BIG LOTTERY.

Drawing for Choice Homesteads.

Gen. Wood Arrived at New York and is Better.

Col. John O'Day, of Missouri, Dies from Paralysis.

MILITARY FUNERAL FOR SOLDIER BELL.

El Reno, O. T., July 30.—Today's scene about the lottery platform was a repetition of those of yesterday. During the night the crowd had been swelled by several thousand eager people who had flocked to town in prairie schooners or on the train.

Many slept again upon the hillside around the wheels of fortune to be on hand early.

When the second day's drawing commenced it was estimated that over 30,000 people were on hand.

Yesterday's drawing had given a thousand homesteaders the privilege of selecting the best claims in the reservations. This left 12,000 claims and 166,000 applicants.

It was decided to draw two thousand names from the wheels to-day, one thousand each from El Reno and Lawton land districts.

HE IS BETTER.

Gen. Wood, Military Governor of Cuba, Has Arrived in New York.

New York, July 30.—General Leonard Wood, military governor of Cuba, accompanied by Mrs. Wood and their three children, arrived here to-day on the steamer Moro Castle from Havana.

General Wood said: "I am feeling much better. I intend going on board the steam yacht Kanawha for a short trip along the New England coast, where we hope to enjoy a spell of cool weather. I intend to return to Havana at the earliest moment."

MILLIONAIRE O'DAY DEAD.

A Missourian Dead in Baltimore from St. Louis, July 29.—Information has been received in a telegram from Baltimore, Md., of the death there to-day of Col. John O'Day, of Springfield, Mo., from paralysis. He was a millionaire.

In the early days of the St. Louis & San Francisco railroad, O'Day was the first vice president and general counsel. He was chairman of the democratic state party committee in 1884, when his party sent a solid delegation to congress. O'Day was married three times, and his three wives survive him. The first two secured divorces.

MILITARY FUNERAL.

Given to Soldier Bell, Who Carried Important Message During Sioux War.

Chicago, July 30.—Pursuant to an order from General Miles, a military funeral was to-day given to Jas. Bell, formerly of company E, Seventh infantry, Bell, with two companions, during troubles with the Sioux Indians in 1876, succeeded in carrying an important message from General Terry at the mouth of the Horn river to General Crook, then on Powder river. A scout had failed in a similar attempt, as the country was full of Sioux bands.

STUBBORN CARRIE.

She Refused Free Pardon, Preferring to Remain in Jail.

Topeka, Kas., July 30.—Mrs. Carrie Nation, in jail under thirty days' sentence and a fine of \$100, and \$45 costs, to-day refused a free pardon from Governor Stanley, because the fine was not remitted. Commissioners offered to allow her to pay it in monthly sums of \$5. She says she will stay in jail forever before paying.

OFF ON HIS VACATION.

Secretary Long Left for New England—The Schley Case.

Washington, July 30.—Secretary Long left to-day for his annual vacation, which will be spent in New England. Until his return, with the assistance of Secretary Hackett, Admiral Crowninshield, chief of the bureau of navigation, will be acting secretary of the navy.

Admiral Schley has already begun preparation of his case. At his request Jas. Parker, his assistant coun-

sel, to-day made application to the department for permission to examine the logs and official records in connection with the movements of the ships on the south side of Cuba, and this permission was granted. Parker was given access to these documents and was examining them to-day.

"LYNCH HIM."

Shouted Angry Londoners Who Invested in a Mining Company.

London, July 30.—At a meeting of creditors to-day and a subsequent meeting of shareholders of the Standard Exploration company, one of the mining concerns known as the Whitaker Camp group, the official receiver made such astounding revelations that he drew from the excited shareholders demands for lynching of the persons implicated. The receiver said the estimated assets were far below the company's capital of \$500,000, but the directors took little interest in the company's mines and devoted themselves to stock exchange speculation. "And that's your money has gone," said the receiver. "The total profits from speculations are \$230,000, less \$230,000." "Are these men still at large?" shouted the shareholders. "Yes, they are," came the answer, and, immediately those present rose to their feet, somebody shouting, "Lynch him." It was an exciting moment for Lord Pelam-Clinton, General Gough Calthorpe and others, who were attending the meeting. A storm of angry cries and hisses broke out, but the receiver finally succeeded in calming the shareholders by promising them every protection possible.

