DANISH WEST INDIES TO BE SOLD.

San Francisco, May 18.—At 8:45 a. m. Secretary Cortelyou gave out the following statement: "Mrs. Hirschfeld, daughter of Dr. Hirschfeld, who was with Mrs. McKinley at the time of her death, is recovering rapidly and is expected to be able to leave her bed in a few days."

MCKINLEY SPEAKS.
San Francisco, May 18.—It has been decided that President McKinley will visit the Union Iron Works to address the working men and witness the launching of the battleship Ohio.

When the president left the Scott house at 9:40 he walked briskly down the stairs to his carriage. The careworn expression of his face which has been noticeable the past few days had disappeared. For fear of disturbing Mrs. McKinley there were no noisy demonstrations, merely respectful lifting of hats as the president passed by.

Commissioner George Newhall and a mounted guard of four policemen accompanied the party.

The president drove rapidly through the streets, was cheered enthusiastically and in response repeatedly lifted his hat. At the transport dock, he boarded the government tug Slocum.

Besides the cabinet members and ladies there were on board the little vessel Governor Nash, of Ohio, and staff and ladies; Miss Barber, niece of Mrs. McKinley, Miss Deshaier and sister.

As the Slocum left the transport dock the screaming whistles, clanging bells and booming cannon made a volume of sound that could be heard for miles.

A great fleet preceded the president out into the bay, all loaded down to the water's edge with masses of humanity anxiously awaiting to do the president honor. Bands played popular pieces and there was incessant cheering, and cannon boomed from the warships in the harbor.

President McKinley arrived at the Union Iron Works shortly after 10 o'clock and found 2,000 employees assembled at the big yards. He was greeted with a cheer and presented with a gold plate in memory of the occasion. He spoke briefly to the men, thanking them for the gift, and complimenting them on their skill as workmen.

After an inspection of the works McKinley went to a stand where he saw the launching of the battleship Ohio. He boarded the Slocum and returned to the Scott residence. During the president's absence at the launch, Mrs. McKinley slept quietly and was reported to the president that her condition was constantly improving.

LAUNCHING OF THE SHIP.
San Francisco, May 18.—Miss Barber, niece of Mrs. McKinley, pressed the button and Miss Deshaier smashed a bottle of California champagne, and at 12:22 p. m. the big battleship Ohio took her first clip into the sea. Fifty thousand people cheered themselves hoarse; big guns of the warships boomed out a salute and every steam whistle within a radius of five miles shrieked loudly. Later the Ohio was towed to the dock, where she will be tied for a year or more until finally completed.

Before the launching Irving M. Scott and Henry T. Scott took President McKinley, Governor Nash and their parties for cursory inspection of the more important sections of the great yards where the ocean warriors are built.

The Ohio slid smoothly from the ways at 12:22 p. m.

OUT OF DANGER.
San Francisco, May 18.—Secretary of the Interior Hitchcock stated this morning that he considers Mrs. McKinley out of danger.

Eclipse of the Sun.
Amsterdam, May 18.—The Dutch expedition observing the total eclipse of the sun at Karangas, Sumatra, to-

graphs: "During the eclipse the sun was partially obscured by clouds. Successful photographs were taken of the corona with different refractors, and of the spectra of the corona and chromosphere with two spectrographs. On the other hand photographs with astrometric camera and measurements for polarization of light and heat radiation of the corona have not succeeded."

Costly Fire.
Philadelphia, Pa., May 18.—The country home of Thomas B. Wanamaker at Meadow Brook was struck by lightning this morning and entirely destroyed. The loss is estimated at \$500,000. The house was adorned with valuable paintings and bric-a-brac, all of which was destroyed.

Danish West Indies.
Copenhagen, May 18.—It is officially announced that the Danish West Indies have not been sold. Negotiations are progressing.

DEATH OF MRS. GAGE.

Funeral of the Wife of the Secretary.
Washington, May 18.—Brief funeral services over the remains of Mrs. Gage will be held at the secretary's residence on Monday morning. Dr. N. D. Hill, pastor of Plymouth church, Brooklyn, a personal friend of the family, will officiate. The secretary and daughter, Mrs. Pierce, will leave with the remains on the Pennsylvania limited at 10:50 a. m. Monday for Evanston, Illinois. Mrs. Gage will be buried in the family lot at Roselawn cemetery, Chicago. Officers of the treasury department will act as pallbearers. Secretary Gage has received a large number of messages of condolence from all sections of the country. The president telegraphed: "Our message brings us inexpressible sorrow. You have our deepest sympathy in this great affliction."

