THE CUBAN
RECIPROCITY BILL

A Stormy Debate in the House This Afternoon
Preceding the Final Vote Upon the
Measure.

TRAFFICKING LEGISLATION

The Price for the Vote of the Democrats for Cuban
Reciprocity Is Said to Be the Death of the Crum-
packer Bill to Investigate Southern
Election Methods.

HOUSE.

Washington, April 18.—The house
convened at 11 o'clock today and con-
tinued the debate on the Cuban reci-
procity bill.

Pursuant to agreement, a vote was
to be taken at 3 o'clock this afternoon.
The leaders were much concerned over
the action of the Democratic caucus
last night in voting solidly for the re-
moval of the differential duty on re-
fined sugar. The prospect of a stormy
debate brought the members out in full
force. Richardson, Democratic leader,
was the first speaker. He doubted that
the enactment of the bill would do
much to bring about reciprocal trade
relations between Cuba and the United
States, which he earnestly desired, but
voted in favor of reporting it in the
hope that it might accomplish some-
thing. It would at least reduce by 20
per cent the outrageously high rates of
the Dingley law so far as Cuba is con-
cerned. High rates could not stand.
Grove's speech, a few days ago,
gave warning of the coming storm. He
outlined the Democratic program relative
to the amendment to abolish the
differential duty on refined sugar. If it
carried, five or six million dollars
would be taken from the sugar refiners
and given to the American consumers.

Brownell, Ohio, asked Richardson if
he knew anything of the reported bar-
gain between the leaders of the two
sides of the house by which the Crum-
packer resolution, to investigate the
southern election laws, is to be smothered
in order to aid the passage of the
Cuban reciprocity bill. "Absolutely
nothing," replied Richardson.

Forney, Michigan, opposed the bill,
saying that not a single Cuban ap-
peared before the committee on ways
and means in favor of the bill. All wit-
nesses were connected in some way
with the sugar interests.

Hepburn, Iowa, referred to the alleged
bargain on the Crumpacker resolution
as a very serious matter, inas-
much as it means trafficking in legis-
lation and charging certain members
with a "willingness to shelve legisla-
tion which some members consider im-
portant in order to secure the ultimate
triumph of the bill."

Hepburn held up to ridicule the most
ardent friends of the measure. Grove-
nor, he said, declined to support the
bill for 50, 40, 30 or 25 per cent reduc-
tion. Only when the concession was
reduced 5 per cent further was he in-
duced to support it. Had it not been
for that last nickel reduction the gen-
tleman from Ohio today would have
been with the insurgents in attempting
to divide the Republican party and de-
stroy it. He denounced the feature of
the bill to compel Cuba to accept our
immigration laws, which the greatest
need in Cuba today was labor. Tawney,
Minnesota, closed the debate
against the bill; Dalsell, Pennsylvania,
for the measure.

Tawney defended the course of those
on the Republican side who had not
surrendered their convictions that
"thrift might follow fawning." He ar-
gued that if the best sugar industry
property was protected, in a few years
it would supply the entire domestic
consumption. For this reason, through
the agency of the bill, the sugar trust
was seeking to cripple and destroy its
great rival of the future.

When the Cuban bill was read, Mor-
ris, Minnesota, offered an amendment
to remove the differentials on refined
sugar. Payne made the point of order
that it was not germane and entered
into an argument on the subject.

Littlefield, replying to Payne, alluded
to the talk of the Crumpacker resolu-
tion in the Democratic caucus last
night, and said it was intimated that
an offer had been made of an "unholy,
ungodly and infamous alliance to sac-
rifice human rights for the benefit of
an aggregation of capital."

Underwood, Alabama, who is credit-
ed with giving publicity to the Crum-
packer matter, denied he had ever
made the charge that had been implied
to him either in the Democratic caucus
or elsewhere.

In closing the debate, Dalsell de-
clared that the Cuban bill will not re-
ceive a single workingman of a day's
wages, that it was simply a proposi-
tion of reciprocal trade relations with
Cuba and a step toward the "redem-
ption of the pledge made to Cuba."

