THE BIG STRIKE.

Conference Failed to
Unionize Plants.

Strike Order Issued and Plants
of Combine Idle.

President Shaffer has Assumed Per-
sonal Charge of Strike.

GIANTIC WALK-OUT OF LABORERS.

Pittsburg, Pa., July 15.—The strike of the members of the Amalgamated association employed in the tin plate sheet and hoop mills, ordered Saturday night, as a result of a disagree- ment between officers of the United States Steel corporation and the Amal- gamated association, was generally ob- served in the Pittsburgh district this morning.

Early reports received at the gen- eral offices of the Amalgamated as- sociation indicated the strike order is being observed in all mills of the tin plate, sheet and hoop combine.

President Shaffer is in communi- cation with lodge officials of all these plants and is confident the association will make such a strong showing in this preliminary suspension of work that a general strike of all mills in the United States steel corporation will not be necessary.

This strike bears resemblance to the historical Homestead strike in 1892, in that it is not a question of wages, but recognition of the amal- gamated association which insists upon unionizing all plants of three com- panies in question. The manufacturers refuse to grant this demand and say individual contracts with work- men in force at a number of the plants must stand.

The Painter mills of the American Sheet Steel company of the south side shut down. Men joined the amal- gamated association and this morning no workmen, save four or five Hun- garians and six boys showed up. The strikers are keeping away from the plant.

The tin mill at Monaca, Pa., non- union, was running as usual today.

The Lindsay & McCutcheon plant of the Steel Hoop company in Allegheny is also idle.

The Star and Monaca plants of the American Tin Plate company are closed down.

Painter and Lindsay & McCutcheon plants have been looked upon by offi- cials of the United States Steel cor- poration as strongholds of non-union- ized in the Hoop company.

Prompt action of President Shaffer in thus forcing the fighting and carry- ing it into the enemy's camp was look- ed upon as evidence that the strike will be one of the most spirited in Pittsburgh's history. President Shaffer declared that a wheel would turn in either the Painter or the Lindsay & McCutcheon works until the strike is settled. Shaffer said the movement would be carried out with the same vigor as the strike order, and he declared to fight on the "original al lines" until doomsday.

Recent visits of Amalgamated offi- cials to Homestead are somewhat sug- gestive that men there have been or- ganized. Hints have been thrown out by the Amalgamated men within a few days that when the association felt the need of showing its strength in the steel combine would be amazed. The Amalgamated association has a strike fund in the bank of over \$200,000.

The steel branch of the labor or- ganization of the American Sheet Steel fight will owe its success to ability to bring out the men employed at the great works at Vandergrift, Pa. This plant is the largest of its kind in the world and already some men are mem- bers of the Amalgamated association. It is claimed before the day is over a portion or at least these mills will be idle.

Pittsburg, Pa., July 15.—The Monaca plant of the American Tin Plate company is tied up tight. The entire fourteen mills are idle.

At Connelville, Pa., 200 men are out. The strike may affect the coke production.

The report is current in iron and steel circles this afternoon that this week will be taken at once by the man- ufacturers toward a settlement of the strike.

OUT AT CUMBERLAND.

Cumberland, Ohio, July 15.—None of

the men employed at the American Tin Plate mills are reported for work this morning.

CLOSED DOWN AT NILES.
Niles, Ohio, July 15.—Eight hun- dred men employed in the American Tin Plate company here did not report for work today. The plant of the Amalgamated Sheet Steel company here has been closed down since July 1st, but preparations have been under way for an early resumption of work. Now it is said the men will not re- turn until the strike is settled.

ORDER OBEYED.
Cleveland, Ohio, July 15.—Between four and five hundred men employed in the Crescent Tin Plate mills obeyed the strike order of President Shaf- fer today.

STRIKE IN INDIANA.
Anderson, Ind., July 15.—The strike in the tin plate mills was inaugurated here this morning. Five hundred men are idle here. The mills at Middletown, Ind., are shut down. At Elwood the strike order was obeyed without ques- tion.

THEY ARE SATISFIED.
Pittsburg, Pa., July 15.—At the headquarters of the Amalgamated as- sociation today it was said the situa- tion was satisfactory. President Shaf- fer took personal charge of the strike campaign. Secretary John Williams said: "Every tin plate plant in the country is closed."

SITUATION AT YOUNGSTOWN.
Youngstown, Ohio, July 15.—Not a wheel was turned this morning in any of the plants of the American Sheet and Steel company or American Steel Hoop company in Mahon valley. This steel district is the strongest numerically in the Amalgamated as- sociation, and the men are a unit in observing the strike order issued by President Shaffer.

MARKET QUOTATIONS.

Market quotations and review fur- nished by W. P. McKeef, No. 5 Crom- well block, received over the private wire of E. G. Logan.