Cerrillos Railroad Sold.
Santa Fe, N. M., May 18.—The property of the Cerrillos Coal Railroad company, operating a branch of the Santa Fe railroad and coal mines in this county, was sold today at master's sale under foreclosure of a mortgage of \$800,000, for \$400,000, to the Cherokee & Pittsburg Coal and Mining company, the only bidder.

Gas Explosion.
Tepoka, Kas., May 18.—Josephine Heron and Carrie Sheffield, employed at the postoffice, were frightfully injured by gas exploding in a vault this morning. Miss Heron is not expected to survive.

Steamer Ashore.
Milwaukee, Wis., May 18.—The steamer Nyack of the Crosby line, which left Grand Haven for Milwaukee last night, went ashore at North Point, during the fog today. The Nyack carries passengers and freight. Tugs have gone to her assistance.

All the passengers, about a dozen, were taken aboard a tug and conveyed to the city. The steamer is not leaking.

Weekly Bank Statement.
New York, May 18.—Loans, \$873,512,100; deposits, \$2,404,800; deposits, \$2,404,800; circulation, \$31,109,000; increase, \$27,900; legal tenders, \$74,317,500; increase, \$1,578,000; specie, \$176,889,100; decrease, \$2,871,600; reserves, \$251,206,600; decrease, \$1,293,600; reserve required, \$278,906,675; decrease, \$6,466,050; surplus, \$139,999,255; increase, \$5,172,450.

Strike in Russia.
St. Petersburg, May 18.—Strikes, accompanied by street disorders, have broken out here. The police have arrested 132 persons. Several large spinning and other factories are in a state of paralysis.

Presbyterian Creed.
Philadelphia, Pa., May 18.—The Presbyterian assembly selected next Thursday, at 10 a. m., for consideration of the report of the special committee on revision of the confession of faith. It is considered that the debate will consume at least two days.

Took Poison.
Vienna, May 18.—The story is current that Queen Draga, of Serbia, took poison, when the king discovered the situation on revision of the confession of faith. It is considered that the debate will consume at least two days.

Treaty With England.
London, May 18.—The draft of Secretary Hay's proposals for the new Nicaragua treaty were received from Lord Pauncefote by the last mail. It is a voluminous document and is being printed previous to examination and discussion. It is described as a redraft of the Hay-Pauncefote treaty with what appears, from casual perusal, to be extensive annotations.

INDIAN TRADING STORES.

W. A. Smith is making a model speech for McKinley county. He is proving a terror to law-breakers. Prosperity has favored D. Venetti, and the gentleman has laid aside the law and last to engage in the saloon business.

Since resigning his office as justice of the peace in this precinct Theodore Maxwell is devoting his attention to his lumber business.

The Gallup railroad station agent, Capt. Holmes, is an old printer, and therefore knows how to accommodate visiting press representatives.

Rev. W. E. Ponks, who has been absent from Gallup the past few weeks, returned home Thursday morning. He enjoyed a week in El Paso.

Peter Kennedy is contemplating a trip to southern California in the near future, where he hopes to regain his former good health in a lower altitude.

The Citizen has added over seventy-five new subscribers to the big Gallup list, besides half a dozen new names in each of the various coal mining camps.

Miss Edith Bayless has severed her connection with the Gallup Republican as a type and has accepted a position with the Gem Grocery company.

A new saloon has just been opened at the Gibson mine by J. A. Gordon, manager of the Gage bar in Gallup. E. B. Morris is in charge of the new establishment.

Samuel O'Bannon, son of Luis O'Bannon, of Albuquerque, is successfully holding down the position of deputy city marshal, and does not allow one guilty party to escape.

George Kraker, one of Gallup's old standbys, conducts a first class wet goods establishment on Main street, and reports his business as holding up remarkably well for this season.

The new city restaurant, which is owned by John Gurske, is receiving its portion of the patronage, and the services of Charles Stern have been retained, and this gentleman is performing his duties as assistant in an able manner.

Palmer Ketter and George Wetters are prominently identified with the extensive mercantile institution of the Calcedonia Supply company, and are generally capable of producing a good item for the reporter when he asks for the "latest."