Mr. Dalsell concluded by saying that
the differential in the Dingley bill was
placed there for the benefit of the best
sugar growers. Soon after 3 o'clock the
bill was read and considered under the
five minute rule.

The house amendment removing the
differential on sugar was agreed to 184
to 111.

SENATE.

Washington, April 18.—The session of
the senate today was routine. Among
the bills passed was one granting cer-
tain lands in the city of Colorado
Springs, Colo., for the purpose of water
supply; and one to provide for the
commissioning of the Lincoln monument,
appropriating \$35,000 for the same.

Cullom presented the conference re-
port on the legislative, executive and

THREE SENTENCED
TO DEATH

Buton, Willis and Frederick Van Wormer,
Found Guilty of Murdering Their Uncle
Peter A. Hallenbeck, Must Die in
the Electric Chair.

THE CRIME WAS COMMITTED ON
CHRISTMAS EVE OF LAST YEAR

Hudson, N. Y., April 18.—The jury in
the case of Buton, Willis and Frederick
Van Wormer, charged with the
murder of their uncle, Peter A. Hal-
lenbeck, today returned a verdict of
murder in the first degree against all
three. The death sentence was pro-

NEGOTIATIONS

Lord Kitchener Refuses to Grant an Armistice
But Only for Military
Reasons.

TWO CONFERENCES HELD

The British Agree to Give Facilities for the Election and
Meeting of Representatives of the Various Boer
Commands to Consider Their
Position.

London, April 18.—The government
leader, Balfour, in the house of com-
mons, today made the following im-
portant statement: "After two conferences
between Lord Milner, British high
commissioner for South Africa, and
Lord Kitchener and the Boer delegates
at Pretoria, Lord Kitchener, while re-
fusing to grant an armistice, on mili-
tary grounds, agreed to give facilities
for the election and meeting of repre-
sentatives of the various Boer com-
mands to consider their position. The
Boer leaders have, therefore, left Pre-
toria to carry out this plan." Mr. Bal-
four added that it is not expected that
communication between the British
authorities and the Boer leaders will
be resumed in less than three weeks' time.

An Endeavor by the Machinists to
Adjust Matters.

Waterloo, Iowa, April 18.—The strike
situation in the Illinois Central shops
here is daily assuming a more serious
phase. Business Agent Roderick of the
International Machinist Union, is en-
deavoring to adjust matters. He states
that the situation is more serious than
expected, and unless the company set-
tles the strike here the shops of the en-
tire system may be called out. The
company imported a few men to make
light repairs and seems to be deter-
mined to fight it out. A large force of
special agents is guarding the Central's

A DEMAND FOR SEED.
Corn is Being Grown Successfully in New Mexico at an
Elevation of 10,000 Feet.

The following letter to the Bureau of
Immigration for seeds, shows that it was
a wise move on part of Delegate B. S.
Rodey to intrust the distribution of
seeds from the Department of Agricul-
ture, to the Bureau of Immigration, for
the Bureau has been receiving inquiries
from every part of the territory and the
seeds were thus widely distributed and
to people who really wanted them. A
letter also shows that corn can be raised
successfully in New Mexico even at an
elevation of 10,000 feet above the level
of the sea. This is the letter:

Be so kind as to send me some of your
seeds. I would like to give the govern-
ment seed a trial. Two years ago we
planted corn sent out by Governor Otero
and it was the first we could get to
ripen. My ranch is called El Bosque,
and is 10,000 feet above the level of the
sea in a wooded country. I shall be
grateful for any variety of seed you may

FRIDAY, APRIL 18.

New Mexico Demands Statehood of the 57th Congress.

Of Right and In Justice New Mexico Should Be a State.

Senator Hanna is still doing a great deal of creditable business in the settlement of strikes.

