RINCON ROBBERS!

Robbery of Store and Postoffice.

A New Secretary Appointed for Arizona.

Missouri Mother and Two Sons Deserve to be Lynched.

MRS. MCKINLEY'S HEALTH IMPROVING.

Special to The Citizen.
Rincon, N. M., June 6.—About 9:30 o'clock last night two men held up the Rio Grande merchandise store, of which Les Elliott and Thomas Brownrigg are the proprietors. There was no one in the store at the time except Brownrigg, and the streets of the town were almost deserted. Mr. Brownrigg was preparing to close up business for the night when two men approached and covered him with six-shooters. They demanded all the money about the premises and Brownrigg replied that he had only a few dollars in change, whereupon one of the men, who seemed to know the postoffice was kept at the store, ordered that the postoffice safe be opened and that as quickly as possible. Fearing that the men would carry out their threats to shoot off his head, Brownrigg opened the safe and one of the robbers took therefrom about \$175. Some of the money was that of the firm, but most of it belonged to the government. As soon as Mr. Brownrigg recovered from his fright and the highwaymen had left, he aroused the whole town and several hours later towards Rincon was in a fever of excitement and armed men were noticed all over the town. Posses were formed and they are now scouring the adjacent mountains and hills in the hope of capturing the robbers. Mr. Brownrigg says one of the robbers is about 5 feet 11 inches, slightly stooped, wore black pants and vest, clothes too large for him; he was masked. The other robber was unmasked, about 5 feet 8 inches, weight about 145 pounds, wore no coat or vest, had on a light colored shirt, small eyes, sandy short beard and mustache, and seemed nervous and his hand trembled while holding the cocked pistol on Brownrigg. The masked robber was evidently old at the business, and it was he that secured the money.

DESERVE LYNCHING.

Missouri Mother and Her Sons Murdered.
Aurora, Mo., June 6.—A telephone message from Galena, Stone county, says that Mrs. John Stallion and her two sons by a former marriage, James and Will Crabtree, have confessed to the murder of Alice Stallion, the pretty 16-year-old daughter of the woman. The boys held Alice while the mother broke her skull with a poker. The body was thrown into the James river. There is great excitement and a lynching may result.
Alice was to have been married to a young Illinois man who fell in love with her on a hunting trip. Mrs. Stallion, it is said, was jealous of her daughter because of her beauty.

Mrs. McKinley Better.
Washington, June 6.—Mrs. McKinley, Stenberg and Johnston, were in consultation at the White House about half an hour this morning. Secretary Cortelyou gave out the following statement: "Mrs. McKinley's physicians report that she passed a comfortable night and continues to show slight improvement."

Germany Causing a Delay in Chinese Settlement.

American Museum, New York, Sends Scientific Expedition to China.

HANNA IS APPOINTED COLONEL.

Pretoria, June 5.—Colonel Wilson's command, with twenty-four of Kitchener's scouts, surprised and routed 100 Boers belonging to Meyer's command, thirty-four miles west of Warmbaths. The Boers resisted stubbornly, but finally broke and fled, leaving thirty-seven dead, one hundred prisoners and all their wagons and supplies, including 5,000 cattle, in the hands of the British. The loss of the latter was three men killed and fifteen wounded. The command of the British Boers arrived soon after the engagement, but did not attempt to recapture the supplies. They were thus left practically without any transport or supplies.

CHINESE AFFAIR.
Germany Causes Delay in the Settlement of the Indemnity Question.
Peking, June 6.—The ministers have ceased to hold meetings, while British inquiries as to the desires of their respective governments. The majority of the ministers hold that Germany should have told the Chinese that all the powers would agree to the indemnity of 450,000,000 taels at a 4 per cent. They also think that the withdrawal of Count Von Waldersee and the German troops shows a desire to force the powers to acquiesce to Germany's demands, which they are not inclined to do.

Trouble between the British and French soldiers at Tien Tsin continues. Brigadier General Lorne Campbell, in command of the British troops, and the French commander will use their utmost endeavors to prevent further friction.

