USUAL CRIME.

Denver's Bloody Record Continues.

Woman Stabbed to Death and a Young Girl Outraged.

Double Tragedy in a Santa Fe Saloon This Morning.

FATAL FIRE AT CHICAGO.

Denver, July 9.—Mrs. Armenia A. Bullis, 60 years of age, was stabbed to death last night, and Jesse Kinhorst, 14 years old, was outraged and mutilated with a knife and is now at death's door. Chris Jensen, or Johnson, who is under arrest, confessed that he committed both crimes. Jesse Kinhorst was found in the weeds of the bank of Cherry creek seventy-five feet from her home, No. 19 west Ninth avenue last night. She had been assaulted in her room in the absence of her mother, Mrs. Carrie G. Kinhorst, and then carried to the spot where found.

This morning the dead body of Mrs. Bullis was found near the end of the University Park car line. She had been stabbed to death, Jensen says she "was after" him with a gun, so she stabbed her. Jensen is a Swede, 20 years old. He is believed to be a deserter. He says he worked on a ranch near the city. Mrs. Bullis conducted a dairy farm near where she was stabbed.

Police officers who have been investigating the murder of Mrs. Bullis and the assault upon Jesse Kinhorst have satisfied themselves that the man committed by the same man. Jensen's rather incoherent confession of the killing of Mrs. Bullis was made before it was known that murder had been committed and it was thought to have had reference to the assault on Jesse Kinhorst. The girl regained consciousness this afternoon. Her assailant has not yet been captured. A woman living in the same neighborhood as the Kinhorst family was assaulted in her yard by a man about an hour before the Kinhorst girl was attacked, probably by the same man, but not seriously injured.

SANTA FE SHOOTING.

Double Tragedy in Lacombe's Saloon at the Capital.

Santa Fe, July 9.—As the result of a quarrel this morning in J. E. Lacombe's saloon over a game of cards, Harry Daley, of New York, a healthy sealer, was fatally wounded and Julian Arnes killed by shots from revolvers in each other's hands.

Daley died this afternoon.

A Chicago Fire.

Chicago, July 9.—Two frame buildings, Nos. 8712 and 8714 Commercial avenue, were totally destroyed by fire early this morning and twelve people barely escaped with their lives. The downstairs portion of the buildings were used as stores, while two families of Poles lived in the upper rooms. All the occupants were asleep when the fire broke out and a majority were overcome by smoke and heat. Three policemen who discovered the fire succeeded in carrying all occupants to places of safety. One was probably fatally burned.

Architects Meet.

St. Louis, July 9.—Commission of architects, after whose plan and under whose supervision the buildings of the Louisiana Purchase exposition will be erected, met today at the Platters' hotel for the first time. Two other important world's fair meetings are being held today. One is that of executive committee of which President Franklin D. Roosevelt is president. The other is that of the directors on the scope of the fair. It will be arranged to have exhibits from all over the world, of course, but scope includes character of those exhibits. Following this meeting will be one of the directors.

Knights of Pythias.

Chicago, July 9.—The supreme lodge of the Knights of Pythias today met in special session to consider the alleged "injustices of handling of the funds of the endowment rank of the order." It is said \$200,000 of the entire surplus of endowment rank has been so badly handled during the few years that it was unable for use except at a great sacrifice. Meanwhile, the death rate has increased to such an extent the rank is \$400,000 behind on death claims.

HE USED A RIFLE.

Frederick D. White's Suicide in Syracuse, N. Y. Syracuse, July 9.—Coroner Mathews today officially reported Frederick D. White's death cause of suicide due to neurasthenia. No answer to cablegram sent his father, Ambassador Andrew D. White, yet received.

Coroner's investigation into the manner in which White took his life shows that after he entered the bath room he removed his shoe from his right foot and standing on the floor placed his mouth over the barrel. With his great toe he pressed the trigger and sent a 44-caliber bullet crashing upward through his brain.

Fell Into Boiling Mud.

Helena, Mont., July 9.—W. W. Wyllie, just returned from the Mammoth hot springs, Yellowstone park, reports that a mother and her daughter, names unknown, while inspecting the boiling mud of "Paint Pots" on Yellowstone lake, Saturday afternoon, fell into the natural cauldron, where the boiling mud is waist deep, and were only recovered with difficulty. They had been rescued by a physician, who said the injuries might prove fatal.

