## THE BIG STRIKE.

Struggle Expected to  
be to a Finish.

Exciting Boat Races at Pough-  
keepsie, N. Y.

Gen. Grosvenor Says That He Was  
Misquoted in Interview.

ANOTHER BUFFALO BANK FAILURE.

Pittsburg, Pa., July 2.—The second day of the strike of the sheet steel and steel hoop workers and the Amalgamated association opened without interesting or exciting features. It was evident that neither side anticipated early developments. As President Shafer remarked, the conditions of the present strike were peculiar and no decided results were expected for ten days or two weeks. By that time the manufacturers having all necessary repairs to their mills completed would be anxious to resume operations. President Shafer mailed a circular to association lodges today directing the lodges to lay assessments upon members of the association out of work. The association now has a fund of nearly \$300,000.

COLLEGE REGATTA.

Exciting Boat Races at Poughkeepsie  
on the Hudson.  
Poughkeepsie, N. Y., July 2.—The inter-collegiate regatta opened intensely hot with scarcely a breath of air stirring. The college men declared that the racing should be delayed until the sun had begun to go down behind the hills. The races will be as follows: Four-oared race between Columbia, Cornell and Pennsylvania; Freshman eight-oared race between Columbia, Cornell, Pennsylvania, Syracuse and Wisconsin; University eight-oared race between Columbia, Cornell, Georgetown, Pennsylvania, Syracuse and Wisconsin.

The first event occurred at 11 o'clock, when Clinton, Gowin, of Syracuse class of 1903, rowed over the mile and a half course against time in 9:31 3/5, pretty fair time, considering the intense heat.

Cornell won four-oared race. Unofficial time: 11:36 1/2. Pennsylvania second, 11:45 1/2; Columbia third, time 11:51 3/4.

Official time: Cornell first, time 11:39 3/5; Pennsylvania second, time 11:45 2/5; Columbia third, time 11:51 3/4.

Official time: Pennsylvania first, time 10:20 1/5, by half a length; Cornell second by two lengths, time 10:23; Columbia third, time 10:38 1/5; Syracuse fourth by two lengths, time 10:44.

Cornell won varsity race, Columbia second, Wisconsin third, Georgia fourth, Pennsylvania fifth.

HE WAS MISQUOTED.

The Ohio Congressman Explains His  
Third Term.  
Kansas City, July 2.—General Chas. H. Grosvenor, of Ohio, speaking to a reporter of his utterances regarding the third term, said: "I was misquoted. The interview published was a distortion of a mere statement of an historical fact regarding Washington's reasons for not accepting a third term, which I made to a party of young men. I will not say and I have not said whether I think Mr. McKinley should be again, but I say in my judgment no man will ever be elected to a third term." Grosvenor is en route to Winfield, Kan., where he will deliver an address on July 4th.

Another Bank Failure.

Buffalo, N. Y., July 2.—The Niagara bank, a state institution, has closed its doors. F. D. Kilburn, superintendent of banks, has taken possession. The Niagara bank was organized in 1891 with a capital of \$100,000. The officers are: President, H. S. Griffin; vice president, M. M. Barker; cashier, Wm. Traylor. The chairman of the clearing house committee, S. M. Clement, said this morning it should be distinctly understood the closing of the Niagara bank today has been brought about solely by reason of its close connection with the City National bank, its president having been vice president of the City National.

and that no other bank here is affected.

Mr. Kilburn, superintendent of banks, said: "I closed this bank because I think it insolvent. The main reason for its failure is the failure of the City National bank. This bank is involved in that to extent not yet to be announced, but I do not deem it safe to permit this one to continue business any longer."

Water Famine.

Huntington, W. Va., July 2.—This city has a water famine. Pumps are broken and the reservoirs are empty. Thousands of laborers are idle, as factories are unable to run. There is great suffering.

THREATENED WITH FIRE.

Huntington, W. Va., July 2.—The Adelphi hotel is burning. Because of the water famine the destruction of the entire town is threatened. At 3 o'clock the fire had destroyed the Adelphi hotel and about four squares in which it is located. Other residences are burning and fire engines have been called in from other towns to help fight the fire.

