TERRIBLE STORM
IN THE EAST

Pennsylvania, Ohio, Indiana and Other States Experience Very Cold Weather and High Winds.

LIGHTNING, SNOW & RAIN

Two Presbyterian Churches Near Pittsburgh Wrecked and Several Persons Fatally Injured by the Storm—The Tennessee River is Still Rising.

Pittsburg, Pa., March 31.—A fierce wind struck this vicinity yesterday noon. Scores of houses were unroofed, and a number of people injured, some fatally. The Presbyterian church at Knoxville was unroofed. During the panic at least 40 persons were injured, five, it is believed, fatally. The United Presbyterian church near McDonald, was struck by lightning, toppling over the steeple and crushing a number of persons, two fatally. At Jamestown, one end of the United Presbyterian church was torn out. Rev. J. M. Jamieson was fatally injured, but the congregation escaped. Franklin M. E. church, near Wellsburg, W. Va., was destroyed, two of the congregation were killed and others injured, including the aged pastor. Much other damage was done.

BIG DAMAGE DONE.
Pittsburg, Pa., March 31.—The damage by yesterday's storm will probably reach several hundred thousand dollars. The effects of the wind can be seen on all sides today—houses, churches, and many large plants unroofed, bridges partly dismantled, fences and trees down, trolley, telephone, and fire alarm systems prostrated. The remarkable feature of the storm was the number of churches that were injured. In Pittsburg and Allegheny, and immediate vicinity, all houses of worship were more or less wrecked, but in only one of them—the Knoxville Presbyterian church—did any casualties result. At the latter place, through the chimney coming through the roof, probably 25 persons were injured. The local churches damaged are: St. Peter's Protestant Episcopal, Bellefield Presbyterian, St. John's Evangelical Roman Catholic, and Eighth Street Temple in Pittsburg; African Methodist Episcopal and St. Wendel's Bohemian Roman Catholic in Allegheny; First English Lutheran and United Presbyterian in Braddock; Knox Presbyterian, St. Mary's Roman Catholic, McKees Rock, and Robinson Run United Presbyterian church, McDonald, Pa.

The casualties, as far as reported, will not number more than 60 people injured, of whom five or six are likely to die.

Those probably fatally hurt were injured at the Knoxville Presbyterian church and Robinson Run United Presbyterian church. A peculiar feature of the storm was that the weather records show only a maximum velocity of the wind of 36 miles an hour. Colonel Frank Ridgway, chief of the Pittsburgh weather bureau, says it was only a squall likely to occur any time at this season. Dispatches from surrounding towns in Western Pennsylvania, Eastern Ohio and West Virginia report heavy damages from the storm, but no fatalities.

A BLIZZARD.
Columbus, Ohio, March 31.—A terrific wind and snow storm has been raging here since 6 o'clock, and the wind attained a velocity of 35 miles an hour. Telephone, telegraph, trolley and electric light wires are reported down in all sections of the city. Plate glass windows were blown in in the north and south ends. Reports show that the storm is general in Ohio, but the trains here are but slightly delayed thus far.

COLD IN OHIO.
Cincinnati, Ohio, March 31.—Unusually low temperatures with frosts are reported throughout the Ohio Valley today, with much damage from high winds. There were numerous fires in this section last night, due to lightning.

THE TENNESSEE RISING.
Chattanooga, March 31.—The Tennessee river at this point is still rising, but the fall will begin tomorrow. On the Nashville, Chattanooga and St. Louis railroad, traffic is still blocked by washouts between Murfreesboro and Tullahoma, but the line will be opened tomorrow. All the other railroads resumed their regular schedule.

TRAINS RUNNING AGAIN.
New Orleans, La., March 31.—Service over the roads which had recently been badly crippled by storm and flood is gradually being resumed. The first through train from the east on the Northeastern since Thursday pulled into the city today. The Mississippi Valley and Illinois Central trains are running again, but are late, owing to the slow time made in the recently flooded district.

FLOOD RECEDING.
Harriman, Tenn., March 31.—The Emory river flood is receding, and six of the twelve industries in this place that were invaded by the high water, resumed operations today. The aggregate damage is now placed at \$75,000.

James B. Keene Has a Cold.
Lexington, March 31.—The condition of James B. Keene, of New York, the millionaire turfman, was much improved today. He has been suffering from a severe cold. The physicians say he may get up today.