MARKET QUOTATIONS.

Market quotations and review furnished by W. P. Metcalf, No. 5 Cromwell block, received over the private wire of F. O. Loan.

New York, July 30.—The market opened extremely dull, the small business being chiefly confined to the steel and grangers. There was apparently little effort to either advance or depress prices. Midsummer dullness prevailed throughout the day, with a general apathy displayed by both buyers and sellers. No news appeared during the day. Market closed flat, fractional decline from the opening, throughout list declined extended to 1 1/2 percent in the grangers.

Hanged.

Phoenix, Arizona, July 30.—The body of an unknown Mexican was found dangling from a tree at Hart's ranch. It was suicide, according to the coroner's jury, but it is the well-founded belief, however, that he was lynched by cowboys.

LABOR TROUBLES.

The Steel Strike Will Be Settled.

A General Strike on 'Frisco Docks Ordered Today.

Almost Prohibitive Prices for Poultry, Fruits and Vegetables.

SUMMARY OF CROP CONDITIONS.

Pittsburg, July 30.—That the great steel strike would be declared off before the close of the day was the general impression here.

The general executive board of the Amalgamated association met early in secret session.

A short recess was taken at 11 o'clock, and the conference was again resumed.

Members of the board refused absolutely to say what had been done as to the prospects of accepting the terms arranged in the New York meeting.

At 12:30 p. m.—Conference adjourned for lunch to meet again at 1:30 this afternoon. Members came out apparently in good humor, but every one was silent when approached on the question of the proposed settlement.

President Shaffer said he could not say anything at this time further than he thought the chair afternoon would be taken up in a discussion of the proposition and it would probably be late before a decision was reached.

A member of the executive board said that if terms of the combine were accepted, President Shaffer would be given discretionary powers to settle the strike at a final conference between the representatives of the combine and the Amalgamated association.

At 4:45 p. m.—Conference just resumed.

The impression prevails around the headquarters that the conference had reached a decision this morning, and is waiting to hear further from the manufacturers. Garland is not present this afternoon, and it is believed that he is in communication with the combine managers.

WILL BE DECISIVE.

New York, July 30.—It was learned here to-day upon high authority that the action of the executive board of the Amalgamated association at Pittsburg to-day, when it passed up on the peace proposals agreed upon at the conference here on Saturday, will be decisive. There exists no arrangement for further negotiations, and peace or continuance of the strike hangs upon the vote.

HIG STRIKE AT FRISCO.

San Francisco, July 30.—Labor troubles in this city reached a culmination last night when the city front federation ordered a general strike on the Pacific coast, where it passes up on the peace proposals agreed upon at the conference here on Saturday, will be decisive. There exists no arrangement for further negotiations, and peace or continuance of the strike hangs upon the vote.

The checks began to return Sunday, but in the meantime Mr. Blaine left for El Paso several days before, and it is supposed he made a trip to Mexico. The words, "no funds" depreciate the checks to only a small value as a medium of exchange, but the "home bank" tendered the further information that Mr. Blaine had not been there since seven years before, when he left to serve a penitentiary sentence.

The amount he got is estimated at about \$500, although a debatable portion of it was spent over the gaming tables. His victims number about a dozen or more, whose names do not look well as such a list, as some are good business men.

The facts seem to be that Blaine has wealthy relatives at Gonzales, Texas, but he himself is an outlaw and scoundrel, and whether his people fix the matter up remains to be seen.

In the meantime Las Cruces people are ready for the high roller.

EDGEWICK Creamery butter, always sweet, pure and fresh.

WEEKLY SUMMARY.