Mobs are easily recognized in Russia. The late imperial Russian edict decrees that when three men are seen standing together and talking they constitute a mob.

The 57th congress will make a serious and grievous mistake if it fails to pass the Chinese exclusion bill, demanded by an overwhelming majority of the people of this country.

Mayor Harrison of Chicago, is said to have the presidential bid buzzing in his bonnet. He will try for the Democratic nomination for the presidency in 1904, and means to try hard. How these apples swim.

In Colonel Bryan's case it seems to be established that a prophet is not without honor save in his own country. In the recent city elections the Republicans carried the city of Lincoln, the home of the gallant colonel.

The new city directory of St. Louis, Missouri, gives that city a population of 638,015, an increase of 35,535 during the past year. Chicago will have to get a move on and will have to see St. Louis on that increase of population question.

The Democratic star-eyed goddess of reform is looking for another partner, since she has lost Richard Croker as boss of Tammany Hall. The Democratic star-eyed goddess of reform has had a tough time of it since the presidential election in 1896.

It now appears that the people of Charleston and indeed of the entire state of South Carolina, are well pleased with President Roosevelt. They should, therefore, be correspondingly displeased with the Tillman gang and kick the Tillmans out of office.

The irrigation bill, providing for government aid for the construction of reservoirs, dams and irrigation ditches in the arid west, is still being held up in the house of representatives. This is not a good thing for the west, nor will it prove a good thing for the country at large.

As long as the Filipinos insist in being traitors the most severe measures taken against them by the army are all right. Harsh measures are the only ones that will teach the Filipinos that savage treachery and horrible duplicity practiced by them against the American troops will not be condoned.

In case the president finds it hard work to fill an office from a cabinet position down, the New Mexican ventures to suggest to him that he can always find some good New Mexican man who will be willing to sacrifice himself for the good of the country. New Mexico is still a territory, but it has many ambitious men within its borders.

Savants declare that many people live in that part of the globe, commonly called the North Pole. To practical people, however, it looks as if this assertion was built upon nothing but ice; but then the savants can have it their own way as there would be no sense in getting up a fight on their declaration.

In a few more days the military occupation of the Island of Cuba by the United States will be at an end. This occupation has been the most beneficial experience to the people of Cuba since the first settlement of the island 350 years ago. The record made by the United States army during this occupation is bright and clean and a great credit to it, as well as to this country.

The railroad financiers of the country have learned a lesson. They will not go into the business of consolidating and merging railroad systems any more; they find it cheaper and better adapted to their purposes to purchase these railroad systems and conduct them as they see fit. In such cases they need fear no interference by any state government or by the federal government.

The Alamogordo newspapers boast of the fact that the Alamogordo school district will have \$1,000 in its treasury after the close of the schools for the term on April 28. The money had better be used in keeping school open through May and June. A town like Alamogordo should have nine or ten months' school every year. A big surplus at the end of the school year is little value to a community when it might have been advantageously used in making better schools or giving a longer school term.

In railroad circles it is asserted that the year 1902 will see more active railroad construction than any year so far in the history of the country. New Mexico will come in for a few hundred miles of this construction. It is to be hoped that these assertions by the railroad people will prove true, as New Mexico is anxious to possess all the railroad mileage that can possibly be crowded within its frontiers.

Charges have been filed against one or two of the justices of the supreme court of the Hawaiian Islands, to the effect that these able jurists sleep too much while on the bench. These charges should be investigated very carefully and if established the offending justices should be bounced. People have become reconciled to justice being blind, but they do not care to have it asleep in addition to being blind.

Several New York and Boston papers are opposing the admission of New Mexico into the sisterhood of states, claiming that it has a large foreign population. None are so ignorant as those who want to be ignorant. These papers do not want to know that New Mexico's population consists of 97 1-2 per cent of native born citizens and contains but 2 1-2 per cent of the foreign element. There are no truer or better Americans in this republic than the people of New Mexico.

