NUMBER 171

## ENGLISH FRIENDLY!

Welcome to American  
Delegates.

Rockefeller's Gift to a Med-  
ical Association.

American Horse Wins Another of the  
Great English Races.

DEATH OF A TEXAS BANKER.

London, June 7.—Lord Mayor, Frank Green and the sheriff received the delegates of the New York chamber of commerce at the Mansion house today. The lord mayor addressed the Americans, declaring that nothing could have done more to promote perfect understanding and unity between the two greatest nations in the world.

He alluded to Morris K. Jessup's reference in a speech at the banquet Wednesday to the impossibility of jealous rivalry existing between the United States and Great Britain as one of the truest things ever said. Lord Brassey spoke in similar strain. Mr. Jessup, in replying said: "Your kindness has captivated our hearts. We are not worthy of it."

Lord Brassey, "No," in which some Americans joined followed Jessup's remarks.

Jessup then referred to his fellow delegates as "children of the great country" and continued with expressions of fervent thanks for their reception. The lord mayor then proposed the healths of King Edward and President McKinley, coupling with the latter a heartfelt wish for Mrs. McKinley's recovery. Andrew Carnegie was the center of attraction throughout. After the economies the lord mayor went up to him and said he especially wanted to shake hands with Mr. Carnegie, who said: "In New York, in my young and poor days, when I read about Dick Whittington, I little thought I would stand here shaking the lord mayor's hand."

The lord mayor replied: "We read nothing else today but of Mr. Carnegie's splendid gifts, and in the name of the English people I want to thank you for your generosity." The delegates were then entertained at informal luncheon.

Prince's Gift.  
St. Paul, June 7.—A gift of \$200,000 from John D. Rockefeller for furtherance of scientific research along medical and surgical lines was gratefully acknowledged by the executive committee of the American Medical association.

AMERICAN HORSE WINS.

Another Great English Race Won by American Runner.  
London, June 7.—Another of Britain's great racing trophies has been captured by an American. Foxhall P. Kenne won the Oaks with Cap and Bells II, ridden by Milton Henry. Owner, horse and jockey are all thoroughbred Americans, so the victory was not diluted, as in the case of the Derby. Yesterday long odds were obtainable against the American horse but the odds shortened this morning and Cap-and-Bells II stood at the head of the list and started 9 to 4 against. The hollowness of the victory detracted from the interest in the race.

Death of a Banker.  
New York, June 6.—Major James H. Littlefield, formerly a banker of Houston, Texas, was found dead in his bed at his residence in this city today. Death was caused by heart disease. He was 68 years old and resided in Houston until last August, when he came to this city after retiring from business. The body will be sent back to Texas for burial.

THE RINCON ROBBERS.

Supposed to Have Been in San Marcial Late Yesterday Afternoon.  
Special to The Citizen.  
San Marcial, N. M., June 7.—Two tough looking strangers, both carrying revolvers, appeared in this town late yesterday afternoon, and it is thought today that they are the Rincon post-office robbers and hold-ups. The tallest man of the two, who answers pretty well the description given in The Citizen yesterday afternoon, disappeared and went into a hardware store, where he purchased several boxes of cartridges, and then into a restaurant where he secured enough sandwiches

MONEY TO LOAN.

## WAR EXPLOSIVES!

Talk Over Subject in  
War Department.

Idaho Horse Thief Shot and  
Killed.

No Change in the Critical Condition  
of Mrs. McKinley.

DEATH OF PIONEER ABOLITIONIST.

New York, June 7.—The Herald's Washington correspondent says: "High explosives have disturbed the relations between the bureau of ordnance and board of ordnance and fortifications. A bitter controversy has been raging between these two branches of the army for more than a year, and has been brought to the attention of Secretary Root for final action. The fortification law authorizes the secretary, in his discretion, to purchase for \$100,000 the right to manufacture thorpe, an explosive for filling shells, and the isham shell, a projectile in which explosive gelatine can be fired. The board of ordnance and fortifications, presided over by General Miles, recommended that the secretary of war acquire patents on the explosive shell named. The board, which has been conducting tests at Sandy Hook reports that it found that a reasonable degree of efficiency can be obtained. The board therefore recommends that the tests be discontinued. Maximite seems to have pleased the board more than thorpe. The board of ordnance and fortifications thinks that animus influenced the ordnance board's conclusions. The ordnance board found that the isham projectile fills no present or prospective necessity of the service."

