THE LAST SESSION
HELD TODAY

The Fifth Annual Convention of the National Livestock Association Closed.

OLD OFFICERS RE-ELECTED

Pittsburg, Portland, Oregon, Denver and Kansas City Fight for the Next Convention—The New Executive Committee Makes a Report.

Chicago, Dec. 6.—The last session of the 5th annual convention of the National Livestock Association was held at the Studebaker's theater today. The attendance was better than on any previous day, as the place for the next convention was to be selected. Pittsburg, Portland, Oregon, Denver and Kansas City were among the candidates. The new executive committee, F. J. Hagerbarth, chairman, reported, as follows: President, John W. Springer; vice president, F. J. Hagerbarth; second vice president, John W. Holt; secretary, C. F. Martin; treasurer, Geo. W. Goulding.

The report of the committee on nominations was unanimously adopted, thus providing organization with the services of its old officers for another year.

Resolutions were adopted as follows: That the association give all possible aid to agricultural colleges; that the president's recommendation concerning forest reserves be treated as his will; that there should be no livestock inspection by states on interstate shipments after the United States government inspection; that goat raisers be protected against Chinese goatskins; that the association recognize the fight of Ed. Reed of Colorado, against interstate inspection by making him an honorary member.

A resolution of interest to horse raisers was adopted. It calls for less rigid inspection of horses intended for government use, especially in the army, and suggests the appointment of a committee of four army men and eight horse breeders to act as judges at shows where prizes shall be given for horses best fitted for service in various branches of the army.

The report of the retiring executive committee, in which the work of the officers of the association is praised and which calls for an increase of assessments of members of 25 cents for every 1,000 head of livestock represented, was adopted unanimously.

An interesting feature was an impromptu speech by Secretary Maxwell of the irrigation congress. He said that water was the very root of successful cattle raising and told of the ways of getting water. Chairman Springer followed with a description of how he secured an abundance of water on a ranch, the previous owners of which were reputed to have starved owing to their inability to get drink for their cattle.

The National Livestock association voted to hold its next annual convention at Kansas City.

THREE COMMITTEES
ARE NAMED

The Ways and Means, the Appropriation and the Enrolled Bills Committees of the House of Representatives.

THE HAY-PAUNCEFOTE
TREATY REPORTED FAVORABLY

Washington, Dec. 6.—In the house today, after reading and approving the journal, Gains, Tennessee, who has just returned from the Philippines, appeared at the bar, where the oath of office was administered to him.

Speaker Henderson announced the appointment of the following committees: Ways and means—Payne, New York; Dalsell, Pennsylvania; Hopkins, Illinois; Grosvenor, Ohio; Russell, Connecticut; Steele, Indiana; Tawney, Minnesota; McCall, Massachusetts; Long, Kansas; Babcock, Wisconsin; Metcalf, California; Republicans; and Richardson, Tennessee; Robertson, Louisiana; Swanson, Virginia; McClellan, New York; Newlands, Nevada; Cooper, Texas; Democrats.

Appropriations—Cannon, Ill.; Bingham, Pa.; Hemenway, Ind.; Barney, Wis.; Moody, Mass.; Van Voorhis, Ohio; McClellan, Minn.; Littauer, New York; Brownlow, Tenn.; Gardner, Mich.; Burket, Neb.; Republicans; and Livingston, Ga.; McRae, Ark.; Bell, Colo.; Pierce, Tenn.; Benton, Miss.; Taylor, Ala.; Democrats.

Enrolled bills—Watchter, Maryland; Ball, Dela.; Burk, Pa.; Turner, New Hampshire; Republicans; and Lloyd, Missouri; Edwards, Mont.; Democrats.

THE ISTHMIAN CANAL BILL.
Washington, Dec. 6.—Representative Hepburn, Iowa, today introduced an isthmiian canal bill, making the appropriation \$180,000,000.

At 12:06 p. m. the house adjourned until Tuesday.

CHINESE EXCLUSION.
Washington, Dec. 6.—A meeting of the senators and members of the house representing the Pacific coast states was held today for the purpose of agreeing upon a policy in the prosecution of legislation for the continued exclusion of the Chinese. Loud was chairman. A committee of six was appointed to take the subject in hand.

The committee is composed of Senators Mitchell, Hittelford, Foster and Representatives Newlands, Metcalf and Combs. The committee organized by electing Representative Newlands chairman.

THE HAY-PAUNCEFOTE TREATY.
Washington, Dec. 6.—The senate committee on foreign relations voted to report favorably on the new Hay-Pauncefote treaty, providing for the construction of the isthmiian canal.

No votes were cast against the treaty, but it was criticized sharply by Senators Moody and Bacon, who found in it many objections which they urged against the old treaty. They took especial exception to the provision confining in force the neutrality provision in the Clayton-Bulwer treaty, also to the clause specifically authorizing the United States to police the canal, and placing a limitation upon the power of this country absolutely to control it. The contention was made that the effect of the treaty as sent to the senate would be to deprive the United States of control of the canal in case of war. Consideration of the treaty will be pressed in the senate. The committee voted to recommend that the injunction of secrecy be removed from the treaty.

FAVORABLE REPORT ON NOMINATION OF KNOX.

Washington, Dec. 6.—The senate committee on judiciary today authorized a favorable report upon the nomination of P. C. Knox, to be attorney general. Opposition to the confirmation is made by the anti-trust league.

A CABINET MEETING TODAY.
Washington, Dec. 6.—At the cabinet meeting today, it developed that the government is convinced that the decisions of the supreme court in the insular cases do not disturb the Philippine tariff and the government will continue to collect customs dues as heretofore.

