.

THE GOOD WORK GOES BRAVELY ON.

People All Over Helping the Bureau of Immigration in Advertising New Mexico.

The applications to the territorial bureau of immigration in this city for information concerning the resources, etc., of the territory are becoming more numerous right along and are being promptly attended to. The railroads, commercial clubs, irrigation companies and other corporations are helping the good cause and many individuals are taking hold in the same line. Dozens of letters are being received daily by the bureau asking for printed matter and among these was one republished below, showing that the methods of the bureau have aroused a great deal of attention and are doing the good work intended. The letter is as follows:

Camp Frisco, Nov. 3, 1901. The Secretary Bureau of Immigration, Santa Fe, New Mexico.

Dear Sir: I write to see if you would send me some copies of the pamphlets prepared by your bureau on Bernalillo county. I am well acquainted in Philadelphia, it being my home until last February; also have quite a circle of friends in New Jersey and Atlantic City, and would like to get them interested in the territory, and believe the pamphlets will tell them better of the resources than I can write to them. Hoping you will favor me with a few copies, I remain yours respectfully, WALTER ALLOWAY. Algodones, New Mexico.

A \$100,000 MINE DEAL.

The Lead King and Other Claims in the San Andres Mountains Sold—Other Mine Notes.

W. S. Baker has returned to El Paso from New York where he closed a mining deal involving extensive mining interests in New Mexico. The deal involves the sale of the Lead King, the Lead Queen and the Salinas Peak mine in the San Andres mountains to the General Concentrates company of New York, of which Holmes and company, the New York bankers, are the fiscal agents. The properties are fully developed, the Lead Queen showing twelve feet of concentrating ore and hundreds of tons of ore on the dump. The cash payment is to be \$37,000 and the royalty payments will total \$60,000 to \$65,000. The Altamont Mining company at Jarilla, Otero county, is putting up a 25-horse power gasoline engine hoist. The company is also preparing to sink a shaft on the Joseph mine 600 feet deep, the shaft being down 175 feet at present and having at this depth a four-foot vein of high grade gold and silver ore.

The Manuvelito Oil company, in which Senator W. H. Andrews, of the Santa Fe Central Railway company, is a heavy stockholder, intends to commence boring for oil on its claims near Gallup, McKinley county, in the near future. Those interested in the claims will visit that section some time next week. Indications on the property are very encouraging.

ADMIRAL CAILLARD SEIZES CUSTOM HOUSE

He Has Landed Marines at Midilli on the Island of Mitylene off the Coast of Asia Minor.

OTHER POWERS APPROVE ACTION OF FRANCE

Paris, Nov. 7.—A dispatch from Admiral Caillaud has just been received announcing that he landed marines on the island of Mitylene this morning and occupied the customs of Midilli without resistance. The French government has received satisfactory replies from all powers to its note explaining the measures taken against Turkey.

MORE TURKISH CONCESSIONS. Constantinople, Nov. 7.—The Porte has conceded still further to French demands and notified M. Bapst, councillor of the French embassy, that authority has been granted to the French to build or repair sixteen churches, convents and church institutions.

ALONG THE EL PASO & NORTHEASTERN

One of the Most Prosperous and Promising Parts of New Mexico.

A representative of the New Mexican who has just returned from a trip to Otero and Lincoln counties is greatly impressed with the improvements that the El Paso & Northeastern railway is constantly making in its service and its efforts to build up the country tributary to it. At Alamogordo the company continues to make extensive improvements in its yards and about the pretty depot. It speaks of building a \$30,000 hospital and through the lumber company will erect a \$50,000 tie-preserving works. The town authorities are doing all in their power to make Alamogordo a beauty spot, a town good to live in and a town progressive in every direction. The school and church facilities are the equal of those of any city in the territory. A \$25,000 court house is being built and the new school building is the pride of every Alamogordo. The merchants carry large stocks and compete with El Paso in quality and price. Business houses like the Peoples' Brothers grocery store, Laurie and Frazier hardware dealers, The Jackson Galbraith company, builders and lumber dealers, and all the other stores, the Alamogordo Lumber company with its saw and planing mills, the First National bank as well as the offices of professional men show that Alamogordo has laid its foundation well for its permanency and future growth.

A few miles north of Alamogordo, the beautiful and well shaded town of Tularosa attracts many visitors. It is a town of homes, of orchards and of farms. Sweet contentment has made its home there amidst as picturesque surroundings, under as blue a sky and in as perfect a climate as is to be found in New Mexico. The new town company has laid out a townsite in a commanding location and Tularosa is certain to become a town of importance. The old town is a short distance from the new townsite, but it too, will always be a prosperous community on account of its good water supply and its grand scenic surroundings, fine climate and fertile soil.

