THE WIND BAG IS BURSTED

Senate Committee Will Make Unanimous Recommendation to Confirm Otero's Nomination.

CHARGES ARE UNFOUNDED

The Confirmation Will Be Had on Monday—The Senate Committee Pays No Attention to Berger—Oatman Who Made Charges Not Present.

Special to the New Mexican.

Washington, Jan. 10.—The senate committee completed the hearing of the charges against Governor Otero and the protests against his confirmation as governor of New Mexico yesterday afternoon. William M. Berger of Santa Fe, talked and talked and after hearing his talking the committee agreed to make a unanimous report in favor of the confirmation of M. A. Otero to be governor of New Mexico. Upon the resumption of the senate Monday the nomination will be confirmed and the unavailing idea among the senators is that such confirmation will be unanimous, as the charges had no substance to sustain them.

T. B. Catron who signed the charges against the governor, was not present at the hearing, but Berger claimed to represent him.

Governor Otero and family will reach Santa Fe the latter part of the coming week.

The story telegraphed last Monday to a Denver paper from here that Governor Otero and T. B. Catron had reconciled all differences and that Catron had given up the fight has no foundation whatever.

IT IS TO LAUGH.

The Gay Spectacle That Otero's Opponents Are Making of Themselves.

Special to the New Mexican.

Washington, Jan. 10.—It is reported here that the Berger crowd now claim that the specific charges they had filed against Governor Otero in the department of the interior have been stolen, which of course, adds to the gaiety of the situation. The committee yesterday after listening three full hours to the tedious reading of affidavits by T. B. Catron and others, read with considerable gesticulation and gusto by Berger, but containing not one specific charge against Governor Otero of dishonesty or malfeasance in office, informed Delegate B. S. Rodey and eleven others, including five Democrats who desired to speak on the behalf of Governor Otero, that it was not necessary for them to say a single word. The committee went into executive session for three minutes and then announced its decision to report the governor's nomination to the senate unanimously.

THE PACIFIC CABLE.

Washington, Jan. 10.—The house committee on commerce took up the subject of the Pacific cable. The main question is whether the cable shall be constructed by the government or by private parties. The hearing today was devoted to an explanation, by G. G. Ward, vice president of the Commercial Pacific Cable Company, of the plans of that organization. He stated that contracts had been made for the manufacture and laying of a cable to Honolulu by November 1 next, and the company intended to extend the cable to Manila within two years from next November. He gave the cost as between \$10,000,000 and \$12,000,000. Mr. Ward gave an expected rate to Manila of \$1 and to Honolulu of 25 cents to 50 cents a word.

The permanent census bill was re-committed to the census committee.

A thorough examination of the tunnel was made, including the workings of the block signal system. Tests were made also of the distance at which lights could be seen through smoke and steam.

THE REVOLUTION IN PARAGUAY

A Collision Occurred in the Chamber of Deputies During Which a Senator Was Killed.

PRESIDENT ACEVAL RESIGNS

The Reins of Government Have Been Placed in the Hands of Vice President Hector Carvallo—Revolution Started in Asuncion.

Buenos Ayres, Jan. 10.—The rumors circulated here yesterday, of a revolution in the republic of Paraguay, turn out well founded. The revolt, which broke out in Asuncion, the capital, was for the succession to President Aceval, whose term expires in November of this year. The revolutionary junta was composed of General Caballero, General Escobar, Colonel J. A. Escudera, minister of war; Senor Marro, cabinet minister, and Senor Prietas, President Aceval resigned the presidency, and the congress accepted his resignation. A collision occurred in the chamber of deputies, during which Senor Facundo Insfran, president of the hygienic council, was killed, and General Caballero, Senor Miguel and Corbalan and Deputy Fernando Careras severely wounded. The congress of Paraguay placed the reins of government in the hands of Vice President Senor Hector Carvallo. Great excitement prevails in Asuncion.

Hill, of the Great Northern railway, this afternoon addressed the Tri-state Association of Grain and Cattle Growers, explaining and justifying his railroad consolidation. The crowd was very large and included farmers and businessmen from all parts of Minnesota and both Dakotas. In the course of his speech he said: "Our object in acquiring the Burlington jointly with the Northern Pacific railway was to insure an outlet to the best markets for grain, live stock and lumber for the north states and to increase the volume of our traffic to the end that we might at all times be able to establish the lowest rates and most favorable conditions under which traffic must be carried."

A Cleveland Bank Failure.