Crop Conditions as Reported by National Weather Bureau.
Washington, July 30.—The weather bureau report a weekly summary of the crop conditions, says:

"Intense heat prevailed the greater part of the week throughout the central valleys, but the temperatures during the last three days were more moderate. Good rains have fallen over a large part of the drought area in the Mississippi and upper Missouri valleys, but the drought conditions became more serious in the Ohio valley and Tennessee, where the weather has been rainless except in few localities. In the Atlantic coast districts the weather conditions have been generally favorable, except over portions of the Carolinas and Virginia, where rain is now needed. Conditions were also favorable on the Pacific coast. Recent rains have improved the late corn in portions of Nebraska, Kansas, Oklahoma and Missouri, but the early crop was practically ruined before the rain came. In the great corn states east of the Mississippi river, except over northern Illinois, the drought and excessive heat has continued with disastrous effects upon corn, which is now in a critical condition. In central Texas, the cotton crop continues to need rain.

Wiring the Alvarado.

The force of electricians, sent here last Saturday by the J. H. Seaman Electric Co., of Chicago, to string the wires in the Alvarado hotel and depot, are hard at it these days, and if they keep up their present gait for about ten days they will have completed their labors here. They are first class workmen and know how to take advantage of the work.

Architect Charles F. Whittlesy will probably return from his California trip next Sunday when it is expected the wiring of the hotel will be completed, and as he inspects the work

TEXAS KILLING.

Crop Conditions as Reported for Kansas.

Admiral Kimberly Objects to Serving on Court of Inquiry.

CONVENTION OF SOCIALISTS.

Houston, Texas, July 30.—John T. Vaughan, a money lender, to-day shot and instantly killed Patrolman William Lee. Vaughan fed but later in an endeavor to reach his room was mortally wounded by a detective.

Vaughan's brother was locked up but refused to talk. No one knows the cause of the killing of the patrolman. The Vaughnans came here from Powder Springs, Georgia, where their father lives.

KANSAS CROP REPORTS.

With Rains Many Counties Will Produce Good Corn Crops.
Topeka, Kas., July 30.—Crop reports for Kansas, as compiled by the United States department of agriculture up to date, show material improvement. With reasonable rains many counties in the eastern division will produce one-fourth to one-half crop of corn. Pastures have improved and the farmers have ceased feeding wheat. Apples and peaches show improved condition. In the middle division some counties show about one-third of a crop. The western division is in the best shape of all.

ADMIRAL KIMBERLY.

He Wants to Be Excused From Schley Court of Inquiry.

Washington, July 30.—A letter has been received at the navy department from Admiral Kimberly asking that he be excused from the Schley court of inquiry on account of the state of his health. The admiral is understood to be suffering from heart trouble.

Admiral Schley has made answer to the request.

The Socialists in Convention.

Indianapolis, July 30.—At to-day's session of the socialist convention action was taken to contradict the report that a convention had yesterday "shelved" Eugene V. Debs. It was directed that a telegram be sent Debs, expressing confidence of the convention in him, characterizing him as a "leader."

Senator Andrews and Party.

Last evening Senator Andrews and W. S. Hopewell arrived here from Santa Fe and this morning they left in a covered spring wagon for San Pedro, accompanied by Secretary J. E. Saint, A. S. Murray, of Las Cruces, and their colored cook. They will meet Engineer Allan Kennedy and his corps of surveyors of one of the proposed railroad routes and no doubt some decisive steps will be made within a few days preparatory to the actual work of construction. The gentlemen will return to this city next Saturday or Sunday provided the heavy rains do not cause them some delay.

Tour of Inspection.

A special car of the Colorado & Wyoming railroad came in from the west this morning attached to No. 2, and its occupants were J. A. Keblur, second vice president and general manager of the Colorado Fuel and Iron company, his wife, and Messrs. Julian and Reid Kennedy. The party left Denver a couple of weeks ago for a visit to the various properties of the company in Colorado and New Mexico. The thrifty little mining camp of Florio was visited one day last week by the party and yesterday they were in Gallup. From here the general manager and his party left for Denver.

CONSUMPTION.