It is but a short distance from Tularosa to Carrizozo where the El Paso & Rock Island railroad forms a junction with the El Paso & Northeastern. Soon the Rock Island trains from Chicago will awaken the echoes in the hills and mountains which have so long stood sentinels over that part of Lincoln county. The company is drilling for artesian water in that section and although water in abundance has been struck in several places, the wells are being sunk deeper in order to reach a still better supply. The well at Walnut is down 1,500 feet, and all the wells will be from 1,500 to 2,000 feet in depth.

Capitan is the present terminus of the El Paso & Northeastern railroad. The coal mines at this point are turning out over 300 hand cars of coal a day and between 150 and 200 men are given employment. The fuel company has laid out a pretty townsite, which was formerly known as Gray postoffice. It is situated in a romantic little valley surrounded by lofty cliffs and mountains, making it really one of the most picturesquely located towns in southern New Mexico. The people of the town are thoroughly progressive. Several good business houses accommodate a large trading territory. The Alamogordo Mercantile company has a large store where everything in the line of groceries and dry goods can be bought. E. B. Welch of El Paso, also maintains a large business house which carries furniture, hardware and groceries. C. M. Bryan, who formerly traveled for a well known wholesale coffee house of the east, is the manager. Mr. Bryan through his public spirit, his accommodating ways and his thorough attention to business, has built up a very large trade for the store.

Rev. S. L. Thomason, the new pastor of the Methodist mission, who arrived at Capitan two months ago from Weed, is working hard for the promotion of good morals and general prosperity in Capitan. When he arrived the congregation had only six members, today it has over thirty members and has raised several hundred dollars toward building a church. Mr. Thomason is now rustling among Texas friends to secure the amount still needed to put up a creditable church building. The services at present are held in an old school room.

Capitan is building a \$15,000 school house of which even Santa Fe might be proud. It is built of brick and will have all modern improvements. WANTED—We pay cash for clean cotton rags suitable for machine purposes. New Mexican Printing Co.

PUBLIC LAND STATISTICS

An Immense Domain in New Mexico Is Still Subject to Entry Under the Federal Laws.

TERRITORIAL SELECTIONS

The Drift Fence Evil in New Mexico Is Commented Upon by Land Commissioner Binger Hermann—Oil Lands Withdrawn from Lien Selection.

The annual report of Hon. Herman Binger, commissioner of the general land office, made public this week, contains many interesting statistics concerning New Mexico and adjoining states. In New Mexico the total of unreserved and unappropriated lands is 55,694,161 acres of which 41,105,508 acres have been surveyed. The area appropriated is 16,454,495 acres and the area reserved 3,835,181 acres. In the adjoining state of Colorado, the total area of unreserved and unappropriated land is 29,115,814 acres, of which all but 4,396,055 acres have been surveyed. The amount of reserved lands is 5,694,161 acres, the area now appropriated being 21,538,185 acres. The unappropriated and unreserved lands in Wyoming aggregate 47,656,896 acres, 42,769,587 of which have been surveyed. The area appropriated is 6,781,366 acres and the area reserved 7,995,018 acres.

Colorado, Wyoming, New Mexico and Utah contributed largely to the general increase in coal patents for the past year.

In New Mexico, twelve such patents were issued for 840 acres; in Colorado 36 patents for 3,239 acres; in Wyoming 22 patents for 2,743 acres. In addition in New Mexico 20 mineral patents were issued on 37 mineral claims, embracing an area of 707,639 acres. In Colorado 709 mineral and mill site patents on 1,304 claims were issued covering an area of 15,719,815 acres. In Wyoming there were four mill site and mineral patents on 10 claims covering an area of 844,357 acres. Under the head of Indian and miscellaneous patents, is found one item covering 105,565 acres in New Mexico. In New Mexico the territorial insane asylum secured 20,707 acres; the proposed miners' hospital 21,076 acres; the proposed reform school 21,320 acres; the school of mines 21,690 acres; the penitentiary 20,380 acres; the military institute 21,265 acres; the commission of irrigation 49,905 acres; the deaf and dumb asylum 20,674 acres; the normal schools 42,017 acres; the proposed institute for the blind 4,703; the university at Albuquerque 4,400 acres; the agricultural college 11,567 acres. Colorado did not fare so well for it only segregated 1,694 acres for its agricultural college and 12,722 acres for school indemnity lands.

In Wyoming charitable and educational institutions in general received 11,988 acres; public buildings 1,434 acres; the agricultural college 21,049 acres; miners' hospital 489 acres; deaf and dumb asylum 877 acres; school land indemnities covering a total of 47,989 acres. During the past year \$5,000 was allotted for public surveys in New Mexico, \$6,000 in Colorado, \$20,000 in Wyoming. The surveys executed in New Mexico embraced 837 miles of land lines, nearly one-half of which were upon boundaries of private land grants. The amount of agricultural land surveyed in Colorado and accepted was 284,403 acres, besides 193,175 acres not accepted. It is shown that 95,861 square miles of the state of Colorado have been surveyed which is 92 per cent of the area of the state. The amount of land surveyed in Wyoming was 470,068 acres.