Scientific Expedition.
New York, June 6.—The American museum of natural history is about to send an expedition into China to study the life and customs of the Chinese and collect ethnological specimens which will be exhibited in this city. The work will take at least three years.

A large concourse of relatives and friends followed the remains to Santa Barbara cemetery, where interment was given.

The last rites were performed over the body of the late Mrs. Crespin, wife of Pablo Crespin, at the family home in Griggs this morning, and the remains were lowered to their everlasting rest in the cemetery near that place. ALBUQUERQUE — JUNE 6, 1901

THE IRRIGATION PROBLEM.

In a speech in New Mexico during his recent journey President McKinley said that "irrigation will bring civilization." It will be noticed, says the St. Louis Globe-Democrat, that the president takes it for granted that irrigation will come in the arid region and that its sequel in growth of population, is beyond question. Secretary Hitchcock, a thoroughly practical man and prudent in judgment, is in favor of a broad irrigation system and regards it as a legitimate branch of internal improvement by the government. All trans-Mississippi conventions that have been held emphasize the importance of irrigation measures in the policy of national development. The advocates in congress of this idea have a powerful weapon and used it with decisive effect at the last session. It was a senator from the arid section, Carter, of Montana, who talked the river and harbor bill to death in the last hours of the Fifty-sixth congress. No avowal has been made that Senator Carter took this course in behalf of a recognition of irrigation as a proper part of internal improvements by the government, but it is easy to believe that such was his motive.

Leading political platforms last year contained planks on the subject of irrigation. The republican platform says: "In further pursuance of the constant policy of the republican party to provide free homes on the public domain, we recommend adequate national legislation to reclaim the arid lands of the United States, reserving control of the distribution of water for irrigation to the respective states and territories." The democratic platform says more briefly: "We favor an intelligent system of improving the arid lands of the west, storing the water for purposes of irrigation, and the holding of such lands for actual settlers." The silver republican party presented the matter more at length, as follows: "We believe the national government should lend every aid, encouragement and assistance toward the reclamation of the arid lands of the United States, and to that end we are in favor of a comprehensive survey thereof and an immediate ascertainment of the water supply available for such reclamation, and we believe it to be the duty of the general government to provide for the construction of storage reservoirs and irrigation works, so that the water supply of the arid region may be utilized to the greatest possible extent in the interests of the people, while preserving all rights of the state."

More than is realized, political parties have declared for a participation by the government in the reclamation of arid lands, and if members of congress from the states more particularly interested intend to block all schemes of internal improvement until irrigation is included they will force a hearing. Millions of acres now lying useless can be rendered highly productive by an assured supply of water. Private enterprise is doing much. One company is tapping the Colorado river with a canal sixty miles long, which will irrigate 200,000 acres, now unsuitable, but which will be worth \$20,000,000 when water is obtained. There are lands in California worth several hundred dollars an acre which could not be given away if the irrigation ditches to which they owe their fertility could be cut off. Irrigation is a large subject and it is coming to the front.

The American school teacher follows the flag, whatever may be said of the constitution.

The people of Indiana have a good deal of gall to ask New Mexico for help in erecting a monument.

A combination that will control the manufacture and sale of collars, cuffs and shirts is practically completed.

Spain's purchases from the United States last year amounted to \$16,000,000 and it exported to this country goods worth \$6,000,000.

During the past year over \$100,000 was placed in new buildings in this city, and yet the tax assessments show a reduction of over \$500,000.

The people of this city hope to see several improvements in the future management of the territorial university.

El Paso has lost the Biebee railroad, having passed an ordinance unsatisfactory to the railroad company. The line will be built from Biebee to Deming.

Thirteen saloons have been established in the past month at the new town of Santa Rosa. Thus it is that the star of American empire wends its way westward.

Governor Otero's term of office expires to-morrow. The people of this territory desire the reappointment of Mr. Otero, and are making a strong demand on the president in his favor.