Cleveland, Ohio, Jan. 10.—The Euclid Avenue Trust and Savings Company made an assignment today to Attorney Frank H. Ginn. The latter's bond was fixed at \$250,000, by Judge Bloch, of the insolvency court. Subsequently Ginn made the following written statement: "The directors of the bank decided to make an assignment for the benefit of all creditors for the reason that the bank has been unable to realize upon its assets rapidly enough to meet the unusual demands made upon it recently. The directors state that no depositor and no customer of the bank will lose a dollar and that the bank is solvent, and its present embarrassment arises from the fact that its patrons have been unable to meet their obligations to take care of the unusual withdrawals. The bank has liquidated during the past three months, from about \$2,200,000 to \$2,400,000 of its deposits, and the assignee will merely continue the liquidation under orders of the court."

To Protect American Interests.

Washington, Jan. 10.—It is probable that Admiral Higginson, with the flagship Kearsarge, and several other vessels of the North Atlantic squadron, will shortly repair to Venezuelan waters, making his headquarters at La Guayra. The ships will have an unusually large complement of marines aboard. These precautions are taken, not with any offensive intent towards Venezuela, but merely to guard against the outbreak of anarchy and rioting in the event that the revolutionists should prevail over Castro's forces in the field.

Will Lay Down Arms.

London, Jan. 10.—The Globe's financial editor said that a report was current in the city today that the Boer chiefs made overtures to the British government to the effect that they were prepared to lay down their arms, providing they were not exiled. Wednesday next is a Boer feast-day. It is said the surrender of the Boers would probably occur then. The war office officials asserted that no proposals to surrender had been received.

WEDDING BELLS IN LINCOLN COUNTY

The Matrimonial Fever Is Spreading Over the Territory—A Beautiful and Picturesque Wedding in the White Mountains.

A CHALLENGE TO BEAT AN EXCELLENT SCHOOL RECORD

Special Correspondence New Mexican.

White Oaks, Jan. 10.—The weather here is ideal and one must be indifferent indeed not to comment upon it. Not for many years have we had such delightful winter weather in this country.

The Christmastide festivities were entered into with joyous eagerness by everyone. The congregational, Methodist and Baptist churches each had a Christmas tree, with appropriate entertainments given by the Sunday school of each. All were given on the same evening and the three churches were crowded with people. Never before had the Christmas trees been so beautifully decorated or so heavily laden with presents for the Sunday school pupils. Every boy and girl in town or visiting in town was remembered with presents of an appropriate nature.

Many company dinners were served in the hospitable homes of White Oaks residents and again on New Year's day. An effort was made to give everyone in town a taste of Christmas cheer.

A brilliant church wedding was that of Miss Mae Lee and Edward Quinn on New Year's day at 7 o'clock in the evening in the Methodist Episcopal church, the pastor of that church performing the ceremony. The marriage of Omer Owen to Miss Hall was a quiet home wedding as was also that of Miss Clara Blanchard to Harry P. Halstead of Oklahoma. Mrs. Halstead is the only daughter of Judge and Mrs. William Blanchard, who are among the earliest settlers in this section, from Massachusetts. Another wedding in which White Oaks parties participated was that of Joseph Spence to Miss Mary Redford of Mt. Ayer, Iowa. Mr. Spence is of the company of Spence Brothers, wealthy sheep owners of Lincoln county. Another wedding was that of J. B. Collard to Miss Mattie Barrengates at Pine Lodge in Turkey Canon. If beautiful and picturesque natural surroundings insure future happiness to the newly wedded, this pair starts with most promising prospects, for Pine Lodge is ideally located. It is a massive log structure containing fifteen rooms and is situated far up in the mountains where the Iowa and New Mexico Mining and Milling Company intends to locate its large mill. None who saw the beautiful decorations, the profusion of flowers, even to a marriage bed of white carnations, the gaily costumed guests, the wealth, beauty and youth which were assembled at this wedding could realize that it was all transpiring up in the White mountains in Lincoln county, New Mexico.

The Mining Outlook continues to grow brighter in this county.

At Jicarilla, the big dredging machine will soon start up. Boring in the oil well continues and indications of oil increase. A report has reached White Oaks of a phenomenal gold strike made in the Nogal mining district.

County Superintendent of Schools Lee H. Rudisill, reports that the response to the McKinley Memorial fund is very satisfactory throughout the county. The schools too are doing excellent work. In this county the teachers' normal institute was held in the last weeks of August, yet there were 22 teachers in attendance. Two teachers' examinations have been held in which the questions furnished by the territorial board of education were used and at which 22 applicants were examined in addition to one special examination for one applicant for a certificate. The entire expense of these examinations has been \$56, charged by the examining board and there remains quite a nest egg in the normal institute fund for the next normal. Can any county in the territory give a better record of itself in that respect?

