A RUINED CITY!

Jacksonville a Scene of Desolation.

Chinese Show Intense Hatred of Foreigners.

Serious Anarchist Riots Reported Occurring in Spain.

TWO NEGROES HANGED BY MOB.

Jacksonville, Fla., May 4.—A hot sun rose over a smoke-enveloped and devastated city. The fire, which broke out yesterday noon and was aided in its work of destruction by a southwest gale, spent its force by 9 o'clock last night. The damage is enormous. One hundred and forty-eight blocks were swept by the flames, and as far as known only seven persons lost their lives. A report that the Chinese, the most numerous of the foreign population, were driven to the docks along the St. Johns river were forced into the water, all attempts at rescue by boats being futile. The river is being searched. All the local companies of the state militia have been on duty since midnight and on order of Governor Jennings military companies from four cities are speeding to Jacksonville by special trains. Many extra police have been sworn in and every able-bodied man is impressed into service.

The fire companies from Savannah, Fernandina, Ocala and other cities worked the entire night on the fire, but a soaking rain will be necessary to fully quench the flames. The losses will not be known for a week. The path of the flames was thirteen blocks wide and nearly two miles long. Practically all of old Jacksonville is destroyed, nothing but a few low buildings and the riverfront, the most fashionable part of the city. It is believed that the fire is the largest in proportion to the size of the place that ever visited any city. Street car service has been at a complete standstill since yesterday afternoon. Electric light circuits were interrupted, gas plant destroyed and last night the city was in darkness. A conservative estimate places the number of homeless people at 10,000. Most of these spent the night in the parks and on the docks or barges.

At 1 o'clock this morning a cordon of militiamen, deputy sheriffs and policemen was thrown around the city fire swept district. The fire was still burning fiercely in many sections, but the exhausted firemen sought rest, leaving the fire to burn itself out. The heat from the fire is intense, the temperature 90.

The board of trade and other commercial bodies held meetings at 10:30 to take action looking to the alleviation of suffering. It is expected that an appeal to the people of the United States for aid will be issued. The business men and insurance agents estimate the total loss at from ten to fifteen million dollars.

Among the buildings destroyed are Emory auditorium, board of trade, St. Johns hotel, Windsor hotel, Seminole club, daily metropolitan, city hall and market, gardening building, the largest office building in the city; Hubbard building.

Mayor Bowden said this morning: "There is not a hint at lawlessness. Our people of every race and condition have shown the most helpful spirit to each other, and I cannot find words of commendation strong enough to express my admiration of the work done."

CASUALTIES OF THE FIRE.

Dr. D. R. Dean has reported the loss of his two children, Helen and Francis. Dr. Dean thinks the largest of commendation strong enough to express my admiration of the work done."

Helen, will be found, but believes that Francis was burned to death in his office, where they sought safety. Dr. Dean collapsed on the street after an all night search, and in falling, was seriously injured.

W. B. Barnett, president of the First National bank, fainted during the fire. He fell into the smoldering ruins and was burned.

The terrific strain, added to the warm weather, has caused a number of prostrations to-day. Fire Chief Haney, who became insane during the height of the fire, is somewhat improved.

Secretary Root to-day wired mayor of St. Augustine tendering the use of the barracks at Fort Barranca (St.

The theory is that the papal power being absolute in Rome, the right of naming his successor.

Blocked by a Boulder.

Colorado Passenger Train Wrecked by a Mountain Avalanche.

Glenwood Springs, Colo., May 4.—Never in the history of mountain railroads have trains been so completely blocked up as at present between Glenwood and Soshone. The train due last evening is still up the canyon. Passengers were transferred this morning to a stock train sent after them. Last night a huge boulder rolled down the mountain and crashed through a Pullman car. One passenger suffered a broken rib and several others were injured by the glass. It was feared the whole train would be swept into the river.

It will take thirty-six hours to clear the track of a dozen slides that have already occurred.

PRUSSIAN MINISTER.

The Appointment Unpopular With the People of Germany.

The count was formerly Prussian minister of education. Under his administration the famous school law was framed at the instance of the emperor. This law was finally dropped because of the intense indignation it aroused in liberal circles, which had been committed in an insane frenzy brought on by protracted illness.

FIRE ON SILVER AVENUE.

The Building Occupied by Mrs. Glover Pretty Badly Scorched.

Last Night at 8:10 o'clock fire broke out in a closet in the residence occupied by Mrs. Glover, the dressmaker, on west Silver avenue. An alarm was sounded and in a short time after the fire department was on the scene and the fire was extinguished.