The New Mexican says that with one hundred and eight new companies incorporated in New Mexico the past five months representing capital amounting to more than \$16,000,000 to its way westward.

Hon. M. A. Otero, Las Vegas, N. M.
 My Dear Sir:—The directors of the Benjamin Harrison Monument association are gratified to know that you will take up the work of securing subscriptions in your state. It is the desire of General Harrison's friends to make the monument fully worthy of the man, and a credit to the whole country. It is thought that \$200,000 at least should be raised, and the indications are that this sum will be subscribed. We hope the work will be pushed vigorously and that we may raise the desired amount within the next sixty or ninety days.

We leave you and your own good judgment the means you shall employ and invite suggestions from you as to the work in general. Yours truly,
 E. F. TILDEN, Secretary.

 At the pavilion on west Railroad avenue last night the Jussey Stock company appeared before a large audience, presenting the play "Camille." The company is composed of clever people and each came in for his or her share of applause. Bernice Howard and Mr. Jussey took the leading parts and fully sustained their reputations as first class stage artists.

The specialities given were good and may local hits made proved decidedly amusing. "The Signal of Liberty" will be the attraction to-night, and no doubt a large crowd will greet the company.

TO PATERFAMILIAS.
 Is this a portrait of your daughter? No? But you have a daughter? And she's quite as pretty and redolent as this picture? Of course! You are giving her a good education and every social advantage. All this you can easily do because you have a liberal income? And if you should die, where's your life insurance?

By the way, how much do you carry? \$5,000? That amount invested at 5 per cent would give your daughter \$250 a year to live on, wouldn't it? It is a quite adequate? Hadn't you better increase it?

Do you know that if you invest in one of the Equitable's Continuous Income Policies you can guarantee your daughter a fixed income sufficient for her support and protection as long as she lives? Would you like to know more about this investment? Then write or telephone

Hon. M. A. Otero, Las Vegas, N. M.
 My Dear Sir:—The directors of the Benjamin Harrison Monument association are gratified to know that you will take up the work of securing subscriptions in your state. It is the desire of General Harrison's friends to make the monument fully worthy of the man, and a credit to the whole country. It is thought that \$200,000 at least should be raised, and the indications are that this sum will be subscribed. We hope the work will be pushed vigorously and that we may raise the desired amount within the next sixty or ninety days.

We leave you and your own good judgment the means you shall employ and invite suggestions from you as to the work in general. Yours truly,
 E. F. TILDEN, Secretary.

A Company of Clever People.
 At the pavilion on west Railroad avenue last night the Jussey Stock company appeared before a large audience, presenting the play "Camille." The company is composed of clever people and each came in for his or her share of applause. Bernice Howard and Mr. Jussey took the leading parts and fully sustained their reputations as first class stage artists.

The specialities given were good and may local hits made proved decidedly amusing. "The Signal of Liberty" will be the attraction to-night, and no doubt a large crowd will greet the company.

TO PATERFAMILIAS.
 Is this a portrait of your daughter? No? But you have a daughter? And she's quite as pretty and redolent as this picture? Of course! You are giving her a good education and every social advantage. All this you can easily do because you have a liberal income? And if you should die, where's your life insurance?

By the way, how much do you carry? \$5,000? That amount invested at 5 per cent would give your daughter \$250 a year to live on, wouldn't it? It is a quite adequate? Hadn't you better increase it?

Do you know that if you invest in one of the Equitable's Continuous Income Policies you can guarantee your daughter a fixed income sufficient for her support and protection as long as she lives? Would you like to know more about this investment? Then write or telephone

When taken out it was first thought that the boy was dead, but after a time he revived, and two days later was brought here to town and Dr. Bradley called in. It was found upon examination that no bones were broken, but the little boy was very much crushed and bruised, and notwithstanding the fact that the case was without medical aid, he recovered in eight hours the little fellow is still alive and bids fair to recover. The family considers it a very narrow escape and the trip to Arizona was postponed till their baby boy recovers entirely.