A person needs but travel through this section of New Mexico to find that the so-called native element is as fit for statehood as any of the inhabitants of the eastern states.

If New Mexico is to change its name why not make it Aztlan?

TOO MUCH PISTOL TOTTING.

Mixed With Too Much Bug Juice Causes Law Breaking at Gallup.

James Wright, a colored Catalpa miner, was held for the grand jury at Gallup for shooting Moses Daniels, also colored.

Henry Williams, a colored miner from Catalpa, was given three months in the McKinley county jail for assaulting George Shields with a revolver.

Oil was poured on an intoxicated Indian near Clarksville and fire set to him by some of the miners at Clarksville, McKinley county. The Indian was severely burned. No arrests have followed.

A Sewer for Raton.

The O'Rourke Construction Company which has the contract to build a \$10,000 sewerage system for the city of Raton, has commenced the preliminary work. Men, teams and machinery are on the way and will be all at Raton within two weeks. The construction work is to be completed in four months.

The Roman Catholic of Deming will during the present year erect a church building. The greater portion of the money needed has been subscribed already.

PEACE OVERTURES ANTICIPATED

The Boer Delegates in Holland Expect That a Neutral Power Will Take the First Step.

ANY TERMS ACCEPTABLE.

The Boers Will Submit to Anything But Unconditional Surrender.—The Delegates Earnestly Seeking a Modus Vivendi.

Amsterdam, Jan. 10.—The Boer delegates in Holland evidently anticipate that peace overtures will shortly be made. They maintain that the demand for an unconditional surrender must be abandoned, but it is privately admitted that the delegates will not reject what they call "any fair offer of terms." If negotiations are started by a neutral power, the delegates will earnestly seek to obtain a modus vivendi, which reconcile Mr. Kruger's desire for complete independence with the terms offered by Great Britain.

Mr. Snyder's record during his many years' service at the federal building has been excellent.

TERRITORIAL SUPREME COURT.

The Interesting Case of Le Grande Pratt—Rules of the Court to Be Revised.

In the territorial supreme court yesterday afternoon, case No. 223, the Territory of New Mexico, appellant, vs. Le Grande E. Pratt, appellee, was argued and submitted. The case is an appeal from the district court of Chaves county and is an interesting one. Pratt had been tried at Roswell for murder in the first degree and was convicted of murder in the second degree. The case was appealed to the territorial supreme court, reversed and remanded to the district court for a new trial on account of errors in the trial. On this second trial in the district court, Pratt was convicted of murder in the first degree, the evidence showing conclusively that he was guilty of murder in that degree. Pratt's attorneys, Freeman and Cameron, now make the contention that Pratt having been once placed in jeopardy he cannot be again tried upon the same indictment. This is the first time that this point has been raised in New Mexico and the decision of the supreme court will be an important precedent.

In case No. 900, The Bank of Commerce, appellant, vs. George W. Harrison, appellee, from Bernalillo county, a motion for a rehearing was overruled.

In case No. 888, Rosalia Armijo et al., appellants, vs. The Mountain Electric Company, appellee, from Bernalillo county, the judgment of the lower court was modified and as modified affirmed.

The following committee to revise the rules of the court was appointed: A. B. McMillan, C. A. Spies and W. H. Pope, to act with a committee of the New Mexico Bar Association.

F. A. Teed of Taos, was examined this forenoon and admitted to the bar of the territorial supreme court. He was sworn in and signed the roll.

W. A. Wilson of Deming, was not admitted to practice before the bar of territorial supreme court as reported yesterday, but will be admitted as soon as he files his certificate of previous practice.

The court adjourned this forenoon until tomorrow.

A NEW MEXICO KIDNAPING STORY

A Sensational Story Told by Mayme Yoast, a Pretty Student at the College of Agriculture and Mechanic Arts.

THE GIRL SUCCEEDED IN ESCAPING FROM HER CAPTOR

Special Correspondence New Mexican.

