"CALAMITY JANE"

Found and Has Been
Given a Home.

Receiver of Seventh National
Bank Makes His Report.

In Wall Street Prices of Stocks are
Tumbling.

EDUCATORS FOR "HIGHER EDUCATION."

Anaconda, Mont., July 12.—Mrs. Josephine Winfield Drake, of Buffalo, N. Y., authoress and Washington correspondent for New York newspapers, has been in Montana the past week searching for "Calamity Jane," the noted plains woman. Yesterday Mrs. Drake discovered "Calamity Jane" in the hut of a negro at Poor, near Livingston. She was suffering with fever and broken in spirit. When Mrs. Drake offered to take "Calamity Jane" to her own home in Buffalo, where she could spend the remainder of her days in comfort, the noted frontier woman wept like a child. The two women left Livingston for Buffalo.

SEVENTH NATIONAL BANK.

Receiver of Failed Bank Makes Report

Washington, July 12.—Comptroller Dawes received preliminary report from the receiver of the Seventh National bank, New York city, today. Receiver states his estimate of assets is of course officially approximated. He estimates amount which finally will be recovered for depositors from assets, including stockholders' assessment, about 80 cents on the dollar.

Receiver states that his estimate of value of mortgage and collateral is less than claimed by the directors of the bank and it is possible on this account final collections may be somewhat better than receiver's estimate.

Comptroller Dawes states today all transactions connected with advance of cash to bank just prior to its failure is being carefully investigated by competent counsel and all legal right depositors will be protected in this connection. Comptroller Dawes orders today assessment 100 per cent on \$500,000 capital stock of bank.

The report of the receiver contains no reference to any investigations now being made into criminal infractions of law. All these matters are under charge of the department of justice.

SLUMP IN STOCKS.

Prices Tumbling on Wall Street in New York City.

New York, July 12.—Prices of stocks were tumbling today. Efforts to rally market resulted in a few fitful recoveries, but alert bears were able to easily cut bottom out of prices and dislodge selling orders. As many gains were uncovered holdings were sacrificed unless additional securities were forthcoming to protect brokers. Banks, loan and trust companies, high tension scanning quotations on tape to guard against reduction margin safety exacted in value securities placed as collateral for loans. Compared with stock market prices, prices of stocks declined stock brokers were continually notified to furnish more collaterals for loans. To prevent selling out securities in bankers' hands. Tone of market decidedly demoralized under this procedure of forced liquidation. Causes of such net losses as Union Pacific, 1/4; Atchison 5/8 preferred 5/8; St. Paul, 5/4; Rock Island, 5/8; New York Central and Denver & Rio Grande preferred, 1/2; General Electric, 12; Colorado Fuel, 9 1/2.

The market showed signs this afternoon of being overbought and bears sought to convert with some urgency. Recoveries rose 2 to 4 1/2 in principal active stocks.

EXCITING ADVANCES.

Chicago, July 12.—Scrippling which grain crops, especially corn, received, together with disastrous possibilities of further drought, was reflected in exciting advances of leading cereals on board of trade today.

THE LAST DAY.

"Higher Education" Was Discussed at Educational Convention.

Detroit, July 12.—This is the last day of the National Educational association convention. "Higher Educa-

tion" was the topic of papers, being read by President Charles F. Thwing, of the western reserve, University of Cleveland; Robert B. Fulton, president of the University of Mississippi; Hon. W. T. Harris, national commissioner of education. The committee appointed to consider details and organization of educational exhibits at the St. Louis exposition this morning decided to recommend to the board of managers the construction of a separate building for educational exhibits. H. J. Rogers, of Albany, was endorsed by the committee for director of the educational exhibit at the exposition.

MARKET QUOTATIONS.

Market quotations and review furnished by W. P. Metcalf, No. 6 Cromwell block, received over the private.

The market today opened weak with heavy liquidation through entire list. Prices sold off and many stops were reached. Crop reports caused most of the selling and it was helped along by liquidation of weak accounts. Late in the afternoon, however, some support and prices rallied and shorts covered. Money was easy, which gave better tone. The liquidation today should place market in a better position and we do not look for much greater decline.

