SUPREME COURT!

Several Important De-
cisions.

Mrs. Nation Heavily Fined in
Kansas City.

Patrick Murder Trial Again Post-
poned by the Court.

DEATH OF NOTED BOOK PUBLISHER.

Washington, April 15.—The United States supreme court today decided several cases involving the validity in one state of divorce decrees granted in other states. The court held practically that in cases in which the decree is granted in states where the husband and wife made their legal residence it is valid in any part of the United States, but in other cases in which there is no legal residence in the state in which the decree is granted they are invalid.

In the United States supreme court an opinion was handed down today in the case of Fairbank vs. the United States. The case involved the constitutionality of the law revenue law imposing a tax upon export bills of lading. The court decided against the government, holding that provision of the law unconstitutional. The opinion was handed down by Justice Brewer. Justices Harlan, Gray, White and McKenna dissented.

MARRIED AT CERRILLOS.

A Wedding in High Life in the Little Town Above This City.

Cerrillos, N. M., April 15.—Miss Agnes McNulty, daughter of J. P. McNulty, superintendent of the Tinian Turquoise mines, was married at her home at Turquoise yesterday to Albert Kohler, of El Paso. The ceremony was performed by Rev. Father Dille, of Santa Fe, in the presence of a large number of invited guests from Cerrillos and the surrounding country. The presents were numerous and costly. Mr. and Mrs. Kohler will be at home in El Paso after April 20.

NEW LAUNDRY MANAGER.

A Sedalia, Mo., Gentleman in Charge of the Imperial.

John W. Bowman, of Sedalia, Mo., where for twenty years he was the "prince of laundry managers" of that city, arrived here last Saturday night, and this morning took charge of "The Imperial" laundry on Silver avenue as manager. Mr. Bowman comes to the city with fine recommendations, not only as a man who thoroughly understands the laundry business, but as a good citizen. His wife and children will join him here sometime in May. C. C. Hall, who is one of the owners of "The Imperial," also returned to the city last Saturday night, after a business trip to Chicago, where he purchased some new machinery for the laundry. Mrs. Hall accompanied him north, and she was left at Liberty. Mr. Hall's relatives and friends for a few weeks.

Gold Democrat Appointed.

Washington, April 15.—The president today appointed John G. Carper, attorney general of the United States for the district of South Carolina. Carper has been attorney in the department of justice about eight years, having come here from South Carolina during Cleveland's administration. In 1896 he refused to support Bryan for president, and again worked against the democratic candidate in 1900.

Sunday Night Fire.

Fire broke out last night between a pile of wood and the frame laundry building of Sam Lee on west Silver avenue. A young man, in passing along the street, first discovered the fire and leisurely walked down to Rupe's grocery store and calmly remarked that a Chinaman's laundry was afire on Silver avenue. When the department arrived on the scene the flames were raging furiously, but the fire ladders soon gained control. The building is owned by Mrs. D. L. Anderson, and the damage will amount to about \$25.

LOCAL PARAGRAPHS.

James D. Eakin journeyed up to the Golden Cockerill today to the interests of the firm of Melia & Eakin.

T. Y. Maynard, the Santa Fe railway watch inspector, is on his regular trip to the stations south of San Marcial to El Paso.

A rock was thrown through a plate glass window in Frank Fracorelli's saloon, on south Second street, last Saturday night. The damage is \$30.

Mrs. Nellie McBride will erect a two-room brick cottage on south Walter street. The contract was awarded to T. L. Wilson, contractor and builder.

O. W. Strong, the well known north central street undertaker and furniture dealer, broke ground for a handsome residence on Fifth street last Saturday.

BRITISH DEFEAT

Gen. French and 500
Men Captured.

Successor of Walker on the
Santa Fe.

Woman in Phoenix Had \$50,000
Worth of Jewels.

CUDAHY KIDNAPER IN TEXAS.

London, April 15.—It is said that a private telegram has been received here to the effect that General French with 500 British troops was captured by the Boers while his force was engaged in a mist on the 12th inst. Confirmation of the report can be obtained. The war office here entirely discredits the report.

Successor of Walker.
Topeka, Kan., April 15.—Benjamin P. Cheney, of Boston, will, in the opinion of some officials of the general offices of the Santa Fe, succeed the late Adolph E. Walker as chairman of the executive committee of the company.

Had Horde of Jewels.
Phoenix, Ariz., April 15.—The death here of Mrs. Robin Iche reveals the fact that unguarded in her house was great wealth in jewels and precious stones. Her husband is in jail awaiting trial for insanity. The sheriff has taken charge of the jewelry, the estimated value of which is \$50,000.

Cudahy Kidnapers.
Dallas, Texas, April 15.—There was a meeting on Sunday morning between County Attorneys of Oklahoma and H. C. Henderson, who asserts that he is one of the Cudahy kidnapers. Shields said it was probable that E. A. Cudahy and son would come to Dallas within a few days to see Henderson.

BISHOP MATZ HERE.

Highly Pleased With the Musical Selections Rendered.

Bishop Matz of the diocese of Denver, arrived in the city Saturday night, remaining over until this morning. The reverend gentleman was here as a visitor to Father Mandarini, who while Bishop Matz, at 7 o'clock mass, gave holy communion to a class of thirty-one boys and girls and delivered a sermon to them appropriate to the occasion. At 10:30 high mass, a sermon to the congregation in general was delivered, the subject of his discourse being "The Resurrection of Christ," proven from a natural standpoint. The sermon was forceful and eloquent to a high degree. Evening service was held at 7:30, when he received the profession of faith from the thirty-one first communicants to whom he had given the communion at early mass. After services the bishop was visited by large numbers of the congregation of the church of the Immaculate Conception.

