Inquiry Rapidly Approaching the Close.

Democrats Open the Campaign in Ohio.

Southern Pacific Passenger Train Held Up by Highwaymen.

think we'd better close in a little. The commodore replied: "No, don't you see that point ahead? Just as soon as that fellow starts to come out, I'm going to head him off. I'll get him yet. Damn him, I'll follow him to Spain if I have to." Thirteen minutes were received with applause, but the demonstration was quickly suppressed by Admiral Dewey.

Democrats Open Ohio Campaign. Bucyrus, Ohio, Oct. 23.—The democrats formally opened the state campaign here today with excursions from all parts of the state and a large attendance. This city was founded by the grandfather of Col. James Kilbourne, democratic candidate for governor, and was selected for the opening demonstration on that account. The speakers included Col. James Kilbourne, Anthony Howells, candidate for lieutenant governor, Mayor Tom L. Johnson and Charles W. Baker, candidate for United States senator.

TRAIN ROBBERY. Bandits Hold Up a Southern Pacific Passenger Train. Eugene, Ore., Oct. 23.—The north-bound Southern Pacific overland express, due here at 1:42 this morning, was held up by robbers near Walker's Station, fifteen miles south of here, at 3 o'clock this morning, and the express car badly damaged, but the booty secured by the robbers amounted to little.

Two men boarded the train at Cottage Grove, climbing on as the train pulled out. After passing Walker's, four miles from Cottage Grove, they climbed over the tender and covered Eugene Jack Nichols, the fireman and helper. The train was stopped, after which the fireman and helper were ordered to uncouple the train between the express car and the first coach. Engineer Nichols was then ordered to pull ahead, the fireman and helper being left behind. After going a short distance, the train was stopped and the robbers proceeded to the express car, taking with them the engineer.

The express car was blown open with dynamite. The express messenger, C. Charles, was ordered out, but refused and with a shot gun commanded the situation inside the car. The robbers ordered him to come out or be blown up with the car, but he responded: "Blow me if I do." The car was riddled with rifle bullets, which did not harm him, and he kept up a continuous fire from inside, which held the robbers at bay. A charge of dynamite was then thrown into the car with a burning fuse, but Charles grabbed it and threw it outside, where it exploded. Next the robbers compelled the engineer to crawl up to an opening inside the car, hoping to use him as protection from the messenger's bullets, but the messenger kept up a steady fire over the engineer's head, and still held the robbers at bay. The robbers then gave up the task of securing the express treasure and went for the mail. They secured the registered mail, but the messenger came out from the rest of the train and ordered Engineer Nichols to pull ahead. They ran to Jukin's Point, in the outskirts of Eugene, where they disembarked and ordered the engineer to return and get the train. The train arrived here at 7:30, about four hours late.

News was wired from Saginaw and officers were out in search of the robbers early this morning, but as yet have secured no trace of them.

Lost Their Lives. Deadwood, S. D., Oct. 23.—Three men lost their lives in the Holy Trinity mine at Keystone last night, from foul air. They were Lew Crother, Andrew Miller and Peter Pohlen. The machinery failed to work.

Samar Insurrection. Washington, Oct. 23.—Admiral Rodgers has called the navy department to his attention on the flagship New York at Catbalogan, Samar, with marines, to cooperate with the army in suppressing the insurrection.

THE NEW OPERA HOUSE. To Be Erected and Opened to the Public in a Few Months.

Ever since President E. P. Ripley signed the plan for an opera house site, Actor M. B. Curtis and Architect C. F. Whittlesey have had their heads together formulating plans which will be carried in the construction of a handsome opera house in this city. The gentlemen have decided on a few changes on the original plans for the interior. Mr. Curtis is very desirous of getting to work on the new opera house, and the present force of assistants in Architect Whittlesey's office is already overwhelmed with work, and it would be some time before they would be able to give their attention to the new opera house, so Mr. Whittlesey has concluded to go to Chicago tonight to get another architect, who will be assigned to this work of specifications on the theatre building.

Immediately after the specifications are completed, the excavations for the foundation will be made and then the actual work of construction will begin. It is the intention of Mr. Curtis and Mr. Whittlesey to have the building completed and opened to the public long before the expiration of the present theatre's season. A block of ground has been leased by the railroad company, and this site

ended, lively music began and a so-
cial dance was engaged in by the
guards and their lady friends, which
continued until a late hour.

T. C. Mason, a first class barber,
has accepted a position at the Hahn
barber shop on Railroad avenue. Mr.
Mason was recently visited in mar-
riage to Miss Marie Tranter, a school
teacher of Los Corrales, the cere-
mony being performed by Rev. Bun-
ker, pastor of the Lead Avenue Meth-
odist church.

Two well known fair officials, not-
ably President Marron and B. Ruppe,
the superintendent of the floral hall,
were compelled to remain at home
several days after the fair, on ac-
count of too much rushing work last
week. The president showed up this
morning, but Ruppe is still absent
from his store.

President Ripley and his party of
railroad officials made a trip of inspec-
tion through the local shops Mon-
day and were highly pleased with ap-
pearances and the progress of it
from the old to the new buildings.
The new additions are being com-
pleted as rapidly as the arrival of the
material will permit. A large portion
of the machinery has been transferred
from the old to the new buildings,
and by the time the builders have
finished their labor the machinery
will all be in place for immediate use.
