"BOSS" SHEPPARD.

He Was Ambushed And
Shot at in Mexico.

Two Negroes Lynched by a
Mob in Louisiana.

Governor of Pennsylvania Signs
Corporation Franchise Bill.

ORDER TO BE MAINTAINED IN CHINA.

New York, June 20.—A special to the Times from El Paso, Texas, says: "Word has been received from Chihuahua that an attempt had been made to assassinate A. R. Sheppard, who did so much to build up the City of Washington during the administration of President Grant. Sheppard after leaving the District of Columbia many years ago went to a small settlement in the Republic of Mexico, where he since has been engaged in the mining business. Last Saturday Sheppard was shot at by a Mexican in ambush, the bullet grazing his head. Sheppard beat a hasty retreat and finally reached a hut. The neighborhood was searched for miles around and the following morning the assassin was captured."

NEGROES LYNCHED.
Two Negroes Murdered by a Mob in Louisiana.

New Orleans, La., June 20.—The lynching of two negroes last night near Shreveport created a sensation today, as with the excitement dying out it was thought their lives would be spared at least until the capture of Prince Edwards, who killed J. G. Foster on the Foster plantation. A special from Shreveport, however, says that evidence discovered so clearly establishing the guilt of Smith and McDaniel as enemies of the whites and a dangerous element to be left at large among negroes, that the capture of Foster regarded their execution as essential to the preservation of order in the parish.

Evidence obtained by the police showed the following facts: "The organization of which 'Prophet' Smith was the head, 13 in origin in Houston and was known as the 'Church of the Living God.' The members of a supreme council as indicated by the regular printed letter heads which were found, were Smith and McDaniel, who were lynched and Prince Edwards, the murderer of John Gray Foster. Smith, when he came to Louisiana, established himself at Shreveport but was ordered away by the chief of police as a dangerous character. After the shooting of the chief of police, Smith was lynched and an ark of the covenant, a rudely constructed box with hoodoo designs on and within it, was found by the police. The negroes were greatly terrified, and declared that no one had advanced far enough to lay hands on the sacred box."

Transit Bill Signed.
Harrisburg, Pa., June 20.—Governor Storer this morning signed supplemental rapid transit bill, which passed the house yesterday afternoon. One constitutes the governor, secretary of state and attorney general a board to pass on future applications for rapid transit charters, and the other removes antiquity from the original bill by providing that under one charter either an elevated or underground road, or both, or partly elevated and partly underground, may be constructed.

Chinese News.
Tien Tsin June 20.—Chinese troops, with permission of the alien forces, are occupying several small places in the neighborhood of Yang Tsun, recently vacated by foreign troops. General Laven-Campbell says that the delinquents in the recent difficulties between soldiers of the allies will be severely punished. Similar troubles are not likely to occur again. General Vayron, French commander, has heartily cooperated with the British commander and is determined, so far as the French are concerned, that order shall be maintained.

Act of Insane Man.
Bloomington, Ill., June 20.—At Brook, this county, yesterday, T. J. Reece, a farm hand, who had returned from two years' ranching in the west, shot and seriously wounded John Young, a prominent farmer, and then

CHAFFEE'S REPORT

Barbarous Acts of the

PRESIDENT AND WIFE GOING TO CANTON.

Washington, June 20.—The report of Major General Chaffee on the campaign in China is being prepared for publication at the war department. Some of Chaffee's comments are interesting. He says: "For about three weeks following the arrival of the relief column in Pekin, the condition in and about the city and along the line of communication was bad. The city, uncontrolled foraging of the surrounding country, and seizure by soldiers of everything a Chinaman might have, vegetables, eggs, chickens, sheep, cattle, etc., when being brought to the city or found on farms; indiscriminate and general unprovoked shooting of Chinese in the city and country, and along the line of march and in the river—all this did not tend, as was natural, to gain for the troops the confidence of the masses with whom it is certain, we have no quarrel, but were in need of their labor. It is safe to say that where one real boxer was killed since the capture of Pekin, fifty harmless coolies or laborers on the farms, including not a few women and children, have been slain. No doubt the boxer element is largely mixed with the mass of the population, and by slaying the lot, one or more boxers might be taken in."

