MCKINLEY IN TEXAS

City of Houston Gives Ovation.

Pennsylvania Railroad Is Not Buying Santa Fe Stocks.

Death of a Hero of the War of the Rebellion.

IMMENSITY OF THE CHINESE INDEMNITY

Houston, Texas, May 3.—The presidential special was skimming over the flat broad plains of Texas when the president awoke this morning. Houston was reached at 8-15, and the party was welcomed by Governor Sayre. The arrival of the train was heralded with a salute from a battery. All business has been suspended and the surrounding country seemed to have emptied itself into the city. The Houston light guards, which acted as guard of honor for Jeff. Davis on his visit here in 1876, and a company of cowboy rangers escorted the party in carriage through the decorated city. For several blocks the procession moved between lines of school children who waved flags and cheered. The president's path with flowers. Before a big, enthusiastic audience at the auditorium, McKinley was formally welcomed by the governor and made a happy speech. Members of the cabinet also spoke briefly.

At the conclusion of the speeches a touching incident occurred. A feeble old lady came forward and presented McKinley with a small silk flag of the Lone Star state. She was the widow of Anson Jones, the last president of the republic of Texas. The word of the staff was from the old capitol building at Columbia.

While at Houston, the president shook hands with an old army comrade, J. U. Fellers, who was sergeant in the Third Ohio when the president was a private in the same regiment. At Prairie View, where the state normal and industrial school (colored) is located, a stop was made to receive the president to receive the greetings of the students and directors. The exercises took place at a cross road in the open prairie. The president made an earnest speech, addressing himself entirely to the colored students.

Not Buying Santa Fe Stock.
Philadelphia, May 3.—T. DeWitt Cuyler, director of the Pennsylvania Railroad company, today emphatically denied the report that the Pennsylvania company had secured, or is trying to secure, representation in the affairs of the Santa Fe railroad. Cuyler said: "The Pennsylvania company is not buying any of the Atchison's stock."

Death of War Hero.
Lancaster, Pa., May 3.—David Porter Rosenmiller, formerly mayor of this city, died today of typhoid. Rosenmiller entered the United States navy in 1861, and was the executive officer of the ship of war Essex, which blew up the Confederate ram Arkansas.

Big Chinese Indemnity.
Paris, May 3.—The French foreign office announces that the indemnity to be demanded of China is 1,625,000,000 francs.

Will Abide by Decision.
Tokyo, Kan., May 3.—A majority of the members of the city council today signed a stipulation agreeing to abide by the decision of Judge Hazen in the mayoralty contest mandating the council to issue a certificate to Albert E. Parker, democrat.

Machinists Will Strike.
Chicago, May 3.—The hopes of the machinists that they would affect a

settlement of their difficulties with the Illinois Central Railroad company without a strike have been dissipated. The firm attitude of the company regarding the question of the hours. They stated that a strike may be called before next Tuesday.

Choctaw Will Build.
Philadelphia, Pa., May 3.—At a meeting of the directors of the Choctaw, Oklahoma & Gulf Railroad company today, the sale to stockholders of \$2,000,000 common stock was authorized, to be approved at a special meeting of stockholders on July 10. This increase is to provide the extension of the company's line to Amarillo, Texas.

Meeting of Miners.
London, May 3.—There were scores of meetings today in the coal districts. The results of the conferences show that the miners are by no means so unanimous as was expected in supporting a general strike on account of the coal tax.

DESTRUCTIVE FIRE.

City of Jacksonville, Florida, Swept by Destructive Flames.
Jacksonville, Fla., May 3.—A terrible fire has been raging here for two hours. At 2 o'clock several blocks of buildings in the business portion of the town had been destroyed and the flames had spread to the residence portion. Over 100 houses have been burned, and the citizens are tearing down buildings to prevent the spread of the flames. All the neighboring towns have been wired to send help. The fire has completely destroyed the heart of the downtown business districts. No loss of life has been reported.

ASKE FOR ASSISTANCE.
Savannah, Ga., May 3.—A telegram has just been received from Jacksonville, Florida, asking for fire apparatus. The fire has completely destroyed three blocks. Eight more blocks are on fire and apparently doomed.

