There is no question but the melo-  
drama is the standard of theatrical  
amusement, and when presented com-

a combination is Sullivan & Harris  
melodrama, "The Angel of the Alley,"  
which piece is being pre-  
sented this season with much suc-  
cess. A large cast, comprising the  
best of well known players, has

## MARKET QUOTATIONS.

Market quotations and review fur-  
nished by W. P. McCall, No. 5 Crom-  
well block, received over the private  
wire of F. G. Logan:  
New York, April 24.—Union Pacific  
common raised sympathetically. In-  
dustrial, especially sugar, broke  
sharply, and there has been some  
heavy liquidation and profit taking  
generally. Closing quotations:  
St. Louis & San Fran. 45 1/2  
Mo. & Pac. 45 1/2  
Colorado Fuel & Iron 44 1/2  
Texas Pacific 44 1/2  
Anaconda 44 1/2  
Amalgamated Copper 44 1/2  
Mexican National 44 1/2

United States Rubber 44 1/2  
United States Leather 44 1/2  
Republic Iron & Steel 44 1/2  
Erie 44 1/2  
Chicago, April 24.—Wheat—Liver-  
pool was unchanged; Berlin 1c higher.  
The steadiness in foreign markets in  
the face of the sharp break here yest-  
erday gave a better tone to the feel-  
ing and a strong market with fair  
general support resulted.  
Cash demand is also good, fifty loads  
being reported at the seaboard and  
quite a large business being done  
here. The general tone of the day  
of the market for the time being  
seems healthy. The impression is  
that the unfavorable crop prospects  
in Germany have put buyers of wheat  
in London. There are some further  
expressions of apprehension in regard  
to the Russian yield in the southwest,  
but nothing alarming is reported.  
May wheat closed at 72 1/2; July at  
72 1/2.  
Corn—It has been another day of  
successful manipulation by local  
holders and a further covering of  
shorts. Little if any increase is re-  
ported in the country movement, even  
at the advance. July corn is also be-  
ing well supported and meets with  
rather good general buying. Indica-  
tions to-day are of a rather better  
cash demand. May corn closed at  
48 1/2; July corn at 44 1/2 to 45 1/2.

Erie 44 1/2  
Chicago, April 24.—Wheat—Liver-  
pool was unchanged; Berlin 1c higher.  
The steadiness in foreign markets in  
the face of the sharp break here yest-  
erday gave a better tone to the feel-  
ing and a strong market with fair  
general support resulted.  
Cash demand is also good, fifty loads  
being reported at the seaboard and  
quite a large business being done  
here. The general tone of the day  
of the market for the time being  
seems healthy. The impression is  
that the unfavorable crop prospects  
in Germany have put buyers of wheat  
in London. There are some further  
expressions of apprehension in regard  
to the Russian yield in the southwest,  
but nothing alarming is reported.  
May wheat closed at 72 1/2; July at  
72 1/2.  
Corn—It has been another day of  
successful manipulation by local  
holders and a further covering of  
shorts. Little if any increase is re-  
ported in the country movement, even  
at the advance. July corn is also be-  
ing well supported and meets with  
rather good general buying. Indica-  
tions to-day are of a rather better  
cash demand. May corn closed at  
48 1/2; July corn at 44 1/2 to 45 1/2.

New Mexico demands Statehood from the Fifty-Seventh Congress.

ALBUQUERQUE—APRIL 24 1901

New Mexico will be a reliable republican state.

New Mexico will greet President McKinley at Deming.

Now is a good time to invest in Albuquerque real estate.

This city will add two thousand to its population this year.

During the past year the city of Santa Fe collected from all sources only \$7,452.27.

Two hangings are to occur in this territory next Friday, one at Santa Fe, and the other at Las Cruces.

"Every movement for the education and uplifting of the people is a factor in human destiny and a mighty force in our civilization."—William McKinley.

the country are either striking nails or striking for higher wages.

The total vote at the territorial election in Oklahoma last year was 73,000; in Arizona it was 16,000; in New Mexico 10,000, and in Hawaii 5,000, a total in these four territories of 127,500.

The city marshal of Santa Fe does not expect himself to any great extent. During the past year the city received only \$105 in fines collected. During the same period the city marshal of Albuquerque collected over \$5,000 in fines.

The Pueblo Chieftain says that even in the boom times of the industrial trusts some of the industries suffer. The Black Jack & Co. firm of train holds has made an assignment to a New Mexico sheriff and gone into liquidation.

Boston has had a costly demonstration of the weakness of municipal ownership as applied to its public printing plant. The plant has been operating by the city for about four years, and has been losing money at the rate of \$2,000 a year.

The Mexican law that provides for the imprisonment of the entire train crew whenever a Mexican is killed on a railroad has locked up fifty-four Americans. American railroads should stay out of Mexico until this absurdly unjust law is repealed.

