may-june 1983 • new mexico architecture

The May/June issue is, at last, in your hand. While the calendar may have reached late summer, **New Mexico Architecture** is approaching late spring. Stop the world - I want to catch up!

Rumors have reached my ears from several sources. These rumors claim that **New Mexico Architecture** magazine is to cease publication. **Not so!** It has been reported that these rumors have emanated from architects. Well not from this one! In fact copy for the July/August issue is at the printers.

Along with the "rumors" has come the complaint that it is difficult to get published in **NMA**. If you have something to say, type it out; if your recently completed building is good, photograph it. Then send it to me. Frequently, over the many years that this magazine has been in existence, I have requested articles and asked for publishable information and photographs of proposed project sketches and for completed buildings. Sometimes I got responses; sometimes I did not. That is to be expected. However, the pages of **New Mexico Architecture** are for your use; only you know what you are thinking and doing. I need completed buildings, articles, proposed building projects, sketches, news items.

I would like to welcome new advertisers. Rockbottom Sales and Plastic Supply and Fabrication joined us in March/April. Contract Associates joins us in this issue. Also, we are most grateful to those advertisers who are continuing their support of the magazine. We encourage our readers to thank and, more importantly, support the advertisers who are supporting the magazine. We cannot do without them; they pay for it. But they need to be supported by the architectural profession. I thank them all.

John P. Conron, Editor

## WARNING! KOHLER PRODUCES SIDE EFFECTS.

Take one Kohler Perma-Wall™ bath surround and brace yourself for the side effects:

Colors — like you've never seen before. Because they've never been on surrounds before. Bright, bold colors that will match Kohler baths already installed or on your mind.

Forms and textures — ones that

excite your selling senses. Perma-Wall is a five-piece surround made of durable ABS. It has two molded-in soap dishes and acrylic grab bar.

Visions of ease — the kind every installer seeks. Perma-Wall fits most 5" tubs. There are only two end pieces, two corner pieces and a backwall to put up and the adhesive

and sealant are furnished.

Perma-Wall is a product of Kohler research and is now available for national consumption.

But beware. Its beauty, durability and simplicity can be habit forming.

See us for more information about this and other fine Kohler products.