Closing quotations:

Chicago & Great Western, 22 1/2; M. & P. Pac., received over the private; M. & T., 25 1/2; Atchison, 5 1/2; Preferred, 5 1/2; Union Pacific, 15 1/2; Southern Railway, 28 1/2; Wabash preferred, 36 1/2; St. Paul, 15 1/2; Northern Pacific, 14 1/2; Texas Pacific, 37 1/2; Colorado Southern, 12 1/2; Preferred, 12 1/2; Toledo, St. Louis & W., 20 1/2; U. S. Steel, 42 1/2; Chesapeake & Ohio, 38 1/2; "Monon," 31 1/2; Amalgamated Copper, 112 1/2; Erie, 36 1/2; Mexican National, 21 1/2; Mexican Central, 21 1/2; N. Y. C., 150 1/2; Snellers, 52 1/2; Sugar, 13 1/2; United States Rubber, 20 1/2; United States Leather, 12 1/2; Republic Iron & Steel, 18 1/2.

Business Houses Burned.

Wichita, Kan., July 12.—Fire at Mountain View, O. T., this morning destroyed an entire block. Loss, \$45,000.

About fifteen business houses burned out. Mountain View is on the border between Oklahoma and Colorado and is crowded with home-seekers. Many home-seekers found for Lawton, the second place of registration, twenty-five miles away. The fire caused supplies here, and the loss will prove particularly hard on them.

Chinese Girls Caught.

Maricopa, Ariz., July 12.—T. J. Roush, special agent of the treasury department, arrested two Chinese girls, who were consigned to two wealthy merchants of San Francisco. The girls were first bonded into Mexico, and then sent by wagon to Nogales, Arizona, as Mexicans. From there they were started to San Francisco, but got no further than Maricopa. They are now in jail at Phoenix.

A Major General Dead.

Buffalo, July 12.—Major General Hetter C. Doyle, N. G. S. New York, died today at Farmham, Erie county, New York, where he has been staying since his return from California. He was general northern freight agent for the Lehigh Valley railroad.

Battle of Boyne.

Belfast, July 12.—The celebration of the battle of Boyne is being marked by military and naval parades. No serious trouble occurred, there being plenty of soldiers and police to control the factions.

Foolish Insurgents.

Manila, July 12.—Cebu is still frequently fired upon by insurgents. General Hughes, in command of the Visayas island, reports progress in penetrating the island of Samar and scattering the insurgents.

Steadily Improving.

Washington, July 12.—Acting Adjutant General Ward received cable messages from Major Scott, adjutant general, department of Cuba, saying General Wood's condition is steadily improving.

If your horse needs to be shod, bring him to us and you will get a satisfactory job by farriers who have a thorough veterinary knowledge of the horse's hoof. J. Korber & Co., corner north First and Copper avenue.

THE HEAT WAVE.

The Hottest Weather
for Many Years.

London and Sections of the
United States Suffering.

Lieut. Massey Died from Dysentery
at Manila.

YACHTS STILL RACING.

London, July 12.—The heat wave here is becoming more tropical. Londoners are suffering greatly. Official thermometers at 10 o'clock this morning registered 87 in the shade. There were many prostrations.

HOT AT KANSAS CITY.

Kansas City, July 12.—The weather bureau at 9 o'clock reported temperature 91 degrees, with prospects that all previous heat records will be eclipsed before noon. Last night was the most oppressive here for many years. Among the poor in the hot spots, especially, there was great suffering. One prostration has been reported.

KANSAS CITY, July 12.—This is the hottest day ever experienced in the southwest. At 3 o'clock it was 103 at Kansas City and still rising. It was 104 at Lawrence, Kan.; 104 at Atchison, Kan., and 103 at Joplin, Mo.

NO RELIEF IN SIGHT.

St. Louis, July 12.—According to weather officials there is no relief from the intense heat in sight. At 9 a. m. the government thermometer registered 87 in the shade. In parts of Missouri and western Illinois, where the crops are being literally burned up, the temperature during the past two days ranged as high as 110, the record for thirty years being broken.

St. Louis, Mo., July 12.—The government record was 96 degrees at noon and mercury rising. At 2 p. m. mercury reached 100 marks.