The New Mexican says that a determined effort will be made by some of New Mexico's most reputable citizens to secure the passage of an enabling act for the territory by the fifty-seventh congress. Here is hoping that this effort will be successful.

At the mass meeting of citizens last evening it was resolved to hold a \$25,000 territorial fair next fall, and to give big premiums for racing and also for agricultural, fruit and mineral exhibits. It will be the largest fair held anywhere near fall in the Rocky Mountain region.

When New Mexico becomes a state her progress will take on an impetus such as was never dreamed of before. Colorado, to the north, is a populous state, yet it is infinitely colder and has not the natural advantages of New Mexico—but it is a state.

Humboldt once said that the wealth of the world would yet be found in New Mexico and Arizona. It is as sure as the territory becomes a state, and the people have some of the "manana" shaken out of their houses, and capital with a little pluck and grit behind it comes into the new state, things will hum like the battery of an automobile.

Section 4034 of the compiled laws provides that the assessor shall furnish each person liable to taxation with a blank upon which property shall be listed, and such list shall be verified and delivered to the assessor on or before the last Monday in April. Failure to comply with this law brings a penalty of 25 per cent in addition to the value of the property assessed.

It is said that for the first time in many years the postal system of the United States is now appearing money, and if the receipts continue at the present rate there will be a balance of at least \$2,000,000 to the credit of the treasury at the end of the fiscal year ending June 30, 1900, was \$3,385,000.

The annual adjustment of postoffice salaries and allowances thus far made, to take effect July 1st next, provides for 4,730 promotions of postoffice clerks, and for the addition of 1,300 additional clerks. With the adjustments yet to be made these figures may be swelled to about 6,000 promotions and close to 2,000 additional clerks. This will raise the average pay of the postoffice clerks by about \$100, as 75 per cent of the promotions will go to clerks in the lower grades.

MAKING RAPID GROWTH.

Quite recently a big plant, consisting of a stamp mill and other heavy machinery, tanks, dredges, rolls, etc., for extracting gold from dry gravel has been put in near Golden, in Santa Fe county, and two or three more are about to be erected. The country is being located right and left. Not much has been said about the matter, but the promoters of the enterprise state that they have made experiments on the gravel, and that there is gold enough there to pay the national debt. This is the way they express it. So many railroads are under way, so many new mines have been opened, so many new towns have been started, that it is guessed that if

Jack Quinliven, of Alamogordo, has been engaged in closing sub-contracts on his deal in the railroad for a number of days.

Some of the contractors left the scene of operations, the Gallinas mountains.

The Oryx, in commenting on the delays of trains, says: The powers that be on the Santa Fe, particularly in the passenger department, now propose to quit practicing false economy in the matter of running passenger trains. The trains will be lightened by being run in sections and will be put through on card time, if such a thing be possible.

News has been received here of a fight between a conductor of the Santa Fe railway and five robbers in a cave.

Conductor Willard found the men throwing freight out of a car and opened fire. The robbers ran into the brush and the conductor followed.

A fierce exchange of shots one of the gang was wounded and the others escaped. The conductor was uninjured.

## An Honest Tired Feeling

There is an "honest tired feeling," caused by necessary toil and cured by natural rest.

But very different is "that tired feeling," from which so many complain and which may even be classed as a disease.

That tired feeling takes you to bed tired and wakes you up tired.

You have no appetite, have bilious taste, dull headache, are nervous and irritable, blue, weak and discouraged.

In such conditions Hood's Sarsaparilla does a world of good.

It begins in the right place—in the blood, purifying it and imparting vitality, then its tonic effect is felt by the stomach, kidneys and liver; appetite comes back, all waste is removed naturally, headaches cease, that tired feeling departs and you feel like a new person.

This has been the experience of thousands.

It will be yours if you take

corporation and charter of the corporation, shall be vacated, and thereafter shall not be permitted to conduct or operate any business in this territory.

DEMING OIL FIELDS.

Facts Regarding the Alleged Great Excitement.

The Deming Headlight, commenting on the Deming oil fields, says: Much is being published in the daily newspapers regarding the finding of oil in the Deming fields. It is a matter of fact that the oil is there, and that it is being produced.

One party writes the San Francisco paper that one well is spouting oil twenty feet in the air. The truth is there has not as yet been a derrick erected near a drill started as yet.

Alfred F. Walker, a well known oil man, is writing to the El Paso and other papers that he will publish his stuff that there are 200 men in the field daily and that the town is wild about the strike.

It is doubtful if there have been twenty-five men in the field at any one time, and certainly not fifty.

True, but our citizens have gone to the locality and located tracts of land so that if oil is found there will be a big boom.

But this is all the excitement so far. Quite a number of people are coming from outside places and all seem to think that the surface indicates oil.

Some men, however, are of the opinion that the oil may be found in this locality.