LATER.

Helena, Mont., July 9.—Reports received today from Mammoth hot springs, Yellowstone park, state the two women who fell into the boiling mud of "Paint Pots" geyser, on Yellowstone lake, are believed to be Mrs. Zabriskie and daughter, of Brooklyn, N. Y.

Ambassador White Will Resign. Berlin, July 9.—Although Ambassador Andrew D. White, who recently declined to a correspondent of the Associated Press that he intends to resign, the correspondent now learns from a close personal friend of White that he will resign next year, on reaching his seventh year.

Ambassador White's decision to resign was taken before the news yesterday of his son's suicide, but it is believed his son's death renders the decision irrevocable. White is at present staying at Sassnitz, island of Rugen, in the Baltic sea.

Miner Killed at Clarkville. Special to The Citizen. Clarkville, Pa., July 9.—A man by the name of Tim was killed in the mines at Clarkville, six miles west of Gallup, late this afternoon. Justice of the Peace W. C. Smith will go there to hold coroner's inquest. Full particulars of the killing cannot be obtained at this time.

Williams Incorporated. Special to The Citizen. Williams, July 9.—The board of supervisors in session at Flagstaff today incorporated the town of Williams, appointing the following persons aldermen: F. R. Nellis, Joseph Johnston, George Wharton, B. F. Sweetwood and Harry Pyle. The aldermen will elect the mayor from their ranks.

Stock Market. New York, July 9.—The nervous feeling aroused on the stock market by yesterday's violent slump was relieved by prompt recovery after the opening. The town of Williams was due to full support of space buyers orders from bankers and syndicates whose great projects would be engaged. Liquidity was forced.

Council of Education. Detroit, July 9.—The National council of education adopted a resolution receiving the report of the committee on national university, but declaring the council was not prepared to abandon the position of the National Educational association in favor of a national university.

Death of Mrs. Taylor. Indianapolis, July 9.—Mrs. Sarah Belle Taylor, wife of Wm. S. Taylor, ex-governor of Kentucky, but for more than a year a resident of Indianapolis died today of a hemorrhage resulting from heart disease.

Propositions Rejected. Reading, Pa., July 9.—Not a single Philadelphia & Reading striking employ in this city returned to work today. The rejected the National proposition of Acting President Welsh.

The Youngers. St. Paul, July 9.—The pardon board today again deferred final action on the petition of parole of Cole and James Younger until Monday morning.

New Orleans Postmaster Dead. New Orleans, July 9.—Judge Ferdinand B. Barhardt, postmaster of New Orleans since January last, is dead.

DISCUSSIONS OF INDIAN EDUCATION.

Columbus, July 9.—There is an unusually large attendance of visitors here for the preliminary meetings of the democratic state convention. The delegates are accompanied by large delegations of the different candidates for nominations for judge and clerk of the supreme court, attorney general, state treasurer and member of the board of public works. The large attendance is due more to the reunion of democrats who have not met together in Ohio since 1896. "Gold diggers" are largely represented and are given places in committee and organization generally. They are with McLean as against the Johnson men in the proposed new department of administration. Charles P. Salen, of Cleveland, has been selected as temporary chairman and is expected to deliver the opening address. The latter will be followed by a conservative platform. At the conference this morning it was evident conservatives would control the majority of the national delegates and therefore have all the committees.

THE STRIKE SITUATION.

Everything Now Looks Bright for Amicable Settlement. Pittsburgh, Pa., July 9.—As the result of the preliminary conference between President Shaffer, of the Amalgamated association, and Warner Ames, representing the combine's interests, last evening, the Wellesley trouble, which yesterday threatened to undo all that had been done toward effecting a peaceable settlement of the strike, was adjusted, and every point to an amicable adjustment of all differences at the general conference arranged for next Thursday in this city.

Shaffer said that he considered the questions to be considered at the conference most grave, and for that reason he thought it best to call in the general executive board, composed of the highest officials of the association, instead of consulting with the conferees, who usually met to consider such questions.