Referring to lien sections in oil fields, the commissioner says: "The suspension heretofore made of townships alleged to contain valuable deposits of oil from disposition under the agricultural laws, and examination of the lands by special agent, have allayed to an extent the excitement heretofore existing caused by the supposed appropriation of these lands by the lien scrippers. These suspensions have been continued during the year and must continue until relief is obtained by legislation, the mining laws and regulations being inadequate to protect the bona fide prospectors who are spending their time and money in exploring for oil."

Attention is called to the law which strictly prohibits the erection of fences upon the public domain. Special agents of the land office are required to report every unlawful inclosure coming under their knowledge, to give persons notice to remove the same within 60 days, and in the event of their failure to do so, to promptly lay the facts before the United States attorney for action. During the year 24 such fence cases were reported, as embracing 273,530 acres of the public domain in Colorado. Ten of these fences were removed from 96,110 acres, upon proper notice from special agents, the remaining 14 cases, involving 177,420 acres, being laid before the judiciary. But one case, involving 920 acres, arose in Wyoming, and this was referred to the United States attorney. In New Mexico 83 cases reported, as including 1,930,485 acres of the public domain. Seventeen cases, covering 70,070 acres, were amicably adjusted, while the remaining 71 fences, around 1,859,415 acres, are left for the attorneys to deal with.

At the close of the fiscal year there were pending in the public lands division of the land office, 280 cases arising in Colorado, including 197 commuted timber culture entries, 50 original homestead entries, 9 final homestead entries, 12 mineral and coal entries, and sundry others of different classes. THURSDAY, NOVEMBER 7.

New Mexico Demands Statehood of the 37th Congress.

Of Right and in Justice New Mexico should Be a State.

"El Inimigo." And now even Spain has decided to stop the coinage of free silver.

A little less leniency and a few more bullets for the Bolshewik of Samar, General Chaffee.

The hotter they get the less success they have. This means the anti-statehooders in New Mexico.

Colonel W. Jennings Bryan is not as much of a friend of the laboring man as he lets on to be. He shaves himself with a safety razor.

Evidently the utterances of Mr. Bryan's paper, The Commoner, did not have much influence in Nebraska. That state went Republican last Tuesday.

The yellow sheets and the sorehead gang assert that they are going to make rabbit pie out of Governor Otero and his numerous friends and supporters in the territory. But right here comes the old saying: "First catch your rabbit."

On Tuesday last the Democrats carried the sovereign state of Mississippi. There was but one real ticket in the field and that was Democratic. Republicans in Mississippi dare not put up a ticket. There would have been too much promiscuous shooting around if they had. Comment is unnecessary.

Santa Fe correspondence, written right at home and appearing in an Albuquerque yellow sheet, assails the business methods and official proceedings of the territorial land commissioners. The writer of the correspondence evidently never gets nearer the truth than he does to the moon.

The New York newspapers during the past few days had lots of excitement on hand. There was the city campaign, the expected Vanderbilt baby, the news that Papa Zimmerman had paid the debts of his son-in-law, the Duke of Manchester, and several items of lesser importance.

The coronation exercises of King Edward VII will not be complete unless a couple of the editors of the yellow sheets of New Mexico will be present. Their monumental exhibitions of cheek, impudence, impertinence and ignorance if present would overshadow everything else at that ceremony. This glorious chance should not be lost.

Before election, Mr. Edward Gibbs Murphy, who ever he may be, declared openly that a Tammany oligarchy in New York City was the only regime fit for a gentleman to live under. On Tuesday last the voters of New York seemed to have taken Mr. Murphy's assertion as a huge joke and voted the other way.

Results tell. Immigration and capital are coming into New Mexico; new railroads are building in the territory; banks and business enterprises are being opened up; the mining industry is being more fully developed than ever before. The people are satisfied, that is the decent and honest people are. As for the rest they can howl. That is their privilege.

The crops in Kansas have been gathered and the farmers of the Sunflower state are now turning their attention to the adobe gold fields in western Kansas. The craze is at its height again and Kansas dream of fabulous wealth to be acquired on every acre of the alleged Kansas gold shale. But despite rosy reports there is more gold in Kansas corn than in Kansas shale.

William Dean Howells asserts that it is impossible for him to dictate fiction to his stenographer. That is where he differs with some of the members of the sorehead gang in New Mexico. It is as natural for them to dictate fiction, falsehoods and fabrications to their stenographers, directed against the territorial administration and against the good people of New Mexico, as it is to eat when they are very, very hungry. It comes easy to them.