MAKE THEIR ESCAPE

They Were Confined in the Workhouse at St. Louis and Gained Their Freedom by the Use of a Wooden Key They Had Made.

St. Louis, Mo., March 31.—By means of a wooden key, six prisoners escaped from the workhouse early today, after ten hours' work in breaking shackles and opening the inner and outer doors of their cells. The escaped men climbed the rear fence of the workhouse grounds and took a skiff for the Illinois side of the Mississippi.

He Was Given a Blow in a Sparring Match That Rendered Him Unconscious.

Philadelphia, Pa., March 31.—The condition of Thomas Kornhertz, or "Tommy White," as he is known in the prize ring, who was rendered unconscious on Saturday night while sparring with Tommy Market at the Knickerbocker Athletic Club, was reported today as being slightly improved. The doctor announced today that Kornhertz was suffering from apoplexy, and his condition was not the result of a blow.

Houston, March 31.—An important decision was handed down in the United States circuit court of appeals in the case of Dan Miller, a minor, from Texas who enlisted at San Antonio without the consent of his parents, deserted, and was arrested. The court holds that the prisoner was a soldier, and liable to military law just as a citizen, who is a minor, is amenable to the civil law. The parents cannot interfere in either case.

JOHN R. GUYER FLEES.

Fearing Mob Violence He Shakes the Dust of Clayton from His Feet—Candidates for Clayton Postoffice.

Postmaster John R. Guyer is now far away from the angry Clayton citizens who were expected to take the law into their own hands. Guyer's friends, seeing that the time had come for speedy action and fearing that their efforts to prevent violence would be futile, fled upon strategy instead of violence to effect his escape. His bond had been fixed at \$10,000, which his friends felt they could not forfeit. The justice of the peace was induced to reduce the bond to \$1,000, which was furnished with the understanding that the released prisoner would be spirited out of town. Guyer wrote his resignation as postmaster and at dark Friday night left the jail disguised and, mounting a horse furnished by his friends, left for parts unknown.

It was reported in surrounding towns that there was no chance for Guyer to escape the violence of a mob, which seemed determined to take the law into its own hands. Guyer, who killed W. S. Seales Wednesday noon, he claims in self defense, was blamed for the tragedy because of a pamphlet he circulated defaming Seales and his wife. Though Seales deliberately fired the first shot, public sentiment seemed almost united in declaring that he was justified by the provocation.

When it became known that Guyer had slipped out of town, there was much indignation expressed, but the peaceable element is relieved, now that all danger of a duplication of the affair at Casper, Wyo., is past.

Guyer's friends claim not to know where he is headed and it is generally believed that he will never appear for trial and the \$1,000 bond will be forfeited. Following his arrest, Postmaster Guyer telegraphed the postmaster general at Washington that it had been necessary for him to kill a man and that he would forward particulars by mail. This, of course, will not be done. Already there are several applicants for the position left vacant by Guyer's resignation, the most prominent being Otto Menger, who served in the Cuban campaign under Colonel Roosevelt and was wounded at San Juan hill.

GRANT COUNTY MINES.

Good Finds Made at Malone by Michigan Parties Doing Extensive Development Work.

Special Correspondence New Mexican, Silver City, March 28, 1902.

It is estimated that when the main double compartment shaft now being cleaned out on the St. Louis mine is completed that there will be over 4,000 tons of ore blocked out which will average 12 per cent copper.

Messrs. Woodbury and McCalla have a mass of low grade copper ore carrying gold and silver values with an excess of zinc and lead, which is 15 feet thick and exposed for 100 feet horizontally. Imagine a body of solid ore 15 feet thick and exposed for 100 feet. Yet the mine is idle at present through lack of capital to erect a treating plant.

There is quite an excitement at Malone which is located about 20 miles southwest of Silver City. The mines of this camp have recently passed into the hands of Michigan parties who are developing with the view of extensive operations. Specimens recently brought to Silver City assayed 35 ounces gold and 138 ounces silver. A general average of the ore vein is 2 ounces gold and 88 ounces silver.

R. E. Worthen was in town the other day and states that he has a shipment of high grade ore ready which he will ship to the Los Cerrillos smelter.

Captain B. W. Leavell and other associates with him have bonded and lease their mine close to Ft. Bayard, to Charles Reinhold who states that he will make a carload shipment to Los Cerrillos soon.

