CHRISTIAN WORK.

International Conven-
tion of Endeavorers.

Opening to Settlement of In-
dian Reservation.

Americans Fighting With Boers Can-
not be Helped by This Country.

OHIO IRON WORKERS GET WAGES RAISED.

Cincinnati, Ohio, July 8.—After a business session on Saturday and evangelist and other mass meetings yesterday, the regular program of the twentieth international convention of the Christian Endeavor society was begun today. Several of the largest churches in the central part of the city were used, in addition to Odson hall and the large auditorium. Two quiet hour meetings were held from 8 to 9 o'clock, conducted by Floyd W. Tompkins, of Philadelphia, and Cornelius Wolfson, of Brooklyn.

At the auditorium meeting, President Clark presiding, "The Twentieth Century Home" was the topic.

The first English Lutheran church, Secretary Willis Baer presiding, there were many addresses on school methods for Junior Christian Endeavor.

At Odson hall the new field secretary, Clarence E. Eberman, presided and addresses were made by local, district and state union officials.

The chief topic of interest at the meeting today was the extension of the work of the convention in the direction of Dr. C. L. Clark, of Cincinnati. Services were held in the evening and manufacturing districts by delegates who volunteered their services.

To Be Opened to Settlement.
Washington, July 8.—The president has issued a proclamation for opening the lands of the Chiricahua, Kibwa and Apache reservations in Oklahoma, which are not reserved, on August 6th. The lands are to be allotted under the homestead and range laws by registration and drawings. Applicants must register between July 10th and 26th.

AMERICANS WITH THE BOERS.
Great Britain Refuses to Liberate Them From Prison.
New York, July 8.—Americans who have been made prisoners by the British, will have to endure captivity until the close of the South African war, says the Herald's Washington correspondent. Great Britain has declined to comply with the request of this government to release an American now confined on the island of Ceylon, and this refusal will probably prove a bar to further representations by the state department in behalf of Americans captured as belligerents in South Africa.

Men Resume Work.
Yonkers, Ohio, July 8.—Resumption of the mills of the Republic Iron and Steel company and Har Iron combine today in general, after a week's shut down for repairs and 25,000 iron workers in twenty-eight mills returned to work. The strike was signed a week ago, the men getting an advance of about 5 per cent.

Insanity Trust.
Indianapolis, July 8.—The grand jury here today began taking testimony as to the so-called Indianapolis insanity trust. It is alleged that a clique of doctors and officials have taken part in two years in hundreds of insanity inquiries, and large fees have been collected. Dr. W. R. Fletcher, one of those pushing today's inquiry, says that fully fifty of those committed are perfectly sane. Indictments are expected.

Freight War at Chicago.
Chicago, July 8.—The Post today says: "Tomorrow's Western Freight Line freight association will probably settle the freight war precipitated by the recent open reduction made by

State Convention Meets
at Columbus.

Immense Lake of Oil Under-
lies Portion of Texas.

Steel Strike Aggravated by the Dis-
charge of Several Workmen.

BOERS ENTER CAPE COLONY TOWN.

Columbus, Ohio, July 8.—Delegates and visitors assembling here today for the democratic state convention on Wednesday are greatly disappointed because John R. McLean and Tom L. Johnson, who are most prominently mentioned for the United States senatorship will not be here. It is understood that Chas. W. Baker will be permanent chairman. He is a close friend to McLean and chairman of the Hamilton county delegation. Indications today were that the conservative (McLean) element would control the committee on resolutions and adopt the Cincinnati platform rather than the Cleveland platform. The latter radically changes the system of taxation and puts the burden on corporations, especially on railways. This issue is the principal contention before the convention.

LAKE OF OIL.
Discovered Near Corpus Christi, Tex.,
Causing Great Excitement.
St. Louis, July 8.—Dispatches from Corpus Christi, Texas, state that while speaking of the great lubricating oil strike made at Pineda Pintos, Duval county, thirty miles from Corpus Christi, last week, a prominent geologist asserted that underneath Duval and Nueces counties is an immense lake of oil, which extends south as far as Tampico, Mexico, and is the largest in the world. Nearly a dozen wells are being sunk near the new gusher, and capitalists are flocking to the place. Land has increased in value tenfold and a new town will be laid off at once.