NO SIGN OF RAIN.

Topeka, Kan., July 12.—Weather observer Jennings says there is no sign of rain or breaking of the heat temperature. At noon today the mercury registered 97.

HIGHEST POINT REACHED.

St. Joseph, Mo., July 12.—This will be the hottest day of the summer in St. Joseph. At 10 o'clock it was 94 degrees, the highest point at that hour this season.

OMAHA PERSPIRING.

Omaha, July 12.—At noon 98 was reached by the thermometer of the weather bureau and indications are that the maximum of 100 will be exceeded.

THE CROP CONDITION.

Chicago, July 12.—The heat and drought in the southwestern states are undoubtedly unbroken. It is said that damage in Kansas and Missouri is comparatively slight, but there is relief within the next ten days the corn crop situation will approach a calamity.

A message from Topeka, Kan., says the prospects are for a crop of but 50,000,000 bushels of corn, although last year's crop was 163,000,000 bushels and that of the previous year 237,000,000. Loss of hay and potatoes in also great. It is estimated the farmers of Kansas and Missouri already lost \$50,000,000 by the drought and drought.

Corn for September delivery at the opening today sold small from 52 to 53 1/2c, compared with close of yesterday 51 1/2c. Shortly afterward it was quoted 52 1/2c, or 9 cents higher than the price a month ago.

Died in Manila.

Washington, July 12.—General Chaffee called the war department of the death of First Lieutenant Colonel A. F. Massey, retired, at Manila, P. I., morning of dysentery. Massey was an employee of the quartermaster's department.

Race of Yachts.

Newport, R. I., July 12.—The yacht Constitution, Columbia and Independence engaged today in a race over a triangular course to complete the contest under the auspices of the Newport Yacht Racing association.

Batman's Post, July 12.—11:04 a. m.—Independence broke her topmast as she crossed the line. Columbia crossed first. Constitution was third and over the line. Columbia seems to be gaining on the Constitution.

11:40 a. m.—After heading into wind to clear away the wreck club topmast, the Independence is standing after other boats.

1:25 p. m.—The Columbia apparently turned second mark 1:25:30; Constitution, 1:26:40.

1:30 p. m.—The Independence appeared to have turned second mark at 1:31:45.

2:07 p. m.—Columbia wins, crossing the line 2:09:37.

2 p. m.—Constitution crossed the line 2:10:58. Columbia beat the Constitution 1:21, estimated from shore. Independence crossed the line 2:22:02, 10:25 behind the Columbia, and 9:04 behind the Constitution.

The "Alleged Champions" Afraid.

When it became known here that a base ball club of Santa Fe was claiming the championship of New Mexico, without even playing a game with the Albuquerque Browns, the remnants of the once famous Browns got together and promptly decided to give the "alleged champions" of the territorial capital an opportunity to sustain the title. With a great flourish of trumpets, the Santa Fe team accepted the "challenge" and "The Remnants" of this city commenced packing up for a trip to the capital. They will not be in Santa Fe the coming Sunday, for the reason that a majority of the "alleged champions" have suddenly quit Santa Fe—taking along their bats, and the New Mexican says the game has been postponed.

A Saddened Widow.

When the passengers on No. 2 train breakfasted here this morning Mrs. Spencer was met at the depot by Albuquerque friends and to them she related the sad intelligence of the death of her husband in California last Sunday, and of the untimely death of their son a month previous. Rev. Dr. Spencer and family spent the past winter in this city for the benefit of their health and when spring arrived they journeyed to California, where it was hoped he would ultimately be restored to health, but the dread consumption claimed him as a victim last week. Their little son died about four weeks ago in Pasadena, Cal., from appendicitis. Mrs. Spencer continued on to New York state, where she will make her home with her parents.

Oil Company Organized.

The Albuquerque-Navajo Oil company has effected an organization and the following officers were named: President, W. P. Metcalf; vice president and general manager, W. A. Rogers; treasurer, L. R. Strauss; secretary, L. C. Brooks; attorney, Summers Parkhart. The company has located about 3600 acres of oil land in McKinley county and in a few days the stock will be placed on the market for sale. By reference to the official news published elsewhere in The Citizen, oil companies are being organized for the boring for the greasy fluid.