Bishop Matz congratulated Father Mandarini on the grand music rendered at the high mass work of the church choir, expressing his approval by the statement that the music and choir was the best he had heard in the Rocky mountain region.

Game One-Sided.

The Barrels and old town base ball teams got together yesterday afternoon at the fair grounds, and the result—well Barrels walked the old town boys in good fashion; score, 19 to 5. As a general thing these teams usually play a pretty even game, and the old town boys state that the next time they meet the Barrels the game will not be so one-sided.

BACK FROM FARMINGTON.

United States Gauger Bowman Returns After Official Visit.

George D. Bowman, the United States gauger for New Mexico, returned last night from an official visit to Farmington. He submits the following interesting items:

"Farmington was the first town in the territory to apply for incorporation after the governor signed the bill permitting towns of over 200 inhabitants to incorporate.

"This season promises to be a record-breaker for the San Juan fruit belt. Last year the apricot and peach buds were in bloom March 16th, but up to this time this year no blooms have appeared. Thirty days more and all danger of late frosts will have passed by.

"Oil has begun to interest the people of Farmington. Seepages are frequently found along the banks of the San Juan river.

"Another year and San Juan county's trade will point toward Albuquerque, the commercial New Mexico city. Albuquerque will want their coal and fruit, and they will want our trade and distributing advantages."

STRUCK A GUNNER.

And Developed Another of the Wonderful Resources of New Mexico.

Thomas J. Topham, who for a number of years lived in the arid plain of California, and for the past two years in Albuquerque, was satisfied that artesian water could be found in Coyote canyon, and about three months ago he purchased a tract of forty acres adjoining Coyote springs. He at once employed a force of men in the work of drilling in the mountain on the east side of the canyon. The rock through which the drill passed was so hard that a newly sharpened steel had to be pressed into service at every inch of depth. After drilling for several days under these difficulties the workmen became discouraged, but Mr. Topham said: "With it, boys, the water is there," and so they continued with the work. At the end of a month's work a hole twenty feet in depth was reached in solid rock, and then the drill broke off in the hole. This was too much for the men, so they packed up and came to town to inform Mr. Topham of the unfortunate occurrence. It was hard luck, sure enough, but the energetic and persistent prospector decided to stay with it a little longer. Then a shaft was sunk twenty feet and the broken drill was extricated, after which drilling was resumed and continued until last Saturday, when suddenly the drill dropped into space, as it were, and with a mighty roar as though the hands of a mighty chain had broken loose, up came the long looked for water and gas. J. Lutz, the veteran miner, was heard to remark at this instance: "Never since God

PANAMA CANAL TO BE NEUTRAL.

Peking, April 15.—Li Hung Chang has applied to General Chaffee to leave behind when he departs Captain Tilton and a sufficient number of men to police the Chinese city, as it is believed that the Chinese district will not be well looked after when controlled by other foreigners.

An expedition, consisting of 5,000 German and 3,000 French troops will leave Pao Ting Fu tomorrow to drive from the province several thousand Chinese who refuse to obey the order of Li Hung Chang to keep to the boundaries already arranged.

Market quotations and review furnished by W. P. Metcalf, No. 5 Cromwell block, received over the private wire of F. G. Logan.

Phenix, Ariz., April 15.—There was a short dip in prices in the strong opening this morning, which in turn was followed by a rally, and for the rest of the day the market was strong. New favorites came to the front, however, and the high priced railroad stocks occupied less prominent positions. People's was rose on a preliminary decision in favor of the company in its litigation with the city of Chicago. The steel stocks showed a slight advance, but the Cudahy stock sold on liquidating orders was readily absorbed. T. C. I. and Colorado Fuel were both strong, the sharp rise in the latter being due to the fact that it was a short interest. Con. gas was bought in large blocks at an advance price. Of the traction Metropolitan was the feature. In the railroad list most pronounced strength was shown by the Chicago Terminal, which was the feature. Steel Workers in Pittsburgh Have a Row and Strike.

Pittsburgh, Pa., April 15.—As a result of a dispute that for a week past has involved the employees of the W. DeWeese wood plant of the American sheet steel company at McKeesport, and the company, about half the men are on a strike to-day and the operation of the plant is badly crippled. The cause of the trouble was the discharge of seven men, who, the men claim, were dismissed because they were members of a newly organized lodge of the Amalgamated association.

The event is looked upon as momentous throughout the iron and steel trade of the country, for the fact that it is the first conflict between organized labor and the new United Steel corporation, and because of the fact that it is the first conflict between organized labor and the new United Steel corporation, and because of the fact that it is the first conflict between organized labor and the new United Steel corporation.

PANAMA CANAL.

New York, April 15.—A special to the Herald from Washington says: Specific provision for neutrality of the proposed isthmian canal will be made a new treaty, to be signed by Secretary Hay and Lord Pauncefote, British ambassador. This decision has been arrived at by the president and Secretary Hay after most exhaustive consideration of the arguments pro and con, which convinced them that the highest interests of the country demand the application of the principle of neutrality.