"I am pretty well satisfied that the trouble will be settled," said Shaffer. "There seems to be a spirit of compromise prevailing in those to whom I talked officially. The meeting will be for signing scale for mills as a whole. Among those on the outside who professed to know it was said that the United States Steel corporation will be represented by the general officers and by any operating officers. That is the case, it will make a decided departure in the method of dealing with the Amalgamated association, this city.

JAPANESE CONTROL.

They Overawed Striking Fishermen by Vancouver, B. C., July 9.—The Japanese are now in control of Frazer river. They were fighting during the night, brooks, about a mile. About 300 Japanese spent the night in fishing boats. They were armed with rifles and shotguns. They were in a good patrol, with the largest and widest fishing boats of the river, each boat containing eight to ten armed Japanese. The union boats were each and every half that number. When the union patrol boats went near the fishing grounds, several Japanese boats were boarded and the boats surrounded it and simply overawed the strikers by force of numbers.

Indian Education Discussed. Detroit, July 9.—In the department of education of the National Council of Education today the "Need of Compulsory Education for Indians" was discussed by Superintendent Geo. W. Nellis, of the Sac and Fox agencies, Iowa; Superintendent H. B. Peare, of the Haskell school, Kansas; Superintendent E. T. Nardin, all of whom advocated compulsory education. A paper on "Resolved, That Reservation Day Schools Be the Prime Factor of Indian Education," by Agent E. A. Gochell, of South Dakota, was discussed. Consensus of opinion was that the day school should be made the prime factor of Indian education.

Rev. Renison Addresses Large Congregation Upon the Subject. Every seat in the auditorium of the Congregational church was filled last Sunday night by members of the various churches to listen to the address of Rev. Denison on "Christian Citizenship." All the Protestant churches of the city were represented and the union services were conducted under the auspices of the local Women's Christian Temperance Union. Rev. Renison chose for his text, "Am I My Brother's Keeper," Gen. IV-9. He said the three greatest barriers to the advancement of our civilization were infidelity, divorce and intemperance. Of the first of these, infidelity proposes to rob all the graves of Christendom of the glorious hope of the resurrection. It proposes to erase from the tomb of our loved ones those sweet words, "Asleep in Jesus," and substitute for them "Annihilated." The second barrier to good citizenship is divorce. The speaker said there are hundreds of thousands of miserable homes in this country over whose door might be written the words, "Unhappily Married." In these homes many a good and precious woman is incarcerated and her life is one long crucifixion. Cruelness, just and bad temper, the tyrants under which she groans, and sometimes you will find a good and consecrated man tied to a "fairy," who, when he married her was one as disguised as a suppressed volcano. The remedy proposed for the alleviation of this evil is divorce, but the bible lays down only one lawful ground of divorce. To make divorce less easy the human race must be more cautious about entering upon this life-time alliance. Let people understand that

THE CHRISTIAN ENDEAVORS.

Cleveland, Ohio, July 9.—Early today the southwestern limited of the Lake Shore railroad collided with the rear end of a freight train near Nottingham, twelve miles east of this city and was thrown into a gully. Two persons were killed and several injured. Killed: F. L. Anderson, Buffalo, engineer of southwestern limited; G. G. McCullen, mail clerk, Cincinnati. Injured: Wm. Elliott, Buffalo, fireman on passenger train, probably will die; W. M. Baker, Columbus, mail clerk, not serious; E. P. Lovelace, Cincinnati, mail clerk, slight, and two unknown tramps. No passengers were hurt.

E. Johnson, of Buffalo, and A. Hirtz, of this city, sustained serious injuries, but will recover.

WESTERN RATE SITUATION.

Railway Presidents Will Meet and Discuss Matters. Chicago, July 9.—The Record-Herald says: The western rate situation has been taken in hand by the railway presidents and last night there was talk in certain quarters that the rates promulgated by the Santa Fe would never go into effect. This view was strengthened by the fact that president of the lines interested held a conference yesterday after which the meeting of western trunk companies called for today was postponed until Friday. It is understood President Stickney, of the Great Western, will arrive in the city today and meet with the presidents for the purpose of presenting his side of the story.

Insurgents Surrendering.

Manila, July 9.—There have been additional surrenders to Colonel Wint. In all fifty-nine officers and 475 men surrendered to him. Of the Ninth cavalry, Deserter Dubuque and Russell surrendered and Hunter and Victor were brought in by Bellano.