A Citizen Representative Investigated this afternoon and from all indications the fire started in one of the rooms, possibly the kitchen, on the west side of the building. These rooms were occupied by L. Kibbe and wife, and a young man named McDaniel, who works at the local freight depot. Mr. Kibbe states that he and wife will lose by the fire, including their personal effects and \$110 in money, about \$600, upon which he carried an insurance of \$300 in a company represented by P. J. Parker.

The householder furnished used by Messrs Kibbe and McDaniel belonged to Mrs. Glover, and she carried an insurance of \$500 in a company represented by Calvin Whiting. She is fully insured.

The building is the property of Dr. G. S. Easterday, of Wesenville, Cal., and upon it there is an insurance of \$150, carried in companies represented by F. H. Kent and Calvin Whiting. The building was damaged to the extent of several hundred dollars.

TWO RUNAWAYS.

Foraker's Fine Horse Injured—Bona's Horse Killed.

Late yesterday afternoon the thoroughbred driving and riding horse of United States Marshal C. M. Foraker ran away, and in consequence the animal was crippled, the harness broken and the right hind leg being almost severed, and the animal otherwise badly injured. The buggy was smashed and the driver, who was lying in front of the horse, which was standing in front of the residence of Mr. Foraker, Dr. Warner, the veterinary surgeon, has the horse in charge and hopes to have it in fair traveling condition in several weeks.

THE HORSEMAN RUNAWAY.

This morning at 11 o'clock a sorrel horse, with one shaft and a part of harness hanging to him, rushed up second street from the south, and almost in front of W. L. Trimble & Co.'s livery stable the horse tripped itself and fell violently to the ground, where several curbside gentlemen rushed out and pounced upon the prostrated animal, holding it secure, after which the animal was led into the stables.

It was learned that Mrs. Charles Bonnell and Mrs. Samuel Bonnell were out driving in the vicinity of the railroad offices, when the line got under the tail of the horse. Not rancying such proceedings the horse started to run and the ladies tumbled out of the buggy as fast as they could, leaving the buggy and the line under the horse's tail at the mercy of the frightened animal. The horse ran around two or three squares, shot swiftly through an alley and left a portion of the buggy and harness to a telephone post, and with one shaft and a portion of the harness the animal continued north on second street, falling near the Trimble livery stables.

5 Per Cent, Twenty Year Gold Bonds

—OF—
THE - MUTUAL - LIFE
INSURANCE COMPANY OF NEW YORK.
SECURITY.

The great financial institutions of the world are as follows:

Bank of England, capital	\$ 86,047,935
Bank of France, capital	36,500,000
Bank of Germany, capital	28,560,000
Bank of Russia, capital	25,714,920
Total	\$176,822,855

FUNDS OF THE MUTUAL LIFE, OVER \$328,000,000

The company has in fifty-eight years successfully handled \$800,000,000 of trust bonds. When, therefore, such an institution issues its bonds, they must be conceded to rank in safety with the highest grade of municipal bonds, and even with those of the government.

What is the fair market value of a Five Per Cent. Twenty Year Gold Bond of indubitable security? Where, indeed, in these days of refunding and low interest rates, can such a bond be had at any price?

Such are the bonds now offered by THE MUTUAL LIFE. They differ from other insurance contracts in this only, that whenever death occurs the beneficiary receives bonds instead of cash. Each bond is for \$1,000, and attached to it are forty coupons of \$25.00, payable to the bearer on the first of January and July of each year for twenty years; and then the principal is paid.

For example: The owner is insured for \$10,000. He dies, his payments forthwith cease even if he has paid for only one year, and his estate as beneficiary receives: \$500 a year for twenty years. \$10,000 Then cash. 10,000

Total guaranteed in gold. \$20,000

These bonds may be purchased by equal annual installments for life, or by installments limited to twenty, fifteen, ten or five years, or even by one single payment. They may also be secured on the endowment plan, in which case the insured will receive the bonds after a term of years and enjoy the income himself. He thus provides not only for his family, but also for his old age. Where can you purchase another security of the same value upon such terms. For further information address

NEWS IN ABBREVIATED FORM.

Mrs. Same Miller and children, family of Fred Miller, arrived last night from Brockville, Ontario.

W. D. Hitchcock, the well known railroad shop foreman of Santa Fe, is in the city today on business.

The local shops are busier with work, and newly repaired and renovated engines are being turned out daily.

Louis Roehrig has gone to San Bernardino, Cal., where he will go to work in the shops there. Mr. Roehrig is a boilermaker and hails from Topeka.

