## HEALTH OF ARMY.

### Surgeon General Sternberg's Report.

### The Schley Case Will End in November.

### Miss Stone Still Held by the Bulgarian Brigands.

### CHICAGO BROKER COMMITS SUICIDE.

Washington, D. C., Oct. 11.—Surgeon General Sternberg in his annual report to the secretary of war, says that the health of the army has been unusually good during 1900.

The deaths amounted to 8.75 per 1,000 of strength, as compared with 30.58 per cent the previous year, disease occurring in 2.36 per cent of the deaths, the principal cause being dysentery. The data from injury amounted to 8.42 per cent. The death rate in China was large, 47.76 per 1,000 of strength; 2.62 from disease and 24.14 from injury.

The health of the troops in the Philippines has been steadily improving.

Mr. Sternberg says: "The steady decrease of late years in admissions to the hospitals for alcoholism among the men of the regular army is a matter for congratulation. Military officers may be said to be unanimous in the opinion that this in many cases is the result of the establishment of the post exchange, or canteen, at the military posts."

Reporting on the study of yellow fever by the board in St. Louis, Sternberg says that the surgeons are now in possession of knowledge which enables them to stamp out yellow fever.

**Held for Ransom.**

Washington, D. C., Oct. 11.—The state department has heard again by cable from United States Consul General Dickinson and Secretary of Legation Edly, touching the progress of the negotiations looking to the release of Miss Stone. None of the details are made public. The conditions are now in such a reassuring as was expected yesterday.

**Committed Suicide.**

Chicago, Ill., Oct. 11.—George Ranken, a prominent board of trade member, a partner in the commission firm of John Ranken & Co., committed suicide at his park today. The act is attributed to grief over the death of his wife three years ago.

### SCHLEY INQUIRY.

### It May End Sometime This Year, Probably in November.

Washington, D. C., Oct. 11.—Lieutenant J. H. Holden, Captain Chadwick, Adjutant General's staff, chief of staff during the war with Spain; Lieutenant Commander C. C. Marsh; Lieutenant E. L. Bennett, who served on the flagship New York; Lieutenant Adolph Althaus, of the Massachusetts; Lieutenant Francis Bourke of the Marblehead, and Lieutenant William H. Reynolds, signal officer on the Schley case today.

Captain Lemly had supposed he would be able to conclude the government's side of the case by the close of the week, but now finds that he will have to continue the greater portion of the first half of next week. Rayner estimates that the court will not conclude its work before the middle of November.

Lieutenant Adolph Althaus, formerly watch and division officer of the battleship Massachusetts, detailed the movements of that vessel in connection with the flying squadron on the day of the bombardment of the Cristobal Colon. He had been in charge of the search for the ship of the Massachusetts.

Asked what was developed as to strength of the land batteries by this reconnaissance, he said that to his mind it was shown that they were very weak.

Lieutenant P. G. Dewey, nephew of Admiral Dewey, who was watch officer of the Massachusetts, was the next witness. He placed the blame of the blockading line under Commodore Schley from the mouth of the harbor at five to eight miles, both day and night. There was, he said, no particular formation of vessels.

He said in reply to questions that the Spanish shore batteries had not given the American ships much trouble on the occasion of the reconnaissance to try to sink the Colon.

Lieutenant Francis Bourke, watch and division officer on board the Marblehead during Commodore Schley's block-

side of Santiago, said that the Marblehead and Vison were on picket duty between the shore line and the line of blockade, the Marblehead being stationed three miles from shore and to westward six miles from the shore. He would not attempt to say how far outside the squadron was, but he could not see the ships after nightfall.

Captain Chadwick, Sampson's chief of staff, recalled the conversation he heard between Sampson and Schley at Key West, in which Schley told the admiral that he would be entirely loyal to him.

Team Which Will Represent this City in the Fair Tournament.

