THIRD DAY'S PROCEEDINGS.

Of the Methodist conference—Inter-estoring Reports.

The Methodist district conference convened this morning as always with reading of the divine word, singing and prayer, led by the presiding elder. The minutes of yesterday's session were read and approved, after which the order of the day was "The Women's Home Missionary Society." Rev. Mark Hodgson, president of the conference, called upon Mrs. Wm. D. Clayton, corresponding secretary of the W. H. M. S. of the New Mexico conference, and also president of the Albuquerque auxiliary society to conduct the services, but before she did so, Rev. Mark Hodgson read a letter from Mrs. Goodwin at El Paso, asking that a collection be taken at this district conference for the Edie Eddington memorial fund desired and intended to be established at our mission school at Key West, Florida, in which institution the young lady was teaching at the time she was drowned, which occurred last year while bathing in the ocean. Her body was never recovered. The pastors of each charge promised to endeavor to raise \$5 each for this fund.

A goodly number of the W. H. M. S. society were present. Mrs. Clayton took the chair and called them to order and conducted a meeting for the benefit of the conference. A report from the district corresponding secretary, Mrs. Cruikshank, of San Mar-

cial, was read. Mrs. N. M. Rice, of the Albuquerque auxiliary, read a fine paper upon the general work of the Women's Home Missionary Society. The ladies stated that they desired to place the name of Rev. McClure, deceased, upon the angel band, but adopted the suggestion to allow the matter to go over to the annual conference.

The W. H. M. S. roll showed that there are thirty-three members in the Albuquerque auxiliary and their report demonstrated the fact that they are doing a splendid work in and out of the church. Mrs. Clayton called upon the ministers for words of council and advice. In response, Rev. T. S. Adams, Rev. Mark Hodgson and Rev. W. S. Huggett gave them good talks, the latter gentleman suggesting that the Albuquerque auxiliary be called "McClure" auxiliary in honor of the deceased brother, who, when alive, rendered such valuable services to the good sisters. A vote was taken upon the matter and it was approved unanimously. At 10:40 the W. H. M. S. adjourned with prayer by Rev. Robert Hodgson, after demonstrating that they are doing and are capable of doing the church great service. In this district there are at present four auxiliaries, viz., Albuquerque, Gallup, San Marcial and Lordsburg.

The conference took up work where they left off yesterday. The secretary read a letter from Mrs. Haygood, of Las Cruces, and the president also had a letter from Rev. Sells, of the Deming and Las Cruces circuit, upon the state of the churches in their work. Rev. Canevar, of San Marcial, and Rev. Manes, of Watrous, also reported.

The president next called the question as to missionary territory in the district and received reports from each of the charges.

The hour of adjournment having arrived the conference closed. A vote was taken as to holding a session after preaching this afternoon and the motion was adopted.

Rev. W. E. Foulks, of Gallup, preached this afternoon, text, Phil. 2:5. Rev. W. S. Huggett will preach to-night, on "An Old Fashioned Revival." How Promoted and Its Results. Everybody invited to come and hear him.

To-morrow there will be preaching at 11 a. m. and 8 p. m. The Lord's Supper will be administered after the morning service and an old fashioned love feast at 2 o'clock p. m. The brethren say if you want to have a good time come to this love feast.

Mr. B. Ford and wife, Mrs. J. M. McDaniel, and Mrs. J. M. McDaniel, came down from Corralitos yesterday to attend the conference. Mr. Rogers will come this evening.

TRAIN TRAGEDY.

A Man Committed Suicide, While a Deranged Soldier Leaped from the Train.

When train No. pulled into this city last evening a soldier, just returning from the Philippines, reported a suicide on the train at 9 o'clock in the morning before leaving Winslow. He said that a well dressed stranger entered the front door of the chair car, opened a package containing a razor, stroked his stubby beard a few times, as though preparing for a shave. The man looked wild out of his eyes, and a male passenger sitting close by lifted the lid from a cuspoid and was getting ready for a defense should the man make an attempt to exterminate the lives of the car occupants, but this was useless, for in a moment the man with the razor began slashing at his throat with the razor. He drew the blade from left to right four times, and after dropping the razor the frenzied man lifted his bloody right hand to his wounded throat and enlarged the gash by tearing it open. The stranger fell forward to the floor and in a few minutes he was dead. His body was carried to the morgue at Winslow, where a coroner's inquest was held.

