BIG MASONIC MEETING AT CHICAGO.

Chicago, Ill., April 22.—The great storm of wind, snow and rain which prevailed in the middle east on Saturday, Sunday and Monday, has done much damage to property, blew down trees and shrubbery in the parks and boulevards, and caused the electric wires and telegraph lines to sag and snap in places.

A great portion of Dayton, Ky., is submerged.

Flood in Massachusetts.

Springfield, Mass., April 22.—Reports from the Boston & Albany inspection train indicate that washouts on the east bound track from this city to Huntington rendered it practically useless unless extensive repairs are accomplished.

By the breaking of the reservoir dam at Middlefield last night many houses were flooded, but only a few were wrecked. As far as learned no lives were lost. In Chester the people fled to the hills.

The Boston & Albany stone work bridge at Middlefield was washed away. The flood is the worst since 1874.

Several Hundred Boers.

CAPE TOWN EDITOR SENTENCED.

Pittsburg, Pa., April 22.—While western Pennsylvania was fairly out of the clutches of the flood this morning, the weather conditions are not reassuring. It is again raining and

advises from the headquarters of the Allegheny this morning showed a renewed rise with continued downpour. At 9 o'clock this morning the Allegheny was falling about three inches an hour. Estimated losses vary from \$1,000,000 to \$3,000,000, but the first figures will probably come nearer the correct amount. The mills along the river front will not be able to resume to-morrow.

At 11 o'clock it ceased raining and both rivers were falling at the rate of about two inches an hour. River men have little apprehension of an overflow.

Tragedy in France. Chantres, France, April 22.—Two tramps entered the farm house of a man named Briere and killed four girls and a boy with knives and cudgels. Briere returned home while the murderers were robbing the house.

They attacked him and left him for dead with four stab wounds in the head. The murderers escaped with 1,600 francs and a number of objects of value.

J. K. BROWN DEAD.

His Demise Occurred at His Home on the Mesa.

J. K. Brown, who has been ill for the past few weeks, passed away yesterday morning at his home on the mesa, east of the city, dying from a combination of heart and kidney trouble. The deceased was a native of Edinburgh, Scotland, and was about 40 years of age. He came to New Mexico sixteen or eighteen years ago and was for a long time in the employ of life insurance companies. He afterwards worked for a number of other merchants in the city, and was well and favorably known to a great many people. A year or two ago he was employed by John Pfeiffer at Lamy, and his last position was with William McIntosh, the sheep raiser. His health began to fail some time ago and he became gradually worse until during the past week he neared the end, which came yesterday. The funeral will be held to-morrow afternoon from the Presbyterian church, at 2:30 o'clock. Friends of the family are invited. Interment will take place in Fairview cemetery.

Mr. Brown was a Mason, and Temple lodge No. 6, A. F. & A. M., was undertaking the funeral and burial service. The members of the Scottish colony of this city and county are assisting in making the funeral arrangements and will also attend numbers. Mr. Brown leaves a wife and three children.

The remains will be on view at the undertaking parlors of O. W. Brown & Sons to-morrow from 10:30 a. m. to 2 p. m. The casket will not be opened at the church.

"The Angel of the Alley."

Sullivan & Harris present their new melodrama, "The Angel of the Alley," at the Grand Opera house Monday night, April 29. This play is a story of New York life among the lowly, though in this case the "lowly" are not patterned after the class made immortal in "Uncle Tom's Cabin," but are rather more of the sort which are on terms of intimacy with the interiors of the prisons and the work houses.

The piece is built upon the adventures of a young officer who is lured to an underground gambling resort in New York and is captured by a band of desperate characters. After a series of thrilling adventures he is rescued by a woman, who for her efforts in aiding the poor of the district is called "The Angel of the Alley." A very pretty love story runs through the play, and many bright touches of comedy added to a strong plot, make up a very interesting melodrama.

The scenery used in the most elaborate and correct that has ever been designed by Harley Merry & Sons. The alleys and streets of New York are reproduced with startling exactness and in addition to these scenes a view of Sing Sing is also given with a representation of the famous death cell and electric chair.

A good cast of artists interpret the play and bring out all its light and shade. Some exceedingly novel specialties are introduced and some new songs are sung.

MARKET QUOTATIONS.

Market quotations and review furnished by W. P. Metcalf, 55 Cromwell block, received over the private wire of F. Q. Logan.

Chicago, April 22.—Stocks.—The market opened somewhat irregular, but on the whole the general tone was strong. Traders are working higher and rails are firm. Alton, which has been a sleeper for some time is advancing sharply. The steel stock has advanced and is saving around with some loss in price. Our advice on the latter (which have been very quiet for some time) say sell this stock on the rally. We are not able to discover any change in the general tone of the market. Telegraphic communication is still very much interrupted and difficult of execution, but there still seems a large volume of business doing.

