## EFFORT FAILED.

### Carnegie Mill Workers Refused to Strike.

### Hotel in Pittsburg Burned by Gasoline Explosion.

### Negro Fled Assaulted Little White Girl in Iowa.

#### ROOSEVELT AT MINNEAPOLIS.

Pittsburg, Pa., Sept. 2.—The steel workers who have been trying for a week to get employees of the Carnegie plant at Duquesne to come out made a last stand today and failed. The workers on their way to the mills and induce them to remain away was abandoned. Today the workers are in full operation. The strikers admit that there is little hope of closing the plant. The strike has settled down to a question of endurance, both sides claiming advantage. Interest in the labor day, owing to the Amalgamated strike, was never so great as this year and the processions contained workmen from almost every trade in this great industrial center. After the parade a reunion of the allied trades of western Pennsylvania was held. Addresses were made by President Shaffer, Simon Burns and George J. Churchill.

**Hotel Burned.**  
Pittsburg, Pa., Sept. 2.—The destruction of the Hotel McKee, a frame structure in the east end of the city, today, resulted in the death of Harry McKee, a boy, and the injury of four other employees of the hotel and the narrow escape of many more. McKee was killed by the explosion of a gasoline stove.

#### ASSAULTED BY NEGROES.

### Attended Rape of a White Girl in Iowa.

Des Moines, Ia., Sept. 2.—While going to Sunday school yesterday Ada Ware, the daughter of a farmer residing between Valley Junction and Commerce, was assaulted by a negro and carried into the woods. After most of the clothing was torn from her she escaped. Scattered, bleeding and nearly naked, she ran to her father's home. Two colored men, believed to be part of the gang, were found. Miss Ware identified one of them. The negro was brought to Des Moines for safe keeping.

#### Roosevelt at Minneapolis.

Minneapolis, Minn., Sept. 2.—Vice President Theodore Roosevelt arrived here this morning and made a speech at the opening of the state fair. His program includes a reception and luncheon at the fair grounds by the State Fair association, review of the Thirtieth Minnesota regiment of volunteers and a dinner at the Minneapolis club this evening.

#### San Francisco Parade.

San Francisco, Cal., Sept. 2.—Labor day in this city was celebrated by the labor unions, which gave a public demonstration of their strength by parading through the business sections of the city. Twenty thousand men were in the march, including nearly every union in this city and a great majority of the union men of the city. The parade was the orator of the day.

#### Bryan Speaks.

Kansas City, Mo., Sept. 2.—William J. Bryan addressed a large and enthusiastic crowd here this afternoon, paying especial attention to labor questions.

#### An Eight-to-Five Game.

The Como Estomac club and a few admirers of the members went up to Santa Fe yesterday. The game with the Capital City boys was an interesting one, but they played too strong for the home team and came out victorious with a score of eight runs to their credit. While the Como Estomac club found they needed three more to make the game a tie. Some fine plays were made by members of both clubs and the best of harmony prevailed among the players.

Rby McDonald, a member of the Browns, and P. F. McCanna, secretary of the Fair association, went up from here to consult with the boys about

## FRANCE IS SULKY.

### Refused to Give Glad Hand to Sultan.

### Revolution Threatened Against Shah of Persia.

### All the Boers in Reconcentration Camps to Be Deported.

#### SUNDAY BASE BALL GAMES.

Constantinople, Sept. 2.—M. Rapti, counselor of the French embassy, and other members of the embassy staff, took the guardship Vateur on an excursion up the sea of Marmara in order to avoid the vessel as other warships in the harbor were dressed in recognition of the anniversary of the sultan's accession to the throne celebrated yesterday. Members of the embassy did not participate in the congratulations of the diplomatic corps nor was the embassy illuminated. The report that the sultan had appealed to Germany to use her good offices to settle the dispute with France is confirmed. Germany is understood to have declined the sultan's request.

#### Report of Drouth Exaggerated.

Dallas, Tex., Sept. 2.—Advices to the News show that reports of the drought in Zapata county are much exaggerated. Representative Seabury, who represents Zapata county in the legislature, has letters from friends in various parts of the county advising him that the reports that anyone had starved to death were unfounded. There has been no suffering. What some have not made out is that the crops are in a state of distress, but the better classes are willing and able to sustain them. This is being done, rendering outside aid unnecessary.

#### Requested to Leave France.

Paris, Sept. 2.—The result of Munir Bey, the Turkish ambassador to France, was to request the French government to request the Turkish ambassador to leave France immediately. Munir Bey departed for Switzerland last evening.

