New Mexico demands Statehood from the Fifty-Seventh Congress.

For Governor of New Mexico from June 7, 1901, to June 7, 1905, Miguel A. Otero.

The New Mexico Territorial Fair will be held in Albuquerque, N. M., from September 15th to October 15th. Premium list will aggregate \$100,000.

ALBUQUERQUE — MAY 21, 1901

A postoffice has been established at Nambue, Santa Fe county, with Miguel Herrera as postmaster.

A territorial form of government, argue around it now you will, is positively degrading to the inhabitants.

Cockfighting has been declared illegal in Porto Rico. Will the time ever come when it will be prohibited in the United States proper?

Ex-President Grover Cleveland has made \$100,000 by the sky-rocket flight of his Northern Pacific stock. Grover undoubtedly thinks this beats being president, and it saves the wear and tear on his constitution.

Mining company dividend disbursements in April were the second largest this year, eighty-one mining and metallurgical companies reporting to the Engineering and Mining Journal total payments of \$15,548,079 for the month.

The term "the territory of New Mexico" is beginning to be more or less of a reproach to the territory. Easterners argue that if they were fit for anything else they would have it, like the little states of Nevada, Idaho, Wyoming, North Dakota and Delaware.

Senator Clark of Wyoming said at Albuquerque on January 1, 1899: "You are a territory because you didn't have enough about you to go after statehood like Wyoming did; if you had you would be a state like us." He told the truth, as far as it is. Let us profit by the hint.

The total deposits of the banks of Ohio, exclusive of national banks, as ascertained by State Auditor Guilbert from the annual reports of the banks submitted to him, are now \$163,539,655.30, as compared with \$123,988,452.46 last year, a gain of \$39,557,202.84. In the same time there was an increase in the number of such banks from 181 to 201.

Everywhere in the nation a territory gets kicked and cuffed and shows that it amounts to nothing. In appointments to national offices, it isn't counted; in inaugurations, it isn't mentioned; in the distribution of national patronage it isn't consulted; in everything except fighting the battles and helping to pay the freight on the nation it has to take a back seat. Let's become a state.

MONUMENT TO DAHLGREN.
Plans are under way for creating in the city of Washington a statue in honor of Rear Admiral John A. Dahlgren, and the movement, which is everywhere receiving hearty endorsement, suggests that the part which this distinguished naval officer has played in promoting the modern science of war.

Though it is the fortune of Rear Admiral Dahlgren to pluck distinction from any of the great naval conflicts of his time, he was, nevertheless, instrumental in rendering the country most important service by reason of his scientific attainments, and no officer of the government, however brilliant his career, has done more for the nation in the past than he has done in the future.

NEWSPAPER A NECESSITY.
Colonel McClure, the veteran Philadelphia editor, who has just retired from the newspaper business, in a late address said:

"Half a century ago it is a newspaper was a luxury; today it is a newspaper necessity. Our wonderful progress in railroads, in the telegraph and in the journalistic mechanism that leads the mechanism of the world in progress, with the free school at every crossroads, have made the newspapers multiply into annual countless millions, and it is so today the greatest of the great public educators. It has a larger clientele than the school, the college and the pulpit combined, and instead of reaching a few of the more cultivated and fortunate classes it now enters almost every home and is read by every class and condition of our 80,000,000 of people."

BIG BATTLESHIPS.
The decision of the British admiralty to build three battleships of 18,000 tons each will stimulate the demand for big boats among other navies which is exercising a marked influence already. It is a strange fact in this connection that the present twenty years ago, apparently, however, without hastening it. Her Italia, launched in 1880, is of 15,654 tons, while the Lepanto, which was launched in 1882, is of 15,900.

The first British ships to approach these figures were not launched until 1897, when three boats of 14,150 tons each appeared. Our Oregon, built the same year, is of 10,288 tons only. It is, however, in Great Britain and the United States, as well as in Japan, that the tendency is most noticeable. Though it is felt in continental Europe, the largest completed vessel of which we find any record in the navies of Germany, France and Russia is the new Czarevitch, whose ownership is indicated by its name and whose displacement is 13,100 tons.

Since 1891 Great Britain has built many ships of more than 14,000 tons. During 1895 and 1896 nine were launched of 14,900 tons each. She has now some sixteen first class battleships just built or coming from the stocks, of which the largest is the new Queen Elizabeth, of 17,000 tons each. This is also a popular size in the American navy, being that of the Georgia, New Jersey and Pennsylvania.

vania, which represent the latest patterns. The same story is told of our armored cruisers, which have changed from the type of the Brooklyn, 9,125 tons, whose keel was laid in 1894, to that of the California, Noraska and West Virginia, 14,000 tons.

MORMON MISSIONARIES.
Some of the papers have been commenting on the departure of thirty Mormon missionaries for Europe as if it were something new. As a matter of fact, the Mormons have been sending missionaries in annual numbers quite equaling this for a long time, and have been bringing over bodies of European converts for sixty years. Their zeal and success in this regard are well known; but some of the features of their system, as involved in the missionary movement, are not so familiar.

The Mormon church is one of the most active and persistent proselyting religious bodies in the world. Practically every male Mormon in good standing in his church and above the age of 21 years, is expected to spend two years of his life as a missionary. During these two years he must go to some country, to be it to the eastern cities, the south, or to Europe—and now the church has missionaries in Japan. He must leave his family behind him, and must take "neither scrip nor staff"; he has to make his living as he goes. But he has with him some money, a brother missionary, for these emissaries of the Mormon faith are sent in pairs. His subsequent standing will depend in some measure on the amount of money he himself in these two years.

