NUMBER 211

PORTO RICO.

Government for the Is-
land Proclaimed.

Sheet Steel Officials to Start
With Non-Union Men.

At British Congress on Tuberculosis,
Koch's Theory Was Criticized.

THE PRESBYTERIANS IN CONVENTION.

Washington, July 25.—The president issued a proclamation establishing free trade between Porto Rico and the United States and declaring the organization of a civil government for the island. The proclamation is purely formal, and only in the body of the resolutions adopted by the Porto Rico legislature heretofore published does it appear that the island is set free commercially today in commemoration of the anniversary of the planting of the American flag on the island. The proclamation is headed "Cession of Porto Rico to the United States," and recites the act of April 12, 1899, (otherwise known as the Foraker act) provided that whenever the Porto Rican legislature enacted and put into operation a system of local taxation to meet the needs of the government and by a resolution so notified the president, the latter shall issue a proclamation and all duties on goods passing between the United States and Porto Rico shall cease. As the legislature has complied with that requirement of the act in terms set out in resolutions quoted in full in the body of the proclamation, that document says: "Therefore, I, William McKinley, president of the United States, in pursuance of the provisions of the law above quoted and upon foregoing due notification do hereby issue this, my proclamation, and do declare and make known that the civil government for Porto Rico has been organized in accordance with provisions of said act of congress."

And I do further declare and make known to the legislative assembly of Porto Rico to enact and put into operation a system of local taxation to meet the needs of the government of Porto Rico."

THE STRIKE SITUATION.

Officials Expect to Start Plants With
Non-Union Men.

Pittsburgh, Pa., July 25.—The sheet steel strike development here is slowly accomplishing the intention of operating the plant with non-union men. Manager Brookman, of the Wellsville plant, in an interview, stated today they were expecting new men every day and will have every mill in the plant running on full time next week. At McKeesport all is quiet. The declaration of Mayor Black last night that he would not permit deputies in idle mills or allow the city police to guard the company's property caused a sensation. Hundreds of mill workers from Homestead and Duquesne joined the McKeesport workers this morning in a procession to the mayor's office to thank him for the stand taken.

The men of the Boston Iron and Steel company formed an Amalgamated lodge last night. The Boston workers have always been considered non-union.

CONGRESS ON TUBERCULOSIS.

Earl Spencer Criticized Dr. Robert Koch's Theory.

London, July 25.—Presiding at this afternoon's session of the British congress on tuberculosis, Earl Spencer (chancellor of Victoria university and vice president of the congress) severely criticized Dr. Robert Koch's theory that human beings were immune from contagion from tuberculosis in cattle. Earl Spencer said he hoped this theory, true, but based more on the dissemination of such views would not tend to cause laxity on the part of dairymen and cattle owners, or less vigilance by the authorities charged with the protection of consumers of milk. The speaker earnestly trusted that the congress would not endorse the view that it was unnecessary to take measures to prevent transmission of tuberculosis from animals to humans.

Presbyterians in Convention.
Warsaw, Ind., July 25.—The business session of the thirtieth annual

convention of the Young People's Christian Union of United and Associated Reform Presbyterian churches of North America, began at Winona Lake today.

MARKET QUOTATIONS.

Market quotations and review furnished by W. P. Metcalf, No. 6 Cromwell block, received over the private wire of F. G. Logan.

New York, July 25.—At the opening, stocks showed uncertainty, but improved on better weather reports, with St. Paul, Union Pacific and Atchafalaya, all advancing sharply. Consolidated gas which has shown considerable strength of late advanced on rumors of right under pressure of bear attack, especially in Union Pacific. The market opened by one o'clock to about the opening prices, when a period of dullness, with but slight fluctuations ensued until shortly before the close. The market closed quite firm with especial strength in the steel stocks. Grangers said to be caused by good buying orders and on reports of conferences at Pittsburgh. The general market closed with a stronger undertone than has been observed for several days, but the courses of prices will, as of late, largely depend on crop conditions.

Brooklyn Bridge Damaged.
New York, July 25.—No attempt was made this morning to resume full service on Brooklyn bridge, on which several suspension rods were found broken yesterday. Engineers examining the bridge carefully today. It is expected that full repairs can be made in a day or two. About noon an order was issued stopping all street car and vehicle traffic on the bridge. Acting District Attorney Le Barbier called at the office of Police Commissioner McQuinn today to report that the breakage was known to the bridge officials for a week. If this is so, wrote the acting district attorney, and if no steps were taken looking to repairs, then the officials were guilty of criminal negligence and the case will be presented at once to the grand jury.

Consecrated a Bishop.
New York, July 25.—With all the pomp befitting the occasion, Rev. John J. O'Connor, former pastor of St. Joseph's church, Newark N. J., was today consecrated bishop of the diocese of Newark. The officiating prelate being Archbishop Corrigan of New York.

Attitude Illegal.
Constantinople, July 25.—The Turkish government refused to permit the Greek squadron to visit Smyrna, Salonica and Monastir. Diplomatic officials regard the attitude of the Turkish government as illegal.