The grading outfit of B. Lantry & sons has pitched camp about a mile west of the city and the work of shifting the main channel of the Rio Puerco is in progress. Seventy-five men, with teams and scrapers, are engaged in this task.

Mrs. Charles Paxton, who was among the pioneers to settle in New Mexico in the early '80's, is yet one of the staunchest residents of McKinley county, and is always pleased to hear the news from Albuquerque, in which city she is well and favorably known.

Col. Samuel Brown, who is in the second hand business on Main street, Gallup, is one of the best single-handed political talkers in that city. He makes friends by talking sensible politics, and can sell goods with the best of them in the second hand business.

Frank Bock, who was the manager of the Opera House restaurant, has skipped out. A Santa Fe Pacific railroad came into the restaurant and entrusted with Bock \$50 in money. The night Bock made himself scarce, and telegrams sent up and down the railroad failed to locate him.

Thos. N. Hinch states that once in awhile the rheumatism comes back to his joints, and he is planning to take a trip to southern California sometime in July. His hotel is a popular stopping place in Gallup, and if Mr. Hinch does not get well, he is in a bad way to make patrons feel at home.

The firm of Page & Wolfe are doing a good business in the manufacture and sale of ice this season. A full force of workmen are employed. The bottling works, which occupies another portion of the ice factory and owned by the senior member of the firm, gives employment to several workmen.

The town of Gallup is well supplied with a first class electric lighting plant. W. H. Wolfe is the general manager and owner. The plant was installed and put in operation at an expenditure of \$15,000. There are 800 incandescent 16 and 32 candle power lamps in the business houses and residences, and twenty-five are lights on the streets.

The Indian trading posts of C. N. Cotton, B. F. Zahn and Mr. Sampson are enjoying a very fine business even in these times of depression, and the results of a miners' strike or a coal strike is not so keenly noticeable at these places as at others. Each of these proprietors keep their stores supplied with large stocks of all goods generally present.

Major Geo. H. Pratt, the well known government engineer and surveyor, was in Gallup yesterday, arranging to visit the oil lands. The major has done a big lot of surveying for the various locators, and is so enthusiastic over the grounds located by the Mariano Oil company that he has purchased 1,500 shares in that company. The Citizen will treat the oil lands near Gallup to a lengthy article in a few days.

Will Ments, the traveling representative of The Citizen, who hustled around in Gallup and vicinity the past few days, will be in Holbrook Monday, Winslow Tuesday and from there continue on his western trip. W. T. McCreight, who was also at Gallup and who did considerable hustling for The Citizen and the territorial fair, returned to the city this morning. The latter, with a party of Gallup citizens and a representative of the California Consolidated Oil company, visited the oil fields and will have something to say about them in an article next week.

John Kennedy, the veteran dry goods merchant, is one of the most eloquent orators on labor vs. wealth,

or in other words, "How Trades Unions and Labor Organizations Can Save the Union," in Gallup, and whenever a stranger visits the Kennedy store John is always ready to interest him with a five minutes' speech. In a circular recently published, announcing that he has clothing, boots and shoes and other goods for sale, Mr. Kennedy says: "The great master minds of the world agree that 'trades' unions and labor organizations will save the nation. Now, my dear friends, I assert without fear of contradiction that the day is not far distant when the 'trades' union and labor organizations will drive all dishonest combinations from the industrial field and make room for such men as J. P. Morgan and Charles M. Schwab, who are not afraid to cooperate with their employees to advance civilization, promote human happiness and bring the race up to a high plane. Tyrants cannot stop the material law of evolution. The unions have come to stay."

Many regret the fact that Gallup will soon lose the valuable services of Prof. D. M. Richards, the man who has been Gallup to the front as one of the principal school centers of the territory. He was recently elected a member of the faculty of the Agricultural college at Mendota Park.

The Page hotel, on the European plan, is one of the nicest places to stop in the town of Gallup, and the proprietor, Gregory Page, and his estimable wife, make it pleasant for all visitors.

Acquire the Burlington.

New York, May 18.—J. P. Morgan & Co. announced today that the third of the stock of the Burlington & Quincy Railroad company has been deposited with the Colonial Trust company, Boston, and Metropolitan Trust company, New York, marking the consummation of the deal by which the Great Northern and Northern Pacific companies acquire the Burlington.

