HARD TO SUPPRESS

Chili in the Hands of
Bandits.

The Torrid Weather of East
Causing Many Deaths.

No Relief in Sight for the Drouth
and Heat Stricken Region.

ANOTHER VICTIM OF ALTON WRECK.

Pekin, July 22.—Disaffection caused by bandits is prevalent in thirty districts of the central part of the province of Chili. Local officials are either disarmed or unable to suppress the troubles. Troops sent against the bandits showed sympathy for them, many having formerly been soldiers. In a recent conflict a hundred soldiers and officers were killed. Complete pacification will be extremely difficult.

DEATHS FROM HEAT.

Prostrations in Chicago, Kansas City
and Elsewhere From Torrid
Weather.

Des Moines, Iowa, July 22.—Indica-
tions are that 102 will be reached this
afternoon. Two deaths from heat last
night.

PROSTRATIONS IN KANSAS CITY.

Kansas City, July 22.—At 10 o'clock
this morning the weather bureau re-
ported a temperature of 92 degrees.
The only report of rain or lower tem-
perature in the southwest during the
past forty-eight hours comes from the
Galveston, Texas, coast, where a quar-
ter of an inch of rain fell. Prospects
are that yesterday's record breaking
heat in Missouri, Kansas and the terri-
tory will be equalled if not exceeded.
In Kansas City, Mo., and Kansas
City, Kas., for thirty hours up to 10
o'clock this morning there had been
fifteen prostrations. Nine resulted fa-
tally.

Fourteen deaths from heat, with fol-
lowing two scores of prostrations, were
reported up to 1 o'clock today in Kan-
sas City, and Kansas City, Kas., for
the past thirty-six hours. At 1 o'clock
the weather bureau thermometer re-
gistered 102. Not a drop of rain is re-
ported at any point in the southwest.

CHICAGO DEATHS.

Chicago, Ill., July 22.—The night
was sultry, there being scarcely a
breath of air. Hundreds of people in
the crowded districts slept out
doors. The weather forecast for today
promises a moderate temperature for
Chicago and the cities within the belt
of Lake Michigan, but there is no re-
lief in sight for the corn belt. At 1
o'clock today the temperature was 75.
Four deaths are reported from heat.
Later four additional deaths were re-
ported, bringing the total to eight.

VERY HOTTEST DAY.

St. Louis, July 22.—Acting fore-
caster Spencer of the local weather bu-
reau declares this is the hottest day
in the history of St. Louis. At 1 p. m.
the thermometer registered 106, the
highest record attained yesterday and
the mercury still rising. The maxi-
mum probably will be reached at 4
o'clock.

NO RELIEF IN SIGHT.

Washington, July 22.—Early morn-
ing reports from the middle Mississip-
pi valley stations weather bureaus did
not indicate any relief for the people
of the drouth and heat stricken re-
gion. The weather forecasters say there
is no sign of relief for the people of
the Mississippi valley.

HOT AT INDIANAPOLIS.

Indianapolis, July 22.—This was the
hottest day ever experienced in In-
dianapolis. At 10 o'clock the official
temperature was 99.

DEATHS IN NEW YORK.

New York, July 22.—Three deaths
from heat were reported this morning.
At 10 o'clock the temperature was 80.
The humidity was 76.

TERIBLE AT TOPEKA.

Topeka, Kas., July 22.—This was the
hottest day of the season, followed

May Stop War In South
Africa.

A Batch of Presidential Ap-
pointments Announced.

Over Two Million Dollars Fraudulent
Bank Notes Circulated.

MAYOR SHOT AND KILLED.

London, July 22.—The death of Mrs.
Kruger, of South Africa, last Sat-
urday, may have some influence in short-
ening the war. Kruger himself has
been reported exceedingly despondent
over military operations. The story is
brought by influential South Afri-
cans that Botha was strongly dispo-
sed to surrender, but did not consider him-
self at liberty to do so against the
judgment of Kruger.

Presidential Appointments.

Washington, July 22.—The presi-
dent today made the following ap-
pointments:
Richard L. Sprague, Massachusetts,
consul, Gibraltar, Spain.
Edward A. Crovey, Connecticut,
consul, Calcutta, Saxony.
Samuel Smith, New Jersey, consul,
Moscow, Russia.
R. S. Reynolds Hitt, Illinois, third
secretary United States embassy, Paris.
Francis Scott, second lieutenant
revenue cutter Surveyor.

Train Load of Healthy Soldiers.