The southern papers are doing a great deal of talking just now about a reunited country. Rather an old gag this. Considering the vast extent and the diversity of interests represented by the different sections of this country and looking over the political situation for the past twenty years and more, the country has been pretty well united for many years. There will always be differences of some kind, but these cannot be overcome by talk. They must be settled in the practical arena of business and politics whenever they appear.

The New Mexican's information is to the effect that during the last six months over forty settlers with their families have taken up their homes in and in the vicinity of the town of Taos, in Taos county. Most of these have purchased farm properties and expect to make permanent homes there. Many of them were attracted to that section through the efforts of the New Mexican Bureau of Immigration. The Taos valley is one of the most fertile and healthiest sections in the entire territory and there is room for many immigrants there. Forty acres of land, under irrigation and with water rights, in the Taos valley, will support a family very handsomely and will show a profit at the end of each year, provided the owners are energetic and thrifty. Forty acres of such land in the Taos valley in three years will prove a much better investment than the average 160-acre farm in the states.

A NEW BATTLE LINE WITH AN OLD LEADER AND AN OLD ISSUE.

A great fight is on in the Democratic party ranks. It is nothing short of a revolution and the outcome is not at all certain. It is an effort of two great factions trying to dominate each other. The return of Arthur Pue Gorman to the senate has brought the issue to a point, for Senator Gorman with David Bennett Hill and other old time leaders seeks to guide the party back into its old paths, which are along more conservative and safer lines than the party has followed under the leadership of Colonel William Jennings Bryan and his western friends. The eastern wing of the party has never been friendly to Col. Bryan and his followers and there are indications that the great bulk of the party is about to return to leadership of Gorman, Whitney, Hill, Cleveland and others of the conservative wing. The looming into prominence of Gorman marks a distinct purpose to make a fight on different lines for national control. Mr. Gorman is not a great critic or a creative and aggressive leader, but he is a skillful politician rather than a masterful leader. He is the cleverest manager in the Democratic party. Personally he is as popular as the Democratic side of the senate as on the Democratic side. He was unfriendly to the silver heresy and he is at heart a protectionist and he is being regarded by the far-seeing ones as the most eligible candidate for the presidency in 1904. The southern Democrats turn to him with favor and the eastern and northern Democrats like him for his conservative views. He represents the average sentiment and spirit of his party and in all calculations henceforth he is a force that must be reckoned with. But beyond these there must be thoughts of measures and the Democratic leaders have decided, after much deliberation, to make a sharp and broad issue on the Philippine question, not merely by antagonizing the Republican policy, but by presenting a distinct and tangible measure of their own. Says Ex-Postmaster General Emory Smith: "The substitute proposed by the minority of the Philippine committee for a temporary government bill of the majority has the approval of all the Democratic members of the committee, and is presumably brought forward with the full concurrence of the whole Democratic side. It thus becomes the Democratic platform, and it embodies the most clear cut issue which has divided the two parties since the question of free silver coinage was sent to the rear. This proposed measure which crystallizes the Democratic policy provides that the United States shall relinquish the sovereignty of the Philippine Islands, and withdraw its military forces just as soon as an independent Philippine government can be organized. No part of the islands shall remain under the American title, except such points as may be designated for naval and coaling stations. The present Democratic measure has the merit of precisely making out what a Democratic congress and administration would do, and it forms the battle line of the coming congressional and presidential election."

Justice of the Peace Dockets. The New Mexican Printing Company has prepared civil and criminal dockets especially for the use of justices of the peace. They are especially ruled, with printed headings, in either Spanish or English, made of good record paper, strongly and durably bound with leather back and covers and canvas sides; have a full index in front and the fees of justices of the peace and constables printed in full on the first page. The pages are 10 1-2x16 inches. These books are made up in civil and criminal dockets, separate, of 320 pages each or with both civil and criminal bound in one book, 80 pages civil and 320 pages criminal. To introduce them they are offered at the following low prices:

Civil or criminal.....\$4.00
Combination civil and criminal 6.00
For 45 cents additional for a single docket or 55 cents additional for a combination docket, they will be sent by mail or prepaid express. Cash in full must accompany order. State plainly whether English or Spanish printed heading is wanted. Address

MAKE IT PUBLIC

Publicity Counts—That's What the People Want—Kansas City Expression on the Subject.

