San Francisco, Aug. 17.—The call says that a local railroad man has received a dispatch from New York containing absolute confirmation of the report that C. M. Hays has resigned the presidency of the Southern Pacific. In regard to South Africa the speech says: "The progress of my forces in the conquest of the Transvaal, and the which my South African colonies have been invaded has been steady and continuous, but owing to the difficulty and extent of the country to be traversed the length of the military operations have been protracted."

Washington, Aug. 17.—Commissioner Rockhill has not reported to the

state department whether the protocol provides for the destruction of the Taku forts, but if the press advices are correct, that the ministers failed to include this provision in the protocol, the result will be in line with the desires of this government from the outset.

## STRIKE SPREADING.

More Men Quit Work  
at Joliet.

Milwaukee Steel Workers  
May go Out.

Shaffer Says Monessen Mills Cannot  
Start to Work.

RANGER SAILS FOR PANAMA.

Joliet, Ill., Aug. 17.—It is expected that the lack of rods at the American Steel and Wire mills will force them to shut down on Tuesday, thus increasing the number of men out of 6,000, nearly half of them involuntarily. There were no signs of violence today, though the streets were full of men. The announcement is made that an effort will be made to organize skilled workmen in all the Joliet mills.

MILWAUKEE MAY STRIKE.

Milwaukee, Aug. 17.—The Bayview mills of the Illinois Steel company will be closed this afternoon in order that there may be a full attendance at the Amalgamated association lodge at 3 o'clock, when the strike order of President Shaffer will again be considered.

From a canvass of the men this morning it was learned that quite a number will favor a strike. These are said to be in the minority, however. Superintendent George E. Reiss of the Illinois Steel company's Bayview plant is prepared to renew the contract now existing with either the men individually or a local organization at Bayview if Secretary Tighe declares the charter forfeited. Reiss does not believe that the men will decide to strike.

CANNOT START MILLS.

Pittsburg, Aug. 17.—President Shaffer said: "I received a telegram from Mr. Tighe at Milwaukee. He says that a meeting of the steel workers will be held this afternoon, but makes no prediction as to the result. There is nothing new in the situation today. Monessen mills cannot be started for the corporation lacks men. I am sure that I will go to McKeesport to night."

Ranger Sails.

San Diego, Cal., Aug. 17.—The Ranger, ordered to Panama, did not finish taking supplies until this afternoon, when she started southward.

Damaged By the Storm.

New Orleans, La., Aug. 17.—The Louisville & Nashville officials here announced today that traffic over the line will be open Sunday. Nothing has come in over the Louisville & Nashville since Wednesday. Dr. Isaac Cline of the weather bureau received a report from Miss Law, the weather observer at Port Eads, today. She stated that the wind Wednesday carried away the anemometer cups which gauge the velocity of the wind, the highest velocity taken just before being seventy-two miles an hour.

Vessels Wrecked.

Mobile, Ala., Aug. 17.—No coastwise vessels have reached Mobile since the storm and the exact state of affairs cannot yet be learned. The schooner Mexican Girl is reported to have gone to pieces on the beach and the sleep of the vessel was wrecked. The steamer Harold arrived from Port of Islands this morning and reported seeing the schooner Foster Price off Pensacola, dismantled. The schooner Asa T. Stowell is ashore on Round Island and flats.

Philippine Celebration.

Manila, Aug. 17.—Governor Taft and the Philippine commission were enthusiastically received at the provincial of South Ilocos, today. Governor of the province and other officials were appointed.

Dead.

New York, Aug. 17.—Stamboul, the trotting stallion, 2:07 1/2, died today at the farm of his owner, E. H. Harrison, near Goshen.

DEATH OF HENRY CARPENTER.

This Old Pioneer Died at His Tjeras Home Yesterday Afternoon. The Citizen had gone to press, a messenger rode into the city from the little town of Tjeras, in the canyon of the Rio Grande, and reported to Samuel Neustadt that Henry Carpenter, familiarly known as "The Sage of Tjeras Canyon," had closed his eyes in death at 1 o'clock p. m.

About two years ago, while the deceased was yet in fairly good health, but recognized the fact that he had reached three-score year and ten and that his life was nearing an end, he came to the city, made his will and named in that document as the administrator of his estate Samuel Neustadt, of this city.

Therefore, when the news of his death was told to Mr. Neustadt, the latter ordered a handsome casket from O. W. Strong & Sons, which was taken out to Tjeras late yesterday afternoon. The funeral of the deceased took place at 10 o'clock this morning at the Catholic church of San Antonio, near by, with burial in the churchyard cemetery in a grave beside that of his wife, whose death occurred a few years ago.

Deceased was born in New York state on July 6, 1825, and was therefore 76 years of age. He received a common school education. When he came west he was engaged in steamboating for some years. In 1846 he was appointed quartermaster during the

IOWA ORDERED TO SEA.

London, Aug. 17.—The Sun says that it hears that the concentration of General Botha's forces at Hondevon, on the borders of Zululand, announced a dispatch from Durban last night, does not foreshadow a fight with Botha, but his surrender, in pursuance with the understanding reached between Botha and Kitchener. The Sun adds that the government is satisfied that the war is virtually over that Lord Milner, now on his way back to South Africa, has in his pocket a draft of a complete constitution and plans for future government of the annexed territory.

TRADE RECIPROCITY.

Meeting to Ask Congress to Help Export Foreign Commerce.  
Philadelphia, Pa., Aug. 17.—President Search of the National Association of Manufacturers, has called a meeting of the executive committee of that organization for September 4, for the purpose of taking up the question of reciprocity. A call will be issued for a national reciprocity convention. This action is taken as a result of dissatisfaction among manufacturers in the export trade. Congress at its next session will be asked to give the desired relief. The sentiment of the manufacturers, says President Search, is in favor of securing treaties of commercial reciprocity with other countries with a view to extension of American trade in foreign lands.

