## OHIO POPULISTS.

### So-Called Bryanites in Convention.

### Purchase Exposition Buildings and Grounds.

### Trust Forming to Take in All Photo-graphic Dry Plate Factories.

#### ACCIDENTAL KILLING AT MADRID.

Columbus, Ohio, July 31.—Following the conference of the populists last night regarding the nomination of a state ticket and more perfect organization of the people's party of Ohio, there was held in this city this afternoon a state convention of the party not covered in either the democratic or republican state platforms.

The convention was called immediately after the recent democratic state convention by George A. Groot, of Cleveland, and others, who were dissatisfied. Because the present Ohio democratic platform did not refer to Col. W. J. Bryan, or reaffirm either the Chicago or Kansas Clay platforms, and for other reasons set forth in an elaborate call issued July 15.

Subsequently George Groot was selected temporary chairman and Almer Davis temporary secretary of the convention. In his keynote speech at temporary chairman Groot outlined conditions that brought about this movement. He insisted that it was not a movement of the so-called "Bryan democrats," none, but all those who advocated free silver and was opposed to both the democratic and republican parties as at present organized and controlled.

The attendance was so small that the convention was held in a parlor of the Great Southern hotel.

Conference was held at the rooms of Groot during the forenoon at which it was decided to nominate a full state ticket this evening and select state committee to manage the campaign for the independent movement. The platform adopted at the conference held in Cleveland, July 17, which has been generally circulated in printed form, was endorsed. This platform reaffirms the Kansas City platform, endorses Bryan and declares especially for free silver. It also includes the following plank: "Demand all money that is manufactured to be used in the country as medium of exchange, whether it be gold, silver or paper, shall be coined by the government and distributed among the people without the intervention of the banks and that every dollar of it shall be legal tender for all debts, public or private."

#### GROUND AND BUILDINGS.

#### For St. Louis Purchase Exposition Being Considered.

St. Louis, July 31.—The committee on grounds and buildings of the Louisiana Purchase Exposition company is today considering plans of the commissioners and architects for final arrangements of the world's fair buildings and grounds. After approval by this committee, the plans will be submitted successively to the executive committee and the board of directors and finally to the national commission in designing the grounds and the architect's commission used for working material the data supplied by the Columbian exposition at Chicago.

#### ANOTHER TRUST FORMING.

Consolidation of Photographic Dry Plate Factories Pending.

St. Louis, July 31.—The Post-Dispatch will say this evening that negotiations for the consolidation of the leading photographic dry plate factories of the United States and Europe with a capital of \$30,000,000 is pending. Three of the companies concerned are St. Louis firms that turn out 80 per cent of the plates used in the United States.

#### A BOY KILLED.

While Hunting Doves John Bruno is Accidentally Killed.

Cerrillos, N. M., July 31.—At Madrid yesterday afternoon John Bruno, aged 14, was shot and killed by Ross Brewer, aged 9. The boys were hunting doves with a 22-calibre rifle and the shooting was accidental.

#### MARKET QUOTATIONS.

Market quotations and review furnished by W. P. Metcalf, No. 5 Cromwell block, received over the private wire of F. G. Logan.

New York, July 31.—The market opened today barely steady and with further decline on steel strike talk. This developed into great inactivity and the trading was very light. Later prices were bid up a little by traders and insiders and gave the impression of support. The rest of the day market was dull and before the close prices were sent down and became weak. The steel stocks were attacked and yielded. The close at lowest points of the day.

**Juvenile Troughs.**

This morning between 8 and 9 o'clock three young lads were working the north end of town for handouts, being on the tramp. One of them spied a coat in a hallway belonging to John Horton, clerk at the Palace Club, and snatched it, intending to sell it. Mr. Horton notified the police and Officer Martinez soon found the trio with the coat in their possession. This afternoon the lads were arraigned before Judge Crawford and plead guilty. They each received a sentence of thirty days in the county jail. They gave their names as Ben Woods, aged 15, from Los Angeles; Tom Chapman, 17, from Denver; and Alvin Baldwin, 15, from Flagstaff. The outfit had the appearance of a juvenile criminal gang.

**Emancipation Day.**

In nearly every state in the Union negroes will celebrate the emancipation proclamation. This afternoon in Albuquerque the festivities will take the form of an immense barbecue at Robinson park. Ox, sheep and beef, being on the coast to beautiful brown, sufficient to feed the whole town. Speech making will be rendered in the afternoon by the following distinguished gentlemen: Judge Drummer, District Attorney Clancy, ex-Delegate H. B. Ferguson, T. O. Mason, and Rev. J. D. Barksdale will act as master of ceremonies.