ALBUQUERQUE - APRIL 22 1901

New Mexico demands Statehood from the Fifty-seventh Congress.

The Las Vegas Record appears to have some grievance against Albuquerque.

In Switzerland a telephone in a private house costs \$1.50 a year. But the state owns the telephones in Switzerland.

The Chicago Tribune calls attention to the fact that during the first eleven days of April nearly five and a half million dollars were given to educational institutions.

The total number of women over 18 years old employed in the factories and workshops of the British islands is about 500,000, of whom 11 per cent belong to trade unions.

The manufacture of illustrated postal cards in Germany is a productive industry. It is said that the government derived a daily income of \$15,84 from this source alone last year.

Las Vegas is urged to get up a fair. Nothing does more to advertise a town, and if every county in the territory would hold an exhibition, we would kind and quick the benefits would be far reaching.

Do not become discouraged because of past failures. The everlasting will power that finally conquers. Those who give up and turn back never accomplish anything for themselves or the people at large.

The City of Mexico is now in the hands of the revolutionists, who are putting in an entirely new system of sewers, which proceeds the paving of the streets with asphalt. The work is being done by American firms.

Congress has under consideration the establishment of a psychophysical laboratory in the department of interior for the purpose of prosecuting the exact studies on the criminal pauper and defective classes of our population.

In very dry atmosphere the durability of wood is almost incredible. Pieces of wood, wooden carvings, wooden articles have been withdrawn from Egyptian catacombs of an antiquity 2,000 or 3,000 years antedating the Christian era.

An unequalled electrical display has been arranged for the Buffalo exposition. Five thousand horse power, transmitted from Niagara Falls over solid copper and aluminum conductors and delivered with a loss of only 20 per cent.

The president has appointed seventeen new army chaplains and a board has been detailed to examine them as to their qualifications. Among the things the board is instructed to inquire into their "moral character," which is said to be very important in the case of a chaplain.

The Swedish mile is the longest mile in the world. A traveler in Sweden when told he is only about a mile from a desired point would better hire a horse, for the distance he will have to walk if he chooses in his ignorance to adopt the metric mode of travel is exactly 11,700 yards.

Switzerland's growth of population is attracting attention. The census taken in 1888 gave a population of 2,917,754 and that of last December 3,312,551, a gain of 394,797. Between 1880 and 1888 the total increase was only 71,638, and between 1870 and 1880, 178,954.

The British chancellor of the exchequer has announced that the cost of the South African war to date has reached the great sum of £151,000,000 or \$735,000,000, double the cost of the Crimean war with Russia, and the end is not in sight.

The Socorro Chieftain says that Hon. Bernard S. Rodney has inaugurated an intelligent and persistent campaign to secure statehood for New Mexico from the Fifty-seventh congress. He should receive the active, energetic support of every citizen who believes that the territory merits the recognition sought.

If you cannot consistently help along enterprises that will benefit the town in which you reside, at least keep from throwing cold water on them. Do not whine. "Oh, I'm afraid it's going to be a failure, it will not pay, let's wait awhile," etc. Rather say: "It's a good thing. I'd do what I can, if it's only a dollar or two."

The greatest number of men ever employed on one structure was the Gizeh pyramid, here in Egypt, where 145,000 men were employed. This pyramid is 450 feet high and covers an area of thirteen acres, twice the dimensions of any other building in the world. In one instance taking 3,000 men three years in bringing a single stone from the quarry.

In the new mint in Philadelphia the United States will have the finest, costliest and most complete money making establishment of its kind in the world. The granite structure was commenced two years ago and will cost about \$2,000,000, including the mechanical equipment, costing \$200,000. There will be twenty-four coin presses in the new mint.

SALVATION ARMY STATISTICS.

Some interesting statistics have recently been compiled showing the proportions of the work carried on by the Salvation Army in the United States.

Preparing for His Death.

Sheriff Lucero has issued a number of admission cards to the execution of Toribio Cuerta, which will occur in the Las Cruces jail yard adjacent to the court house grounds on Friday, between the hours of 10 a. m. and 4 p. m. Sheriff Lucero is making preparations to have the unpleasant event pass off smoothly. Cuerta has spent a portion of the past week or so in writing a rhyming dodecimer, in which he bids good-bye to Mexico, his native land, and recounts how fearless he is.—Donna Ana County Republican.

Dyspepsia

Is difficult digestion, due to a weakened condition of the stomach and its inability to properly churn the food; or to unhealthy condition of the gastric juices, too much or too little acid, too much or too little pepsin.

