## THE BOER WAR!

Fighting Continues at Intervals.

Russia Pressing Refractory Students Into Army.

Ottoman Government in a Turmoil of Great Excitement.

### OTHER FOREIGN NEWS.

Cape Town, March 27.—Indecent encounters at daily separated points are reported daily. Fighting took place at Tarkastad and Hennington, Cape Colony. Casualties few.

A commando numbering 200, under Commandant Fourie, was dispersed at Thabanchu.

According to reports received here, the hills above DeWetstorp, just re-occupied by General Bruce Hamilton, were also the scene of a fight, lasting several hours, yesterday.

**Russian Student Executed.**  
Berlin, March 27.—The Vorwaerts publishes "inside news" from Russia to the effect that the number of students enrolled in the army is still increasing and now exceeds 2,000.

An ex-student named Piratoff, who was enrolled, was executed March 22, in Kief, because of insubordination, and two former students, Hyakoff and Lanzotnik, will be tried for similar offenses.

**Strained Turkish Affairs.**  
London, March 27.—Advices from Constantinople are to the effect that affairs are rapidly reaching a dangerous pass there. Turkish finances are in inextinguishable confusion.

There is no doubt that the Ottoman troops received a severe check at the hands of the Arab insurgents, who, in a manifesto denouncing the sultan, proclaimed his brother, Mohammed Resha Effendi, to be sultan, with the title Mohammed V. The young Turk party adhered to the Arabian proclamation. Patrols in Constantinople have been doubled. Mohammedans and Christians are arrested hourly, and large numbers are daily shipped to Asia Minor. The tension between the Bulgarians and Mussulmans in Macedonia is extreme.

**Bubonic Plague.**  
Cape Town, March 27.—The Bubonic plague situation is assuming graver aspects. The proportion of European victims is increasing. Among those attacked yesterday were three soldiers.

**Agreement Not Signed.**  
Pekin, March 27.—The Chinese had not signed the Manchurian agreement last night when the time expired.

**Ordered Not to Be Signed.**  
London, March 27.—Officials of the Japanese embassy confirm the report that an imperial decree has been issued by the court at Sian Fu, through Liu Kun Yi, viceroy of Nankin, ordering that the Manchurian convention should not be signed March 26, the date fixed by Russia. Intimation of this decree has been telegraphed to the various governments concerned.

**Bakers to Strike.**  
New York, March 27.—Of the 15,000 bakers threatening to strike in Manhattan and Brooklyn on the first of May, 5,000 have already decided to strike. M. L. Urey, secretary of the union, declared the strike would be the largest ever known in the city.

**Peaceful Endeavor.**  
Washington, March 27.—Secretary Long today called on order to Admiral Rogers, on board the cruiser New York, at Tangier, to proceed at once with the vessel to Manila. This is an abandonment of the plan to have the New York convey United States Consul General Gumpert from Tangier to Manzanilla. It is the purpose of the state department to endeavor to adjust the claims against Morocco without any show of force and in the ordinary practice of diplomacy.

**Released from Custody.**  
Chicago, Ill., March 27.—Myrd J. Smith, former manager of the Chicago Elevator company, was today released from custody and the remaining five indictments against him were quashed by the decision announced.

**Run Over and Killed.**  
E. J. Goodin, a perambulating printer, who was coming south, met with a horrible death at Thornton last night. He had caught a south bound freight train, but in swinging onto the rods, missed his hold and fell under the wheels. His body was crushed to death, and when his clothing was searched a typographical membership card in the Colorado Springs union was found. It is understood here that his remains were shipped to Colorado Springs.

**Pneumonia follows la grippe.**  
Mrs. R. L. Jackson, who has been visiting Mr. and Mrs. Negus the past few months, left this morning for her home in New York.

Rock Island Denies Consolidation With Mexican Road.

New York Railroad Capitalists Secure Mexican Concessions.