Application Denied.
Washington, June 20.—Justice Bradley, in equity court, today denied an application of Lone Wolf and others for injunction against the secretary of the interior to restrain him from opening the Kiowa, Comanche and Apache lands in Oklahoma, to settlement. Without going into the facts of the case the court held that the question was purely a political one with which the court had no power to deal.

He was Hunting Trouble.
Berlin, June 20.—While the Crown Prince Frederick William was on his way from Minden to Bonn, an individual approached his carriage at Bochum, in Westphalia, and aimed a blow with a stick at the window at which he was seated. The individual, who described himself as a clerk, was arrested. He said he merely desired to see the crown prince more closely.

Philippine Governor.
Washington, June 20.—A civil government will be established in the Philippines on July 4th. Judge Wm. H. Taft will be designated civil governor. He will remain at the head of the military commission, which is to be continued. The order creating a civil governor will be issued by the president through the secretary of war.

Ballot Reform Bill Defeated.
Harrisburg, Pa., June 20.—The senate today defeated the ballot reform bill known as the Guffey bill. Democrats voted solidly against the bill because of the change made in committee by the republican majority, which they claim destroyed the reform features.

Storm in Missouri.
Boherville, Mo., June 20.—It was learned today that Toke Fish, colored, was the only prisoner killed in last night's storm. Ten or twelve others were injured slightly. Loss of property amounts to several thousand dollars.

Klondike Gold.
Seattle, Wash., June 20.—The first shipments of the season are now on the way from the Klondike. The sums, aggregating \$1,500,000, were started from Dawson June 14th on the river steamers.

MARKET QUOTATIONS.

Market quotations and review furnished by F. W. Metcalf, No. 5 Cromwell block, received over the private wire of F. G. Logan.
New York, June 20.—Stocks—(Dick Bros.) London came higher and the opening was strong. Advances were not maintained and traders hammered. Fears of a bad bank statement restricted demand, though a little recovery came. Union Pacific was bought at 111 and St. Paul around 175. Wabash debentures were sold on non-declaration of dividend.

Chicago, June 20.—Wheat—Liverpool unchanged. Weather through the southwest where harvesting is in progress continues slightly showery, but without any complaint from that quarter so far. This fact, however, has the effect of lessening the selling pressure on the market for the time being. Trade is small and the buying scattered and poor. The tendency of prices seem to be slowly downward. The seaboard reports fair business for export but presumably largely for future shipment. July wheat closed 69 3/4; September wheat closed 68 3/4.

Very Near a Conflagration.
There was an exciting time at W. Strong & Sons' this morning about 9 o'clock, and only very prompt and hard, dangerous work on the part of Frank and Harry Strong, Felix Giotto and the firemen prevented a large fire that would have destroyed valuable property. There was a leak at or near the gas meter under the stairway enclosed as a closet. A repair man from the gas company attempted to find and close the leak in working at the pipes he uncapped

MANILA MATTERS.

Forty Insurgents Killed
and Wounded.

Irrigation Scheme in Western
Colorado.

Fire in St. Louis Caused Loss of
Nearly \$200,000.

BOOY OF GEN. BARTLETT FOUND.

Manila, June 20.—It is estimated that forty insurgents were killed or wounded during recent engagements which occurred at Sorsogon and Albay provinces. Many insurgents are returning to their homes. Charges of theft and the sale of public property are made against a number of witnesses in the commissary cases.
Provost General Davis has submitted a plan for the municipal government of Manila. The United States Philippine commission is modifying it.

Big Irrigation Scheme.
Washington, June 20.—Acting under the general directions of Chief Hydrographer George Newell, surveying parties have begun work in the Gunnison river valley of western Colorado near Montrose, which looks to divert the river by means of a great tunnel through the mountain range into a dry and fertile valley.

Destructive Fire.
St. Louis, June 20.—Fire which originated in the establishment of J. B. Slicker Saddlery company, southwest corner of Twenty-first street and Washington avenue early this morning, consumed property and stock valued at almost \$200,000. The lossing firm are J. B. Slicker Saddlery company, Lambert Carriage company, Lambert Pharmaceutical company and several others.