Messengers in Uniform.

New suits for the messenger boys of the American District Telegraph company arrived last night and the boys appeared on the streets in their new attire. John Turner, Cortez Quickel, George Metcalf and Harold Hawley are the proud possessors of a uniform and each was obliged to pay the sum of \$6 for the same. The uniform consists of a dark blue corduroy cap with leather bill, a sweater bearing the letters A. D. T. in yellow, dark blue corduroy knee pants with yellow strip and a pair of gray stockings.

Drug Store in Trouble.

J. M. Hay has been placed in charge of the Matthew & Co. drug store as trustee, under power of sale, as constituted by the Meyers Drug company of St. Louis, Mo. A sale of the stock in its entirety will probably be consummated at an early date, as several parties have the matters of purchase under advisement. Joe Goodlander, the Meyers Drug company representative, is expected to arrive here Saturday evening and in all probability some one of the several parties who are considering the matter will close a deal.

The Bear Did the Work.

Since the publication of the rumor regarding the doubtful killing of Senator Jaramillo by a bear last week, it turns out that the first item which appeared in these columns was correct. Deputy Sheriff Ed. Newcomer made a long drive into the country for the purpose of ascertaining the facts, and upon investigation found unmistakable evidence that the man had been attacked by a bear.

LOCAL PARAGRAPHS.

Mrs. H. E. Cray leaves tomorrow morning for the Pan-American exposition and after viewing the sights of the Buffalo city will make an extensive visit to the various cities of the New England states.

At their cottage, "The Stronghold," in Long Beach, Cal., the Misses Strong, formerly of this city, entertained about 160 of their friends, sixty of which number being members of the J. O. C. society, and 100 of the "We Boys" class. The young hostesses were assisted in entertaining by their parents, Mr. and Mrs. O. W. Strong.

Chicago Grain Market.

Chicago, July 12.—Wheat—July, 63 1/2; September, 64 1/2. Corn—July, 47 1/2; September, 49 1/2. Oats—July, 25 1/2; September, 26 1/2. Pork—July, 14.20; September, 14.40. Lard—July, 8.92; September, 8.74. Ribs—July, 7.92; September, 8.02 1/2 @ 8.05.

New York Money.

New York, July 12.—Money on call firm, 6 per cent; prime commercial paper, 3 1/2 to 4 1/2; silver, 59 1/2.

ANOTHER DEATH

Added to Victims of Alton Wreck.

No Settlement Reached by Strike Conference.

Prof. Newell to Investigate Water Supply of the West.

STRIKE OF MACHINISTS OFF.

Kansas City, July 12.—Another death was today added to the list of victims of the Alton wreck Wednesday. Miss Lottie L. Still, aged 25, Hornellsville, N. Y., died at University hospital. Leslie S. Colburn, Pawnee, Mich., is not expected to survive. Miss Julia M. Hayalp, Genoa, Ill.; Mrs. Anna Morrison, Valparaiso, Ind.; Miss Ora E. Tallman, Valparaiso, Ind.; and Mrs. C. W. Snyder, Jasper, Ill., the others most seriously injured, were all slightly improved today, with better chances of recovery.

A MOTHER KILLED.

Lawrence, Kan., July 12.—Mrs. Francis Walker, of Brooklyn, N. Y., who died in a Kansas City hospital as the result of injuries received in the Alton wreck, was the mother of Prof. A. T. Walker, of the chair of Latin at the University of Kansas, and was on her way to Estes Park, Colo., to join her son's family, who are spending the summer there.

NO SETTLEMENT YET.

The General Strike Conference Seems to Delay Matters.

Pittsburg, July 12.—When the conference between the Amalgamated association executive board and officials of the American Steel Sheet and Tin Plate companies to settle the existing strike was resumed today the situation apparently had not changed from yesterday morning, although both sides appeared hopeful of ultimately reaching a settlement.

The conference adjourned for lunch at noon. Morning session was taken up entirely by arguments of manufacturers. President Shaffer said nothing definite had been done.

A GLOOMY VIEW.