STEEL STRIKE.
Steel Company Discharges Several Men, Aggravating the Trouble.
Pittsburgh, July 8.—Pre-emptory dismissal of twelve members of the Amalgamated Association at the West-ville plant of the American Sheet Steel company may seriously affect the expected settlement of the strike this week.

CONFERENCE CALLED.
New York, July 8.—A director of the United States Steel Corporation said today: "President Shaffer of the Amalgamated Association has requested a conference with representatives of the Sheet and Hoop interests and our answer was a favorable one. The conference is to be held at Pittsburgh. The outcome is problematical. The statement that there would be a meeting here today, with J. Pierpont Morgan in attendance, is erroneous. There will be no meeting and so far as I know Mr. Morgan has taken no part in the matter."

Boers Enter a Town.
London, July 8.—A special from Capetown says that Scheepers' Boer command entered Murrumbidgee, Cape Colony, burned the public buildings and residences. The town was not garrisoned.

Wool Market.
St. Louis, July 8.—Wool steady, unchanged. Territory and western medium, 13@15; fine, 10@13; coarse, 10@12 1/2.

Dead.
New York, July 8.—Pierre Lorillard died on Sunday, aged 68 years.

FRESH dressed broilers and hens, all kinds of Kansas City meats, at the San Jose Market.

INDIAN EDUCATION.

Reading Railroad Strike Still
in Progress.

Constitution and Columbia.

GERMAN SOLDIERS DROWNED.

Detroit, July 8.—A meeting of the National Council of Education in the Y. M. C. A. hall this forenoon and the first session of the department of Indian education in the Central M. E. church, opened the fortieth annual convention of the National Educational association. The first session of the general body will not be held until tomorrow. The paper of the morning before the council was read by Wm. T. Harris, national commissioner of education, on "Isolation in School; How It Hinders and Helps." Prof. Harris' advocacy of isolation precipitated a lengthy discussion. At the afternoon session Elmer E. Brown, university of California, read a paper on "Educational Progress During the Past Year."

The session of the Indian department was given entirely to addresses of welcome and responses.

Reading Railway Strike.
Reading, Penn., July 8.—The strike of the Philadelphia & Reading freight handlers is still on. The company has over 100 cars blocking traffic in the yards here. The men requested that wages be advanced from 14 to 18 cents an hour. They also want a nine-hour day.

The Reading Iron company strike, involving 2000 men, is still unsettled. One thousand two hundred and fifty Reading railway shop hands are still out.

The striking shop hands this afternoon decided to stand out for better terms.

MARKET QUOTATIONS.

Market quotations and review furnished by W. P. Metcalf, No. 5 Cromwell block, received over the private New York, July 8.—The market opened weak with heavy liquidation throughout the entire list. There was a sharp break in Atchison on rate cutting and this induced other selling. Money opened higher, but later dropped. The graneros were very weak and St. Paul fell 10 points. The liquidation all through the day was on quite a big scale, but there was some support at lower prices and the Atchison made some gain.

LOCAL PARAGRAPHS.

Jack Fleming, mayor of Silver City, is here today on business. He hopes to get through so he can return south this evening.

The Mutual Automatic Telephone company, T. I. Wright superintendent, will soon have the J. M. Sandoval long distance telephone line between this city and Los Corrales completed. Line men were stringing the wires last Saturday.

M. L. Seymour Ball, the well known prospector and miner, is around today celebrating in a quiet way the fact that he landed in Albuquerque from New York twenty years ago today, when "schooners" were 15 cents at Madden's corner and elsewhere in the city. Mr. Hall has held various positions in this city, at one time being county jailer, where, in those early days, he gave evidence of being a very courageous official. He now spends his time in mining and has some good claims in the several adjacent districts.