Opposed to Typewriters.
Constantinople, May 18.—The customs authorities have prohibited the entry of typewriters into Turkey on the ground that with them one can put in type seditious writings without fear of compromising himself. Hostile graphic paste and fluid are also prohibited for similar reasons.

MARKET QUOTATIONS.

Market quotations and review furnished by W. P. Metcalf, No. 5 Cromwell block, received over the private wire of F. Logg, of the Chicago Board of Trade.

New York, May 18.—Stocks.—(Sharpe & Bryan)—The market opened strong and active, with interest very generally directed to the oil list. Atchison common advanced rapidly on large purchases, said to be for Chicago and Philadelphia, and the strength in Rock Island lent color to the rumors of the closer relations between those two roads.

There was strong report that the portion of the patronage of the Steamship line was for that road. The bank statement was favorable. The market generally closed strong, with the highest prices of the day.

Chicago, May 18.—Wheat closed at 72 1/2c for July. Yesterday's close, 71 1/2c; Liverpool was 4c to 5c lower. After an easy opening the market gained strength and advanced sharply. The influence seemed purely local. The market was overclouded on the fine crop prospects and there was no selling pressure from long wheat. Further rains and reports in the south-west and the general crop outlook is probably as fine as it ever was at this season.

STRIKES PREVAIL IN RUSSIA.

New York, May 18.—The World says today: "It is stated upon positive authority that John D. Rockefeller's railroad combination plans the establishment of a through line from New York to San Francisco under one management, composed of the following roads: The Delaware, Lackawanna & Western, Wabash, Missouri Pacific, Denver & Rio Grande, Rio Grande Western, Central Pacific.

The great combination will consist of the New York, New Haven & Hartford, Delaware, Lackawanna & Western, Wabash, Missouri Pacific, Union Pacific, Chicago, Milwaukee & St. Paul, Chicago & Alton, Chicago Terminal Transfer, Chicago & North Western, Illinois Central, Chicago & Eastern Illinois, Evansville & Terre Haute, St. Louis & Southwestern, Denver & Rio Grande, Rio Grande Western, Southern Pacific, Central Pacific, Mexican Central, Missouri, Kansas & Texas and Kansas City Southern.

All these will work in close conjunction and act as feeders for the Atlantic & Pacific air line, as the Rockefeller transcontinental road will probably be known.

LINE TO LOS ANGELES.
Trip Over Proposed Road From Salt Through Utah.

San Francisco, May 18.—Horace G. Hurt, president of the Union Pacific road, arrived here from the southern part of the state, after making a trip of several hundred miles over the plains of southern Nevada and California in a wagon. President Hurt drove all the way from Nevada, a point on the Utah-Nevada state line, and southern terminus of the Oregon Short Line extension to Ludlow, a station on the Santa Fe, in southern California, accompanied by R. J. Kilpatrick, of Boise, Neb., and W. H. Kilpatrick, of Denver, Colo., railroad contractors.

While they are not inclined to talk of their trip, it is understood that they made a careful reconnaissance of the country to familiarize themselves with the topography and engineering difficulties to be encountered in the construction of the proposed Salt Lake & Los Angeles short line.

Street Car Strike Settled.
Albany, N. Y., May 18.—President Sheehan, of the Albany branch of the Amalgamated Association of Street Railway Employees, which has been engaged in a strike against the United Traction company, is authority for the statement that the Troy union has accepted the proposition made by the Albany union and agreed to by the United Traction company, and that all lines in the five cities will be running by 12 o'clock with the old men.

STRIKE ENDED.
Albany, N. Y., May 18.—The street railway employees strike, inaugurated eleven days ago on the lines of the United Traction company at Albany, Troy, Cohoes, Rensselaer and Waterville, is at an end, and operations were resumed at noon today. There have been concessions on both sides.

New Mexico demands Statehood from the Fifty-Seventh Congress.

For Governor of New Mexico from June 7, 1901, to June 7, 1905, Miguel A. Otero.

ALBUQUERQUE — MAY 18, 1901

This is a sad, cruel world if you decide to have it that way.

The American soldier is a free and easy soldier, but the world isn't his equal as a good soldier.

American commerce is enlarging until it has already reached the uttermost corners of the earth.