Pittsburg, July 12.—The Chronicle-Telegraph says: At a meeting of the Amalgamated board, preceding the general conference this morning, it is reported that President T. J. Shaffer made a vigorous speech in which he urged delay on coming to an agreement. He declared decisive action should have been taken July 1st, and said the association temporarily suspended long with delinquent companies. From President Shaffer's remarks it is believed unless a settlement be soon arrived at the first conference, a general strike will be ordered and several important industries tied up.

Forest and Water Supply.

Washington, July 12.—Prof. F. H. Newell and Gifford Pinchot, in charge respectively of the hydrographic work of the geological survey and forestry work of the department of agriculture, will leave here Saturday on a tour through the west. They will attend the Trans-Mississippi commercial congress at Cripple Creek, July 15th, and make joint investigation in eastern Oregon of forest and water supply, and other portions.

STRIKE DECLARED OFF.

No Funds to Continue and Strikers Advised to Go to Work.

Cincinnati, Ohio, July 12.—The strike of machinists here was declared off at noon today. A secret mass meeting of the strikers was held today at which a formal report was made that it has been found impossible to procure money from the headquarters at Washington, as strikers funds is exhausted and the strikers were advised to return to work.

To the Public.

As Prof. DeMare, the leader of the band, has gone to Jemez springs to cure a case of rheumatism, band concerts will only be held Sunday evenings until his return, and the concert will begin hereafter at 8 p. m. sharp. All those not yet contributing can contribute to John Borodale, 115 Gold avenue.

All right! If the missionaries object
we won't use the word "loot" in con-
nection with them any more. We'll
simply say that they "collect."

Isn't the sports monarch rushing the
downward grade and "doing the

So slow, Eddie!

The American Bar association will
hold its twenty-fourth annual meeting
in Denver next month, at which time
one of the principal topics for discus-
sion will be, "Which Bar."

It is reported that the entire stock
of Dawson beer is in the hands of
three men. Undoubtedly it will soon
be in the stomachs of several men
when the hot weather strikes that lo-
cality.

Andrew Carnegie has \$200,000,000.
He also has the dyspepsia and is al-
most ready to trade his money for a
real stomach. No doubt if he put the
offer in writing he would get a good
many persons who would be willing to
make the deal.

There has been great mortality
among the large flock of sheep in the
Animas valley of Colorado, the past
week. The owner claims they have
been poisoned, but a ranchman says
he thinks the sheep have eaten too
freely of mustard seed which is ripen-
ing.

When a Nebraska man died the re-
porter who "covered" the funeral
spoke about "this immortal soul taking
flight," and the bedridden composit-
or made it "his immortal soul." The
editor of the paper is now taking a
vacation several miles away from
town.

An eminent illustrator for the maga-
zine claims that the fashionable wife
of the young woman of the present is
the most beautiful girl that has ever
been deified. "Of course," he says,
"you know the walk I mean?" Chin in,
chest out, stomach in and shoulders
not thrown back, which is hideous, but
dropped forward, which is the height
of grace."

Colorado is an equal rights state
and according to the fusion laws of
that commonwealth women can howl
and drink the same as men. Judge
Palmer, in his recent decision on this
subject, upheld the laws of that state
and the three wise ministers, who
saw fit to criticize his actions, now
evidently understand that the laws
must be sustained, even if the women
are allowed to vote, get drunk and
howl through the streets of Denver.

Col. Daniel R. Anthony, editor of the
Leavenworth, Kan., Times, and a
brother of the celebrated "Susan B."
has added fresh laurels to his fame as
the "fighting editor." He turned the
hose on a disturber of his sanctum,
and drove him from his office with a
brandished chair. Editor Anthony has
been shot, stabbed, sandbagged and
assaulted in various ways, and in sev-
eral different languages, but although
he is 77 years of age, he is still fresh
and smiling.

A VALUABLE MEMBER.

Hon. E. A. Miera, who returned to
the city last night after attending a
meeting of the New Mexico Irrigation
commission at the territorial capital,
is considered by the other members
of the commission a most valuable
member, and one of the very best
appointments ever made by Governor
Otero. When Mr. Miera received his
appointment he secured and read up
the best authorities to be obtained on
the subject of irrigating for the arid
regions, and is now considered by the
irrigation commission as an authority
on the subject here in New Mexico.
He never does things by halves, as
his work as chairman and member of
the board of county commissioners at-
tests, and his knowledge of irrigation
will prove of great value to the people
of this territory.