#### At Denmark Home.

Elsinore, Denmark, Sept. 2.—The Russian imperial yacht, with the czar and zarina on board, anchored here at 2 p. m. today. The imperial party was received at the water side by King Christian and all the members of the royal family.

#### Buy Danish Islands.

London, Sept. 2.—A dispatch to the news agency from Copenhagen says that the new Danish minister has declined to accept the United States offer of 16,000,000 kroner for the Danish West Indies.

#### Business Suspended.

New York, Sept. 2.—Labor day was observed in this city today by general suspension of business. There was no parade, the day being given over to picnics and outdoor sports. Rain fell at intervals.

#### Turkish Ambassador.

Paris, Sept. 2.—Munir Bey, Turkish ambassador to France, has returned to Switzerland, where he will remain until the controversy between the two countries is settled.

#### Duke of Salsbury.

London, Sept. 2.—The Birmingham Daily Post says: "King Edward is likely to confer a dukedom on Lord Salisbury at the time of his majesty's coronation."

#### Coming Home.

Pekin, Sept. 2.—H. G. Squires, secretary of the United States legation at Peking, is expected home today on leave of absence.

#### Miss Edith Stevens.

Miss Edith Stevens, a popular public school teacher of this city, who enjoyed her summer vacation among relatives of the New England states, especially Maine, returned to the city last night. The young lady reports having had a most delightful vacation and states that she distinguished herself by catching a six-pound salmon.

#### Wounded Gambler Fires Five Bullets.

Each Then Took Effect. As a result of a row in Joe Hoffman's saloon at milepost 192 on the El Paso & Northeastern extension, early this morning, five men were shot and one badly cut, says a dispatch to the Denver News from Alamogordo. Hoffman was dealing monte when the row arose with several Mexicans playing. One of Hoffman's five bullets suddenly drew a seven-inch dirk and stabbed Hoffman, all his Mexican companions at the same time drawing knives.

#### Hoffman drew a revolver and began firing, putting two bullets into Lindo.

in each leg, while the second was through the arm and the third got a flesh wound in the side. Charles Lewis, who was sitting in the saloon, received a bullet through the left hip. Every one of Hoffman's five bullets took effect. Hoffman was badly cut and is not expected to live. Deputy Sheriff Laxson of Lincoln county brought Lindo and the two other Mexicans here to place in the hospital under the mistaken impression that they were the company's employees. They were privileged to treatment. President Eddy humanely allowed them to be taken to the hospital rather than send them back.

Taos is advertising the Indian carnival which will take place in that ancient pueblo September 30 and October 1 and 2. The Taos Range says that every year hundreds of people from all parts of the country go to Taos to see the Indians in their weird sun dance and feast of the harvest moon. There are also many interesting sights about the old adobe pueblo which are worth going a long distance to see. Here is the old home of Kit Carson, the pathfinder; the home of Governor Bent, New Mexico's first American governor; churches several hundred years old; beautiful mountain scenery and a civilization that lives in the tradition of the days of Montezuma—that inhabits the same houses, cultivates the same fields, practices the same customs and lives the same life that it did 300 years ago. Of all fiestas to be held in the west there are none more unique or interesting than the annual festivities at Taos.

**INJURIOUS TO NEW MEXICO**

Do Nothing Policy of Surveyor General Vance.

HE SHOULD BE RETIRED.

Of all the outrageous, abominable and contemptible proceedings in connection with the business of the surveyor general's office in New Mexico, there is no one more injurious to the state than the policy of the surveyor general, Vance, in connection with private land claims.

For 1898, record book shows, as appropriated by congress, \$15,000 for private land surveys; at the close of year books show paid out \$198.25, balance turned back into treasury.

For 1899, appropriation by congress for private land surveys, \$15,000; at the close of year books show paid out \$182.52, balance turned back to treasury.

For 1900, appropriation by congress, \$15,000; surveyor general Vance, contracts for only \$1,885.36; and all except a couple of hundred dollars turned back into the treasury. As a result of so much going back into the treasury and the surveyor general letting such small contracts, congress cut the appropriation for 1901 down to \$10,000, a loss of \$5,000. If delegates of New Mexico do not pay more attention to congress and still more to the surveyor general's office the next year, the surveyor general will be forced to cut out altogether. Can the reports be true that have been quietly circulating around the territory for several years that the present surveyor general stands in with the large grant owners, for until their grants are surveyed they escape all territory, school and city lands.