Declined Prosecution.

Washington, July 2.—The state department declined to prosecute the claim of Chas. S. Allen, American, against the government of Mexico. Allen was arrested for working on a broken water pipe in the street of Ensenada, without a permit from the municipality. The result of judicial proceedings was his final discharge by the supreme court, but he claimed damages for imprisonment. The state department adds there has been no denial of justice and if there had been malicious prosecution the local tribunals afford ample remedy.

Wool Market Better.

Boston, July 2.—The tone of the wool market here is improved, feeling is buoyant and buyers are now paying the price they received and refused to pay two weeks ago. Territory fine medium and fine staple is selling for 40c to 42c scoured, while 44c to 46c for staple article. Market for fleece wool is quiet and prices nominal.

Murderer Sentenced.

Rawlins, Wyo., July 2.—Judge Craig today sentenced Orlo McSwain, convicted of murdering James Taylor, of Baggs, Wyo., to twenty years in the penitentiary. George Moore, who killed James Edmunds at Hanna, Wyo., last winter, was sentenced to twenty years, having been convicted of murder in the second degree.

A Murderer Captured.

Phoenix, Ariz., July 2.—Shift Scarborough and posse, of Apache county, captured Tod Carver, alias Hilliard, charged with the murder of Frank Leslie, at Isata, Ariz., twenty years in the penitentiary. Carver, four years ago, the officers pursued Carver all over Texas, New Mexico and Arizona.

MARKET QUOTATIONS.

Market quotations and review furnished by W. F. Metcalf, No. 5 Cornwell block, received over the private wire of F. G. Logan:

New York, July 2.—The fullest day of the year. The extreme heat factor, London sold a few stocks. Steel stocks met with good support and officials say the strike will not spread. Action may be taken on dividend today inasmuch as time was postponed from 11 till 3 o'clock.

Later—The United States Steel company declared 1 per cent on the common stock.

## TERRIBLE HEAT.

Deaths Numerous From  
the Torrid Weather.

Prostrations Reported From  
Various Cities.

New York City Suffers Most From  
the Excessive Heat.

TORNADO IN KENTUCKY.

New York, July 2.—At 5 o'clock the temperature of the weather bureau thermometer was 88. At the same hour yesterday it was 83 degrees. On the street the thermometers registered 94. There was no breeze to aid the suffering. The humidity was 59 per cent. Between 2 and 3 a. m. fourteen adults died of heat on Manhattan island. The prostrations were so numerous that it was impossible to keep a complete record.

HOTTER THAN YESTERDAY.

New York, July 2.—The weather bureau thermometer was at the 95 mark at 10 a. m., six degrees higher than at 10 o'clock yesterday. So many horses have been killed or disabled by heat that deliveries of provisions and ice were much retarded today, thus adding to the discomfort and suffering.

At 11 o'clock the police department lists showed from midnight to that time a total of 53 deaths from heat had been reported in Greater New York. Nearly all the dead are adults.

In Brooklyn thirty sudden deaths were reported at the coroner's office between midnight and 9 a. m., and of these seventeen were directly due to heat.

At 1 o'clock the total number of deaths from heat in Greater New York was 62. Business everywhere in town is much retarded. Yesterday's highest temperature, 98 1/2 at 3 p. m., was equalled at 1 p. m. today. There were eight deaths caused by excessive heat in Jersey City between midnight and noon. All families of Jersey City have been forced to close until the hot spell passes. The Clark thread mills and all other factories and foundries on Harrison, Kearney and Arlington streets closed. The North Jersey factory closed down. Many concerns of Newark, Patterson, Passaic and New Brunswick closed.

TWELVE DEATHS.

Philadelphia, July 2.—Hot weather continued today with unabated intensity. Minimum temperature during the night was 85. Since 1:30 this morning twelve deaths and about fifty prostrations have been reported. At 11 o'clock the government thermometer on top of the postoffice building registered 95 degrees, while those on the street varied from 99 to 102. Thirteen deaths occurred and over a hundred prostrations reported.