In the forenoon there will be a free concert, including a cake walk by good talent at the vacant store room of H. B. Field. The proceeds of the day will be donated to the A. M. E. church.

**HENRY BRAMLETT, Chairman.**  
**E. T. ELLSWORTH, Secretary.**

**Track Washed Away.**

Train No. 2 did not reach the city today until 12:30 p. m., being four hours and twenty-five minutes late. The delay was caused by a washout near Alentown at 1 o'clock this morning. Several yards of roadbed were washed away and consequently a large force of section men were employed in the night making the necessary repairs.

**Stock Killed.**

An Indian who lives to-day from the village of Jemez gives the information that that section of Bernalillo county was visited by a most terrific rain and hail storm on last Sunday night, and that a large number of sheep and goats, belonging to the Indians, were drowned and otherwise killed.

## FRISCO STRIKE.

### Stagnation of Business on Account.

### Settlement of the Steel Strike Hanging in the Balance.

### Strike of Thirty Pittsburg Moulders Promptly Settled.

#### NEWS FROM MANILA.

San Francisco, July 31.—The great strike ordered by the city front federation shows no signs of a speedy settlement. Employers predict its ultimate collapse, though they admit that the struggle may be prolonged. Labor leaders express themselves confident of victory, and say that if necessary the strike will be extended to include every port on the Pacific coast.

Resolutions calling on members of the federation have already been extended so as to cover the entire bay of San Francisco.

The marine firemen will call out the full membership of thirteen hundred, with the exception of those employed in tow boats.

The sand teamsters went out this morning in sympathy with the teamsters. This affects five thousand men in the building trades whose supplies will be cut off.

The strike of the packers has forced the American Canning company to close its doors. Many non-union men are out of employment. The canners were depending upon it for their supplies of cans and employ five thousand men, women and children, and unless the factory can start up again within a few days, they will all be thrown out of employment.

The Ship Owners' association will employ non-union men and make an effort to handle freight at the wharves.

Everything is quiet in the strike of the teamsters and dock laborers this morning. Many non-union men are working, but the situation is not a little relieved, business in many sections being at a standstill.

**HANGING IN THE BALANCE.**

No Settlement Yet of Steel Strike—A Small Strike Settled.

Pittsburg, July 31.—The outcome of the deliberations of the executive board of the Amalgamated association of Iron and Steel Workers upon the propositions of the United States steel corporation officials for settlement of the steel strike is still hanging in the balance.

While nothing definite was accomplished yesterday the more sanguine element seems to be in the majority and better news is hoped for today.

In the forenoon it was learned that the more conservative members were willing to accede to the proposition made by the other side, but the younger ones displayed a spirit of utter independence and reliance upon the power of the organization to force better terms than those submitted to them.

Shortly before 11 o'clock a number of vice presidents arrived at the Amalgamated headquarters, but as far as could be learned there was no meeting. President Shaffer arrived at 11:30.

At noon the members of the executive board left the building for lunch. President Shaffer said that there was no probability of the strike ending there would be another one held this afternoon. It is reported that Shaffer will meet the local manufacturers in the afternoon. Secretary Williams was sent to headquarters, which gives color to the rumor that he has left the city to meet some of the officers of the steel combination to secure, if possible, a modification of their proposition, which was made by representatives of the combine at a conference in New York last Saturday. H. I. Davis, one of the national officers, said matters before the board are of such importance that the greatest secrecy is necessary.

A note sent to President Shaffer stating the report was current that the board had rejected peace proposition and was arranging to spread strike elicited the reply: "I have nothing to say." Conference has not yet resumed.

**A STRIKE SETTLED.**

The strike of thirty moulders of the Amalgamated association of the Twenty-ninth street mill of the United States Steel company last night because of the discharge of Patrick Frey, a roller, was settled today by the reinstatement of Frey, and the strikers returned to work. Frey had been active in organizing the men in the mill and was discharged for that reason.

#### INSURGENTS ROUTED.

Number Killed and Captured—Manila Civil Charter Passed.

Manila, July 31.—Lieutenant Croft, of the Nineteenth Infantry, with a mounted detachment of Cuban scouts, had an encounter with sixty insurgents. Seven insurgents were killed and thirteen taken prisoners. Of Lieutenant Croft's force two privates were slightly wounded.

The Philippine commission passed the Manila civil charter, which will go into effect immediately.

#### SILVER CITY NOTES.

Pumping Water Out Gillett Shaft—Burro Mountain Mines.