But to return to the surveyor general's report for 1899. During the year seven contracts, No. 326, 327, 328, 329, 330, 331 and 332, were made under special instructions; 17 contracts being surveys and corrected surveys of private land claims. Some of the seven surveys of public lands included surveys of some small holdings. The owners of small holdings must have patience. As there are nearly 5,000 small holdings, and by surveying two each, all will be surveyed in about 2,500 years. The owners must have patience. Patience! The bereaved husband cried, as the tears rolled down his cheeks and his friends tried to console him in his great grief. Patience, you say! That's just what I am crying about. I asked Patience (the survey girl) be funeral if she would have me, and she said no. If the people of New Mexico were asked if they wanted their present surveyor general for another four years, the cry of 99 out of every 100 would ring out loud and distinct, No! No! No! Not for that long a time.

The people should let their rifles ring out till they ring loud and long around the ears of the president, much the same as they did for 1899, total measurements 1,462. For mineral surveys \$1,000 deposited. Rejected all surveys of H. T. Brown under contract 291. (As 1899 contracts are 326,332, and 1898 were 314, 315, then must have been for 1896 or 1895. Five or six years from time contract is left till acted on is quick work.) But to the report, Patience! There are in this office patents to private land claims which have not yet been delivered to the patentees, some of which have been in this office for many years, and some have been in this office for 27 years. The government one-half the costs of surveying and platting the same as required by law, but which law has not yet in any instance been enforced in this territory. For proper and just cause I revoked the report for 1899, United States Deputy Mineral Surveyor, February 8, 1899, and reported the same to your office." And now comes that claim for the second year of platting the mineral district, including the claim of the 23 plat-tered by former Surveyor General Eastley. The report says: During the said fiscal year mining district plats were completed for the 27 mining districts in this territory, which required the making of 138 district plats. Estimates for 1900—Surveys, public lands, \$25,000; private land claims, \$25,000; survey general, \$3,000; clerical force in office, \$12,500; contingent expenses, \$1,700; total, \$68,300.

**WHAT CAUSES DANDRUFF.**

Greatest European Authority on Skin Diseases Says It's a Germ.

The old idea was that dandruff is a scale of skin thrown off through a feverish condition of the scalp. Prof. Unna, Hamburg, Germany, European authority on skin diseases, says dandruff is a germ disease. The germ burrows under the scalp, throwing up little scales of cuticle and sapping the vitality of the hair at the root. The only hair preparation that kills dandruff germ is Newbro's Herpicide. "Destroy the cause, you remove the effect." Not only cures dandruff, but stops itching hair and causes a luxuriant growth. Delightful hair dressing.

### Letter to Messrs. Hall & Larnard

from their old employer Lew H. Clement, present manager of Whitney & Courrier Co., Toledo, Ohio, the largest music house between New York and Chicago, says:

TOLEDO, OHIO, MAY 1, 1900.

HALL & LARNARD, Albuquerque, N. M.  
Dear Friends:—Yours a recent date received and we are very glad to hear from you. I was also glad you were going to do some piano business and had succeeded in securing the agency of Clifford Chickering's pianos. I hope you will do well, and one thing sure you are starting out right in pushing high grade pianos. It is sometimes harder to sell a GOOD piano because of course it must bring more money, but it MAKES FRIENDS and not enemies, and its good words of those who have bought pianos from you more than anything else which makes it easy to sell others. The Chickering Bros. will prove all you can claim for it. My brother-in-law in Detroit, C. H. Green, has had one over five years and ALL SWEAR BY IT AND NOT AT IT. With our best wishes,  
LEW H. CLEMENT.

NOTE—We believe our success during the past year, proves the above letter to be true.

He assisted them with their baggage and remained with them as long as possible before the train started. When the conductor announced that all was ready Mr. Salas leaned over and kissed each member of his family, and in stepping from the platform he was struck by the engine of No. 8, which was passing, and thrown back and killed.

Misses Gertrude and Ruth Welsh, who have been pleasantly entertained in this city for a short time by Mr. and Mrs. D. A. MacPherson, left for their home in Chicago this morning. The young ladies made many friends here and their acquaintances look longingly for the day of their return.

John M. Moore, jr., son of Colonel J. M. Moore, the real estate and insurance man, who has been at the Hawaiian Islands for the past three years, is in the city on a visit to his parents. He will remain a few days and then go to Chicago. At present he does not know if he will return to Honolulu or not.