Body Found.
New York, June 20.—The body of General Chas. Bartlett, one of the victims of the sinking ferryboat North-land last week, was found today in East river.

MISSOURI SOCIETY.
Adopted Constitution and By-Laws and Society Motto.

The Missouri society of this city met last evening at the office of the president of the society, Mr. C. C. Hall, and adopted a constitution and by-laws. The society now has about 175 members. A. A. Blackwell, of St. Louis, Pres. F. A. Jones, of St. Louis, Sec. T. N. Hinch, of Gallop; Chas. F. Enley, of Santa Fe, and J. H. Walker, of St. Louis, were elected vice presidents of the society. Arrangements will be made to give a banquet during the fall.

The society has adopted a motto: "You'll have to show us," which will be worn by each member of the society. It is "reckoned" that the society will have at least two hundred members in a few weeks.

New Mexico demands Statehood from the Fifty-Seventh Congress.

The New Mexico Territorial Fair will be held in Albuquerque from October 15th to October 19th. Premium List will aggregate \$10,000.

ALBUQUERQUE — JUNE 29, 1901

Between divine healers and ward healers Chicago is having a rocky time.

Governor Otero was born in St. Louis, Missouri, and he will be an active member of the Missouri society of this territory.

The battleship Illinois has broken all speed records, but when the battleship Missouri is ready for its tests it will cut a clean V shaped trail through the deep.

Since the Louisiana and Texas farmers learned to raise rice by irrigation they have invested \$5,000,000 in 1,500 miles of canals, capable of flooding 300,000 acres, and spent \$1,700,000 in building thirty modern rice mills. Under the new system rice lands pay a net profit of \$15 an acre.

Senator Andrews, of Pennsylvania, will arrive in this city on July 17th. He is the principal promoter of the proposed railroad from this city to a connection with the Rock Island road, east of this city. If he talks business when he gets here this city will meet any reasonable demand to secure the road.

MORE TOLERANT.

The growth of religious toleration in this generation was recently strikingly illustrated in Albany, N. Y., where ten children of Christian parents were baptized in the Jewish synagogue, Temple Beth Emeth. The incident grew out of the destruction by fire of the Trinity Methodist Episcopal church. Various churches in Albany were offered to the homeless congregation, but the hospitality of Temple Beth Emeth was one of the first to be offered and was accepted.

BUSINESS FOLLOWS THE FLAG.

Whether or not the constitution follows the American flag, the way in which commerce follows it is simply astonishing. Wherever the stars and stripes make their way a business boom breaks out. It was so in Alaska, and now the experience in the new tropical islands is the same. Reports just published show an increase of 21 per cent in imports and 48 per cent in exports in Philippine commerce, the exports having been \$19,372,839 during 1900, against \$12,755,605 during 1899.

CONSUMPTION.

Only during recent years has consumption been recognized as a contagious disease. Upon no malady to which mankind is heir has there been focused the searching scrutiny that has been given to the different phases of tuberculosis. Eminent specialists have given their thought for years exclusively to this subject, and while many contend that little has been learned, it cannot be denied that if taken in the incipient stages the disease can be overcome.

THE PAYMENT OF TAXES.

The date upon which the taxes for each year become delinquent. The following law relating to the payment of taxes was placed upon the statute books by the thirty-fourth legislative assembly:

"Section 1.—That section four thousand and six hundred (4066) of the Compiled Laws of 1897, as the same was amended by section ten (10) of chapter twenty-two (22) of the acts of the thirty-third legislative assembly, be and the same is hereby amended by striking out the first sentence thereof, and inserting in lieu thereof the following:

"On the first day of December of each year one-half of the unpaid taxes levied during that year and on the first day of January next following the remaining half of said taxes shall become delinquent and there shall be added on the second day of December and June respectively one per cent of the amount of such delinquent taxes as a penalty for non-payment.

"Section 2.—Hereafter no rebate shall be allowed upon payment of taxes in advance of the date at which they would become delinquent."