Mesilla Park, January 9. From Mesilla Park, Dona Ana county, comes a sensational kidnaping story, Mayme Yoast, a pupil at the College of Agriculture and Mechanic Arts, was the victim. It was shortly before Monday noon when the girl was excused from her class room to go upstairs. At the head of the stairs she met a red-headed woman who told her that Professor Gibson desired to see her outside of the building. The girl went out and was accosted by a strange man who told her that a lady was at the dormitory waiting to see her. Miss Yoast told him that she had been excused from recitations for but a few minutes and could not go over to the dormitory. He took hold of her and forced her into a carriage and drove down a lane. Miss Yoast remonstrated, but he commanded her to keep quiet. He pulled her fascinator over her face and told her if she made an outcry he would gag her with a handkerchief. He then gave her a tablet, probably morphine, which put her to sleep. At about dusk she awoke and noticed that she was being driven in the direction of Mesilla. The stranger compelled her to alight and told her to sit on a box at the edge of an acequia. He then turned his back for a moment and the girl let herself drop into the deep acequia and ran along in the main ditch. It was pitch dark by that time and she hid under a bridge after running a mile or so. She heard her kidnaper searching for her and cursing to himself, but he finally gave up the search. The girl then ran home, arriving late at night. She dropped in front of William Stewart's residence. Once inside of the house she talked rational for a while and then would drop into spells of unconsciousness.

In the meanwhile the town had been alarmed and had organized to search for her. Her mother was visiting Mrs. Isaac, when she heard some boys crying: "Found!" It sounded like "drowned!" to her and she fainted and is still suffering from the shock. The sheriff of the county is investigating the girl's story. He found the place where she had rolled in the ditch and also found her footprints in which her shoes fitted. Her feet were very sore when she returned home, showing that she had traversed a long distance. Still her story is doubted. She had been told by Professor Richards just before disappearing, that she would be out back in her studies and she cried. It is supposed she became angry and started to go home as one of the girls had seen her leave college and go toward Mesilla. Some one may then have come upon her or she may have started toward Mesilla upon her own notion.

The girl is thirteen years old, quite pretty with long curls and is quite a favorite among her classmates.

FRIDAY, JANUARY 10.
New Mexico Demands Statehood of the 57th Congress.

Of Right and in Justice New Mexico Should Be a State.

The steel trust in nine months earned \$85,000,000. No wonder that trusts flourish despite legal restrictions.

Webster Davis is again making pro-Boer speeches. Another installment of diamonds from the Boer leaders has probably reached him.

The back-bits of the New Mexico Republican reform league were quite busy during the past six months. But that is all the good it will do them.

The activity and prosperity of lodges and societies in New Mexico is an indication of progress and prosperity. The territory is lagging behind in no single respect.

Despite low prices of copper, the copper mining districts of the territory are showing unusual activity. There must be money in copper even at present prices.

With the refunding of Santa Fe county's large indebtedness, as proposed by the board of county commissioners, the county will make rapid strides towards prosperity.

Since Iowa has two cabinet offices the people of that state are becoming more and more ambitious. An Iowa man comes along and says that he wants to marry Mrs. Carrie Nation.

Now the figures come piling in showing how great the year 1901 really was in production and achievements. But marvelous as is the record for 1901, the record of 1902 will far surpass it.

The most important question before the country now is the construction of an isthmian canal. This question will be solved and that satisfactory by the Republican majority of the present congress.

The Grant county road supervisor who turned a balance of over \$41 into the county treasury, is a rare avis, a scarce specimen of the petty official who is not in office for all there is in it.

The time when one or two men can control the actions of either of the two great political parties in New Mexico has passed away never to return. Some of New Mexico's politicians, however, seem to be very slow in learning that this is the case.

It is certainly very hard lines on the New Mexico Republican reform league, but the reputable newspapers of the territory keep on disregarding the desires and wishes of that gang. The perversion of New Mexico human nature is certainly very great.

For the first time in the history of this nation, the chaplain of the senate on Tuesday prayed for the newspapermen present, and the Lord knows, some of them needed it, judging by the reports and criticism of congress and its members appearing in some of the yellow journals.

New Mexico's population is rapidly on the increase and therefore business in the district and supreme courts in the territory is increasing. Delegate Rodey's bill for the appointment of an additional associate justice of the territorial supreme court and the creation of a sixth judicial district ought to become law.

The New Mexico Republican Reform League have worried themselves needlessly over the reappointment and confirmation of Governor Otero. The New Mexican has told them time and time again that they would have nothing but their labor for their pains and so it has happened.

The office of 5th assistant postmaster general is to be created. This official is to have charge of the free delivery mail system and all matters connected with it. The business of the postoffice department is growing at a great rate and the creation of this office seems to be necessary.

The lands contained in the grant to the city of Santa Fe are too valuable to be given away. The city administration should use great care in making deeds for lands within the grant. The vacant lands in the grant are a valuable heritage and should not be sold for the present. In a few years these lands will bring very high prices.

Senator Chandler says that at present the president's business is first to see 20,000 people, then to do 2,000 trivial things and then to do 200 great things. He advocates an upsetting of custom and precedents at Washington, so as to relieve the president of seeing so many people and doing so many small things and to give him time to do great things. This is certainly a sensible move for more than one president has broken down under the strain of the little annoyances and the little duties of his office, and President McKinley might be alive today if his system had not been weakened by the doing of so many nagging little things.