Big Convention of Baptists.
Chicago, July 25.—The biggest convention ever held by the Baptist Young People's union began today. It was estimated that 10,000 delegates and visitors will be present tomorrow.

OUR poultry is the kind you have been looking for, dressed fresh daily. It is always sweet and tender. We will have tomorrow dressed turkeys, dressed ducks, dressed broilers, dressed hens, etc. etc. extra fine and fat spring lamb, San Jose Market.

POPE'S HEALTH.

College of Cardinals Will
Soon Meet.

Solemn Roman Catholic Ceremonies at Chicago.

Secretary Long has Announced the
Schley Court of Inquiry.

FELL DOWN ELEVATOR SHAFT.

Rome, July 25.—Although the pope is in excellent health the feeling prevails at the Vatican that a meeting of the college of cardinals cannot be far off and there is no secret that the candidates to the papacy are making elaborate preparations for this conclave.

One of the chief characteristics of the next conclave, according to a high prelate, will be the large number of candidates for the chair of St. Peter. Whereas, after the death of Pius IX, there were only three candidates whose chances for the papacy were serious, today half the sacred college aspires to the chair and the first scrutiny is expected to show six or seven cardinals favored for the pontificate. The well informed anticipate a deadlock and ultimate selection of an outsider not yet mentioned.

ROMAN CATHOLIC CEREMONIAL.

Rock Place at Chicago on Consecration of Father Muldoon.
Chicago, Ill., July 25.—An audience of thousands assembled by the body and magic of the Roman Catholic ceremonial today witnessed the consecration of Rev. Father Peter J. Muldoon as titular bishop of Tamsanensis, auxiliary to the Most Rev. P. A. Feehan, archbishop of Chicago.

Cardinal Sebastian Martinelli acted as consecrator, while two archbishops, Fechan, of Chicago; Ryan, of Philadelphia; a dozen bishops, four hundred priests and scores of acolytes assisted in the ceremonies and celebration of mass.

COURT OF INQUIRY.

Names Announced and Meeting in
Washington, Sept. 12.

Washington, July 25.—Secretary Long announced this morning that he had selected Admiral Dewey and Rear Admirals Kimberly and Benham as members of the Schley court of inquiry. The report to the court has not yet been published.

THE JUDGE ADVOCATE.

Washington, July 25.—While the informal order is not yet issued it is understood that Secretary Long has selected Commander John E. Pillsbury, of the navy, to be judge advocate of the court of inquiry. Pillsbury was in command of the dynamite cruiser Vindicator during the Spanish war, attached to Sampson's fleet. The court will meet at the navy department, Washington, September 12. The scope of inquiry will not be known until the precept and order for convening of the court are issued. It is expected that they will be promptly issued by the department tomorrow. Secretary Long says that the proceedings will be open and the widest latitude permitted of the matter of witnesses. Rear Admiral Schley to be represented by counsel. The secretary said that none of the officers of the court chosen had yet been promoted. He expressed an opinion concerning the Sampson-Schley controversy, and it was therefore to be presumed that they could enter upon their work in an unprejudiced spirit.

Late this afternoon Secretary Long reconsidered his decision to appoint Commander Pillsbury as judge advocate of the Schley court of inquiry. The final decision has not yet been reached.

CAN NOT SERVE.

West Newton, Mass., July 25.—Rear Admiral Kimberly said today that owing to ill health he would ask to be relieved from serving on the Sampson-Schley court of inquiry.

TENDERED TO LEMLY.

Washington, July 25.—Secretary Long has tendered to Samuel C. Lemly, judge advocate general of the navy, the position of judge advocate of the court of inquiry. It seems probable that the appointment will be made.

Fearful Death.

Chicago, July 25.—John L. Collins, said to be the son of Admiral Collins, fell down the elevator shaft of the Masonic Temple today and was instantly killed. He was 53 years old. He leaves a wife, child and two brothers in California.

Purchase Exposition Restrained.

St. Louis, July 25.—In the court this afternoon suit was brought to restrain the Louisiana Purchase Exposition company from using Forest Park as the site for the world's fair to be held here in 1903. The petition which is filed by Henry H. Verdes and John F. Bergman, president and vice president of the Workingman's Protective association, claims that the ordinance is a gross violation of the charter and rights of the citizens.

Movements of Kruger.

The Hague, July 25.—Mr. Kruger arrived this afternoon and proceeded to the residence of Mr. Wolmarans, one of the Boer envoys at a watering place on the north sea.

Races Sunday Afternoon.

At the fair grounds next Sunday afternoon, the gentlemen's driving association will give another of their interesting race matinees, and a large crowd ought to attend. Not satisfied with the outcome of the recent free-for-all trotting race between Lady Margaret, Action and Duck, when the former won, the owners of these horses will try conclusions again next Sunday afternoon and it will prove, like the former race, the closest and most exciting trotting event ever held at the fair grounds. Besides this event which will be worth the price of admission, there will be several other races, and a genuine old-fashioned cake-walk. R. H. Greenleaf will have charge of the cake walk event, and he has already secured half a dozen

CLORIOUS RAINS.