American mines, forges, oil wells, mills, bridges, engines and machinery of all sorts take the first prize and are acknowledged models and exemplars from pole to pole and all around the equator.

The present prosperity of the south is unparalleled. Everybody has been making money and is comfortable and contented, and as long as ten or even nine cent cotton lasts the improvement will continue.

"The progress of a nation can alone prevent degeneration. There must be new life and purpose or there will be weakness and decay. There must be broadening, a high ideal, a new broadening of trade," William McKinley.

It is a singular phenomenon, as noticeable in this country as anywhere, that the movements of population are gradually shifting, and to-day manufacturing cities and towns are increasing in importance more rapidly in proportion than the great commercial centers.

SALE OF POISONS.

R. Ruppe, the Albuquerque druggist, and president of the territorial board of pharmacy, has been industriously at work rounding up and bringing registered pharmacists to the lower country, says the Las Vegas Optic, also looking after the enforcement of the law regulating the sale of poisons by other dealers than druggists. Under the New Mexico statutes a prescription cannot be legally compounded by a party who is not a registered pharmacist and even drug store proprietors cannot traffic in poisons unless the name of the purchaser and the use to which the drug is to be put are entered of record. The law on the subject may be found in sections 1259 and 1260 of the compiled laws.

AN ANCIENT TRAVELLER.

One of the most marvelous overland trips ever made, far exceeding in the matter of difficulties overcome and sufferings endured any of the modern exploratory trips in Africa, about which we are wont to boast so much, was that accomplished by the Spanish buccannier and soldier, Cabeza de Vaca, who during the middle part of the sixteenth century landed at Florida at the head of a party of several hundred, and after three years wandering across the continent, came out with a few men left at Matanzas, on the west coast of Mexico. The record of the trip are exceedingly obscure, but it is generally understood that the Mississippi was crossed somewhere between Memphis and Vicksburg; that the Arkansas valley was followed up until the Canadian or Cimarron were reached, up one of which the route led across the staked plains to a point in the Rio Grande valley near Santa Fe or Albuquerque, New Mexico. From here what remained of the party went down the Rio Grande to the mouth of the Conchos, in Chihuahua, up the latter to the continental divide and down its western slopes to the Pacific. If this outline of the trip is correct it was a trip of more than 4,000 miles, nearly all of which was through an arid region. Recently a farmer in Oklahoma plowed up a grave containing a crumbling skeleton, and a expert engineer, who examined the remains, was of the opinion that the time of Cabeza, which seems to prove beyond question that the gentleman left one of his party at that point.

Overwork

You know all about it. You are a perfect slave to your work. It's rush through the day and worry—through the night. There's no time to eat and no time to sleep. The outlook is dark and forbidding. You feel sure there is but one termination—nervous prostration. And nervous prostration is something you don't want, that's certain. Then don't have it. What you need is a perfect Sarsaparilla. So far as we can learn, there is but one in the world, and that's

Car.

The members of C. K. Warren Post, G. A. R., and the W. R. C., being desirous of making this coming Memorial Day one of interest and pleasure to be remembered by both young and old, the committee of arrangements are doing everything in their power to have a perfect day. They have decided to present two silver flags, one to the ward or police school jurisdiction of this city which turns out the largest percentage of their enrollment on Memorial Day; the other to the school which turns out the largest percentage of enrollment on that day—the latter includes the Indian school and the Catholic schools. They do this as an incentive to encourage the young to turn out and help to honor to the men who gave up their lives to preserve this the best nation on earth, and give an object lesson which will be remembered by all our way.

In order to carry out our plans we need some money. Our finance committee, Mrs. Hawley, Mrs. Johnson and Mrs. Hutton, will call on the citizens for contributions to defray the necessary expenses. Give as liberally as you can. A full report of receipts and expenditures will be published in the Standard. This is the people's day, as well as the G. A. R.'s and we are glad to state that the city council granted us material help in the form of a loan. Most all of the old soldiers are poor and unable to bear these expenses alone, and we do not believe the citizens of Albuquerque expect us to expect to have seats for all the children, and all the people as far as possible. Let us make it a glorious day and do honor to those who made this land what it is to-day—one country, one flag, from ocean to ocean, from the lakes to the gulf and across.

with the privilege of anticipating the latter payment. Negotiable receipts will be issued against payments, exchangeable for engraved certificates of stock as soon as they can be prepared.