New York, July 15.—The market to- day opened weak and with heavy li- quidity on account of the steel strike and the condition of the corn crop. Steel opened with wide fluctua- tions but was well taken and showed support. The whole market, after the opening break, became steady and strong supporting orders and good buying became quite strong. The good stocks were well taken. Ad- vices in regard to the corn crops had the weight and exports of light rains traders bid the market up. Con- sidering the conditions the market held up remarkably well and on soft spot stocks were well bought. The time being the market is subject to wide fluctuations and very ner- vous. The money market continues tight. The steel strike is the main ap- prehension felt on that account.

WAGES ADVANCED.
Pittsburg, Pa., July 15.—Four hun- dred employees of the National Tube company at McKeesport, Pa., were no- tified today of an advance in their wages ten per cent. The men are not organized but the amal- gamated association was making efforts to induce them to join the union. Several months ago the men demanded ten per cent advance but it was refused.

IRON MOULDERS STRIKE.
Chicago, July 15.—Nearly two hun- dred moulders went on a strike today in consequence of the failure of the em- ployers to grant a demand for a flat wage of \$3 per day. About fifty firms are affected.

SHOWERS PROMISED.
St. Louis, Mo., July 15.—Readings of the weather bureau thermometer at St. Louis show lower temperatures than last week, when the mercury registered about 100. At noon today 92 degrees was recorded. Cooler weather is promised tonight with showers.

PRAYING FOR RAIN.
Jefferson City, Mo., July 15.—No rain has fallen here or in different parts of the state since April 17, and the kinds of crops, except wheat, are almost a complete failure. Governor Dockery, who received many requests for a proclamation calling upon the people to pray for rain, today issued a prayer that drought might be broken. The day set apart is Sunday, July 21, on which the people are request- ed to assemble in their usual places of worship to invoke blessings of Al- mighty God.

LIGHT SHOWERS.
Kansas City, July 15.—Conditions in the west as reported this morning by the weather bureau are favorable for a light shower tonight and Sat- urday, but there is not much change in the temperature in sight. Light showers last night at Springfield and Lamar. Mo. people are praying for rain. The day set apart is Sunday, July 21, on which the people are request- ed to assemble in their usual places of worship to invoke blessings of Al- mighty God.

HOTTEST NIGHT.
Omaha, Neb., July 15.—Although the temperature today has been mod- erated by a cloudy sky, last night was probably the hottest night during the present spell of excessive heat. Rain is reported at Lincoln, Ashland and Fremont, Neb., in small quantities. Thunderstorms also reported in South Dakota. Indications are that the re- lief is only temporary.

WALLACE OIL COMPANY.

Organized the Other Day and Now Al-
ready for Business.

As mentioned in The Citizen of the 12th inst., the Wallace Oil company has been organized with headquarters in this city. The directors of the company are all men well known in Albu- querque and throughout the territory, as conservative and reliable business men, who would carefully investigate any proposition submitted to them be- fore embarking in the enterprise. With that knowledge to go on a re- porter for this paper desiring to give the public generally information as to the location of the oil fields and other items of interest in connection with the company was accorded an inter- view by one of the principal directors, who has taken an active part in de- velopment of the property and from him gleaned the following facts. In April of last year one of the present board of directors obtained information in ef- fect that a spring on the lands now held by the company, showed every in- dication of an oil contact, and imme- diately set out to examine the land, being accompanied by a practical oil man, with fourteen years' experience in the Pennsylvania fields and a tech- nical knowledge of the geological for- mation of oil producing sections. All indications were found highly favora- ble with result the gentleman returned to Albuquerque and interested several

cano Causes Many Deaths.

THREATENED FAMINE IN RUSSIA.

Graaf Rient, Cape Colony, July 15.—Col. Scobbs' column surprised and captured Boers' laager at Camdoo, July 14, taking thirty-one prisoners and capturing a quantity of ammuni- tion and stores. Scobbs with the bulk of his command escaped. No British casualties. Most of the prison- ers are rebels.

CAPTURE CONFIRMED.
London, July 15.—Lord Kitchener confirmed the report of the capture of acting president, Senalk-Burger, and says the prisoner has been brought to Pretoria.

SITUATION NOT HOPEFUL.
New York, July 15.—Returning British officers do not speak hopefully of the situation in South Africa, say the Tribune's London correspondent. They assert the railways are securely held and in the small zones around Bloemfontein, Pretoria and Johannesburg it is impossible for inhabitants to settle down and resume their usual occupa- tions without fear of disturbance, but from the pacification of these small spheres to British influence, there are few signs of progress.

STEYN'S BROTHER CAPTURED.
Pretoria, July 15.—Gen. Broad- wood's brigade surprised Retts, cap- turing Steyn's brother and a number of others. Steyn himself escaped in a motor car. The British government and papers were captured.