The Heated Sections
Cooled Off.

Army of Homesteaders Waiting
for Drawing Chance.

Union Pacific Editorial Excursion
Train Rounding the Circle.

NAVY PRESIDENTIAL APPOINTMENTS.

St. Louis, July 25.—Cooler winds that prevailed last night relieved the temperature. At 10 a. m. the record was 80, or eight below yesterday. St. Paul, Minn., July 25.—Heavy general rain throughout this section this morning greatly relieved the heated spell. Chillicothe, Ohio, July 25.—Heavy rainstorm occurred here this morning.

TO ADVERTISE THE FAIR.

Today P. F. McCanna, secretary of the fair association, received a large number of sample posters from the various publishing houses of the east. As yet no orders have been made for these big show bills, but it is likely arrangements will be made for their purchase some time this week, as it is understood a meeting of the executive committee will be held at which time matters of importance will receive attention. The members of the executive committee are negotiating with the Santa Fe railway company for the loan of a car for advertising purposes, but at the present time no definite information can be obtained.

Pleasantly Surprised.

A party of young folks gathered at the home of Mr. and Mrs. Martin Tierney last night. All marched to the residence of Miss Marie Winchell, daughter of the well-known foreman of the machine shop, where a very pleasant evening was had for a few hours in games. Delicious refreshments were served. Those present were: Misses Sylvia Yanow, Carrie Myers, Mamie Tierney, Minnie Cecil, Ethel Gatlin, and Messrs. Harry Powell, Berardillo Bearpup, Thomas Hughes, Jr., Ted Maloy, John Hughes and Jacob Myers.

Improvements at Copperton.

W. F. Skeed, general manager for the Luna mountain copper company, arrived in the city last night and this morning left for Kansas City. The company has decided on the purchase of some mining machinery, and the general manager will select two hoists while there. Mr. Skeed will return to Copperton next week and superintend the erection of the machinery. The members of the company will visit their various copper properties in Arizona during the Spanish war, attached to Sampson's fleet. The court will meet at the navy department, Washington, September 12. The scope of inquiry will not be known until the precept and order for convening of the court are issued. It is expected that they will be promptly issued by the department tomorrow. Secretary Long says that the proceedings will be open and the widest latitude permitted of the matter of witnesses. Rear Admiral Schley to be represented by counsel. The secretary said that none of the officers of the court chosen had yet been promoted. He expressed an opinion concerning the Sampson-Schley controversy, and it was therefore to be presumed that they could enter upon their work in an unprejudiced spirit.

"Rounding the Circle." Green River, Wyo., July 25.—The Union Pacific press excursion left Ravenna this morning. Rain had fallen throughout the night, the first of any consequence in this section in many months, and the air was chilly. The observation car was patronized, however, and the enthusiasm of the tourists was not dampened. The first stop was at Rock Springs, where the Union Pacific coal mines were inspected.

Navy Appointments. Washington, July 25.—The president today made the following appointments in the navy:

Commanders—Albert F. Dixon, Geo. L. Dyer.

Lieutenants—Allen M. Cook, Raymond D. Hasbrouck, Stanford E. Moses, Henry B. Price, Andrew M. Proctor.

Lieutenants Junior Grade—Kenneth G. Chastlemann, Arthur Crenshaw, Chas. P. Burr, Wm. L. Littlefield, Alber W. Marshall, Thomas D. Parker, Pope Washington.

New Mexico demands Statehood from the Fifty-Seventh Congress.

The New Mexico Territorial Fair will be held in Albuquerque from October 15th to October 19th. Premium list will aggregate \$10,000.

ALBUQUERQUE, — JULY 25, 1901.

OTHERS CAN DO IT.

The Douglas Shoe factory employs 250 hands, and its yearly business amounts to \$2,500,000. In an address on advertising a New York business man said that any shoe manufacturer, or anyone who makes articles which are as necessary as shoes, could duplicate the Douglas success (provided he should have the requisite ability for organization and management) by a corresponding measure of originality, courage and persistence in advertising.

MRS. M. A. OTERO.

Together with the photo of the lady the New York World and the St. Louis Republic print the following sketch of Mrs. M. A. Otero, the wife of the governor of New Mexico, as a special telegram from Las Vegas: "Mrs. Miguel A. Otero is the wife of the governor of New Mexico. She is the youngest daughter of Judge Emmett, at one time chief justice of Minnesota. When she was just out of school she came here to visit her sister. One day she was riding, and the governor, then a young man, was captivated by her excellent horsemanship. This led to a meeting, the meeting to a better acquaintance, that to something stronger—then marriage. They have had three children, but one of whom is living. Mrs. Otero is a member of the Sunshine Daughters of the American Revolution.

MISSIONARY MEAT.