Slump in Stocks.
New York, May 3.—The effect of drawing in credits on over extended speculation was shown by a slump in the stock market this afternoon. In the effort to liquidate, prices broke violently throughout the list, with the largest effect naturally in Atchison and other stocks in which the mad rush to buy centered the last few days.

Today's dealings on the exchange were second in magnitude only to Tuesday last, the day on which more than 3,314,000 shares changed hands. Today's sales were 2,936,000 shares.

The Money Market.
New York, May 3.—Money on call firm at 6 per cent. Prime mercantile paper, 3 1/2 to 4 1/2 per cent. Silver, 59 1/2 c.

Price of Sugar Advanced.
New York, May 3.—All grades of refined sugar were advanced ten cents a hundred pounds today.

St. Louis Wool Market.
St. Louis, Mo., May 3.—Wool quiet. 14 1/2 to 15 1/2; fine, 16 to 17; coarse, 10 to 12 1/2.

Kansas City Livestock Market.
Kansas City, Mo., May 3.—Cattle—Receipts, 2,000 head; beef cattle strong, others steady. Native beef steers, \$1.00 to \$1.10; Texas steers, \$1.10 to \$1.15; Texas cows, \$1.00 to \$1.10; native cows and heifers, \$1.25 to \$1.30; stockers and feeders, \$1.35 to \$1.40; calves, \$1.50 to \$1.60.

Sheep—Receipts, 2,000; market steady. Muttons, \$1.70 to \$1.75; lambs, \$1.50 to \$1.55; spring lambs, \$1.50 to \$1.55.

Chicago Livestock Market.
Chicago, Ill., May 3.—Cattle—Receipts, 1,500 head; market generally steady. Good to prime steers, \$5.00 to \$5.50; poor to medium, \$4.50 to \$5.00; stockers and feeders, \$3.00 to \$4.00; cows, \$2.00 to \$2.50; heifers, \$2.00 to \$2.50; calves, \$1.00 to \$1.50; Texas feed steers, \$4.25 to \$4.50; Texas grass steers, \$3.50 to \$4.00; Texas bulls, \$2.75 to \$3.00.

Sheep—Receipts, 5,000 head. Good to choice wethers, \$1.15 to \$1.50; fair to choice mixed, \$1.00 to \$1.30; western sheep, \$1.15 to \$1.50; yearlings, \$1.20 to \$1.50; native lambs, \$1.20 to \$1.50; western lambs, \$1.50 to \$2.25.

Two Young Runaways Found at Isleta and Brought Back.
Franz Kleinwort and Albert Clancy, the two young boys who had the town considerably worried up yesterday over their sudden disappearance, were found at the Indian village of Isleta last night by Emil Kleinwort, father of one of the boys, and brought back to the city, arriving at 9:30 p. m. The lads had evidently mustered up courage and had left town on a bear and lion hunt, for they had with them a huge firearm in the shape of a Winchester repeating rifle, sending forth when fired, on its deadly mission, a 22-calibre bullet. The boys were willing to come home and it is thought they will not venture on another such escapade without first consulting their parents for something to come.

Fornoff Heard From.
While in the northern counties this week Deputy United States Marshal Fred Fornoff made a few important arrests. Benedito, Cruz and Juan Duran were arrested at Garcon for grazing sheep on the Pecos forest reserve. They were released, however, on bond of \$200 each and they will await the action of the United States grand jury in San Miguel county this month.

Madolina Garcia de Salas, who was wanted for an alleged violation of the Edmunds act, was arrested at Las Vegas and committed to jail, where she will await trial at the May term of court. Her paramour, George A. Morrison, who was arrested previously, has been released on bond, and his trial will take place some time this month.

Prisoners for the Pen.
Ten prisoners, who were convicted and sentenced at the present term of the district court, were taken to the penitentiary last night by Deputy Sheriff Newcomer. Policeman Mike Martinez and ex-policeman Abe Harris, following are the names of the convicted: George Martinez, assault with intent to kill, sentenced for two years; Claude Doane, larceny of a horse, five years; Ira Henry, grand larceny, two years and six months; Charles Hoge, alias Maddox, three years for forgery; Dionicio Gonzales, two years for the unlawful branding of cattle; Bentura Gonzales, stealing

DESTRUCTIVE FIRE!