At 12 o'clock the official thermometer recorded 100 degrees, one degree more than the same hour yesterday. During the morning the Baldwin locomotive works closed the flange, machine and hammer shops. John A. Hobson's big carpet mills closed down, 1200 employees being sent home.

At 2 p. m. the weather bureau thermometer registered 101 1/2. Six deaths from heat reported and hundreds of prostrations cases under treatment. One hospital has over 100 cases.

TERRIBLE AT PITTSBURGH.

Pittsburgh, July 2.—Twelve deaths and 60 prostrations from heat were reported between midnight last night and 11 o'clock this morning, making numerous fatalities. In twenty-four hours. Thousands of persons in the tenement districts sleep in hallways or on stone steps, brick pavements and even in the street. At 8 o'clock this morning the mercury stood 78, 6 degrees cooler than same hour yesterday and at 11 o'clock it had risen to 86. Indications are for thunder showers and lower temperature tomorrow.

Fifty-two men were prostrated with heat in the finishing mills of the Homestead Steel works during the night. This morning the mills were compelled to shut down on account of the heat.

COOLER AT ST. LOUIS.

St. Louis, July 2.—It was six degrees cooler at 5 a. m. than at the same hour yesterday, but another scorching was predicted. Two deaths were reported this morning.

Thirty-three persons are in the city hospital, suffering from heat prostrations. Two cases resulted fatally. It is probable many more cases are being treated at residences. At 12 o'clock the temperature stood 94 in the shade, while on the streets it was 10 degrees higher.

HOT IN CHICAGO.

Chicago, July 2.—Notwithstanding the somewhat diminished heat last evening, thermometers at 5 a. m. registered 86.

John Leidler, lawyer, was overcome by heat and taken to a hospital unconscious.

A HOT TOWN.

Kansas City, July 2.—At 8 o'clock the weather bureau thermometer registered 84. Notwithstanding the extreme heat there have been no prostrations in Kansas City in the last 24 hours.

FOUR DEATHS.

Baltimore, Md., July 2.—The thermometer at 1 o'clock registered 102. Four deaths and thirty-two cases of prostration reported.

NEW ENGLAND A FURNACE.

Boston, July 2.—Reports from New England points indicated no abatement of the hot wave. Temperatures were reported from 84 to 90 degrees.

WARM IN BOSTON.

Boston, July 2.—Weather conditions here were improved in a very slight degree early today, the thermometer standing at 84.

HOT NIGHT.

Washington, July 2.—The hot wave continued with little abated severity today. At 9:30 the official thermometer at the weather bureau recorded 89. The night was insufferably hot. No heat prostrations reported.

WARM IN ENGLAND.

London, July 2.—While the weather in England is temperate, continental

telegrams continue to report ravages of heat and storm. Deaths from sunstroke are numerous. In an Italian regiment marching from Pisa to Leghorn yesterday there were thirty cases of sunstroke, while many soldiers were overcome from exhaustion.

WEATHER BUREAU BULLETIN.

Washington, July 2.—The weather bureau has issued the following special bulletin: There are no present indications of a permanent high pressure wave which covers the country generally east of the Rocky mountains. Local rains and thunder storms will furnish temporary relief in the lower lake region and upper Ohio valley, and the mountain districts of Pennsylvania, Maryland, West Virginia and Virginia, and there is a possibility that these local rains may occur in limited areas of the Atlantic coast states.

H. E. WILLIAMS, Acting Chief.

Tornado.

Middlesboro, Ky., July 2.—A violent storm resembling a tornado wrought havoc across Cumberland Gap, Powell's valley. Half dozen farm houses demolished together with a large number of barns. Perry Smith was killed by lightning.

Opening Proclamation.

Washington, July 2.—Secretary Hitchcock informed the cabinet today the proclamation for opening the Kiowa, Comanche and Apache Indian reservations of Oklahoma was completed. It will be issued tomorrow evening or July 4th.

THE CITY COUNCIL.

A Busy Session for the Members—Considerable Business Transacted.