An examination was recently made of the Coplen group of mines in the White Signal district a report of which was forwarded to eastern parties who are expected to arrive shortly. This property is what is known as a purely gold mine, this metal being the principal value found.

A MURDER AT DONA ANA.

Rafael Montoya is a Jealous Frenzy Slays His Wife and Then Himself.

Last Thursday morning a murder was committed at Dona Ana, a few miles from Las Cruces, Dona Ana County, in which Rafael Montoya killed his wife, who was a woman from the states, and then attempted to stab himself to death. In his attempt at self-destruction he was frustrated by the arrival of his neighbors who stayed his hand and turned him over to the constable of Dona Ana.

The murder was premeditated and done in a fit of insane jealousy because his wife had refused to live with him longer and had sought the company of other men in preference to his own. His wife left his home in the morning and did not return until midnight, accompanied by another woman. Montoya as soon as she entered the door, grabbed her and with a knife stabbed her several times in the region of the heart. Almost instant death followed. He then attempted to end his own life, but his wife's screams had aroused the neighborhood and a number of people rushed in before he had time to finish the job. He succeeded in stabbing himself several times, but his wounds will not prove fatal.

A NUMBER OF OTHER MINOR MISAPPS TO SHIPPING

THE ST. LOUIS EXPOSITION.

Representatives in New Mexico to Induce the Territory to Make a Good Agricultural and Horticultural Exhibit.

Charles M. Reeves and Frederic W. Taylor who were in Santa Fe Saturday in the interests of the Louisiana Purchase Exposition to be held at St. Louis in 1904, are endeavoring to interest the west in making an agricultural and horticultural exhibit that will open the eyes of the world as to the horticultural and agricultural possibilities of the Trans-Missouri country. They report that they are meeting with phenomenal success in interesting people. They are especially anxious that sufficient of this year's crops be preserved or placed in storage so as to be able to make a good showing from the first day of the exposition. Storage will be provided at St. Louis for apples and similar exhibits which can be kept after the fair opens from ten to fifteen days. This procedure will insure a continuous exhibit throughout the summer and until the fresh crops of 1903 are available. This will be a good matter for the New Mexico Horticultural Society to take up with the New Mexico commission of the St. Louis Exposition. Messrs. Reeves and Taylor do not know whether the exposition will be postponed until 1904. Their instructions are to work as if the exposition is to take place next year. If there is any postponement it will be at the instance of congress and ample notice will be given to intending exhibitors before this session of congress closes.

A JUSTIFIABLE HOMICIDE.

Mrs. G. B. Walker Expresses No Regret for Killing J. S. Judd at Las Vegas.

Mrs. G. B. Walker, who on Friday shot and killed J. S. Judd at Las Vegas, was Saturday afternoon served with a warrant charging her with murder by the assistant prosecuting attorney, S. B. Davis. The bond was fixed at \$5,000 which was promptly furnished by prominent residents of that city. This bond is for her appearance at the preliminary hearing which will probably be held today or early Tuesday, on the arrival of Mr. Walker from Miles, Indiana. He left that place Saturday morning.

Since the commission of the crime Mrs. Walker has remained quiet and expressed no regret for what she had done. She is being attended by a physician, who has from time to time administered narcotics, she having passed a sleepless night. The remains of the dead man were shipped today to his old home in Topeka.

Both parties to the affair had many friends who deeply deplore the tragedy. The remains were viewed by the coroner's jury composed of Judge Wooster, R. Cullen, D. W. Condon, Fred Westerman, H. P. Brown and A. O. Wheeler. The verdict will be withheld until the conclusion of the preliminary hearing, but it is the general opinion, founded on the condition in which the body was found and other circumstances of the case, that a verdict of justifiable homicide will be rendered.

The dropping of Mr. Smith makes a clean sweep in the mechanical department of the lines west of Albuquerque. The three master mechanics were let out before the superintendent's resignation was requested. Mr. Smith's successor has not been announced.

Newspapermen are busy people; journalists are high-toned and take life easy. That is the difference.

A Chicago professor claims that he can prevent death. His claim may be true, but death is still doing business at the old stand in its usual manner.

The people of New Mexico should extend more energetic and active aid to Delegate Rodey, in his endeavor to procure an enabling act for New Mexico. The time for work is here.