Hood's Sarsaparilla relieves all the distressing symptoms of dyspepsia because it promotes the muscular action of the stomach and intestines, aids nature in the manufacture of her own digestive secretions, which are far better than any artificial pepsin, unlocks the bowels, stimulates the kidneys and tones up their muscular members.

So prompt is its effect in many cases that it seems to have almost a magic touch.

Begin to take it NOW.

Suffered Everything.—I was troubled with dyspepsia, suffered everything but death, could not eat without terrible distress. Since taking Hood's Sarsaparilla I eat heartily and I am well.—Mrs. Moore, Danbury, Conn.

Eat Three Times a Day.—Hood's Sarsaparilla has cured me of dyspepsia. I never felt better. Can eat three good meals every day. Can fast three days without feeling any harm.—J. F. South, P. O. Box 1, Indianapolis, Ind.

ing recovered. There are no funds in the city treasury, so devote to buying him a suit of clothes, his having been burned when received at the hospital. Here is a chance for a charitable person, whose own boy may have a cast off suit, underclothes, shoes, etc., etc. to do a kindness. Let some such person notify Marshall J. Cere Murphy, so that the boy can be clad.—Optic.

LOCATION OF COUNTY SEAT.

White Oaks People Opposed to County Seat at Capitan.

"The White Oaks people say they will oppose the location of the county seat at Capitan, as they think it should be at a railroad point at any event," remarked a visitor from that section at the Zeiger last night. "If this be true, then the coal camp will have only Lincoln to contend with so far as the location of the county seat is concerned. The people of that village will probably make as strong a fight as they can to keep the county seat at Lincoln. They will probably have the support of the majority of the native element, as that is most of the population of the county. One new comer from the states, and the great corporations, the railroad and mining companies, have moved to Lincoln. They will for Captain and win without the least difficulty, unless something wholly unforeseen arises."—El Paso Times.

DR. SNYDER KILLED.

A Well Known Physician of Lincoln County Fatally Injured.

Dr. George W. Snyder, a prominent citizen and well known mining man of Ruidoso, Lincoln county, died from the result of an injury sustained from his buggy. WIPING OUT OUTLAWS.

"Black Jack's" Gang Being Killed With Boots On.

"BLACK JACK" TO HANG FRIDAY.

"Bill Carver and 'Red' Weaver are dead," says the Denver Republican. That was the report received by Special Agent Reno, of the Colorado & Southern. Carver and Weaver were two of the most desperate men in the southwest, once members of the notorious "Black Jack" gang. Another outlaw, Kilpatrick, was mortally wounded at the time Carver was killed.

Next Friday, in all probability, the news will flash over the wires to all sections of the civilized world from Denver, N. M., that "Black Jack" is dead. On that day he will be hanged and with his death there will only be two or three men on earth who were members of the most famous train robbing gang since the days of Jesse James. Word has reached Mr. Reno that an attempt will be made to rescue Kilpatrick from the two men on the way from Santa Fe to Clayton. Carver and Weaver died with their boots on—Carver while resisting arrest and Weaver after insulting a girl. The death of Weaver, however, was published in the newspapers a few days ago. The death of Carver, however, was not known by Special Agent Reno until yesterday.

OUTLAWS FILLED WITH LEAD.

Carver, for whom there has long been a standing reward by the Colorado & Southern railroad and other railroads and express companies, for train robbery, was killed by Sheriff Bryant of Sutton county, who notified and gathered a posse to arrest the two outlaws. During the day, one of my milliners was taking evidence to convict him. Carver was one of the most desperate men this country has ever known. "Black Jack" is, without doubt, one of the worst desperadoes ever in the southwest. There are now not more than three or four of the gang living, and so far as I know they are separated. I don't think that they will ever again bother the railroads.

Marion Kooke, manager of T. M. Thompson, a large importer of fine millinery, at 1658 Milwaukee avenue, Chicago, says: "During the late severe weather I caught a dreadful cold which kept me awake nights and made me unable to attend to my work during the day. One of my milliners was taking evidence to convict him. Carver was one of the most desperate men this country has ever known. "Black Jack" is, without doubt, one of the worst desperadoes ever in the southwest. There are now not more than three or four of the gang living, and so far as I know they are separated. I don't think that they will ever again bother the railroads.

The stomach controls the situation. Those who are hearty and strong are those who can eat and digest plenty of food. Kodal Dyspepsia Curo digests what you eat and allows you to eat all the good food you want. If you suffer from indigestion, heartburn, belching or any other stomach trouble this preparation can't help but do you good. The most sensitive stomachs can take it.