While the tragedy was being enacted a couple of women fainting and had to be carried from the car, and another soldier, who had recently been discharged owing to a mental derangement, became frightened, leaped from the car window and started on a run across the sandhills. The soldier had not been captured at last report. No information has been learned regarding the identity of the suicide. T. Y. Maynard, who came in on No. 8 from Gallup last night, also interviewed a gentleman on the same train, who corroborated the statements as mentioned above.

LIVELY DUEL.

The Second Paris Duel
More Satisfactory.

Noted Case in Chicago Post-
poned Till Monday.

Missouri Pacific Freight Trains Col-
lide and an Engineer Killed.

KANSAS COLLEGE STUDENTS STRIKE.

Paris, June 8.—The duel with swords began yesterday in the Parc des Princes between Max Regis, anti-Semite mayor of Algiers, and M. L. Berdesque, an Algerian journalist, which was adjourned after nineteen fruitless rounds, was resumed this morning. Regis was seriously wounded in the forearm, a copious flow of blood resulting, and the duel was thereupon stopped. The seconds became involved in a lively altercation which will possibly lead to another duel.

Cases Postponed.

Chicago, June 8.—The Unger conspiracy case was brought to a sudden temporary stop shortly after court opened to-day by the illness of J. J. McDannold, attorney for Dr. Unger. McDannold fainted yesterday, but appeared in court to-day and attempted to talk but fainted pitifully. Physicians who were summoned declared that the lawyer would not live ten minutes if he attempted to address the jury. Judge Tukey accordingly declared the court adjourned until Monday.

Fatal Railroad Accident.

Ottawa, Kan., June 8.—Two Missouri Pacific freight trains collided head-on at Lane, last night, wrecking both engines and a number of cars. One crew jumped and was saved. Engineer Bumgarner was killed instantly; his fireman, George Davis, had his skull fractured and was injured internally, and the head brakeman was badly hurt. All live at Oswatimie, Kansas.

Students Threaten to Quit.

Baltimore, June 8.—Practically all of the students of the Wesleyan university here have threatened to quit that institution forthwith if the board of trustees insist upon removing F. D. Tubbs, professor of natural science, whose name was dropped from the faculty list on Thursday owing to his ideas on evolution.

DEATH'S DOINGS.

A Death in Old Albuquerque and Another on East Railroad Avenue.

At his home on West Railroad avenue, in Old Albuquerque, this morning at 3 o'clock, John Bohren, an aged and highly respected gentleman, passed away to the silent unknown after an illness of several days with blood poisoning.

The gentleman was born in Oldenburg, Germany, 56 years ago, and came to America when quite young and located in the German-French engagement. He was severely wounded, but finally recovered and then returned to his home, when he resumed his occupation as gardener. He leaving a wife and an adopted daughter, Frida, to mourn his demise. The body was prepared for burial by A. Borders, the best gold avenue undertaker. The deceased was a member of the German Lutheran church, and the recently appointed minister of that church will conduct the funeral services at the church to-morrow afternoon at 3:30 o'clock, after which the remains will be lowered to their final rest in Fairview cemetery.

DR. SETMAN DEAD.

Dr. John M. Setman, aged 26 years, who came here a short time ago from Forgue Falls, Minn., suffering from consumption, died in his room near the gas works on east Railroad avenue at 8 o'clock last evening. The remains were removed to the undertaking parlors of A. Borders, where they were embalmed and prepared for burial. The wife of the deceased, who was en route to this city to be with her husband during his last hours, was notified of his demise, and it is expected that she will arrive here to-night to take charge of the remains.