It is to be hoped that the few thousand inhabitants of the Danish West Indies will not bring out another Agulnaldo and commence the insurrection business, shouting "Give us liberty or give us death."

Colonel William Jennings Bryan, the horny handed leader of the sons of toil, has just erected a \$5,000 barn for his thirty \$500 heifers on his farm near Lincoln, Nebraska. This thing of being a horny handed son of toil seems to pay right well.

The nominees for members of the city council and for members of the board of education on the Republican ticket should be voted for and elected tomorrow. If this is done and if the nominees for city officers are elected, Santa Fe will be sure of a good city government during the coming year.

Facundo Ortiz, the Republican nominee for city clerk, is a quiet young man of retiring disposition. His habits and morals are exemplary; he is thoroughly honest and during the past municipal year he has made an efficient and conscientious city clerk. He should be and will be re-elected.

Facundo Ortiz, who has been renominated by the Republicans as city clerk, has served one year in that capacity and has performed his duties honestly, ably and to the satisfaction of the people. There is every reason why he should be re-elected. The voters will make no mistake in voting for his re-election tomorrow.

The senate and house committees on immigration have favorably reported on the bill for the exclusion of Chinese from the United States. The present law, providing for such exclusion, expires in May next. With the exception of a few sentimental and misguided eastern philanthropists the exclusion of Chinese from this country is approved by the masses of the people of the United States.

Sentiment in favor of the construction of the Nicaragua route canal across the Isthmus of Panama is becoming stronger in the United States senate and there now seem to be great probabilities that a bill providing for such construction will be passed during the present session of congress. There can be no doubt but that such action will meet with the approval of the people of the United States.

It is becoming more apparent right along that the opening date of the Louisiana Purchase Exposition at St. Louis will have to be changed from 1903 to 1904. There is not sufficient time for European governments to get exhibits ready and there is even not time to do so creditably in many states of the union that have made appropriations for exposition purposes.

This thing of being a student at a Russian university is not as easy a job as it might be. Within the last six weeks over seven hundred students, among them fifty girls, have been arrested charged with various political offenses. Ninety-five of these students have been sent to Siberia under sentences of from 2 to 5 years' imprisonment. It is evidently quite hard to get an education in Russia.

The nominations for city officers made by the two great parties in the territory and even by the Socialists this spring are of exceptionally high standing and are certainly proof that the people of New Mexico are even more fit to govern themselves than the people of cities in several of the states where municipal nominations do not reach the high plane they have reached in New Mexico this spring.

W. J. McPHERSON, the Republican candidate for city treasurer, is a rock of integrity in whose hands the city funds are as safe as in the vaults of the First National Bank. His standing in the community as a citizen and as a man is above reproach. During the past year he has been the city treasurer of Santa Fe and his record during that time speaks for itself. No mistake will be made by re-electing Mr. McPHERSON city treasurer by even a larger majority than he received last spring.

Every good citizen ought to vote for the Republican nominees in tomorrow's election. They are good, clean men and are entitled to the suffrages of all those who have the best interests of the city at heart. Mr. Sparks will make an energetic, live, go-ahead mayor and will faithfully carry out the pledges he has made, as to the administration of city affairs, before his nomination. Messrs. McPHERSON and Facundo Ortiz have been tried as city treasurer and city clerk and have demonstrated that they are honest and capable to fill such offices.

W. J. McPHERSON, the present city treasurer, received renomination to that office on the Republican ticket. Mr. McPHERSON is the right kind of a man for city treasurer. He is absolutely honest, always on hand, is a responsible property owner and tax payer, and will honor no city warrants unless they are drawn in strict accordance with law. Whenever a doubt arises, he will not pay the warrant until the doubt is settled either by the court or by proper legal advice. He has filled the office for the past year with satisfaction to the people and with credit to himself. There is every reason why he should be re-elected by a very handsome majority.

The New Mexican's information from Washington is to the effect that Speaker Henderson, of the national house of representatives, looks with anything but favor upon the omnibus bill, providing for the admission of the territories of New Mexico, Oklahoma, and Arizona into the sisterhood of states. The speaker's opposition means a great deal and will be very hard to overcome. There is nothing to do except to keep up the work of pushing the measure unceasingly and energetically. All possible information concerning the resources of the territory, its fitness for statehood and its ability to sustain a state government must be furnished the speaker.