HEALTH OF MRS. MCKINLEY.

No Material Change in Her condition  
Twenty-four Hours.  
Washington, June 7.—Mrs. McKinley's physicians were in consultation over an hour and were called at 11:45 the following statement was issued: "Mrs. McKinley's physicians state that her condition is about the same as reported yesterday. There has been no material change in the last twenty-four hours."

Examination of Mrs. McKinley's blood, which has been made under the direction of attending physicians, showed negative results, there being no evidence of blood poisoning. The only one of the various examinations being made by physicians to determine the character of the illness of Mrs. McKinley.

Pioneer Abolitionist Dead.  
New York, June 7.—Wm. Orland Brown, known as the "pioneer of immediate, unconditional abolition," is dead at the home of his daughter in Montclair, N. J., aged 82. During the 70 or 80 years of his life he was one of the early promoters of the republican party.

AGRICULTURE COLLEGE.

Commencement Exercises of one of  
the Worthy Institutions.  
A RESUME OF THE WEEK.

Editors Citizen.  
Last Sunday the president, Dr. F. W. Sanders, delivered the baccalaureate sermon at McElreath hall at the college. It was an address, full of thought and scholarship. Prof. Sanders has worked hard to raise the educational standard of the college, and to advance the educational interests of the territory. He leaves the college soon and will spend a year in Europe, resting and attending lectures in some special studies.

Monday evening Prof. D. M. Richards delivered an address before the Columbian Literary society. His subject was "Character Building." This society is in a very flourishing condition and is doing good literary work. Several of their productions appear in "The Citizen," a magazine published by the students in a very creditable manner. The general tone of the papers show that the students are advancing and have a genuine educational spirit.

Just before the address of the evening a very pleasant social time was spent at the young ladies' dormitory. A "milk maid's lunch" being served to all. It was a unique affair.

Tuesday the tennis contests came off. The results were as follows: However, there were a large number of contestants. In the evening the alumni banquet occurred. Musicians rendered some inspiring music. Jamming from the late hours kept it must have been a very enjoyable affair.

The regular graduating exercises occurred at 10 a. m. Wednesday at McElreath hall. The flowers and decorations added much to the pleasure of the audience. Fine music was rendered by a family of about six persons. The first speaker of the graduates, in his oration, spoke of the decreasing demand for men in the professions, as they were overcrowded. As this was a practical age, men with special training in the industries were greatly needed.

Miss Minnie Newberry read a paper prepared by herself and her sister, Miss Nora Newberry. It gave the results of experiments with the food eaten by a family of about six persons, and observations made relating thereto. The paper was of a practical nature.

Alfred M. Sanchez also had a very practical paper on "Investigations Made on a Piece of Ground Taken from the College Farm." It was indicative of the character of the work done by him in his studies and investigation.

The productions were all of a practical

## PARIS DUEL!

Lasted Two Hours and  
No One Hurt.

Senator Clark of Montana Re-  
turns From Europe.

Mob Breaks Into a Georgia Jail and  
was Dispersed by Sheriff.

ALL VOLUNTEERS RETURN FROM MANILA.

Paris, June 7.—A duel with swords occurred within the Parc des Princes this morning between Max Regis (anti-semitic mayor of Algiers), and an Algerian journalist named Laberdeque. After nineteen rounds, lasting two hours and a half, with no result, the encounter was adjourned until tomorrow. Regis challenged Laberdeque in consequence of an article which the latter wrote in La Petit Republicque.

There was a second duel simultaneously in another part of the park between a writer of the Temps and another newspaper man. It resulted in the former being slightly wounded in the thigh by a pistol shot.

SENATOR CLARKE.

He Has Returned and Will Push Build-  
ing of His New Railroad.  
Salt Lake, Utah, June 7.—A special to the Tribune from New York says: Senator Clark, of Montana, arrived from Europe last night. He will stay in New York a week and then go to Butte to attend the wedding of his son to Miss Foster. His wedding present to the bride will be a check for one million dollars. From Butte Clark will go to Salt Lake, where he will hold conferences with Senators and others interested in the railroad between Salt Lake and Los Angeles. Clark emphatically declares that the road will be built at once, regardless of all opposition.