After much hard work Manager McGaffey has been successful in securing for this city probably the best base ball team which has ever played in the territory. Following are the names and some of the records they are credited with:

Frank Chance, catcher, of the Chicago National league team, is the mainstay of that team behind the bat and in the league this year in stealing bases, as well as being a hard and timely hitter.

Roy McDermott, change catcher, is of local fame with a bright future in baseball, and is considered the best man in that position in the southwest. El Paso was very anxious to secure his services.

Thos. Hughes, pitcher, Chicago National league, is considered one of the big league stars. About one month ago he pitched his team to victory over Boston in a seventeen inning 1 to 2 game, the greatest of recent years.

Vaddell, the only and original "Rube" pitcher, Chicago, is probably the greatest southpaw alive and has won many notable victories.

Jack Powell, pitcher, St. Louis, is a giant in stature, and has a great record in the big organization.

Cristy Mathewson, pitcher, New York, made the wonderful record of winning ten straight games this year, with an average of about three hits against him.

McDann, first baseman, St. Louis, is a star at the initial bag, and is noted for his hard hitting. He is a Kentuckian by birth, coming from the blue grass town of Shelbyville.

Vorhes, second base, is a local player, who has a bright future, and is today considered by many to be the equal of many second basemen in the big leagues.

Dexter, third baseman, Chicago, is a fast man, a good hitter and excellent base-runner.

Van Halteren, center fielder, New York, is among the first fifteen hitters in the National league and is one of the greatest fielders in the business.

Green, right fielder, Chicago, is also among the first fifteen hitters in the National league, and like Van Halteren, is a star outfielder.

Of the foregoing players, Rayner, Chance and Hughes came in last evening. The balance will arrive tonight and tomorrow night.

On Sunday afternoon these players, with several local players, will be seen in an exhibition game. There will also be several races between the Innings.

**UNITED STATES GRAND JURY.**

Calling Witnesses to the Stand to Testify in Maglio Case.

Harold R. Smith, son of a Philadelphia banker, who owns a fine cattle ranch in Grant county and who is the principal witness for the prosecution in the Antonio Maglio conspiracy case, passed through this city today from Las Cruces to his old home in the Quaker town. He says the United States grand jury has been empaneled at Las Cruces and is at work on several cases. He was called on to make a statement of the conversation he had with Maglio a few months before the assassination of President McKinley. In which the man declared he was an anarchist in principle and prophesied the death of the nation's chief executive before October 1, 1901.

Mr. Smith stated this morning that the grand jury had not returned an indictment last night prior to his departure, and was not positive what action the jury would take in regard to the matter. Antonio Maglio was given a preliminary hearing before Judge W. H. Newcomb in Silver City a couple of weeks ago and was held in the sum of \$10,000 to answer to the grand jury. The prisoner was brought to the Bernalillo county jail.

## PACIFIC CABLE.

### Gen. Knox Makes Report of Investigation.

### Trial of Neely in Progress in Cuba.

### Cecil Rhodes Claims That He Prevented Evacuation of Egypt.

### HEAVY STORM IN IOWA.

Washington, D. C., Oct. 11.—Attorney General Knox made a verbal report to the president and cabinet today regarding the result of his investigations into the Pacific cable question. His conclusion was that under the law of 1898 any domestic company could land any cable on the shore of the United States or its possessions. The president and cabinet were convinced by verbal report that no executive action is called for at this time. The president will go over the subject more in detail with the attorney general tomorrow and will review the whole matter in his message to congress.

The law of 1898 is the same law under which the Postal Telegraph company claimed it had power to land a cable at Havana, but the claim was disregarded at the time by the secretary of war.

The question of southern appointment generally came up. The president reiterated his policy of appointing republicans if suitable applicants could be found and if not of appointing gold democrats. His policy in this respect meets the approval of his cabinet.

**Trial of Neely.**

Washington, D. C., Oct. 11.—The war department is informed that the trial of P. W. Neely on charges of misappropriation of postal funds of Cuba is in progress.