Speaking of the recent killing and eating of two missionaries by cannibals of Fly River, Guinea, the Portland Oregonian says: "These savages do not eat missionaries because they have any religious hostility for them as preachers of a new faith; they only eat them because, as non-consumers of rum and tobacco, their flesh is far more palatable than that of any other type of white man. In the judgment of a cannibal, the meat of a missionary is better eating than anything else except the flesh of a young child, another non-consumer of tobacco and ardent spirits. These cannibals not seldom spare the lives of American and European sailors, for the simple reason that their flesh is so impregnated with the flavor of alcohol and tobacco as to be as unpalatable as we find crows, geese, buzzards and other carrion consuming birds." As a measure of self-protection it would appear to be necessary for missionaries to drink whisky and indulge in tobacco.

PECOS FOREST RESERVE.

This grand national park consists of about a half million acres of land, and contains the sources of the Pecos, Mora, Rio Santa Fe and the numerous branches of these streams. The park contains several mountains over 13,000 feet above sea level, and are densely wooded. The streams are noted for trout, and wild game is becoming plentiful. The reserve is under charge of R. C. McClure and six forest rangers, and they keep a close watch over the whole reservation. At least ten forest rangers are needed to guard the park from fires and depredations. The deer are becoming numerous, and if protected, in a few years will be one of the greatest attractions of the park. During the past two weeks at least one thousand trout were taken by fishermen each day, and some of the streams are becoming depleted. Efforts should be made by all concerned to protect the trout and to get the streams restocked this fall.

PROF. KOCH ON TUBERCULOSIS.

Prof. Koch's declaration that tuberculosis is not transmissible is likely to arouse much interest in the world of medicine, and proof of his assertion will be awaited.

The British congress on tuberculosis, before which body Prof. Koch made his assertion, was startled by the eminent scientist's announcement, as it has been generally accepted that tuberculosis from cattle is transmissible. In fact this form of transmitting consumption has heretofore been considered both general and deadly, and stringent measures have been adopted against it, both in this country and in Europe. In the United States, laws have been passed calling for the condemnation of all beef showing evidence of tuberculosis, and many states have made regulations providing for strict inspection of milk. Doctors have insisted that dairy cattle should be killed if showing signs of tuberculosis, and medical journals have quoted many instances of consumption being contracted presumably through the use of infected milk.

ODD FELLOWS.

Brief Biographical Sketches of Well Known Odd Fellows.

STEVENS, VANN, SPEARS AND BOWIE.

The Santa Fe New Mexican published a supplement of four pages to its regular paper yesterday, wherein it gave the full proceedings of the recent meeting of the grand lodge of Odd Fellows in that city, with brief write-ups and half-tone cuts of the present grand officers and past grand masters. The latter reproduces the sketches about A. E. Stevens and S. Vann of this city, and John C. Spears and Alex. Bowie, of Gallup.

PAST GRAND MASTER STEVENS.

Born at Norway, Oxford county, Me., December 1, 1847. Was initiated into the I. O. O. F. at Santa Fe, N. M., at the Golden Bell lodge, No. 561, at the age of 21 years and three months, and for 24 years has been an active member of the order, without a suspension or lapse. During this time he has held membership in Omaha, Neb., Leavenworth, Kas., and two lodges in Albuquerque, N. M. He was made a grand master in Kansas, and is now a member of No. 1 of Albuquerque. He was a member of the old U. D. camp, and at present a member of the Santa Fe Grand Lodge, No. 1, P. M. of Albuquerque, as well as Triple Link Rebekah lodge No. 10. He is past high priest and past chief of the order, and has been an active worker in all the branches of the order. Brother Stevens' work in the grand lodge of New Mexico is past grand master, and he is now in the line of the order at all times. After holding several minor offices he was elected grand master in 1894 for two years. During the trying times following the panic, when lodges of all orders were disbanded, brother Stevens, by his hard work and constant attention to duties of his office, as well as by personal visitation, not only stopped the backward movement of the I. O. O. F. in the territory, but succeeded in instituting three subordinate and three Rebekah lodges, bringing the membership to the high figure ever reached, and was elected grand master in 1898 and 1900. He is a thorough and reliable, perfect in secret work and diligent work is insisted upon and obtained.

PAST GRAND MASTER VANN.

Samuel Vann was born in Coventry, England, February 15, 1854. Was educated at home and adopted the business of a jeweler and optician. Came to the United States in April, 1881. Initiated into the Manchester Unit of Odd Fellows June 1, 1882. Joined Santa Fe lodge, No. 149, I. O. O. F., at Rockford, Illinois. Came to Albuquerque about ten years ago. Transferred membership to Harmony lodge, No. 1, I. O. O. F., at Albuquerque as a charter member. He is a past commander of Canton Rio Grande No. 1, past chief patriarch, Albuquerque Elks lodge, No. 4, past grand harmony lodge, No. 17, and a member of Triple Link Rebekah lodge of Albuquerque. He served as no. 1 of the grand lodge of the territory, and was elected grand treasurer of the grand lodge in 1896, deputy grand master, 1898, grand master 1899. He is a prominent business man of Albuquerque, where he conducts a fine jewelry store, also doing well as an optician.

PAST GRAND MASTER SPEARS.

