## MORE FAILURES.

### Stock Firm Makes an Assignment.

### Fletcher Heath Deposed as Official of Ohio Bank.

### British Soldiers in South Africa Like American Meats.

### NEW REVENUE WAR STAMPS.

New York, June 28.—The failure of Henry Marquand & Co. was announced on the stock exchange today. The firm made an assignment without preference to Frank Sullivan Smith. No statement of assets or liabilities was made. The failure was without appreciable effect on the stock market. Assignment Smith began a systematic investigation of the firm's books and impaired finances.

Frank B. Poor, partner of Marquand & Co., said Smith was in charge and that he could say nothing. At 10:30 Manager Doehere, of the clearing house, said all banks cleared as usual and no further difficulty is anticipated in banking circles. Henry W. Taft, of the attorneys for the assignee, made the first statement in behalf of the suspended house. He said: "I cannot at this time give any figures on the liabilities and assets of Marquand & Co. I believe the creditors will fare very well, unless there is a slaughtering of some of the firm's securities. I cannot say at this time anything as to the resumption of business by the firm. That will depend upon the developments of the next few days."

The firm consists of Henry Marquand and Frank B. Poor, son of the former president of the National Bank. Frank B. Poor, an assignee, is vice president and general counsel for the Pittsburgh, Shawmut & Northern. Henry Marquand is first vice president of the company.

The admitted embarrassment of the firm in connection with the Seventh National bank failure resulted in the wholesale calling in of stocks loaned them for delivery and they were obliged to buy heavily in open market to cover. At the same time the action of the clearing house committee and the controller of the currency put an official disapproval on the securities in which the firm had large investments and which figured as part of the collateral in the loan of \$1,000,000 from the Seventh National bank, and which caused the suspension of the bank.

The disturbance in the stock market caused by the embarrassment, which depressed prices, worked to the firm's advantage as far as known, as it showed profits on their contracts, but the blow to their credit deprived them of the advantage of these conditions.

One of the enterprises financed by H. Marquand & Co. is the Gas and Electric company of Bergen county. This stock, which is listed on the stock exchange, sold Monday for 10 1/2.

First sale this morning of 200 shares under rule of account of the failed firm was 30 on cash sale.

### HEATH REMOVED.

Ohio Bank Feared His Name and Took Prompt Action. Hamilton, Ohio, June 28.—The directors of the Hamilton National bank of Hamilton determined to remove all suspicion against their bank which might arise from the fact that Fletcher Heath, vice president of the Seventh National bank, New York, was also vice president of the Hamilton bank.

A meeting was promptly called and reorganization effected. Fletcher Heath was not only removed from the vice presidency but also from the board of directors.

### AMERICAN MEAT.

Although Prohibited, British Soldiers in South Africa. Washington, June 28.—In view of the temporary prohibition of American meat for military purposes in South Africa by the British government, Consul General Stowe, at Cape Town, has been making investigations with regard to the cause of restriction, and submitted results to the British government. The British enlisted men pronounce the American article satisfactory, and their officers stated in many cases the men preferred tinned meats to the poorer fresh article. "In fact, the only complaint made of the Ameri-

can article arose from improper care of it, after it reached the Transvaal."

**Wheat King Dead.** San Francisco, June 28.—William Dreesbach, known many years as the "Wheat King" died in this city today after a brief illness. He was known to shipping and wheat men all over the world. His age was about 75 years.

**RAILROAD OFFICIALS.** New Depot and Hotel Plans Submitted. Plans have been completed by Architect Whittlesley for a new two-story depot-hotel building to be erected at Seligman, Ariz., to take the place of the one destroyed by fire some time since. The new building will cost about \$15,000 and the hotel will be managed by the Harvey system.

**An Electric Light Plant.** The Santa Fe road, and Acting General Superintendent Hurley, of the Santa Fe Pacific, examined the plan last night, together with those drawn by Mr. Whittlesley for a Harvey "Curiosity Shop," to be built at Williams to meet the demand already created and gradually increasing for Navajo goods and other articles of curiosity, for which the territories are headquarters.

**With Messrs. Resig and Hurley.** last night arrived J. W. White, the recently appointed auditor for the Santa Fe system; Division Superintendent I. C. Hubbard and Assistant Superintendent J. F. McNally, of the San Marcial division. The presence of these gentlemen in Albuquerque is in connection with matters of road operations. It is understood the Santa Fe officials are putting up a \$30,000 electric plant on their grounds in this city for lighting purposes at the shops, depot and yards, as well as supplying the motive power to operate machinery for switching purposes, handling turntables and various other matters where machinery can be used to advantage.