Thanks to the good sense of the people and of the understanding of the voters nothing unpleasant happened to the Republican party on Tuesday last. To be sure Virginia and Mississippi went Democratic and Gorman will likely return to the United States senate as a Democrat from Maryland, but these minor occurrences were fully expected, and do not mar the general result of Tuesday's election. That shows full confidence in the Republican party and the present Republican administration.

The people of New Mexico by vast majorities ask Delegate Rodey to work against the passage of a national law, against the enactment of a bill providing for the construction of an international dam at El Paso and prohibiting the use of the waters of the Rio Grande by the people of New Mexico and against the reappointment of Governor General Quinby Vance. The citizens who worked and voted for him and secured his election as delegate to congress ask of him to do his level best to prevent these things.

The voters of New York on Tuesday last gave it to Tammany hall where Katt wears the necklace. Tammany deserved this fully.

A Tardy Tribute.

The war in South Africa leads the Boston Journal to point out a service to the nation performed by General Robert E. Lee, commander-in-chief of the Confederate forces, for which he has not yet received general credit. Charles Francis Adams of Massachusetts, recently paid a fervent tribute to the southern hero. Speaking of the surrender at Appomattox court house in Virginia of Lee's entire army, Mr. Adams says: "General Henry A. Wise counseled complete surrender, not for his own sake, for his spirit was unbroken, but for the sake of his hungry and wearied men. On the other hand, General Alexander, chief of artillery in Lee's army, favored a dispersion of the soldiers to their own states, and a policy of continued resistance. Alexander submitted his plan to Lee, who listened patiently, but said:

"No, Alexander, that will not do. You must remember we are a Christian people. We have fought this fight as long as and as well as we knew how. We have been defeated. For us as a Christian people, there is now but one course to pursue. We must accept the situation; these men must go home and plant a crop, and we must proceed to build up our country on a new basis. We cannot have recourse to the methods you suggest."

Johnston later, when urged by the bitter Davis to continue the war, took Lee's tone and followed his example. Mr. Adams' comment on Lee's wisdom and forbearance is:

"Recalling the circumstances of that time, it is fairly appalling to consider what, in 1865, must have occurred had Robert E. Lee then been of the same turn of mind as was Jefferson Davis, or as implacable and unyielding in disposition as Kruger or Botha have recently proved. The national government had in arms a million men, hured to the hardships and accustomed to the brutalities of war. Lincoln had been freshly assassinated; the temper of the north was thoroughly aroused, while its patience was exhausted. An irregular warfare would inevitably have resulted, a warfare without quarter. The Confederacy would have been reduced to a smoldering wilderness—to what South Africa is today. In such a death grapple the north, both in morale and in means, would have suffered only less than the south. From both sections that fate was averted."

The north would have had victory in such a case, but it would have been a victory won by defeat in open war. It would have been the ruin of both sections, and, instead of the united country, which Lee's wisdom gave, there would now be a group of exhausted and discordant states, divided along Mason's and Dixon's line by a Gulf of quenchless hatred. The north need not begrudge the honor that the south pays to Robert E. Lee. He was a terrible foe while the war endured, but peace showed him a patriot.

Farmers to Plant Sugar Beets.

Colorado people in furthering the establishment of the beet sugar industry in Colorado, have the same difficulty as the people of Eddy county experienced in furnishing beets for the plant at Carlsbad. That is, a lack of farmers who are willing to raise sugar beets. The crop pays well but it demands painstaking work, such as the average farmer with 160 or more acres at his disposal is not willing to do, for it is easier for him to raise other crops even though they do not pay as well. The Carlsbad people will solve the problem by bringing a colony of German sugar beet raisers to Eddy county in time to plant the crop and the Denver Republican advises the people of Colorado to solve the problem of furnishing raw material to the beet sugar factories, in a similar manner. Perhaps Santa Fe, Springer or Farmington could secure a beet sugar factory by working along these lines, for the promoters and builders of beet sugar factories merely ask that a sufficient amount of beets to keep the factory busy several months be guaranteed. The Oxnards will put up a plant at any place of as great a capacity as the promised sugar beet supply will warrant. Says the Denver Republican:

"The doors of Colorado are open for new settlers to come in and there is great need of farmers in the localities where sugar beets are grown. No more desirable class of people can be found than the Germans, especially those trained in the business of raising beets. Depressed business in Germany make conditions in that country peculiarly favorable for the work of immigration agents representing this state."

"The men who are trying to settle up the Arkansas and other valleys could not do better than to send agents to Germany to present the facts about Colorado agriculture. They can tell a pleasing and interesting story. An intelligent and well-informed agent could show people of German beet sugar districts the attractions of the Colorado climate, the suitability of both soil and climate for beet culture, and the advantages of beet production under irrigation. The results achieved by farmers in the vicinity of Rocky Ford, the heavy yield per acre and the high percentage of sugar in the beets, would all be matters of deep interest to those people in Germany who may be thinking of emigrating to the United States for the purpose of improving their condition."

