NO RACE.

Light Winds Prevented
Finish in Time.

Shamrock Led at the First
Mark.

Thousands of Spectators Disappoint-
ed Over the Result of Race.

DENVER GRAND JURY DISCHARGED.

New York, Oct. 1.—A 15-knot breeze from the north northeast was ruffling the ocean when the crews of the Columbia and Shamrock turned out this morning. Both yachts were ready to start by 8:30.

At 9:15 the wind dropped to 12½ knots at Sandy Hook station. Both yachts are going to the starting line. By 10 o'clock the racers were at the lightship and skirting line with the excursion fleet sweeping around the hook.

10:10 P. M.—Wind 11 knots from the southeast. The preparatory gun was fired at 10:45. The wind is falling steadily.

The starting gun was fired at 11 o'clock. The Columbia in excellent position. Wind not over 4 knots. Soon after the warning signal was fired there was the usual jockeying for the windward berth. Hard luck fell to the British challenger, for she stood too near the line and went over before the starting gun was fired. The Columbia, on the other hand, was in beautiful position and poked her bow across the line a few seconds after the gun was fired. The Shamrock had to recross the line. This badly handicapped her at the outset. The wind was not more than 4 knots and both yachts headed for the Long Is. and shore on the starboard tack. The Columbia was far to the windward, but the yachts apparently are on equal terms as far as footing is concerned.

At 11:34 the wind was discouraging. Light and it seemed the impossibility for the yachts to finish within the time limit. At 12:30 the yachts were almost becalmed. About three and a half miles of the course has been covered.

Official time start by Marconi telegraph: Columbia, 11:00:10; Shamrock, 11:00:22.

At 1:20 p. m. both yachts seemed caught in a nice breeze from the southeast. The Shamrock catching it first and apparently first getting some advantage, but the Columbia still led.

At 1:27 p. m. the Shamrock was now ahead with the first mark two miles away.

1:57—The Columbia is gaining and passed the Shamrock to leeward.

2:08 P. M.—The Columbia now ahead. Wink fluky, first one boat getting it and then the other.

2:15—Shamrock ahead again.

2:29—Shamrock caught a puff of wind and now leads by several lengths.

2:40—The Shamrock seems drawing away from the Columbia with a favoring breeze which the latter has not yet caught near the first mark.

2:42:30—The Shamrock turned the first mark.

2:44 P. M.—The unofficial time of turning the first mark: Shamrock, 2:41:40; Columbia well astern.

For nearly an hour the Columbia and Shamrock both held the port tack, the wind being so light at times that they alternately fell off with the sea and then luffed and then took the starboard tack for a little time they were practically becalmed, but the Columbia maintained the lead secured at the start. About 12:30 there were signs down the Jersey coast of wind increasing. The Shamrock got it first and started ahead and decidedly out down the distance between her and the Columbia. The captain of the Shamrock took every possible advantage of the favorable start and before it reached the Columbia he was almost on even terms.

Fortune was with the British skipper and he slowly worked into the windward berth and then took the lead. It was just at 1:15 when the boats changed positions held since the start. The fluky, shifting wind seemed to always favor the Shamrock and at 1:52 she led by four lengths.

Unofficial time: Columbia, 2:44:45; over three minutes behind the Shamrock.

A little later the Columbia, catching a little more than her share of the

ACCEPTED TIME.

The Railroad Meeting
Last Night.

Half a Dozen Good Addresses
Made to the People.

Don't Let This Golden Opportunity
Slip by This Time.

STRONG RESOLUTIONS ADOPTED.

A big railroad demonstration took place last night at the corner of Railroad avenue and Second street, and although a number of merchants were notified absent, those present made up for the absence by the greatest kind of enthusiasm and by generous and hearty applause accorded to the speakers of the occasion.

At 8:10 o'clock a lighted match was touched to a pile of boxes prepared beforehand for a bonfire, and soon thereafter the heavens in that particular neighborhood was lit up by a lively fire.

At that time Judge L. S. Trimble, B. S. Rodley, H. B. Ferguson, R. S. Stover and O. N. Morrison made addresses of the hour, each of which was a first class oration, and the proceedings of the meeting commenced.

Major Macdonald presiding. He opened the meeting by stating the objects for which it was called, and briefly related the proposition of Senator Andrews and others interested to build the Albuquerque Eastern railroad to a connection with the great Rock Island system at or near Pinos Wells in Valencia county.

Judge L. S. Trimble, the old war-horse, who has favored the building of railroads, boomed statehood for New Mexico and all other good things ever since he came to this city from his old Kentucky home at Paducah, was then introduced and stirred up his hearers by making one of his characteristic speeches. He told the people that he had information from Senator Andrews which stated positively that the Santa Fe Central would be constructed from Santa Fe to Pinos Wells and that Albuquerque must not sit idly by and allow such a favorable opportunity to slip by.