The West Virginia Central Railroad in which United States Senator S. B. Elkins was largely interested, has been sold to the George Gould railroad system for \$17,000,000. Senator Elkins having been a large stockholder in the railroad, secured a nice slice of money. "To him that hath shall be given," is very well illustrated in the senator's case.

The Freshmen have claims upon the Venezuelans too. If it were not for the Monroe doctrine, Venezuela would soon be a German and French colony and the rest of South America could make up its mind to follow suit. The nations south of the United States do not appreciate as they should what a protection the Monroe doctrine is to them and what they really owe to Uncle Sam. But ingratitude is the pay of the world even among nations.

The territorial board of equalization meets on Monday next in this city. It is to be hoped that as many assessors, collectors and county commissioners as can make it convenient, will attend the meeting and consult with the board upon assessment rates to be made this year. A conference between these officials and the members of the board of equalization can be productive of nothing but good and prove for the best interest of the territory and especially of the honest tax payers.

The town of Deming is enterprising and enterprise always pays. It has offered to give the El Paso and Southwestern railroad, commonly known as the Dibsbee railroad, all the lands it needs at Deming for depot grounds, machine shops, round houses, tracking and switching facilities and the like; also for smelters and concentrating works free of charge. Deming is growing rapidly and the fact that its citizens possess a good deal of enterprise and are active, aids to its growth and progress materially.

Montague Lessler, the Republican candidate for congress in the 7th congressional district of New York, was, on Tuesday last, elected to represent that district in congress over Perry Belmont, the Democratic nominee. The district is usually Democratic, but there being a Democratic factional fight on, Lessler won by 390 majority over Belmont. The fight between the Democratic factions in New York City is redounding to the benefit of the country and the people of New York state.

In his annual message to the Ohio legislature, Governor Nash commends the adoption of stringent laws for the control of trusts and moneyed monopolies in that state. The governor's recommendations should be enacted by the Ohio legislature into law. Trusts and moneyed monopolies must be controlled and the interests of the people must be protected. The Republicans have the majority in both houses of the Ohio legislative assembly and they will strengthen the party and benefit the people by carrying out Governor Nash's recommendations.

Taos county is being tangled up financially and legally which may be of benefit to that county for it must certainly lead to reform in assessments, in tax gathering, and in the administration of affairs. Taos county is lagging behind most of the other counties in more than one respect for no apparent reason. Its natural resources are as great and greater than those of most of its neighboring counties. It has as much wealth and as promising a future as any county in the territory. All it needs is a little waking up by the courts to keep it well in the front of the procession of progress.

Reports indicate that the foreign element employed in the coal mines at and around Gallup in McKinley county is more lawless and more difficult to deal with than either the Indians or any other part of the New Mexico population. Pistol toting is common and inebriety is general. Yet, that is the kind of population which constitutes 60 to 90 per cent of the inhabitants of the Pennsylvania coal regions and makes up a considerable part of centers of civilization such as New York and Chicago, whose newspapers some times drop the remark that New Mexico isn't yet fit for statehood.

There is considerable railroad building going on in New Mexico and the people of the territory want lots more of it. Everything should be done to encourage construction of new railroads and the assessment of railroad property should be made in as fair a manner as possible, of course, with a due regard to the interests of the people. Such a policy is the best for the present. In a few years when New Mexico is hoped, will contain about 5,000 miles of railroads and when the railroads recently constructed and now under construction shall be paying taxes, even at a low rate per mile, the commonwealth of New Mexico will be sustained to a great extent by taxes paid by railroads.

The tax power of the American commonwealths is great and is being uniformly upheld by the courts. Of necessity this must be the case, else governments could not exist. The following dispatch as to a decision rendered by the United States supreme court in an Indianapolis tax case is in point: "The United States supreme court today affirmed the decision of the supreme court of Indiana in the famous Gallup tax case. It is held that the taxing authorities of the state were clearly within the law in collecting from the Gallup estate taxes on property that had not been returned for assessment by the Indianapolis banker during his lifetime. The judgment against the estate amounts to \$52,746."

The Miners' Union at Telluride, Colo., is boycotting the Telluride Journal because it has editorially expressed itself against the actions of the union in a recent strike in which violence was employed by the strikers. All the advertisers but two have gone out of the paper and subscribers are dropping off right along. It is to be doubted, however, if unionism will make any friends by attempting to curb the liberty of the press. To kill off a newspaper by boycott for its opinions is as poor a policy as to suspend it by a royal edict for expressing political opinions. For-

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

SSS purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatsoever for this service.

