New Mexico demands Statehood from the Fifty-Seventh Congress.

The New Mexico Territorial Fair will be held in Albuquerque from October 15th to October 19th. Premium List will aggregate \$10,000.

ALBUQUERQUE, SEPT. 6, 1901.

All the school teachers in New Mexico must pass a physical examination. No consumptive teachers are employed.

Make up your mind to visit the Territorial fair. It is going to be the best exhibition held anywhere in the west this year.

To her great amazement, Mrs. Nation has learned that there are more saloons in New York than she can demolish in a lifetime.

The mint turned out \$10,000,000 in coin of the republic in the month of August, including \$3,141,000 in silver dollars of the fathers.

The future of all the Rocky Mountain states and territories, as productive mining fields, depends on their quartz or mineralized rock deposits.

The Illinois state board of health reports that there are 4,000 quacks practicing medicine in Chicago, yet that city prides itself on having a remarkably low death rate.

All the public and private schools of the territory are in a flourishing condition. Thanks to P. A. Hubbell, the public schools of this county are in better shape than ever before.

Havana had 500 cases of yellow fever three years ago, and but three cases this year, or less than ever known in any other season. That shows the benefit of cleaning a city.

The best wax matches used in this country are imported and come from England. No other manufacturer in the world, it is asserted, has mastered the art of making a wax match that will remain stiff in the warmest climates.

The corn crop is the most valuable crop in the country. The crop of 1900 was the largest, except that of 1897, in our history. The total production was 2,078,143,833 bushels. Of this only a little more than 10 per cent was exported.

Norway was the last of the European countries, except Turkey, to adopt the art of printing, notwithstanding its early manufacturing history, but today has 429 newspapers and periodicals, an average of one to every 5,000 of population.

College education pays even in—or especially in—politics. Two-thirds of the senators and three-fifths of the representatives of the United States have a college education. The late president, vice president and five of the eight members of the cabinet.

The trouble with most strikes is that the whole country suffers because a few men are dissatisfied or because a few employers are grasping. Strikes are not private. They are longer; they are public, and sooner or later they will be regulated by the public.

"The man who carries Christianity into his every day," Vice President Roosevelt, "stands a better chance of making a success of life than one who does not." There's a sentence which is made of pure gold. It's the man who lives as he talks that cuts a figure in this world.

It is a proper tribute to military skill and courage which the postoffice department proposes to pay to General Lawton by placing his portrait on one of the new issues of stamps. Lawton was the ideal American commander, brave to rashness, kind and considerate to his men and a fighter who never knew when he was beaten.

The announcement that Denmark has agreed to accept the offer of 16,000,000 kroner by the United States for the Danish West Indies, if finally authenticated, means the withdrawal of another foreign flag from the western hemisphere and the acquisition by this nation of the finest harbor and site for a naval station in the entire group of islands.

According to the returns of the last census, 47 per cent of the population of New York city is foreign born. There has been little change in the ratio of the foreign to the native born since 1890. In that year the former numbered 28 per cent of the whole, and persons of foreign birth and of native birth and foreign parentage comprised almost 52 per cent.

EX-SENATOR ROSS.

The newspapers of the country are wailing their time talking about the hard luck of ex-United States Senator Edmund G. Ross. He is in need of any one's sympathy. He is 75 years old, in good health and has his subscription paid in advance to The Citizen. He is to be envied, rather, because he has led an honest, upright life, reared a large family and is passing his later years in peace and quietude, respected by all his neighbors. In the prime of life he was honored by his fellow citizens and had the cour-

STOOD DEATH OFF.

E. B. Munday, a lawyer of Henrietta, Tex., once fooled a grave digger. He says: "My brother was very low with malarial fever and jaundice. FOUR BATHERS DROWN AT LONG BRANCH.

A HUNTER KILLED BY HIS OWN GUN—CAR AND ELEVATOR CRUSH OUT LIFE—SEVERAL SUICIDES.

Mrs. Isola Bambini, at her parlors at the corner of Railroad avenue and Fourth street, is prepared to give thorough scalp treatment, restoring the hair, do hair dressing, treat cures and dandruff, give massage treatment and manicuring. Mrs. Bambini's own preparations for restoring the hair, complexion cream and lotion for gentlemen after shaving, have been pronounced the finest and best made. Give her a trial.

Is it not reasonable to suppose that the man who devotes all his time and energy to the buying and selling of shoes can give you better service, more style and a higher grade of shoes for the same money than the man handling a good many different lines of merchandise? If you have not noticed the difference, just examine our stock of school shoes and compare them with those carried in the general stores. We will leave it

Ladies' Walking Hats

Our millinery department with every year has more and more convinced us of its popularity. We need not look far for the reason. Being on the alert for all the latest novelties that are put on the market, we are always the leaders in style.

Our merchandise coming from headquarters places us in a position to sell at prices which others might pay. The advance styles of walking hats have just arrived. They are beauties, ranging from 75 cents to \$2.25. Heavier hats are again in vogue, of which we have a large line on display. We also call your attention to our tailor made hats, which are extremely chic and nobly productions of the milliner's skill.

Room will permit us to detail any more of our most popular creations, nor can we give due justice to same by so doing.

CALL AND SEE FOR YOURSELF.

ROSENWALD BROS

Letter to Messrs. Hall & Learnard

from their old employer Lew H. Clement, present manager of Whitely & Courrier Co., of Toledo, Ohio, the largest music house between New York and Chicago, says:

TOLEDO, OHIO, MAY 1, 1900.

Dear Friends—Yours of recent date received and we are very glad to hear from you. I was also glad you were going to do some piano business and had succeeded in securing the agency of Clifford Chickering's pianos. I hope you will do well, and one thing sure you are starting out right in pushing high grade pianos. It is sometimes harder to sell a GOOD piano because of course it must bring more money, but it MAKES FRIENDS and not enemies, and its the good words of those who have bought pianos from you more than anything else which makes it easy to sell others. The Chickering Bros. will prove all you can claim for it. My brother-in-law in Detroit, C. H. Green, has had one over five years and ALL SWEAR BY IT AND NOT AT IT. With our best wishes,

NOTE—We believe our success during the past year proves the above letter to be true.

Sincerely yours,
LEW H. CLEMENT.

HALL & LEARNARD.