SENTENCED TO DEATH.

Two Men in Iowa Must Pay the Penalty for a Murder at Albert City.

Stormlake, Ia., Dec. 6.—Albert P. Phillips and Lewis Brooks were found guilty of murder and the penalty fixed at death. They killed Charles Lodine and John Sunblad at Albert City, while attempting to escape from officers who were trying to arrest them for robbing the Greenville, Iowa, bank.

COL. ROBERT L. MEADE ACQUITTED.

A Court Martial Finds Him Not Guilty of Drunkenness.

Washington, Dec. 6.—It is announced at the navy department that the court martial, in the case of Colonel Robert L. Meade, of the marine corps, tried on the charge of drunkenness, resulted in acquittal, and he has been restored to duty in the Brooklyn navy yard.

FORTY SOLDIERS KILLED.

An Arab Tribes Objects to Excessive Taxation by Turks.

Bombay, Dec. 6.—Forty Turkish soldiers have been killed near Lohela, in Yemen, Arabia, in a conflict with tribesmen, who rebelled on account of excessive taxation.

Miss Stone and Companion Alive.
Washington, Dec. 6.—Secretary Hay received a cablegram today from Mr. Eddy, charged with Constantinople, saying he just learned from the agent he sent out that Miss Stone and Miss Tella are alive and well.

FELL VICTIMS
TO THE FLAMES

Several Heart Rending Burning Accidents Are Reported by the Telegraph Today.

DIED TO SAVE DAUGHTER

Two Persons Burned to Death and Seven Injured in a Fire at Pittsburg—A Coal Oil Lamp Explosion Caused a Death and Two Injuries in Texas.

Pittsburg, Pa., Dec. 6.—Two persons were burned to death, and seven injured in a fire at Carnegie, Pa., this morning, which destroyed the Samuel Klee residence. The dead are: Mrs. Sarah Klee, aged 43, and Mary Klee, aged 9. Klee and his wife realized that the only way to save the children was to throw them from an upper story window, a distance of about twenty feet. One by one the children were dropped to the ground by the father. All were injured. It seems that while the father was rescuing the youngest child, the mother was making an attempt to save the life of Mary, and, in doing so, gave up her own life.

Holland, Texas, Dec. 6.—Miss Maud Nicholson was burned to death by the explosion of a coal oil lamp. Robert Stafford and his son, Walter, were badly burned about the hands in trying to extinguish the fire.

KILLED BY BANK ROBBERS.

Night Marshal J. B. Smith at Chelsea, Iowa, Shot in the Head.

Marshalltown, Iowa, Dec. 6.—Night Marshal J. B. Smith, at Chelsea, was shot in the head by three robbers early today and died two hours later. The robbers were discovered attempting to break into the bank. They escaped on a hand-car.

THE FORT STANTON SANITARIUM.

What Is Being Done for the Relief of Consumptive Sailors.

Surgeon J. M. Carrington is now in charge of the marine hospital for consumptives at Fort Stanton in Lincoln county. Temperate young men who are strong enough to work, even though consumptive, can obtain positions at the sanitarium as waiters, assistant nurses, gardeners and mechanics or in other occupations, thus affording a comfortable home to consumptive workmen who desire occupation at a higher altitude. The wages paid range from \$1 to \$2 a day. While the sanitarium is a most perfect home for the afflicted sailors, quite a number of the patients become homesick and long to see the sea. Some insist upon leaving before entirely recovered, but sometimes return with the disease broken out again.

The marine hospital is not technically a government institution although it is under the jurisdiction of the assistant treasurer of the United States. The marine service originated many years ago from a fund raised by the sailors on merchant ships who contributed small sums out of their monthly wages. Later merchant ships were taxed according to their tonnage and now the fund is so large that many marine hospitals are maintained out of it throughout the United States. Fort Stanton being exclusively for consumptive sailors.

Fort Stanton is about six miles from the railroad station at Captain. It is a picturesque little settlement in the fertile Bonito valley, surrounded by pine covered mountains. The fort is supplied with a steam laundry, electric light works, ice plant, dairy, butcher shop, pasture, gardens and comes near being a communistic settlement, self-sufficient and supplying nearly all its own wants.

There are a few over one hundred patients at the sanitarium. There are six surgeons and thirty attendants. Each patient is examined upon entering the sanitarium and an accurate daily clinical record is kept of his condition. The more advanced cases are sent to the hospital and the incipient cases are assigned to the neat rooms in different wards. Those who are able to leave their rooms go to their meals three times a day and are given a milk and cracker lunch in the forenoon. The food consists of meat and plenty of it, eggs, butter, milk, bread and vegetables and desert. In the sick wards physicians and nurses are in constant attendance. All the accommodations of the fort, including board, room, laundry, medicine and attendance are furnished free to the patients.

Cleanliness is enjoined upon the patients. They must be temperate and regular in their habits. They are compelled to be in the open air, to exercise if their condition permits and to eat as heartily as possible. In fact, upon the observance of those three conditions depends the promise of a cure. Intoxicants are not allowed on the reservation. Every precaution is taken to kill all germs and patients must use a pocket cuspidor, which is burned every evening. Outdoor games and paraphernalia for the inmates are supplied. A good library is also maintained.

Quite a number of cures already stand to the credit of the institution, and some of them are nothing short of the miraculous. Outdoor life in the peerless New Mexico climate, moderate exercise, regularity of habits and the stuffing process as far as diet is concerned, are the factors that produce the cures or in hopeless cases bring about an amelioration of symptoms and a prolongation of life, although no case can be pronounced hopeless until death has knocked at the door.