MOB DISPERSED.

Sheriff of Georgia County Drove Mob  
from Jail.  
Carrollton, Ga., June 7.—A mob of 300 white men broke into the jail here at 1 o'clock today, in an attempt to secure a negro named Williams. Sheriff Merrill wounded two men. The mob fired on the sheriff, but he was not hurt. The mob dispersed. Williams was to have been hanged today for the murder of John Wood, but the execution was postponed owing to an appeal.

TROOPS ORDERED.

Atlanta, Ga., June 7.—Governor Chandler this afternoon ordered one company of militia to Carrollton to special train.

Volunteers Have Left Manila.

Washington, June 7.—A cablegram was received at the war department today from General MacArthur at Manila announcing that all volunteers have left the Philippines en route for the United States.

OUR gift edge American full cream cheese, something extra fine, 20c the pound; we also have fresh stock of domestic Swiss, brick, Limburger, imported Emmentaler Swiss, imported Roquefort, imported Edam, Norton Pineapple, and full line potted cheese in jars. A trial will convince you that we are here to serve for fancy cheese. San Jose Market.

# THE DAILY CITIZEN

HUGHES & MCGRIGHT, Publishers  
THOMAS HUGHES, Editor  
W. T. MCGRIGHT, Mgr. and City Ed.  
PUBLISHED DAILY AND WEEKLY.

Associated Press afternoon dispatches.  
Largest city and county circulation.  
The largest New Mexico circulation.  
Largest Northern Arizona circulation.

Copies of this paper may be found on file at Washington in the office of our special correspondent, E. G. Sigler, 515 F street, N. W., Washington, D. C.

New Mexico demands Statehood from the Fifty-Seventh Congress.

For Governor of New Mexico from June 7, 1901, to June 7, 1905, Miguel A. Otero.

The New Mexico Territorial Fair will be held in Albuquerque from October 15th to October 19th, 1905. Premium List will aggregate \$10,000.

ALBUQUERQUE — JUNE 7, 1905

Rev. Mustard has taken charge of a church at Las Cruces. He will blister the wrongdoers of that town.

There is enough iron ore in New Mexico to supply the demands of the United States for several centuries.

The people of New Mexico love Governor Otero for the enemies he has made, and hope he will be reappointed.

In twenty-seven months ending with March, Cuba imported \$13,579,161 worth of cotton goods, only \$1,874,450 of which was from this country.

The construction placed upon the flag and the constitution by the supreme court appears to give general satisfaction, except in the territories.

The Santa Fe political syndicate had an agent here this week trying to secure affidavits against Governor Otero. He announced that Colonel Berger had employed him.

Prosperity note: Since the first of the year 1905 companies, with a capital stock of forty-six million dollars, have filed incorporation papers in the office of the secretary of the territory.

NOT NECESSARY.  
The Territorial Medical association had no authority to appoint medical experts in each county to examine the health of the public school teachers. Their plan would entail upon the teachers a heavy and unnecessary expense. The law provides that no teacher shall be employed in the public schools who is afflicted with consumption in a "transmissible form." Any person afflicted with the disease in that form needs no medical examination in evidence. The disease shows for itself and school boards with common sense would not employ such teachers.

GROWTH OF POLAND.  
A recent British consular report tells us that at the beginning of the nineteenth century the only town of any size in Poland was Warsaw, with a population of about 50,000, and whereas even in 1877 there were only fifteen towns with a population of over 10,000, there are now thirty-two such towns, while the population of Warsaw is over 700,000 and that of Lodz 400,000. At the beginning of the century Poland was inhabited by a population of 2,700,000, over 90 per cent of whom were steeped in ignorance. At the end of the century there is a population of nearly 10,000,000, of whom all are free, over 4,000,000 of whom own over five acres of land, while nearly 3,000,000 dwell in towns. In every village and in every factory employing over 1,000 hands there is a school. In Warsaw there are 757 educational establishments, with 47,834 pupils. Great attention is given to primary schools, of which there are over 2,000 in Poland. The production of the country, which was at the beginning of the century in a state of ruin, is now valued at over \$20,000,000. Then there were no roads or railways laid down, now there are 4,325 miles of macadamized road and 3,625 miles of railway.