M. W. Borrowdale, a business gentleman of Magdalena, wired William Farr last night that the infant son of Mr. and Mrs. David Farr had been born at Farr ranch, fifteen miles from Magdalena, yesterday. Mr. Farr wired for particulars and received word this afternoon that the boy was a very healthy child. He was born at 2:30 p.m. and weighed 7 pounds. He is named after his father and will arrive in Albuquerque tomorrow morning, hoping to meet the father at Socorro en route to this city. David Farr has been absent from home when death occurred. The funeral will no doubt occur at the residence of William Farr on North Second street tomorrow afternoon.

Seven weeks ago this afternoon Frank Murphy, freight conductor on the Santa Fe, was badly injured between car bumpers at McCarty's station. He was brought to this city and the railroad surgeon treated at that time that a majority of the fingers on both hands would have to be amputated, so badly were they injured. He is around today telling his many friends that all his fingers have been saved by skilled surgical work, and that, as soon as the wounds are healed, he will be at his work again. Mr. Murphy here being given a run on the road, was general yardmaster at the local depot. He is a good railroad man.

New Mexico demands Statehood from the Fifty-Seventh Congress.
The New Mexico Territorial Fair will be held in Albuquerque from October 15th to October 19th. Premium list will aggregate \$10,000.

ALBUQUERQUE - JULY 8, 1901

It appears to be necessary to slander the territory to get missionary funds.

This city has the most remarkable telegraph operator in the world. He cannot spell any word in the English language correctly.

The census returns of France show a total population of 38,600,000, an increase in four years of only 230,000, of which all but 28,000 is in Paris.

The people of the United States are the best fed people of the world and consume more per head per year than the inhabitants of any other country of the world.

France has coined 2300 tons of gold during the past forty years. As a user of the precious metal the republic is said to outrank all other nations. The English mint only coined 1400 tons during the same period.

It is represented that there has not been one case of yellow fever in Havana in over two months. If American occupation of Cuba had done nothing else for the island than to suppress the yellow scourge, its people would have cause to be eternally grateful to the United States.

Lieutenant Zebulon M. Pike did something more in the west than to discover Pike's peak. Near Courtland, Kan., the corner stone was laid on July 4th of another monument to his fame. It is on the site of the Pawnee Indian capital where the American flag was raised September 29, 1896, on a pole from which the Spanish flag had just been hauled down.

The production of fuel oil in the wells of Southern California is rapidly increasing. The oil is being piped to the railroads that reach that part of the country. In a recent editorial the Chicago Tribune says that during the last year the California railroads consumed some 2,000,000 tons of coal at a cost of \$10,000,000, and that the substitution of oil as fuel will reduce this item of expense to \$5,000,000.

WILLIAMS FIRE.

The News appeared on the street with full particulars of the great fire in that enterprising Arizona town. The fire destroyed ten dwelling houses, two hotels and thirty-six business houses in the space of one hour.

The proprietor of the News made a telegraph operator climb a telegraph pole by moonlight, cut in and order a new outfit, before the fire of the old office had died down.

THE REGULAR ARMY.

With the close of the month of June all the volunteers in the military service of the United States went out of the service, under the army law. The same law fixes the strength of the regular army at 75,000 men. The president was given power to increase the army to 100,000 men if such action were necessary, but fortunately this increase was not necessary, owing to the virtual collapse of the Filipino insurrection.

For the present, the army will be stationed about as follows: Between 40,000 and 50,000 men in the Philippines; 5000 in Hawaii and Porto Rico; 5000 in Cuba, and the remainder at various points in the United States, principally in the cities of the sea board.

STATE CONSTITUTION.

After an enabling act for New Mexico has been passed by congress, the New Mexican says that the governor of the territory will call a constitutional convention to frame a constitution for the new state, and both political parties and their respective central committees must see to it that the very best, ablest and wisest men are elected to the convention. The document they will frame is to be the keystone of New Mexico's future greatness and all must see to it that the best minds frame it and place there the safeguards that the people want. There can be no more important thing to a people than the framing of their constitution, so let all who have original ideas take notes of them and introduce them in the convention if they happen to be a member or else through some member so that the idea may not be lost if it is worth saving.