During his recent address before the British congress on tuberculosis Dr. Koch said his experiments satisfied him that human tuberculosis and bovine tuberculosis were radically different and that he had amply demonstrated that cattle could not be infected with human tuberculosis. The counter proposition that human beings were not liable to infection from bovine tuberculosis was hard to prove, the doctor said, owing to the difficulty of experimenting upon the human subjects, but personally he was satisfied with the case and he recited at length past mortem evidence supporting this belief. Dr. Koch said if this point were conceded it remained to determine the chief source of contagion. Continuing, he said that human immunity to tubercle infection disposed of the belief of infection through dairy products, and he considered this source of danger so slight as to be unworthy of precautionary measures.

Heredit was also an unimportant factor in the transmission of tuberculosis, though the contrary had long been believed. Dr. Koch said the chief danger of contagion lay in the sputum of consumptive patients and that a remedy was to be found preventing the consumptive from sputum. Several methods to this end were available, said the doctor, the surest of which being isolation in sanitariums. This, unfortunately, was impracticable, but he strongly urged the establishment of special consumptive hospitals and the obligatory notification of the authorities of the existence of the disease, the disinfection of their quarters whenever consumptives changed their residence and the dissemination of information to the people concerning the true nature of consumption, so aid in avoiding and combating it.

Dr. Koch highly complimented Dr. Herman M. Biggs, pathologist and director of the bacteriological laboratory of the New York health department, upon the repressive measures concerning tuberculosis taken in New York, where, he said, the mortality from tuberculosis had been reduced 55 per cent since 1886, and recommended the system organized by Dr. Biggs in New York to the study and imitation of all municipalities.

Dr. Koch closed his remarks by expressing his belief that the ultimate stamping out of tuberculosis was possible.

The Prescott Prospect, the reliable mining paper of Arizona, has been greatly improved, and shows many signs of prosperity.

It would be difficult to compute the exact money cost of the July hot wave, but as it extended over almost the entire country it was necessarily enormous.

The decision of the commissioner of the general land office of the United States is that mining locations without regard to mineral discovery constitute an occupation of the land.

There is a better demand for territorial wool in the eastern centers, and prices are firmer, with slight advance. The coming fall clip should net local growers good prices.

No single vessel ever carried more history-makers than did the transport Thomas, which left San Francisco on the 23rd inst., with 560 American school teachers bound for the Philippines.

There is now very little available land in the United States that is open to entry under the homestead act. In the west there is a vast area of land that will in the future be available for cultivation, but is now useless for want of means of irrigation. There is no longer a chance to preempt tillable land that is tempting to the homesteader. Land for cultivation must be purchased and the price is rapidly advancing.

The prohibitionists will not find much comfort in the report of the internal revenue department as to the seizure of illicit stills and the arrest of distillers. Last year 13,655 stills were taken, and by far the largest number, in a single state, were found in Georgia. Although with the exception of four of the largest cities—Georgia is a prohibition state, it furnished 673 of

DR. PRICE'S Cream Baking Powder

Each time the United States Government has officially tested the baking powders the report has shown Dr. Price's Cream Baking Powder of superlative leavening strength, free from alum, absolutely pure and wholesome.

This is gratifying, for Dr. Price's Cream Baking Powder is depended upon by millions of people to raise their daily bread.

NOTE—These Government inquiries also developed the fact that there are many imitations upon the market made in imitation of Dr. Price's Cream Baking Powder, but containing alum, or other caustic acid whose use in food is dangerous.

O. D. Poole, of McMillan, was drowned last Sunday in the Pecos. Details of the accident are very meagre, but it seems the young man was bathing in the river, just at the mouth of the Pecos, and getting out of his depth. In the swift current, he was drowned, as he was unable to swim. The deceased was a very popular boy, and many friends mourn his death and offer sympathy to his bereaved family.

New Railroad for Socorro County. T. J. Cox, of the firm of Hood Bros. & Hudson, Price, was in Socorro and in conversation with a representative of The Citizen stated that the company that is building the Hidalgo & Deming road had recently run a survey from the latter place to Price with an idea of building to the coal fields of western Socorro county. Mr. Cox further stated that it was understood that the proposed line would

continue to Denver, Colorado. There has long been need of a railroad to develop the rich mineral and other resources of the western part of Socorro county, and it is to be hoped that the day has now come when a railroad company appreciates the rare opportunity.