The Preferred Stock, in shares of \$100 each, is preferred in liquidation to the amount of its par value and accumulated dividends.

It is preferred in cumulative dividends to the extent of seven per cent per annum, and has a further preference of one per cent, non-cumulative, after the payment of seven per cent on the Common Stock.

It is convertible into Common Stock, share for share, at the option of the holder, upon any first day of May, until and including May 1, 1921, exclusive of any declared dividends.

No additional Preferred Stock can be issued at less than par in cash, or for property at such cash value.

The certificate of incorporation confers authority on the Board of Directors, in their discretion, to declare and pay dividends on the Common Stock concurrently with the Preferred Stock, when earned and applicable there to.

The fiscal year of the company commences May 1st. The Preferred Stock dividends are payable quarterly, commencing August 1st 1901. Application will be duly made to list the Preferred and Common Stocks on the New York Stock Exchange.

The Allis-Chalmers Company represents the consolidation of the property and business of the following builders of heavy machinery:

The Edward P. Allis Co., of Milwaukee, Wis.

Fraser & Chalmers, Incorporated, of Chicago, Ill.

Gates Iron Works, of Chicago, Ill.

Dickson Mfg. Co., of Scranton, Pa. (exclusive of Locomotive Works).

All property acquired is to be conveyed in fee and free from mortgage or other lien.

No mortgage can be placed upon the property without the assent of seventy-five per cent of the amount of Preferred Stock outstanding.

The expert engineer, Mr. Julian Kennedy, reports, after several personal examinations of the properties, that he estimates "the value of the plants taking into account the real estate, buildings, machinery, tools, patterns, drawings and patents, together with the cost of organizing and getting into full operation, but not estimating anything for good will, at \$9,935,000."

He further reports, under date of April 25th, 1901, as follows:

"I find the plants all running at their fullest capacity. The great bulk of the tools in all these are comparatively new, having been put in within the last seven or eight years, and all the works are in good condition and running smoothly."

The security of the Preferred Stock, without any consideration for the advantages accruing from the consolidation, for the valuable good will of the several Companies, so long and favorably known all over the world, or for the earning capacity of the united Companies, will be substantially as follows:

Cash Capital - \$10,000,000

of which sum \$2,500,000 will be expended in the erection of an additional plant to double the present capacity of the Allis Works.

Valuation as above of existing plants owned in fee and free of lien - 9,935,000

Total present value of tangible property - \$19,935,000

The total issue of Preferred Stock against this property is 16,250,000 all of which is issued for cash at par, or, in lieu of cash, for the plants at less than their valuation as above stated, and of which total issue there will be more than 61 per cent in cash, and the balance will be in property that produces more than the cumulative dividend to which the Preferred Stock is entitled.

Of the total Preferred Stock, \$7,500,000 has been accepted by the original Companies in lieu of cash, in part payment for their properties to be conveyed to this Company. The remainder, \$8,400,000, is now offered for sale to provide for the discharge of existing mortgages and for part of the above mentioned Cash Capital, the remainder thereof being provided by the sale of Common Stock already consummated.

The accounts of the several concerns have been examined by Messrs. Jones, Casper & Co., chartered accountants, who certify that the combined profits of these Companies, in each of the last two fiscal years, after making full provisions for depreciation and bad debts, but without charging interest and management salaries, exceeded the amount required to pay seven per cent dividends upon \$16,250,000 Preferred Stock, whilst for the last fiscal year the profits, as above defined, considerably exceeded such amount.

It was not until the last year that the new work of Fraser & Chalmers came into full operation.

The net profits for the fiscal year ending May 1, 1902, are estimated by the chief officials of the respective companies, without any allowance for increase of manufacturing capacity, or for the economies of consolidation, to be sufficient to pay dividends at the rate of seven per cent on the \$16,250,000 Preferred Stock and about four per cent on \$20,000,000 of Common Stock. Including the economies from consolidation, and the participation by these authorities, the net profits for the same period should exceed the amount required to pay seven per cent dividends on both classes of stock.

The same officials similarly estimate that upon the completion of the additional plant now under construction, the profits will be equivalent to eight per cent on \$16,250,000 of Preferred Stock and ten per cent on \$20,000,000 of Common Stock, with a material addition to the Surplus Account.