SHEEP CENSUS.

One year ago the American Protective Tariff League completed its "sheep census" for the United States, and the compilation of the reports received showed some remarkable results. Contrasted with the year 1896, of the free wool period, under the Wilson tariff, the census for 1900 showed a gain of 71.44 per cent. in the total number of sheep owned, and a gain of 129.59 per cent. in the average value per head.

But this, as is explained by the

A postoffice has been established at Socorro, this county, with Joseph C. Armstrong as postmaster.

The citizens of Socorro have, at the suggestion of Superintendent Elfraga Bago, decided to erect a new school house.

Hon. Daniel H. McMillan was in the city attending to official business. Judge McMillan and family contemplate a trip east during the summer, the trip being followed by a visit at the Pan-American exposition.

Prof. E. A. Jones returned from Las Cruces and vicinity, where he did some work in connection with the United States geological survey. On the trip Prof. Jones collected about 150 pounds of mineral specimens for the school of mines cabinet.

Died, in this county, Wednesday, July 2, 1901, W. B. Westlake, aged 81 years. Funeral services were conducted at the family residence and the remains were followed to their resting place in Socorro cemetery by a goodly number of relatives and friends.

SHOPIAN IN ALASKA.

Former Santa Fe Carpenter Gets \$6 a Day at Trade.

Evans Evans, gang foreman in the car sheds, has received a letter from Stanley Maddrell, a former carpenter in the coach shop here. Maddrell wrote from Porcupine City, Alaska, where he is working at his trade and receiving \$6 per day and board.

He has the offer of this same job for the next six months, but when he wrote was thinking of going to Nome. Of conditions in the gold country Maddrell spoke rather favorably. He said that a good many miners with only a pick and shovel had been known to clear from eight to ten thousand dollars in two or three months. In a great many cases, however, the mineral is too far below the surface to be reached by hand and as individual miners haven't the machinery they are compelled to sell their claims to companies. The claim owners who dispose of valuable mining property for as much as \$10,000 are considered poor men in that country. This is partially explainable when it is remembered that living in Alaska is so much higher than in the states. He also sent a copy of the Dawson Weekly News, an interesting and fairly well edited paper. Maddrell left Topeka about a year ago and for a while worked at Salt Lake City and Seattle. He has been in Alaska about two months. Maddrell has many acquaintances here—Topeka State Journal.

Miss Marie Bruton will locate at Biebee, Ariz., and teach music.

The San Marcial park is gay with flowers and presents a spectacle very pleasing to the eye.

Lightning struck a tree near which were piled a hundred cords of wood yesterday afternoon. The wood was destroyed, but the tree was not.

Sherriff Blackington has a letter in his possession recently written by a party residing in San Marcial. The writer undertook the task of calling the sheriff's attention to the supposed violation of a certain statute, but lacked the necessary heroic qualities to sign his or her own name, signing instead the name of the school board, thereby committing forgery and perpetrating a greater violation of the law than the one complained of.

Deming, July 6.—County Commissioner William Taylor, of Allison, was here last week attending the commissioners' meeting.

The bill for those new steel cages for the county jail has been received and ere long they will be in place.

Earnest Roundtree has returned to his old standing ground after quite a lengthy stay in other parts.

Mr. and Mrs. Birchfield cattle were loaded out of the Deming stock yards last Monday. They were billed for Denver and S. A. Birchfield was in charge of the sale.

The stock yards have been in demand of late. Last Monday the cowboys were compelled to keep one another away from the pens on account of the lack of room in the pens.

W. P. Birchfield left for Colorado on Tuesday evening's passenger for Colorado, where he will attend to the sale of his cattle which preceded him one day.

The Bank hotel under the new management is doing a fine business. On almost every day since Mrs. Rathel has been in charge she has been compelled to turn away custom because all of the rooms were filled.

Mr. and Mrs. William Leffer came in from Cook's to spend the Fourth in the town from whence many go but always return, even though sometimes it be for only a visit.