VALUE OF FRANCHISES.  
In discussing the revenue that Leadville, Colo., will derive from the supreme court decision that gives that city a fee simple to the streets extending downward toward the center of the earth, the Houston Daily Post calls attention to the fact that there are mines of wealth in the streets of all busy, expanding cities. Not in delving underneath for the precious metals, but in retaining the right to devote them to public utilities.

Unfortunately many young cities in haste to expand have given away to individuals and private corporations most valuable franchises, a gift that in after years has become a matter of regret and possible expensive litigation. If the right to operate street railways, lighting plants and waterworks is so valuable to the individual or syndicate it must be of greater value to the incorporation. True, it costs money to put in these plants; but is the individual or syndicate in better condition to float bonds or raise the necessary funds for the undertaking than a growing city? We think not.

Having once given away to individuals and private corporations most valuable franchises, a gift that in after years has become a matter of regret and possible expensive litigation. If the right to operate street railways, lighting plants and waterworks is so valuable to the individual or syndicate it must be of greater value to the incorporation. True, it costs money to put in these plants; but is the individual or syndicate in better condition to float bonds or raise the necessary funds for the undertaking than a growing city? We think not.

By the way, how much do you carry? \$5,000? That amount invested at 5 per cent would give your daughter \$250 a year to live on, wouldn't it? Is that quite adequate? Hadn't you better increase it?

Do you know that if you invest in one of the Equitable's continuous installment policies you can guarantee your daughter a fixed income sufficient for her support and protection as long as she lives? Would you like to know more about such an investment? Then write or telephone

TO PATERFAMILIAS.  
Is this a portrait of your daughter? No? But you have a daughter? And she's quite as pretty and refined looking as this picture? Of course! You are giving her a good education and every social advantage. All this you can easily do because you have a liberal income? And if you should die, wouldn't there be a large inheritance for her? By the way, how much do you carry? \$5,000? That amount invested at 5 per cent would give your daughter \$250 a year to live on, wouldn't it? Is that quite adequate? Hadn't you better increase it?

Do you know that if you invest in one of the Equitable's continuous installment policies you can guarantee your daughter a fixed income sufficient for her support and protection as long as she lives? Would you like to know more about such an investment? Then write or telephone

IMMENSE STATE.  
"Since the eyes of the country are riveted upon Texas, and predictions concerning her future prosperity are rife, it may be well to note that, as respects territory, Texas is an empire

# UNIVERSITY OF NEW MEXICO

Grand Graduating Exercises at Columbus Hall Last Night.

DIPLOMAS PRESENTED TO GRADUATES.

The beautiful Columbus hall on North Second street, erected last year by the C. Colombo Benevolent society, was crowded last night by friends of the New Mexico university, drawn thither by the fact that the closing exercises of a successful year for the university were to be the attraction. Beforehand the hall had received the touch of the decorator, and the class colors, cream and old rose, with flowers and hunting, had been tastefully arranged.

On the platform there were seated Hon. F. W. Clancy and Dr. J. H. Wright, members of the board of regents, and the college, normal, preparatory and commercial graduates, except two missing members—Harvey Bittner, of the preparatory class, and

College—Eva Johnson, Douglas W. Johnson, Normal—Mrs. Mabel Bliss, Bertha A. Crocker, Ruby F. Cutters, Jesse G. Crocker, Jessie M. McMillen, Elizabeth A. Powers, Mabel E. Tway.

Preparatory—Fred S. Barth, Harvey P. Bittner, Benjie L. Bowden, Frances S. Butts, Etta C. Halloran, Laura C. Krawinkel, Kathleen C. Vann, James S. Wroth.

Commercial—Olive V. Everett, Ida E. Johnson, Mary W. Turner.

After this pretty scene, each of the young lady graduates received bouquets of flowers, the gifts of admiring relatives and friends. "Magic of Spring" was sung by a quartette composed of Mrs. Shinkoff and Miss Anderson, and Messrs. Hodgkin and Stone.

In the list presented above there are twenty graduates, constituting the college class of the year.

One side of Jose Ortega's face shows some pretty bad burns. It is stated that he and wife were playing with each other a few days ago, when the latter by mistake grabbed a bottle containing carbolic acid and threw the fluid on Mr. Ortega's face. Mrs. Ortega intended to pick up a bottle containing Florida water.