WATCH AND CHAIN STOLEN.

Frank Kirster's Residence Entered by Thief Yesterday Afternoon.

Yesterday afternoon, between the hours of 3 and 4 o'clock, a sneak thief entered the home of Mr. and Mrs. Frank Kirster, at the corner of south Second street and Coal avenue. Upon examination of the premises it was found that the robber had taken a fine gold watch and chain of Mrs. Kirster's from a pantry shelf and utterly ignored other pieces of jewelry that lay near by. When Mrs. Kirster left the house to go to the funeral of Mrs. Wilkinson yesterday afternoon, she was not altogether unmindful of her husband, and thinking that he might wish to enter the house during her absence, decided to leave the key in the usual hiding place, which was above the door and under the time piece and chain. The head of the household saw that the door was opened and upon making an investigation discovered that a thief had entered and made away with his turnip. Mr. Kirster is of the belief that it was the work of one who is more or less familiar with the house and the habits of its occupants. He has notified Marshal McMullin of his loss and is willing to give a suitable reward for the return of his property.

The Alumni Banquet.

At the Highland hotel last night the University Alumni society enjoyed their annual banquet. The attendance, while quite large, was not so great in numbers as had been expected, but what was lacking in that respect was fully atoned for by the interest that was taken by all present. Maynard C. Harding, the class president, officiated as toastmaster in a very commendable manner. Miss Elizabeth Hughes was first introduced and the young lady delivered an oration on "Jokes," which struck a responsive chord in the hearts of all present. To the toast, "The Pres-

New Mexico demands Statehood from the Fifty-Seventh Congress.

For Governor of New Mexico from June 7, 1901, to June 7, 1905, Miguel A. Otero.

The New Mexico Territorial Fair will be held in Albuquerque from October 15th to October 19th. Premium List will aggregate \$10,000.

ALBUQUERQUE — JUNE 8, 1901

Ottopus Morgan is trying to get his tentacles on the Santa Fe road.

The great Portland gold mine at Victor, Colo., is reported to have been sold to Londoners for \$21,000,000.

Since the passage of the Dingley law the balance of trade in favor of this country has increased from \$192,000,000 a year to \$673,000,000.

It is estimated that New Mexico could have 45,000,000 people within its bounds before it would be as thickly populated as Rhode Island.

The enemies of Governor Otero have fled charges of some sort against him and the case will be heard by Secretary Hitchcock next week.

Prof. Jones, of the School of Mines at Socorro, says that the school will make a fine exhibit at the territorial fair, one which will interest every mining man who sees it.

The new president of the New York Central Railroad company began as a switchman. The Vanderbilts still seem to have a good deal of confidence in people who started at the bottom.

Texas, which enlisted only 1,965 soldiers in the Union army during the civil war, is now the place of residence of 8,100 pensioners, and the pension payments there are nearly \$1,000,000.

It is the generally expressed opinion that Senator Patterson, of Colorado, made a big mistake when he brought a libel suit against the Denver Republican. That paper is proving its assertions.

One thousand dollars has been offered by a Chicago lady to the marshal or professional man who can prove that he has conducted his affairs in the last month without stretching the truth in a single instance.

The parliament of the Dominion of Canada recently appropriated \$4,338,000 for the improvement of its waterways. Excepting \$1,000,000 for grain elevators to be erected at Montreal, most of the money is designed for the improvement of the government ship canals.

The new Simpson tunnel through the Swiss Alps will be 12.23 miles in length when finished. At the beginning of this year 4.51 miles had been excavated and the work has been pushed ahead at the rate of 31.4 feet per day. The cost up to September 30, 1900, was \$4,940,300.

The mines at Bland need developing, but the chances are slim in that direction. If any one goes to the camp to buy a mine, the price of prospect holes are doubled, and partially developed mines become worth millions. The result is that the mines are not sold to people who will develop them, and the owners sit around and chew tobacco and denounce the government.