Make it public.
Tell the people about it.
Gratitude promotes publicity.
Grateful citizens talk.
They tell their neighbors; tell their friends.

"The news is too good to keep. 'Bad backs' are numerous. So few understand the cause. Many Santa Fe people are learning. And better still, they're being cured. Lame backs are lame no more. Weak ones regain their strength. This is the every-day labor in Santa Fe.

Of Doan's Kidney Pills. Our citizens are making it public. Mr. John A. Holland, of 228 Main st., Kansas City, employed as foreman at Loose Bros' Cracker Co., says: "I commenced to have trouble and annoyance from a dull aching pain in my back over the kidneys about six months ago and sharp twinges often caught me in the kidneys when stooping or attempting to rise from a sitting position. Being convinced that it all arose from my kidneys, I tried a box of Doan's Kidney Pills. I felt so much better in a short time that I continued the treatment until I had used three boxes, when I was relieved of my trouble. It is a pleasure for me to recommend such an effective preparation as Doan's Kidney Pills proved to be in my case."

Just such emphatic endorsement can be had right here in Santa Fe. Drop into Ireland's Pharmacy and ask what his customers report.

For sale by all dealers; price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Gold in the Black Hills.

The Burlington Route has recently issued a 48 page booklet bearing the title "Mines and Mining in the Black Hills." The book is one which should be read by every mining man in Colorado. It gives more information about the mines of the Black Hills than has ever before been placed between two covers. A copy will be mailed free on application to the undersigned.

The Black Hills need Colorado men and money. Several of the shrewdest men in this state have already invested heavily in the Hills. The results so far have been more than satisfactory. The completion of the Burlington new line to the Northwest brings the Black Hills within a night's ride of Denver. You can leave Denver tonight and be in Deadwood or Lead City tomorrow afternoon.

OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver & Rio Grande Railway, from which point a daily line of stages run to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,886.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, Lodging and Bathing, \$2.50 per day; 114 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 10:05 a. m. and reach Ojo Caliente at 5 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7. MINOR CITY TOPICS

Ben-Ton: Mrs. Anna Mueller, Albuquerque.

An 8,000 pound safe is being moved today into the offices of the Santa Fe Central Railway Company.

Three candidates received the M. M. degree in the Santa Fe Royal Arch Chapter at Masonic Hall last evening. Exchange: M. A. Ross, Lake Linden, Mich.; M. Martinez, Francisco M. y Martinez, Taos; L. H. Shoemaker, Albuquerque.

The property owners along Water street have decided to institute mandamus proceedings against the city to compel the authorities to abate the Water street sewer nuisance.

Antonio Pino and Juan Herrera were sentenced to ten days in the county jail by Police Judge Francisco Anaya for disturbing the peace. They were working on the street today.

The maximum sun temperature yesterday was 78 degrees, the maximum shade temperature 63 degrees, the minimum temperature 39 degrees, the temperature at 6 o'clock this morning 42 degrees. The indications for tomorrow are fair with northeasterly winds.

J. H. Walker has bought from A. B. Renahan a lot on Grant avenue adjoining the residence of J. D. Hughes. An old adobe building on the lot is being torn down preparatory to the erection of a pretty brick cottage by Mr. Walker. The price of the lot was \$750.

A large flock of crossbills made merry chatter this morning in the orchard of George H. Cross on the south side. The birds are of rich plumage, resembling tiny parrots, and range the Pacific coast from Patagonia to Alaska. It is rare that they take the Rocky mountain route in their spring migration trip northward, but they very often appear here on their flight southward in fall.