Fred. Fornoff, the deputy United States marshal, who was down in the Mogollon country on business connected with his duties, returned to the city this morning, and was noticed enjoying comfort from an old codger at the office of the marshal, while the chief and his two other deputies, Messrs. McKeehan and Campbell, were discussing the political situation of the territory and especially the news pertaining to the appointment of a governor for New Mexico.

Largest Northern Arizona circulation.

Copies of this paper may be found on file at Washington in the office of our special correspondent, E. G. Sigler, 515 F street, N. W., Washington, D. C.

New Mexico demands Statehood from the Fifty-Seventh Congress.

For Governor of New Mexico from June 7, 1901, to June 7, 1905, Miguel A. Otero.

The New Mexico Territorial Fair will be held in Albuquerque from October 15th to October 19th, 1905. Premium List will aggregate \$10,000.

ALBUQUERQUE — JUNE 7, 1905

Rev. Mustard has taken charge of a church at Las Cruces. He will blister the wrongdoers of that town.

There is enough iron ore in New Mexico to supply the demands of the United States for several centuries.

The people of New Mexico love Governor Otero for the enemies he has made, and hope he will be reappointed.

In twenty-seven months ending with March, Cuba imported \$13,579,161 worth of cotton goods, only \$1,874,450 of which was from this country.

The construction placed upon the flag and the constitution by the supreme court appears to give general satisfaction, except in the territories.

The Santa Fe political syndicate had an agent here this week trying to secure affidavits against Governor Otero. He announced that Colonel Berger had employed him.

Prosperity note: Since the first of the year 1905 companies, with a capital stock of forty-six million dollars, have filed incorporation papers in the office of the secretary of the territory.

NOT NECESSARY.  
The Territorial Medical association had no authority to appoint medical experts in each county to examine the health of the public school teachers. Their plan would entail upon the teachers a heavy and unnecessary expense. The law provides that no teacher shall be employed in the public schools who is afflicted with consumption in a "transmissible form." Any person afflicted with the disease in that form needs no medical examination in evidence. The disease shows for itself and school boards with common sense would not employ such teachers.

GROWTH OF POLAND.  
A recent British consular report tells us that at the beginning of the nineteenth century the only town of any size in Poland was Warsaw, with a population of about 50,000, and whereas even in 1877 there were only fifteen towns with a population of over 10,000, there are now thirty-two such towns, while the population of Warsaw is over 700,000 and that of Lodz 400,000. At the beginning of the century Poland was inhabited by a population of 2,700,000, over 90 per cent of whom were steeped in ignorance. At the end of the century there is a population of nearly 10,000,000, of whom all are free, over 4,000,000 of whom own over five acres of land, while nearly 3,000,000 dwell in towns. In every village and in every factory employing over 1,000 hands there is a school. In Warsaw there are 757 educational establishments, with 47,834 pupils. Great attention is given to primary schools, of which there are over 2,000 in Poland. The production of the country, which was at the beginning of the century in a state of ruin, is now valued at over \$20,000,000. Then there were no roads or railways laid down, now there are 4,325 miles of macadamized road and 3,625 miles of railway.

VALUE OF FRANCHISES.  
In discussing the revenue that Leadville, Colo., will derive from the supreme court decision that gives that city a fee simple to the streets extending downward toward the center of the earth, the Houston Daily Post calls attention to the fact that there are mines of wealth in the streets of all busy, expanding cities. Not in delving underneath for the precious metals, but in retaining the right to devote them to public utilities.

Unfortunately many young cities in haste to expand have given away to individuals and private corporations most valuable franchises, a gift that in after years has become a matter of regret and possible expensive litigation. If the right to operate street railways, lighting plants and waterworks is so valuable to the individual or syndicate it must be of greater value to the incorporation. True, it costs money to put in these plants; but is the individual or syndicate in better condition to float bonds or raise the necessary funds for the undertaking than a growing city? We think not.

By the way, how much do you carry? \$5,000? That amount invested at 5 per cent would give your daughter \$250 a year to live on, wouldn't it? Is that quite adequate? Hadn't you better increase it?