Christian Endeavors.

Cincinnati, July 9.—The time of the delegates to the Christian Endeavor convention today was occupied mostly by demonstrational conferences. There were twenty-six of these rallies in various churches about the city during the afternoon and they were attended by almost all delegates and visitors.

ALBUQUERQUE - JULY 9, 1901

The eastern newspapers are printing no hot weather jokes about Yuma, Arizona.

The Colorado Fuel and Iron company is shipping 1,000 tons of iron daily from Hartsville, Wyo.

The Arizona Mineral Wealth says that the wicked Mark Hanna is trying to buy up the democratic papers in Arizona.

According to the police statistics Berlin is rapidly becoming one of the most immoral cities of Europe. During the year ending June 15, 21,798 women were punished for immorality.

J. H. McCutchen, of this city, charges that the late legislature was corrupt. He should be summoned before the United States grand jury and be asked under oath to substantiate his assertion.

Who are the people that smoke all the opium, and what do they do for it? Reports showing importations at San Francisco of 1,894,548 pounds, on which the government collected duties amounting to \$12,861,000, certainly furnishes material for contemplation.

The mortality list of the glorious Fourth is not complete yet, but it is large enough and to spare, while the record of injuries mounts up well toward 2,000. The celebration throughout the country was as usual a murderous and a barbarous affair, compounded of minor hurts and fatalities and a hideous noise and racket.

UNIONS MAY OPPOSE STRIKES.

The various unions of theatrical employees, whose headquarters are in New York, have inaugurated a movement to abolish the strike as a medium of coercion, and hope to adopt some definite plan for such abolition at their forthcoming national convention, which will be held at Toledo. Strikes are much less numerous than formerly in all trades. The locomotive engineers, by common consent rather than through formal action, have practically abandoned this means of enforcing their demands, and much to their advantage. Not a few unions are on record as unalterably opposed to the sympathetic strike, which is the most unjust and indefensible phase of the system.

SENSATIONAL NEWSPAPERS.

The sensational paper whose mission is to reform everybody else by one means and another finds after a more or less brief experience that it has not set the world on fire. But it boasts and brags and blusters to the last, says the Las Vegas Optic. Its abominations and imprecations are mingled with the death rattle and its existence and the memory of it fade together, only in time to be succeeded by another of its kind—when some ambitious dunce allows himself to be separated from enough money to buy an outfit, provide a Bohemian force with a bath, some new regiment and the wherewithal to gratify a perennial thirst. The journalistic cemetery is filled with the unmarked graves of this class of newspapers. Their death is in exact proportion to their birth rate. There are fewer deaths now than formerly—because there are fewer births. By and by such journals will be impossible.

MISSOURI'S ANNIVERSARY.

It is proposed to celebrate the eighth anniversary of the statehood of Missouri on August 10 of this year. There was a noteworthy political agitation over the admission of Missouri, as all who are familiar with the history of our country will remember. The application of the territory for statehood in 1817 led to a bitter struggle in congress which caused general political excitement. In the session of 1819-20 a bill was introduced providing that Missouri should be admitted as a free state. The southern members of congress strenuously opposed this bill. The first constitution prepared for the state forbade the legislature from passing any emancipation laws without the consent of owners of slaves, or the passage of any laws preventing immigrants from bringing slaves with them, and directed the legislative body to pass laws forbidding the settlement of free negroes in the state. This was obviously to the anti-slavery sentiment of the north. Chiefly through the influence of Henry Clay, a compromise was effected by which Missouri was to be admitted as a slave state on condition that from all territories west of Missouri and north of latitude 36 degrees and 30 minutes slavery should be excluded. The bill for admission passed the senate, but on account of the "free negro" clause in the proposed state constitution, a proviso

SHORT INTERESTING PARAGRAPHS.

ALAMOGORDO.

From the Advertiser.

Mrs. J. H. Laurie left for a two months visit with friends and relatives in Canada. Mr. Laurie accompanied her.

Mrs. and Miss Shannon, mother and sister of Prof. T. H. Shannon, left for their home at Independence, Texas, after spending a month visiting in Alamogordo and Clondorff.