**BRITISH STORY.**

London, Oct. 11.—The Spectator tomorrow will print letters from Cecil Rhodes and the late Francis Schachnoff, who from 1885 to 1892 was chief organizer and advisor of the liberal party, sustaining the sensational allegations made some months ago by the Spectator.

Mr. Gladstone would not bring about the evacuation of Egypt by British troops. Both Sir William Vernon Harcourt and Sir Henry Campbell-Bannerman, liberal leaders, have publicly declared this to be false.

### STORM IN IOWA.

### Western Part of State Damaged by Wind Storm and Cloudburst.

Omaha, Neb., Oct. 11.—A storm in western Iowa, yesterday caused considerable damage at Shenandoah and Villisca and the towns between Red Oak and Hamburg on the Burlington line. At Shenandoah the situation caused the Nishnabotom river to spread over two miles of bottom, covering the railroad tracks and causing washouts. A small cloudburst northeast of Missouri Valley took out several bridges.

ing, October 16, at 10 o'clock, at the Com-  
mercial club. Important business to be  
transacted.

The livestock receipts at five western  
markets for the eight months ending  
with August this year show increase over  
1900 amounting to \$2,387 cattle, \$23,741  
hogs, \$4,652 sheep, making a total gain  
of \$30,780 head.

The W. C. T. U. press re-  
porter intimates that gambling privileges  
are to be sold on the fair grounds. She  
could easily have learned that no gam-  
bling privileges are to be sold on the fair  
grounds or in this city next week.

A mob which proposes to hang or burn  
a man without a trial by jury constituted  
authority is that the government of the  
United States is the one to be destroyed  
by the mob. The point of attack is different,  
but the effect is the same in the end.

Havana's death rate for September  
was 15.64 per 1,000, the lowest in the  
history of the city, and lower than that  
of many large cities in the United States  
and England. The American sanitation  
introduced in Cuba is a decided success.

A convincing proof of the generosity of  
the American people is found in the  
fact that \$50,000 has been subscribed in  
two or three days for the ransom of the  
St. Louis, the missionary, a large portion of  
which was given by people who had  
previously never heard of her.

Dr. Cruikshank of San Marcial makes  
a good suggestion in regard to the  
assessment of property for taxation. He  
wants the office of county assessor abo-  
lished and a law enacted empowering a  
commission of five business men in each  
county to make the assessments.

The Russians are getting ready for an  
emergency, which means war with Ja-  
pan, and are increasing their navy and  
putting their army in fighting condition  
with great energy and at great expense.  
The army has recently been completely  
reorganized and provided with new  
equipment.

The Grand Army of the Republic pro-  
posed to dedicate an arch in a bridge to  
be erected across the Potomac river as a  
memorial to the late president. Now a  
movement has been started in the east  
to dedicate the whole bridge to that pur-  
pose as a fitting memorial of the work  
McKinley did toward cementing the reu-  
nion of the north and south during his  
term as president.

**POSTOFFICE BUSINESS.**  
The postoffice department has pub-  
lished the figures for the fiscal years  
ending June 30, 1900, and June 30, 1901,  
the income of presidential postoffices in  
the United States. In New Mexico the  
income of the presidential postoffices for  
the fiscal year ending June 30, 1900, was  
as follows: Albuquerque, \$2,344; Santa  
Fe, \$10,610; East Las Vegas, \$10,267; Ros-  
well, \$1,544; Raton, \$4,678; Silver City, \$6-  
32; Las Vegas, \$4,172; Carlsbad, \$2,634;  
Alamogordo, \$2,631; Gallup, \$1,295; Las  
Cruces, \$1,042; Deming, \$2,791; Socorro,  
\$2,773; Carlsbad, Gallup, Las Vegas and  
Raton show a loss in receipts. The great-  
est gain in receipts is shown by Alamo-  
gordo, which increased in one year from  
\$778 to \$2,531. Roswell stands second in  
gain and receipts and Santa Fe third,  
while Albuquerque is fourth, Silver City  
fifth and East Las Vegas sixth.