THE AMERICAN
FEDERATION OF LABOR

Something Like Sixty Resolutions Affecting the Workingman Were Introduced at Today's Session.

MORE PERFECT IMMIGRATION
LAWS ARE DEMANDED

Scranton, Pa., Dec. 6.—The first hour of the second day's session of the American Federation of Labor was taken up in the reception of resolutions. The resolutions were sent to appropriate committees. The credentials committee is trying to arrange all disputes amicably, so as to avoid any friction in the convention.

The resolutions introduced number sixty. They cover many questions affecting the laboring man. Four of them demanded the re-enactment of the Chinese exclusion act, one commended President Roosevelt for the position he took in his message with reference to the Chinese question, and a large number called for strict trade autonomy.

Max Hayes, of Cleveland, introduced a resolution providing for the admission of minors, under 18 years of age, into unions at a reduced per capita tax. Delegate Dietrich, of Washington, presented a resolution protesting against subsidy legislation by congress. Another resolution called for the appointment of a committee to draft a memorial to congress to prohibit the granting of injunctions by the courts against organized labor. Other resolutions provide for boycotts against concerns located in various parts of the country, the giving to seamen full right to quit any merchant vessel on which service has been obnoxious, and for universal labor laws.

Edward F. McSweeney, deputy commissioner of immigration of New York, addressed the delegates. He explained the method of enforcing the immigration laws. The spirit of the law, he said, is being violated by "wholesalers." McSweeney said the Japanese as well as the Chinese should be excluded. The emigration laws should be reconstructed by experts. All the pending legislation before congress to remedy present exclusion will only make more confusion. Labor contractors, he said, are perfecting their method for bringing aliens to this country and the bureau of immigration is helpless.

A FALL OF 300 FEET.

A Train Crew Killed and the Train Splintered Into Match Wood.

Vancouver, B. C., Dec. 6.—A train on the main line of the Canadian Pacific railroad fell into a canon a distance of 300 feet and was splintered to match wood this morning. The train crew was killed.

The Gold Standard for Peru.

Lima, Peru, Dec. 6.—The chamber of deputies sanctioned the gold standard law, which has already passed the senate.

OFFICIAL MATTERS.

PENSIONS GRANTED.
Dolphus Reed of Hermosa, Sierra county, has been granted a pension of \$6 a month; Ramona P. de Gonzales of Santa Fe, has been granted a pension of \$6 a month.

AN APPOINTMENT.
Governor Otero yesterday afternoon appointed E. E. Olney, of East Las Vegas, a member of the dental examining board of the territory to succeed Dr. B. M. Williams, of Las Vegas, resigned.

INCORPORATION.
The Carmen Mining company today filed incorporation papers. The incorporators and directors are Morris B. Parker, Thomas L. Davenport and Alvah W. Gifford. The capital is \$300,000 divided into 300,000 shares. The New Mexico agent is A. W. Gifford, with headquarters at Lordsburg, Grant county.

RAILROAD PLATS FILED.
The Santa Fe Central Railway company today filed its plats for its permanent survey and right of way for 35.5 miles of its line from Camaleon Hill in Lincoln county to about four miles this side of Galisteo. The route as surveyed commences in northern Lincoln county where it connects with the El Paso & Rock Island railway and which it parallels for a mile or two, and continues for about eight miles in Lincoln county when it crosses into eastern Valencia county, being surveyed across the Antonio Sandoval grant into Bernalillo county. The survey enters Santa Fe county near the Moriarty ranch and crosses that ranch, runs north to the Ortiz mine grant which it crosses, and about two miles from Galisteo crosses the Atchison, Topeka and Santa Fe railroad. Part of the survey is across 30 miles of unsurveyed government land, a few miles are over homesteads and the greater part over unappropriated, but surveyed land and through coal fields filed upon by agents of the Santa Fe Central company.

The Hand of Death.

Mrs. Sixto Duran, widow, aged 55 years, died at Las Vegas on Wednesday. She leaves a daughter.

A. M. Gibbs, a healthseeker who came to Las Vegas a month ago from his home in Iowa, died on Wednesday at Las Vegas.

Mrs. Francisco S. Lucas of Silver City, died suddenly at Durango, Mex., on the anniversary of her husband's death. She was 61 years of age. She leaves nine children.

An Accidental Killing.
Word was received in Santa Fe of an accidental shooting on the Barleta mesa, fifteen miles east of Raton, Colfax county. While Mr. and Mrs. George Souer were out of the house the children got hold of a Winchester rifle and were playing with it when the gun was discharged, the ball entering under the right eye of Benjamin, a 3-year-old son, tearing the whole back of the head out. The child was buried at Raton.

STATEHOOD FOR
NEW MEXICO

Senator Elkins Introduced an Enabling Act and Will Work Hard for It.

PRESIDENT WOULD SIGN IT

The International Dam Schemers Have Had Their Bills Introduced—Representative Curtis' Wants to Have a Buffalo Park Established.

Senator Elkins Wednesday afternoon introduced the New Mexico admission bill.

It is just 26 years since, as delegate from New Mexico, he presented the first of the bills for an enabling act for that territory, which have failed because of persistent hostility to the territory's admission. The senator says he is going to do everything he can this year for New Mexico, and there is undoubtedly a better chance than for some years. It is not regarded as a good sign that the president, of whose support much has been expected, omitted all reference to admission of any of the territories in his message. It is, however, certain that Mr. Roosevelt looks with more favor on New Mexico than the other aspiring territories. If a bill is passed admitting New Mexico it will be promptly signed by him.