This afternoon four troops of the
fourteenth cavalry, Third squadron,
passed through Albuquerque in a spe-
cial train from Ft. Leavenworth headed
for Ft. Grant, Arizona. The troops
were under command of Captain C.
Overton, assisted by Lieutenants
Christie, Pope, Riggs and Fisher. Up-
on their arrival at Ft. Grant they will
relieve the members of troop E. Fifth
cavalry from garrison duty, who will
be transferred to other quarters. The
fourteenth cavalry boys enlisted last
February and all expressed themselves
as much pleased with the life of a sol-
dier. The four troops are the "L", "K",
"M" and "N", which the boys have
transferred to the "Milk" squadron.
Captain Dave Anderson is the conduc-
tor who had charge of the train from
this point south to San Marcial.

A Spanish Comedy.

Orchestra hall was crowded to
the doors last night from 8 o'clock un-
til 10:30 by people from this city and
adjacent towns to witness the production
of a Spanish comedy, entitled "Con-
version of the Savage Indians." The
principal characters were pre-
sented as follows: Felice De Biasi,
priest; Juan Amigo, philo-
sopher; Cerrillo Sesma, assisted
by a half dozen younger men, repre-
sented the savage Indians, and a doz-
en boys assumed the role of guardian
angels. The entertainment was ar-
ranged and carried out for the benefit
of San Felipe de Neri church. The
audience was a decided success in every
particular and gave so much satisfac-
tion to the participants and audience
that it is likely to be repeated within
a few months.

Death of an Infant.

Between the hours of 6 and 7 o'clock
this morning, Stewart E., the 5-
month old son of Mr. and Mrs. H. N.
Packert, was removed from the family
circle by death and thus a vacancy is
made which can never be filled again
in that home. The little one has been
suffering for several days with a stom-
ach complaint, and was unable to sur-
vive from the attack. At the home
of the parents on north Eighth street
tomorrow morning the funeral service
will be held and the mortal re-
mains will be deposited in Fairview
cemetery.

Mr. Packert is the city circulator of

the Journal-Democrat, and the bereav-
ing parents have the sympathy of the
city. A large circle of their acquaintances
in their sad hour of affliction.

Citizen Boys Victorious.

This morning on the Barrios dia-
mond The Citizen baseball club cross-
ed bats with the Shop Boys and gave
a continuous performance from 9
o'clock until high noon. The battery
for the Citizen was composed of Willie
McElvane and Captain Roger Gatlin,
and Captain John Wilson, and Lee
Dugley represented the Shop mechan-
ics. When the game was concluded,
the score of 29 to 19 in favor of the
Citizen team, was announced. Before
the season is closed there is likely to
be many "rubbers" played.

New Mexico demands Statehood from the Fifty-Seventh Congress.

ALBUQUERQUE, — JULY 22, 1901.

The Cattle and Horse Protective association of central New Mexico will meet at Magdalena on August 6.

According to an act of the last legislature every dealer in merchandise is required to take out a license as such. Those failing to do so shall be reported by the assessor to the district attorney.

Mr. Edison has devised a plan for building inexpensive houses of cement concrete, and a French savant is advocating the construction of houses from blocks of glass. But neither of them informs the homeless man how to build a house with a blank bank check book.

An exchange says the best plan for keeping birds from fruit trees is to hang a small mirror on the top limbs of the tree. There should be at least six inches of string to the mirror, so that it can swing about as it is blown by the wind. The flash of the mirror, it appears, scares the birds away. One or two five-cent mirrors hung on a tree is sufficient.

There is no need for all laborers in New Mexico with all the railroad construction, etc., going on. An agent for the El Paso & Northeastern contractors had a gang ready to ship to El Paso the other day and an agent for another road met them and turned eight of them to Arizona. Before the train pulled out another agent slipped into the car and came near getting the rest.

The regular dividends paid on the first of July this year beat the record. In New York \$53,816,044 were disbursed. Many corporations pay twice a year and July 1 is a favorite date. Last year at the date but \$38,611,265 were paid, which represents a comfortable advance for the lucky holders of securities. Stocks are paying this year which never did before. Also more of the money will stay in this country owing to the enormous buying back of our securities held abroad.

The warden of the Colorado penitentiary has introduced music by an orchestra composed of convicts during the noon hour. The bass drum pounder was sent up for pounding a man and is a blacksmith by trade; the cell manipulator really took to his instrument from being daily associated for years with a carpenter's saw. The most popular airs with this convict orchestra are "Mr. Johnson Turn Me Loose," "Freedom is a glorious thing," although they play various sentimental pieces.