"It would be practicable to start a movement of German homeseekers to the irrigated lands of Colorado in time to begin work next spring if the agent should be sent at once. Once started, such a movement would take care of itself. The first people who settled here would write to their friends in the old country and induce them to follow. There is no danger that the immigrants would be dissatisfied. The climate would charm them, and they would see before them the prospect of becoming financially independent."

"The opportunity for such a movement presented by the depression of business in Germany should not be neglected by men who desire immigration and are in a position to encourage it."

An Astonishing But True Story

"My home is in Sidney, Ohio. I have been nearer death with consumption than any other living person in the world, and I want you to read this, so you can tell others. I took a severe cold and neglected it. I grew worse all the time, and at the end of two years I had run into consumption. I coughed terribly, lost flesh, could not sleep, and became so dreadfully weak that I had to take to bed. In the following eighteen months I gradually reached the last stages of consumption. Not less than seven physicians treated me and all gave me up saying I was incurable. I was absolutely helpless. The whole family wore themselves out caring for me. One day mother and sister came to my bedside, and said I had but a day or two more to live. Tears rolled down their cheeks as they sobbed the news. The doctors had declared I was in the last stage, and no human being could save me. I was willing to die, but before going to the cruel grave, I wanted to go out and see my dear beloved town of Sidney once more. They told me such a thing was impossible—that I would surely die before I got back. But I insisted, and to gratify my dying wish, a carriage was fitted up with a bed of pillows, and to this I was carried and slowly driven around Court House Square. I got home more dead than alive. Through the mercy of Providence, someone brought a trial bottle of medicine said to be a consumption cure. No one imagined for an instant it was worth trying. But as a drowning person grasps at a straw, so I tried this medicine. I was better after taking two doses. Mother got more of the medicine and I took it, improving all the time. Today I am as well as any reader of this paper, and the medicine that cured me was Acker's English Remedy for Consumption. I declare before God and man that every word here printed is true."

GRAZING ON FOREST RESERVES

It Is One of the Questions That Will Be Discussed at the Annual Convention of the National Live Stock Association.

THE VIEWS OF THE FORESTER FOR THE GOVERNMENT

The secretary of the National Live Stock association has sent out the following circular which deals with one of the important questions to come up before the convention of that association at Chicago, commencing on December 3, and to which every county in New Mexico should send a full quota of delegates:

The matter of grazing stock on government forest reserves has for some time been the cause of considerable friction between stock growers and government officials. Until within the past two years the department of interior has prohibited the grazing of herds, especially sheep, upon these reservations, but upon representations made by the officials of the National Live Stock association this order was modified so as to permit grazing, under certain restrictions. The president of the association has had considerable correspondence and an extended personal interview with Hon. Gifford Pinchot, forester for the government, with a view of devising some plan by which this trouble can be justly and amicably settled. After giving it thorough study, he has submitted to the association his ideas, subject to modifications. Mr. Pinchot will deliver an address upon this subject at the annual convention of the association, which will convene in Studebaker's theater, Chicago, on December 3. It is hoped that every livestock man who is interested will be present and give his assistance. If it can be satisfactorily settled it will be of immense value to every western stockman.

The following are his suggestions: "My Dear Sir: In reply to your letter of September 3, following our conversation in Denver, it gives me much pleasure to send you the following brief statement of the way I think the grazing question in the forest reserves can best be handled."

"The central idea of this plan is that of co-operation between the government and the grazing interests in securing the best management and bringing about the best condition of the range. It may be summarized under the following heads:

"1. The government, through its forest officers, after consultation with the representatives of the various interests involved, to decide on the number of head to be grazed in each forest reserve, or each subdivision of a reserve, and to establish the boundaries between cattle range and sheep range."

"2. The local associations to assign ranges to owners within the limits thus laid down, subject to official approval."

"3. Both owners and local associations to be held responsible for the observance of the terms or permits and the prevention of fire and over-grazing."

"4. Each sheep owner to have the exclusive right to his range, and the same to apply within reasonable limits to groups of cattle owners."

"5. Permits to run for five years."

"6. Residents to have precedence in all cases over tramp owners and owners from other states."

"7. Local questions to be decided on local grounds and on their own merits in each separate case."

"8. Since the forest reserves are usually summer ranges, provision to be made for necessary routes of transit."

"9. The policy of the government to be based on regulation rather than prohibition, except in special cases, to be understood that the avoidance of over-grazing is equally in the interest of all parties."