At the regular meeting of the city council last night all members were present excepting Mayor O. N. Marron, Aldermen McMillen and W. P. Powers, the chair being occupied by Alderman Frank McKee.

Minutes of the last regular meeting were read and no objections being offered for any alterations they were approved as read. The most conservative estimates places the loss at one million dollars. A very small per cent is covered by insurance.

SALESMAN GONE.

Nathan Barth, of this city, received this morning the following dispatch from Max Salzman, a big merchant of Williams: "Big fire; everything gone; four blocks wiped out; myself included."

LODGING HOUSE BURNED.

Two Dead and Several Fatally Injured by Fire.

Butte, Mont., July 2.—Two dead and two severely if not fatally injured and a score or more hurt as the result of a fire in the Pullman lodging house this morning dead: Sam Mix, a waiter, of Missoula, Mont.; Ole Berg, a carpenter, of Butte. Severely injured: Billy Tran, better known as "Australian Ryan," puglist, jumped from a third-story window. The fire was caused by the explosion of a gasolene lamp in the saloon on the lower floor.

Massacring Armenians.

Constantinople, July 2.—Reports from Mush in Kurdistan, say that the Kurds are plundering the villages and have killed fourteen Armenians in consequence. It is the general belief that the latter murdered a Kurdish notable, who was sheriff of Aghan.

Jesus Struck.

Des Moines, Ia., July 2.—A severe wind storm passed over central Iowa last evening, doing considerable damage to farm property and crops. In Perry, Ia., the roof of the South hotel, a three-story brick structure, was blown off. In Cambridge the wind tore Lamont Bros.' circus tent to pieces.

Found Dead.

New York, July 2.—Jacob S. Rogers, formerly owner of the Rogers locomotive works of Patterson, N. J., was found dead in his room at the Union League club in this city today.

Killed by Lightning.

Saginaw, Mich., July 2.—George Davenport, former state senator, was killed by lightning today.

Resigned.

New York, July 2.—Lieutenant J. P. Scott, of the revenue marine service, who distinguished himself at the rescue of persons on the disabled torpedo boat Winslow, off Cardenas, May 11, 1898, has resigned and gone into the railroad business under J. C. Pollock, foreign freight agent of the Pennsylvania railroad.

KURDS MASSACRING ARMENIANS.

Special to The Citizen.

Williams, A. T., July 2.—Williams, so far as the business portion of the town is concerned, is practically wiped off the face of the earth. Fire broke out in the store of T. A. Fleming from a lamp that was left burning on account of a defect in the electric plant last night. The losses so far as the principal cases are concerned stand about as follows:

J. P. Parker, owner Hotel Telford, \$35,000; Geo. O. Young, Williams News office building, \$10,000; M. Salzman, \$108,000; Polson Bros., \$50,000; M. L. Ramsey, \$25,000; T. A. Fleming, \$25,000; W. A. Dodson, \$6,000; G. W. Martin, \$2,800; Wm. Hayward, \$12,000; J. C. Phelan, \$2,000; Joe Johnson, \$2,000; E. M. Twitty, \$3,000; Jas. Walsh, \$1,000; Julius Wetzel, \$6,000; P. Sweetwood, \$3,000; Cap. F. Smith & Co., \$1,000; Harry Lock, \$2,500; Attorney Ashurst, \$2,500.

These are among the principal losses. It is impossible at this writing to get the exact loss, but the most conservative estimates places the loss at one million dollars. A very small per cent is covered by insurance.

Most of us can face a flaming  
barrier or light a frowning world with-  
out the quiver of an eyelid, but the  
death of a little child unlocks the  
hearts of all those who witness the  
wondrous change.

Judge Jenks, of the New York su-  
preme court, puts an old trick in a  
new way in this manner: "The man  
with the furrows on his brow wins  
against the man with green in his  
trousers every time."

There are 2567 public schools in  
Cuba in which 3583 teachers are em-  
ployed. The enrollment of children is  
172,273 and the average attendance  
reaches 122,622 daily. With this edu-  
cational equipment it will not take  
many years to Americanize Cuba.