Delegate Flynn had a long talk with the president about Oklahoma Wednesday afternoon. It is said the president does not favor the admission of Oklahoma until the matter of the civilized tribes is disposed of. There is so much fear about this territory that Senator Fairbanks makes an attempt to inject sentiment into the question in a bill introduced by him today. In this bill he proposes Oklahoma's admission and that its capital shall be named McKinley.

Representative Curtis of Kansas, Wednesday, introduced the bill providing for establishment of a reservation of 100,000 acres in southern New Mexico to be fenced and used as grazing ground for buffalo.

Senator Culberson and Congressman Stephens of Texas, have both introduced bills to provide for what is termed the equitable distribution of the waters of the Rio Grande between the United States and Mexico, and for the purpose of building an international dam and reservoir at El Paso. The bills provide that there shall be no appropriation and storage of the waters of the Rio Grande or its tributaries to which others have right by prior appropriation; and persons guilty of unlawfully appropriating and storing these waters shall be punished by a fine not exceeding \$5,000, or by imprisonment not exceeding one year, or by both. The bill also authorizes the secretary of state to proceed with the consultation of a treaty between the United States and Mexico providing for the dam.

Senator Hansbrough Wednesday re-introduced his irrigation bill of last session, with various amendments. It provides for the setting aside of the moneys derived from the sale of public lands in the arid and semi-arid regions of the United States and the collection of these moneys in a fund to be used for the reclamation of the arid lands.

The secretary of the interior is given charge of this fund and of all the details of its collection and expenditure. He is authorized to make surveys and construct reservoirs where necessary and to condemn the lands necessary to do so. Water is to be distributed, and persons whose lands are benefited are to pay for the same, the funds thus collected to go into the reclamation fund. Senator Hansbrough has borrowed one section from the Newlands bill, providing that nothing in his proposed law shall be allowed to conflict with state laws bearing on the subject of irrigation. The secretary of interior is authorized to immediately ascertain what are arid and semi-arid lands.

Had a Leg Broken.

Brakeman Chat Reid, suffered a broken leg on the siding at Waldo in this county about 7 o'clock Tuesday evening. Cars on the siding didn't clear the main track and Reid was caught between. He is now at the home of his parents in Las Vegas.

THE NEW MEXICAN PRINTING COMPANY

Entered as Second-Class matter at the Santa Fe Postoffice.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the territory, and has a large and growing circulation among the intelligent and progressive people of the southwest.

FRIDAY, DECEMBER 6.

New Mexico Demands Statehood of the 57th Congress.

Of Right and in Justice New Mexico Should Be a State.

The fact that having been born in Ohio seems to be no longer a sure passport to federal office. Times change.

Lord Kitchener reports that he needs more soldiers. No doubt about that. This has been apparent to the average looker-on for some time.

Undaunted by defeat Mr. Croker now aspires to be chairman of the Democratic national committee. When Mr. Croker wants anything he is none too bashful to ask for it.

A St. Paul man knocked his wife down with a poodle dog and now the St. Paul newspapers are fighting over the question, which animal suffered the worst.

The Democratic leaders and statesmen in New Mexico have the best of the Republican leaders and statesmen in one respect. They need not worry about the offices.

Colonel Jack Chinn, of the sovereign state of Kentucky, says he no longer carries a pistol. If this is true the colonel has given up active participation in Kentucky politics.

Copies of the same old charges against Governor Otero have been filed again. The men behind these charges are evidently of the opinion that a lie well stuck to is as good as the truth.

Work on the isthmian canal will begin in less than a year. It will mean the employment of thousands of men for a number of years and the expenditure of about \$200,000,000.

One or two of New Mexico's citizens now in Washington are doing the strict act, but that does not prevent knowledge of their doings and actions. In due course of time this will become apparent.

There are still some Texas Democrats in the house of representatives who have received no knowledge of the fact that the silver question is dead. But then Texas is a great state that news there travels slowly.

When it comes to getting up a row the Democratic members in the national house of representatives are all right. They do not have much to quarrel over, but what little they have they do up in good style.

Indian agents will soon be scarce. They are to be superseded by superintendents of Indian schools, these latter to be in the classified service. This is a change that is believed, will prove of material benefit to the Indian service.

On account of a rate war, the railroad fare from Colorado Springs to Cripple Creek has been reduced from something like \$8 to 10 cents. It seems the railroad combinations haven't as yet extended to the region around Colorado Springs and Cripple Creek.

Mayor Seth Low announces that he has selected the man who is to be police commissioner of New York City. The new police commissioner announces that the first thing upon taking office will be to remove the Tammany chief of police. This is as expected.

Reports sent to the New Mexican by its correspondents in various sections of the territory show conclusively that times are prosperous and that the population of New Mexico is steadily increasing. What is more, people expect these good times to continue.

Officials of the department of justice have been gently reminded by the attorney general not to take too active part in politics and not to take or receive money for campaign expenses. The administration seems to be in the civil service reform movement in dead earnest.

Delegate B. S. Rodey informs the New Mexican that he will keep up his fight to obtain statehood for the territory. The people of New Mexico are with the delegate in this matter, and that without reserve. They want statehood and want it as soon as it possibly can be had.

Signs of the times are that the present prosperity in the country will obtain for some years to come. One sign in that direction is that the great Pennsylvania Railway company will build 400 locomotives during the year 1902. There must be good business ahead.

No effort should be spared to apprehend and convict the men who entered a store in Lincoln county, killed the proprietor and his guest, looted the store and then set it on fire. It is one of the most atrocious crimes committed in late years in New Mexico and should not go unavenged. Lincoln county should offer a reward for the capture of the robbers and murderers.