Missouri Code Pleading
By Mr. Everett W. Pattison,
(Author of Pattison's Complete Digest.)
Nearly 600 Pages. Price, \$1.00.
This Book is a Very Important One for all Lawyers.

It sets forth, as succinctly as is consistent with clearness, the present condition of the law governing pleading as interpreted by the courts of last resort in Missouri. The decisions are mostly those of the Missouri courts; though in some instances illustrations have been drawn from the decisions of other code states.

The Author Thoroughly Believes in the Advantages of the Code System of Pleading. He further believes that precision and exactness are even of more importance in code pleading than in pleading at common law. For, while it is true that the common law requires the utmost strictness in adherence to forms, yet, if its forms are followed, the practitioner need have little fear of attack upon his pleading, even though that pleading should totally fail to inform his opponent as to the real points in issue. On the other hand, the very object of the Code is to compel parties to make clear the grounds upon which their right to recover, or their defense, is based. The lawyer who is well grounded in the rules of pleading will surely have the advantage in litigation. The constant study of this valuable work, familiarity with the rules set forth in it, and with the decisions enforcing and interpreting those rules, cannot fail to make one a good pleader.

SPECIAL OFFER—To those who buy both books at once, we will offer Pattison's Pleading Form Book (Price, \$5.00) if ordered within the next 30 days for \$4.00 additional, thus offering the two works, giving all there is to be said about Pleading in Missouri.

CHAINED FOR TEN YEARS

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

Rev. Dr. Morris Wechsler, Rabbi of the Cong. Bnai Israel, New York, Jan. 3, 1901.
Drs. TAFT BROS. MEDICINE CO., Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully,
O. D. PHELPS, M. D.
Dr. TAFT BROS. MEDICINE CO., Feb. 5, 1901.
Gentlemen: I was troubled with Asthma for twenty-two years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit.

How Could It Be Expected?

"You said," asserted the irate customer, "that this tonic would make hair grow."

"I did," admitted the clerk. The customer removed his hat and showed a head as smooth as a billiard ball.

"I've been using that tonic for three months," he said. "Oh, that's all right," answered the clerk, promptly. "You have no hair to grow. If you had the tonic would work all right. What more can you expect?"—Chicago Post.

No Divided Allegiances.

"Mamma," said the five-year-old boy, "if you should die, would papa marry again?"

"I don't know, Willie," she replied, "but if such a thing ever does happen, and you have a stepmother, I want you to be good to her."

"Well," said Willie, pondering deeply, "I will be very polite, mamma, but I will bear malice and hatred in my heart."—Chicago Tribune.

Out of the Ordinary.

"That foreign nobleman who wants to marry you—"

"Yes, father," answered the fair girl. "I am sure he loves me."

"But are you sure he's a genuine foreign nobleman?"

"Why do you doubt him?"

"I asked him about his debts, and he said he didn't owe a cent."—Washington Star.

On an Errand.

A little fellow was sent a message by his mother to a lady. When he had delivered it he did not seem in a hurry to go; and the lady noticing this, asked him if there was anything else his mother had bidden him say. She was not prepared for his reply: "She said I wasn't to ask anything for coming, but if you gave me anything I was to take it."—Golden Days.

A Notable Discovery.

"My wife is a very remarkable woman," said Mr. Meekton.

"She has a great deal of originality."

"Indeed she has. She has taken up the game of whist, and by watching her play I have discovered that all the books written on the subject are totally wrong."—Washington Star.

Substantiating Proof.

Schlesinger—Do you believe there is anything in the saying: "Lucky at cards, unlucky at love, and vice versa?"

Fairchild—Well, I won two dollars at bridge whist from Dolly last week and she hasn't spoken to me since.—Brooklyn Eagle.

Poetry and Prose.

"Oh, papa!" cried Marie, "do you know the meaning of Christian names? 'William' means good. I wonder what 'Arthur' means?"

And the girl blushed—oh, so prettily. Papa put on his severest aspect.

"I hope Arthur means business!" was the reply.—Tit-Bits.

A Timely Question.

"Papa," said little Bobbie Whittier, as he stepped on the wharf after an unusually tempestuous voyage from Liverpool, "do you suppose the time will ever come when they'll invent sea-sickless ocean steamers?"—Brooklyn Life.

Her Miscalculation.

"And so this is the end!" he exclaimed, bitterly.

"Well," she replied, "if you haven't any more nerve than to give up right at the start I suppose it'll have to be the end. But I thought you were more of a man."—Chicago Record-Herald.

Another Good War.