EXTENDING COMMERCE.
The United States has impressed the east with her power, her wealth, her rectitude and her ability to bring things to pass. The McKinley administration, in more ways than one, has secured an open door in the Orient through which is to pass in the near future a commerce as yet undreamed of in its extent of value. The world has passed through a Red Sea period, a Mediterranean period, and is at the height of the Atlantic period. It is now entering upon the Pacific period, which will, in its turn, at no distant day, eclipse all that have gone before it.

SALVATION ARMY FARMS.
Salvation army farms are a sort of manual school, where people who have no idea whatever of agriculture are given a chance to learn a smattering of farming. Senator Hanna has given \$1,000 to the fund for a Salvation Army farm near Cleveland, where city children and invalids are to be sent for outings. The farm adjoins Mentor, the Garfield home. It is a serious question whether such work ought to be left to the Salvation Army or any other organization that is limited and hampered in means. The world owes every man a living, and the community ought to see that at least gets the rudiments of a practical training. Ordinary schooling is not enough; manual training should be open to all who desire to learn the ordinary trades and vocations.

RAILROAD PENSIONS.
The officials of great corporations are beginning to view the plan of pensioning employees after they reach a certain age as a safe and fair way of solving many labor difficulties. Several great railroad systems of the country have undertaken the plan notably the Chicago and Northwestern, Illinois Central and Pennsylvania. Now the officials of the Pullman company are arranging the details of a pension plan whereby 500 office employees, shop workmen at Pullman, Detroit, Wilmington, Del., and St. Louis and every porter in the service of the company shall benefit from it. It is said to be the purpose of the company to place in effect a system which will be comprehensive and liberal to a degree and which will em-

brace the total force of the company, numbering between 12,000 and 15,000 employees. The fact that the Pullman force embraces in the neighborhood of 7,000 colored men acting as porters on sleeping cars throughout the country, adds interest to the project. It is not known when the matter will be submitted to the directors, but it will probably be before the quarterly meeting in August. There is no doubt, however, that the members of the hierarchy are in favor of a pension plan, and it is said that the suggestion to inaugurate one came from that body. It is understood that with shop hands and sleeping car porters the age of 60 years will be made the limit of service. Employees, however who have reached the age of 55, and who have been continuously in the service of the company for ten years, may retire upon a pension.

THE SMITH CASE.
The reporter of the Journal-Democrat has done Lawrence Smith, university student from Gallup, gross injustice in asserting that he layd young Bittner and assaulted him. The "assault" consisted of a fight between the two boys, who are of the same age, and was over a schoolboy difficulty. The Bittner boy was not waylaid, and he was not severely hurt. He had been industriously slandering young Smith for several weeks, and deserved some punishment. The university faculty are deserving of censure for allowing the trouble to grow. In fact, it is asserted that they helped it along. The Citizen desires a little fair play in this matter, and insists that Smith shall have a showing. On the charges made by young Bittner, Smith was expelled from the university without a hearing. Afterwards, Smith proved the falsity of the charges and the faculty apologized to him. This led to Bittner getting loked by Smith. The regents of the university should get together and thoroughly investigate this case.

Can you give any valid reason for declining to take a Life Policy in THE EQUITABLE

Thousands of hard working men have struggled and economized to pay for a home, and had it not paid for, but death took them off, and that mortgage forced the property upon the market and sacrificed it, and so the little all was lost. What a prize in such a case would a Life Policy have been! The more you need money, the more this protection is worth to you. If you, living, find it hard to make both ends meet, how do you think your family are going to do it when you are dead.

Death of a Prominent Young Man.

The Hangman's Scaffold is Labelled "For Sale."

Several Important Mining Deals Reported From Districts.

SILVER CITY MERCHANTS ORGANIZING.