DETRACTORS OF THE TERRITORY

The Santa Fe New Mexican has a timely article on the detractors of this territory of the Elmerford stripe. That paper says: "There are still a few detractors of New Mexico abroad, men who maintain that the territory is not fit for statehood because its people are like the average American, merely human. But, strange to say, these slanderers of the Sunshine territory always return to New Mexico to fill their pockets with wealth, if possible, or to seek political honors in the commonwealth, their slander and insult. It is saying very much for the patience of the people of New Mexico that they tolerate at all the presence of these vampires and do not politely but firmly invite them to seek their abode in the states whose people they deem so much more fit to live."

BISBEE ROAD!

Southwest New Mexico to the Front.

The "City of Windmills" Will Get the Road.

Interesting Notes About the Adjacent Mining Districts.

FIRE AT DEMING.

Special Correspondence.

Deming, N. M., June 19.—The people of Deming are now thoroughly satisfied that the Bisbee road will be built to the town from Columbus, and Col. P. R. Smith, who is one of Deming's promoters of all kinds of good enterprises, presents a series of good reasons why the road will be built to Deming. He says:

"The building of the Bisbee road from Deming is in no sense an act of favoritism, but the decision is based on substantial business conditions. First—It will cost the company \$2,000,000 less to build to Deming than to go to El Paso.

"Second—They can come to Deming one year sooner than they could reach El Paso.

"Third—They can save several hundred thousand dollars in the transportation of their building material, and much more in transporting their mine products from Mexico and Arizona to their eastern connections at Deming.

"Fourth—They find terminal facilities at Deming far more favorable than at El Paso. The cost to the company on entering the city, their terminal and depot grounds and right of way is nothing.

"Fifth—The great abundance of pure water, the health of the place and the delightful climate will make Deming most attractive for general headquarters.

"Sixth—They may at some time desire to establish a large smelting plant convenient to the great mines that they have recently acquired at Cananea, but, not least, the Deming people have received them with open arms and are not only ready and willing but anxious to extend every aid in their power to advance the interest of the company. They want the road to come to Deming and they are not afraid or ashamed to speak out in the open.

In a talk with N. A. Bolch, who with other Deming merchants are working to secure the Bisbee road, it was learned that a large number of the Bisbee people have received them with open arms and are not only ready and willing but anxious to extend every aid in their power to advance the interest of the company. They want the road to come to Deming and they are not afraid or ashamed to speak out in the open.

The same gentleman gives it as his opinion that no road will be built out from Stein's Pass by the Southern Pacific company, and he bases his opinion upon the single fact that the Southern Pacific people are too good business men to entertain for a moment any such an idea as 'throwing their money at the birds' on any such an impractical scheme as that. He predicts that all the childish scrapping will soon give place to a sensible businesslike understanding between these great competing lines.

THE ADJACENT MINES.

It was learned in a talk with B. J. McKays, J. A. Mahoney, Sigmund Lindner and other Deming citizens that at Santa Rita the Amalgamated Copper company is still continuing development on a large scale. They have in the past eight months uncovered immense bodies of good paying ore and the good work still goes on. It is hard to predict at this time the extent and value of this great property, but that it is soon to rank among the great copper producers of the country is a foregone conclusion.

The Clifton Copper company, located in the same district, is comparatively a new property, but is showing that it is a surprise to all the oldtimers and modern experts. No such body of high grade concentrating sulphide ore has ever been uncovered in this country, with the same amount of development. This property will be on the dividend paying list in less than ninety days.

The old Hanover and Bragaw groups in the Hanover district recently purchased by the Phelps Dodge people of New York, are showing a very big claim, many of which are patented. At least three of these are already good producers and under the systematic management they will soon be in line with the other great mines of the country.

Besides these developed producing mines there are many other, and some of them show up remarkably well.

The Burro mountain mining district is also coming to the front, and a great deal of development is being done.

The leaders on the old St. Louis have already made a comfortable stake, notwithstanding the company held them up for 25 per cent royalty.

DEMING LOYAL.

The people of Deming are loyal to Governor M. A. Otero, and when his reappointment as governor was made the people of the 'city of windmills' promptly sent him a telegram of congratulations. It is understood today that quite a large number of Deming people will go to Santa Fe to take part in the inauguration.