John C. Spears was born at Rangum, near Holytown, Lanarkshire, Scotland, September 22, 1859. Came to America in May, 1885, was educated in the public schools of Iowa and is a coal miner by occupation. He became a resident of Gallup in 1887. He was elected a member of the house of representatives of the territory and served in that body during the session of 1889 with credit and ability. He very acceptably filled the office of United States coal mine inspector under the administration of President Harrison in November, 1900. He was elected on the republican ticket by a handsome majority as treasurer and collector of McKinley county, which office he now fills.

PAST GRAND MASTER BOWIE.

Alexander Bowie is a native of Scotland and was educated in the public schools of his native country. He came to the United States before he became of age and settled in Westmoreland, Pennsylvania, where he followed the vocation of a coal miner and mine foreman. He came west to Colorado in 1886, and settled at Santa Fe. He was elected a member of the Santa Fe lodge, No. 529, at Irwin, Pa., in 1889. He joined Gallup lodge, No. 39, of which he is still a member. He went through the chairs and now holds the position of grand secretary of the grand lodge which he also held for the previous term by appointment to fill a vacancy that occurred October 1, 1900.

THE RAILROAD SURVEY.

On Monday of this week a surveying party left Durango for the measurement of the line of the Durango, Farmington & Clifton railroad. Two other parties were started at the same time, one near Gallup and the other from Clifton, Arizona. The superintendency of the entire work will be in the hands of Mr. Wigglesworth, who is entirely competent.

PROTECTION THAT PROTECTS.

There can be no better place in the United States to take an outing. During the past ten days cool showers fell every day, and fire were comfortable in the evening.

FARMINGTON.

George Griffin came in from his visit with the home folks in Pennsylvania. He took in the Buffalo exposition and enjoyed his trip, but is glad to get back to the best spot on earth.

SAN MARCIAL.

Special Correspondence.
San Marcial, N. M., July 23.—L. M. Lasley, of the Golden Bell mine, came in from Rosedale this afternoon.

HEARTBURN.

When the quantity of food taken is too large, the quality too rich, heartburn is likely to follow, and especially so if the digestion has been weakened by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let six hours elapse between meals and when you feel a fullness and weight in the region of the stomach after eating, indicating that you have eaten too much, take one of Chamberlain's Stomach and Liver Tablets and the heartburn will be avoided. For sale by all druggists.

DEMING.

From the Herald.
Ed. Farwood, a cowboy in the employ of E. E. Burdick, ran a stick into his eye while riding the range. He rode to town and got Dr. Swop to take it out.

THE LUNA COUNTY COMMISSIONERS

have adopted an official seal representing a union shield and banner with a star for New Mexico. Clerk, B. Y. McKee, the county clerk, suggested it.

CLARENCE BENNETT of the Herald threw a pair of scissors to stick them into the ground, while at play at his home the other evening. Instead of entering the ground, the scissors entered his shoe and went clear through his foot. It was a narrow escape.

Mrs. M. E. Collins is having a well dug in the burnt district, prior to rebuilding the Deming house. Capt. J. R. Foster has an architect at work on plans for the new Dewey house. The plans will call for a much larger house than the former building, and provide for a brick front and a large porch.

SILVER CITY.

From the Independent.
Born in this city, to Mr. and Mrs. Charles H. Lyons, a son.

ALONG THE RAILS.

Interesting Information Regarding Railroad Officials and Employees.

NEWS IN ABREVIATED FORM.

The Liberty-Dawson railroad promoters have surveying corps at both ends of their proposed line.

P. Patrosio of Seligman, Ariz., is acting manager of the Topeka Harvey estate house. H. H. Pritch, the regular manager, is suffering from malaria fever at the Santa Fe hospital of that city.

The marriage of Ned Fugate, of Raton, the eldest son of Conductor W. J. Fugate, to Miss Eugenia Mansur, of Carrollton, Mo., is announced to take place early in the fall. The bride to be is a niece of A. N. Blackwell, of Las Vegas, and C. N. Blackwell, of Raton.

Machinist C. Whittaker has quit his job at Raton to go to Colorado Springs. Just as he was about to quit work for good in the Raton shops a heavy rain fell on his foot, inflicting a painful injury which will necessitate the use of crutches for some weeks.

Passenger Conductor Chas. H. Damsky, who has had charge of a train on the Santa Fe south of Albuquerque for the past sixteen years, though connected with the railroad service in those parts since 1881, has returned from Manitou, Colo., where he had whittled away a fortnight most pleasantly and profitably.

An order has been given out that the new Santa Fe design is to be painted on the sides of all the box cars hereafter. The trademark consists of a Greek cross in a white circular field, the words "Santa Fe" in the center, and the arm of the cross. The trademark heretofore has been a black square with the words "Santa Fe Route" enclosed within it.

The Topeka State Journal says: Engineer W. P. Beeler has reported for work after a lay off of about two months. Beeler was hurt by a switch west of Strong City more than ten years ago and about eight weeks ago the injury grew so much worse that he was compelled to leave his duties. Since then he has become better until now he is in about as good shape as before the accident happened.