Will Visit the United States.
Berlin, July 15.—Ambassador White says he will go to the United States in September to visit his family. Whether or not he will remain at Berlin, he writes, depends upon various considerations, particu- larly the status of certain questions between Germany and the United States which doubtless will occupy reichstag at the next session.

TERRIBLE VOLCANO.

Many People Perish by Hot Ashes in
Northern Java.
Tacoma, Wash., July 15.—Oriental people are again threatened with destruction of human life in northern Java last month by a terrible outburst of the volcano Kioet. Fifty miles around all coffee plantations and other estates were destroyed by showers of ashes and stones, together with great streams of lava and hot mud. Seven hundred men and a number of Euro- peans perished.

Famine Threatened.
St. Petersburg, July 15.—Large parts of the empire are again threaten- ed with famine. The last official re- port just published was dated June 21. Since then not a drop of rain has fallen in the eastern provinces and it is believed the crops are now largely be- hind hope in many districts.

The Winslow Fire.
W. A. Parr, contractor and car- penter, returned to the city from Winslow this morning. He states that the fire there last Saturday morning originated in a barn in the rear of the Parr undertaking house, and before it was under control two residences be- longing to Mrs. Anna Bingley, one be- longing to C. D. Shank, and a residence and the undertaking business belong- ing to himself were totally destroyed. Loss estimated at about \$9,000 with a total insurance of \$2,500. Boys play- ing in the barn are supposed to have accidentally set the barn on fire.

ALBUQUERQUE, — JULY 13, 1901

HON. M. R. OTERO.

Hon. Manuel R. Otero, register of
the United States land office in Santa
Fe, is quiet and unassuming but yet
of great strength of character and a
prominent and progressive citizen of
the territory.

He was born in 1841 in the little
town of Peralta, in the county of Va-
lencia, the county which has steady-
ly and solidly voted for the republi-
can party since the organization of
that party in the territory and has
never faltered or wavered in that
course.

His father was Judge Antonio Jose
Otero and his mother was Francisca
Chaves, both descendants of illu-
strious Spanish families who were
among the early settlers of New Mex-
ico. His father was associate justice
of the first supreme court of the ter-
ritory of New Mexico and presiding
judge of the third judicial district.

His mother was a daughter of Hon.
Francisco Chaves, governor of the
province of New Mexico under the
Spanish government.

Mr. Otero received a classical edu-
cation at St. Louis university and was
in the senior class about to graduate
when he was called home on account
of the death of his mother. He entered
the political arena soon afterward
and held many positions of trust and
honor. He was probate clerk of Va-
lencia county for four consecutive
terms, probate judge for one term, de-
puty sheriff for one term and was a
prominent candidate for the republi-
can nomination for delegate to con-
gress in 1882, when the republican
party nominated the Hon. Tranquil-
lino Luna for that position. During that
campaign Mr. Otero gave valuable and
strong support to the republican can-
didate for delegate.

Mr. Otero was appointed register of
the United States land office at Santa
Fe by President McKinley. He has
proved himself a most efficient, cap-
able and honest official and in every
respect merits reappointment. He has
the support of the party organization
and of the leading and best republi-
cans in the territory and it certainly
looks as if he would be reappointed.

Mr. Otero is happily married and
has a family of bright sons and daugh-
ters, one of his daughters being the
wife of Hon. Solomon Luna, member
of the national republican committee
from New Mexico, and one of the lead-
ing citizens and largest stock owners
in the territory.

Mr. Otero is a first cousin of Gover-
nor M. A. Otero, his father, Judge An-
tonio Jose Otero, and Governor Otero's
father, the Hon. Miguel A. Otero,
having been brothers.

The people of the territory who
have known Mr. Otero and had official
and personal relations with him
during the past four years, are unan-
imously in favor of his reappointment.

If the present tendency of things
continues our billiardaires may be ac-
cused of assuming a patronizing atti-
tude toward English royalty.

The government has ordered the

raise the wreck of the battle ship
Maine to begin work at once or for-
feit the contract.

A resolution was introduced in the
Alabama constitutional convention
providing for the impeachment and
suspension of a sheriff who, through
neglect or cowardice, allows a prisoner
to be killed or injured by a mob.

Billy Bean's previous success in
starting a boom early and keeping it
in flourishing condition until the nom-
ination has encouraged him to repeat
the same experiment. Ohio has not

There is a limit to the quantity of
food and liquor the country can con-
sume, but none to the demand for
exciting novels. There are in the
United States to-day 5,000 public li-
braries containing nearly 50,000,000
books, as against 600 libraries and 2-
million books 50 years ago. There are
now library commissions in 17 states,
traveling libraries in 42 states.