"These provisions seem to explain themselves, and perhaps need no further comment. Their object, and I believe their result, would be to bring about hearty co-operation between the officers of the government and the stockmen, for the best interests of both, through a more intimate association and a better knowledge on both sides. It would lead to the equitable distribution of rights to the ranges by the stockmen themselves and prevent monopolies and the unfair exclusion of new men. It would give each owner a direct interest in keeping his range in good condition, through his exclusive right on it for five years, with probable renewals. Taken all together it would, I believe, lead to a thoroughly satisfactory adjustment of the whole question."

NEW MEXICO PROSPERITY.

A Prominent Roswell Citizen Interviewed at El Paso.

El Paso Herald.
W. S. Prager, a prominent sheep raiser and businessman of Roswell, N. M., is at the Sheldon. In a talk with a Herald reporter, Mr. Prager discussed industrial, political, and social conditions existing in his territory.

"Our territory," he said, "is rapidly improving every year. I am interested largely in agriculture and sheep raising. I think there are great possibilities in these industries in New Mexico. There are now probably 5,000,000 sheep in the territory, and at a very conservative estimate, I think they are worth fully \$10,000,000. This you will readily observe, makes the business an important one."

"There is also a great deal of farming around Roswell. Of course irrigation is depended on entirely, and by that means we have transformed an arid country into waving fields of grain and grass, fruit and flowers. I am a great advocate of irrigation. I think a man is blessed who has to depend on it for crops. By that means one gets water when one wants it, everybody can be pleased. My neighbor, for instance, can water his orchard or his strawberry crop, while my hay can lie on the ground with impunity and cure in the brightest sunshine. The agricultural interests of the territory are varied and valuable, and are rapidly expanding."

"The fight for statehood is progressing splendidly and we are confident of victory in the near future. The admission of this great territory into the sisterhood of states will push it forward in the industrial procession. We all think it is entitled to this distinction. It has the population, wealth and possibilities to make a great and glorious state."

"As it is we are proud of our position before the world. Our cities are

DR. TAFT BROS. MEDICINE CO.

Gentlemen: I write this testimony from a sense of duty, having tested the wonderful effects of your Asthmalene for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past twelve years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your window on 130th Street, New York. I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully,

O. D. PHELPS, M. D.

A WORTHY SUCCESSOR.

"Something New Under the Sun." All doctors have tried to cure Catarrh by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of Catarrh, has at last perfected a treatment which when faithfully used, not only relieves at once, but permanently cures catarrh, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "Snuffles the Guaranteed Catarrh Cure," and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"Snuffles" is the only perfect Catarrh Cure ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently, and is also wonderfully quick to relieve Hay Fever or Cold in the head.

Catarrh when neglected often leads to consumption—"Snuffles" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure Catarrh in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "Snuffles" the "Guaranteed Catarrh Cure."

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dr. D. H. Edwin B. Gile & Company, 2330 and 2332 Market Street, Philadelphia.

"Our milk," urged the agent, "is sterilized."
The housewife laughed scornfully. "There is a lot of foolishness about sterilization and all sorts of health precautions these days," she said. "I don't take any stock in it myself. Our ancestors didn't resort to any such methods."

This is the recent decision of one of the prominent societies of the world, and while there may be a few people who will believe this prediction, there are thousands of others who not only believe but know from experience that there is only one cure for all stomach, liver and bowel complaints, and that is Hostetter's Stomach Bitters. It has been very highly recommended by prominent physicians because it has always been found reliable. We urge those who are suffering from indigestion, dyspepsia, constipation, flatulency, nervousness or insomnia to give it a fair trial. Do not accept a substitute. MIS WEAKNESS.
The mother was in a state of mind over her first born.
When the father arrived, he having returned from his daily labor, he found the mother in tears.
"Oh, William," she wailed, "William says he wants to be a pirate!"
"Don't let that worry you," was the consoling reply. "When I was his age my ambition was to be a policeman."

Professional Enthusiasm.
"But why," said the old practitioner, looking at the patient, "did you carve him up to such an extent?"
"Because," replied the young practitioner, without hesitation, "I had the chance to do it."—Chicago Post.

TO THE PUBLIC.
Allow me to say a few words in praise of Chamberlain's Cough Remedy. I had a very severe cough and cold and feared I would get pneumonia, but after taking the second dose of this medicine I felt better, three bottles of it cured my cold and the pains in my chest disappeared entirely. I am most respectfully yours for health, Ralph S. Meyers, 64 7th St., Wheeling, Va. For sale by all druggists.

The Intricacies of It.
"Why didn't you study the time table, and then you wouldn't have missed your train?"
"That was the trouble. While I was trying to translate the timetable the train pulled out."—N. Y. World.