Palmer: May Rader, Pueblo, Colo.; Mrs. M. C. Burchette, Lamy; Mrs. May Steadman, East Las Vegas; A. Mennel, Las Vegas; H. W. Taylor, Denver; Roy Houston, Lincoln; J. H. Billingslea, Denver; Alexander Read, Tierra Amarilla; C. L. Pollard, Espanola; Clarence Cobb, Denver; George Miller, Toledo, O.; E. H. Miller, Delton, O.; E. K. Stone, Quincy, Ill.; C. A. Jones, Trinidad, Colo.

Probate Clerk Manuel Delgado today recorded a deed by the City of Santa Fe for a lot in precinct No. 3; a home-stand patent by the United States to Inez Ortiz for the south 1-2 of the southeast 1-4 of section 4, township 16 north, and range 10 east; also a deed by Inez Ortiz to Encarnacion Ortiz for this land, consideration \$150. He also recorded the marriage license of Pedro Lopez to Emeteria Belasquez, both of Galisteo, who were married at Cerrillos by Justice of the Peace Tony Nels. Tomas Montoya and Nicolas Velasquez were the witnesses.

If it be true that coming events cast their shadows before, the Sisters of Loreto may consider their bazaar a splendid success. About forty of Santa Fe's representative ladies honored the meeting held on Tuesday last, with their presence. Many matters of importance relative to the bazaar were discussed, chairmen for various committees were appointed, and all passed off without any discordant incidents. This, however, is no subject for surprise as each one in attendance was the personification of amiability and good will. The time appointed for the opening of the bazaar is May 14.

A Good Fruit Year.

The farmers of southern and central New Mexico say that as far as their section is concerned all danger of frost is now over and that indications point to the finest fruit crop produced in this section for many years. All sorts of vegetation are now growing apace. It is said that garden truck is more than two weeks farther advanced than it was at this time last year. There is, however, urgent need for a good soaking rain.

"A Rare Selection."

Just received a large assortment from Old Mexico of nice spring lambs, Rocky mountain oysters, and Mexican rabbits. Call and see us at the Ben-Ton restaurant.

A Fine Business Block for Roswell.

Dr. Julius Garst, a capitalist of Boston, Mass., has decided to erect a fine business block at Roswell to be occupied by Joyce, Fruit and Company. The building is to have a front of 73 feet, to be two stories for a depth of 73 feet, and one story for a depth of 125 feet. It will be built of brick or of sandstone.

DYSPEPSIA

"For six years I was a victim of dyspepsia in its worst form. I could eat nothing but milk toast, and sometimes my stomach would not retain and digest even that. Last March I began taking CASCARETS and since then I have steadily improved, until I am as well as I ever was in my life."

IMPURE BAKING POWDER SEIZED.

The New York Board of Health Finds It Contains Alum and Rock, Declares It Dangerous to Health and Dump It Into the River.

The New York papers report that the Health Department of that city has seized as dangerous to health nearly two tons of cheap mixtures sold for baking powder, and dumped them into the offal scow to be destroyed. More of the powder was found in a Sixth ave. department store. The report of the analysis of the Health Department stated that it was "an alum baking powder" containing alum and pulverized rock.

The different Health Authorities seem to have different ways of repressing the sale of bad baking powders. In England they have prosecuted the grocers under the general law and broken up the traffic. In Missouri the sale of alum baking powder is actually prohibited by law. In New York they seize the unwholesome stuff and cast it into the river, without any discussion. The latter way is certainly effective.

The alum baking powders are usually offered at a low price, ten to twenty cents a pound, or with some prize, as a temptation to the housewife.

Consumers can protect themselves by buying only high-grade baking powder of established name and reputation. Do not be tempted by the grocer to take something else as "just as good" or "our own brand," for the trials show that the grocer himself is often deceived by unscrupulous makers and is selling an alum powder without knowing it.

There are several good powders on the market; let the housekeeper insist on having what she knows is right, and not be induced to risk the life of the family for an imaginary saving of a few cents.