He has been for that occasion, showing the approval of his hearers.

Hon. H. B. Ferguson then followed with a most eloquent address, reviewing the history of railroads in New Mexico and especially up to the time that the Atlantic & Pacific, then an independent line, was absorbed by the Santa Fe system. He cited some mighty interesting facts and made a point in strong English that new Albuquerque has the opportunity to get better freight facilities and cheaper freight rates than at any other time in the history of the city. He hoped the people would give Senator Andrews and others who are at the back of this enterprise full assurance that the \$100,000 asked would be forthcoming as soon as the road is built and in operation.

Delegate B. S. Rodley was then introduced and touched up the people in a lively manner for subscribing to every "Tom, Dick and Harry" enterprise that comes along by strangers and "now the people were asked to invest in something that would pay, something that would double the importance of every interest. In the city, something that would bring freight rates and put Albuquerque in a position to compete with El Paso and other cities of the west and south-west, and would Albuquerque neglect the supreme opportunity?"

Governor E. S. Stover submitted the following resolutions:

Resolved, That it is the sense of this meeting that the action of the Commercial club in appointing a committee to solicit subscriptions in aid of the proposed railroad from Albuquerque to San Pedro, to connect with a line running from Santa Fe to a connection with the Rock Island or El Paso & Northeastern, is hereby approved.

Resolved Further, That this meeting, respectfully request the committee to proceed at once and secure by subscription as much of the fund as is practicable from the citizens of Albuquerque and vicinity and tender the same to the Albuquerque Eastern railway upon the terms proposed by the projectors of the Santa Fe, Albuquerque & Pacific Railroad company.

Resolved Further, That we recognize the construction of the said Albuquerque Eastern railway, in connection with the Santa Fe Central railway, would greatly promote the growth of the city of Albuquerque and enable us to secure cheap fuel and also give us an additional outlet to the east over the Rock Island and at Santa Fe over the Denver & Rio Grande, with Denver and northern New Mexico, and open for trade and traffic all the country lying east of the Santa mountains and north of Santa Fe, now practically inaccessible to the merchants and business men of Albuquerque.

Judge Trimble moved the adoption of the resolutions, which were adopted with hearty cheers.

The open air meeting then adjourned.

This evening at 8 o'clock the directors of the Commercial club will meet and begin the important duty of calling upon the people for their signatures to contributions.

Senator Andrews, in a dispatch to Secretary Saint, states that he and other capitalists from Pennsylvania will undoubtedly reach this city Saturday night.

THREE ARRESTS AT GALLUP.

Violators of the Liquor Laws Must Answer to Serious Charges.

Two more boarders were received at the county jail this morning. They are Daniel Miller and "Red" Benson of Gallup and the charges preferred against them are that of selling liquor to Indians. Deputy United States Marshals Fred Forness and Fred McKeehan have been in the Carbon City for several days looking into the matter of certain violators of the law, and it is understood they have made some important discoveries which

MICHIGAN HOTEL BURNED.

Washington, D. C., Oct. 1.—Captain Lemly, judge advocate, withdrew soon after the meeting of the Scheley court of inquiry because of the death of his sister, which occurred yesterday.

Admiral Evans was recalled. Rayner cross-examined. He asked the witness concerning the secret code of signals for communicating with the Cuban insurgents near Cienfuegos.

The admiral said that when Captain Chidwick communicated this code to him he did not instruct him to give the information to Commodore Scheley. Captain Charles D. Sigbee, who commanded the scout ship S. Paul, was next called. Said in obedience to orders from Captain Wise he proceeded to the vicinity of Santiago. Instructions were to report to Commodore Scheley that the Spanish squadron was probably in Santiago harbor. Reported to Commodore Scheley that he "knew nothing positively" about the Spanish fleet.

Hanna quoted from Admiral Scheley's report of July 18, 1898, a sentence reading: "After having been assured by Sigbee that he did not believe the Spanish fleet was in Santiago, witness said: 'I stated that we had seen nothing of the Spanish fleet. May have stated that I knew nothing positively or absolutely about the movements, but recited certain events to show the probability of the fleet being at Santiago at that time. In regard to the matter left to make appeal to the court. This case is one involving reputations. It has been stated by Commodore Scheley in an official letter to the United States senate that I expressed a certain belief. I think either the court or defense should at once express under oath what I really said."

"We have no objection to that," said Rayner.

"I did not say that I believed it was not there. I said I had not seen it," said Sigbee.

Made known first my orders from the navy department which stated that the Spanish fleet reported arrived there." Hanna then read a letter that Sigbee had written on May 26, to the effect: "No news here. Have seen absolutely nothing of the Spanish fleet."

At 2:48 p. m. the Scheley court adjourned until tomorrow morning.