FOR IRRIGATION.

The New Mexico Irrigation commis-
sion was in session at Santa Fe yester-
day and in regard to the selection
of P. E. Harroun, of this city, as en-
gineer of the commission, the New
Mexican says:

"The irrigation commission of yester-
day elected P. E. Harroun of Albu-
querque, civil engineer, as engineer of
the commission. This selection is
very commendable and will prove of
value to the commission, as well as
to the people. Mr. Harroun studied
surveying and civil engineering at the
University of California and for the
past ten years has been engaged in
active work in irrigation. He is very

well informed and his experience has
been varied and extensive. He has
acted as hydrographer for the United
States geological survey for many
years and is thoroughly well acquaint-
ed with the characteristics and flow
of water of many of New Mexico's
rivers and streams from personal in-
vestigation, observation and investi-
gation. The selection of Mr. Harroun
will give satisfaction to the people
and especially to all those who are
interested in irrigation matters in the
territory."

CROP BULLETIN.

The United States weather bureau
for the New Mexico section, in its re-
port on the condition of crops through-
out the territory, says:

The past week has been unusually
warm, with local showers on the high-
er mountains of the north and a good
heavy rain in the middle Rio Grande
still furnishes sufficient water for its
floods, excepting in the extreme
south where the continued drought is
beginning to tell. The upper Ca-
nadian, the Mora and the Gallinas are
also running low, and there is consid-
erable complaint of scarcity of irri-
gation water in the ditches tributary.
A heavy rain in the vicinity of So-
corro, and fairly good showers to the
south along the Rio Grande, have re-
freshed growing crops greatly, and re-
lieved the grass on ranges, but in
central districts, and in localities of
the northeast, the continued drought
seriously threatens crop and stock pro-
ducts.

In the extreme south wheat harvest
is nearly completed, and the second
growth of alfalfa is being secured un-
der fairly favorable conditions, and
yielding a better crop than anticipated
three weeks ago. In more northern
sections the second growth of alfalfa
is coming on nicely, excepting in the
northeast where the drought will cause
a short yield. In a few localities,
where irrigation water has been suf-
ficient or where the local showers have
visited, corn has made rapid progress
under the influence of the hot weath-
er, but as a rule the crop is consid-
erably withered by the hot sun-
shine and absence of rain. In the
northern valleys, wheat, barley and
oats are heading unusually well owing
to the early favorable conditions, but
in some northern localities oats are
heading short on account of the
drought. In the extreme south melons
are ripening, and the first shipments
of early apples have been made. Straw-
berries are about over excepting in the
lower valleys of the north. Grass on
the ranges is getting short and water
holes are drying up in many localities,
but as a whole the condition of stock
remains very good. As the rainy sea-
son is imminent it is probable that the
drought conditions will soon be relieved.

Abandoned His Wife in Old Missouri.

It is charged that the festive William
Schlott skipped out of town last
night and a tale hangs thereon.
Left Springfield, Mo., over a year ago,
taking with him another man's wife
and \$3,000 in cash. In doing so,
he left behind a wife of his own in de-
stitute circumstances.
Recently his abandoned Missouri
wife commenced an action for divorce
against Schlott, and the court entered
some orders in reference to his prop-
erty. Marshal Murphy had received the
papers in the case and it was to
avoid service that Schlott folded his
coat like the Arab and silently stole away.

The Best Remedy for Stomach and Bowel Troubles.

"I have been in a drug business for
twenty years and have sold most
of the proprietary medicines of any
kind. Among the entire list I have
never found anything to equal Ber-
lin's Colic, Cholera and Diarrhoea
Remedy for all stomach and bowel
troubles," says O. W. Wakefield, of Col-
umbus, Ga. "This remedy cured two
severe cases of cholera morbus in my
family and I have recommended and
sold hundreds of bottles of it to my
customers in their satisfaction."
It affords a quick and sure cure in a
pleasant form. No family should be
without it. I keep it in my house at
all times. For sale by all druggists.