Special Correspondence.
Silver City, N. M., June 6.—The death of Elmore B. Moorman yesterday morning was a sad blow to his many friends in this city. Mr. Moorman had been a resident of Silver City since 1895, coming here for his health. The deceased young man had during his stay in this city been connected with the Silver City National bank and the reduction works until a short time ago, when his failing health forced him to give up his positions with these institutions. The deceased was son of the prominent banker and wholesale merchant of Louisville, Kentucky, G. P. Moorman. A few years ago the deceased married Miss Joan Warren of this city and they had besides his wife, a little daughter to mourn his early death. He was a graduate of the University of Virginia and by his many excellent traits of character had endeared himself to all his acquaintances. The remains will be shipped to Louisville for interment tomorrow evening.

The contract for the building of the Baptist church has been let to Wm. Laizure. The building is to be completed about September 1.

Arthur Rivers and Morris Abraham returned on today's train from California, where they have been attending school. There was an arrival of an eight-pound girl at the home of James K. Blair on the night of the 3d.

Some well intentioned citizens has put a large printed sign on the scaffold, which was to be used for the hanging tomorrow, saying: "For sale cheap; no use in Grant county."

Several large mining deals in the Hanover and Elmore districts are reported by the Phelps Dodge people, but the facts of the sales have not yet been made public.

The local lodge of Elks of this city are talking of building a dining hall in the building which has been put up by the Elks. The Silver City Lase ball team has been challenged by the Lordsburg club and it is expected that a game will be arranged to be played at that town in the near future.

The mining interests of Grant county were never in better shape than they are at the present time. Large deals are being reported every day and the mines in this section are attracting the attention of mining men and capitalists alike.

The Burro mountain district is going to produce some of the richest copper mines, from the present indications. Several deals have been closed in the past month with men of large capital, who are starting to work to develop the mines in that section. It will only be a short time when a large mill will be erected by an English company, who recently purchased a group of mines in this district.

LATER NEWS.
Silver City, N. M., June 7.—The mining camp of Santa Rita, which has a grand Fourth of July celebration. Quite a large sum of money has been raised for prizes and base ball, drilling and other contests will take place with large prizes. There will be a ball in the evening. As Silver City will not have a celebration a large number will go from this place and celebrate at Santa Rita.

The infant son of Mr. and Mrs. Max Schultz died in this city this morning. The funeral will take place from the family residence to-morrow morning.

The Nichol brothers, who are working in the Sampson mine in the Burro mountains, have a force of eight men at work on their properties. The main shaft is now down 140 feet and they have some copper ore in sight. They are also sinking a new shaft near the Sampson, which is about about forty feet. It is thought that if water can be gotten from this mine to run a small mill they will put up one.

Silver City can boast of a Salvation Army at the present time. Of course this town does not need anything of the kind very badly. Santa Rita, which has a Catholic church and the company there let them have a plot of ground 200 feet square for the building and grounds. The foundation has already been completed.

The merchants of Silver City are organizing and association to protect themselves against credit trade, which consists of people in this locality who do not pay their debts.

CHANGE IN REVENUE LAWS.
On and after July 1, 1901, internal revenue stamps will not be required on checks drafts or orders for the payment of money at sight or on demand. Before that date stamps are required on promissory notes, mortgages, leases, express receipts, export bills of lading, manifests for custom house entry, powers of attorney, promissory notes, bonds, warehouse receipts, charter parties, certificates, except certificates of profit, or certificates showing interest in companies, telegraphic messages, insurance policies, medicines, perfumery, cosmetics or chewing gum.

Taxes on telephone messages, legacies for religious, charitable, literary educational purposes and commercial brokers are repealed.

Taxes have been reduced on deeds, foreign passage tickets, cigars, snuffs, chop banner Salvo on hand, as it is a sure remedy for scalds or any sores.

William Woodward, of Decatur, Ia., writes: "I was troubled with kidney disease for several years and four one dollar size bottles of Foley's Kidney Cure cured me. I would recommend it to anyone who has kidney trouble."