Harold—I hear that old Gotrocks has settled all of Lord Littlecough's debts.

Jerrold—Yes; he's doing all he can to break up the engagement between Lord Littlecough and his daughter.—Puck.

Matrimonial Flyer.

Upon the wings of love he flew To buy the maid a diamond ring; They're married now, and he to-day Flies back to see what it would bring. —Chicago Daily News.

RELIEVED OF CARE.

"Don't disturb yourself, sir! I know you would like to give something to a poor man."—Journal Amuseant.

No Respectability.

Negro Cook (to former mistress, who had declined to recommend her)—Now, now, Miss Belle, you 'fused to recommend me, and here I been recommending you everywhere.—Judge.

Mightier Than the Sword.

"Colonel, I saw one of the latest implements of war a few minutes ago."

"Indeed; and what was that?"

"A typewriter, colonel."—Yonkers Statesman.

She Got It.

"She married for a home, I believe."

"Yes, I suppose that was one reason why he was glad to give her that \$50,000 house as a part of the all-mony."—Chicago Record-Herald.

"I lingered between life and death."

"I think Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' the best medicines in the world," writes Mrs. Amelia Dougherty, of Kerrigan, Wayne Co., Mo. "I gave birth to a baby last summer. After confinement I became very ill, had the best physicians called, but could be got, and he diagnosed my case as uterine trouble tending to dropsy. Medicine seemed to do me no good. I lingered between life and death for quite a while, every day growing weaker until I could not walk across the room. My friends were looking for my death every minute. A friend wrote and told me about Dr. R. V. Pierce, and I at once wrote to him for medical advice. He replied immediately, giving me full instructions as to what to do. I had taken his medicine about a week I felt a good deal stronger. When I had taken it about one month I felt as strong as I do to-day. I took four bottles of each kind and two vials of 'Pleasant Pellets.' Many thanks to 'Pleasant Pellets.' It has permanently relieved me."

Every man believes that he is an exception to some rule or other.

FORMATION WANTED.

The manufacturers of Banner Salve having always believed that no doctor or medicine can cure in every case, but never having heard where Banner Salve failed to cure ulcers, sores, tetters, eczema, or piles, as a matter of curiosity would like to know if there are such cases. If so they will gladly refund the money. Fischer Drug Co.

A man doesn't have to be generous to give you his word and then not keep his promise.

"Some time ago my daughter caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions and in two days she was well and able to go to school. I have used this remedy in my family for the past seven years and have never known it to fail," says James Prendegast, merchant, Annapolis, Md. Chamberlain's Cough Remedy. The pains in the chest indicated an approaching attack of pneumonia, which in this instance was undoubtedly warded off by Chamberlain's Cough Remedy. It counteracts any tendency of a cold toward pneumonia. Sold by Fischer Drug Co.

It is not a difficult matter to secure a woman's sympathy; all you have to do is to get her to hate some one you dislike.

CHILD WORTH MILLIONS.

"My child is worth millions to me," says Mrs. Mary Bird of Harrisburg, Pa. "Yet I would have lost her by a cough I had not purchased a bottle of One Minute Cough Cure." One Minute Cough Cure is sure cure for coughs, croup and throat and lung troubles. An absolutely safe cough cure which acts immediately. The youngest child can take it with entire safety. The little ones like the taste and remember how often it helped them. Every family should have a bottle of One Minute Cough Cure handy. At this season especially it may be needed suddenly. Ireland's Pharmacy.

When a married man prefers his club to his home it may be due to the fact that he has a chance to talk back at the club.

A PROFITABLE INVESTMENT.

"I was troubled for about seven years with my stomach and in bed half my time," says E. Demick, Somerville, Ind. "I spent about \$1,000 and never could get anything to help me until I tried Kodol Dyspepsia Cure. I have taken a few bottles and am entirely well." You don't live by what you eat, but by what you digest and assimilate. If your stomach doesn't digest your food you are really starving. Kodol Dyspepsia Cure does the stomach's work by digesting the food. You don't have to diet. Eat all you want. Kodol Dyspepsia Cure cures all stomach troubles. Ireland's Pharmacy.

It is easier for a wise man to tell what he knows than it is for a fool to conceal what he doesn't know.

REMARKABLE CURE OF CROUP.

A Little Boy's Life Saved. I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I tell that I cannot praise it enough. I bought a bottle of it from A. E. Steere of Goodwin, S. D., and when I got home with it the poor baby could hardly breathe. I gave the medicine as directed every ten minutes until he "threw up" and then I thought sure he was going to choke to death. We had to pull the phlegm out of his mouth in great long strings. I am positive that if I had not got that bottle of cough medicine, my boy would not be on earth today.—Joel Demont, Inwood, Iowa. Sold by Fischer Drug Co.