During the past week enough of water has run down La Luz and Alamogordo canyons, caused by heavy rains in the mountains, to irrigate thousands of acres of the rich valley lands, but as there is no means of conserving this immense quantity of water it flows down into the valley and wastes away in the sand. This is the case each year during the rainy season.

Prof. Thos. H. Shannon has resigned his position as president of the Baptist college. At a meeting of the college board held at Lower Pecos last week his resignation was accepted and Rev. J. W. Newbrough was elected to fill the vacancy. Mr. Newbrough has not yet signified his intention of accepting this position. He is the matter before his church, and if they will accept his resignation under these circumstances, he will give up his pastorate and take the presidency of the college.

CERRILLOS.

From the Register.

J. R. Ortiz came in from a business trip to San Pedro and Golden. He has been engaged to teach the Golden school next winter.

J. B. Mayo, of Golden, is moving some machinery from the mine to the Old Reliable and arranging to drill a well. As soon as water can be secured a new mill will be built on this property.

FIRE AT GLOBE.

What B. Morello Found When He Reached Home.

B. Morello, of Globe, Ariz., who was in this city the latter part of June and spent several days here transacting business, returned to his home July 24 in order to be on hand for the big celebration and fireworks planned for the 4th. He reached there at 3:30 p. m. and found his dwelling and place of business in flames. Thanks to the heroic efforts of about seventy-five of his countrymen who quit their work to assist in fighting the fire, the flames were extinguished after a hard fight. Mr. Morello's loss amounted to about \$100. The fire originated in a blacksmith shop one block above that in which Morello's property is situated, and raged for over five hours, consuming every structure in its path to the Morello block, and it is generally conceded by the inhabitants of Globe that but for the indefatigable efforts of the salaried firemen the town of Globe would have been wiped out by the fire. Mr. Morello desires throughout the columns of this paper to thank his many countrymen who quit their work to assist in fighting the fire, the flames were extinguished after a hard fight. Schlitz

beer is the beer of civilization. Go to any part of the earth where mankind values purity, and you will find Schlitz beer is the recognized pure beer.

For fifty years the Schlitz agencies have followed white men's conquests.

They are twenty years old in South Africa.

Schlitz beer was famous in Siberia before a railroad was thought of.

When Japan and China first began to awake, Schlitz beer was advertised in their newspapers.

Almost as soon as Dewey captured Manila 216 carloads of Schlitz were sent there.

Today Schlitz agencies send the globe that when it is midnight at one it is noon at another.

The quality by which Schlitz beer has won distinction has been its absolute purity. Every physician the world over will recommend Schlitz, the beer that made Milwaukee famous.

Cure for Cholera Infantum—Never

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In a few days the child had fully recovered. The child is now very vigorous and healthy. I have recommended this remedy frequently and have never known it to fail. Mrs. Curtis Baker, Bookwiler, Ohio. For sale by all druggists.

Science has found that rheumatism is caused by uric acid in the blood. This poison should be excreted by the kidneys. Foley's Kidney Cure always makes them well. Alvarado Pharmacy.

A Wicked Cloud Burst.

A cloud burst of rain and hail fell upon the canyon with a freight train that was on its way from the Hopkins and Sherry property in the Minibello mountains. The train was loaded with two wagons loaded with ore. In crossing the arroyo, the mules heard the roar of the water coming down the canyon and became irremediably. Before the driver could get them out, they were struck by the volume of water four feet high. Six of the mules were carried away, three of which were drowned. The driver was picked up about half a mile down the canyon, unconscious. He is in a precarious condition, with slight hope of his recovery.

Spears, who accompanied the gentlemen to Alamogordo, became

THE PLAIN TRUTH!

We might as well tell it. No use to make excuses, to say that we want to make room for other goods, or to change around in some way, or to take stock, or this or the other excuse for price reductions.

We Need Money!

Too heavy a Spring Stock, too backward a season, business a little bit slow, customers holding off, and a big Fall and Winter Stock to be purchased—that is our story.

Our Summer Goods Must Go!

We here quote a few prices which speak for themselves. We are overstocked on Summer Clothing, Shirts, Underwear and Hats and are bound to close out everything in the way of Summer Goods.