Armour Packing House Heavily Damaged.

Atheistic Temple to be Erected in Chicago.

Carrie Nation Has Closed Kansas City Saloons on Sunday.

JOINT SESSION GERMAN DIET.

Chicago, Ill., May 3.—Armour and company's beef house, one of the largest buildings in the stock yards, caught fire at 3:30 o'clock today and was damaged to the extent of \$100,000. On the fourth floor, awaiting slaughter, were 1,600 head of live cattle, which were rescued with great difficulty. The building also contained 4,600 carcasses.

Temple to Ingersoll.
Chicago, Ill., May 3.—The building in Chicago of a \$100,000 temple to the memory of Robert Ingersoll, in which the teachings of the orator and atheist shall be perpetuated, is the purpose of the Ingersoll Memorial association, incorporated at Springfield today.

Closed the Saloons.
Kansas City, Mo., May 3.—As the result of Mrs. Carrie Nation's agitation in Kansas City, Mayor Reed has issued a positive order that all saloons must be closed tight on Sundays.

German Parliament.
Berlin, May 3.—Chancellor Count von Buelow has notified the respective presidents that a joint sitting of the diet for tonight has been summoned for the purpose of hearing the message from the throne.

A correspondent of the Associated Press learns authoritatively that Dr. Von Miquel, Prussian minister of finance, has resigned and his resignation has been accepted.

The National Zeitung expects that Herr Buelow has notified the respective presidents that a joint sitting of the diet for tonight has been summoned for the purpose of hearing the message from the throne.

At the opening of the lower house today the president, Dr. Kroecker, announcing that at a joint session this evening he would be closed, suggested that it would be useless to transact further business. The house assented and the sitting closed with "hark to the emperor."

It is anticipated in parliamentary circles that Count von Buelow will forthwith construct a cabinet, and the lower house of the diet will then be dissolved and the election so arranged as to allow the house to meet at the beginning of November.

Close of German Diet.
Berlin, May 3.—The Prussian diet met jointly at 6:30 p. m. and the chancellor read the royal message declaring the diet closed. Count von Buelow then said: "As the government is convinced, in view of the course taken in committee, that agreement on the canal bill is at present out of the question, it does not wish to offer any aid in the continuance of fruitless discussions." Then, with three cheers for the emperor, the sitting ended.

Body Found.
St. Paul, Minn., May 3.—The body of Wm. Rosenmiller, who disappeared last week with his four children, was found in the river today near where the body of his oldest boy was taken out yesterday. The search for the bodies of the other three children continues.

The District Court.
Today in the district court an absolute divorce was granted Mrs. R. C. Kuhn against her husband, L. F. Kuhn. Abandonment and non-support were the grounds alleged.

THE BOYS ARE AT HOME.
Two Young Runaways Found at Isleta and Brought Back.

Franz Kleinwort and Albert Clancy, the two young boys who had the town considerably worried up yesterday over their sudden disappearance, were found at the Indian village of Isleta last night by Emil Kleinwort, father of one of the boys, and brought back to the city, arriving at 9:30 p. m. PANIC IN CORN!

Corn Cornered and Advancing in Price.

Smelters and Local Mines in Montana Closed.

Lawyer Patrick Pleads Not Guilty to Charge of Murder.

PUBLIC RECEPTION TO CONGER.

Chicago, May 3.—A panic occurred among the shorts in May corn on the board of trade today. Traders who guaranteed delivery of May corn to Phillips made frantic efforts to get it. Prices went from 55c to 58c, 4 1/2 cents higher than yesterday's close, in a few minutes. Phillips let out 600,000 bushels at prices ranging between 57 and 58 cents. This nets him a profit of about \$100,000. It was thought that the bull chief was about to unload, and the market broke to 53 cents without a check. Under 57, however, Phillips sold nothing. In consequence the price reacted sharply to 56 1/2 cents.