Do you know that if you invest in one of the Equitable's continuous installment policies you can guarantee your daughter a fixed income sufficient for her support and protection as long as she lives? Would you like to know more about such an investment? Then write or telephone

TO PATERFAMILIAS.  
Is this a portrait of your daughter? No? But you have a daughter? And she's quite as pretty and refined looking as this picture? Of course! You are giving her a good education and every social advantage. All this you can easily do because you have a liberal income? And if you should die, wouldn't there be a large inheritance for her? By the way, how much do you carry? \$5,000? That amount invested at 5 per cent would give your daughter \$250 a year to live on, wouldn't it? Is that quite adequate? Hadn't you better increase it?

Do you know that if you invest in one of the Equitable's continuous installment policies you can guarantee your daughter a fixed income sufficient for her support and protection as long as she lives? Would you like to know more about such an investment? Then write or telephone

General Manager, New Mexico and Arizona Department.

Albuquerque, N. M.

IMMENSE STATE.  
"Since the eyes of the country are riveted upon Texas, and predictions concerning her future prosperity are rife, it may be well to note that, as respects territory, Texas is an empire

of nearly double the size of the United States, and five times larger than the whole of New England. Her climate represents nearly every gradation of temperature known to the temperate zone, and her resources, mineral, vegetable and animal, places her among the nations in pre-eminence of endowment." says the Atlanta Constitution.

"Her extensive domain is equal to the combined areas of Spain, Portugal, Switzerland and Holland, and her resources are greater than those of all of them put together. Tourists traveling in Europe from Lisbon to Vienna cover only 900 miles, but pass through six different countries, representing six different nationalities and speaking six different languages, while tourists traveling in this country from Galveston to El Paso cover nearly 1,500 miles without going beyond the borders of the state of Texas. Besides her varied and abundant resources of soil and climate, Texas enjoys an ocean frontage of several hundred miles—or what is equivalent to an ocean frontage, since she is located on the Gulf—and through her splendid harbors she holds direct communication with the world's chief ports of entry. Everything indicates that the part which she will play in the industrial developments of the future is something immense."

OFFICIAL NOTES.

Irrigation Commission—Land Grants Surveyed—New Incorporation.

The court of private land claims will convene in Santa Fe on July 9, mostly to approve surveys of land grants.

NOTARY PUBLIC APPOINTED.

Acting Governor J. W. Reynolds appointed Hon. Ursinus S. Bateman, of Carlsbad, Eddy county, a notary public.

SURVEYING LAND GRANTS.

Jay Turley, United States deputy surveyor, is at present in Taos county surveying the Taos de Fernandez grant. He will also survey the Cuyamungue and the Pelaca grants in accordance with decisions of the court of private land claims.

THE IRRIGATION COMMISSION.

The territorial irrigation commission was in session yesterday afternoon at the Palace hotel, Santa Fe. All its members were in attendance as follows: Hon. Frank Springer, of Las Vegas; Hon. G. A. Richardson, of Roswell; Hon. E. A. Miera, of Cuba; and George W. Kandel, of Santa Fe, and W. A. Hawkins, Esq., of Alamogordo.

INCORPORATION.

The Franklin Mining company filed incorporation papers. The incorporators are: R. V. Anderson, P. F. Garrett, Henry D. Bowman, of Las Cruces; S. H. Newman, A. Courchesne, F. Wells Brown, A. H. Richards, T. S. Austin, W. W. Fink, J. Caldwell, Dr. F. W. Gallagher, and J. J. Mundy, of El Paso. Object, mining and smelting.

Will operate in the Organ district, Dona Ana county. Capital, \$1,000,000 divided into a million shares. Headquarters at Las Cruces. Business office at El Paso. New Mexico agent, R. V. Anderson, of Las Cruces; A. Courchesne, A. H. Richards, J. J. Mundy, F. Wells Brown, W. W. Fink, S. H. Newman, of El Paso.

TAX DOGERS.

The Las Vegas Record says that it is positively a shame the way New Mexico's tax matters are managed; the whole territory only returns a little over \$25,000,000 worth of property for taxation. It is well known that the sheep and wool alone in New Mexico are worth more than half as much as our whole tax return. It is equally well known that the cattle in the territory are worth as much as our entire territorial return. The railroad property in the territory is worth easily as much as our entire tax return, but we have not much of a kick on the railroads, for they are the only people that pay anything like half what they ought to pay in taxes. City lots and improvements in New Mexico are easily worth more than \$100,000,000. Patented land grants in New Mexico are worth more than our entire tax return. Stocks of goods in the territory owned by our citizens and subject to taxation here foot up easily to ten or fifteen millions of dollars; mines, ranches, farms, farming implements and farm and ranch improvements with live stock other than sheep and cattle in the territory is easily worth over \$100,000,000, so it can be shown that if we returned our property as the law requires it to be returned, that is, at its market value, our tax returns would foot up to about \$200,000,000, and a mere nominal rate of taxation on this would soon take the territory and every county in it entirely out of debt.