RAILROAD STRIKE.

Employees of the Scranton Railroad Tie up the Line.

Scranton, Pa., Oct. 1.—The strike of the employees of the Scranton Railroad company, covering the entire Lackawanna valley from Pittston to Forest City, began today. Not a car started. The men refused to accept the offer of General Manager Stillman to leave the question involved in the discharge of two Carbonade conductors to arbitration of Bishop Hogan, because the offer did not give the employees the representation they demanded. Nearly 600 men are involved in the strike.

Coal Miners Strike.

Scranton, Pa., Oct. 1.—Eight hundred employees at the Pine Brook shaft of the Ontario Coal company struck today against working with men who had no working card.

New Mexico demands Statehood from the Fifty-Seventh Congress.

The New Mexico Territorial Fair will be held in Albuquerque from October 15th to October 19th. Premium List will aggregate \$10,000.

ALBUQUERQUE, OCT. 1, 1901

The Citizen will give a bonus of \$500 to each new reader that builds into Albuquerque in the next 100 years.

New Mexico is well represented at the Denver Mountain and Plain Festival, which is in progress this week.

There are 336 places of public entertainment in this territory, with a combined seating capacity of 400,000 people.

The democratic papers in this territory do not like the Mexican people because they vote the republican ticket.

The postmaster general has decided that it is impracticable at this time to issue stamps commemorating the life of McKinley.

The second of the international yacht races was sailed today. The contest is best, three in five races and they are called alternate days.

There are 17,000 miners from Cornwall working in foreign mines and more than 4,000 of these Cornish miners are at work in the United States.

The local Press club is requested to meet at the Citizen office at 7:30 o'clock this evening to make arrangements for the meeting of the Territorial Press association October 17.

Action toward the erection of a monument at Canyon to President McKinley has already been started. Articles of incorporation for an organization have been sent to Columbus for filing.

Profits in irrigation works are this figured up in Nebraska: An investment of \$47,773,844 in irrigation in Nebraska provides water for 2,000,000 acres and has increased the value of the land \$17,000,000.

New Mexico offers to the homeseeker cheap lands, fertile soils, a salubrious climate, with ample room for all. It offers a varied climate suitable to the successful growing of a kind of grains, vegetables and fruits.

German surgeons say that the delicate membrane which covers the contents of an eyeball will answer for as well as skin from a human being to start the healing of open wounds. The discovery has already been successfully tested.

The railroad committee can secure subscriptions of \$100,000 this week for the Albuquerque Eastern railroad. Push the work. It is a busy time with everybody in this city just now, and there is always plenty of time to push enterprises that will benefit the city.

The county committee, composed of Messrs. E. A. Miera, Felipe Hubbell and Herman Blucher, is gathering a fine exhibit of agricultural products for the Territorial fair. The committee hopes to secure a good mineral exhibit from the Cochiti mining district.

El Paso has signed eight National league players to contest for the \$1,000 prize offered by the Territorial Fair association. El Paso has won the friendship of everybody in Albuquerque by the neighborly action and this city will reciprocate at the Midwinter carnival.

Two or three little sheets in this territory are keeping up their fight on Governor Otero. They have no influence and their campaign of falsehood in having no effect. Governor Otero is making a good record and he is paying little attention to his malicious detractors.

President John Mitchell of the United Mine Workers of America has issued a statement in which he says: "The agreement reached between the men and operators in 1900 amounted to an increase of \$25,000,000 annually for 300,000 men, secured at an expenditure of \$300,000, which is a bigger dividend than the Standard Oil company or the Morgan Banking company ever paid. At the April conventional concessions were granted amounting to an increase of \$7,000,000 annually."

Mrs. M. Lowenstein has been quite sick, but happily is now on the road to recovery.

Mrs. Will Hurst has returned to Socorro from El Paso, where she has been in very poor health for several months.

A. J. Loomis, collector, and George C. Bowman, gauger, in United States revenue service, had business in this city the other day.

Funerary says that a six-foot run of ore was struck in the Graphic mine last week. It is greatly to be hoped that the rumor is well founded.

Alonzo Honeywell, an old-time citizen of Socorro, arrived in town from the Klondike. He will spend the greater part of the winter here and then return to the far northern land of gold.

W. H. Byerts expects to leave soon for a three months' absence. He will visit his mother in Illinois for a time and then take a tour over Cuba, Porto Rico and others of the West Indies.

Amos Green will have charge of his business during his absence.

Sheriff Haskington states that Mrs. Annie Freeman, who recently escaped from her custody here and was arrested in Las Cruces on the charge of having stolen a watch from a railroad conductor, furnished bail in Judge Parker's court and was set at liberty.