Attorney General Bell, of Texas, is determined that the Santa Fe Railway company shall not be given out of the state, but that it shall be denied the privilege of resuming business in the state until it has paid all the claims of the state. The Texas Pacific, the International and Great Northern and a number of shorter roads in that state in addition to filing suit to restrain the company from continuing business in Texas, on the ground that its permit for such action has expired. Attorney General Bell filed a written protest in the department of the secretary of state against the issuance of a permit authorizing the Texas Pacific Railway company to transact business in this state.

The Santa Fe is not only using oil as fuel on its lines west of Albuquerque, but it is sprinkling the tracks with the fluid. Oil is used as fuel because of its cheapness, convenience and cleanliness. The oiling of the rails will result in keeping down the clouds of dust always observable during and after the passage of a train. It will prevent the dust which is raised and settles on clothes, seats and window ledges adds so much to the discomfort of passengers. The Santa Fe is not the only line that uses oil for this purpose, but it is the only one doing it on a large scale. It is not doing it through any idea of economy, but because it will result in the comfort of its patrons. Fifty dollars per mile is the cost for service of this character. Over 1,500 miles are thus treated at regular intervals.

Any advertiser desired is authorized to guarantee Banner Salve for better, eczema, piles, sprains, rheumatism, and any other skin or OLD SORE. Alvarado Pharmacy.

It is easier to keep well than to get cured. DeWitt's Little Blue Pills are taken now and then, will always keep your bowels in perfect order. They never gripe, but produce a easy gentle action. Cosmopolitan Pharmacy.

From the Office. C. L. Marsh has been appointed postmaster at Santa Rosa. Messinger & Jodell are having the interior of their business house handsomely refitted.

The bank checks of a certain Santa Fe young man have not yet been cashed at the bank upon which they were drawn. Dr. Wm. Curtis Bailey of the Plaza hotel, who is the government weather observer for Las Vegas, has received the flag of the department of meteorology and the instructions for their use. He now has the flag mounted on a pole and is flying it in the southwest corner of the hotel.

Yesterday afternoon, May, the 9-year-old niece of Mrs. J. Martin, who recently came from Gallegos, concluded to visit her friends in that place. She boarded No. 2 without her ticket. The conductor put her off at Fulton and she was picked her up and returned her to her anxious grandmother and aunt in this city.

At the home of W. H. Bunker occurred the wedding of Miss Flora Bueche of this city and A. R. Hopson of Crowley, Louisiana. Only a few of the immediate relatives were present. Miss Bueche's cousin played the wedding march and Rev. Norman Skinner pronounced the words that made them man and wife. The bride took the afternoon train for El Paso and the groom and bridegroom for El Paso and the south and back to Louisiana.

For Over Fifty Years. An Old and Well Tried Remedy. Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhea. It is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and get DeWitt's Soothing Syrup and take no other kind.

DeWitt's Witch Hazel Salve should be promptly applied to cuts, burns and scalds. It soothes and quickly heals the injured part. There are worthless counterfeits, be sure to get DeWitt's. Cosmopolitan Pharmacy.

Land Office Business. The following business was transacted at the federal land office in Santa Fe for the week ending on July 24: Homestead Entry—July 18, Dionio Gallegos, Chaperito, 164.4 acres, Guadalupe county; Francisco Lazero Villanueva, 169 acres, Guadalupe county; July 19, Luis Duran y Crespin, Chaperito, 169 acres, Guadalupe county; July 20, Florencio Madrid, Sanchez, 169 acres, San Miguel county; Manuel Ortiz Santa Rosa, 169 acres, Guadalupe county; July 22, Pedro Esquivel, Sanchez, 162.71 acres, San Miguel county; Eustacio Gurule, Puerto de Luna, 169 acres, Guadalupe county; Gerónimo Gallegos, Puerto de Luna, 169 acres, Guadalupe county; Lazaro Madrid, Cabra Springs, 169 acres, San Miguel county; Fred L. Braun, Puerto de Luna, 169 acres, Guadalupe county; J. Addison Jackson.

Santa Rosa, 169 acres, Guadalupe county; Manuel B. Baca, Puerto de Luna, 169 acres, Guadalupe county; Jose Debray Gonzalez, Causa, 159.43 acres, San Miguel county; Manuel Causa, Jr., La Cueva, 169 acres, Mora county. Final Homestead Entry—July 18, eaus Trujillo, Gerónimo, 169 acres, San Miguel county.

Cure for Cholera Infantum—Never Known to Fail. During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days time the child had fully recovered. The child is now vigorous and healthy. I have recommended this remedy frequently and have never known it to fail.—Mrs. Curtis Baker, Brookwater, Ohio. For sale by all druggists.

When you want a modern, up-to-date physio, try Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. Price 25 cents. Samples free at all drug stores.

BORING FOR OIL.

A Few Interesting Facts About the Business.

While oil has been mainly found in Silurian and Devonian formations, it frequently occurs elsewhere. Porous beds of sandstone serve as the best reservoirs. Drilling in a number of oil fields has disclosed the fact that the oil bearing sands usually lie in three distinct layers, known as the first, second and third sands. In some instances the third sand is the most productive. In some instances a fourth sand has been found.