Cycling has its ups and downs. After the downs, use Banner Salvage if you're out of breath. It heals the hurt quickly. Take no substitutes. Alvaredo Pharmacy.

IN THE ABSENCE OF Hon. R. S. Roddy, who was down on the program for an address, Hon. F. W. Clancy, president of the board of regents, responded by delivering an address suitable to the occasion, wherein he paid a glowing tribute to the young graduates and spoke flatteringly of the goods in the territory done in the various departments of the university. He also referred to the Hadley laboratory as a valuable adjunct to the university proper.

This was followed by a piano solo, "Value of Education," by Miss Krawinkel, and after which Mr. Clancy, on behalf of the board of regents, presented diplomas to the following graduates:

Montoya, instructor in Spanish; John Weizel, M. S., vice director of Hadley Climatological laboratory and professor of chemistry; Edward Childs, B. S., dean of the college of science, literature and arts, and professor of physics and mathematics; Catherine Fields, assistant professor in the department of the gymnasium; Ella D. Coltraine, principal of model school and critic teacher; Mary E. Gilmore, director of the music department and teacher of the piano and organ; C. H. Decker, B. A., assistant in German; Mabel Pitch, B. S., assistant in biology; M. Custers, custodian and librarian.

### LOCAL PARAGRAPHS

Pat. Kennedy, a well known citizen of Gallup, is in the city. He is here on business.

Mrs. M. Ferguson, who was at Santa Fe on a visit to friends, returned home last night.

This evening will close the season's religious service at Temple Albert. Divine service at 7:45 p. m. Rabbi Jacob.

There will be a regular meeting of Ash chapter No. 2, E. 2, this (Fri.) evening at 7:30. Laura Fike, secretary.

Mrs. W. W. McDonald and daughter, Miss Marion, left last night for Los Angeles, Cal., where they will visit for a few weeks.

Cul. A. F. Brown, representing the California power works, San Francisco, is in the city, coming in from El Paso this morning.

Mrs. Gilbert La Bar and Miss Catherine Fields, two of Albuquerque's popular school teachers, left last night for southern California.

"Paunt, the Tailor," who held forth for a few days on south second street, quietly packed his goods yesterday and has, or will, leave the city.

Miss Rica Racer, a popular young lady of Albuquerque, is on a visit to Las Vegas, where she is the guest of her friend, Miss Sadie Holzman.

Mrs. C. W. Medler and children, family of City Clerk Medler, were passengers for Los Angeles last night, where Mrs. Medler will visit relatives and friends.

The Optic says: C. C. Hall is up from Albuquerque today, as firmly a friend of the Territorial fair as when he was the active president of the association having it in charge.

Miss Julia Atkinson, a teacher of the school of music, Socorro, came in from the south this morning. She will visit friends here to-day, and leave tonight for southern California.

The mesa home of H. P. Whiting was washed away during the rain the other day. Water flooded the cellar and the adobe walls gave way, letting down the rafters to a level with the ground.

Owing to no quorum, the business meeting and annual election of officers of the Commercial club did not take place last night. Postponement was had until tomorrow evening at 8 o'clock.

A grand free concert, followed by a dance, will be held at the Orchestra hall tomorrow night, also a concert at the same hall Sunday afternoon. To these concerts everybody is invited.

In order to keep themselves thoroughly comfortable, the professors of the Commercial club did not take place last night. Postponement was had until tomorrow evening at 8 o'clock.

Miss J. Ritter, of Fulton, Mo., who has been visiting for the past two weeks with Mrs. O. H. Scott, of west Railroad avenue, left last night for Los Angeles, Cal., where she will visit for a short while and then return here.

D. A. McCoy, representing "Coun-town" show is in the city, and has arranged for the show to be here on June 15. The show has been giving performances in towns in southern New Mexico.