SANTA FE SURVEYORS.

They are at work on the Oklahoma
and Indian Territory Line.
Santa Fe surveyors are at work in
the vicinity of Ripley, Okla., commencing
the survey of at least 200 miles
of new Santa Fe track to be built at
once in Oklahoma and Indian Terri-
tory. The extension is on what is
known as the eastern Oklahoma line.
General Manager H. E. Mudge says
that a line will be built north from
Pawnee and south to Ripley. It is
estimated that the line will be built
in a general line where the road
will go, but that has not been fully
settled. It cannot be settled un-
less the survey is made. It is the
purpose of the Santa Fe to know that
country quite extensively. I cover that
country quite extensively. I know that
President Ripley has been considering
the situation and the line will
be at once be built north from Paw-
nee and south from Ripley. The line
south from Ripley will probably ex-
tend into the territory, and meet the
main line somewhere south of Par-
cell. The total number of miles to be
built is two or three hundred."

THE WORK STARTED.

Contracts Being Let for Construction
of the Bihee Road.

The construction of the Bihee road is
fast reaching a tangible shape and
contracts are being let all along the
line for the building of the new
system, says the El Paso Times.
To Orman & Crook, the well-known
railroad builders of Colorado, has been
let the construction of over 500 miles
of the road. This firm is probably the
best and most favorably known in the
west and has built more miles of rail-
road than any other similar concern.
This company pays its men better
wages than any other railroad con-
tractors in the United States.

To Strickland & Co., the contracting for
the entire line has been let. From that
point about 130 miles west the firm
composed of Richard Caples, J. C.
Conover and Frank J. Conover, will
construct the road to a point joining the
end of Orman & Crook's contract.

The heavy work for the building of
the road out of El Paso has not yet
been definitely contracted for, but op-
erations in that direction will be com-
menced almost immediately.

This morning P. E. Hutchinson, gen-
eral manager of the road, Superintendent
Choate and Mr. Wainwright leave
for Tucson to meet the representatives
of the Southern Pacific road and ar-
rangements will be made for the
crossing of the Bihee road over the
Southern Pacific tracks at a point
about a mile below Denning.

Word was brought to Durango yester-

a well known citizen of San Juan
county, New Mexico, had been seri-
ously shot by a man who is renting
his place, Dr. McEwen, of Farming-
ton, near Kirtland. One shot passed
through the right arm and the other
the second passed through the abdo-

PURELY SENSATIONAL.

sulted, as Telegraphed Out by a
Denver paper, whose territory should
take in only Santa Fe and the north-
west, and the rest of the territory.
The Santa Fe correspondent of the
honest nature carries him all over the
southwest, is trying to create a
bitter quarrel among the Americans
and natives of the capital in the fol-
lowing sensational dispatch:
"Santa Fe, N. M., July 10.—The
funerals of Harry Daley and Albino
Chavez, who killed each other over a
game of seven-up yesterday morning,
took place this afternoon within an
hour from the same church and in the
same cemetery. Daley was buried at
the county's expense, his employee,
E. Lacombe, however, furnishing a plot
in Rosario cemetery. Mass was cele-
brated in the cathedral.
The remains of Chavez were taken to
the residence of Arias attempted to in-
sult several of the mourners of the
Daley funeral and have made the
threat that they will dig up the body
and drag it through the streets.
"The inability to find the revolver
with which Arias is supposed to have
shot Daley has led to the theory that
the friends of Chavez did not attempt to
sue the mourners at the funeral, but
fearful that they would be shot, they
killed Daley, and the latter had
naturally wounded Arias and the latter
had wrecked the revolver out of
Daley's hands."

SPRING.

are reported much improved.

Mr. and Mrs. C. E. Hartley, Ada
Dickman and Lucie Peterson re-
turned from Taos hot springs, where they
spent about two weeks.

M. W. Mills, who is shipping fruit
on the Santa Fe road, reports that the de-
mand for his fruit is so much greater
than the supply that he is unable to
fill more than one-half an order.

W. C. Potter, the industrial de-
partment of the Santa Fe railroad, left
here for Elizabethtown, where he will
direct the mineral wealth of that
district, and will stop here on his re-
turn to examine cement rock clay and
several other deposits before leaving.