HE WAS A GOOD CITIZEN.
In the death of A. A. Grant, whose demise occurred at Los Angeles last Saturday morning, Albuquerque loses one of its most energetic, liberal hearted citizens, whose faith in the town was unlimited and whose name was on every worthy subscription list. He was indeed a good citizen, and his funeral tomorrow afternoon will be largely attended, attesting the esteem in which he was held by the people of Albuquerque.

THE ADVERTISING SEASON.
Charles F. Jones, whose series of articles on store management in Printers' Ink has attracted widespread attention, says that some merchants largely increase their advertising at seasons when trade is not as brisk as usual. "I believe," he concludes, "that those who do the most advertising at such times have the best of the argument. If the purpose be to draw trade, why not advertise most when you need trade most?"

"There are three theatres here which do no bill-posting. The money thus effected enables them to take large space in the newspapers and thus overshadow the other houses which take only two or three inches." This is from a Boston letter in Printers' Ink. As bill-posting has heretofore been the principal means of advertising theatres, the change is significant.

One of the best institutions of learning in the territory is the school of mines at Socorro. It was founded in 1899, and the merits of its courses of instruction and of its staff of instructors have been demonstrated to the entire satisfaction of all patrons of the school. The institution is turning out graduates in chemistry and metallurgy, mining and civil engineering and assaying, who are in immediate demand at good salaries. It will pay all those who are undecided as to careers or professions for their sons to investigate the advantage of this institution. Read advertisement in another column.

POSTOFFICE CANDIDATES.
Partial List of Those After Las Vegas Postoffice.
Postmaster E. H. Salazar of the west side, doesn't exactly know how about it.

Postmaster J. A. Carruth, of the east side, has promises and lives in high hopes.

E. Q. Blood, an applicant for the east side postoffice, has good political backing and rests assured that the politicians will deliver the goods.

T. B. McNair, who has shied his master into the time as an applicant for the postmasterhip of East Las Vegas, is not saying much about his prospects to anybody, but is quietly at work in his own interests.

B. C. Pittenger, a loyal republican, who has always done the bidding of his party, is appearing over the political horizon in the distance as an aspirant for postmaster's honors and emoluments on this side of the river.

Don Felipe Delgado, of the plaza from of Romero & Delgado, is circulating a petition for his appointment to be postmaster at the west side office and he is said to be getting signatures by the wholesale—Optic.

Algodones Notes.
Special Correspondent, July 20.—Farmers here are now busy cutting the second crop of alfalfa. The yield will be good and many say much better than the first cutting. The wheat crop is all harvested and as was expected turned out better than last season. Four crops of alfalfa are expected this season by most of the farmers. Grapes are beginning to ripen and will be very good this year.

AN OLD STORY REVIVED.

The Circumstances Surrounding the Killing of DeMules.
Col. John Hegan of Santa Fe, who is visiting the east at present, was in Washington a few weeks ago, and while there was interviewed by a representative of the Post. In the course of the interview he touched upon the contest between himself and DeMules for the possession of the turquoise mines at Jarilla, which led up to the tragedy in which DeMules lost his life.

"I had many a fight and scrap in the west with Indians and others, but the closest call I ever had was the last one, when the dispute was on about my property out there. A man named Oliver DeMules was contesting my right to the property. The fight between us became very hot about five years ago, and DeMules, despairing of being able to beat me by due process of law, decided to resort to extreme measures. He hired seven Mexican scoundrels to terrify me. One day in the middle of the night, Jacobo De Flores, a noted bandit, was one of the seven. He turned state's evidence, and the gang were put on trial. The papers behind the Mexicans put up a lot of money—I think, about \$27,000—and succeeded in getting the game free after they had been locked up for some time.

The Flores then went to DeMules to get paid for the dastardly work which he had done. DeMules, instead of paying him, pulled a gun and called him a traitor for turning state's evidence. They shot at each other and De Flores killed DeMules. De Flores was tried and got twenty years for manslaughter. After that experience I got a full title to my property in the regular legal way, and since then I have sold it."

Cure for Cholera Infantum—Never Known to Fail.
During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days time the child had fully recovered. The child is now vigorous and healthy. I have recommended this remedy frequently and have never known it to fail.—Mrs. Curtis Baker, Brookwater, Ohio. For sale by all druggists.