**ABOLISHING RAILROAD FAIRIES.**  
The committee appointed to consider  
the matter for the most important trans-  
action of the country has unanim-  
ously reported in favor of abolishing  
the railroad fares, even the short  
twelve one president of a railroad and  
another. The matter will now be taken  
up for ratification.

In a sense this is one of the most im-  
portant questions that the railroads of  
the country have to face. For many  
years it grew until it became a menace

The railroad hospital in this city will  
undoubtedly be greatly benefited by the  
addition of another railroad into our  
city. John Hordadale and others were  
called upon to make speeches, and their  
remarks were upon topics which were of  
great good to the people and merchants  
alike.

The company then adjourned to the  
banquet room where a fine collation  
and been held and all members and  
guests were having a good time when  
Mayor Marron and Governor Otero ap-  
peared on the scene. The gentlemen

the banquet the mayor made some timely re-

the governor responded to a call from the

the most friendly feeling for the city  
of Albuquerque and her people and  
is always ready to lend a helping hand  
to the Albuquerque people and the

time and urged them on in the work of  
securing the new railroad. He is per-  
sonally acquainted with J. C. Loder, of  
the Colorado smelters, and said that gen-  
tleman has decided to have erected a  
large smelter in New Mexico. As yet the  
president had not decided on a location  
for the erection of the plant, but he was  
under the impression that Mr. Loder had  
been approached by citizens of Socorro,  
El Paso, Alamogordo and other places  
and that he was not at all inclined to  
lose any time in settling the question,  
as he believed the president favored this  
city in preference to any other in point  
of location for his smelter.

**A Wig**

You can't see very many  
wigs nowadays. People have  
been educated how to care  
for the hair. That's one  
reason. Another is, Ayer's  
Hair Vigor makes wigs un-  
necessary. Nothing is equal  
for feeding the hair.

"For nearly twenty years I have come  
out so that every winter I had  
to wear a wig. I tried Ayer's Hair  
Vigor and it made my hair grow so  
that I can now go without a wig all  
the year around."

**THIS FOOT CRUSHED.**

Engineer Harry Preston met with a  
serious accident at the Santa Fe depot  
last Wednesday night. He was run-  
ning the "push" engine on No. 36 and  
was doing work at Pecos Springs when  
the accident occurred. It seems that  
he had been backing his engine on to  
an open derailing switch and had let  
his cab to assist the brakeman in closing  
the switch. The lever was finally raised  
and the engine was backed on to the  
switch. The foot was badly crushed, the  
lever tearing an ugly gash clear through  
the foot and foot between the first and  
second toes, lacerating the flesh and cut-  
ting the tendons in a shocking manner. The  
injured man was brought to Needles  
in a stock train and taken to the Needles  
hospital, where Dr. Ross dressed the  
injured member and fixed it up in  
good shape. The engineers who hap-  
pened to be in town got a pair of  
trousers and Harry took a stroll up  
the street. He went to Los Angeles  
Thursday evening, where his family are  
now visiting, and will be the guest of  
his friends for a few days. Mr.  
Preston is very popular with the  
boys and they all hope he will soon be  
at his post again—Needles Eye.

Well Known People Happily United by the  
Sacred Bonds.

African Methodist Episcopal church, cele-

present who showered con-  
gratulations upon the happy couple.  
The parlor was handsomely decorated with

canopy of evergreens. After the wed-  
ding a reception and banquet was given.

the judge and Mrs. McPhee with a  
dinner at the hotel. The judge and Mrs.  
McPhee were very popular and their  
home was a very large audience  
to greet the players, but certainly this  
couple is deserving of patronage, be-  
cause it is such a talented one. It is rare-  
ly that such an opportunity is presented to  
the theater-goers of seeing standard pro-  
ductions by a reliable company at popular  
prices—Las Vegas Record.

to drawing rooms of Pullman cars. The  
cars are elegantly furnished and, owing  
to their greater length, have a light

November 2, with connections to and

**Cancerous Sores**

are liable to appear upon other parts  
of the body. When they begin to spread  
and eat into the flesh, piercing  
pain is felt as the underlying tissue is  
destroyed and the tender nerves exposed.  
Cancerous sores develop from very trifling  
causes: a carbuncle or boil, swollen gland,  
a little watery blister on the tongue or  
lip, a wart, mole or bruise of some kind  
becomes an indolent festering sore,  
which if neglected degenerates into cancer.