Silver City, N. M., July 29.—They have almost completed the work of pumping out the Gillett shaft, which was flooded several hundred feet with water by the large flood one day last week. They will in a few days have the mine and mill running in full blast again.

Rodney Clark, Deming's postmaster, is in the city today shaking hands with his many friends here.

A. J. Loomis, deputy internal revenue collector, has been looking after Uncle Sam's interests in this section during the past few days.

The heavy rains of the past week have put the cattle ranges in this section in excellent shape and the stock are beginning to look fine.

The Nickel Brothers are pushing the work on their concentrating mill, which they are building in the Burro mountains, and when it is completed it will be a great saving to the mine owners of the district in their treatment of ores, as they will be in a position to treat a large amount of custom ores besides the ores from their own mines. They have at the present

New Mexico demands Statehood from the Fifty-Seventh Congress.

The New Mexico Territorial Fair will be held in Albuquerque from October 15th to October 19th. Premium List will aggregate \$10,000.

ALBUQUERQUE, — JULY 31, 1901.

### THE REMEDY.

The return of property for taxation in New Mexico, is not simply ridiculous, it is positively shameful, and it is pleasant to see the press turning its attention to the matter. It is a crying outrage that property is returned for taxes at only about one-fifth of its market value, although the law says it must be returned at its actual market value. It is still worse to see the entire tax return of the territory only reach the sum of \$36,000,000, when everyone who has any knowledge on the subject at all knows that in right and justice it ought to be \$360,000,000. The patented land grants alone are worth more than our entire tax return, so is the personal property of our inhabitants, so is the live stock alone, and so are the railroads and their rolling stock. One of the worst troubles is, the amount of property that actually escapes taxation in toto; another trouble is the exemption of \$200 to heads of families. Under this claim a great deal more than our entire tax return escapes taxation, because as property is returned at only one-fifth of its value, every patriotic head of a family, and we have forty thousand heads of families or more, gets one thousand dollars worth of property exempted. The way to remedy all this is to become a state and let our wise men fix it in the constitution. Then every man, corporation and association in the territory will pay his just proportion of taxation, and when this is done, New Mexico will have the lowest tax rate in the union, because we will not need much revenue, as our fixed charges are not high in comparison with the actual per capita wealth.

### STORY OF BURIED CITY.

The story of the discovery of the buried city on the Navajo Indian reservation may or may not be true, but if it is founded on fact it is only in line with other discoveries heretofore made through that region. There are many evidences that that section was once inhabited by a highly civilized people. The remains of that ancient civilization extend far south into Mexico, it being clearly shown that there was once a mighty nation or nations holding sway over a large territory and millions of people. The extinct people have left their imprint on the land. Their habitations remain in the form of great ruins, and evidences are met with of their methods of cultivation of the soil.

Who those people were, where they came from and how they came to be wiped off the face of the earth are questions on which no light has so far been thrown. Some of the investigators believe that the people who built those cities fell victims to an invasion of a more warlike people, possibly the red man, who was found there by the white man when he entered. This theory is based largely on the cliff dwellings found in so many places. The belief is that the harassed people finally provided these places of refuge for themselves and that they were able to withstand the assaults of the enemy for many generations. They appear to have cultivated adjacent valleys and kept herds in the ravines. When the savages swept down upon them, crops and herds were abandoned and, assembling in the fortresses, they defied their enemies to reach and destroy them. But at some earlier time they held undisputed sway, and then built the great cities the remains of which are now being unearthed at numerous points.

If you wish to see the Indian at play visit Santa Domingo next Sunday.

The steel strike has cost \$6,000,000, and has resulted in no material benefit to anyone.

Governor Otero has called a meeting of the territorial board of education on the 5th day of August in Santa Fe.

There is a probability that a strong effort will be made at the next meeting of congress to reduce the rate of letter postage to one cent.

The street cars in Las Vegas will cease to run to-morrow. It is not a strike that causes the tie-up. The line has ceased to pay expenses.

This city should encourage the establishment of all sorts of small factories. Arrangements should be made to give a bonus for every such factory established.

Such is fame. No monument marks the Glorieta battlefield, where the Colorado troops won a signal victory over the invading army of Texans under General Sibley.

## The Art of Advertising

Is a greatly misconstrued expression. There is no art connected with a true advertisement—it is simply a narration of store news. Dashing headlines and beautiful phraseology attract the eye, produce occasional purchases and invariably result in dissatisfaction. Our method of advertising is to relate facts. We have our say and let you judge its veracity. That this manner has merited the entire approval of all classes of shoppers has again been demonstrated to us by the great success achieved by our recent sales. The coming months business will be a record breaker, for we have some great surprises in store for you.