### THE MARKET QUOTATIONS.

New York, March 27.—The Tribune says: The acquisition of the Chicago, Burlington & Quincy Railroad company by Northern Pacific and Great Northern interests, which for many weeks has been regarded as a certain development in the near future—and that, too, despite the emphatic and comprehensive denials of President James J. Hill—is now, by common consent, practically accomplished. Reports all agreed that the Burlington's stock was to be retired in exchange for 2½ per cent collateral trust bonds guaranteed by the Northern Pacific.

**Nebraska Dead-End.**  
Lincoln, Neb., March 27.—With but one more day left on which to ballot for United States senator, the vote today showed little change. Senator Arden, who has been voting for D. E. Thompson, caucus nominee, changed to vote for C. M. Dwyer, of Nebraska City, saying that it was time to desert all the candidates and take up new ones.

**Murder in the First District.**  
Special to The Citizen.  
Las Cruces, N. M., March 27.—February 21st, Toribio Huerta murdered an unknown man near Cambray station, on the Southern Pacific road in this county for \$43. He was arrested the same night at El Paso and brought here on March 9th. He was indicted and tried on the 25th and 26th. Last night the jury returned a verdict of murder in the first degree.

**A Train in Water.**  
Utica, N. Y., March 27.—A train on the Delaware, Lackawanna & Western ran into a washout three miles south of Norwich last night. The railroad embankment had disappeared, leaving the track and train in a hole about eight feet deep. The passengers escaped with a general wetting. The train stands in water running nearly to the top of the windows.

**At Sherburne the Venango river was higher than since 1864.**

**Japan's Stand.**  
Yokohama, March 27.—At a meeting of his parliamentary adherents, Premier Marquis Ito, referring to foreign politics, said Japan had attained a position enabling her to protect her legitimate interests and to take whatever steps the exigencies of the moment required. It was impossible to deny Japan feels the influence of the complications connected with her neighbor, and does not ignore the clouds on the horizon.

**"Rush of Business."**  
Saturday night, during the opera house fire, a large number of spectators were served with meals at the Midland restaurant, in fact, so many orders were given that the proprietors were unable to supply their patrons with Sunday dinners, as stores were closed, making it impossible to replenish the larder to an extent enabling them to serve their customers. The restaurant was, therefore, closed on Sunday morning, since which time the doors have remained closed. It is understood the Midland will resume business in a few days and remain open thereafter day and night.

Insurgent Ringleaders to Be Hung.

British Protest Against China's Convention.

Texas Wheat Threatened With Destruction by Fly Pest.

### THE SUGAR WAR ENDED.

Manila, March 27.—General MacArthur has approved the sentence of the military commission which tried the leader of a Philippine secret society known as Mando-Ducata, who murdered Quezobing, native president of the town of Calamba on May 1, 1900. Five ringleaders of the Mando-Ducata were sentenced to be hanged at Calamba on April 5, one to imprisonment for life and four to imprisonment for twenty years.

**A British Protest.**  
Washington, March 27.—A dispatch was received today from one of the foreign offices to its representative stating that the British government had made a protest against China's negotiating a convention with any power touching territorial or financial affairs until the present troubles with China are settled. The protest was made through Sir Ernest Satow, British minister at Peking, within the last day or two. The British action is clearly directed against the Russian agreement.

**Texas Wheat Damaged.**  
St. Louis, Mo., March 27.—A special to the Post-Dispatch from Austin, Texas, says Colonel Jos. Gantier, of Sherman, says that the entire wheat and oat crop of northern Texas is threatened with destruction by the fly pest. Texas last year produced twenty million bushels of wheat and thirty million bushels of oats. This year the acreage of wheat is slightly less than last year, while the acreage of oats is slightly increased.