**A Pretty Wool Sight.** This morning forty big wagons loaded with wool belonging to Hon. E. A. Miera arrived from the shearing pens of the Navajo district, and the caravan of wagons, as they wended their way down the principal thoroughfares of the city to the Purney corral, was a pretty sight. Half a dozen local buyers were present, making offers for the clip, and finally Mr. Miera sold the wool, amounting to over 70,000 pounds, at a price of 14 cents per pound. Half a dozen other wagons, who are the local representative of an extensive eastern wool-buying firm, Mr. Crawford is to be congratulated on the success of his trip. He is also a local market price, he secured the best grade of wool sheared this spring in the Navajo country. Mr. Miera will pay off his lenders in this city and for the next day or two Albuquerque merchants will reap quite a good trade from them. Several of the wagons will be loaded with general merchandise for the Miera store at Cuba. Mr. Miera will remain in the city, so as to be on hand at the regular meeting of the county commissioners in July. He must be at Cuba on July 4th, and will only hold a one-day session of the commissioners, next Monday.

**4th of July Excursions.** Excursion tickets will be sold as follows: Between all points in Colorado on the Santa Fe, New Mexico & Texas (El Paso line), one fare for the round trip; dates of sale, July 3d and 4th; return limit, July 24th.

Between stations on Santa Fe Pacific east of Needles, one fare for the round trip; dates of sale, July 4th and 5th; return limit, July 24th.

## OUR MILLIONAIRES.

### They Are Returning From Europe.

### Morgan Makes a Million Dollar Gift to Harvard.

### A Big Blunder in the Demand of the Powers on China.

### DENVER MINISTER IN CONTEMPT.

New York, June 28.—According to a dispatch from London to the Herald, when the steamship Deutschland leaves Southampton for New York today all the state rooms in the promenade decks will be exclusively reserved for ten millionaires traveling by her. These millionaires are: J. P. Morgan, Clinton Dawkins, Clement A. Griscom, Bernard A. Baker, Wm. E. Kins, William Widener, Harry Payne Whitney, Pierre Lorillard, Timothy L. Woodruff, John T. Waterbury. It is stated they formed a syndicate and chartered the entire boat for \$22,000.

**MORGAN'S GIFT.** London, June 28.—J. P. Morgan, when met by a correspondent, refused to go into details when asked regarding his gift of a million dollars to Harvard. He said: "I believe I could spend a million dollars usefully by giving it for this purpose, so I save it. I have the university teaching at heart."

**A Big Blunder.** Washington, June 28.—A curious discrepancy concerning the amount of Chinese indemnity has developed by which it appears China agreed to pay about \$50,000,000, or \$24,500,000 more than the United States demanded of all the powers. This appears to have been done in error of calculation at Peking, in the first place by those who made the demand, and in the second place by the Chinese in their hasty acceptance of the total. As made up, this total was \$50,000,000, but present calculations, after taking in all demands known, makes total only \$45,000,000. The question now arises what will become of the excess of \$5,000,000?

**Ministers in Contempt.** Denver, June 28.—Judge Palmer heard evidence in the district court today in the contempt proceedings against Rev. M. A. Rader and Rev. W. H. Talmage. The principal witnesses were newspaper reporters who interviewed the ministers concerning the injunction issued by the court in earlier cases. Judge Palmer ordered the two defendants to appear before him Monday morning, when they are expected he will announce his decision on the contempt charges and also whether the temporary injunctions granted to prevent interference with serving liquor in restaurants on Sunday and to women in the wine rooms shall be made permanent.

**THAT "BAD" CASE.** The Consumptive at the Depot was There of His Own Free Will. A man named H. C. Earle, aged about 45 years, suffering from consumption, came here about a week ago and for the past few days has made his headquarters about the depot platform, of his own free will. He was given milk by the Harvey house people and that was all that he wanted. Last night he was taken to the city building and a nurse provided for him. Earle was seen today by a citizen representative and said that his home was at Lancaster, Pa., but that he had not been there for thirty years; also that he had no relatives that he knew of, and that he had been many friends in this country. During the past few years he had been in Cuba acting as transportation master for the government. He was there and after being treated awhile was sent to New Mexico by the physicians. He has wandered about a great deal. A few days ago he had all his papers, but when taken to the city building he had \$1.75 in money. He had complained to no one and preferred being outdoors during the warm weather. The poor fellow is receiving all the care and attention possible, but can last but a few days. An effort was made to find the place of any where he stopped when he first came here, and also if his papers can be found. The sensational story published in this morning's paper was an unjust and unethical attack upon City Physician Pearce, City Marshal McMillin and others in authority, who are always ready and willing to help the distressed and render aid and charity when necessary, and there was no clash between them and the railroad people. Chavez decided to fall out backward to save himself, a feat which was accomplished successfully and assisted somewhat by the impetus derived from a vigorous pull on the wagon went to pieces, freeing the horse, which continued its flight until O'Reilly's drug store was reached, where he made an attempt to enter. Fortunately for the peace and dignity of the soda fountain and its patrons the animal fell as he reached the door, when Dr. Schmalzack, the giant and strong man, with rare presence of mind and quick as a flash fell on the horse's neck and by sheer muscular