Proof to a woman that you love is when she thinks you get miserable every once in a while imagining how lonely you would be if she went to visit her mother.

A GOOD RECOMMENDATION.

"I have noticed that the sale of Chamberlain's Stomach and Liver Tablets is almost invariably to those who have once used them," says Mr. J. H. Weber, a prominent druggist of Cascade, Iowa. What better recommendation could any medicine have than for people to call for it when again in need of such a remedy? Try them when you feel dull after eating, when you have a bad taste in your mouth, feel bilious, have no appetite or when troubled with constipation, and you are certain to be delighted with the prompt relief which they afford. One-third of January gone and not a
drop of rain or flake of snow this
month, in fact, not since the week be-
fore Christmas. This is causing some
apprehension as to next season's water

The indications for tomorrow
are fair. The springlike weather is
sending the sap into the trees and un-
less a spell of cold sets in soon the

TO KIDNEY SUFFERERS
An Opportunity Worthy of
Your Notice,

If you suffer with kidney disease or
any ailment arising from an improper
action of the kidneys or urinary or-
gans, this offer we make to the people
of Santa Fe should interest you. In the
advancement of medical science, the
kidneys, the organs of the greatest im-
portance to human health, have not
been neglected, and in placing before
you such a cure as Doan's Kidney Pills
the proprietors recognize how far so
many statements of the makers of
similar preparations have fallen short
of their claims, being convinced that
no remedy for kidney complaints in ex-
istence equals Doan's Kidney Pills for
such ailments; strengthened in these
convictions by letters that are daily
received of the work they are doing
for mankind's benefit, old backs and
young backs are being constantly
freed from never-ceasing aches, and
many a lame and shattered one, stoop-
ed and contracted, is strengthened,
invigorated and infused with new life.

With such a medicine an offer of this
kind can be made without hesitancy,
for while we lose the box we give to
you, we make a friend that assists us
in the sale of many others.

100 FULL BOXES
of Doan's Kidney Pills will be given
away free to every person suffering
with kidney ailments at the un-
der-signed address. First come, first
served, and only this one chance offered.
Remember this is not a sample box,
but a regular size box of Doan's Kid-
ney Pills, which retails at 50 cents.
Remember free distribution one day
only, Tuesday, January 14, at Ireland's
Pharmacy, Santa Fe New Mexico.

An Architect's Dream.
The people of Santa Fe have long felt
the necessity of a large, commodious
hall at Loretto Academy, and will re-
joice to know that the architect has al-
ready beheld, in the busy future, a
glimpse of the magnificent structure.
However, that all may see and be
benefited by this dream, "which is not all
a dream," it is necessary to raise funds
for the purpose, and as this is the first
appeal of the kind that the good Sisters
have made during the half century
they have been laboring for the wel-
fare of the territory, they feel confident
that all will respond generously to the
noble undertaking. Many people have
an innate aversion to trouble of any
kind and of evils always choose the
lesser, therefore in the present un-
taking it has been deemed advisable to
take up a subscription, as the writing
of a check is but the work of a mo-
ment. As the golden jubilee of the ac-
ademy is to be celebrated during the
present year, it is desirable to have the
work commenced at an early date, that
the new building, so much needed, may
be used as an assembly hall on that
occasion.

FOR THE PUBLIC GOOD.
In another part of this paper appears
an advertisement worthy the reading,
as it is for the public good. It tells
of a free distribution of Doan's Kidney
Pills, a remedy for kidney ills. Read it
and call at Ireland's Pharmacy, Santa
Fe, New Mexico, Tuesday, January 14.

Notice to Stockholders.

p. m., at the office of the association,
Catron Block, Santa Fe, N. M.

land's Pharmacy, Santa Fe, New Mex-

BAD BREATH
"I have been using CASCARETS and as
a mild and effective laxative they are simply won-
derful. My digestion and I were both better with
stomach and my breath was very bad. After
taking a few boxes of Cascarets we have improved
wonderfully. They are a great help to the family."

Brains

A world famous painter was once asked with
what he mixed his colors. "Brains, sir!" was
the reply. It applies with equal force to our
HARDWARE. We haven't a corner on this
very important article and yet we have enough
on hand to enable us to attend to your HARD-
WARE needs a little better than the other fel-
low. Twenty years' experience has allowed
some of the cells to grow, so that we can grasp
a good thing when we see it and push it along
for your particular benefit. There are two
sorts of HARDWARE: Mine and the rest of
them. Call and be convinced.