After allowing for the slight deficit in one or two minor funds, which could not have been foreseen by the last legislative assembly there is a surplus of between \$5,000 and \$7,000 in the territorial treasury at the end of the 52d fiscal year. There are 35 per cent of taxes for that year still to be collected. It certainly looks as if prosperity and economy are going hand in hand in the management of territorial affairs during Governor Otero's administration.

Captain Perry of the United States battleship Iowa, held Colon just long enough to protect American interests, and to show the Colombian government that the United States means business whenever the time arrives. He did the right thing at the right time.

A resolution has been introduced in congress by Hon. William H. Moody of Massachusetts, to investigate election methods in Louisiana. It is not only Louisiana election methods which should be investigated however, but also the disfranchisement of thousands and even millions of voters in the whole south. It is to be hoped that the investigation, if one should be made, will not be upon a sectional basis nor intensify the race feeling which unfortunately still exists in the south.

The Stephens bill has been introduced in congress again with the familiar provision that there shall be no appropriation and storage of the waters of the Rio Grande or its tributaries to which others have right by prior appropriation. As the proposed international dam is to claim right to all unappropriated waters of the Rio Grande and its tributaries, the fate of New Mexico would be settled by its passage for no additional reservoirs could then be built along the Rio Grande or any of its tributaries such as the Santa Fe, the Pojoaque, Santa Cruz and scores of other streams tributary to the Rio Grande. Naturally New Mexico must fight such a proposition tooth and nail.

Governor Otero has appointed W. M. Robbins of Hillsboro, sheriff of Sierra county, vice J. C. Chandler, the present sheriff, who has resigned to go into business at San Marcial. Mr. Robbins is an old resident of Sierra county and a well known and respected citizen and fully competent to perform the duties of the office to the satisfaction of all concerned. Mr. Robbins is a Republican in politics. He was highly recommended by the leading and influential citizens of the county, who spoke of him in very complimentary terms. He is engaged in the mercantile business at Hillsboro. He will take office on the first of January, 1902, as it will take him that length of time to qualify and furnish his bonds.

Major W. H. H. Llewellyn of Las Cruces, is now in Washington, on a project whereby the Mesquero Apache Indians in Otero county are to receive certain lands of their reservation in severalty, the remainder to be thrown open and added to the public domain for homestead settlement. Major Llewellyn is thoroughly posted upon the question and it is believed that the time to carry this project into effect is now at hand. The Mesquero reservation contains many thousands of acres of fine timber land and it is stated much mineral land. Throwing the major portion of this reservation open to settlers under the homestead laws and to prospectors under the mineral laws would prove of material and speedy benefit to Otero county in particular and to New Mexico in general.

The census of 1900, according to a bulletin just issued, shows the remarkable fact that only two per cent of the men of voting age who were born in the United States of foreign parents are classed as illiterate, while of the white men of voting age in the country born of native Americans 5.3 per cent are illiterate, while of the native negro men above voting age 47.3 per cent are illiterate. This shows that, as undesirable as was the large per cent of the immigration which came to the United States in the past decade, the children of immigrants generally make good and intelligent citizens. The nation as a whole is a direct gainer by immigration, and while it is wise to restrict immigration, it would be unwise to exclude it altogether or even to draw this line of restriction upon too narrow a basis.

Should the Stephens or Culberson bills to build an international dam at El Paso become law the person who would take out any additional ditch or build an additional dam in the Santa Fe river or any other stream in the great Rio Grande valley, would be fined \$5,000 and be sent to the penitentiary for one year in addition to having his works taken out of the stream.

President Roosevelt has given positive assurance that he will sign the New Mexico statehood bill should it be passed by congress. New Mexico has a number of friends at the New Mexico statehood delegation to push the enabling act through congress. It is possible however, that New Mexico will be the only territory to receive statehood from this session of congress and that Oklahoma and Arizona will have to wait another year or two.

That there is an end to the race issue in sight is again shown by the census figures which prove that the white population of the south is growing at a much more rapid rate than the negro population. Thus, there are now just about as many negroes in Pennsylvania as there are in Missouri, although twenty years ago Missouri had twice as many colored people as Pennsylvania. There are now more negroes in Massachusetts, which twenty years ago had 50 per cent more negroes than Massachusetts. New Jersey has doubled its negro population while in Maryland the white population has in twenty years increased 230,000 and the colored population only 15,000. Virginia in twenty years has gained in round figures 312,000 white people and only 29,000 negroes. North Carolina gained 400,000 white people and only 93,000 in negro population. Tennessee has gained 400,000 white people and only 77,000 negroes. Missouri has gained 92,000 white people and less than 16,000 negroes. Kentucky has gained almost 500,000 white people and only 13,000 negroes. These figures should be taken as evidence that the race problem is not destined to continue formidable from a political, social or industrial standpoint. There are only two states, Mississippi and South Carolina, where the negroes outnumber the whites and in South Carolina the white population is growing so much faster than the black that in twenty-five years the Caucasian race will predominate.

SORES AND ULCERS.

Sores and Ulcers never become chronic unless the blood is in poor condition - is sluggish, weak and unable to throw off the poisons that accumulate in it. The system must be relieved of the unhealthy matter through the skin, and great relief to life would follow should it heal before the blood has been made pure and healthy and all impurities eliminated from the system. S.S.S. begins the cure by first cleansing and invigorating the blood, building up the general health and removing from the system a **CONSTANT DRAIN UPON THE SYSTEM.** When this has been accomplished the discharge gradually ceases, and the sore or ulcer heals. It is the tendency of these old indolent sores to grow worse and worse, and eventually to destroy the bones. Local applications, while soothing and to some extent alleviate pain, cannot reach the seat of the trouble. S.S.S. does, and no matter how apparently hopeless your condition, even though your constitution has broken down, it will bring relief when nothing else can. It supplies the rich, pure blood necessary to heal the sore and nourish the debilitated, diseased body.