**Sugar War Ended.**  
Toledo, Ohio, March 27.—Though the suit in the supreme court of Ohio in the war between the Arbutus and the American Sugar Refining company, has not yet been withdrawn, that action will be withdrawn and the bitter fight between the two companies is at an end. Both will handle sugar and coffee, and the price will be governed entirely by the price of the raw material.

## NEWS IN ABBREVIATED FORM.

Superintendent F. C. Fox is on a visit to southern points in his private car.

Charles Snyder, formerly brakeman, is now a freight conductor on the Santa Fe Pacific.

Marcus J. Anderson, a boilermaker of Raton, has been transferred to Las Vegas temporarily.

Roman Romero, of Las Vegas, has accepted a position with the Santa Fe company at this place.

The Glorieta mountain helper, No. 625, is in the Las Vegas shops for repairs and general overhauling.

William G. Meares, fireman, passed a successful examination at Winslow, and is now engineer on the Santa Fe Pacific.

An investigation into a slight wreck near Albuquerque, puts the blame on Conductor Connors, and in consequence, he has quit the service of the Santa Fe.

Brakeman Evans had the misfortune to injure his arm at Glorieta recently so that he is compelled to lay off. Brakeman Slade is on duty in his place.

Thomas Evans, who went to La Junta a few days ago to take the examination for engineer, returned to Las Vegas with no success, a fireman, having successfully passed.

It is understood that the Santa Fe company, together with the Fred. Harvey company, are planning to build a half a dozen new eating houses along the lines west of Albuquerque.

W. H. Cameron, clerk in the office of Superintendent Ayer, at La Junta, Colo., has resigned his position to accept another as chief clerk to Superintendent Hurley, of the California division.

C. E. Elliott, formerly employed by the Santa Fe railway at Las Vegas, is now round house foreman, and who was later transferred from La Junta to Las Vegas, stopped off in that city the other day, as he was returning to La Junta.

An important meeting of railway men was held in Cleveland, Ohio, at which the one-cent rate was proposed for the Grand Army of the Republic encampment, to be held at Cleveland next September, was formally promulgated.

Henry Hubbell, who has for the past year been employed as chief clerk at the Las Vegas round house, accompanied by his wife, left yesterday for Manila, P. I. Mr. Hubbell is well known to every railroad man in New Mexico as the "railroad man's friend."

The plans have been drawn for a new depot and hotel at Raton, to be built by the Santa Fe Railway company. Work will begin on the structure about the first of May. Raton is a division point on the railroad and has the largest shops between Atchison and California, excepting Albuquerque.

The Ogle says: A gentleman in position to find out, states, upon authority that he deems competent, that the daily delay of passenger trains on the Santa Fe is due to the policy adopted by Third Vice President J. H. Barry, in his endeavor to fulfill his agreement with the company to reduce the operating expenses a million dollars a year.

Orders have been given at the local shops to begin cleaning up the outside for the early commencement of work on the big additions to the Albuquerque shops, a description of which have already been published in The Citizen. Thomas Burns, chief engineer of the Santa Fe Pacific, and Assistant Moore, who is also an architect, have looked over the grounds, and everything is now in readiness.

On the telegraphic page of the Journal-Democrat this morning, there appears three articles under big headlines, has endorsed the course of the Santa Fe, and the Journal-Democrat is still unable to tell the public that any degree of credence may be given to the story. Sour grapes.

The new foreman of the boiler-makers department of the local shops, Mr. Madden, is an enthusiastic lover of the national sport of horse ball, and would like to see a game every Sunday afternoon, whether it rains or shines. It is dollars to doughnuts that the boiler-makers will be represented by a base ball club this season, and that Colonel Madden will put forth efforts to make the club a good one.

The Journal-Democrat, whose critic objects to the way that Webster's unabridged dictionary spells certain words, has entered into the fray, and has practiced of finding fault with every railroad article, especially a big piece of news, that doesn't first find publication in that paper, and now is represented by a base ball club this season, and that Colonel Madden will put forth efforts to make the club a good one.