The Honolulu Bulletin says that ac-  
cording to the late supreme court de-  
cision, American citizens in the ter-  
ritories are in duty bound to cele-  
brate the anniversary of Indepen-  
dence day subject to the will of con-  
gress.

One of the longest and direst sen-  
tences ever pronounced upon a crim-  
inal is probably contained in the de-  
cision of a judge in Naples, inflicted  
recently upon an Italian adventurer who  
pleaded guilty to and was convicted of  
sixty-four different felonies. The  
judge figured up the penalties and of-  
ficially sentenced the prisoner to 108  
years' solitary confinement.

Captain A. F. Lucas, the discoverer  
of oil in Beaumont, Texas, who is said  
to be worth \$10,000,000, was practi-  
cally penniless a year ago. Though  
a mining engineer and geologist by  
profession, he was a railroad con-  
tractor for a number of years. After  
losing his place about two years ago,  
he drifted about and finally went to  
Beaumont. He succeeded in interest-  
ing some capitalists in the region, and  
the celebrated Lucas gusher was soon  
struck.

A handsome model of the new pro-  
tected cruiser Denver has been set  
up in a corridor of the navy depart-  
ment, where it has attracted atten-  
tion by reason of its trimness. The  
model represents not only the Denver,  
but also the Cleveland, Des Moines,  
Chattanooga, Galveston and Tacoma,  
which are exact counterparts. These  
vessels will have graceful lines, two  
tall, raking masts and the general ap-  
pearance of an ocean yacht of large dimen-  
sions.

**WATER ON THE DESERT.**  
Drilling the earth on the Mohave de-  
sert in search of petroleum has re-  
sulted in the development of a supply  
of artesian water which will doubt-  
less prove to be more valuable than  
oil. The discovery has been made  
near Victor, a mining town located  
in the heart of the desert on the Col-  
ton-Barstow branch of the Santa Fe  
system, midway between those two  
places. Prospecting for oil has been  
in progress there for several weeks,  
as it is on the line of the supposed  
extension of the Kern river belt.  
Three wells have struck a strong ar-  
tesian flow of water within the past  
week. All of them are represented to  
be gushers. The last of the three  
penetrated to the water belt at a depth  
of 185 feet and it is yielding a steady  
stream of 215 miners' inches. It  
emerges from the earth with a rub-  
ber stopper that appears to be rubber  
furnishing all the qualities of that  
article. Nevertheless, it was made of  
corn, and it is said the makers of  
this commodity are successfully com-  
peting with the natural product. Sam-

plus of vanilla made from corn are  
on exhibition. Oils, made from this  
grain, which are used as substitutes  
for olive and peanut oils, are also  
there. The color of the corn oil is  
identical with the olive oil, and it so  
closely resembles the imported prod-  
uct it would trouble an expert to tell  
the difference between them. This  
oil now has a large sale. There are  
a large number of samples of cellulose,  
used to prevent the sinking of ships.  
Paper made from corn, grape fruit,  
corn flour, which is as white as wheat  
flour, and which is produced by thou-  
sands of tons, as well as glucose, used  
for so many purposes, are also found  
in this exhibit. In fact the list of  
products of corn is so long it would  
require considerable space to enu-  
merate them. Yet, according to the of-  
ficers of the department, corn has by  
no means reached its top notch, and  
experiments are now being conducted  
with a view of doubling, if possible,  
its production per acre.

### Interesting Information Regarding Railroad Officials and Employees.

#### NEWS IN ABBREVIATED FORM.

After a sickness of several weeks,  
Edward Kremer has returned to work  
in the local shops.

The new boiler maker at the local  
shops is Robert W. Denny, and he  
hails from Raton.

Engines Nos. 779 and 382, just out  
of the local shops, will be sent to  
the Needles division.

T. J. Helm, general agent of the  
Denver & Rio Grande at Santa Fe,  
was a west bound passenger last  
night.

Attorney T. J. Norton, assistant so-  
licitor for the Santa Fe Pacific rail-  
way, is in Williams on legal business  
today.

