PANAMA CANAL!

Offer to Sell to United States.

Notorious Prisoners to Be Paroled.

President McKinley Visited Congress Mine in Arizona.

HIGH PRICE OF STANDARD OIL STOCK.

New York, May 7.—In order to remove the objection raised by the isthmian canal commission, the Panama Canal company, with the approval of the Colombian government, says the Washington correspondent of the Herald, has announced the terms upon which it will sell the Panama canal to the United States. The letter containing its proposition was submitted to Rear Admiral Walker, chairman of the commission, by Mr. Martinez Silva, Colombian minister.

No price is set by the company. It suggested the appointment of appraisers—one by the United States and one by the company, those two to select the third—the estimate of the board thus formed to be final.

Notorious Prisoners to Be Paroled.

St. Paul, May 7.—At a regular meeting of the board of managers of the state prison at St. Paul, Minn., unanimous action was taken in favor of paroling the Younger boys now serving life sentences. Before the parole can be effective, all with the protection of the state pardon board must approve it, and the action will be submitted to that body as soon as possible.

PRESIDENT IN ARIZONA.

Congress Mine Visited and Inspected by the President.

Congress, Arizona, May 7.—The presidential party spent several hours this morning visiting the Congress mine. Justice Street and other territorial officials came here on a special train to welcome the president to the territory. The president did not descend the shaft, but all the members of the cabinet, except Secretary Wilson, went down in the cage to the lowest level, and witnessed the drilling and blasting process. The president, accompanied by the president of the mine, Mr. Ed. Gage, walked through a half mile of tunnel lighted by candles to the stamp mills, where eight stamps were crashing. He inspected the cyanide works and saw a bar of gold worth \$25,000. The president asked if he could not see the bar.

"It is red hot," said Gage.

"I will show it," shouted one of the miners named Richmond, stepping forward, and with the protection of only a few rays on his hands, he seized the red hot mould and dumped the white hot bar of glowing metal upon a stone. The rays were ignited by the heat and the young man's hands were scorched, but he did not wince.

"That is true American pluck," cried the president, advancing toward Richmond. "I want to shake your hand." He grasped the man's hand and shook it cordially.

On the way back to the train the president had a good view of the mining camp in the valley below.

High Price for Stocks.

New Orleans, May 7.—The Standard Oil company declared a dividend of \$12 a share, payable June 15. The stock sold on the curb this morning at \$842, the highest on record.

RESULT OF DRAWING CONTEST.

J. E. Elder Proved to Be the Lucky Owner of a Valuable Coupon.

The drawing contest took place at 10:30 o'clock this morning at the wall paper establishment of C. A. Lampman on south Second street. The contest was witnessed by two or three disinterested parties and a few that were holders of coupons. All present declared that the system, which originated in the fertile brain of Mr. Lampman, was fair and square. J. E. Elder, manager of the Colorado Telephone company, held the lucky number, which was 176, and at the conclusion of the contest the winner was notified by telephone of his success.

From the 6th of April to and including May 6, every purchaser of a dol-

lar's worth of goods from Mr. Lampman was given a ticket which entitled them to one chance of drawing the number which carried with it an opportunity to have an entire room papered, with molding to match, from any pattern they may select from the large stock free of all charges.

As this innovation worked so successfully it is likely Mr. Lampman will try it over again in a short time, or he will hit upon another scheme which will be equally as well patronized as the former.

WILL SHOW TO-MORROW.

The Gentry Dog and Pony Circus Concludes to Remain Over.

On account of arriving late from the south, the famous Gentry dog and pony show, No. 4, remains over and will give two performances to-morrow—afternoon and evening. The fine exhibition parade will occur throughout the city to-morrow morning. Everybody in Albuquerque likes to attend a first class show, such as the Gentrys, and they will now have an opportunity to see the educated animals perform.

STREET CAR STRIKE.

Albany, N. Y., May 7.—Employees of the United Traction company, which operates the street surface car lines of Albany, Troy, Cohoes, Watervliet, and Rensselaer struck this morning. The car lines of the five cities are completely tied up. The strikers want complete recognition of the Amalgamated Association of Street Railway Employees and the discharge of seven non-union men employed by the company. They also want extra men paid the same rate per hour as regular men. The strikers, who number about 1,000, are orderly.

Death of Mrs. J. A. Forehand.

On April 19 last J. A. Forehand, who resigned his position as the manager of the Postal Telegraph company's local office, left for Seattle, Wash., with his invalid wife, so she could pass the few remaining days before death with her parents and among life-long friends. Today the local telegraph company received a sad message from Mr. Forehand, announcing that yesterday afternoon his wife died. Mr. Forehand and his wife resided in this city for a year and a half, and made many friends here, who will join with the Citizens in extending condolence to the bereaved husband and parents.

THREE HORSES DROWNED.

General Merchant Kempenich, of Peralta is mourning the loss of his horses.

Daniel Gurke, of Freiberg for A. Kempenich, of Peralta, had a close call yesterday morning from three drowned horses. He was driving four horses in an empty freight wagon headed for Albuquerque to secure a load of supplies for the general merchandise store of Mr. Kempenich. The horses in the lead becoming thirsty stepped from the main road down the water's edge of the river to drink. The wheel horses followed suit, forcing the leaders into the water even feet in depth, causing the heavy wagon to roll down upon them. All four, with the wagon and driver, were soon in the river. The three animals were drowned, and they, together with the wagon, floated down to the nearest sandbar where they lodged. Gurke jumped from the horse and went back to report the accident.

Will Extend Chinese Trade.

Washington, May 7.—It has developed that the movement for an extension of opening of China to foreign trade and commerce has the active approval of not only the United States and several leading powers, but also the Chinese officials. The attitude of Russia is the source of some solicitude, but although negotiations are being so framed as to obviate any objection that Russia might raise if the opening of commerce was to apply principally to Manchuria.

SIGNS OF PANIC!

Stock Market in Shaky Condition.

Sick Witness Delays Murder Trial.

Well Known Firm of Stock Brokers Fail in New York.

THE STOCK QUOTATIONS.

New York, May 7.—A violent advance in Northern Pacific to-day and failure of the general market to respond to it caused growing uneasiness. There were rumors of a sharp struggle to regain lost control. The stock touched 193 1/2 and fluctuated feverishly below that level, dropping back to 141.

Sick Witnesses.

New York, May 7.—It was said at the house of detention to-day that the condition of Chas. F. Jones, principal witness against Albert T. Patrick, charged with the murder of Wm. M. Rice, is no worse than last night. Jones probably will be removed to a sanitarium where he will be treated by means of injections of food. The disease is catarrh of the stomach, and he is unable to take any nourishment except milk and seltzer. He has not taken solid food for five days.

Stock Brokers Fail.

New York, May 7.—Lewis, May & Co., stock brokers, to-day assigned for the benefit of creditors. The firm is composed of Orrin S. Barnum and Lewis A. May.

Taliferro & Jones, attorneys for Lewis May & Co., estimate the liabilities between \$30,000 and \$40,000; assets, \$14,000 to \$20,000. The failure is ascribed to the heavy burdened past assumed by the senior partner, Lewis A. May, when he failed December last for a sum approaching \$100,000.