At a meeting of the school directors
the casting lots for the one, two and
three years' term of office resulted
as follows: George W. Warder, one
year; D. A. Clouthier, two years; John
Tranger, three years. The officers re-
served were: John Tranger, president;
D. A. Clouthier, secretary; G. W. War-
der, treasurer.

William Holmes, while driving a
wagon for the stage line between Cim-
arron and Ltee Creek, in a narrow part
of the canyon pulled some logs, some
freight wagons, and in doing so must
have struck a large rock, which turned
the wagon over. Mr. Holmes was
caught under the wagon and his head
received a serious injury, but it is re-
ported that he does not suffer much,
only when standing on his feet. He
is still at Cimarron.

J. W. McFarland is here from Winslow today, looking after the interests of the Santa Fe Pacific railroad company.

Mrs. Henry Essinger and children, of Las Vegas, passed through this city Wednesday night for southern California.

W. A. Brown, assistant freight and passenger agent of the Santa Fe system, with office in El Paso, was here yesterday.

Frank Fillmore left last night for Joplin, Mo., in response to a telegram announcing the dangerous illness of his father.

Mrs. B. S. Robery and children will set away for the eastern summer resorts tomorrow. They will be absent about six weeks.

E. H. Hemps, the energetic live stock agent of the New Mexico and Rio Grande divisions of the Santa Fe, returned to his headquarters in this city today.

F. B. Crosthwaite, the prominent Washington attorney, who spent yesterday in the city, left for Los Angeles last night, accompanied by his wife.

Jacob Weinman will leave Sunday for New York city, where he will purchase fall and winter goods for the store of the Golden Rule Dry Goods company.

Hon. G. A. Richardson passed through the city last night on route to Roswell, after attending a meeting of the irrigation commission at Santa Fe.

Mrs. V. V. Clark arrived here from a visit to Grand Island and for a few days will be the guest at the hospitable home of Mr. and Mrs. L. L. Lusted, north of the city.

Frank Gillenbeck, ex-manager of the Fred Harvey eating house here, accompanied by his wife, left Tuesday for Chicago and from there they will visit the Wisconsin lake resorts.

This week Max Ehrlich, the local attorney, successfully divided the partnership which existed between the late Gabriel Gargoura and Michael Gargoura, on behalf of the widow.

M. N. Rice, who occupies the position of general state lawyer of the Santa Fe Pacific, arrived from Winslow this morning to check up the employees and order new supplies.

Mrs. Adolph Hansen, who was seriously injured last Friday by a large door in the rear of the bottling works falling upon her, was able to attend to her household duties yesterday.

B. F. Giltner, interested with Denver capitalists in the operation of the Maeso mine, purchased a lot of supplies in this city today. He will return to the mountain tomorrow.

Maeso Nolan and Bush have gone to the petrified forests of Arizona, and after enjoying the sights there for a few days they will continue on to California to spend the summer.

"The Horse Shoe Club" is the new name which appears over the door in place of "The Climax" saloon of Brannan & Kellerman on west Railroad avenue. The change was made today.

Hon. Jesus M. Sandoval, who was at Santa Fe yesterday on business, returned last night, getting off the train at Alameda and taking a buggy from there to his home at Sandoval.

A regular meeting of Albuquerque Police No. 1, I. O. O. F., will be held tonight, this being installation night. All members and visiting brothers expected to attend. Charles Fisher, secretary.

Last evening Mrs. Otto Diekmann, her little children and sister, Miss Sprague, from Chicago, left for the Pacific coast, where they will while away a few weeks, thus escaping the heated season of New Mexico.

H. J. Stone returned from the golden Corralito district last night, where he sounded the praises for the famous "Chickering" brand of whiskey, of which the firm of Hall & Leonard are the southwestern agents.

Contractor Z. H. Bliss, of this city, has been awarded the contract for the construction of the addition to the School of Mines. He went to Socorro last night to make preparations for starting the new work.

The do, very team of A. J. Maloy created a little excitement yesterday by running away and in so doing they distributed a lot of fancy groceries, fresh vegetables and luscious fruits.