The very uncertainty of the oil trade, which has been most extraordinary, giving a meaning to the American phrase "struck oil," has brought to the business of oil boring charm and fascination peculiarly its own.

On one occasion a well was bored and no oil found. The apparatus was drawn out and later steps were taken to widen the hole a half inch in each direction preparatory to boring deeper. An enormous vein was struck. The boring apparatus had just missed the vein and as the latter borings proved that there was nothing below, the well would have been a failure but for the suggestion that it be slightly enlarged for convenience in boring deeper. Another well in the same locality was bored, flowing in a large amount of oil; but by the time the tanks had been built to collect it the oil had altogether disappeared. The deepest well sunk in the district, more than 1,000 feet, yielded no oil whatever. And altogether only 15 per cent of the borings were successful.

One of the most remarkable wells in the early history of the century was one sunk in 1829 near Burkeville, Ky. The proprietor was boring for salt. The discharge was very profuse, and at intervals of from two to five minutes the flow continued in the form of a month or more and then settled down to a steady stream, running many thousands of gallons a day, and flowing out and over the surface of the Cumberland river, and reaching a distance of hundreds of miles. A boy set fire to it and the effect was grand beyond description, the flames rising from the surface of the river to a height far above the tops of the trees and affording literally the spectacle of a river on fire.—Richmond, Va. Times.

A Poor Millionaire. Lately settled in London because he could not digest his food. Early on Dr. King's New Life Pills were given him. They strengthened his stomach, aided digestion, promoted assimilation, improved appetite. Sold by J. H. O'Reilly & Co. druggists.

What Two Cents Will Do. It will bring relief to sufferers from indigestion or constipation, or the worst cases. This is about what one dose of Foley's Kidney and Bladder Pills will do. Alvarado Pharmacy.

Rock Island officials now announce that the line from Anadarko into Lawton will undoubtedly be completed in operation by August 1, six days before the drawing. The new road is now completed to within twelve miles of Fort Sill, which is three miles distant from the Lawton townsite. The force at work on the road has been greatly increased and every effort is being made to have rails laid into the town by the first of the month. Not long ago the Rock Island management despaired of having the road in operation by the time of the opening, because of the scarcity of competent labor.

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Pills. "For years I have been troubled with kidney trouble and enlarged prostate gland. I used everything known to the profession without relief, until I was induced to use Foley's Kidney Pills. After using three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend it to all physicians for such troubles. For I can honestly state that I have prescribed it in hundreds of cases with perfect success." Alvarado Pharmacy.

"I am indebted to One Minute Cough Cure for my present good health and life. I was treated in year by year for lung trouble following a gripple. I took One Minute Cough Cure and recovered my health." Mr. Wm. Madison, Ga. Cosmopolitan Pharmacy.

The Pullman company has awarded a contract for the rebuilding of an entire plant located at Wilmington, Del. There were 28 bidders for the work, which was awarded to a Chicago firm for \$250,000. The contract calls for doing with tearing down the old buildings and the erection of the new ones. The work of equipping the buildings, including the installation of machinery will be done by the employees under the direction of Pullman officials.

She Didn't wear a mask. But her beauty was completely hid by a series of blotches and pimples all she used Bucklin's Arnica Salve. Then they vanished as well as all eruptions, fever sores, boils, ulcers, eruptions and sores from its use. It is suitable for cuts, corns, burns and piles. 25c at J. H. O'Reilly & Co's.

Bisbee railroad contractors are distributed as follows: Orville J. Crook have established their camp at Carrizillo Springs and are grading westward on the main line; A. Wallis is grading southward on the Deming line.

Here is a Chance. To buy a fine home, cheap. Mr. Wm. Cook having located elsewhere, has concluded to sell his property known as the Hill Cook place, corner East street and Highland avenue. The property consists of about an acre of ground nicely fenced, five-room house, stable, out-buildings, windmill and tank in good repair which furnishes water for all purposes; also ditch at back of lot, 200 bearing fruit trees of all kinds, grapes, etc. Good location to build houses to rent. See H. S. Knight agent, and he will be pleased to show property to anyone desiring to purchase.

We are headquarters for bed spreads, sheets and pillow cases. Albert Faber, Grant building.

All over the world Schlitz beer is known and is the standard. In Vladivostok, Preobra, Shanghai, Singapore, Bombay, Cairo and Constantinople it is the beer of civilization. Schlitz beer has won the world's markets by its reputation for purity, maintained for half a century. Wherever white men live Schlitz beer is acknowledged the pure beer. Our pledge to you and our pledge to all nations is that never will a bottle of Schlitz beer go out until we have insured its purity; never a Schlitz insufficiently aged.

Schlitz beer, wherever you find it, is healthful; it is **WORLD-FAMOUS** and has made Milwaukee famous. New Phone 199, Melini & Eakin, 111 S. 1st St., Albuquerque. Call for the brewery bottling.

CROP BULLETIN.

Reports From Various Correspondents On Crops of the Past Week.

"United States Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, New Mexico Section."