Closed by Strikers.
Helena, Mont., May 3.—The East Helena smelter is closed for an indefinite period and all hope of compromise is abandoned. Directly and indirectly 2,000 men are affected. Nine coal mines on the Northern Pacific at Red Lodge, employing 600 men, and those of Senator Clark at Bridger, with 500 men, closed last night because of the strike agitation by outsiders.

Plead Not Guilty.
New York, May 3.—Albert T. Patrick, David L. Short and Morris Meyers were arraigned before Recorder Goff today to plead to indictments for forgery, and Patrick to an indictment for the murder of the late mail-rounder, W. M. Rice. Defendants pleaded not guilty pending argument of demurrers against indictments. The demurrers will be argued next week.

Reception to Conger.
Des Moines, Iowa, May 3.—A public reception was tendered Minister Conger in the auditorium this afternoon under the auspices of the Grand Army of the Republic. Fully 3,000 people crowded into the building to listen to the addresses. The guest of honor for an hour detailed his experiences during the siege of Pekin. Conger will leave on Monday for Washington to consult with the state department with regard to his duties.

New Mexico demands Statehood from the Fifty-Seventh Congress.

ALBUQUERQUE — MAY 3, 1901

For Governor of New Mexico from June 7, 1901, to June 7, 1905, Miguel A. Otero.

The El Paso papers are crowded with advertisements of Beaumont Oil companies.

The cause of republicanism is growing all over the country and no place greater than in the state of Colorado.

The Weekly Citizen will be issued tomorrow morning and will contain the delinquent tax list of Bernalillo county.

Seats on the New York stock exchange are getting so tight that almost as much as seats in the United States senate.

Mortality among the colored people of Baltimore during 1900 was three times greater than among the whites. Tuberculosis caused one-tenth of the deaths.

The largest gulf in the Gulf of Mexico, which has an area of about 800,000 square miles, double that of the Bay of Bengal, and nearly one-third the area of the United States.

Only 6,256 new books were published in the United States last year. However, people are vainly looking for something new to read can always fall back on the magazines and newspapers.

"Mind your own business" is an old saying, and it is good advice. It is claimed that 90 per cent of business men fail. It is because they do not mind their own business; they invest in side issues.

The people of this territory will welcome President McKinley at Deming. But if you wish to go away from home to see him the best place will be in San Francisco, where the battleship Ohio will be launched.

A Washington correspondent predicts that New Mexico will go democratic because the president has appointed W. H. Pope, a gold democrat, agent of the Pueblo Indians in this territory. The appointment of Mr. Pope will not affect a half dozen votes in New Mexico.

In 1881, a year of general business activity, the sale of postage stamps was 67 cents per capita. In 1890, another prosperous year, the sale of stamps was 95 cents per capita. In 1900 the outlay for postage stamps was \$1.33 per capita. That is, in twenty years the sale of postage stamps on the basis of population has doubled.

It is stated that the Pan-American exposition exhibit of agitated and petrified woods from the stone forests of Arizona will be the most extensive display of the kind ever attempted. Sections of large trees, sound and perfect from bark to heart, will be shown, the hardness of which is only three degrees from that of a diamond. Steel can not scratch it nor ink stain it.

Any idea that big oil wells can not be opened in new places has been abundantly disproved in the past few weeks. A wholly new oil territory was opened in Texas and now a regular gusher has been tapped in southern Wyoming. The latter discovery is especially important for the Rocky Mountain country and will go far to encourage explorations in the foothills and plains in the vicinity of extensive deposits of coal.

ADVERTISING DOES IT.

The business of the Maine summer resorts is said to be chiefly due to the advertising that has been done for them by the passenger department of the Maine Central railroad company. There is no doubt that the business of the New Jersey resorts has been largely increased by the extended newspaper reports of the social events which take place there during the season and by the advertising of the hotels. No business can prosper unless persistent efforts be made to keep it before the people.

LAKE SHIPPING.

The state of the shipping industry on the Great Lakes indicates a strong confidence in continued prosperity on the part of the vessel owners. Last year at this time the value of ships in the stocks was about nine million dollars. This spring it is four millions greater. Conditions have been largely improved by the extension of the United States steel corporation, which now controls a large part of the carrying tonnage of the lakes. It is in a position to regulate tariffs. But in spite of this, individual owners are investing more largely in ships than they did last year.