The night watchman at the new hotel  
and depot is W. E. McClure, for-  
merly baggage master on the Santa  
Fe Pacific.

L. P. Wicklaid has gone to Winslow  
to accept a position in the freight de-  
partment of the Santa Fe Pacific at  
that place.

Engineer Tibbitts, of San Marcial,  
is at the Sulphur springs in Bernadillo  
county. Ensign (Cassidy) is in the freight  
department of the Santa Fe Pacific at  
that place.

Conductor R. Davidson and G. D.  
Carter, running out of Las Vegas,  
were arriving in Bland Wednesday on  
their way to the Sulphur springs.

R. L. Loo, who was lunch counter  
boy at San Marcial some years ago,  
is the new manager of the San Mar-  
cial Harvey house. He has a wife and  
baby.

W. G. Smith, a local shop machin-  
ist, is taking a lay off. He was out  
bicycle riding the other evening and  
was thrown to the ground, sustaining  
several lacerations.

W. E. Spade, a Santa Fe fireman  
who has many friends, took a lay off  
last week, went to Raton, met a young  
lady friend, and returned to San Mar-  
cial with a good looking bride.

A box car in a freight train from  
the west came into Kingman the other  
morning in flames. The car was run-  
ning under the water tank and the fire  
extinguished without much damage.

John Hallum, who was badly in-  
jured in the wreck near Carrizozo ten  
days ago, and has since been confined  
to the Alamosa hospital, is doing nicely  
and his recovery is now assured.

The Citizen is in receipt of a small  
box of lead and zinc ores from the  
Kansas-Missouri-Arkansas mining re-  
gion. The box was sent with the com-  
ments of the El Paso Line which trans-  
ported the material and is doing  
much towards its development.

The old San Marcial freight depot  
has been abandoned by the railroad  
company. The downtown building  
now serves the purpose of passenger  
depot, offices, baggage room, freight  
office and freight room. The new ar-  
rangement is satisfactory to the citi-  
zens.

While the citizens of Amarillo are  
preparing to receive the Fort Worth  
shoppers, they are also alert to the  
"signs of the times" and with a  
glad enthusiastic spirit have opened  
their arms to the Chevrolet, Olds  
and Buick cars which are now  
within 100 miles of their city. Let the  
good work go on.

H. G. Ross, who has been doing  
some railroad building on the Ariz-  
ona-Southern, quit his work last  
week, the allowances not being satis-  
factory, moving his outfit to Stein's  
place, where he will be in the car  
and taken to Vails, where he has a  
contract to do some work for the  
Southern Pacific.

Work was suspended for a few days  
at the El Paso & Northern extension  
on account of water famine. The  
gasoline engine which does the pump-  
ing for these cuttings broke down and  
they were compelled to drive their  
horses, 150 head, ten miles to Quin-  
liven's to the camp to water.

The Topeka State Journal says  
of the general manager of the  
Santa Fe Pacific and Southern Califor-  
nia, at Los Angeles, passed through  
Topeka Thursday afternoon in his pri-  
vate car, No. 38. Mr. Wells was ac-  
panied by the members of his family,  
who will stop at St. Joseph and visit  
relatives while he goes on to Chicago.

The trip is a business one.  
This evening, at the Knights of  
Pythias hall on Gold avenue a general  
meeting of railway employees will be  
held, for the purpose of discussing  
plans for the organization here of a  
chapter of the new Order of Railway  
Employees which was recently launched  
at San Francisco. It is hoped by those  
in charge of the meeting that the  
gathering of local railway employees  
attend tonight's meeting.

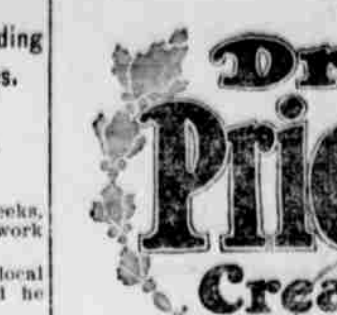

The Santa Fe has recently issued an  
attractive folder on the Pan-American  
exposition, using the new Santa Fe  
trade-mark in combination with the  
"two Americas" design used by the  
exposition authorities. The folder will  
be distributed through the west and  
south, and is expected to bring a con-  
siderable amount of business to Buf-  
falo before the end of the summer.