Such men as W. H. Greer, Dr. S. D. True and other responsible citizens of this place, who while not claiming to be oil experts by any means, have had some experience in the oil fields of Pennsylvania, and California, express the opinion freely that from what can be seen in the formations and surface indications, the chances of finding found here are extremely favorable.

This is the exact truth of the matter and excitement in this locality at present.

TWO HANGINGS ON FRIDAY.

Tom Ketchum at Clayton and Toribio Huerta at Las Cruces.

Yesterday afternoon Tom Ketchum, alias Black Jack, head of the notorious Ketchum gang, was taken to the gallows at Clayton, Union county, last year and committed many depredations in New Mexico, Arizona and Texas.

He left the penitentiary at Santa Fe for Clayton, Union county, to be hanged there on Friday afternoon.

Sheriff S. Garcia, of Union county, deputy T. A. Gray, Detective W. H. Reno and his deputy, J. Lewis, of Clayton, Colo., and Detective H. J. Chambers, of Chicago, took charge of the prisoner and will see to it that he will not escape alive should any attempt be made on the part of his friends to rescue him.

Ketchum was not aware that he was to be taken to Clayton so soon and it came as a surprise to him when he was taken to the gallows.

## A REAL PRESIDENT.

Southern Base Ball League's President to Unveil the Bust of Lincoln.

The Southern base ball league has got a president at its head who comes pretty near being a Ban Johnson when it comes to handling the affairs of his association. His name is R. W. Kent, and the instructions he has issued to his umpires are just what every president should do, and let those officials know where they stand. Mr. Kent has taken the bull by the horns and wants to know whether he or those of the club managers are running the league over which he presides. Ban Johnson is, of course, the head and front of all base ball presidents. His actions in battling the league show his ability as an executive officer. But next to him Mr. Kent is the man "poor old woman Nick Young appears quite insignificant as compared with these men. Here are Kent's orders to his umpires:

To Umpires: You are the absolute master of the field from the beginning to the termination of a game. I will sustain you in everything, as long as you show me you are capable, independent and honest. You need never be afraid of complaints from presidents, managers or other persons interested in the game when you adhere strictly to the above. I have appointed you because I am personally acquainted with each of your work, and I expect with the help of each of you, to place the national game not only on a paying basis financially, but make it the cleanest and most respectable of all outdoor sports in the south.

"In assuming control of a game you will familiarize yourself with the order of out calls. See that all foul lines are distinctly marked; three foot lines and coach lines can be plainly seen. Just before you call the game, face the grandstand and give the names of the batteries; except as follows:

"The batter for Shreveport to-day is Green and Jones, and for Memphis Smith and Little."

"In case batteries are changed, so announce to the stand. The rules are to be enforced, and if they are disobeyed you are to blame. Notify each captain that the rules will be enforced exactly as they are written, and for each violation a penalty will follow."

"Make decisions as you see them. The strict in what may seem to be trifling matters, thereby inspiring in the mind of the player the full development."

"Never, in any case, allow players to argue decisions with you. The captain is the only man who has a right to address you, and it is always your duty to keep him in the room of respectability. You have full power to fine or remove any player from the game, at any time for inflicting any injury on another player. If any player continues to make trouble for you, I will handle him. I have also notified each manager that in any case they cannot keep their men in line. I will suspend them or their players as long as it may seem necessary."

"Keep everything on the move after calling the game, and do not allow wild fellows to take their time in going or coming in from their positions."

A Testimonial from O. C. England.

"I consider Chamberlain's Cough Remedy the best in the world for bronchitis," says Mr. William Savory, of Warrington, England. "It has saved my wife's life, she having been a martyr to bronchitis for over six years, and I have cured many of my children. It is a great pleasure to the manufacturers of Chamberlain's Cough Remedy to be able to publish testimonials of this character. They show that great good is being done, pain and suffering relieved, and valuable lives restored to health and happiness. I think this remedy is for sale by all druggists."

Like Oliver Twist, children ask for more when given One Minute Cough Cure. Mothers endorse it highly for croup. It quickly cures all coughs and colds, and every mother has long trouble. It is a specific for grip and asthma and has long been a well known remedy for whooping cough. It is sold by all druggists and by the Drug Company and Cosmopolitan Drug Stores.

George Browne at Farmington.

Mr. Browne, formerly connected with the wholesale grocery house of L. B. Putney, Albuquerque, has accepted the management of the Hyde exploring expedition affairs at Farmington, vice W. A. Hunter, who resigned in order that he may devote himself to business cares of his own, which he has been doing since he left Albuquerque. Mr. Browne was recognized as one of Albuquerque's most progressive business men, and one of the kind who make a bargain quicker than a flash. Preparations are being made to handle any nature of product that grows in this vicinity, and from here to market both north and south—Farmington Hunter.