Mr. J. B. Talbot, Lock Box 245, Winona, Minn., writes: "Six years ago my leg from the knee to the foot was one solid sore. Several physicians treated me and I made two trips to Hot Springs, but found no relief. I was induced to try S.S.S., and it made a complete cure. I have been a perfectly well man ever since."

SSS is the only purely vegetable blood purifier known - contains no poisonous minerals to ruin the digestion and add to, rather than relieve your suffering. If your flesh does not heal readily when scratched, bruised or cut, your blood is in bad condition, and any ordinary sore is apt to become chronic.

AS OLD AS THE HILLS.

Evidence That New Mexico Was Inhabited In Geologic Ages.

Rocky Mountain News. When Cecil A. Deane was recently making excavations among ruins of the mesa dwellers near La Brea on the New Mexico-Colorado line near Aztec, San Juan county, he found an archaeological treasure which has attracted much attention from scientists.

About four feet below the surface he unearthed an irregular shaped block of lava weighing about 100 pounds, which bears unmistakable evidence of the extreme antiquity of the people who once lived in that region.

Within the block and exposed on its surface are found seven ears of corn, calcined by the lava when in a molten condition to a jet black color, while on the other surface is shown the impression of what was doubtless shelled corn. Adhering to the lava are a number of pieces of clay, burned to a brick red color, which show the impression of ferns, palm leaves and other tropical foliage.

During this and at other times when Mr. Deane has made excavations at this place he has found evidence that these people lived at a period so long ago that the time of man's first occupation of the Nile and Euphrates valleys were, in a comparison, but as yesterday. Beneath two or three feet of glacial drift deposit he encountered an irregular layer of broken blocks of buried clay and fragments of lava. The clay once formed roofs of houses and bears on the lower side impressions of small logs, and vegetation now growing only in tropical climates. Finger marks are plainly seen in this once plastic material. Beneath this he found carbonized corn, fragments of pottery, stone axes and hammers. At a still greater depth he found several bowls, vases and urns, and human bones which crumbled to dust as soon as exposed to the atmosphere.

The age in which these people lived cannot be measured by centuries, but only by geological epochs. That they lived prior to the glacial period is evident from the fact that their ruins are buried beneath glacial drift; the impressions of vegetable growth in the clay blocks are tropical, and all scientists assert that the overflow of lava so common in that region, occurred during the closing era of the tertiary period. Mr. Deane forwarded the block of lava to Professor W. J. McGee at Washington. He has received an acknowledgment from him for the shipment in which Professor McGee writes at length, and states that the corn embracing block of lava is now one of the chief attractions in the national museum.

Considerable Truth in This. Colfax County Stockman.

Nominations of candidates for office next fall are now in order. The Springfield Stockman has set the ball in motion by mentioning that the Republicans are talking of nominating Harry Brainard of Elizabethtown, for sheriff.

Newspapers will now proceed to manufacture official timber, which some timber will, as usual, proceed to forget the newspapers as soon as the timber is nicely fitted into the office. -Raton Reporter.

You've struck the spike on the head, they don't know how newspapers lie, don't care, and furthermore don't give a d-- continental, but about election time the editor appears to suddenly become a nice fellow, endowed with all the charms and graces essential to make him excellent company for one to keep, with sufficient divine qualities enabling him to live nicely on promissories, but after the election, well, he's a fish - and no doubt he is.

True Words Well Spoken.

Las Vegas Record. The yellow and sordid sheets of New Mexico are invited to study the following paragraph, which we find in the Red River Prospector: "There is no good or honest reason why a person should be vilified and slandered simply because he holds a position of trust. When editors stoop to such action they are craving the support of the ignorant and vicious class."

And Still They Come.

Socorro Chieftain. The demand for cottages in Socorro seems to be increasing. The number of healthseekers in this city is unusually large and many of them would like to rent a four or five room cottage for light housekeeping.

The Prosperous Town of Clayton.

Clayton Enterprise. As evidence that Clayton is the nucleus of a great trading country and that a vast territory depends on the town for its supplies, the writer stood on Main street, and without moving from his tracks, counted 32 wagons within five minutes last Monday. Most of these wagons were the property of ranchmen from outlying districts who had brought them in to be filled with supplies.

Will Do His Duty as the Law Requires.

Las Vegas Record. The treasurer of Mora county resents the attempt of our esteemed yellow contemporary to make him appear as a law-defying official. He announces that he will collect the full taxes imposed by law, as interpreted by the duly constituted legal advisor of the territory, until the courts direct otherwise, as it is his duty to do. In other words, he refuses to accept the yellow and sordid sheets either as his legal advisors or mentors. In this he displays good judgment.

Judge McMillan's Course.

Socorro Chieftain. Hon. Daniel H. McMillan seems to be conducting the affairs of his high office with neatness and dispatch. This is gratifying to those who have the public welfare at heart.

A WORTHY SUCCESSOR.

"Something New Under the Sun."

All doctors have tried to cure Catarrh by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the diseased area. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of Catarrh, has at last perfected a treatment which when faithfully used, not only relieves at once, but permanently cures Catarrh, by removing the cause stopping the discharge, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "Snuffless Catarrh Cure," and is sold at the extremely low price of One Dollar, each package containing internal and external treatment, and the direct full month's treatment and everything necessary to its perfect use.

"Snuffless" is the only perfect Catarrh Cure ever made, and now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently, and is also wonderfully quick to relieve Hay Fever or Cold in the head.