A similar folder in Spanish was dis-  
tributed in Mexico during the spring.  
The Lordsburg Liberal says:  
The Southern Pacific's gang of tank build-  
ers have arrived and commenced work  
on the new oil tank. It will be located  
near the round house and will have a  
capacity of a million gallons. When  
this tank is completed all the engines  
between Los Angeles and El Paso will  
be changed from coal burners to oil  
burners. Small tanks having a capac-  
ity of some 50,000 gallons will be placed  
at such points as Canyon, Deming  
and San Simon, from which oil can  
be drawn in case of an emergency.

Several boys at the local shops have  
requested The Citizen to publish a  
fact that all arrangements have been  
perfected for the machinists' picnic.  
The committee submits the following:  
Buckle call at 5 a. m.; meet at city  
park and depart at 5 a. m.; arrive at  
picnic grounds at 8 a. m.; introductory  
speech; grand chorus, national hymn;  
refreshments; foot race, for men;  
prize sack race, for men; viewing  
scenery; refreshments; game of  
quarto; grand dinner; chorus; re-  
freshments; blind cow game; chorus;  
prize sack race, for men; dancing will  
continue the entire day.

Plans have been prepared for two  
new special cars that are to be con-  
structed at Topeka, presumably be-  
fore a great while. Work for the en-  
gineers in the coach shop has been  
slack for some time, and will prob-  
ably continue so for a few weeks yet.  
This is due to the fact that an up-  
dated passenger traffic is being  
handled by the Santa Fe. Last winter  
the number of people who traveled  
over this road increased unparal-  
leled because of the elegant ac-  
commodations which were offered win-  
ter tourists to the Pacific coast. The  
line was an extremely popular  
train, and proved a winner for the  
Santa Fe passenger department. But  
since the opening of summer the in-  
crease in number of people traveling  
has continued. Now most of the  
passenger equipment is out on the  
road, and perhaps will be for a few  
weeks or until after the Fourth. Then  
the coaches will begin coming in, busi-  
ness in the coach shop will pick up  
and the employees there will make  
good whatever time that has been  
lost.

## BIRTEWELL FUNERAL SERVICES.

Occurred This Morning—Body Will Be  
Shipped East—His Last Letter.

Funeral services over the remains  
of Francis J. Birtwell, whose tragic  
death on the upper Rio Pecos was  
chronicled in The Citizen last Satur-  
day and yesterday, took place at the  
strong undertaking parlors this morn-  
ing at 9 o'clock, there being present  
quite a large circle of friends. The  
services were conducted by Rev. C.  
A. Bunker. The remains will be  
taken to the depot tonight and in re-  
sponse to a telegram will be shipped  
to Dorchester, Mass. for interment.  
Mrs. Birtwell, the young bride, will  
be unable to accompany the remains of  
her husband east.

## HIS LAST LETTER.

The Citizen received the following  
letter from the young gentleman,  
showing the interest he was taking  
in his favorite study when he met his  
death.

"Willis, N. M., June 16.—As you may  
already know, I have in process of  
completion a somewhat elaborate work  
entitled 'The History of the World's  
Geography.' Besides containing supple-

### LOCAL PARAGRAPHS

Fred Miller arrived in the city last night from Rowe station on a visit to friends.

This morning J. H. Kuhns left for Chicago and other cities, with his son, Shirley.

Wanted—A boy, by Painted C. A. Hudson; apprentice painter. Inquire at once.

Mrs. C. O. Cushman will spend the Fourth at Trinidad, Colo., returning on the 5th.

Thomas Hughes, Jr., will spend the Fourth at Las Vegas, with his friend, Jimmy Duncan.

Harmony Lodge No. 17, I. O. F., installation this evening. O. S. Pillsbury, secretary.

Mrs. William F. Switzer and children are out at Coyote Canyon springs, where they will remain for a few weeks.