Ravaged by Kurds.

London, Aug. 17.—A message to the Pall Mall Gazette from Constantinople says 400 Kurds have been raiding in the Damir district, Armenia, and have destroyed twelve villages, leaving the smoking ruins. Only the young girls were spared. They were carried off to harems. All the males were ruthlessly butchered.

Washington, Aug. 17.—The Iowa has reported at San Francisco to the navy department. Orders will go forward to her to prepare at once to go to sea.

WINSLOW'S EX-MARSHAL.

Embezzled Funds, Absconded, Arrested and Now in Jail.  
W. A. Parr, the contractor and carpenter, returned yesterday from Winslow and states that George Carrum, who embezzled and absconded with \$330 belonging to the town government of Winslow while he (Carrum) was town marshal, is now behind the bars of the county jail at Holbrook. His bondsmen, one of whom was Mr. Carrum, told the shortage to a Winslow town council without suit. A short time ago a cowboy informed the officials at Winslow that he knew where Carrum was in hiding. The cowboy was deputized to go and arrest Carrum, and he was found in Gila county and brought back to Winslow on August 10. On August 12 Carrum waived examination in before Judge Mahoney on the charge of embezzlement and was bound over to the district court in the sum of \$1,000. In default of bail Carrum was placed in jail.

New Mexico demands Statehood from the Fifty-Seventh Congress.

The New Mexico Territorial Fair will be held in Albuquerque from October 15th to October 19th. Premium List will aggregate \$10,000.

ALBUQUERQUE AUGUST 17, 1901

The strike in San Francisco has caused a coal famine in that city.

There are only three states having a larger area than New Mexico. They are Texas, California and Montana.

The time will come in the near future when New Mexico will lead the United States in the production of coal.

The Boer war has lasted nearly two years and the end is not in sight. It is the most remarkable struggle in history of a small nation for existence.

General W. J. Palmer, who built the Rio Grande Western railroad, has distributed \$10,000 among his employees as their share of the profits of the railroad.

Much interest will attach to the efforts of that New Jersey man who is seeking to determine the truth of the claim that a mosquito never bites the same person more than once.

There is no doubt that trees condense the moisture of the air and let it drip to the ground, thus diminishing the humidity that makes so many days of our summer unbearable.

Palestina may some day become a great mining field. One of the American consuls there reports that he has discovered on each side of the River Jordan.

Lawton was an appropriate name for the Kiowa-Comanche metropolis. The dead general was the man whom the red brothers feared and respected. General, then Captain Lawton: "He no eat 'em, no sleep 'em; all time fight."

The latest reports made to Surgeon General Wyman of the marine hospital service show that tuberculosis causes about 10 per cent of the deaths reported. Only deaths from contagious diseases are tabulated and where deaths from these causes are reported in every instance tuberculosis is far in the lead.

The new Chinese tariff will place very few articles on the free list. Only rice, foreign cereals and flour, and silver bullion will be exempted from the 5 per cent ad valorem duty imposed upon all other articles imported into China. The new regulation will go into effect two months after the signing of the final protocol.

At the United States mint 68,338,700 bronze cents were coined last year—a larger number than was produced during any previous twelve months. Few are presented for redemption and an answer to the question, "What becomes of the cents?" would be as difficult as that to the inquiry as to the ultimate fate of pigs.

No serious disturbances have occurred so far in the steel strike regions, but the big strike has not ended until a few cities are burned and hundreds of lives lost. That is the usual result. Then the troops will be called in to restore order and the strike will be over and the Shaffers of the disturbance will sink into obscurity.

**NATIONAL BANKS.**  
Comptroller Dawes has put out a report upon the operation of the amended national banking law of March, 1900, which shows results justifying the enlargement of privileges and proving what was stated as the need of the change, the demand for banks of a less capital than the minimum of the old law. Six hundred and sixty-five new banks were organized under the law and, after deducting banks that have retired, there is a net gain of 600, with a circulation of \$101,750,173. Of the 665 new banks were organized with a capital less than \$50,000. The middle states have the largest number, 214, but the south, where the demand was strongest, has utilized the opportunity for easier bank organization by establishing 214 of the entire number, and 154 of these were of less than \$50,000 capital. The total number of banks doing business under the national law on July 31 was 4,217, with a circulation of \$356,152,903.

**COAL MINE ACCIDENTS.**  
Statistics regarding the number of accidents in coal mines during the past decade show that the per cent of accidents to the number employed has thus far been greater in New Mexico than in most of the other commonwealths, says the New Mexico. From 1895 to 1900 the number of persons killed in New Mexico coal mines was 79, or 7.71 per 1,000 men employed per year, exceeded only by Utah and Washington. In 1900 there were killed at which 200 miners were killed, and in Washington, while Indian territory and Colorado, with a rate of 5.02 deaths, and 4.90 deaths per 1,000 employed during the past five years, stand next to New Mexico in the per cent of coal miners killed by accidents.

**ADVERTISING ACCOUNT.**  
Too much money is charged up to advertising expense that should go to some other account. The advertising account, in a good many firms, is simply a receptacle into which goes expenditures that are questionable in

Come in and have a talk with us about it. Chickering Bros. have studied the piano question carefully from all standpoints; we have been up the line, perfecting this instrument for many years, have seen every part which goes to make up the fine perfection of this instrument. MAY WE ASK YOU to see those points of difference between the Chickering Bros. and other makes which some salesmen say "are just as good"? Is there, you can see it if you go to the store, or if you can "do better" elsewhere, don't buy a Chickering Bros. piano. But see what there is in a Chickering Bros. piano, which has given it such an excellent name before you give up your money for some inferior make.