Many a woman spends an hour

cure the dandruff. Two hours a week  
at the age of 40 years, she has spent  
the last two-thirds of her life, in that  
vain hope; vain, because you  
can't cure dandruff without killing the  
germ, and the only hair preparation  
on earth that will do this is Newbro's

### OTHER "ROASTS"

McCoy Took Exceptions but Others "Roasted" Just the Same.

McCoy, who was here a few months ago as the representative of "Coontown" in a tour across for a show, and followed later by the representative of Giddens' minstrels, is still in the city. He takes exceptions to the item published yesterday that "the Giddens minstrels flew the track at Socorro and the players are scattered in every direction," and supplemented his remarks by saying that The Citizen and the Silver City papers were the only papers that "roasted" the poor aggregation of minstrel performers. McCoy's attention is hereby called to the following "roast" found in the Journal-Democrat, October 1:

"The Giddens Minstrel-Nashville Students' combination gave a show in a tent opposite Hotel Highland last night. While there are several good individual performers in the troupe, the performance as a whole cannot be highly praised. The jokes and songs are old and the music is of the kind of entertainment received at a minstrel show. The two bands make up the best feature of the combination. The audience felt that after paying a sufficiently stiff price for the kind of entertainment received, an additional charge for a concert was a suggestion of a hold-up, and very few remained for the second performance, and those who stayed confessed they were sorry."

The above "roast" is considerably stronger than the "mild roasts" "Coontown" and "Giddens' minstrels" received from The Citizen or the Silver City papers. The only trouble with McCoy is that he doesn't keep posted on press reports. He should spend more time in reading.

### TROOPS HERE.

The Soldier Boys, Under Captain Smith, Arrived Today.

At noon today Troop G, Fourteenth Cavalry, under the command of Captain Smith, arrived in the city. The troop consists of fifty-seven soldiers and is accompanied by three civilians and a trio of Navajo Indian scouts. Several wagon loads of camping equipment were brought along and unloaded at the end of West of Gold Avenue, where the troops were stationed two years ago.

Major Hardie, commanding officer of the post, will arrive in the city tomorrow morning in company with his sister, Mrs. C. C. Smith, wife of Captain Smith, is expected to reach Albuquerque before the opening of fair week.

### CHILDREN DELIGHTED.

Even the Old Folks are Pleased to Know the Merry-go-round is Here.

Every small boy and girl in the city, as well as many grown folks and fond parents, will be rejoiced to learn that Walker Bros., of Broken Bow, Neb., have arrived in the city after a nine-day tour and will be here during the fair and carnival. The merry-go-round is located at the corner of Gold Avenue and Fourth street, opposite the Commercial club building. Stanley Walker, the gentleman in charge, announces that the machinery will be started to whirl Saturday afternoon at 4 o'clock. Everybody is invited to be present.

### MUST LEAVE UNITED STATES.

Couple of Chinamen Served Term in Pen and Then Ordered Deported.

This morning R. E. Leatherman, deputy United States marshal, left for San Francisco where he will take custody Sam Lee and Sam Guayillas One King, who are to be discharged from the penitentiary after a year's servitude for the territory. The prisoners were sentenced at the Bernalillo district court a year ago, and the sentence carried with it an order for deportation at the expiration of their terms. The Chinamen will be brought to this city tonight to be lodged in the county jail, where they will remain until Marshal Forsaker will have time to take them to San Francisco.