The business of these concerns, with more than fifty per cent increase of capacity and ample cash capital, will be conducted by the Messrs. Allis and Reynolds, of E. P. Allis Company; W. J. Chalmers, of Fraser & Chalmers; and Gates & H. P. Gates Iron Works, who have successfully managed the same for many years.

The Board of Directors has been constituted as follows:

EDWARD D. ADAMS, New York.

MARK T. COX, Orange, N. J.

W. L. ELKINS, Jr., Philadelphia.

ELBERT H. GARY, New York.

HENRY W. HOYT, Chicago.

WILLIAM A. READ, New York.

JAMES STILLMAN, New York.

CORNELIUS VANDERBILT, New York.

The regularity of the incorporation of the Allis-Chalmers Company and the validity of the issue of its securities are certified to by Messrs. Strong & Cadwalader, of New York, and Messrs. Pam, Calhoun & Glennon, of Chicago.

The accounts of the Company will be regularly audited by Chartered Accountants.

SUBSCRIPTIONS FOR THE ABOVE DESCRIBED PREFERRED STOCK WILL BE RECEIVED AT THE OFFICES OF THE UNDERSIGNED UNTIL THE CLOSE OF BUSINESS ON TUESDAY, THE 21ST DAY OF MAY, SUBJECT TO THE RIGHT OF THE UNDERSIGNED TO REFUSE ANY OR ALL SUBSCRIPTIONS, AND TO CLOSE THE SUBSCRIPTION, AT ANY TIME WITHOUT NOTICE. TEMPORARY RECEIPTS WILL BE ISSUED, PENDING THE PREPARATION OF ENGRAVED CERTIFICATES.

The entire amount of this issue has been underwritten.

AFTER PERSONAL INVESTIGATION WITH THE ASSISTANCE OF EXPERTS IN THEIR RESPECTIVE LINES, OF THE PROPERTIES, BUSINESS AND EXECUTIVE ADMINISTRATION TO BE REPRESENTED BY THE ALLIS-CHALMERS COMPANY, WE RECOMMEND ITS PREFERRED STOCK AS A MANUFACTURING INVESTMENT, IN THE SECURITY, EARNINGS AND MANAGEMENT OF WHICH WE HAVE ENTIRE CONFIDENCE.

If people only knew what we know about Kodol Dyspepsia Cure, it would find its way into nearly every household, as there are few people who do not suffer from a feeling of fullness after eating, belching, flatulence, sour stomach, waterbrash, caused by indigestion or dyspepsia. A preparation, such as Kodol Dyspepsia Cure, which, with no aid from the stomach, will digest your food, certainly can't hurt you and you are good. Cosmopolitan Pharmacy.

Mr. F. D. Arnold, of Iowa, writes: "I am troubled with kidney disease about three years. Had to get up several times during the night, but three bottles of Foley's Kidney Cure effected a complete cure. He feels better than he ever did and recommends it to his friends. Alvaredo Pharmacy.

Beware of a Cough.

A cough is not a disease but a symptom. Consumption and bronchitis, which are the most dangerous of fatal diseases, have for their indication a persistent cough, and if properly treated as soon as this cough appears are easily cured. Chamberlain's Cough Remedy has proven wonderfully successful, and gained its wide reputation and extensive sale by its success in curing the diseases which cause coughing. If it is not beneficial it will not cost you a cent. For sale by all druggists.

Sudden Death.

Blackfoot, Idaho, May 17.—George D. Golden, grand master of Masons of Idaho, died suddenly at Idaho Falls today of neuralgia of the heart.

Shudders at His Past.

"I recall now with horror," says Mail Carrier Burnett Mann, of Leavenworth, O., "my three years of suffering from kidney trouble. I was hardly ever free from all aches or acute pains in my back. To stoop or lift mail sacks made me groan. I felt tired, worn out, about ready to give up, when I began to use Electric Bitters, but six bottles completely cured me and made me feel like a new man." They're unrivaled to regulate stomach, liver, kidneys and bowels. Perfect satisfaction guaranteed by J. H. O'Reilly & Co.

"I had a running sore on my breast for over a year," says Henry R. Richards, of Wilkesville, N. Y., "and tried a great many remedies, but got no relief until I used Banner Salve. After using one-half box, it was perfectly cured. I cannot recommend it to highly." Alvaredo Pharmacy.