Fifteen hundred programs have
been printed for the Golden Jubilee

Extensive preparations have been
made by the committee to make this
celebration one of the most magnifi-
cent that has ever been held in the
west. Hundreds of Odd Fellows
from every part of the western states
and territory have signified their
intention of attending. The citizens of
Santa Fe are preparing to give them
all a royal welcome. All Odd Fellows

REV. JUILLARD ANSWERED.

Dr. C. E. Lukens Objects to his Ar-
ticle Entitled "Aspersions of
New Mexico."

THE MISSIONARIES UPHELD.

The Citizens of July 12th contained
a lengthy article entitled "Aspersions
of New Mexico; Rev. Juillard to the
Rescue," etc.

I am one of the "sincere and devoted
workers" referred to as the author of
a "Plea for our Red Men," to be
found in the Assembly Herald of last
February.

As I am acquainted with the author
of the attack against the missionaries,
and also acquainted with missionary
work among the Indians, I wish to
answer this priest's article. As to
the relative sincerity of Mr. Juillard
and the workers here, I will not say
casually. I will say that the former
is located at Gallup, New Mexico,
where he has a pleasant home, and
that he makes excursions into the sur-
rounding districts, staying only long
enough to bury the dead, perform mar-
riage ceremonies and baptize children.
For pay, always, while the latter
spend their time on the fields, live in
poor houses, with poor food, and
perform all the labor pertaining to
their fields or missions without re-
ceipt of pecuniary reward from the people.

As to the interest of the churches
in attacks, in the welfare and pros-
perity of the territory, I will say that
the Presbyterian church is spending
from funds raised outside of the ter-
ritory, for educational and mis-
sionary work, over \$100,000 per year in
the two territories. Other denominations
are also spending large sums of mon-
ey in this work, so that not less than
\$250,000 is being brought into the
territories each year to be used for
their advancement, while it is well
known that the church represented by
Mr. Juillard, raises not more than
\$100,000 from among the natives. (One of
its methods being to bury the dead in
their fields or missions, thus being
more sacred ground, and the price
from \$10 to \$100 for each grave.)

I have known them to dig up the
bones of a former grave and have
found them in the hands of the natives.
As to this priest's charge that mis-
sionaries and teachers manifest the
characteristics of contempt for the Mex-
icans and Indians, through letters

However, the boy was taken on to El Paso and cared for until the next day when he was started back, his father in the meantime having been notified of his whereabouts.

THE LOST PADRE MINE.

It Was Worked Three Hundred Years Ago by Priests.

The early traditions about lost mines and lost treasure in the vicinity of El Paso seems to be borne out by the statements of Captain L. C. Christ of this city, who spent a great deal of time and money in exploring and developing mines in the Franklin mountains.

The tradition is that the lost Padre mine was worked about 300 years ago by the Spanish priests who built the old church in Juarez, and is a matter of record. The old records of the church, written in Latin on parchment, give minute details of this mine as to location, etc. the mine being visible from the north window of the church. When the country was abandoned the mine was filled in and all traces of the workings completely covered up.

Captain Christ spent a great deal of time looking for this mine and finally got to the place, high up on the western slope of Mount Franklin, a complete mining shaft was found, filled with debris, which was cleaned out to a depth of 125 feet, a tunnel or drift was found waiting up with rough stones and on trying to explore it the loose rock caved in, killing one of the Mexicans employed to assist in the work, which has never been resumed.

A number of rare relics were found during the progress of this work, the most valuable being a small box with an immense rowel and the sides ornamented with figures of animals in gold, the entire spot being fourteen inches long and six inches wide, and the Smithsonian Institute. A copper anvil, now in a curio store in this city, and a number of talos or sandals made of copper and silver, some of which were also found.

The shaft was made in the Spanish style, being more of an open cut and large enough to admit of their candles or crude stairways being used, and the ore and other waste all being carried out in baskets.—El Paso Times.

Heartburn. When the quantity of food taken is too large or the quality too rich, heartburn is likely to follow, and especially if the digestion has been weakened by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let six hours elapse between meals and when you feel a fullness and weight in the region of the stomach after eating, indicating that the food is not so much, take one of Chamberlain's Stomach and Liver Tablets and the heartburn may be avoided. For sale by all druggists.

A bad complexion generally results from inactive liver and bowels. In all such cases, DeWitt's Little Early Risers, which purify the blood, cleanse the complexion and strengthen the system, will be of great benefit.

A circular issued by First Vice President E. D. McKenna, of Santa Fe, announces that Hotel Jones, of Topeka, will perform the duties of land commissioner of the road made vacant by the resignation of A. P. Macginnis.

White Man Turned Yellow. Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, or, also his eyes, and he suffered terribly. His malady was yellow jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful stomach and liver remedy, and he was cured. "After taking two bottles I was wholly cured." A trial proves its matchless merit for all stomach, liver and kidney troubles. Sold by J. H. O'Reilly & Co., druggists.