A FIRE THIS MORNING.

About 10 o'clock this morning the people of Deming were treated to a pretty big blaze. The burning house was on the main street from the depot to the town, and the several adjoining frame houses, were totally destroyed by fire. The fire is a mystery.

SILVER CITY.

Montez, a Cherokee Indian, Fined by Judge Newcomb.

Special Correspondence.

Silver City, N. M., June 19.—Mrs. O. S. Warren and daughter, Mrs. Moore and baby, returned on today's train from Louisville, Ky., where they had taken the remains of Mr. Moore.

George Bell, the old time Silver City saloon man and who is now in business in El Paso, has been spending a few days in the city this week.

R. H. Harts has accepted a position as bookkeeper for the Grant County Telephone company.

The Helen Mining company has closed down its mill at Graham until a new engine they have ordered arrives. The water in the creek is very low at the present time and as they have been using water power in the mill in the past it becomes necessary to shut down. When the new engine is put in place the mill will be run by steam entirely, as then it is thought that there will be enough water in the creek to continue operation the year round.

Miss Mary Shoemaker, sister of the well known Silver City merchant and daughter, Miss Greer, who has been attending school in Philadelphia, arrived on today's train from that city.

Shashoon Montoya, who is said to be a Cherokee Indian, and who was wounded by Perfecto Rodriguez while trying to escape from him when under arrest, has been in the city since yesterday. He was found guilty of larceny and fined \$20 and costs and also held under a \$500 bond to await the action of the next grand jury on the charge of assault with a deadly weapon. Being unable to pay his fine or give bond he was confined in the county jail.

Louis Westlake, brother of Dr. Westlake of this city, who has been confined in the Ladies' hospital with all pains, cures wind colic, and is the best remedy for diarrhea. It is pleasant to the taste. Sold by druggists in every part of the world.

Killed by the Cars.

Juan Fierro, a section hand, repairing the Santa Fe switch tracks east of the depot, was run over and instantly killed about 9:30 o'clock Friday morning. The engine was "kicking in" a car and Fierro, in attempting to get out of the way of the car, got immediately in front of it. The brakeman and Fierro's fellow section hand, who was in the car, got out of the way but the engine ran over Fierro. The man was mangled in a horrible manner and instantly killed. Justice Marshall empaneled a coroner's jury which returned a verdict in accordance with the above details. Deceased leaves a wife and two children.—Deming Headlight.

INTERESTING ITINERARY.

Extensive Travels of Rev. Harwood, the Methodist Missionary.

Rev. Thos. Harwood returned last night from the north, having completed his missionary itinerary made within the last sixty days. The first was in the south and southwest, embracing Rincon, Hillmore, Deming, and Santa Fe, preaching at each of these places, and dedicating a church and parsonage property at Minors for the Spanish work valued at \$2,000. He also made a tour of the country and a hundred miles set out. Seven of his converts met him there and assisted in the dedication services. He then went to Arizona, where he held religious services at Silmonville and Tucson; Benson, Bisbee, and Naco; Mexico, 40 miles to Cananea, said to be the biggest copper mine on the continent. He found a large number of converts, and in a statement by the company about 4,000 people, 700 Americans and about 3,000 Mexicans. He preached twice, and found it was a very interesting experience. He was in a mining camp and only four came to the first night, but the next night he had 25 Americans and 200 Mexicans. He says he also visited the public school; found 120 Mexican and five American children; 105 in the school were in their 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

"THE BEST COMPANY IS THE ONE WHICH DOES THE MOST GOOD."

NEVER has the world-known expression been better proven than in the following actual results of fifty-eight years' work, wherein it is shown that The Mutual Life of New York has returned to its policy holders from three to ten times as much as the companies nearest our company in size. This is the record that tells. A record for all time from the first year to the last.

Company.	Gross Premiums Received.	Gross Payments and Assets to Policy Holders.	Excess of Payments to Policy Holders and Assets Over Premiums Received.
The Mutual Life of New York	\$79,134,420	\$866,232,063	\$866,232,063
Northwestern Mutual	\$230,686,927	\$250,672,995	\$25,985,988