Senator Gamble wants government rations issued to Indian pupils at sectarian schools. There is neither common sense nor justice in this proposition. The government is maintaining an excellent system of Indian schools at various points and also at the several Indian agencies. Indian pupils should be sent to these schools and there should be as little sectarian teaching as possible. If Indian pupils attend sectarian schools they should receive no more or no less favors than do other classes of pupils at such schools. There is absolutely no good reason why Indian pupils at sectarian schools should be more favored than other pupils.

I. Sparks, the Republican nominee for mayor of Santa Fe, is a man in the full vigor of young manhood, who is ambitious to give Santa Fe a model city government and who is desirous that the city be drawn out of the financial slough into which it has fallen. He will spare no personal effort to bring about a better state of affairs than ever heretofore existed. His ideal is a Santa Fe beautiful and prosperous, an economical and yet progressive city administration. His extensive property and other interests in the city alone would urge him to do the best that can be done for the city and its people. A vote for him is a vote for a good and progressive city government.

At a recent Bryan dinner given at Chattanooga, Tennessee, at \$1 a plate, a message was received from that great statesman, Congressman Gaines, and read at the dinner table. In referring to Colonel Bryan in the message, Congressman Gaines used the following language: "Our peerless leader, who has done nothing to forfeit our love, except to die for us, crucified on a cross of gold." The New Mexican is of the opinion that this sounds very nice, but certainly Colonel Bryan is not fool enough to want to die just yet, crucified on a cross of gold for anybody or any set of people, when it is considered that no one wants him to die that way and that he could not do any possible good by doing so. Congressman Gaines is evidently off on that proposition. The New Mexican thinks that Colonel Bryan, when it comes to dying, would much prefer doing so right at home on his nice farm near Lincoln, Nebraska, and surrounded by home comforts. A cross of gold is not a very downy couch and is not kept in stock by furniture dealers and undertakers.

As far as known six murders were committed in New Mexico last week, two of which may be classed as justifiable homicides. The week before two murders were brought to the attention of the New Mexico authorities. Of these eight murders, four, including the two probably justifiable homicides, were committed by people not native, but resident in this territory. It seems that there are too few hangings in New Mexico in comparison with the number of killings. Convictions however always follow swiftly upon the deed if the murderer is apprehended which he generally is and a large proportion of the prisoners at the territorial penitentiary are men guilty of homicide. It is for that reason that no lynchings have occurred in New Mexico for many years. It is to be deplored however, that of late, the number of murders in the territory has been on the increase, and it seems that a couple of hangings are called for to act as a deterrent to those of murderous instincts.

OUTLOOK FOR SHEEP IS GOOD.

New Flouing Mill in Rio Arriba County—Larger Amount of Wheat, Oats, Barley and Potatoes This Year.

Hon. T. D. Burns, merchant, stock-raiser, and banker of Tierra Amarilla, who is in the city, states that the outlook for sheep in Rio Arriba county for the coming spring is very good. Considerable snow has fallen in that county during the past four weeks, water is becoming quite plentiful and the range is improving right along. Should rain come in June, he judges, from his many years' experience in the sheep business, that the sheepmen will have a very prosperous season.

A company consisting of Miguel Chavez, Jose R. Martinez, Henry Abeyta, T. D. Burns, Jr., and himself, has been formed and will put up a modern flour mill to be operated partly by steam and partly by water power on the Brazos river, near Tierra Amarilla. The country around that town is capable of producing 1,000,000 pounds of the finest wheat, and the merchants named above have concluded to erect this flour mill in order to encourage the farmers to increase their wheat areas and to raise wheat for home consumption. As it is now, a great deal of money is being sent out of the county to purchase flour, and this, Mr. Burns and his associates desire to put a stop to, so that the money may remain in the town and circulate among the people. Very good crops of oats, barley, and potatoes are also raised in the northern part of Rio Arriba county, and Mr. Burns is of the opinion that more land will be cultivated this season than ever before in the county.

THE LARGER HALF.

The Same in Santa Fe as Elsewhere. The bigger half of worldly trouble. The greater part of mankind's suffering.

Can safely be laid to the kidneys. Kidneys filter the blood. Keep the human system healthy. But they can't do this when they're sick.

Easy to tell sick kidneys. Look at the back for the note of warning. Most backache pains are kidney ills. Twitches, twinges, pains and aches of a bad back.