Miss Julia Renison left last evening for the home of a relative in Salina, Cal., where she will enjoy the summer months.

B. Weiler, traveler for a wholesale grocery house of Denver, went up to the Cochiti district on one of his regular monthly trips.

The board of county commissioners held a meeting yesterday and after hearing complaints on tax assessments adjourned until July 11th.

S. G. Resp, who is connected with the New York Weekly Independent, has returned to his editorial duties after a sojourn of several weeks in this city.

Mrs. B. Fall and son, who experienced some of the hardships in the Alaska gold fields, after spending a short time in Albuquerque, left last evening for their home in Congress, Ariz.

Harmon Wynkoop, who was at Denver on a visit to his mother and other members of the family, returned to the city last night. He reports him- self feeling fine and his broken arm getting along nicely.

Miss Goodin, who is employed by the government as a teacher in an Indian school near Jemez, is among the late arrivals in the city. She is being entertained at the home of Mrs. J. W. Anderson.

R. P. Hall, treasurer of the new hospital fund, has returned from his visit to California and today placed in the First National bank the subscrip- tion papers. He hopes that every body who has not paid their subscrip- tion will go so as promptly as pos- sible.

C. E. Armstrong, of San Francisco, is in the city for the purpose of organizing a lodge of United Brother- hood of Railway Employees. The or- ganization will be effected this even- ing and Mr. Armstrong expects at least one hundred members at the first meeting.

The Farmington Hustler says that "2000 Navajo Indians from Arizona and the reservation will assist the people of Farmington, N. M., to celebrate the Fourth of July." To all who at- tend the celebration the fruit growers of Farmington will give free cherries to everybody.

The New Mexican has not announ- ced the death of Stephen Naughton, but knows here that "Gunsmack Billy," who was sent to the St. Vincent hos- pital a few months ago, but there is a rumor current here that the old man passed in his checks at the hospital a few days ago.

It takes Santa Fe to make claims that cannot be substantiated. The New Mexican says: "The Santa Fe base ball team claims to be the cham- pion team of New Mexico. It has won seven games, including games with the Albuquerque and the Las Vegas teams and has not lost a game this season."

The funeral of pretty little Gladys, the year-old daughter of Mr. and Mrs. Carlisle Hughes, took place at 3 o'clock this afternoon at the residence of Thomas Hughes, No. 204 south Wal- ter street. Rev. C. A. Bunker con- ducted the services. The remains of the precious little baby were buried in Fairview cemetery.

H. J. Ely, son of Judge E. A. Ely, of Petersburg, Ind., will leave next week for his old home in Hoonah, Alaska. He has been a resident of Albuquerque for the past two years and the cli- matic conditions are so favorable to his constitution that he has decided to call this place his home. He will re- turn on October 1st.

A. Borders, the west Gold avenue undertaker, received word from his son, Captain Borders, today stating that he had arrived at the Jemez springs and was fairly well, succeeding in heading off a threatened attack of rheumatism. The captain reports having gained a splendid ap- petite and as a result is taking on no small amount of tissue.

J. F. Luthy did not leave for Gallup last night as he intended. A telegram received at a late hour informing him that a trip to the oil lands had been postponed until next week. The ex- citement at Gallup still continues and the indications are growing brighter every day that oil will be struck and in good quantities out there in a very short time.

Prof. F. J. Wendell is thinking seri- ously of organizing an old timers' ath- letic club, to constitute the base ball players, the fire fighters, foot racers and heavy lifts of Albuquerque in-

## THE PLAIN TRUTH!

We might as well tell it. No use to make excuses, to say that we want to make room for other goods, or to change around in some way, or to take stock, or this or the other excuse for price reductions.

### We Need Money!

Too heavy a Spring Stock, too backward a season, bus- iness a little bit slow, customers holding off, and a big Fall and Winter Stock to be purchased—that is our story.

### Our Summer Goods Must Go!

We here quote a few prices which speak for themselves. We are overstocked on Summer Clothing, Shirts, Under- wear and Hats and are bound to close out everything in the way of Summer Goods.