Santa Fe, N. M., July 23.—The past week was characterized by local thundershowers, in some localities quite heavy and accompanied by hail, but, as a rule, the rains have been confined to the mountain ranges, and there has been no considerable amount of growth on the prairie. The cooler weather towards the close of the week, with the cloudy afternoons and frequent showers, has been very beneficial to the crops. The "rainy season" has begun, and the prospects are good for an immediate relief of the protracted droughty conditions, and some damage still in excellent condition, but in some localities there has been some decline. Crops under irrigation are doing well, and there is a great deal of irrigation water in the vicinity of Las Vegas and the country immediately to the east of the northern mountain ranges.

What a considerable amount of growth on the prairie. The cooler weather towards the close of the week, with the cloudy afternoons and frequent showers, has been very beneficial to the crops. The "rainy season" has begun, and the prospects are good for an immediate relief of the protracted droughty conditions, and some damage still in excellent condition, but in some localities there has been some decline. Crops under irrigation are doing well, and there is a great deal of irrigation water in the vicinity of Las Vegas and the country immediately to the east of the northern mountain ranges.

Alamogordo—J. C. Dunn—Hot and dry, with a few showers, with high winds, but showers for the last few days have relieved the conditions and all vegetation is much refreshed. Corn in the plains is but few weeks from harvest. In the mountains are plenty of irrigation water for the remainder of the season.

The Art of Advertising

Is a greatly misconstrued expression. There is no art connected with a true advertisement—it is simply a narration of store news. Dashing headlines and beautiful phraseology attract the eye, produce occasional purchases and invariably result in dissatisfaction. Our method of advertising is to relate facts. We have our say and let you judge its veracity. That this manner has merited the entire approval of all classes of shoppers has again been demonstrated to us by the great success achieved by our recent sales. The coming months business will be a record breaker, for we have some great surprises in store for you.

And can convince you in five minutes if you will take the trouble to look into our windows or step inside to make comparisons. We will absolutely carry over nothing in the way of Summer Goods. They will all be sold at some price so there is your opportunity to save money.

SIMON STERN

THE RAILROAD AVENUE CLOTHIER.

been visited the past week by heavy rain storms and that the country is beginning to look better since the long dry spell was broken.
Robert Trauach, one of the proprietors of "The Horse Shoe Club," was introducing to Albuquerque friends to-day J. J. May, who arrived this morning from San Francisco. May is a well-known cigar manufacturer of Trinidad, and reports business good on his present trip.

The Las Vegas Optic says: Edward O. Thum, who recently came to this city from Albuquerque, has been recommended for appointment to be a letter carrier in place of Wm. B. Stapp, resigned. He was at one time a clerk in the New York postoffice, but has been a resident of New Mexico for over two years.

A telegram from San Marcel says a "little heat" has been given to a little damage done. No particulars, but it is inferred that the heavy rain, which caused the river, across an aqueduct to overflow, flooding the lowlands and causing some damage to valley farms and along the railroad track.

When No. 8 arrived from California last night among the Albuquerqueans who were seen to alight were Robert Rutany, proprietor of the wholesale grocery establishment. The gentleman was accompanied by his estimable wife and little children, and had just returned from the refreshing climate of southern California.

Besides the attractions on the midway and fair grounds during fair week, there will be an attraction at the crockery and glassware store of A. McGuffee & Co., which will capture the eye of the feminine population. An expert carver of glassware will be here, who will carve any design on glass dishes that one may wish.

James Grunfeld went up to his Long Green mine, a valuable copper property east of Bernalillo, today, where he will inspect the workings, which have been opened recently. He was accompanied by his brother, Edward, who no doubt will become interested in other properties in that vicinity. The gentlemen will return tonight.

The little daughter of James Graham, whose head came in contact with an ax which her brother was swinging last week and sustained a serious scalp wound, is getting along nicely and no serious complications are likely to arise. The gash inflicted required the services of a surgeon, who required the fracture by a needle and thread.

In the twelfth block on south Second street Mrs. Barbara Sanchez is having erected an adobe residence and store building combined. The structure, which will be one story in height, is 20x70 feet in ground dimensions. R. Berardinelli, the contractor, finished laying the stone foundation yesterday and work on the walls was begun today.

This morning Engineer Allan Kenney left overland for San Pedro in company with County Surveyor J. R. Farwell, J. M. Barlow and George Saint. They will make several preliminary surveys for the Santa Fe Central from that point to Pinos Altos. The work will require about six weeks' time, after which the gentlemen will return to Albuquerque and report to Secretary J. E. Saint.

L. L. Gatewood, book-keeper at "The Economist" dry goods store, has just completed the pen-drawing of a most handsome design of a hat, which he is showing to the proprietors of the Clarkville coal yards. At one end of the cheek there is a panel for a picture, which will be a portrait of the late likeness of the three children of Mr. and Mrs. Beaven. The drawing will be on exhibition for a few days at that point to Pinos Altos.

There will be four harness races held 3 in 5 heats at the fair grounds Sunday afternoon at 2:30 o'clock. A cake walk and singing. The hotel talent in the city for the purpose has been secured and a first class time is expected. The cake walk will take the cake, sure. Admission, 25 cents.