The stock yards south of the city, which were recently destroyed by fire, are being rebuilt. The personal supervision of Foreman Robert Harlan.

After a day's stay in the territorial capital, Byron S. Harvey, of the Fred. Harvey eating house system, was a north bound passenger last night.

The patients at the local railway hospital all reported doing nicely and discharged as cured. The watchwords at the hospital almost daily these days.

The No. 8 passenger train came in two sections last night and among the passengers were a large lot of soldiers returning to their eastern homes from the campaign in the Philippines.

The new hotel is looming up in fine shape, and railroad officials state positively that when the building is completed it will be the most imposing structure of the Santa Fe system in Kansas City and Los Angeles.

Architect Charles F. Whitteley returned from Chicago last evening and today was in the midst of a large amount of accumulated business. To-night he will leave for California on a brief visit to his family.

Work on the viaduct is not progressing as rapidly as some people would like to see. In fact, since a start was made a few weeks ago no work whatever has been done since then. "Unavoidable delays," said a railroad official, "are the cause for the slack of work on the viaduct."

During the month of March the Santa Fe railway consumed \$5,000,000 of crude oil petroleum as fuel on its engines, an increase of about 10 per cent within a few months. The use of crude petroleum is to be extended over lines of this system outside of California, it is said.

Owing to the fact that the rolling stock of the Santa Fe railway is so employed in the movement of passenger and freight trains, the Santa Fe railway is unable to secure a special train, in lieu, therefore, a Pullman coach was chartered and the Santa Fe railway to the regular south bound passenger train to-morrow night.

Miss Annie T. Anderson, of 1101 Broadway, Kansas City, and Fred C. Brown, of Winfield, Kan., were married at the home of the bride's sister in New Orleans. G. M. Payne, commercial agent, of the Cotton, and a nephew of Miss Anderson, was among those present at the wedding. Mr. Macghey is one of the best known men in trans-Missouri freight and passenger service. Previous to accepting the position of assistant general freight agent of the Santa Fe, he was joint agent of the western terminal in Kansas City.

F. B. Houghton, the popular general agent at El Paso and who was here the other day, has returned to the Pass City. He was recently on a visit with other officials to the Grand Canyon of the Colorado, where the party revelled in telling huge fish and snake stories, and when Mr. Houghton got back to El Paso he had not forgotten how to talk, as the following from the El Paso Herald would indicate: "You people think you see lots of travel by rail through El Paso," said F. B. Houghton of the Santa Fe to some newspaper men at his office this afternoon, "but you ought to go to Albuquerque and see the train that comes from that place over the Santa Fe. That place would be eight long, heavily loaded passenger trains through Albuquerque going west to-night, and this happens quite often, too."

A Sprained Ankle Quickly Cured.
"At one time I suffered from a severe sprain of the ankle," says Geo. E. Cary, editor of the Guide, Washington, Va. "After using several well recommended medicines without success, I tried Chamberlain's Pain Balm, and am pleased to say that relief came as soon as I began its use and a complete cure speedily followed. This remedy has also been used in my family for frost bitten feet with the best results. I cheerfully recommend its use to all who may need a first class liniment." Sold by all druggists.

See Bennett, at the White House Furniture and Mattress factory, 114 South Second Street, for pitch and gravel roads. Also furnish new awnings and repair same on short notice.

RENO'S COURAGE.

Certain Charges that He Ran Away from the Turkey Canyon Fight Denied.

Friends of W. H. Reno, special agent of the Colorado Southern, are taking over the report from Clayton, N. M., that Reno had run away during the fight in Turkey Canyon. The report is that Reno had not participated in the famous Turkey Canyon fight where Sam Ketchum, "Black Horse" brother, got his leg broken in the form of a bullet that caused his death three weeks later, and in which battle Sheriff Edward Farr of Wallaceburg and Mr. Covey were killed. In the battle with the bandits Reno was shot through the coat four times.

D. E. Farr, of Trinidad, brother of Sheriff Edward Farr, shortly after the battle made an exhaustive investigation to ascertain if his brother had lost his life through the carelessness of anyone. In his report at the time, dated July 24, 1899, Mr. Farr spoke in complimentary terms of Mr. Reno's part in the battle.

After having visited the scene of the battle and consulting all parties that were there and actually engaged in the fight, I find that Mr. Reno stayed there during the fight, and fought as hard as any other man in the battle, and I find from the position of the slain bandits and the position of the posse, that Mr. Reno was placed in the