Should be treated promptly. Every day's delay means future trouble. Urinary complications set in, diabetes, Bright's disease.

Doan's Kidney Pills are kidney specialists.

Cure every form of kidney ills. Here is proof of this:

Mrs. M. Meyers, midwife, living at 112 South 14th street, St. Louis, says: "Perhaps in following my calling, from lifting, or from some other cause, I may have overstrained the muscles of my back. Be that as it may, I have had attacks of backache for two years and lately almost constant. It hurt more in the morning than in any other period of the day and has on more than one occasion been so severe that I could scarcely turn in bed. I know from the condition of the kidney secretions that my kidneys were at fault but what to do was a mystery. I was continually trying sure-cure medicines to cure kidney complaint, but I met with very little if any success until I used Doan's Kidney Pills. From the benefits I received from the treatment I have not the slightest hesitation in very emphatically endorsing the preparation. I have studied medicine and understand the symptoms of kidney complaint. No one in St. Louis if they try Doan's Kidney Pills for kidney complaint will be disappointed in the results."

Just such emphatic endorsement can be had right here in Santa Fe. Drop into Ireland's Pharmacy and ask what his customers report.

For sale by all dealers; price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

FOUR GROUPS CONSOLIDATED.

The inauguration of More Extensive Mining Operations Near Nogal.

The American Gold Mining Company has consolidated its four groups of mines in the Nogal district, Lincoln county. In the four groups are included the American consisting of the American, Edith and Vanderbilt; the Rockford, consisting of the Rockford, Clipper and Cashier; the Ibez, consisting of the Ibez, the Ibez Extension, Goat Windy, Hawkewy, Sylvanite, Tellurium, Keane and Brack, and the Governor, including the Governor, America, America No. 1 and Atlantic claims. The claims of the Ibez and the Governor have not yet been patented, but sufficient work has been done on them to secure a patent. A bond and lease has also been secured on the Grover, Cleveland and Champion. The company is capitalized at \$5,000,000 and its headquarters are at Chicago. The mines are located about three miles southwest of Nogal. Walnut, a station on the El Paso and Rock Island railway is five miles distant. Fully 6,000 feet of development work have been done on the claims and all the mines show free milling ore ranging in value from \$2 to \$100 a ton, the average being \$35 per ton. Over \$100,000 has been taken out of the American group alone according to mint returns. Heretofore only a ten stamp mill has been used in treating the ore. The new owners will at once install a 30-stamp mill and add a cyanide plant. Both mill and cyanide plant will be situated on the American group within 175 feet of the main shaft of the American mine. Modern electric machinery is to be installed and all power is to be furnished from a central station. For the last four years the American group has been idle owing to disagreements among the owners. Over 1,750,000 tons of ore are reported to be in sight. The various veins are from three to twenty feet wide. On the American the deepest working is 230 feet, on the Rockford 240 feet, on the Cashier 125 feet, on the Ibez 75 feet. There is also an open cut on the Ibez 145 feet long and 15 feet deep. There are other openings on the property from 30 to 150 feet deep, six of the mines rank as heavy producers. The shaft on the American is to be sunk another 235 feet and levels and tunnels are to be run on the other claims. The officers of the company are: President, A. T. Anderson of Hershey, Ill.; vice president, O. T. Olson, of Hershey, Ill.; vice president, O. T. Olson, of Hershey, Ill.; secretary, B. V. Phelps, Chicago; general manager, John M. Rice; superintendent, M. D. Gaylord; directors, A. T. Anderson, O. T. Olson of Hershey, Ill., John M. Rice and M. D. Gaylord of Lincoln county, New Mexico.

WORK AT DAWSON CITY.

The town is growing—Many New Houses are Growing Up.
The work of laying the ties and rails and building the bridges on the Dawson branch is progressing rapidly. The grading has been all completed. The railroad depot at Dawson will be built of brick and will be a handsome structure. There are now 600 people at Dawson. Over one hundred pretty and convenient cottages have been erected by the Fuel Company and more houses of the same character are being erected. The tipple of the coal company has been completed and 60 men are employed in the mines. The water works to supply water for the mines and the town have been completed. The water supply is obtained from a well sunk in the channel of the Vermilion river, and is pure, soft and ample in quantity. The water is pumped from the well to a reservoir at the top of a hill near the town and the pressure is great. The public school has an average attendance of 40.