Mrs. E. R. Nunn, after spending the Fourth with relatives in this city, was accompanied to her home on the Fourth by her husband, Mr. Nunn, who will spend a week with her.

Henry Meyer, the well known local stock buyer, purchased a fine lot of cattle on Saturday evening and on Sunday morning he was in the city in which he is now located, and in a short time will erect a store building thereon which will be worthy of the location.

A big storm, or rather a young cyclone, struck Deming at about 11 o'clock last Saturday evening and certainly did much damage. No serious damage was done, however, and in a little time everything looked the same as before the storm.

Luna county celebrated the Fourth in grand old style. Not only did the county seat do herself proud, but the whole county, away up on the Mineros and even to the south, was in on the fun. To Deming the program was a good one and was well carried out.

Will Deemer was the winner of the sack race; Wallace Wamel and Wheeler Goodfellow of the potato race; Elmore Keith and Lee Upton of the foot race; Wright Lawton and Emmet Connolly of the obstruction race; and Harry Wharton and Weaver of the burro race. Wright Lawton's extraordinary agility and a remarkable vault over the high obstruction won him the money.

Alec Wilson, the winner of the roping contest, did very pretty work, and Chas. Hinyard, the second money man, deserved better luck than he had.

The "man with the lightning walk" and his horse race might have been better, but were good as they were. The Deming horse took the laurels from the "man with the lightning walk" and consequently all were satisfied. There were several good horses on the track which were not entered in the races for reasons unknown.

Luna county had a very enjoyable Fourth.

Cattle Shipments Decreased.
When P. J. Towner, the Colorado cattle dealer, was in the territory, was here last Saturday he stated that the shipments of cattle from the south-west into Colorado had greatly decreased during the past three months and gave the following figures:

April, 1900, 8543 head; May, 1900, 76,177 head; June, 1900, 46,167 head; total, 1900, 124,887 head.
April, 1901, 1976 head; May, 1901, 22,213 head; June, 1901, 23,665 head; total, 1901, 54,854 head.
This shows a falling off of 70,023 head from 1900 and 103,112 head from 1899, which does not appear in the above.

When you want a modern, up-to-date physio, try Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. Price, 25 cents. Samples free at all drug stores.

EDUCATION OF INDIAN WOMEN.

Will Be Made at National Educational Association Convention.
Miss M. J. D. Smith, Inspector of the Pueblo Indian schools in this territory, left the territory last Friday for Detroit, Mich., where she will attend a meeting of the National Educational Association to be held during this week and will read a paper: "The Future of the Pueblo." One of the most interesting features of the meeting will be an exhibit of Pueblo Indian work which has been carefully collected by Miss D. Smith and Superintendent C. J. Crandall of Santa Fe, and R. P. Collins of Albuquerque. The specimens of drawn work, basketry, pottery, etc., which she will exhibit, are the work of the Pueblo Indians in their native arts, while the specimens of their school work will show the advancement they are making in education under the present excellent corps of school teachers in the various New Mexico pueblos. Miss D. Smith also carried with her as a part of this exhibit a unique collection of photographs, many taken by herself, showing the various phases of Pueblo life and the points of scientific interest in and around the pueblos. It is believed that this exhibit will not only do much toward awakening interest in the Pueblo Indians but also in swelling the tide of tourist travel toward New Mexico and its many points of historic interest.

"The Cupples," of Albuquerque, heretofore known as the Brownes, have just left, having made a challenge to the alleged "Champions" at Santa Fe.

THE PLAIN TRUTH!

We might as well tell it. No use to make excuses, to say that we want to make room for other goods, or to change around in some way, or to take stock, or this or the other excuse for price reductions.

We Need Money!

Too heavy a Spring Stock, too backward a season, business a little bit slow, customers holding off, and a big Fall and Winter Stock to be purchased—that is our story.

Our Summer Goods Must Go!

We here quote a few prices which speak for themselves. We are overstocked on Summer Clothing, Shirts, Underwear and Hats and are bound to close out everything in the way of Summer Goods.

Study Those Green Tags.