Mrs. Ida Downs gave a dance and supper in honor of Isaac Jackson and wife last night at the room corner Second street and Copper avenue. It was an admission affair, thirty cents for dance and supper, and there were present quite a large crowd.

The Citizen calls attention to the advertisement in the Whitcomb Springs resort, published in another column. The resort was recently, as stated in The Citizen a few days ago, purchased by Mrs. J. Keleher. Rates are reasonable, and everything will be kept in first class condition.

In accordance with the invitation of the Woodmen of the World to the ladies of the Woodmen's Circle to attend the decoration ceremony at the cemetery June 9, all members of the circle are requested to meet at K. of P. hall at 2 p. m. on June 9. Conveyance has been provided for Mrs. J. M. Garrett, guardian.

A majority of the members of the Mariano Oil company were in the city yesterday and in the afternoon held a meeting at the residence of J. F. Luthy. Reports and communications were discussed, and everything connected with the company looks bright.

Prof. D. M. Richards, secretary of the company, returned to Gallup last night.

L. M. Crawford, the opera house boulevard and theatrical manager, who was here the past few days, left last night for Tuleka, Kansas. While here, he made a proposition to lease and enlarge the boulevard hall on north Second street, and create a theatre, treasurer of the C. Colombo society, says the members will consider the proposition at a meeting to be held in a few days.

The deputy grand exalted ruler of the B. P. O. E. lodge of New Mexico, B. Rappe, returned from Silver City this morning, where he had gone to make an official visit to the Elk's lodge of that town. He reports the lodge of Silver City, numbering 109 fine bucks, in a most prosperous condition, and all glad to see him. He states that he was interviewed by Col.

L. M. Fishback, editor of the Silver City Enterprise, to whom he reported the fact that Albuquerque was constantly improving and that the territorial fair in the fall will be a big thing.

A. B. McGaffey, while in Mexico recently, contracted for a quart of the famous jumping beans. They arrived the other day and this morning he placed them in one of the front windows of his store. They attracted, at intervals, quite a crowd, and several of the men folk, who were out climbing stars last night, could not tell whether the beans were really jumping or not.

Word was received here this morning through trainmen on the No. 2 passenger train that A. T. Graves died at Williams, Arizona, yesterday afternoon. The day before he was run over and fatally injured by a train on the Saginaw Lumber company's railroad, which runs for a short distance out of Williams. Graves was from Michigan, to which place the remains will be shipped for burial.

Thos. J. Stanford is in Las Vegas today representing the Cripple Creek mining exchange, also W. J. Carr, the New York board of trade. It is understood the gentlemen are figuring on a special commercial wire for a circuit composed of the principal towns and cities of the southwest, including Trinidad, Colo., Las Vegas, Santa Fe and Albuquerque, N. M., and El Paso, Texas. They should be encouraged in the undertaking.

Among the New Mexico university graduates who have prospered and gained names for themselves, Carl Munsterman, special of Mr. and Mrs. Thos. Munsterman, stand among those at the top of the list. He graduated in the class of 1896 when 16 years old, and he is now head chemist at the American Glucose company, Pekin, Ill. Prof. Hadley, then in charge of the university, said Carl would make his mark in the world and he is surely proving the prediction true.

The funeral of Mrs. Essie Wilkinson, wife of Henry Wilkinson, the railroad shop machinist, took place this afternoon at the undertaking parlors of G. W. Strong & Sons, and was largely attended, the machinists and helpers of the shops turning out en masse and marching in a body to the railroad reading room to the undertaker's. Rev. Kinney preached the sermon. The remains will be taken to Aurora, Ill., to be buried there to-night with the bereaved husband.

Prof. F. A. Jones, the worthy and popular superintendent and director of the school of mines, Socorro, is in the city to-day, consulting with local architects as to certain new buildings which will be added to the school this year and for which appropriations have been made.

The professor has just received the appointment of field assistant of the United States geological survey. He is a body of the professor states that the most successful year in the history of the school has just closed and he hopes to make the new scholastic year equally as good, if not better. The professor has just received the appointment of field assistant of the United States geological survey.

Prof. F. A. Jones, the worthy and popular superintendent and director of the school of mines, Socorro, is in the city to-day, consulting with local architects as to certain new buildings which will be added to the school this year and for which appropriations have been made.