MODERN SURGERY SURPASSED.
"While suffering from bad case of piles I consulted a physician who advised me to try a box of DeWitt's Witch Hazel Salve," says G. F. Carter, Atlanta, Ga. "I procured a box and was entirely cured. DeWitt's Witch Hazel Salve is a splendid cure for piles, giving relief instantly, and I heartily recommend it to all sufferers." Surgery is unnecessary to cure piles. DeWitt's Witch Hazel Salve will cure any case. Cuts, burns, bruises and all other wounds are also quickly cured by it. Beware of counterfeits. Ireland's Pharmacy.

On the Verge of Collapse.
"I say, boss, have pity on me," said the tramp, accosting a gentleman on the street; "let me have a dollar, with yer, I haven't drawn anything but a sober breath for a week."—Yonkers Statesman.

JUMPED ON A TEN PENNY NAIL.
The little daughter of Mr. J. N. Powell jumped on an inverted rake made of ten penny nails, and thrust one nail entirely through her foot and another one half way through. Chamberlain's Pain Balm was promptly applied and five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual and with absolutely no discomfort. Mr. Powell is a well known merchant of Portland, Va. Pain Balm is an antiseptic and heals such injuries without maturation and in one-third the time required by the usual treatment. For sale by all druggists.

PLAYED OUT.
Dull headache, pains in various parts of the body, sinking at the pit of the stomach, loss of appetite, feverishness, pimples or sores are all positive evidences of impure blood. No matter how it became so, it must be purified in order to obtain good health. Acker's Blood Elixir has never failed to cure Scrofulous or Syphilitic poisons or any other blood diseases. It is certainly a wonderful remedy, and we sell every bottle on a positive guarantee.

Good Health

Is doubtless the highest human good. It is especially so to women, to whom it means the preservation of beauty, happiness in the home, and the enjoyment of social duties. There can be no good health for any woman who suffers from womanly diseases. Her complexion falls, her flesh loses its firmness, her eyes are dull, she has no home happiness, no social enjoyment.

Doctor Pierce's Favorite Prescription cures the diseases which destroy the health. It establishes regularity, drives out the impurities, heals inflammation and ulceration, and cures female weakness. It gives good health to women, which means tranquil nerves, a good appetite and sound sleep.

"I was a great sufferer two years ago with female trouble and I wrote to you for advice," says Mrs. Mattie Hays of Tribulation, McDonald Co., Missouri. "You outlined a course of treatment for me. I followed your directions, and now feel like a different person. I never expected to hear from you again. I took twenty dollars worth of the Favorite Prescription, and 'Golden Medical Discovery.' I bought it five dollars' worth at a time and sold four vials of Dr. Pierce's Pellets. I would not take one thousand dollars for the good medicine has done me. I can't praise it enough. I wish all who suffer with such troubles would give Dr. Pierce's medicine a fair trial. I can work all day—doing anything, walk where I please, and feel good. Many thanks to you for your kind advice."

Dr. Pierce's Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

"What did you send back that book to the library for?"
"Why, you told me you weren't going to finish it."
"True. But I wanted to read enough in it to talk about."—Judge.

Gold in the Black Hills.
The Burlington Route has recently issued a 48 page booklet bearing the title "Mines and Mining in the Black Hills." The book is one which should be read by every mining man in Colorado. It gives more information about the mines of the Black Hills than has ever before been placed between two covers. A copy will be mailed free on application to the undersigned.

The Black Hills need Colorado men and money. Several of the shrewdest men in this state have already invested heavily in the Hills. The results so far have been more than satisfactory. The completion of the Burlington's new line to the Northwest brings the Black Hills within a night's ride of Denver. You can leave Denver tonight and be in Deadwood or Lead City tomorrow afternoon.

Palace: H. S. Bennett, New York; Karl F. Kraft, Chicago; C. A. Carruth, J. Law, Antonio; William D. Knight, St. Louis; Mrs. Upton Hayes and babe, Las Vegas; M. Well, St. Louis; Clay Whitely, Indianapolis; K. Wheeler, Las Vegas.

Probate Clerk Manuel Delgado today recorded a deed by J. B. McAfee and Anna R. McAfee to Frederick North, for lot No. 9 at Cerrillos, consideration \$1; and a deed by F. A. North to J. L. Wells, for lot No. 9 at Cerrillos, consideration \$5.

Fourteen Pueblo Indians, bound for Laguna, passed Lamy on the Santa Fe train yesterday. They had been at the Pan-American exposition at Buffalo for the past six months. One of the bucks said that Buffalo is a fine town, but that there are too many people there for perfect comfort.

The city marshal of Albuquerque reported to the city council of that city last evening that during the month he turned over \$49 to the city treasurer for fines collected during the month of October. The city of Albuquerque has a revenue of something like \$5,000 a year from fines collected, or almost as much as the city of Santa Fe collects from all sources. This is not to say that Santa Fe is so much more sober or moral, but that fines are not collected and turned over in a systematic way.