A Beet Sugar Factory for Maxwell City.

Last season an experimental crop of sugar beets was raised at Maxwell City, Colfax county. The crop was so successful that the American Beet Sugar Company has given the people of that section encouragement to believe that a beet sugar factory will be established near Maxwell City. About six carloads of the beets raised were sent to the Rocky Ford factory and yielded an average of 21 per cent of sugar. A much larger area will be put in sugar beets this season in that part of Colfax county.

Coming to New Mexico.

The Globe Democrat says: Colonel Thomas F. West, Texas attorney for the Frisco, who accompanied President Yoakum on his recent trip to California, said at Fort Worth, Texas, that the extension of the Frisco line from Quanah, Tex., to the Pacific coast was a certainty. The road is to go by way of Albuquerque, but whether it is to be built at Los Angeles is yet a question, and one President Yoakum is yet considering. Colonel West said that in ten days a construction force would begin work at Brownwood to extend the Frisco to Brady, fifty-four miles, to which place the line is to be completed by November 1. The Frisco line will be into San Antonio in nine months.

Water Works for the Albuquerque Indian School.

The Whitney Company of Albuquerque, has received a contract for constructing water works for the United States Indian school at Albuquerque. The works will include a power house, a pumping house, a steam engine and a pump, the latter to have a capacity of a million gallons of water every 24 hours.

Las Vegas Electric Street Car Line.

There is a hitch in the further construction of the Las Vegas electric street car line. The contractors building the line and the promoters are having a dispute over the amount of money to be paid for work already done. The lines of the electric railway builder in New Mexico have thus far fallen in hard places.

CAN'T KEEP IT SECRET.

The splendid work of Dr. King's New Life Pills is daily coming to light. No such grand remedy for liver and bowel troubles was ever known before. Thousands bleed headache, biliousness, jaundice and indigestion. Try them. 25c at Fischer Drug Company.

Piecing.

That's a word which may not be in the dictionary in this sense of its use, but which is a very common use in some sections of the country. "She's always piecing" they say of the woman who runs to the cupboard at irregular hours and eats a piece of pie, cake, or some other dainty. This irregular eating is one of the chief causes of dyspepsia and "twak" stomach.

Diseases of the stomach and other organs of digestion and nutrition are completely cured by the use of Doctor Pierce's Golden Medical Discovery. It increases the supply of rich, pure blood, and gives the body vitality and vigor. "A year ago I was feeling very badly," writes Mrs. Lizzie Abrams, of 158 Johnson Avenue, Brooklyn, N. Y. "I had a very poor appetite and when I sat down at the table I could not eat, but would have to go away without even tasting the food. Changing to hear from a friend who used your Golden Medical Discovery for a disease similar to mine, I thought I would give the medicine a trial, and I can hardly express the benefit received from it. The first dose seemed to do me good. My appetite returned and I was able to eat heartily. I have improved so much since taking the 'Golden Medical Discovery' I do not look like the same person. Am today well and strong—the result of taking six bottles of Dr. Pierce's Golden Medical Discovery."

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

A New Town of Taos.

C. Ballard has purchased a 20-acre tract from A. K. Thompson just north of Taos. He is erecting a house and is making other improvements. The formerly open tract of land which adjoins Taos on the north is beginning to be well dotted with residents and a new town is rising there, where most of the people from the states will eventually reside.

From one dozen to twenty copies of the New Mexican are sent out daily to enquiries and applicants concerning Santa Fe. This is the very best kind of advertisement and is bearing good fruit, as the large number of tourist and healthseekers in the city abundantly shows.

Laughlin from 375 to 425 votes; Leo Hersch about 85 votes, giving Mr. Sparks a plurality from 50 to 125. Should Mr. Hersch withdraw, Mr. Sparks will have about 200 majority. Last year Amado Chavez polled 556 votes, and Solomon Spiegelberg 370 votes, giving Mr. Chavez 186 majority. Facundo Ortiz for clerk had 94 majority over Alfred Delgado, and W. J. McPherson had 122 majority over Charles Haspelmath for city treasurer. This year, it is believed Facundo Ortiz will have 175 majority and W. J. McPherson 225 majority. It is believed that the Democrats will elect one or two of their candidates for the board of education and for aldermen.