A Bright Young Man

The Albuquerque Journal-Democrat speaks as follows of Douglas Wilson Johnson, yesterday elected to a fellowship of \$500 a year in Columbia University, New York:

"Douglas Wilson Johnson was graduated from the University of New Mexico with the degree of Bachelor of Science in 1901. During his year at Columbia he has several times won distinction. For his excellent work in geology, he won a gold medal and a substantial cash prize. He was appointed to a position in the field staff of the New York Geological Society, and as expert in an important law suit, settled a long controversy as to the old tide water marks in the East River. The young man has done good work in the field of scientific journalism. Many of his articles have appeared in the American Geologist, and in the last number of Out West is to be found an entertaining sketch of 'The Manzano Salt Lakes.' Many Albuquerque friends congratulate him upon the honor he so richly merits."

U. S. Weather Bureau Notes.

Forecast for New Mexico: Fair to night and Saturday; northeasterly winds.

Yesterday the thermometer registered as follows: Maximum temperature, 63 degrees at 1:40 p. m.; minimum, 39 degrees, at 6:05 a. m. The mean temperature for the 24 hours was 51 degrees. Mean daily humidity, 31 percent. Maximum temperature in sun, 76 degrees. Precipitation, a trace. Temperature at 6:00 a. m. today, 42 degrees.

Four New Buildings for Roswell.

W. H. Gondair, president of the First National Bank at Roswell, will erect four or five business blocks at Roswell this summer. The material to be used in the buildings will be either brick or sandstone. A 10-foot cement sidewalk will be laid in front of the contemplated buildings.

A Cold Storage Plant for Roswell.

H. P. Hobson has decided to build a cold storage plant at Roswell. The building is to be of red sandstone, two stories high and will have a front of 27 feet and a depth of 76 feet. It will be a handsome structure. On the second floor is to be a hall for fraternity uses. The plant is to be used for storing meats only.

Missouri Code Pleading

By Mr. Everett W. Pattison, (Author of Pattison's Complete Digest), Newly 600 Pages, Price \$5. Delivered. This Book is a Very Important One for all Lawyers.

The New Mexico Code is largely modeled on the Missouri Code so that this book and the Form book, are the most practicable for use thereunder.

It sets forth, as succinctly as is consistent with clearness, the present condition of the law governing pleading as interpreted by the courts of last resort in Missouri. The decisions are mostly those of the Missouri courts; though in some instances illustrations have been drawn from the decisions of other code states.

The Author Thoroughly Believes in the Advantages of the Code System of Pleading.

He further believes that precision and exactness are even of more importance in code pleading than in pleading at common law. For, while it is true that the common law requires the utmost strictness in adherence to forms, yet, if its forms are followed, the practitioner need have little fear of attack upon his pleading, even though that pleading should totally fail to inform his opponent as to the real points in issue. On the other hand, the very object of the Code is to compel parties to make clear the grounds upon which their right to recover, or their defense, is based. The lawyer who is well grounded in the rules of pleading will surely have the advantage in litigation. The constant study of this valuable work, familiarly with the rules set forth in it, and with the decisions enforcing and interpreting those rules, cannot fail to make one a good pleader.

SPECIAL OFFER—To those who buy both books at once, we will offer Pattison's Pleading Form Book (Price, \$5.00), if ordered with the next 30 days for \$4.00 additional, thus offering the two works, giving all there is to be said about Pleading in Missouri.

In one order, Prepaid for \$10.00.

KITCHEN PLEASURES.

It's pleasant work. There is nothing difficult or disagreeable in cooking when the material is first class. There is no reason at the present time why you should not have first class material. Pure food is so cheap it scarcely pays to sell inferior stuff. We sell the best groceries and you find it a pleasure to use them.

MEATS THAT PLEASE.

We endeavor to get better meat qualities all the time. We select the best quarters so that we may sell the best meats. Those who are particular pronounce ours a little better than others. Tender roasts and juicy steaks are our delight