It is easier to keep well than to get cured. DeWitt's Little Early Risers taken now and then, will always keep your bowels in perfect order. They never gripe but promote an easy gentle action. Cosmopolitan Pharmacy.

See H. S. Knight, agent, and he will be pleased to show property to anyone desiring to purchase.

THE BOSTON BLOOMERS.

Ladies' Champion Base Ball Club of the World.

One of the most exciting and interesting games of the season will take place in this city Monday, August 5.

The club is under the management of W. P. Needham, and the Albuquerque Browns. The Boston Bloomers is the usual title given this famous ladies' base ball club. They are just entitled to the same, as they always appear upon the field, to battle for supremacy, dressed in the twentieth century garb—the bloomers. This organization of female ball players have traveled extensively and visited all the large cities in America and both provinces of Canada. The club has been strengthened from year to year, each member selected for her ability to execute and fill her particular position in a manner satisfactorily and becoming a member of this, the champion ladies' base ball club of the world, would not fail to see them. Admission, 20 cents.

Work of an Incendiary Hinted.

Mrs. G. W. Matthews, the pleasant wife of one of the energetic merchants of Williams, Arizona, passed through this city today en route to her old home in Medina, Tenn., where she will sojourn for a month or six weeks.

In speaking of the fire which nearly wiped out the business portion of her old home on July 2, the lady said her husband's stock of merchandise as well as military pariors with their contents, were reduced to ashes in a few minutes after the buildings took fire.

The stocks of both their establishments, together with their store building and their residence, were valued at \$10,000, on which they realized only \$2,450 of insurance. Before the flames were extinguished Mr. Matthews had written out the names of the new stock, and in a few days was enjoying a good patronage in a tent. There were forty-two business houses and residences that were destroyed by the great conflagration. It is not openly asserted how the fire originated, but incendiaryism is strongly hinted.

Man's Loss, Another's Gain.

The position of night clerk at the depot which was made vacant yesterday by the arrest of Robert L. Sumner, for robbing the United States mails, was filled later in the day by the promotion of Harry Fouts from that of billing clerk in the freight department. The duties of the last named position are now being looked after by Frank Sheets.

There are offices that do, but not this office. We use the best quality of paper—and hence our prices are accordingly.

The Art of Advertising

Is a greatly misconstrued expression. There is no art connected with a true advertisement—it is simply a narration of store news. Dashing headlines and beautiful phraseology attract the eye, produce occasional purchases and invariably result in dissatisfaction. Our method of advertising is to relate facts. We have our say and let you judge its veracity. That this manner has merited the entire approval of all classes of shoppers has again been demonstrated to us by the great success achieved by our recent sales. The coming months business will be a record breaker, for we have some great surprises in store for you.

The Boston Bloomers will be here on next Monday and the bald heads of the city have already asked the privilege of getting as close as possible to the "bloomers," that is, to occupy the front row of seats in the grand stand. The request will be granted with the proviso that when a "bloomer" hits a ball for a home run they must cheer in the ordinary, but not get overly

anxious to carry the batswoman around the diamond field on their shoulders.

George C. Bowman, the United States ganger for this district, returned to the city this morning from Socorro, where he was called to gauge the apple brandy recently made by A. D. Coon. On Sunday evening when the electrical storm was in progress the members of Wm. Jenks' household at No. 609 Fruit avenue were somewhat startled when a current of lightning struck an electrical wire and followed it into the residence where it made an exit by passing down the wall through the door and into the ground. The occupants of the house were not shocked at all and no damage to the building was done.

Saturday afternoon Arthur and Leslie Shaw, cousins, formerly residents of Bland, arrived here from the south, the former coming by rail from Morenci, Ariz., and the latter on horseback from Alamogordo. The young gentlemen located some copper properties in the Hell canyon district about a year ago and in the course of development work they found one which carried 35 per cent copper. Yesterday they purchased a wagon load of provisions in this city and started out to their properties where they will carry on some development work which has been mapped out.