PERSONAL MENTION

A. Boon and Clara Boon of Gloria, are visitors in Santa Fe today.

Rev. W. A. Cooper returned last evening from a visit to Espanola.

Mrs. Upton Hayes and babe of Las Vegas, are visitors in Santa Fe.

THE OPERA HOUSE PROJECT.

A Well-Attended Meeting of Citizens Last Evening Discussed the Project.

A well attended and enthusiastic meeting of citizens was held last evening at the Board of Trade rooms on Palace avenue to meet M. B. Curtis, "Samuel of Posen," of New York, and to discuss with him the project to build an opera house or theater at Santa Fe. Mayor Amado Chavez presided over the meeting, and A. B. Renahan, Esq., was chosen secretary. Mr. Curtis explained the project. If Santa Fe furnishes a suitable site he will build an opera house to cost at least \$15,000 and which is to be one of a circuit to include the towns of La Junta, Trinidad, Raton, Las Vegas, Santa Fe, Albuquerque, Gallup, Winslow and Flagstaff. At Albuquerque he had secured a site facing the new railroad hotel at an annual rental for twenty years of \$1. The ladies of Albuquerque, however, objected to a site so far down town and have offered to buy the San Felipe hotel site for \$7,500 to donate to him for a building site. Albuquerque people had also subscribed \$6,000 for the opening night performance.

After Mr. Curtis had concluded, the following committees were appointed: Finance, Judge A. L. Morrison, J. D. Sena, T. J. Helm, A. C. Ireland, S. G. Cartwright and A. M. Bergere. On site: Dr. J. M. Diaz, I. Sparks, H. B. Cartwright, A. Seligman, Colonel George W. Knaebel, Grant Rivenburg, and A. B. Renahan.

The committee on site met this forenoon at the office of Colonel George W. Knaebel, and afterward escorted Mr. Curtis to a number of available sites. The finance committee will meet this evening at 7:30 o'clock. After the meeting, Mr. Curtis, delighted his audience with a number of humorous and pathetic selections which showed that he has lost none of the dramatic fire which made him famous as "Samuel of Posen" on the stage.

Selecting an Opera House Site.

The committee of citizens on an opera house site, this forenoon accompanied M. B. Curtis about the city looking up a number of available sites for the proposed theater. The site spoken of at first, on Don Gaspar avenue, opposite Closson's livery stable and near the capitol building, was eliminated and the choice narrowed down to the following sites: The site at present occupied by the Exchange hotel at the southeast corner of the plaza; the corner of San Francisco and Bridge streets, partly occupied by David S. Lowitzki's furniture store; a site on lower San Francisco street, across from Leo Horsch's wholesale grain and feed store; a site adjoining the Palace hotel on Washington avenue, and a site opposite the Loretto academy on College avenue. The committee was in session this afternoon at 4 o'clock to make a final selection as to site.

WHERE IS EDITH?

The Colorado-New Mexico Survey Now Places It in Rio Arriba County.

A Durango dispatch to the Denver papers say:

Charles A. Johnson, state commissioner of the southern boundary, or Colorado-New Mexico survey, reported that Surveyor Burwell completed the line through Edith yesterday. The line cuts through Edith, leaving Ed. Biggs in Colorado, by a scratch, and depositing the Republican candidate for sheriff, Mr. Bradt, some 400 feet in New Mexico, thus knocking him out in advance of election, and dropping Editor Eggers, Democrat, in as sheriff. The line, as surveyed, will be approved both by the federal and state authorities, and it is no surprise to the men who have had charge of the work both here and in Washington, as it has been evident to them that Edith was, as a whole or in part, in New Mexico.

Special to the New Mexican.

Aztec, New Mexico, Nov. 5.—Steps are being taken in this county to close up the right of way permits along the surveyed line of the Colorado and Gulf or Durango, Aztec and Clifton railroad in the Rio Arriba Valley. Several big sales of valuable ranch properties have been made within the past ten days. The Colorado Telephone company is distributing telegraph poles along its line from Durango to Farmington and the actual work of construction of the line from the Colorado town via Aztec to Farmington will begin at once.

Will Bring Colonists to New Mexico.

It is announced by the Chicago, Rock Island and Pacific railroad company, that its New Mexico line from Liberal, Kansas, to El Paso, Texas, will be opened early next year. The line is 542 miles long and is the shortest route from Chicago to the border of Mexico. The line opens a vast area which has heretofore had no railway advantages. The next movement of the Rock Island will be in the direction of colonization of the new territory.

OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Barrancas Station, on the Denver & Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis and Mercurial Affections, Scrofula, Catarrh, Le Gripe, all Female Complaints, etc. Board, Lodging and Bathing, \$2.50 per day; \$14 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 10:08 a. m. and reach Ojo Caliente at 5 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7.