Catarrh when neglected often leads to consumption. "Snuffless" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure Catarrh in any form or stage if used according to the direct full month's company each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "Snuffless" Catarrh Cure.

Send prepaid to any address in the United States or Canada on receipt of One Dollar. Address Det. D644, Edwin B. Giles & Company, 2330 and 2332 Market Street, Philadelphia.

ASTHMA CURE FREE!

Asthmalene Brings Instant Relief and Permanent Cure in All Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL.

Write Your Name and Address Plainly.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overpromised yourselves, but resolved to give it a trial. To my astonishment, the usual acted like a charm. Send me a full-size bottle."

Rev. Dr. Morris Wechsler, Rabbi of the Cong. Bnai Israel, New York, Jan. 3, 1901.

DRS. TAFT BROS. MEDICINE CO., Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful. After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or other.

Very truly yours, REV. DR. MORRIS WECHSLER.

AVON SPRINGS, N. Y., Feb. 1, 1901.

DR. TAFT BROS. MEDICINE CO. Gentlemen: I write this testimony from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past twelve years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your window on 130th Street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully, O. D. PHELPS, M. D.

Feb. 5, 1901.

DR. TAFT BROS. MEDICINE CO. Gentlemen: I was troubled with Asthma for twenty-two years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit.

The ruler of Abyssinia has sent King Edward a live lion cub. It is hoped the cross old British lion may take kindly to the little stranger.

A. J. Snell wanted to attend a party, but was afraid to do so on account of pains in his stomach, which he feared would grow worse. He says, "I was telling my troubles to a lady friend, who said: 'Chamberlain's Colic, Cholera and Diarrhoea Remedy will put you in condition for the party.' I bought a bottle and took pleasure in stating that two doses cured me and enabled me to have a good time at the party." Mr. Snell is a resident of Summer Hill, N. Y. This remedy is for sale by all druggists.

Gold in the Black Hills.
The Burlington Route has recently issued a 48 page booklet bearing the title "Mineral and Mining in the Black Hills." The book is one which should be read by every mining man in Colorado. It gives more information about the mines of the Black Hills than has ever before been placed between two covers. A copy will be mailed free on application to the undersigned.

The Black Hills need Colorado men and money. Several of the shrewdest men in this state have already invested heavily in the Hills. The results so far have been more than satisfactory. The completion of the Burlington's new line to the Northwest brings the Black Hills within a night's ride of Denver. You can leave Denver tonight and be in Deadwood or Lead City tomorrow afternoon.

TO STOP A COLD.						
After exposure or when you feel a cold coming on, take a dose of Foley's Honey and Tar. It never fails to stop a cold if taken in time. Fischer Drug Co.						
Young Mr. Pullman's fast life brought him to the end of his run away ahead of schedule time.						
A man who died from delirium tremens in Arkansas was educated for the bar, and seems to have endeavored to live up to his education.						
C. W. Lynch, Winchester, Ind., writes: "I owe the life of my boy to Foley's Honey and Tar. He had membranous croup, and the first dose gave him relief. We continued its use and it soon brought him out of danger." Fischer Drug Co.						

THE GHOST
Of our boyhood resolved itself to an old tree when we had courage to examine it. Manhood has its ghosts, which, to the man who has courage to confront them, prove to be as harmless as the ghosts of boyhood. One of the ghosts which scare a great many people is the ghost of lung disease. But experience shows this ghost to be very harmless. In cases almost innumerable "weak" lungs have been made strong, obstinate coughs stopped, and bronchial affections cured by the use of Dr. Pierce's Golden Medical Discovery. And these cures have been wrought in many cases after the doctor had said: "There is no help for you." Don't give in to the superstition of a past age. Give the "Golden Medical Discovery" a fair and faithful trial. It always helps. It almost always cures.

"When I commenced taking your medicine eighteen months ago, my health was completely broken down," writes Mrs. Cora L. Sunderland, of Chaneville, Calvert Co., Md. "At times I could not even walk across the room without pains in my chest. The doctor who attended me never helped again. At last I concluded to try Dr. Pierce's medicine. I bought a bottle of 'Golden Medical Discovery,' took it, and soon commenced to feel a little better; then you directed me to take the 'Golden Medical Discovery' and the 'Favorite Prescription,' which I did. Altogether I have taken eighteen bottles of 'Golden Medical Discovery,' twelve of the 'Favorite Prescription,' and six of 'Pellaea.' I am now almost entirely well, and do all my work without any pain or distress, and can run with more ease than I could formerly walk."

Dr. Pierce's Medical Adviser in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

The Illinois girl who pinned her name and address to an apple and received a proposal of marriage in consequence should beware! A sphere of similar fruit caused Madame Eve a whole lot of bother some years ago.

A NEW REMEDY.
The old friends of Chamberlain's Cough Remedy will be pleased to know that the manufacturers of that preparation have gotten out a new remedy called Chamberlain's Stomach and Liver Tablets, and that it is meeting with much success in the treatment of constipation, biliousness, sick headache, impaired digestion and like disorders. These tablets are easier to take and more pleasant in effect than pills, then they not only move the bowels, but improve the appetite and correct any disorders of the stomach and liver. For sale by all druggists.

A GOOD COUGH MEDICINE.
From Gazette, Toowoomba, Australia.
I find Chamberlain's Cough Remedy is an excellent medicine. I have been suffering from a severe cough for the last two months, and it has effected a cure. I have great pleasure in recommending it to all sufferers from malady of this kind.—W. C. Wockner. This is the opinion of one of our oldest and most respected residents, and has been voluntarily given in good faith that others may try the remedy and be benefited, as was Mr. Wockner. This remedy is sold by all druggists.