NATIONAL DEBTS.

In 1793, at the beginning of the Napoleonic wars, the national debt of the United States amounted to approximately \$2,500,000; in 1860 it had increased to \$13,000,000; in 1900 it had increased ten times what it did at the beginning of the nineteenth century. Meantime the population had increased 150 per cent only, and gold and silver, which form the basis of the money with which the debt payments are made, only 300 per cent.

GOING WORK QUICKER.

The Brooklyn bridge was nearly seven years in building. It took ten years to build the pier. But now the great steel piers of the new East river bridge from Manhattan to Brooklyn have been put up in two years, and the first of the cables is strung across the river from pier to pier. These cables will be in place within the next six months, and then the work of perfecting the approaches, laying the railway tracks and putting down the carriages and foot paths will be pushed rapidly forward. The engineers expect to have the bridge completed before the first of January, 1903, and the entire work will probably occupy not much over five years, instead of seventeen.

THE S. PER CENT

20-YEAR GOLD BONDS OF THE

Equitable

Are backed by a Company as strong as the U. S. Government.

Total cash assets of the U. S. government, including the gold reserve of \$150,000,000, Jan. 1, 1901, \$290,107,072.

Assets of the Equitable Life, January 1, 1901, \$304,598,063, of which more than \$60,000,000 is surplus to policy holders.

THE EQUITABLE GOLD BONDS PAY 5 PER CENT.

Whereas Government Bonds Pay Less Than 5 per cent.

GOVERNMENT BONDS

Must be paid for spot cash. You can buy the Equitable Gold Bonds on easy installments, and if death should occur before the complete payment, the bonds mature immediately (without further cost to the investor) and pay 5 per cent to the estate for twenty years, and then pay the face of the bonds in gold coin.

THESE BONDS

Are issued in denominations of \$1,000, and at maturity (whether at death or end of 15 or 20 years) the society agrees to purchase them, at the option of the holder, at a premium of \$300 on the \$1,000 par value, or \$1,300 on each \$1,000.

D., president, 337 Clinton street, Brooklyn, or to such other person as they may deem fit who will be present and represent the territory.

CHARGE OF MR. A. W. TENANT.

A well known mining man, through whom the property was sold to its present owners.

Jefferson Reynolds, of Canton, O., a cousin of President McKinley, is operating the Boomerang at Fiero.

W. A. Otis & Co., of Colorado, are running a fifty-ton mill on the Ivanhoe group, with J. W. Bible as superintendent.

"Silver City is one of the best copper markets in the United States, and perhaps the best copper market in the western mining region, as the local silver, known as the Silver City Reduction works, is paying an average of \$2.70 per unit for copper in ores. I contract my ore delivery from the mine to the smelter at \$3 per ton for all grades of ore, so you can see that I lay my ore down at a very good market for a freight rate of \$3 per ton, all told."

There are many shipping mines in the Burro Mountain mining district, all shipping high grade copper ores, besides storing large quantities of milling ores on the dumps for home treatment. Chief among these might be mentioned the St. Louis and Colwell mines, owned by the Southwestern Copper company, a Boston corporation. These two mines under lease of Jones & Chapman, are now outfitting an average of twenty large steam engines daily, that averages about 20 per cent copper, with a pound of machinery on either mine.

The Sampson mine, in this same camp, has six feet of sulphide ore exposed at a depth of 170 feet. This ore was encountered at 100 feet in depth, and it is considered that the present depth of the shaft, 170 feet. This body of ore, very carefully sampled, averages 10 1/2 per cent copper and a few ounces silver to the ton.

"Every mine in the vicinity of the Comanche group, which has a shaft over 100 feet deep, is in sulphide ore, and the Comanche group, besides storing large quantities of milling ore on the dumps, awaiting the advent of home treatment."

The Pennsylvania Mining and Milling company is shipping from the St. Louis is taken out at the 150-foot level and is a sulphide ore, mixed with strong streaks of copper glance, four to six inches wide and carrying 50 to 70 per cent copper."