H. K. Harris had the misfortune to be thrown over his stallion's head while going down a steep incline, resulting in the fracture of one of the bones of Mr. Harris' left forearm and various and sundry bruises. Dr. Swisher's services were enlisted and the patient seems to be doing well.

"I had long suffered from indigestion," writes G. A. LeDels, Cedar City, Mo. "Like others I tried many preparations but never found anything that did me good until I took Kodol Dyspepsia Cure. One bottle cured me. A friend who had suffered similarly I put on the use of Kodol Dyspepsia Cure. He is gaining fast and will soon be able to work. Before he took Kodol Dyspepsia Cure indigestion made him a total wreck. B. Ruppe, Cosmopolitan.

A report from Superintendent J. C. Gluck, reform school, Prantytown, Va., October 18, 1900. Roy Caldwell, a 13-year-old son of Dr. Caldwell of Mesilla, died at his home of typhoid fever.

Mrs. T. M. Brown arrived home from the Miners' hot springs, where she had been to shake a bad case of rheumatism. Mr. and Mrs. Brown are now at the "Caldwell" ranch, which they purchased recently.

One day last week Attorney R. L. Young, who is something of a connoisseur in firearms, secured an old flintlock musket. United States army pattern of 1829. In Mesilla. The weapon is in a very good state of preservation and was in fact a good specimen could tell many a startling tale of frontier. As it is, it only serves as a reminder of the crude weapons of our forefathers, who were not without with. The gun now has a load of powder and ball in its breech sufficient in the language of its owner to blow the brains of a man or an Apache Indian and any person curious to know if the gun will "kick" may fire it off.

SAN MARCIAL.

From the Bee.

W. H. Barton is temporarily sojourning in Albuquerque.

Master Laurence and Miss Rosa Broyles left for Greenville, Tex., where they enter the state university, to remain until they are finished scholars.

Charles Helm of the Wigwam saloon visited Albuquerque recently for the first time in many years. He expressed admiration for the city and the people there.

Misses Ethel, Nettie and Ruby Wilson joined their brother in Denver last week and will reside there in the future. They were very popular here and will be missed in social circles.

Prof. Jones of the school of mines at Socorro must not go through life at present under the impression that he has energetic enemies, who are planning to remove him from his position in the school.

The outside papers are printing the story that there is danger of Mrs. J. W. Crawford losing her mind as a result of the injuries received a couple of weeks since in an assault upon her. This is all nonsense. Mrs. Crawford is perfectly rational, her mental power is in no way impaired and she is fast recovering her strength.

"It Happened in a Drug Store."

"One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. R. Grandin, the popular druggist of Ontario, N. Y. "She was disappointed and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not find it worth the money to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back in company with a friend in need of a cough medicine and advised her to buy a bottle of Chamberlain's Cough Remedy. I consider that a very good recommendation for the remedy. The remedy owes its great popularity and extensive sale in a large measure to the personal recommendations of people who have been cured by its use. It is for sale by all druggists.

A Fiendish Attack.

An attack was lately made on C. P. Collier of Cherokee, Iowa, that proved fatal. It came through his kidneys. His back got so lame he could not sleep without great pain, nor sit in a chair except propped by cushions. No remedy helped him until he tried Electric Bitters which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50c at J. H. O'Reilly & Co.'s drug store.

I so, you should examine the new Continuous Income equitable policy of the EQUITABLE. It guarantees in case of your death—an annual income to the beneficiary as long as he—or she—lives.

The objection once entertained in the east growing out of the opinions of Arizona and New Mexico residents on important national issues are removed by the fact that these issues are no longer conspicuous. There is no reason why any man living in New York or Massachusetts should object to the admission of either New Mexico or Arizona and it is probable that there will not be much opposition in either branch of congress.

Both territories are fully capable of maintaining state governments and their growth and development would be stimulated if they were permitted

Are you a Father?

Two or three little sheets in this territory are keeping up their fight on Governor Otero. They have no influence and their campaign of falsehood in having no effect. Governor Otero is making a good record and he is paying little attention to his malicious detractors.

President John Mitchell of the United Mine Workers of America has issued a statement in which he says: "The agreement reached between the men and operators in 1900 amounted to an increase of \$25,000,000 annually for 300,000 men, secured at an expenditure of \$300,000, which is a bigger dividend than the Standard Oil company or the Morgan Banking company ever paid. At the April conventional concessions were granted amounting to an increase of \$7,000,000 annually."

The county committee, composed of Messrs. E. A. Miera, Felipe Hubbell and Herman Blucher, is gathering a fine exhibit of agricultural products for the Territorial fair. The committee hopes to secure a good mineral exhibit from the Cochiti mining district.

El Paso has signed eight National league players to contest for the \$1,000 prize offered by the Territorial Fair association. El Paso has won the friendship of everybody in Albuquerque by the neighborly action and this city will reciprocate at the Midwinter carnival.