Weekly Crop Bulletin.
Santa Fe, N. M., June 4.—Cool, cloudy and showery weather in northern sections, but in southern counties the rain has been very light during the season thus far, and although irrigation water is abundant in all parts of the State, the crops are suffering severely. As a rule, alfalfa and field crops are making good and rapid growth, but the cool nights check the seasonal growth of young corn and are proving disastrous to some of the earlier vegetable crops, especially in the northern agricultural districts. In Union county an unusually heavy rain storm on the 24th, accompanied by terrific hail in localities, damaged fruit and alfalfa greatly, and killed hundreds of lambs and some old sheep. Also in the vicinity of Bernalillo hail on the 2d greatly damaged vines and young corn.

The first growth of alfalfa is being cut in the earlier sections of the northern section. In general there is an excellent yield, but the cloudy, wet weather interfered considerably with the harvest, and much cut alfalfa got wet. What and what are reported as growing rapidly in all sections. Cattle and sheep have improved rapidly and are now universally reported in excellent condition, with plenty of water and feed on the ranges. In western Mora county it is estimated that the calf yield will be light.

"The doctors told me my cough was incurable. One Minute Cough Cure made me well again. Now I feel like a new man. I have not found relief from a cough since. One Minute Cough Cure has cured me and it will cure you. Safe and sure. Cosmopolitan Pharmacy."

A severe sprain will usually disable the injured person for three or four weeks. Many cases have occurred, however, in which a cure has been effected in less than one week by applying Chamberlain's Pain Balm. For sale by all druggists.

OTERO KEEPING UP HIS FIGHT.

Will Reply to His Territorial Political Opponents.
A special dispatch to the Denver Republican from Washington, under date of June 6, says: Governor Otero of New Mexico, who is in Washington awaiting the appointment of his successor, a position to which he himself aspires, had a conference with the Secretary of the Interior, Mr. Clegg, and the latter's departure from the city. The governor was informed by Secretary Hitchcock that papers relating to his appointment as Governor (Otero's) reappointment and that until they were examined no action would be taken. Upon request the secretary agreed to lay the papers before the governor and give him an opportunity to make reply. No action will be taken until Secretary Hitchcock returns to Washington.

When seen to-night Governor Otero said that after his conference this morning he still held to the belief that there was no good reason why he should not be reappointed. He says no truthful charges have been made against him, that he is supported almost unanimously by the republican voters of New Mexico and is backed by every republican paper in every republican official in the territory. He had hoped, he said, by reason of rendering good service in his four years' term completed to-morrow, to warrant a reappointment, but he had been disappointed. He regrets the friction which has arisen, but thinks it is not serious. Every protest that is now on file is signed by some party who has not long been a resident of the territory, men who are unknown by name or reputation to the governor, he claims.

Governor Otero intends to remain in Washington until decisive action is taken one way or another and he is very confident it will be in his favor. Secretary Hitchcock to-day declined to make any statement.

We have heard some whoopsters from Arizona recently in the way of rich mineral discoveries, and now comes the Kingman Arrow with a freak story. "On the farm of Arthur Douglas, near Mohaveville, a freak pig has been born. According to this paper the pig has eight feet."

From the Register. Judge A. L. Kendall is improving his house by the addition of a room 10x16 feet in the clear. S. G. Burn, resident manager of the Galisteo company, has put on a strong force of hands at the Santa Rita mine near Dolores. He considers the Santa Rita the most promising property in the camp. W. E. Rishworth, of the Baird, was in town and reports that their works near Golden, which have been closed down a few weeks for repairs, will be started up again in a few days. A. B. Phillips, the popular night watchman at the smelter, started for California on the 15th. After a few weeks he will return to Colorado, where he has a situation as manager for the Central Manufacturing company, of Philadelphia, Pa. D. B. Thomas, general manager for the smelter company, returned to his home in Magdalena, after being here several days looking after the interests of the company. Mrs. W. A. Brown and children returned from an extended visit with her mother, Mrs. R. B. Thomas, of Magdalena. C. E. A large new crusher building is being erected at the smelter, which will contain the ore crusher, belt, while in the upper part will be ore bins in which can be stored hundreds of tons of ore. This building makes quite an imposing appearance and adds very much to the already immense showing of the works.