Mr. W. J. Baxter, of North Brook, N. C., says he suffered with piles for fifteen years. He tried many remedies with no results until he used Dr. Witt's Hazel Salve and that which quickly cured him. Cosmopolitan Pharmacy.

Miss Mamie Smith, Middleboro, Ky., writes: "My little sister had the most terrible case of cholera, and several doses of Foley's Honey and Tar and she was instantly relieved. It saved her life." Alvaredo Pharmacy.

A young man of this place recently wrote two letters—one to his sweetheart and one to his old tailor. Some how the notes got into the wrong envelopes and a due tailor was surprised by a request to call, and the young lady horrified to read the following: "Please send me a sample of your lightest spring pants are made of."

An Extensive Cattle Raisers How to Cure Scours in Calves.

Abbott, of Tyndall, South Dakota, quite an extensive cattle raiser, has for a number of years used Chamberlain's Colic, Cholera and Diarrhea Remedy for scours in calves and says he has never known it to fail. He gives a teaspoonful in water as directed on the bottle for an adult man, after each operation of the bowels more than natural. Usually one dose is sufficient. For sale by all druggists.

INTERESTING PARAGRAPHS.

Special Correspondence.
Gallup, N. M., May 19.—Louis Smith, whose wife is a daughter of Col. M. McCue, formerly of the Duke City, is comfortably located in the county seat of McKinley county, and occupies a very responsible position in the offices of the Colorado Fuel and Iron company.

Dr. Harper has engaged the services of Dr. Patten to assist him in his large practice in this city and the various mining camps adjacent. Dr. Patten was formerly located in Madrid, but came here recently to accept the position above mentioned.

During the absence of Dr. Edmundson from this place for a few days, Dr. E. M. Clayton, son of Rev. W. D. Clayton, of Albuquerque, has had charge of his practice in connection with his own.

Stephen Canavan, proprietor and general manager of the Rocky Cliff Coal Mining company, reports that he has a small force of miners employed, and that a couple of carloads of fuel are shipped daily. He expects to have a full force in the mines before the cold weather sets in next fall.

The officials of McKinley county have leased the lower floor of the Odd Fellows' building at the corner of Col. and Third streets, for the purpose of putting in partitions was completed a couple of weeks ago. The front room on the west is occupied by the treasurer, Mr. J. C. Russell; deputy clerk, Mr. L. Bretherton and William McKiever; probate judge, J. L. Apodaca; sheriff, W. A. Smith; county clerk, J. C. Russell; deputy clerk, W. W. Risdon; assessor, Stephen Canavan; treasurer and ex-officio collector, John C. Spears; surveyor, Peter Noel. The county commissioners will hold an important meeting on Monday, the 20th inst.

The application of Rev. Herbert T. Whitson, of New London, has been favorably acted upon by the members of the Congregational church of Gallup, and it is expected the gentleman will arrive here in a few weeks to assume the duties of his new charge.

Hubbard, superintendent of the Santa Fe Pacific railway, with headquarters in Winslow, has offered a reward of \$50 for information which will result in the apprehension and conviction of the party or parties who tampered with a switch in the west end yards of Gallup on the morning of the 12th inst. about 290 men, now employed at the Gibson and Weaver mines, and salaries received by the employees range all the way from \$50 to \$200 a month.

Thomas Maple, Burkbeck, Ill., writes: "I had a very bad case of kidney trouble and my kidneys were so I could not straighten up. The doctors treatment did me no good. Saw Foley's Kidney Cure advertised and took one bottle which cured me and I have not been affected since. I gladly recommend this remedy." Alvaredo Pharmacy.

Married "Buckey's" Brother.
Eugene Brady O'Neill and Mrs. Pauline O'Neill were married the other day in Phoenix, Arizona. The Republican, in commenting on the marriage, said:

"The bride was the widow of the late Buckey O'Neill, a brother of the groom, and whose salary in the department of the flag won for him the name of hero throughout the length and breadth of the land. She is the daughter of W. F. R. Schindler, who for

years resided in Prescott, and is at present a resident of this city. Mrs. O'Neill is a large property owner in this city and is a most excellent woman, beloved by all who know her. The many friends of Mr. and Mrs. O'Neill will wish for them long lives of prosperity and happiness."

A Very Remarkable Remedy.
"It is with a good deal of satisfaction and pleasure that I recommend Chamberlain's Colic, Cholera and Diarrhea Remedy," says Druggist A. W. Sawtelle, of Hartford, Conn. "A lady customer, seeing the remedy exposed for sale on my show case, said to me: 'I really believe that medicine saved my life the past summer while at the shore,' and she became so enthusiastic over its merits that I at once made up my mind to recommend it in the future. Recently a gentleman came into my store so overcome with colic pains that he sank at once to the floor. I gave him a dose of this remedy, which helped him. I repeated the dose and in fifteen minutes he left the store smilingly informing me that he felt as well as ever." Sold by all druggists.

If people only knew what we know about Kodol Dyspepsia Cure, it would be used in nearly every household, as it is loved by all who know her. He was taken before the justice of the peace for Breckinridge No. 5, who bound him over to the grand jury in the sum of \$1,000. Bonds were secured and Vaio is at liberty. It seems that he took a check from a railroad employee, who was a tenant of his, and a customer, in payment for rent and supplies, and then endorsed the check to get the money on it.