force and weight held him down until the arrival of the city's chief conservator of the peace, who, with assistance readily volunteered by the assembled crowd removed the doctor from the position he had taken and at the same time so managed it as to lead the animal to the street, where he was taken in charge by his owner. No material damage was done to the drug store or the vehicle with which the Chavez wagon came in collision. The Chavez wagon came out a total wreck and was subsequently removed by a kindling delivery rig. The horse will be entered for the 4th of July races.

**MARKET QUOTATIONS.** Market quotations and review furnished by W. P. Motz, No. 5 Cromwell block, received over the private wire of F. G. Logan:

**New York, June 28.**—The closing out of the accounts of the firm whose suspension was announced this morning, created considerable activity in the market. The designs are small and short stocks caused advances in them and in sympathy the general list was also strong.

After these operations had been completed the market lapsed into dullness with sagging tendency, but there were no signs of any great pressure. The last hour trading again became active and some sharp advances occurred, particularly in the prominent railroad shares.

The traction, St. Paul, Union Pacific and Missouri Pacific might be called the leaders in the rally. Sugar, copper and the steel issues also moved up. Bergen Gas stocks, in which the involved firm was interested, furnished the sensation of the day with an extreme drop of about 70 points and only a recovery of about 15 points.

Tim and His Faithful Delivery Horse Create Much Excitement. About 4:30 o'clock yesterday afternoon Tim Chavez, the expressman, having a call to do some transfer work, mounted his wagon in front of Sturges' European and without noticing the harness grabbed the lines and gave his horse the "gee-up" signal. The animal responded with unusual alacrity, tearing down South First street at a record-breaking pace. The driver endeavored to control him, but speedily discovered he could do nothing, as the horse was beyond control, so far as ordinary methods were concerned. Realizing a smash-up was inevitable, as the horse had to fall, come in contact with a stone wall or be operated on with field ordinance before he could be stopped, Chavez decided to fall out backward to save himself, a feat which was accomplished successfully and assisted somewhat by the impetus derived from a vigorous pull on the wagon went to pieces, freeing the horse, which continued its flight until O'Reilly's drug store was reached, where he made an attempt to enter. ## FOREIGN NEWS.

### Coronation of King Edward Next June.

### Exciting Automobile Race for Miles in France.

### Report that the Pope is Ill is Entirely Unfounded.

### BANK DIRECTOR ARRESTED.

London, June 28.—A royal proclamation has been issued announcing the coronation of King Edward to take place June next. The exact date has not been determined upon. It was read this morning at St. James palace, Temple Bar and Royal Exchange, with all quaint, medieval scenes which marked the occasion of proclaiming the accession of the King. Crowds thronged the points at which the announcement was read. King Edward, Queen Alexandra and others of the royal party watched the ceremony at St. James with great interest.

100,000 ITALIAN BOOKS.  
Santa Fe's Vast Scheme for Bringing Italians to America.  
Speaking of the Santa Fe Italian colonization plan, the Chicago Record-Herald says:  
"The first step in the scheme was taken when Chevalier J. Spanier was appointed general agent for the company, with headquarters in Rome, Italy. Last week another step was taken, when a large number of Italian immigrants were sent to the United States. These immigrants are in the Italian language, and are plentifully illustrated with views taken from picturesque spots along the line of the Santa Fe in the states and territories mentioned. Special effort is to be made to colonize the San Joaquin Valley, which is one of the most fertile regions in the west."  
"Until recently most of the land in the valley was held in large ranches, but it is now becoming cut up, and it is possible to extend the farms at reasonable rates. The reading matter sent to Italy tells of the advantages of farming in the San Joaquin Valley, and also lays stress upon the fruit lands in southern California."  
"Another section to which attention is called, is composed of irrigated lands in Mexico, and where the plans are perfected the company may offer inducements for settlement in the Arkansas Valley of Colorado. Indian Agent Davis is of the opinion that California and Colorado have the brightest future of any of the western states. It is said to be the intention of the company to extend its colonization plans to other countries in Europe after the Italian agency becomes flourishing."