PERSONAL MENTION

H. Hase has returned from a trip to Antonio.

Mr. and Mrs. C. G. Wagner of Thornton, are in Santa Fe today.

Chief Justice W. J. Mills came over from Las Vegas last evening.

J. H. B. Gilmour of Willis on the Pecos, is spending the day in the city.

Mr. and Mrs. J. W. Gore and children of Hill City, Kas., are visitors in Santa Fe.

J. M. Freeman, Esq., a prominent attorney of Greeley, Colo., is in Santa Fe on legal business.

Sheriff Cleofes Romero and wife of Las Vegas, are enjoying the fine weather of Santa Fe today.

Deputy Sheriff F. Uilbarri of Las Vegas, arrived last evening and will spend several days in Santa Fe.

Mrs. Viles and daughter of the Viles ranch on the Pecos, are in the city today on a shopping trip.

Sheriff Fred Higgins of Roswell, and Sheriff M. C. Stewart of Carlsbad, left for their homes last evening.

Dr. and Mrs. C. R. Lutton of Grand Rapids, Mich., are guests of Mr. and Mrs. A. R. Gibson. Dr. Lutton has extensive mining interests in New Mexico.

Peter McRae of Escanaba, Michigan, who has mining interests in the Broome district, was among the arrivals from the east last evening.

Hon. S. H. Spooner of Indianapolis, Ind., special United States attorney for Indian depredation claims, returned last evening from Albuquerque, but will leave again for the Duke city tonight from where he will go east.

Mrs. J. W. Blanchard, who has been at Detroit the past few months undergoing treatment for cancer, is reported to be recovering nicely, the cancer having been removed without an operation with the knife.

V. A. Wiggins, one of the proprietors of the Windsor hotel of Denver, was in the city today en route to Albuquerque, where he has some legal business and property interests. He left this evening for that city.

Dr. C. H. Conner of Kirksville, Mo., is in the city. He is a graduate of medicine and also a graduate of the Kirksville College of Osteopathy, but it seems under the present medical law, the territorial board of health will not allow him to practice in the territory. The doctor claims to have a diploma from a reputable medical college at St. Louis, Mo.

SENTENCED TO THE PEN.

The Already Crowded Institution Is to Receive More Guests.

Several penitentiary sentences have been handed down this week in the district court at Las Vegas.

Vicente P. Romero formerly a printer at Santa Fe, got 18 months for slashing his wife with a knife.

Eligio Gonzales was sentenced to six years for killing Francis Saliz.

Raymond Nieto pleaded guilty to assault and received a sentence for three years for beating a woman.

William P. Eddington, the self-admitted perjurer who attempted to implicate for which he says he was to have received \$1,000, was sentenced to three and one-half years.

The sentence of Eluterio Martinez, for obtaining money under false pretenses, was suspended during good behavior.

Walter Peterson, a hotel clerk, was given six days in jail. He was arrested, accused of taking money deposited by a guest for safe-keeping and putting it on a roulette wheel.

MINING NOTES.

Oil Will Be Drilled for in the Vicinity of Chama.

C. J. Dold has been given the contract to furnish the lumber for the new mill to be constructed on the Denver near Elizabethtown, Colfax county.

It looks as if Chama, Rio Arriba county, would be the next center of an oil excitement. Drilling will be commenced within the next week or two on the Tierra Amarilla grant near the little Chama within half a mile of Chama.

Colonel Richie, of Chicago, and A. Jack, of New York, have left Red River, Taos county, after spending two or three days inspecting the Garibaldi group of mining claims situated on Bitter Creek. The property has been bonded to Captain E. W. Emmons, who had the visitors inspect the property. They are well satisfied with Captain Emmons securing the bond from the owners, John Conley and Louis Marcell.

The development of the property will be pushed after the holidays. A company will be organized under the laws of the territory and Mr. Jack will have charge of the property. The company will place on the ground whatever machinery is necessary to develop the property.

The drill on the Anascondo mine at Red River, Taos county, is now down 300 feet and is cutting a fine body of copper ore.

A Stepmother's Cruelty.

A girl named Juliana Barragan at Silver City, has been so cruelly treated by her stepmother, that the latter was arrested and placed in Grant county jail, pending the outcome of the girl's injuries. The girl in some manner offended the woman who has a violent temper. The latter tore all the clothes from the girl's body, beat her shamefully and then threw her out of the house. When the latter tried to gain admission the woman picked up a dish pan of boiling water and threw it over the naked girl, scalding her badly about the head and body. The girl's injuries are serious, but the attending physician believes that she will recover.

A Change in Agents.

R. J. Woodward, agent of the Santa Fe railroad at Silver City, has been promoted to the El Paso agency which was made vacant by the promotion of C. J. Keer, who goes into the office of General Superintendent J. E. Hurley at La Junta, Colorado. W. A. Bortin, the Santa Fe agent at Magdalena has been promoted to the Silver City agency.

The Electric Bath.

THE ELECTRIC LIGHT BATH is found to be far superior to any mineral spring on earth. Indorsed by all the leading sanitarians in the United States and Europe. The Electric Light or ray bath is nature's own, giving a healthy glow and tan to the skin that can be acquired in no other way except by exposure to the sun. The electric light is the only light on earth that will impart to plants the life giving qualities that the rays of the sun impart. A perfect delight to take, no trouble to administer. Can be had only while the electric light current is on. Try it and be convinced. The electric bath cures when mineral springs fail. Found in connection with Kerr's Shaving Parlors and bath rooms where everything will be found first class.