Mr. McGrath has acquired valuable copper property in Grant county, one of which the Comanche group appears to be a veritable bonanza, producing cubes of red oxide and copper glance sixteen inches square, running as high as 60 to 70 per cent copper.

The Comanche group is composed of twelve faulted mining claims, each 600 by 1,500 feet, and containing a little over two million cubic feet of ore on each claim and four large fractions, making in all about 320 acres in one solid group, the title to which is being secured by the Comanche group.

The Comanche mine is a recent discovery, having been located in April, 1900, and the workings are all new and have all been made since that, and comprise five shafts, from 25 to 69 feet.

In the main shaft on the Comanche mine was struck a four-inch pay streak of rich copper glance, mixed with red oxides and carbonates, at a depth of twelve feet. This rich streak continues down to the bottom of the shaft and widens gradually to a width of twenty-eight inches at the bottom. Assays made on this streak run as high as 75.5 per cent copper, and the whole shaft is in low grade ore.

M. R. Williams, foreman of bridge building on the Las Vegas station, of the Santa Fe, was here yesterday on business.

The El Paso News says: Business is quiet around the Denning car repair shop, only five men and the inspector being employed.

A. W. Reeves, who was the ticket agent at the local depot several years ago, is now the traveling freight and passenger agent for the Galveston & Houston, with headquarters at El Paso.

Conductor William Stockwell and wife passed through the city yesterday for the east from El Paso. The conductor will attend the O. R. C. convention which meets in June at Buffalo, N. Y.

Lively times at the local depot last night when No. 1 came in from the north in five sections, and No. 7 in two sections, and all these trains being loaded with passengers, and the west, which were also heavily laden with passengers.

W. S. Clayton has resigned his position as agent for the Mexican Central road at Chihuahua, and will move to El Paso next week, where he will engage in the wholesale grain and produce business, not associating himself with James A. Murdoch.

LOCAL PARAGRAPHS.

Mrs. McCord, a Christian Endeavorer of Santa Fe, came down to attend the rally at the Congregational church last night, which was addressed by Dr. Francis Clark.

Manager A. A. Trimble of Orchestra hall, announces that a dance will be given tomorrow evening in the old town hall, and everybody who goes will be given a cordial welcome.

Louis Hfield returned yesterday from an inspection trip to his extensive flocks and ranges in eastern Bernalillo county. The lambing season has begun, and the prospects for a big crop are quite favorable.

In a few days the marriage of Francis J. Hiltwood, ophthalmologist at the university, and Miss Olive M. Morton, formerly of Clarion, Iowa, will take place in this city, and it is quite probable the couple will continue their residence here.

The Junior and Primary union of Albuquerque will meet at 3 p. m. Saturday afternoon at the Presbyterian church. Devotional exercises by Mrs. Roseberry. A lesson discourse by Miss Harrell. Topic, "Sunday Occupations" by Prof. Childs.

A party of distinguished Obionians will pass through this city on route to the Pacific coast next Thursday, where they will attend the christening ceremony of the battleship Ohio. Among the party will be the honorable governor of that state.

The contract which was awarded to Doud & Lemke for the erection of the Sisters' hospital and sanitarium was signed yesterday by both members of the firm, and just as soon as the instructions from the Sisters in Chicago are received the actual work of construction will begin.

Through an agent's error an eastern factory shipped me 120 pairs of men's \$3.50 shoes, which should have gone to California. Rather than have them returned they made a reduction of 50 cents a pair. In order to sell them fast I shall sell them at \$1. This is a genuine bargain. J. F. Muensterman, 293 Railroad avenue.

The boys of the high school of this city are desirous of forming an inter-school league of the territory wherein they can engage in the pleasant pastime of baseball.

FOR OLD AGE

To the old, as to babies, the even balance of health is more important than anything else in the world. The possible health, in age, is not high and strong; it is only even.

There is no end, but death, to the trouble that comes of its loss.

It ought to be watched like a baby's.

Their future is short; but oh how it turns on comfort! on whether the wrinkles are wrinkles of pain or of long serene enjoyment!
